That result can come only if men will recognize Christ as the King of their lives and nations will receive His Word as their law. Let us proclaim His truth and the gospel of His grace anew, and win all we can to Him.

Isaac was a man of peace. He was a rather ordinary man, one of the common people, but his life is both interesting and instructive. He had come through varied experiences of victory and defeat before the time of our lesson. Fearing a famine, and apparently not trusting God at the moment, he had gone down from the promised land to the country of the Philistines, there redigging the wells which his father Abraham had dug. The result was that he prospered. Ere long, however, envy on the part of his enemies taught Isaac that one may expect

I. Strife in the World (vv. 19-21).

Isaac had prospered, but he was still out of the promised land, and while he was in the land of Philistines he could expect no permanent peace.

We are in the world. We long for peace, and would throw all our influence and service into the cause of bringing a righteous peace to the troubled peoples of the world. But let us not be misled by that desire into the support of unscriptural and impossible peace programs. This world is a sinful world, and as long as that is true, there will be strife and war.

Our business in such a world is to preach the gospel of grace, winning men to Christ, that they may become men of good will. Isaac was such a man, willing to yield even what seemed to be his right, rather than cause contention.

Undoubtedly there are times when one must defend his name and his possessions, but all too often those who do "stand for their rights" have wrecked homes, churches, and nations, and have gained nothing but an empty victory.

The peace of this world is temporary. Is there then no real abiding peace and joy?

II. Joy in God's Fellowship (vv. 22-25).

When Isaac came up into Canaan, the land which God had promised to him, he found real peace and an abiding joy in renewed fellowship with God. Even so, the Christian man and woman who will step out of a spiritually destructive fellowship with the ungodly world and come over wholeheartedly into the spiritual Canaan of full consecration and separate living, will find true peace and satisfying communion with God.

III. Testimony in Right Living (vv. 26-31).

These men were wicked men, even speaking falsehood in their claim of friendship toward Isaac (v. 29). Now that they perceived that God was continually blessing Isaac in spite of their repeated injustice toward him, they decided it would be well to make a covenant of friendship with him. Even those who follow the way of war and aggression cannot deny the effectiveness of true Christian testimony.

Observe also that by his patience and kindness, Isaac ultimately made friends out of his enemies. "It is better to turn enemies into friends than to beat them, and have them enemies still." And so this man with the patient, self-sacrificing spirit brought peace not only to himself, but to those about him, because he believed and trusted God. "When a man's ways please the Lord, he maketh even his enemies to be at peace with him" (Prov. 16:7).

IV. Blessing in Service (vv. 32, 33).

The thing to do when the selfishness of others is about to cause strife is to go and "dig another well." If we will do that, we will find that God has been there ahead of us and prepared a rich flow of fresh water with which we may refresh and encourage ourselves.

Isaac's men said, "We have found water," and he then named the place Beersheba, which means "the well of the oath," referring undoubtedly to God's fulfilled promise to bless him. He had found the way of peace, fellowship and blessing, because he had gone God's way.

SEWING CIRCLE NEEDLECRAFT

Curly-Headed Doll in a Pinafore

THE lucky little "mother" of this curly-headed rag doll will be the envy of her playmates. Dolly's plump arms and legs are movable.

This cute 15-inch rag doll has embroidered features, yarn curls. Easy to make. Pattern 7077 has pattern, directions for doll, clothes.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

Send your order to:

Sewing Circle Needlecraft Dept.
564 W. Randolph St. Chicago 80, Ill.

Only U. S. Free Port Did a Huge Business

Before the war closed many of them, about 50 cities in the eastern hemisphere maintained a free port, or a foreign trade zone, in which goods from other countries could be stored, processed, repackaged and reshipped abroad without the payment of import duties, says Collier's.

Of the six free ports in the western hemisphere, the only one in the United States was completed at Stapleton, Staten Island, New York City, in 1937 and has handled as much as $88,600,000 worth of merchandise in a single year.

ASK ME ANOTHER?

A General Quiz

The Questions

1. What is the difference between marriage and matrimony?
2. Poona is a game which originated in India many centuries ago and is now called what?

SLOAN'S LINIMENT

The World, the Peace and Andy Gribbin

An important thing about Andy Gribbin's education is that his whole early life is spent in learning the essential business of *cooperation*, of *getting along* with fellow-beings.

First, he has to learn how to fit into his immediate family, learn the give-and-take necessary to get along with brothers, sisters, elders.

Then, after a few years, his world enlarges, he is sent to school. Pretty soon he learns how to spell C-A-T. *But about this same time he learns something much more valuable, which is that he mustn't pull the cat's tail because a cat is a being, and therefore entitled to certain inalienable rights.*

He also learns that 1 plus 1 equals 2. *But much more useful is learning that 48 equals 1, that 48 states make 1 nation, indivisible, with liberty and justice for all.*

As Andy grows up his world will continually expand. At church, at school, in business. And through it all will run the theme of cooperation, of getting along with people of different religious, political and economic beliefs; with people some of whom he doesn't even like.

But—the tragedy of world history is that the Andy Gribbins have not learned that in a constantly shrinking world, cooperation must extend beyond the borders of the country; that just as it is necessary to get along with neighbors and neighbor states, so is it necessary to get along with *neighbor nations.*

And today, with no spot on earth more than sixty hours away by plane, with oceans shrunk to the width of rivers, with the age of rocket-travel upon us, *all* nations are *neighbor* nations.

There are hopeful signs that finally we are awake to this.

Even so, a lack of determination, of responsibility, of effort could again ruin the peace and set the stage for World War 3.

What can you do to help make sure that war will never come? You can . . .

First, get and *keep* yourself informed about the *specific* proposals for peace and international cooperation which are now before us.

Second, interest your friends in these questions. Get them discussed in groups to which you belong.

Third, write what you think to your Congressman and Senators, to your newspaper. Declare yourself.

Local Happenings

Klemme and Vicinity

Miss Irene Schmidt has gone to Des Moines to take a course of study in beauty culture work.

Mr. and Mrs. Ira Overholt attended services Sunday morning at the U. B. Church at Goodell.

Ben Lau entered the University hospital at Iowa City Thursday for treatment.

Mrs. Sumner Trumbell was at Waterloo the past week visiting with her sister.

Pfc. and Mrs. Harmen Trampel and son Larry, came home Wednesday from Camp Chaffee, Arkansas for a 15 day furlough.

Mr. and Mrs. Frank Ward were dinner guests Sunday at the home of Mrs. August Ridder and Harold near Miller.

Mrs. Gerald Koerner has a hollyhock growing in her yard that is really "up in the air." The stalk is nine feet tall and still growing.

Seaman and Mrs. Cecil Katter are enjoying a vacation this week at a cottage at Clear Lake, as Seaman Katter is home on furlough.

Rev. and Mrs. H. E. Harvey returned home Friday from the Lake Okoboji Methodist Camp where they enjoyed a few days vacation.

W. F. Pavey has added some new welding equipment at his shop and is now able to handle extra heavy work, as well as light welding of all types.

Capt. Harold Kothenbeutel is back in the states. He called his father by long distance Friday saying he would be home on leave. He arrived home Monday.

Lt. Lyndon Kilgore came from Ft. Dodge to spend a few days visiting with his brother-in-law and sister, Mr. and Mrs. Joe Burgess and family, and with his many old friends in this community.

Mrs. Emilie Arnold, Mrs. E. J Arnold and Evelyn, and Miss Helen Albers enjoyed the water carnival at Clear Lake Friday evening, and also visited with Mrs. Elmer Larsen and children.

The Northern Lumber Co. has adorned the front of their office yard with a nice rustic fence. We understand they also have these fences, complete with arches, for sale.

Mr. and Mrs. R. W. Elder; and Mr. and Mrs. Clarence Elder and children, Martha and Charles, of Ames, were entertained at a weiner roast at the John Waddingham home Friday evening.

Geo. Schoenwetter was overcome by heat last Wednesday while helping with harvesting in the country. George had recovered in a couple of days and was able to be up and around gain.

Mr. and Mrs. Clarence Elder and children, Martha and Charles, of Ames, came Thursday and visited until Saturday at the parental R. W. Elder home, when they left for Wisconsin to spend their vacation at a cottage and enjoy fishing.

The Rock Island railway company's weed burning machine went through here Thursday, burning grass and weeds in the local yard and along the tracks, both north and south of town. It did a fine job.

Mr. and Mrs. E. J. Arnold, and Mr. and Mrs. C. A. Larsen and La Vohn Caroline attended services at the Methodist Camp at Okoboji on Sunday, and visited until Monday with Rev. and Mrs. Wm. Zabilka at the Merrill cottage.

Sunday was "vacation day" at the Klemme and Liberty Methodist churches. Rev. H. E. Harvey and family and Mr. and Mrs. R. A. Jorgenson attended morning services at the Wesley Methodist at Mason City, of which Rev. Paul Petersen is the pastor.

Early gardeners have been sending in reports the past week on the "first sweetcorn in the roasting ear stage." C. G. Waterman and family enjoyed "corn on the cob" on Sunday, July 29th, while Mrs. Daisy Lemke and Mrs. R. A. Jorgenson had their first sweetcorn of the season on the table Aug. 2.

Lt. Lyle Wilcox called his wife on long distance from near New York Thursday noon stating that he had landed that morning and would be leaving for Jefferson Barracks, Mo., from which place he would come home on a thirty day leave. Mrs. Wilcox left Saturday night for St. Louis to meet her husband and accompany him home. He has been overseas for two years. Lt. Wilcox and wife arrived in Klemme Tuesday morning.

RIVER development and flood control rank high on the list of America's post-war plans. Many of these projects call for dams which may also produce electric power.

This involves issues that should be discussed and settled now—*rivers to cross in advance.*

Many of us in the power business have had a long experience with riverside plants, in the production of both steam-generated and hydro-electric power. In fairness to all taxpayers and in the interest of the many million users of electricity, we think we ought to outline our convictions and suggestions on river development and flood control.

1 When a dam is proposed, all of its purposes should be clearly defined in the legislation—flood control, navigation, irrigation or power. And just as clearly, the benefit to the people affected should justify the cost.

2 If power is produced at government-built dams, it should be sold to existing power systems, without special privilege or discrimination. This will save the expensive duplication of transmission facilities, help to co-ordinate the entire power supply of each region, and assure its widest possible use at the lowest practical rates.

3 Any savings made possible by this plan should be passed along to the users of electricity, under regulation by State Commissions or other properly constituted regulatory bodies. This will assure all the benefits of river development and hydro-power without the added expense of government going into business and competing with its own citizens.

4 Government in *any* business endangers *all* business. Government in business escapes many normal business obligations, enjoys free mail, pays no federal taxes, and few, if any, other taxes, little or no interest. If government can sell electricity on this basis, it can sell shoes, groceries, automobiles, or anything else the same way. Government may properly *regulate* business in the public interest but should not *operate* business. It should not play in the game for which it makes the rules. In other words, *government should not try to be umpire and pitcher at the same time!*

Sgt. and Mrs Donald Turgasen arrived in Klemme from Chicago last Wednesday, where they had been for a few weeks visiting with the former's brother, Donald and family.

Sgt. Turgasen, who is a son of Mrs. Sadie Turgasen of Klemme, recently received an honorable discharge from the Army under the point system He served with the armed forces through Africa, Sicily and Italy.

Mrs. Turgasen, the former Marie Stille. has been teaching in the Klemme high school.

PFC. JOHN CLEMENTS HOME FROM OVERSEAS

Pfc. John Clements arrived in Klemme from 2 years service overseas. He is home on a thirty day furlough which he will spend with his wife, the former Juanita Pavey and little son, Jimmy. He entered the service on September 1, 1942 and left the United States for overseas on September 20, 1943 and was stationed in England for a time before going into France and Germany. Before the war he was employed as a mechanic at the Northern Lumber Company Implement Shop.

CONTRACTOR COMPLETES HANCOCK COUNTY DITCH

Needles and Cummins, contractors. have finished their contract for digging the main open ditch in Drainage District No 138 and have moved their equipment to near Goodell where they are now at work digging the open ditches in District No. 139, which was recently established.

The contractors also recently completed the clean-out of Lateral No. 12 of Drainage District No. 1 and 2 near Eagle Lake The latter project was made necessary when the dam broke at the spillway at Eagle Lake causing a rush of water which carried with it the debris that filled the open ditch with silt.

PEACE TERMS TO BE SIGNED IN MANILLA FRIDAY

END OF WAR WITH JAPANESE ANNOUNCED BY PRESIDENT TRUMAN MONDAY AT 6:00 P. M.

—V—

Nation Began Celebrating When News Was Flashed To The World Of Japan's Unconditional Surrender

World War II came to an official end at 6:00 P. M. CWT, Tuesday, August 14, 1945 when President Truman announced to the Nation the Allied Powers had accepted Japan's Unconditional Surrender terms This greatest of all news had been awaited tensely by the world for the past few days, and when the announcement came, people released their pent-up emotions and every town and city in the United States and the Allied Nations began celebrating in one form or another.

Klemme celebrated briefly but enthusiastically when the news broke. The fire whistle was blown, church bells rang, fire-crackers saved for several years were shot off, owners of shot guns shot off precious ammunition being saved for the hunting season, the fire truck was brought out and the siren kept going while the truck toured the town, cars with horns screetching drove up and down the main street. It was a noisy affair for an hour after which people settled down to give the news more serious thought and to thank God that the awful conflict was over at last.

Over the Methodist Church outdoor sound system, Mayor W. C. Keraus addressed the citizens of the community and announced that V-J Services would be held at both Klemme churches on Wednesday evening at 8:00 o'clock. He asked the citizens to unite at these services to give thanks to God for ending the war.

In accordance with the President's orders, Mayor Keraus proclaimed that Wednesday, August 15th should be observed as a holiday in Klemme and that all places of business remain closed for the entire day, and that all flags be displayed.

As we go to press there is still some fighting going on and arrangements are being made to bring the Japanese Emperor and other high Japanese officials to Manilla, P. I. to sign the surrender terms and peace treaty.

Miss Thelma Berhow Weds Darwin Boller

BOTH YOUNG PEOPLE ARE GOODELL HIGH GRADUATES

Mr. Boller Is Proprietor Of Filling Station At Goodell

Mr. and Mrs. Alvis Berhow of Goodell announce the marriage of their daughter, Thelma, to Darwin Boller, son of Mayor and Mrs. H. E. Boller of Goodell. The Rev. Carleton Spencer performed the single ring ceremony in the United Brethren parsonage on Saturday, August 4th The couple was attended by the bride's brother-in-law and sister, Mr and Mrs. Raymond Michaelson.

The bride and bridegroom are graduates of the Goodell high school. Darwin enlisted in the navy but received a medical discharge. He clerked in the Evenson store one year and since January has been manager of the Standard Oil Highway Service station at Goodell.

Mr. and Mrs. Boller are residing in Goodell.

MRS DARWIN BOLLER
(Courtesy Globe-Gazette)

HANCOCK OFFICIALS MEET TO STUDY WAR SURPLUS

The Hancock County Board of Supervisors. Penn Eckels, Frank J. Schoun and John Chambers, and County Engineer C F. Merten and County Auditor Fred C. Missal will attend a meeting this Wednesday of Highway District No. 2 at the Hanford Hotel in Mason City.

The meeting was called to familiarize county, town and city officials with the disposition of surplus war machinery and material which will be made available to municipalities shortly.

Officials from the war surplus commodity board will advise officials on the method of procedure to obtain surplus war machinery and material.

NUEHRINGS CELEBRATE BIRTHDAYS AT MASON CITY

Members of the Nuehring family held a reunion and picnic dinner at East Park, Mason City, to celebrate the birthdays of the family falling in August.

Those present were Mr. and Mrs. Fred Nuehring and daughter Charlotte of Klemme; Mr. and Mrs. Irvin Nuehring of Kanawha; Mr. and Mrs. W. F. Nuehring and Janet, Mrs. Elsie Peterson, Mrs. Evelyn Johnson and family, and Ernest Schwichtenberg, all of Mason City; Mr. and Mrs. Alvin Nuehring and sons, Mr. and Mrs. Lester Nuehring, Mr. and Mrs. Elmer Nuehring, all of Rockwell; Mr. and Mrs. Floyd Vanderhoef and daughters of Charles City, and Corporal and Mrs. Otto Stone and son, Willis of Des Moines.

It was voted to have another picnic and family gathering on the first Sunday in August next year.

Cloud Burst And Flash Flood Struck Here Monday Night

4-H ACHIEVEMENT SHOW IS NEXT

WILL BE HELD MONDAY AND TUESDAY AT GARNER

Expect About 300 Entries; Many Events Scheduled

Entries are arriving for the Hancock County Junior Achievement Show at Garner, Monday and Tuesday, August 20 and 21. The exhibits will be presented by 4-H boys and girls, and F. F. A. boys. Approximately 200 entries in livestock and poultry are expected. They will include approximately 60 baby beeves, 40 dairy calves, 15 colts, 50 pigs, 10 sheep, 4 purebred beef heifers, and the remaining in poultry.

Victory Garden exhibits will be placed in the opera house where the 4-H girls will exhibit and stage their program.

All livestock projects are to be in place at 8.00 a. m. Monday, Aug. 20, at the sales barn. The tentative judging schedule is as follows:

Monday, Aug. 20:

Wilbur Plager, Judge. 9:00 a. m Purebred Pigs. Market Pigs, and Sheep.

Floyd Johnston, Judge. 10:30 a. m. Dairy Calves.

Wilbur Plager, Judge. 1:30 p. m. Baby Beeves.

Tuesday, Aug. 21:

Vern Butz, Judge. 9:00 a. m Poultry.

Judging Contest for all boys at 10:00 a. m.

The following have been appointed Superintendents:

Baby Beef: LeRoy Bredlow
Colts: Emery Schaefer
Swine and Sheep: Floyd Friedow
Poultry: Albert Kern
Dairy: Elmer Abele.

Assistants will be selected by the Superintendents. Entries and record books will be taken care of by Miss Robert Noe. Weighing and tagging calves will be in charge of Owen Taylor and Dean Nerdig.

The annual 4-H and F. F. A Beef Sale wil be staged at the Garner Sales Barn at 2:30 p. m. Aug 21, announces Paul Henderson, the County Extension Director.

A night watchman will be hired to watch the livestock both nights and all boys will be expected to stay at home or wherever their parents arrange for them. No boys will stay at the barn.

Each exhibitor should bring his own feed, pans, halters, pails, forks, straw, hay, brushes, combs, etc. Swine showmen should have hand hurdles.

4-H Girls Have Exhibit

The 4-H club girls will have the following schedule of events at the opera house: Exhibits of Food Preservation; Club Booths; Victory Garden Products; Demonstrations and Reviews of the work being done in the clubs.

The exhibits will be on display from 11:00 a. m. Monday to 4:00 p. m. Tuesday. Beginning at 1:30 p. m. Monday, club demonstration teams will demonstrate some of the practices learned, and other club members will dramatize practices learned in their clubs.

On Tuesday afternoon, beginning at 1:30, the judge will review her judging and give constructive suggestions in regard to the products exhibited. Following this there will be several interesting films shown with a sound movie projector. Some of these films will be in color. They will depict canning processes, meat cookery and good nutrition, all of which have been a part of the club work during the past year.

The public is invited to attend the programs on both days and to inspect the exhibits.

MOST BASEMENTS IN TOWN WERE FLOODED

Residents Claim Six To Eight Inches Of Water Fell Here

Klemme and vicinity was struck by a cloud burst which began at about 7:00 o'clock Monday evening, the full furry of the downcoming at about 7 30, flooding the streets in many places with a foot of water. The flash flood came with such suddeness that storm sewers were unable to carry the large volume of water, with the result that drains and sewers began to back up and fill basements with water. Many basements had over two feet of water in a few minutes. Damage was caused to oil and stoker furnaces, electric wash machines and other appliances in basements, and in many basements canned fruit and other articles were floating around.

Two inches of water covered the floor in the Times plant, causing some delay in getting out the paper this week. Water seeped through sidewalls and basement floor faster than an electric pump could take it out.

The Klemme Park had all of the appearances of a small lake. Water flooded the community hall and the pressure from outside broke down the south basement door.

The alley ways at the Northern Lumber Company were all water and the force there worked with boots on.

There was a regular lake back of the lumber yard and the community hall parking lot.

Water went over the highway south of town near the Wm. Lacey farm, and southeast of town near the John Costello farm.

The river and all creeks were overflowing and low lands were vast ponds.

A number of fields of shocked oats were flooded and bundles of oats floated around and banked against fences.

The rain here was accompanied with very little wind. Northwest of Garner, heavy winds and rain attended a number of corn fields

This was one of the biggest and hardest rains this community has had for several years.

WAS OVERSEAS

(Courtesy Globe-Gazette)
M-SGT. WM. SANDREY

M-Sgt. William Sandrey, son of Mr. and Mrs. Frank Sandrey, of Klemme, arrived from Italy last week after 19 months overseas service, and will recuperate at home for a month. He entered the service more than 3½ years ago, and was in communication work. He went overseas via South America. At the conclusion of his furlough he will report at a camp near Chicago, for reassignment.

delicious variations, too, if you have a good basic recipe:

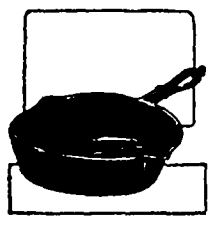
Custard Base Ice Cream.
2 cups milk
⅔ cup sugar
2 tablespoons cornstarch
3 eggs
1 cup heavy cream
1 teaspoon vanilla

Scald 1½ cups milk and add all but 2 tablespoons of the sugar to it. Add cornstarch and salt to remaining ½ cup milk. Add to milk which has been heated in top part of double boiler, stirring occasionally. Beat 3 egg yolks and 1 white, add the hot custard and return to double boiler to cook for 5 minutes. Chill. Beat 2 egg whites with the remaining sugar until stiff and add to chilled custard with vanilla. Finally add cream which has been beaten until thick but not stiff. Freeze without stirring.

Ice Cream Variations.

Banana: Crush three bananas through potato ricer, adding 2 tablespoons lemon juice. Add to custard before adding egg white.

Caramel: Heat the sugar of the above recipe in heavy skillet stirring until melted and light brown in color. Add ¼ cup water and stir until smooth. Cook the cornstarch with the milk and salt and add the caramel plus 1 tablespoon of sugar. Proceed as directed above.



Chocolate: Melt 1½ to 2 tablespoons of chocolate over hot water adding to custard while hot.

Coffee: Scald ⅓ cup finely ground coffee in the milk, then strain through three thicknesses of cheesecloth. Proceed as above, adding ½ teaspoon almond flavoring.

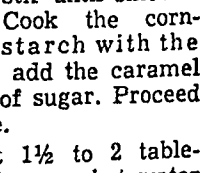
Mint: Add ⅛ teaspoon mint extract for vanilla. Tint the ice cream a delicate green. Or, if mint extract is not available, melt 1 cup crushed or ground mints in milk. Tint pink or green, as desired.

Peach: Add 1 cup crushed peaches, ⅓ cup sugar and ¼ teaspoon almond extract. Omit vanilla.

Now we come to an interesting variation in the meat department. When you want to dress up pork chops for company, here are two excellent suggestions. They are stuffed to stretch the meat.

Pork Chops I.
6 thick pork chops (cut pocket alongside bone)
2 cups toasted bread cubes
Salt and pepper to taste
2 tablespoons parsley
4 tablespoons fat
1 can tomato soup

Stuff pork chops with toasted bread cubes and parsley. Pin together with a toothpick. Sear chops on both sides in skillet. Season with salt and pepper, add tomato soup, cover and cook over low heat for 45 to 60 minutes.



Pork Chops II.
6 thick pork chops, cut for stuffing
1½ cups cooked rice
2 pimientos, shredded
Salt and pepper to taste
2 tablespoons lard or substitute

Stuff pork chops with a well seasoned mixture of rice and pimientos. Pin with toothpick. Sear chops until golden brown. Season with salt and pepper, and add ½ cup water, cover tightly, and cook until tender.

Veterans' SERVICE BUREAU

[EDITOR'S NOTE: This newspaper, through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.]

Getting Your Old Job Back

IF YOU, now a discharged veteran, worked for a private employer or for the federal government on another than temporary basis immediately prior to your entry into the armed forces, you are entitled to get your job back or one substantially equivalent in every respect, if:

(a) you completed your military service satisfactorily;

(b) you are qualified to perform the duties of the position;

(c) you apply for re-employment within 90 days of your discharge;

(d) and if the employer's circumstances have not changed so as to make it impossible or unreasonable.

Having met the above conditions, you cannot be dismissed without cause for the period of a year. Report any difficulty to your local selective service board.

If you want a new job, go to the U. S. Employment Service office nearest you as soon after your discharge as possible.

If you were a federal Civil Service employee when you entered the armed forces apply to the agency where last employed within 90 days of your discharge.

Questions and Answers

Q.—I am on a 30-day furlough from an army hospital, awaiting an artificial arm. Can I get a job with this handicap?

A.—If you have a service-connected disability which results in an occupational handicap such as you describe, you can be taught a new type of work, after your final discharge from the hospital, and you will probably find the handicap will be no disadvantage. You may be trained in college, business, or trade school, or on the job with a business firm. Tuition, books, supplies and equipment will be supplied at government expense. During training, if your pension is less than $92 per month, it will be increased to that amount if you are single. If you are married, your pension during your training period will be $103.50 a month with an extra $5.75 for each child and $11 50 for each dependent parent. Apply to your nearest Veterans Administration office, U. S. Employment Service office or the local superintendent of schools.

If your disability is not service-connected, or occurs after you have left service, and constitutes a vocational handicap, you may apply to your State Board of Vocational Education for guidance, special training and placement. If you are in financial need, other services available include medical treatment, hospitalization, maintenance and transportation during training, education supplies, occupational tools and equipment. Disabled dependents may also be entitled to vocational rehabilitation under this program.

Q.—How long can I wear my uniform after I am discharged from the army?

A.—The regulations provide that you may change into civilian clothes immediately or wear your uniform until you reach home, provided this does not take more than 90 days.

Q.—Am I required to report to my registration board after I am discharged from the army?

A.—Yes. Once the veteran reaches home he is required to report the facts on his separation to his selective service board within 10 days. The veteran then receives a new registration card and a new classification card. Honorably discharged veterans are classified 1-C and are not liable for induction.

Q.—Does the government pay interest on guaranteed loans under the G.I. bill of rights?

A.—The Administrator of Veterans Affairs will pay interest on the guaranteed amount of the loan (not to exceed $2,000) for the first year.

Q.—How long after discharge do I have to pay my private life insurance premiums which were guaranteed by the government when I went into service?

A.—If you arranged with the government to guarantee your private life insurance premiums, payments together with interest must be brought up to date within two years after your discharge. Better check with your nearest Veterans Administration office or with your own insurance company.

Q.—How much mustering-out pay should I receive?

A.—If you have served in the armed forces less than 60 days, you receive $100; 60 days or more, but no foreign service, $200; 60 days or more and foreign service, $300. Payments are $100 upon discharge, the rest in $100 monthly installments. Certain groups are excluded, such as those receiving base pay (not counting fogies) of more than $200 a month at the time of their discharge. Apply to your own branch of the service if you have had any difficulty.

THE PRIVATE PAPERS OF PRIVATE PURKEY

Dear Ed.—Well, the ban on me fraternizing with them Kraut frauleans is lifted and it may be necessary for the brasshats to slap the rule on again to keep up interest in them. Them dames don't look half so good now that there is no law against them.

—•—

That word fraternizing was a hot one to drag in when the four letter word "neck" would of done. I had to live 23 years, get in a global war and go all through Africa, Italy, France and parts of Germany to find out that when I am delivering a sales talk on myself to a doll I am guilty of "fraternization in the first degree."

—•—

Well, anyhow, it was tough to win a war and be told you had lost the pecking privileges. Moonlight is moonlight in all languages and in war or peace. Imagine winning a global shindig and getting told that nothing goes with it that can roll its eyes or give with baby talk!

—•—

I am all for busting up the Kraut general staff, wiping out the Nazis and making a new Germany, but I still stand for romance, lend lease and I never did think that in order to make Germany a demockracy we have got to keep G.I.s from looking up telephone numbers.

—•—

So when the ban on fraternizing was lifted it was good news even if nobody had not paid no attention to it. Interest has fell off badly since it's become okay to go for them frauleans. They do not look too good except when they are hard to go get. When there is no ceiling on them they lose glammer. They toe in, they ain't much on shapes and them German dressmakers should be included among the war criminals.

—•—

I think the hairdressers should be put on the war crimes list also.

—•—

The frauleans made it tough for the G.I.s all during the fraternization ban by making most of the advances. They was for freedom of the squeeze from the start and I seen lots of times when they put out pickets in front of our barracks and carried signs which read "These G.I.s Unfair to German Girls."

—•—

Of coarse, it was all hooey and the ban never had no chance. Love laughs at locksmiths and it busts buttons off its vest giggling at brasshats. Take it from me a lot of G.I.s is coming home with German girls as brides. It happened in the last war and it will happen in this. It is even a good thing the Big Three is married.

As ever,
Oscar.

BATTLE CRY
Let's take another pokio
At badly battered Tokio;
In times the Japs will knowkio
That war is not a jokio.

* * *

THE OLD DAYS

The American Transit association announces that the trolley car is far from dead. There are 118 electric car companies in the country. They carry 60 per cent of all riders in urban areas. Thirteen billion fares were carried last year. This cheers us up. Tender memories of our boyhood included those of the trolley car. The Sunday ride on an open trolley to Savin Rock, Momauguin or Lighthouse Point was pretty exciting stuff. The whole town seemed to turn out for that kind of a trip on Sunday, and in the afternoon passengers were clinging to every inch of the running-boards.

—•—

The fight to get a seat when the rush set in to get home was something. Pop used to go up around the bend, hop aboard the car then and grab a couple of seats which he would struggle to hold until mom and the kids could clamber on. The open car has pretty well disappeared. New York, strangely enough, still operate some. They had it all over the closed car or bus for coolness, comfort and fun.

* * *

A WAR WIFE'S WHIMSY

(With apologies to some well-known writers of light verse)

"Oh, life is a cycle of music and song,"
And the war years have been just dandy;
And the peace is a thing that can hardly go wrong—
And I am Mohandas K. Gandhi!

* * *

Happy Chandler has formally signed at $50,000 a year to take Judge Landis' place as baseball czar. That's a lot of money to be spent just to prove that Landis was not the type.

* * *

Reno, hit by the ban on railroad travel, is establishing a plane service between New York and that city to keep its divorce business from going sour. Now it will be pretty clear what a wife means when she says, "I'm so angry with you I could fly."

WANT TO BUY A JEEP NOT TOO CHEAP?

OPA has set a ceiling price of $1,090 f. o. b., Toledo, Ohio, plus taxes and the customary trade additions for transportation, handling and optional equipment, on the civilian jeep, the peacetime counterpart of the military jeep built for the armed forces. The jeep is being priced as a new product in the automotive field, and the pricing action is not connected in any way with reconversion pricing of new 1945 passenger cars.

The jeep never before has been manufactured for civilian use. Some of the military equipment will be eliminated on the civilian jeep, and it will be redesigned in many particulars to bring its specifications into line with those desired in a small truck. It will continue to have a four-wheel drive which adds to the cost but provides the vehicle with greater traction for use as a tractor in hauling heavy loads or cultivating farm crops.

CLIFFORD ESTLE HIRED AS GOODELL TOWN MARSHALL

The town council of Goodell has hired Clifford Estle as marshall custodian of the water pumping station and manager of the community building.

Anton Boller, who had been the town marshall under 13 mayors and was in charge of the water system for the past 5 years, and Nel Chelsvig who was in charge of the community building the past few years, both resigned their positions recently.

GOLDEN WEDDING CELEBRATED

MR. AND MRS. J. B. SPITLER MARRIED 50 YEARS

Honored At Home Of Their Son On Sunday, August 12

August 12, 1945, the Golden Wedding Anniversary of Mr. and Mrs. John Spitler of Belmond, former residents of the Klemme community, was celebrated at the home of their son, Mr. and Mrs. Howard Spitler, northwest of Klemme when relatives and a few old friends were invited to spend the day with the honored guests.

A delicious picnic dinner was served at noon and the afternoon was spent informally. A short program was part of the entertainment and the bride and groom of fifty years were presented with many nice gifts and cards from relatives and friends by Rev. F. M. Peterson of Bondurant.

At the dinner, the table for Mr. and Mrs. Spitler was beautifully decorated with yellow flowers. A three-tired cake decorated in gold and white served as the centerpiece.

After the program guests were treated to ice cream and a cake baked by Mrs. Tom Hartwig and Mrs. Ed. Coyle, Jr.

The following is a list of the guests present at the gathering:

Mr. and Mrs. H. W. McIntyre of Denver, Colorado; Mr. and Mrs. Jack Lutz of Alden; Mr. and Mrs. Art Wompler, Arlene and Donna, and Miss Grace Wompler of Holmes; Mr. and Mrs. Henry Wade and Pearl of Garner; Mr. and Mrs. Asa Legge and Richard, and Mr. and Mrs. Wm. Legge of Garner; Mr. and Mrs. Blake Beach and Nancy of Hampton; Mr. and Mrs. Donald Slaiken, James and Perry; Mrs. Florence Dverst; Mr. and Mrs. Lawrence McCutcheon, Robert and Marilyn; Mr. and Mrs. Asa Reichter, Mrs. Edith Reichter; Mr. and Mrs. Vernon Reichter, Jean and Marvin, of Goldfied.

Mr. and Mrs. P. V. Veldhouse, and "Butch," Mr. and Mrs. Dwane Veldhouse; Mr. and Mrs. Rene Schaller and Phyllis, of Kanawha; Mr. and Mrs. Dale Veldhouse, Joann, Roberta and Lanome of Renwick; Mr. and Mrs. Geo. Hartwig and Mitchel of Alexander; Mr. and Mrs. August Hartwig; Mr. and Mrs. Edwin Hartwig, Sandra and Harlyn of Thornton.

Mr. and Mrs. Herald Veldhouse and Dorene; Mrs. Rohada Besgrove; Miss Gale Besgrove; Mr. and Mrs. Henry Tesdahl of Clarion; Beverly Lerdal of Belmond; Mr. and Mrs. Wm. Veldhouse and Janice of Garner; Mr. and Mrs. Ed. Coyle and children of Garner; Hannah D. Riley; Mr. and Mrs. Ted Weedman of Webster City; Mr. and Mrs. M. M. Wonsmos and Joyce of Thornton; Mr. and Mrs. Frank M. Peterson and Myrl, of Bondurant.

Mrs. Lena Schroeder, accompanied by her grandson, Dickie Ingle, returned to Klemme Monday. Mrs. Schroeder had been at Waukesha, Wis., for a visit with her daughter and family.

BETTER IOWA GARDENS

Virus disease, observed in a number of gardens this year, results often from shipped-in plants. Results of the disease are dwarfed plants with misshapen leaves, which are sometimes discolored. Little or no fruit is produced by such plants. And they should be removed from the garden as soon as disease symptoms are observed. Virus disease in tomato plants is readily transferred from infected plants to healthy ones. The disease also may be spread by the gardener working among the plants, especially when they are wet, and it may be transmitted to pepper plants. Much of the trouble from virus disease could be averted if gardeners planted only certified plants or those grown locally.

* * *

Tomatoes prefer a moderate and constant supply of moisture. A mulch of straw or other material around the base of plants helps to maintain this. However, tomatoes don't thrive with excessively rainy weather which may result in the fruit not setting or failing to ripen readily.

* * *

Every garden should have a compost heap. A corner in the back part of the garden may be selected, and all healthy waste plant materials thrown there. Discarded cabage leaves, discarded flowers or fallen leaves should be placed on the heap. When such material is decomposed, it is excellent to apply to the garden or to spade under. When this is done every year, humus content of the garden soil is kept up. Too many gardens are cropped year after without returning anything to the soil except some chemical fertilizers. The decomposed organic matter is needed first of all.

* * *

Compost heaps are easy to maintain. About a foot of refuse should be spread out in a layer and covered with about an inch of soil. Layer after layer may be added in this way. Application of some chemical fertilizer such as sulfate of ammonia will hasten decomposition. Sprinkle limestone on each layer of refuse. A shady place is best for a compost heap.

CONSERVE AND PRESERVE

There's no need to let fruits go to waste because the sugar bin is empty. Most fruits, if they are really ripe, have an excellent flavor canned without any sugar and are especially fine to use for salads.

Take peaches, for instance. Pick out only those that are dead ripe, yet still firm. Handle them just as if you were going to use sugar. Scald, plunge into cold water and peel. Cut into halves, quarters or slices.

Use No Sugar

While doing this scalding and peeling, pick out 3 or 4 of the ripest peaches, mash them and bring to a boil. Don't add any water; the mashed fruit makes its own juice. Then drop enough peaches to fill a quart jar into this juice and again bring to a boil.

To prevent darkening of the peeled fruit before you get around to pre-cooking it, keep it in a salt bath made by adding a tablespoon each of salt and vinegar to 2 qts. of water. Then rinse the peaches in clear water before cooking.

After they come to a boil, pack the hot peaches into jars and add 1-8 to 1-4 teaspoon salt to each qt. This brings out the best peach flavor. Then cover the peaches with the same sugarless cooking liquid. Whatever peach juice is left can be used as a starter for precooking the fruit to fill the next jar.

Precook In Water

Many homemakers prefer plain water instead of mashed fruit as the juice in this sugarless canning method. They start precooking the peaches in just enough water to prevent sticking. After that, because the fruit is fully ripe, it makes the rest of its own juice.

After precooking, packing and adding salt, process in a boiling water bath for 20 minuts, just as if the peaches had been packed with sugar.

This same sugarless pack can be used for any fruit, processing each one the same length of time as if it were packed with sugar. Homegrown fruits are best to can unsweetened, because they can be left on the tree until fully ripe.

ELMER MEINDERS, S 1-c HOME ON A FURLOUGH

Large Number Of Relatives Enjoy Gathering At Klemme Park

A picnic and family gathering, attended by a large number from Klemme, Buffalo Center, Titonka, and other points, was held in the Klemme Park, Sunday, in honor of Seaman Elmer Meinders, 1-c, son of Mr. and Mrs. John Meinders, who was home on a furlough. He will return to duty again next week after spending his furlough here with his parents and his wife and daughter Linda.

Those present at the gathering and picnic dinner were: S 1-c Elmer Meinders, wife and daughter, Linda; Mr. and Mrs. John Meinders and Mildred; Mr. and Mrs. August Josten and children; Mr. and Mrs. Erwin Nuehring and family; Mr. and Mrs. Alfred Jurgemeyer and family; Mr. and Mrs. Earl Nuehring and sons, all of the Klemme community.

The following were all from around Buffalo Center: Mr. and Mrs. Henry Meinders and sons; Mrs. Will Kardoes and Anko; Mr. George Meinders and children; Mr. and Mrs. Herman Gruis and Jennie; Mr. and Mrs. Ben Gruis.

Mr. and Mrs. Richard Gray and Ardell; Dorothy Gray; Mrs. Dick Meinders, and Mr. and Mrs. Herman Harms and children of Titonka.

Mr. and Mrs. Fred Rockow and Gerald of Dows; Mr. and Mrs. Henry Bunken and family of Britt; Mr. and Mrs. James Trasch and family of Mason City; and Mr. and Mrs. Luke Wessels and Lorraine of Belmond.

After enjoying a fine picnic dinner all enjoyed visiting and renewing acquaintances.

KLEMME NEWS

Mr. and Mrs. Walter Blumer and family were Mason City visitors Friday afternoon.

Mr. and Mrs. Clarence Bachman were visitors at the Walter Blumer home Sunday evening.

Mr. and Mrs. Levi Klotzbach moved to the Wessel house west of the depot Tuesday.

Mr. and Mrs. Ed. Thompson attended the flower show at Ames Sunday and Monday.

Mrs. Verle Keraus, Mickey and Kay of Garner, spent Tuesday visiting with Mrs. Lynford Back.

Mrs. Raymond Wille has gone to Brownsville, Texas for a visit at the J. M. Neuberger home. She accompanied the Neubergers on their return trip home.

Pvt. Paul Barz came home last week to spend a furlough visiting with his parents, Mr. and Mrs. Herman Barz.

Mrs. Asa Arnold and baby of Dysart, Iowa, came Monday evening for a visit at the F. A. and F. J. Arnold homes.

Frank Gibbs, former Klemme resident is now in Honolulu, Hawaii where he is employed as manager of a life insurance company.

Sgt. Asa Gibbs of Minneapolis, came Saturday evening to spend a few days furlough at home with his parents, Mr. and Mrs. Harry Gibbs.

Many of the boys out in the Pacific sometimes have difficulty in procuring stationery on which to write home. Here's a suggestion: when you write them, also enclose a light envelope and sheet of air-mail paper for them to reply on. The Times has extra light envelopes and paper. Include a box of stationery in his Xmas box. 1tc

Last week J. W. "Bill" Johnson purchased the old Gruetzmacher Building in Klemme, present location of the post office and apartments. Mr. Johnson has plans to fix up the entire building and do some remodeling. He also hopes to secure a shoe repairman to take over the former repair shop back of the post office department. A barn at the rear of the building has already been torn down and rebuilt into a modern garage.

BOARD APPOINTS MEMBERS ON SOLDIERS RELIEF

Dan E. Williams of Britt has been appointed to the Hancock County Soldiers Relief Commission to succeed Swan Rapp of Britt.

Other members appointed by the Board of Supervisors are Rufus Welter of Corwith, and Chester Rice of Garner.

PICNIC HELD FOR SOLDIER

CLEAR LAKE STATE PARK IS SCENE OF GATHERING

A picnic dinner honoring Pfc and Mrs. Harmen Trampel and son Larry of Camp Chaffee, Arkansas, was held at the Clear Lake State Park, Sunday.

Those prsent were Mrs. August Trampel, Johnnie and Gertie, of Dows; Mr. and Mrs. Fred Carolus, Joyce and Roger of Galt; Mr. and Mrs. Albert Janssen, Larry, Arlene and Dean, and John Trampel of Blairsburg; Mr. and Mrs. Frank Trampel; Mr. and Mrs. Deitrich Holdegrofer and children of Webster City.

Mr. and Mrs. Adolph Trampel and Carl; Mr. and Mrs. Joe Trampel, Ila, Elma; Mrs. Lola Erickson; Mr. and Mrs. Harold Schaa, Keith and Judy; and Mr. and Mrs. Lester Trampel and Gary of Kamrar.

Mr. and Mrs. Ben Schlaa; Mr. and Mrs. Edwin Jensen, of Jewell; Mr. and Mrs. Arthur Conners; Mr. and Mrs. John Trampel, Melbourne and Ronald; Wemkie Cavitt and Robert; Mr. and Mrs. Clarence Trampel and Joanne; Mr. and Mrs. Henry Busse and Mildred, all of near Klemme.

Mr. and Mrs. Byron Penfield of Lemons, South Dakota, were dinner guests Thursday at the Howard Spitler home.

THOSE HOLLYHOCKS ARE GETTING TOO HIGH NOW!

Last week the Times printed a story about a high hollyhock in Mrs Gerald Koerner's garden.

That hollyhock was a midget according to reports coming in from folks who had taller ones to tell about.

From numerous telephone calls we have sorted out the tallest hollyhocks to date· Mrs. Wm. Waddingham has a hollyhock that is 11 feet tall and is widely branched out which makes it really look like a whopper.

Then along comes Willis Bock to claim that a hollyhock in his mother's garden reaches up into a tree 11 feet and 10½ inches!

And now comes the latest! Mrs E J Arnold called up and said she had a highly colored hollyhock in her garden that measured 12 feet tall! That's plenty high

Alright! Let's hear about some tall Iowa corn now

Seaman Verne Greiman, A. M M 1-c from Hensley Field, Dallas, Texas is home on furlough for a visit with his parents, Mr and Mrs Ben F Greiman.

FUNERAL SERVICES FOR BEN LAU WILL BE FRIDAY

Ben R. Lau, 54, died Tuesday evening at 5:30 o'clock following a short illness at the home of his sister, Miss Minnie Lau, Klemme.

Funeral services for Mr. Lau will be held Friday afternoon at 2.00 o'clock at the Klemme Methodist Church with Rev. H. E. Harvey officiating. The Wellemyer Funeral Service will be in charge.

Had Birthday Party

Beverly, daughter of Mr. and Mrs. Don Christiance, was 6 years old Tuesday and in honor of the event her mother gave a birthday party to which were invited 19 of Beverly's little friends.

Games were played and a nice lunch was served by Mrs. Christiance. Beverly received many nice gifts from her friends.

Farmer Suffers Broken Collar Bone When Kicked By Horse

Clarence Lemke, farmer residing one-half mile west of Klemme, suffered a broken right collar bone the fore part of last week when he was kicked by a horse.

Mr Lemke is wearing a cast and will be unable to do any work for several weeks.

O. K. TRUCK ORDER FOR HANCOCK COUNTY

County Engineer Charles F. Merten announces that Hancock county has approval for the purchase of a truck weighing from 9,000 to 16,000 pounds. Hancock county hasn't purchased a truck of this kind since 1941. The county is operating 22 trucks of various kinds at present.

Seaman Visits In Klemme

Seaman V W Pohrson, Electricians Mate First Class, whose home is at Red Oak, Iowa, spent the past week visiting at the J C. Thomas home.

Pohrson, who was with the Seabees had recently returned to the states from service in the Pacific. Friday evening he entertained a number of friends at the Thomas home by showing colored pictures he had taken in the Hawaiian Islands, in the Marianas, and other Pacific islands. A number of pictures taken by Bruce Arnold around the Ames campus and at the Arnold farm were also enjoyed.

Mrs. Thomas and Miss Irene Harms later served a nice lunch.

Mrs. Ed. Jacobs Enteretained The U-Delt-Em Club

The U-Delt-Em bridge club met at the home of Mrs. Ed. Jacobs on Thursday afternoon.

Mrs. Art Kudje won high score; Mrs. George Lawhorn, second and Mrs. A. L. Kingery, third.

The later was a guest.

BUDGET APPROVED

The Board of Supervisors held a hearing on the 1946 budget estimate at the courthouse. No objections were raised and the budget was approved as published. The budget calls for a total tax levy for administrative purposes of $231,000, the same as for 1945 The proceedings of the board and the county budget estimate is being published in The Klemme Times this week.

NOTICE OF PROBATE OF WILL

STATE OF IOWA, Hancock County, ss. IN DISTRICT COURT
No. 2876
TO ALL WHOM IT MAY CONCERN:
YOU ARE HEREBY NOTIFIED, That an instrument of writing purporting to be the last Will and Testament of Mary Becker, Deceased, dated November 14, 1939, having been this day filed, opened and read, Tuesday the 21st day of August, 1945, is fixed for hearing proof of same at the Court House in Garner, Iowa, before the District Court of said County, or the Clerk of said Court; and at 2:00 o'clock P. M., of the day above mentioned all persons interested are hereby notified and required to appear, and show cause, if any they have, why said instrument should not be probated and allowed as and for the last Will and Testament of said deceased.
Dated at Garner, Iowa, August 8, 1945.

ELMER RAW,
Clerk of District Court.
(Publish August 15, 1945.)

OVERSEAS CHRISTMAS GIFTS SHOULD BE MAILED SOON

Postmasters throughout the United States have received notice from the Post Office Department that Christmas mail for members of the armed forces overseas is to be mailed between September 15 and October 15.

Regulations this year are about the same as they were last year. The packages cannot weigh more than five pounds or be more than 15 inches in length, or 36 inches in length and girth combined.

The War and Navy Departments have pointed out that members of the armed forces are amply supplied with food and clothing and the public is urged not to include such matter in gift parcels.

The public can ascertain what articles their relatives and friends overseas can secure locally by correspondence with such person and should limit their gifts to articles not readily obtainable by the recipient.

While it is still some time before September 15th, it is not too early to begin planning of the Christmas gifts you plan to send to those in the service this year.

HANCOCK COUNTY REAL ESTATE TRANSFERS

W. F Butz and Christina, to Vern I Butz. Quit Claim Deed, 8-3-45, $1 00. North 147 feet of lot 3 and 6, block 2, Seymour's Add to Concord

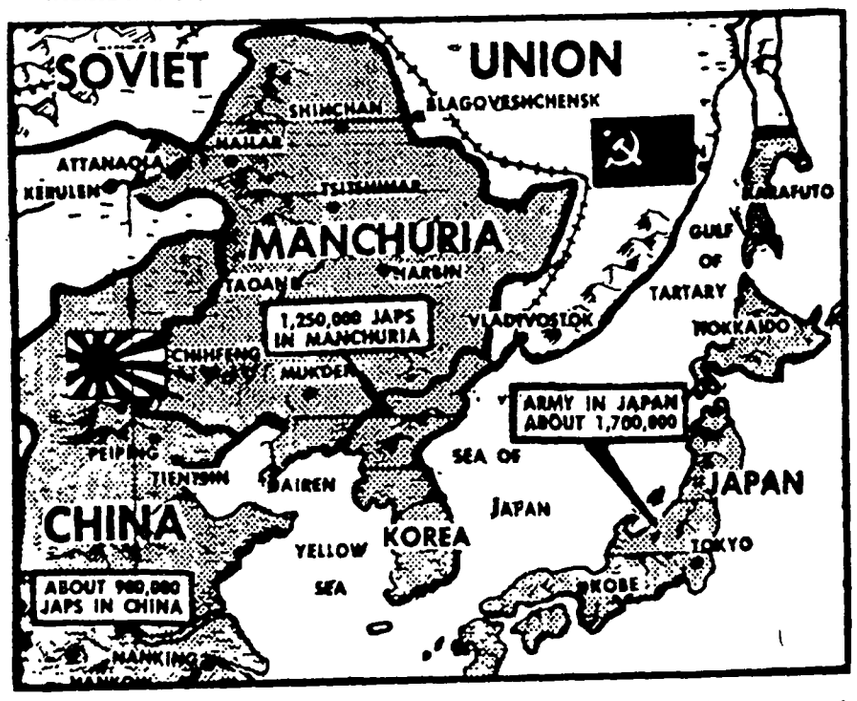
WEEKLY NEWS ANALYSIS

Internal Reform Faces Britain, But Diplomacy to Remain Same; Allies Give Japs Peace Terms

Released by Western Newspaper Union.

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)



With the war in the Pacific in the decisive stage, map shows disposition of Japanese forces throughout Asiatic theater.

GREAT BRITAIN:
Future Outlook

Though profoundly affecting Great Britain's internal economy, the sweeping victory of the Laborites in the first general election since 1935 is not expected to appreciably alter the country's foreign policy based on maintenance of the empire to assure comparatively high living standards.

Notwithstanding the fact that the Laborite triumph represented the ascendancy of leftism in the United Kingdom, the fact remains that the country is so dependent upon the empire for raw materials and markets to support its industrial structure that retention of ties abroad, strength on the seas and control over vital bases undoubtedly will remain the substance of its foreign policy.

Laborites Attlee, Morrison, Bevin.

With Laborites ruling, concessions may be made to Leftist elements in Europe and elsewhere, but in overall policy, Great Britain's historic diplomacy will remain essentially British.

At home, however, tradition-bound old Britain may be in for a radical remodeling, with the Laborites' platform for nationalization of industry tempered by the amount of private management that will be tolerated. Under Prime Minister Clement Attlee, former Minister of Labor Ernest Bevin and ex-Minister of Home Security Herbert Morrison, goals of the Laborites include:

Consolidation of all railroads, commercial carriers on highways and coastal shipping into one transportation unit under government control; nationalization and mechanization of all coal mines and improvement of working conditions by increasing production; socialization of the iron and steel industry and the Bank of England.

SECURITY CHARTER:
Fight Ahead

With only a scorching address by Senator Wheeler (Dem., Mont.) marring the even temper of the debate, the United Nations security charter headed for quick senate ratification, with indications that the big battle lies ahead when the upper chamber will consider the power of the U. S. delegate and the contribution of armed forces.

Declaring that like President Wilson the late Mr. Roosevelt had jeopardized the prospects for successful postwar collaboration by concessions to the major European powers, Wheeler himself foreshadowed an impending fight over details of U. S. participation. Though he would vote for ratification, he said, he would do so only on the strength of statements that the senate would later work out operational arrangements.

Prior to Wheeler's speech, Senators Connally (Dem., Texas) and Vandenberg (Rep., Mich.) advocated ratification, stressing that the security pact in no way affected U. S sovereignty but did provide the country with an opportunity to exercise its self-determination for effective international co-operation to prevent future warfare.

PACIFIC:
Allied Terms

Trembling under the bombardment of Allied air and naval forces, Japan was threatened with even greater catastrophe by U. S., British and Chinese chieftains unless the nation gave up the hopeless fight and set about the establishment of a peaceful and democratic rule.

The Allied answer to rampant peace talk, the U. S., British and Chinese declaration issued in Potsdam where the Big Three met, called upon the enemy to rout its militaristic leadership, relinquish control of conquered territory, and submit to occupation for fulfillment of terms. In return, political and religious thought would be respected, and Japan eventually permitted to resume its place in foreign trade.

Though issued from Potsdam, Russia conspicuously refrained from joining in the declaration, lending credence to reports that the Soviets had acted as middlemen in a Jap peace overture, expressing willingness to comply with major Allied terms, but asking for exemption from occupation of the home islands.

Even as the Allies called upon Japan for unconditional surrender, Admiral "Bull" Halsey's mixed U. S. and British aircraft carrier force continued its heavy attacks on Nippon, with one great 1,200-plane strike further battering the enemy's already stricken navy.

Sweeping in against minor opposition, Halsey's Hellcats ripped up 20 Japanese warships in the Inland sea, with three battleships, six aircraft carriers and five cruisers damaged. As a result of the attack, the enemy reportedly has few warships in commission, with most of these being cruisers and destroyers.

In addition to hammering the Japanese fleet units, Allied carrier pilots continued to whittle down enemy air strength, and also further disrupted coastal shipping linking the home islands by firing cargo vessels and small barges.

FRANCE:
Petain Accused

As the dramatic trial of Marshal Henri Petain moved smoothly following a stormy outburst on the opening day over a barb by Prosecutor Andre Mornet that there were too many German-minded spectators present, none of the principal witnesses against the old soldier openly accused him of betraying his country. They charged he failed in his duties as a Frenchman.

Nevertheless, former Premier Paul Reynaud and Eduard Daladier and ex-President Albert Lebrun rapped Petain unmercifully for negotiating an armistice with the Germans while an effort was made to keep up the fight; assuming supreme power and virtually ruling by decree, and acceding to Nazi requests for manpower and material.

In testifying for the state, Daladier declared that France was not as weak materially at the time of her defeat as generally suspected, but fell because of errors in conception on the part of the general staff. Declaring the Germans were amazed to find huge quantities of equipment on hand, he said France possessed 3,600 tanks at the time of the invasion of Holland and Belgium to the enemy's 3,200.

VET TAXES:

Servicemen have been exempted from paying several kinds of taxes by the action of state legislatures convening this year, the Federation of Tax Administrators reports.

Tax exemptions which servicemen have been granted include those for income, property, veterans loans and motor vehicles. In addition, one state has exempted estates of deceased servicemen from taxation and two states have abated unpaid taxes of persons dying in service.

Natives Go American

Time was when natives of a Pacific isle came around seeking food and clothing from marines. Now they want athletic gear, says Sgt. Red O'Donnell.

Indoctrinated in American sports by Third division marines, they have become enthusiastic softball and volleyball players. Fields have been built in several villages, natives playing all day Sunday and in the late afternoons.

PRICE CONTROL:
To Stick

Despite the impending relaxation of price control over minor items, firm regulation will be maintained over principal products and services until supply balances demand so as to avert postwar inflation, OPAdministrator Chester Bowles declared.

In loosening up on price control on minor items, OPA will take action when the commodity or service is not essential; continued regulation involves difficulties out of proportion to the importance of the product, and no materials, facilities or manpower will be diverted from more necessary industries.

Because various manufacturers will be in the market for vast quantities of raw materials to fill orders, and civilian demand for essential goods, food and many services will far exceed supply, maintenance of price control in the immediate postwar period will be required for curbing runaway prices, Bowles said.

WAR CONTRACTS:
Keep Cutting

With war production down 9 per cent from the peak level of March, the impact on the economy will grow as more reductions are made on actual work rather than on paper commitments. By the end of the year, munitions output is expected to drop 32 per cent below the March figure.

Whereas cancellations of paper commitments comprised 31 per cent of the cutbacks in April and 14 per cent in May, such reductions made up only 5 per cent of the total in June.

Reflecting cutbacks, aircraft production was down 10 per cent in June under May; ships, including maintenance and repair, down 5 per cent; guns and fire control, down 13 per cent; ammunition and bombs, down 16 per cent; combat and motor vehicles, down 8 per cent; communications and electronic equipment, down 5 per cent, and other material and supplies up 1 per cent.

Matador Up in Air

Unusual photo shows Matador Canitas tossed into air off of bull's head during fight in Madrid ring. But slightly hurt, the dashing Canitas resumed the duel to ultimately thrust his sword through animal's heart and win the match.

UNITED NATIONS:
Relief Requests

Having already distributed $296,563,000 worth of relief to Greece, Italy, Poland, Czechoslovakia, Yugoslavia, China and Albania, the United Nations Relief and Rehabilitation administration (UNRRA) has been asked for $700,000,000 of assistance by Russia.

At the same time, Deputy UNRRAdministrator Roy F. Hendrickson revealed that trucks constituted the No. 1 priority for relief shipments to facilitate the movement of European crops.

Under UNRRA regulations, uninvaded nations are supposed to contribute both toward the relief and administrative expenses of the project, with the invaded countries chipping in only for running the organization. Of the $1,862,788,348 of authorized contributions of participating nations, it was revealed, the U. S. share amounts to $1,350,000,000.

SUEZ TOLLS:
U. S. Balks

With U. S. troops pouring through the Suez canal en route to the Pacific, and with toll payments already mounting to over $11,000,000, the government again pressed the British to absorb such charges under reverse lend-lease.

In pressing the British, American authorities pointed out that the U. S. defrays the cost of British ships passing through the Panama canal, with such payments already past the $9,000,000 mark.

Because the lend-lease act provides that a country can supply aid from purchases with its own money, the British say they are not obliged to pay the canal tolls, since they must be made in Egyptian currency. As it is, the British declare, they already owe Egypt large sums for wartime purchases.

TROOP TRAINING:

An intensive training program faces veterans returning to the United States from Europe before they are sent to the Pacific theater. The ground forces redeployment training program includes 44 hours of training a week, with lectures, group discussions, orientation courses and movies furnishing background for the course.

Training subjects include Japanese tactics and technique and identification of Japanese weapons, uniform, insignia.

Washington Digest

Domestic Problems to Test Truman's Mettle

Harmonious Relations on Foreign Policy Soon To Give Way to Contention Over Difficulties of Reconversion.

By BAUKHAGE
News Analyst and Commentator.

WNU Service, Union Trust Building, Washington, D. C.

The political armistice in Washington will end shortly after the President's return from Berlin. The Big Three meeting followed so closely on the heels of the San Francisco conference that foreign affairs have dominated the scene almost to the exclusion of domestic matters, which sooner or later must test the mettle of the new administration.

Another reason, perhaps, why President Truman's honeymoon has been extended is the fact that the main issue before the country, the United Nations charter, has been robbed of its partisan flavor. This is largely due to the long and arduous efforts of former Secretary of State Hull. He built up a working understanding on foreign affairs between the administration and the congress, which resulted in the whole-hearted co-operation of most of the leaders of both parties, sturdily supported by public opinion.

Secretary Hull was able to achieve this harmony because of the confidence in which his former colleagues held him and also because of his experience as a member of the legislative branch of the government. Roosevelt could never have been as successful in this endeavor and, because he realized that fully, he left the matter largely in Hull's hands.

Chief Still One of the Boys

In the first place, President Truman stepped directly from the upper house to the vice presidency, and ever since he left the legislative branch for the executive, he has been acting as liaison between the two.

Shortly before President Roosevelt's death I had occasion to interview the then vice president. I talked about the forthcoming San Francisco conference with him (as well as the field artillery, of which we are both alumni). He indicated that he was holding aloof from any public participation in the discussions of international affairs but was attempting to carry on and to complement the work of Secretary Hull in promoting a sympathetic discussion of the Dumbarton Oaks agreement with members of the senate foreign relations committee, the house committee on foreign affairs and others.

One of his first unorthodox acts was to take lunch with some of his old colleagues at the Capitol. This was almost as if the king of England were to attempt to enter the City of London without first having a formal parley with the lord mayor. But it was a perfectly natural act on Truman's part—like his spontaneous remark to the effect that there was a certain Chinese restaurant where he would like to eat while he was on the West coast. On second thought he realized that, as President, he couldn't do such a thing and admitted it with a smile.

The President's informal visits to the Capitol haven't hurt him. Nor his formal ones. After his last appearance, when he delivered the charter, he lingered so long in the senate chamber, shaking hands and patting backs, that an aide had to hint gently that he wasn't a senator any more and must hurry back to his work.

His cabinet appointments are highly significant. Truman's secretary of state, James Byrnes, is not only a former senator, but a former Supreme court justice. Byrnes provides an understanding link with the judicial branch as well as with the legislative. The secretary of the treasury, Fred Vinson, is a former member of congress as well as an ex-judge. Secretary of Agriculture Anderson is not only a former member of congress, but was head of the house food committee, which directed some of the most serious criticism against the former administration's handling of the food situation. This committee is now working closely with the new cabinet member.

While Secretary of Commerce Wallace does not bring to his department the close associations of the men over whom he presided as president of the senate, the scope and function of his office has been considerably reduced by the reorganization of the department and so is not a source of friction. In his secretary of labor, President Truman has a man who was exceedingly popular in the senate—another judge—Lewis Schwellenbach.

Vice President Truman shortly before his elevation to the presidency discusses politics and artillery shells with Baukhage.

Fear Influence Of Party Bosses

Of course, when it comes to questions like the poll-tax and the fair employment practices act or any other measure in which the race question is involved, the old friction arises with the southern congressmen and any Republicans they can attract to their cause. Also, while there are those who say that the President is steering a course much farther to the right than President Roosevelt did, he nevertheless is committed to a number of the so-called New Deal "reforms," both because of his record in the senate and because of his natural leanings. However, since Truman is known to be a strong party man, it will be easier for him to keep the southern Democrats in line.

Of course, some of the radical New Dealers are doing a lot of eyebrow raising behind the bushes and a remark (perhaps written with tongue in cheek) which appeared in the Wall Street Journal sent shivers down some spines. That newspaper, which hardly depends on Democratic support for its circulation, said recently: "Not since the short-lived administration of Warren Harding has there been the prospect of teamwork as exists today."

If the results of the Berlin meeting are such that they reveal a marked improvement in Big Three relations and a harmonious settlement of some of the difficult international problems, the President's prestige will be greatly increased. However, by that time domestic discontent will be crystallizing, the honeymoon will be on the wane and the President will need all the "teamwork" he can muster.

If the Japanese war should, by any chance, end suddenly—before another year—it would mean that reconversion, threats of inflation and unemployment and a hundred other problems will be upon us and President Truman will be stripped of his protective authority as Commander-in-Chief. Then the slings and arrows which even Roosevelt's enemies were wont to deflect to congress and other government agencies will be aimed squarely at the man in the White House. Peace will not be too peaceful at 3200 Pennsylvania avenue.

BARBS . . . *by Baukhage*

Under the able direction of Harold McGrath, superintendent of the senate radio gallery in Washington, radio men were taken care of to the queen's taste. The big chains built excellent temporary studios at conference headquarters and all the separate stations were well taken care of, too. Hundreds of recordings were made and shipped out by airmail.

Field offices of the Federal Housing administration are now accepting from private lending institutions applications for the insurance of principal loans supplemented by loans under Section 505 of the G.I. bill. The veterans' administration guarantees an equity on such loans not to exceed $2,000 where the principal loan, which must comply with FHA regulations, is insured by FHA.

Uncle Sam Reports on His Real Estate Deals With His Red Children; He Bought 2,600,000 Square Miles at Average of 48 Cents an Acre

By ELMO SCOTT WATSON
Released by Western Newspaper Union.

ECENTLY the department of the interitor issued a new ored map, the first of its kind, ich shows how Uncle Sam ce 1790 has acquired the na- 's public domain from 66 ncipal Indian tribes by some treaties and numerous acts congress. A study of this map ows that these cessions by the man constitute about 95% the public domain, or some- g like 2,600,000 square miles. so far as the aggregate cost this land was approximately 0,000,000—that means a little re than $307 a square mile or proximately 48 cents an acre would seem that Uncle Sam tainly got a bargain in these lings with his red children.

n a statement issued at the time map was released, Secretary old Ickes of the department of Interior declared that "while stions are still frequently raised to whether the Indians received prices for their land, the rec- s show that, except in a very cases where military duress was sent, the prices were such as to sfy the Indians. Discussions of hancement of land prices from inal costs to the present esti- ed value of nearly 40 billion lars only lead to idle specula- . There is no equitable basis of e comparison then and now.

"Some Black Pages."

While the history of our dealings the Indians contains some k pages, since the days of the y settlers there has been a fixed cy based upon the principle of purchase and sale in dealings ween the native inhabitants of land and the white immigrants. o other continent has any seri- attempt ever been made to deal a weak aboriginal population hese terms.

While the 15 million dollars that paid to Napoleon in the Louisiana chase was merely in compensa- for his cession of political au- rity, we proceeded to pay the In- tribes of the ceded territory e than 20 times this sum for such s as they were willing to sell. eover, the Indian tribes were enough to reserve from their ions sufficient land to bring an income that each year ex- s the amount of our payment to oleon."

is true, as Secretary Ickes says, in the majority of cases the ans probably received a fair e for their lands since there is quitable basis of value compari- but it is doubtful if the Sioux, Nez Perces, the Modocs and the cas—to name only a few—would e with Mr Ickes that the "prin- e of free purchase and sale" had observed in their dealings with Great White Father. Certainly have reason to regard his treat- t of them as some of the "black es" which the secretary men- , in which "military duress" very definitely present.

Louisiana Territory.

ce Mr Ickes mentions the Lou- a Purchase, it might be well amine briefly the record of our rnment's dealings with one of aboriginal occupants of that re- the Sioux. For generations Dakotas had occupied a vast ire along the Missouri river, in- ng most of the present states of h and South Dakota and parts ebraska, Wyoming and Mon- Gradually their territory had reduced by a series of treaties they held only their choicest ng grounds in the Black Hills, Powder river country and the Horn mountains.

t was guaranteed to them, by Fort Laramie treaty of 1868, as rmanent reservation" and, be- , they were granted, for as long ere were buffalo on the plains, right to hunt on any land north Platte." This reservation was considered "unceded Indian tory" in which "no white per- r persons shall be permitted to or occupy any portion of the or, without the consent of the ns first had and obtained, to through the same." Moreover, agreed that no subsequent should be considered valid s executed and signed by at three-fourths of all the adult Indians occupying and inter- in the same."

government kept its promise less than a year. Four months after the President had proclaimed the Fort Laramie treaty, General Sherman (noted for his only good-Indian-is-a-dead-Indian philosophy) issued an order that all Indians not actually on their reservations were to be under the jurisdiction of the army and "as a rule will be considered hostile." Then came the announcement that the Northern Pacific railroad was to be built across the northern part of the Sioux hunting lands and soon afterwards the Great White Father sent surveyors, protected by soldiers, into this region without taking the trouble to ask the Sioux for permission to "pass through the same."

In 1874 Gen. George A. Custer and his Seventh cavalry were sent to explore the Black Hills—again without asking permission of the Sioux to

CALICO IN PERPETUITY — An important provision of the treaty of 1794 whereby the United States acquired lands from the Iroquois Confederacy was that there should be an annual distribution of calico among 5,000 members of the Six Nations. This provision is still carried out each year with appropriate ceremonies in observance of perpetual "peace and friendship" with the Iroquois. Shown here at a typical ceremony is Florence Printup, a descendant of old Iroquois chiefs, who received the rolls of calico for distribution.

whom Pah-sah-pah (the Black Hills) was almost sacred soil. Then a newspaper man who accompanied Custer flashed to the world the electrifying news that gold had been discovered in the Hills and Custer's official report not only confirmed this but it was also an ecstatic description of the beauties of that region. The result was inevitable.

'Justified' Treaty Breach.

Prospectors and miners flocked to the new El Dorado. For a time the government went through the motions of expelling the intruders, then gave it up as a hopeless job. Having failed to keep the whites out of the Black Hills, the government's next step was to find some way to justify this violation of the Laramie treaty. A good excuse came when several bands of the Sioux notably Sitting Bull's Hunkpapas and Crazy Horse's Oglalas, who were hunting in the Powder river country (as they had a perfect right to do) failed to return to their reservations within the time limit set by the Indian bureau January 31, 1876. (The fact that it was almost physically impossible for the Sioux to obey this order within the time allowed didn't make any difference to the Indian bureau!)

On February 1 the Indian commissioner proclaimed all Sioux who were not on the reservation "hostiles" and called on the army to round them up. Then followed the campaigns of Generals Crook, Terry, Gibbon and Miles against these "hostile" Sioux and Cheyennes in 1876-77 which either compelled the surrender of the Indians or drove them across the border into Canada. Even before the campaign was over, a commission was sent to treat with the Sioux and arrange for the cession of lands which the Fort Laramie treaty had guaranteed to them "forever."

Concerning this commission, which began its work in August, 1876, Doane Robinson in his "History of the Sioux Indians" (South Dakota Historical Collections) writes:

The commission says: "While the Indians received us as friends and listened with kind attention to our propositions, we were painfully impressed with their lack of confidence in the pledges of the government. At times they told their story of wrongs with such impressive earnestness that our cheeks crimsoned with shame. In their speeches and recitals of wrongs which the people had suffered at the hands of the whites, the arraignment for gross acts of injustice and fraud, the desecration of treaties made only to be broken, the shameful and distrusts of our present profession of friendship and good will, were portrayed in colors so vivid and language so terse that admiration and surprise would have kept us silent had not shame and humiliation done so. That which made this arraignment more telling was that it often came from the lips of men who are our friends and who had hoped against hope that the day might come when their wrongs would be redressed."

Sioux Had to Like It.

Since the Sioux didn't have much choice in the matter, they signed the treaty offered them. Here's what another historian says about it (not an Indian historian, but a white historian). George E. Hyde, author of "Red Cloud's Folk—A History of the Oglala Sioux Indians," writes:

But the object had been attained at last, and under the cloud of war the government had taken the Black Hills, the Powder River lands and the Bighorn country. The pretense of formal agreement and fair payment which congress had devised to veil this act of robbery did not even deceive the Indians. The chiefs knew that they were being robbed and that they were forced to sign away their lands. Here are beef, flour and blankets (said the United States) for your lands in Laramie Plains and between the forks of the Platte, which we took from you before 1865, and here (said the United States) are the same beef, flour and blankets for your lands in Nebraska which we took before 1870, and (said the United States, with an air of vast generosity) here are the same beef, flour and blankets for the Black Hills, the Powder River, and the Bighorn lands which we are now taking from you. In all fairness, that is very near the true meaning of the "agreement" of 1876 by means of which these last lands were taken from the Sioux.

So the Sioux were finally settled on a greatly reduced reservation within the present states of North and South Dakota. But even then the Great White Father wasn't through with them. In 1888 another commission went to the Standing Rock reservation to swing the cession of 11 million acres of Sioux lands at a fixed price of 50 cents an acre ("an outrageous robbery," Stanley Vestal, biographer of Sitting Bull, calls it) and break up the great Sioux reservation into smaller ones. Sitting Bull lined up the chiefs against it, then went to Washington where he succeeded in getting the price raised to $1.25 an acre.

The next year another commission came to Standing Rock to bargain with the Sioux at the new price but found themselves blocked at every turn by Sitting Bull. Finally by making various promises (many of which were never kept, incidentally) they managed to get enough chiefs to agree to the sale. So, in the words of Vestal, "the cession was signed, the great Sioux Reservation was only a memory. It was the death of a nation." Among the promises that were not kept was one about supplying rations to the Sioux, penned up on their reduced reservations, and in the winter of 1890-91 that broken promise bore bitter fruit. For the Sioux, suffering from hunger and disillusionment, became easy victims to the apostles of the Ghost Dance and before that excitement was over the shameful story of the massacre at Wounded Knee had been written on one of the "black pages" which Secretary Ickes mentions.

As indicated previously some of the other "black pages" bear the stories of our dealings with the Nez Perces, the Modocs and the Poncas. That is why it is likely that any member of those tribes, as well as the Sioux, who reads the secretary's statement about "a fixed policy based upon the principle of free purchase and sale in dealings between the native inhabitants of the land and the white immigrants" will probably smile—and there won't be much humor in that smile!

Forty Tribes Celebrate Festival at Gallup, N. M.

Indian drums are sounding in the far places of the Southwest, and the Navajos, Zunis, Hopis, Utes, Apaches, Lagunas, Acomas and a score of other tribesmen and their families are making it "the place by the bridge," Gallup, N. M.

Here each year 1,000 Indians from nearly 40 different tribes join forces to produce America's most colorful and spectacular Indian show, the annual Inter-Tribal Indian Ceremonial. For four days they dance, chant, compete in sports and engage in weird pagan rites before capacity audiences made up of their white brothers. The Gallup Ceremonial is the largest and most authentic Indian spectacle of its kind in the country. Usually the Ceremonial is held the last part of August.

A special entrance each year is the musical display of Indian arts and crafts in the Indian Hall where thousands of articles are shown. A score of native craftsmen will be at work showing the technique of Indian handicraft.

Great White Father Makes Tardy Payment for Indians' Ponies

When Sitting Bull's outlaw Sioux sacred Gen. George A. Custer ve troops of the Seventh caval- the Little Big Horn, the U. S. ed with indignation. Amid all rrore the Army brass was by a wonderful idea—since it almost impossible to catch Sioux, why not take away horses?

is scheme had obvious defects, lief of which was that Sitting nd most of his followers had already ridden off to Canada. But the army put it into operation with vast enthusiasm. In the fall and winter of 1876 cavalrymen seized 3,567 ponies from baffled, friendly Indians, at Camp Robinson, Neb., and Dakota Indian agencies.

"Sioux and their friends were quick to clamor for payment: by 1892 the U. S. government had paid a quarter of a million dollars in damages. But even this left 2,000 horses still unpaid for.

By 1926, when an investigation of Indian claims was authorized, time had an simplified the problem. But this spring, 50 years after Little Big Horn, Congress voted to pay off the last of the Sioux claims. Last week the President solemnly signed a bill granting them $50,000 for ponies, $4,000 for property lost in the battle. Nobody suggested resuming the Sioux's mobility by replacing the horses with second-hand jeeps.—Time Magazine.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

JACOB REALIZES THE PRESENCE OF GOD

LESSON TEXT—Genesis 28:10-22.
GOLDEN TEXT—The Lord is nigh unto all them that call upon Him, to all that call upon Him in truth.—Psalm 145:18.

Crises bring out the real qualities of man. When they lead him into the very presence of God, they become an experience, the remembrance of which can bring blessing all through life.

Jacob had such an experience in our lesson, and it is the more remarkable because he was a man whose life was far from commendable. His mother, Rebekah, had determined that Jacob was to have Isaac's blessing, even though she had to use falsehood to get it.

Jacob shared the deception planned by his mother, and thereby he received the blessing of Esau. Not willing to wait God's time for the carrying out of His purpose, they sinned to gain an advantage. Then to escape the wrath of Esau, he had to flee.

I. A Revelation of God's Grace (vv. 10-15).

The fugitive was overtaken by darkness on the second night of his journey, and made his bed in the open. Then came the magnificent vision of the ladder to heaven.

Heaven and earth are not separated. There is a way to reach the throne of God, and there is a way for God to reach and bless His people. The vision of the ladder reassured Jacob.

God renewed to Jacob the covenant with Abraham and with Isaac. He does not forget. Men make treaties only to break them. God says, "I will not leave thee, until I have done that which I have spoken" (v. 15).

In His matchless grace God relieved Jacob's fear by assuring him of His protection; his loneliness by His divine presence; and his uncertainty regarding the future by the promise of blessing.

Jacob's heart was deeply moved by his dream, and as he awoke to full consciousness, he came to

II. A Realization of God's Greatness (vv. 16-19).

Full of holy fear and awe, Jacob realized the presence of the infinite God. It is a proper and wholesome reaction when a man, realizing himself to be in God's presence, is overcome by the awe-inspiring experience.

Theologians, preachers and teachers have dared to speak swelling words of disrespect concerning His miraculous power, have denied the deity of His Son, and have questioned the authority of His Word. Having sown the wind of unbelief, they have reaped from the people the whirlwind of irreverence, a belittling of God, and a rejection of His authority (Hos. 8:7).

Jacob was reminded of God's immediate presence, "the Lord is in this place." The place of his vision of heavenly things had special meaning to Jacob.

The thing that Jacob "found out that night was not that God visits man, but that God is with man wherever he is. We expect to meet Him in the sanctuary, but He is near us in the market place. Not alone in the sanctuary, but where the multitude gathers in defiance of His law, He is there" (G. Campbell Morgan).

This rich experience led Jacob to

III. A Recognition of God's Goodness (vv. 20-22).

The God who would supply his every need, who would watch over him and keep him, was recognized by Jacob as being worthy of his devotion, and he made a vow that He should be his God (v. 21).

The grace and goodness of God are intended to bring men to faith in Him and devotion to His service. Yet men can go on year after year, the beneficiaries of all His bounty, and never so much as say, "Thank you," let alone recognize Him as Lord.

Jacob made a very practical and workable decision to demonstrate the reality of his vow. He promised that one-tenth of all God gave him should be returned to Him.

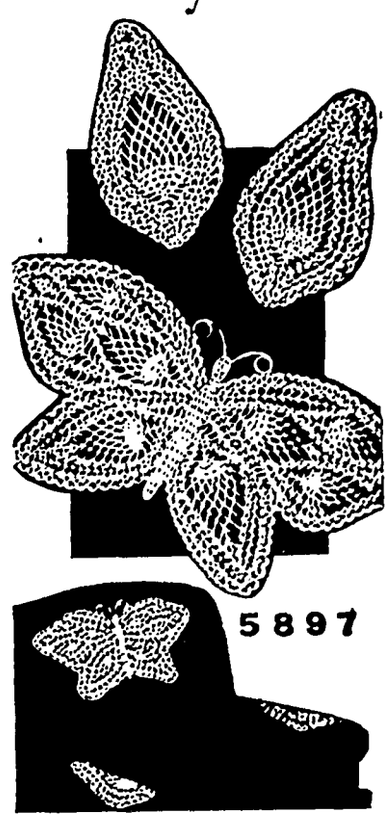
Many have followed his example and found blessing in giving a tithe for the Lord's work. Some who count themselves far better than poor, weak and sinful Jacob have done far less to show their appreciation of God's blessing.

Note also that Jacob raised a stone of remembrance, and gave the place a name which forever after would recall not only to him, but to posterity, the wonderful blessing of that night. It is a great thing to keep fresh the memory of the occasions when we have met God in special blessing.

Trickery and deception were changed to faithfulness and devotion when Jacob met God face to face. The same blessed transformation awaits those who meet our Lord and Saviour Jesus Christ in faith. Have you met Him?

SEWING CIRCLE NEEDLEWORK

Butterfly Chair Set to Crochet



5897

A COMPLETELY out of the ordinary crocheted chair set is this one with the well-loved "pineapple" stitch forming the butterfly. The chair-back piece is 18 inches from tip to tip and the arm piece is 8¾ in length. You'll want to make two or three sets for gifts in addition to the one you'll use on your own upholstered chair!

Yankee Cussedness Was Still Strong in Sylvester

Two Yankee brothers, John and Sylvester, had not spoken to each other for ten years. A neighbor persuaded Sylvester to greet his brother, who was coming along the road. "I'll do it to oblige you," said Sylvester, "but he won't answer me."

As the second brother approached, Sylvester spoke: "John," he said, "when are you going to bring home that iron bar you stole from me, you low-down thief?"

John walked on without a word. Sylvester turned to the peacemaker, and said triumphantly: "I told you he wouldn't speak to me!"

With branches all over the World

There's no business institution more thoroughly American than the General Store.

Yet, do you realize that America is not even self-sufficient enough to keep that General Store running efficiently and prosperously?

For instance, its delivery truck was made in America; but 300 products, from 56 countries, went into its making. The telephone over which the orders come is America-made. But 18 of the telephone's important materials came from outside the country.

The coffee, the tea, the sugar, the tin in the cans, the cocoa and chocolate . . . these and many more of the things the store buys and sells come from overseas. Take them away and business begins to shrink, becomes more difficult to operate. Take them away, and the community's standard of living declines, life itself becomes less pleasant.

No country can build a fence and hide behind it these days. For lasting prosperity, as well as for durable peace, *we must cooperate with the rest of the world.* Truly, planes, radio, rockets, have made of this shrunken earth, *one world.*

Cooperation means getting along even with peoples whose beliefs do not jibe with ours. It means contributing our share toward world order. It means making the effort necessary to understanding. It means *every citizen* must accept the responsibility of making international *cooperative* work.

You can do these things:

First, get and *keep* yourself informed about the *specific* proposals for peace and international cooperation which are now before us.

Second, interest your friends in these questions. Get them discussed in groups to which you belong.

Third, write what you think to your Congressman and Senators, to your newspaper. Declare yourself.

* * *

Mr. and Mrs. Wm. Green were Mason City visitors last Thursday.

B. A. Reemstma of Garner was in Klemme on business Thursday afternoon.

Mr. and Mrs. J. W. "Bill" Johnson were at Mason City on business Thursday.

Dan Green spent a couple days the past week visiting in Mason City.

Miss Betty Etchen of Des Moines spent the week end visiting with her parents, Mr. and Mrs. John Etchen.

Mrs. Antonio Keraus visited over the week end with her daughter, Mrs. Rosa Mitchell at Swea City.

Mr. and Mrs. Fredin of Fort Dodge visited the latter part of the week at the Arnold and Gibbs homes.

Mr. and Mrs. Dale Schrieber, Marylin and the twins, of Moville, came Saturday for a visit at the parental Elmer Schneider home.

Mrs. Lena Neilsen visited last week in Klemme with her son-in-law and daughter, Mr. and Mrs. Earl Ruka.

Pfc. and Mrs. Harmen Trampel and son Larry, were supper guests at the Arthur Conners home Monday evening.

Mr and Mrs. Edward Coyle and children of Garner were visitors at the Howard Spitler home Tuesday. Doris Spitler accompanied them home for a few weks visit.

Mr. and Mrs. John Day were dinner guests Sunday at the John Baumgartner home at Rock Falls. Johnnie, Jr. is home from service in the Pacific.

Mr. and Mrs. Lyle Liebendorfer and Grandma Liebendorfer of Forest City were supper guests at the R. A. Jorgenson home Saturday evening.

Mr. and Mrs. Glen Bridges and family left Thursday for Mankato, Minnesota for a short vacation over the week end. They returned to Klemme Monday.

La Nelle Harvey, Maralee Ridder and Marjorie Lau, girl scouts, left Thursday for a period of camping at the girl scout camp at Clear Lake.

Mr. and Mrs. Lester Trampel and son Gary Lee, of Kamrar; Mr. and Mrs. Ronald Twedt and daughter Jacqueline of Ellsworth, spent Sunday evening at the Clarence Trampel home.

Lt and Mrs. Lyle Wilcox went to Minneapolis Friday for a few days visit with his father and other relatives. They expected to return to Klemme, today. Wednesday.

Baby Linda Lee Anderson of Charles City has been cared for at the Lester Stille home during the past week while her parents, Mr. and Mrs. Lee Anderson were taking a vacation.

Mr. and Mrs. Fred Carolus, Roger and Joyce of Galt; Pfc. and Mrs. Harmen G. Trampel and son Larry; and Mrs. Arthur Conners were supper guests at the Peter Trampel home Sunday.

Jim Tab has been out at Fort Simmons, near Denver, Colorado, for a visit with his son, Jack, who is being treated for wounds received in Germany. Jack is getting along fine but will be in the hospital for some time. He was badly wounded on one foot.

Mr. and Mrs. John Lamont and children of Washington, D. C.. arrived in Klemme Monday to spend their vacation visiting at the parental Ira Overholt home. Mr. Lamont formerly practiced law in Klemme and for several years has been in government work at the nation's capitol.

J. M. Neuberger, wife and two children, left Thursday morning for Washington, D. C., after visiting for several days with Klemme relatives and friends. They reside at Brownsville, Texas. Mr. Neuberger was on a business trip for company which brought him near to Iowa and gave the family an opportunity to visit here.

Mrs. A. H. Dulmes and son Dick, Mrs. Mary Mutch and Miss Ada Mutch of Grundy Center, visited for a short time Saturday afternoon at the R. A. Jorgenson and George Lawhorn homes. Mrs. Dulmes reported that her husband Capt. A. H. Dulmes has been transferred to a Tank Division and is now located near Rome, Italy. The doctor expects to get back to the states by fall, according to latest reports.

Local Happenings

Klemme and Vicinity

Mr. and Mrs. Harlow Helps were Mason City visitors Thursday.

Mr. and Mrs. Harvey Barz spent the week end visiting with her brother and family at Ft. Dodge.

Mr. and Mrs. John Waddingham and three sons were Mason City visitors Saturday.

Mrs. Kenneth Johnson and son of Goodell were Klemme visitors Monday afternoon.

LeRoy and LaVerne Josten are visiting at the Henry Bunken home at Britt this week.

Mr. and Mrs. Frances Buseman spent the week end visiting with friends at Waterloo.

Mr. and Mrs. Clifford Adair left last week Wednesday on a business trip to Minnesota.

The Misses Dorothy Meyer and Elizabeth Goll spent the week end visiting with Dorothy Ellingson.

Mr. and Mrs. Clarence Elder, Martha and Charles of Ames, spent the fore part of the week visiting at the parental R. W. Elder home.

Mrs. John Clements, Mrs. Clifford Montgomery and Carole Ann were Mason City visitors Thursday afternoon.

Rev. and Mrs. H. H. Harvey were dinner guests Tuesday noon at the home of Dr. and Mrs. E. G. Schaeffer at Forest City.

Myrna, daughter of Mr. and Mrs. Harvey Barz, spent the week end with her uncle and aunt, Mr. and Mrs. Ben V. Greiman.

Mr. and Mrs. Donovan Speer have named their new baby son Dennis Donovan. He tipped the scales at 8 lbs., 3 ounces.

La Verne Lewis is at Balaton, Minnesota this week visiting with his brother-in-law and sister, Mr. and Mrs. Archie Johnson.

Mrs. Frank Gruetzmacher will dispose of her household goods at public auction here Saturday afternoon.

Klemme Boy Taken To Hospital At Iowa City

Allan, small son of Mr. and Mrs. Melvin Neuberger of Klemme, became ill Saturday and was taken to the Mason City hospital that evening where it was thought he was suffering from infantile paralysis. Sunday morning he was taken to the University hospital at Iowa City for observation and treatment.

At the time of going to press Mr. and Mrs. Neuberger are still with their son and it is not known here as to his condition.

Evangelical & Reformed Church Women's Guild To Meet

The Women's Guild of the Evangelical & Reformed Church will meet August 22nd at 2:00 p. m.

Mrs. Fred Nuehring and Mrs. Irvin Nuehring are the hostesses.

No Need to Skimp on Quality!

Because High Standard covers so much surface per gallon, this typical six-room house (24' x 32' x 15') can be painted with two coats of HIGH STANDARD for an approximate material cost of only . . .
$16.25

THE EXTRA PROTECTION OF *Lowe Brothers* HIGH STANDARD HOUSE PAINT COSTS YOU NOTHING

Here's why the extra protection of LOWE BROTHERS HIGH STANDARD HOUSE PAINT actually costs you nothing. It covers solidly more surface per gallon than "cheap" paint. It spreads evenly and easily to save time and money. So it actually goes farther to cost less per square-foot-of-surface protected. And that means that extra beauty and extra protection costs you nothing.

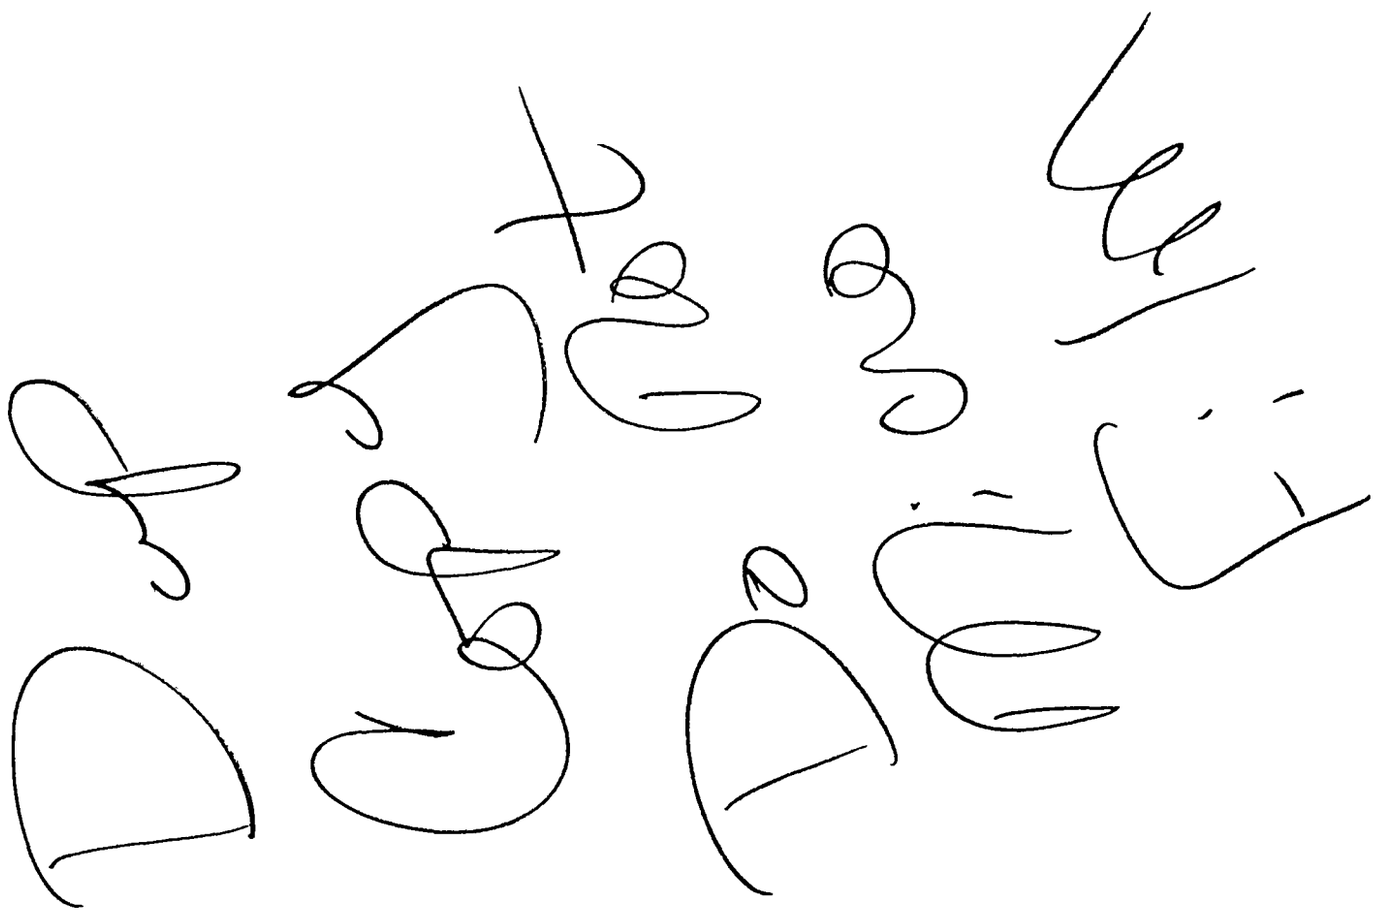
PERKINS WINS MANY RIBBONS

TAKES IOWA STATE GRAND CHAMPIONSHIP

Also Winner Of Sweepstakes And Many Division Ribbons At Gladiolus Show

Louis V Perkins of Klemme has another string of ribbons to add to his large collection of trophies as he won the Grand Championship and a number of division awards at the Iowa State Gladiolus Society and the Cedar Rapids Gladiolus



RED BY TERS

6, Klem- nen held a farewell dinner and party in honor of H. D. Ramsay, who resigned as Scoutmaster as he is moving away from the community.

Mr. Ramsay was a faithful worker with the boys and in token of their appreciation for the fine work he has done, he was presented with a gift from the Troop.

Kenneth Medin, who recently moved to Klemme, was welcomed by Scouts and Scouters as the new Scoutmaster for Klemme.

The dinner was held at the local community hall.

Farewell Party Held

The Double Four Club met at the home of Mrs. John Etchen on Friday afternoon, as a farewell party in honor of Mrs H. D Ramsay who is leaving the community. Mrs Ramsay was presented with a nice blanket by the ladies of the club.

The afternoon was spent in playing bridge. Mrs. E. C. Buntenbach won high score; and Mrs. Ramsay, second high.

followng the accident. The Trampel children and Mrs. Howell, riding in the back seat of the Trampel car were only shaken up. Mrs Coats, driver the the other car was not injured.

Mr. and Mrs Trampel suffered head injuries when thrown against the windshield of their car They were still in the hospital Tuesday when their condition was reported as improved

WAS OVERSEAS

FIRST LT. LYLE WILCOX

Lt. Lyle Wilcox is home at Klemme after spending over 2 years overseas as an engineer with the 398th Engineer Regiment. He entered the service in July 1943, and later was stationed in the British Isles. He saw service in the European theatre of war with Patton's Third Army. After a 30-day leave visiting with his wife in Klemme. and his father and relatives in Minneapolis, he will go to Alexander, La., for reassignment.

Directed by their leader, Miss Irene Marshall, and assisted by Arlene Wille the seventeen Avery Sunbeam 4-H Girls gave their annual Achievement program on Friday evening at Avery school No 2, before an audience of about seventy-five people.

Club project activities of the year were described by seven of the girls.

Gave One Act Comedy

A one-act comedy, "A Quiet Home Wedding," was given with all parts, including the masculine rolls, taken by the girls.

Iris Rosendahl played several selections on her accordion.

The program closed with the club pledge and the singing of the 'Star Spangled Banner."

Products canned by the girls, which were later to be exhibited at the county Achievement Show, were on display

Lunch was served by the girls.

Iowa now has 1,079 club members enrolled in 4-H sheep and lamb projects.

LAST RITES HELD FOR BEN R. LAU

SERVICES HELD FRIDAY AT THE METHODIST CHURCH

Died Suddenly Previous Tuesday Evening From Asthma Attack

Benjamin R. Lau, 57, died at the home of his sister, Miss Minnie Lau, early Tuesday evening, Aug. 14th from an attack of asthma and other complications.

Funeral services for Mr. Lau were held at the Klemme Methodist Church, Friday afternoon at 2:00 o'clock, with Rev. Herschel E. Harvey giving the funeral address.

Interment was on the family lot in the Ell Township Cemetery. Casket bearers were Emil Lau, Ben F. Greiman, Lloyd Lau, C. G Waterman, Aaron Greiman and George Lau. The Wellemeyer Funeral Service of Klemme, was in charge.

The obituary appears eleswhere in this issue of The Times.

KLEMME BUSINESS PLACES TO CLOSE LABOR DAY

In all probability the business places of Klemme will follow the custom of the past and remain closed all day, Monday, September 3rd, Labor Day, which is also a legal holiday.

A number of business places have signified their intention of closing. A definite announcement will be published next week.

RAT KILLER

Carl Finders, manager of the North Iowa Grain Co. should be given a medal and proclaimed the North Iowa Champion Rat Killer.

During the past month Carl has exterminated more than 100 adult rats at the elevator, his best day being a total of 41 rats killed.

Carl has a novel way of getting the rats. The pests come to the elevator and feed in the bottom of the pit from which the elevator cups operate to hoist grain up into the bins. Carl waits until he thinks a lot of rats have gathered in the pit for their dinner, and then starts the elevator cups and hoists the rats into an empty bin and goes to work on them with a paddle!

He has also shot a number of rats besides the ones he catches in the elevator cups.

GOING UP!

Those tall hollyhocks are still coming in and at present the Times Office has two specimens on display near the office door that are about the limit . . . we hope!

Gladys Wenig brought in a 12 foot and 4½ inch hollyhock that we figured would stop all competition . . . but only for a couple days. Ira Overholt spied a tall one in Mrs. Herman Paul's garden and brought it to the Times Office. This specimen reaches skyward 12 feet and 7½ inches.

Is that the tallest?

KLEMME MERCHANTS LOST TO BELMOND SUNDAY

The Klemme Merchants dropped a baseball game to Belmond there Sunday, 4 to 3.

Belmond comes to Klemme for a return game Sunday, Sept. 2nd, while Goodell plays here next Sunday, August 26th.

THREE PICNICS IN PARK SUNDAY

IS A POPULAR PLACE FOR FAMILY GATHERINGS

Many Gatherings Have Been Held There This Summer

Although the weather was hot and sultry Sunday, the Klemme Park was about the coolest spot in the community, as a nice breeze was stirring there making it an ideal spot for a picnic.

Three family groups held forth at the park Sunday for picnic dinners and re-unions.

Barz Family Gathered

In honor of Mr. and Mrs. Henry Lau of Tracy, Minnesota, the Barz families of the community held a picnic dinner and family reunion at the park with the following present:

Mr. and Mrs. Henry Lau of Tracy, Minnesota; Mr. and Mrs. W. J. Barz and daughter, Mrs. H. G. Voetberg of Garner; Mr. and Mrs. Harvey Barz and children; Mr. and Mrs. Walter Rosendahl and children; Mrs. Esther Barz and family; Rev. and Mrs. Calvin Grosshuesch and family; Mr. and Mrs. Raymond Barz and family; Mrs. Clara Barz and Avis.

Mr. and Mrs. Eugene Greiman and family; Mr. and Mrs. Edmnud Josten; Grandmother Wille; Rev. and Mrs. J W. Grosshuesch; Mrs. George Greman; Mrs. Martin Barz and daughter, Maxine.

Christians Family Picnic

The several members of the John Christians family held a re-union and picnic Sunday at the park.

Those who attended were John Christians, Duane and Elsie; Mr. and Mrs. Ed. Christians and family; Mr. and Mrs. Bill Neuberger and family; Mr. and Mrs. La Verne Christians and family; and Mrs. Harold Christians and son.

Guests who were present for a picnic supper were Mrs. Peter Merkel; Mrs. Alfred Merkel; and Mr. and Mrs. Pete Thompson, of Paton, Iowa, who were here visiting the Merkels.

Another Family Picnic

The birthdays of Mrs. Mary Waterman of Klemme, and Mr. Fred Musfelt of Clarion, were celebrated by relatives at a picnic dinner in the Park Sunday noon.

Those present were Mr. and Mrs. Fred Musfelt, Mr and Mrs. Oscar Musfelt, and Mrs Malinda Rice of Clarion; Mr. and Mrs. Fred Radloff, Frieda, Ruth and Lawrence of Garner; Mrs. Mary Waterman; Mr. and Mrs. Clarence Waterman; Lt. and Mrs. Llye Wilcox; Mr. and Mrs. Wes Schuldt; Mrs. Frances Ridder; Walter Lau; Miss Minnie Lau, and Mrs. Antonio Keraus, all of Klemme.

The Park is sadly in need of a few more picnic tables and benches, and our town officials should do something about it.

OBITUARY OF BENJAMIN R. LAU

BENJAMIN RUDOLPH LAU was born on the "Walnut Grove" farm in Liberty Township, Hancock County, Iowa, April 15. 1888, the sixth of a family of nine children born to his parents, August C. and Anna Boehm Lau.

His parents moved to Klemme when Ben was a small boy Here he spent his childhood days and attended Sunday School and Bible School in the German Methodist church, and as he grew older he assisted his father in the grain business.

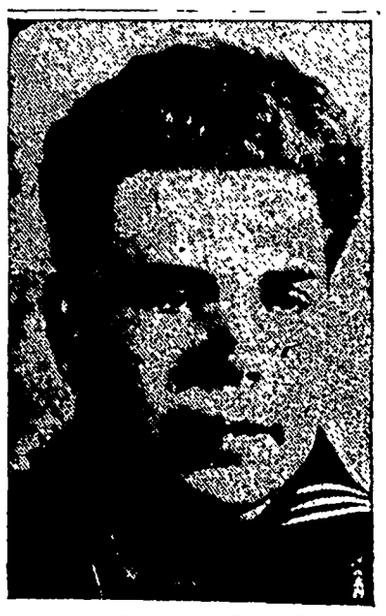
After completing his common school education in the Klemme Schools, he attended the Cedar Rapids Business College, after which he was employed for a few years in the Kenwood Trust & Savings Bank of Chicago as bookkeeper.

In the spring of 1910, at the age of 22, Ben R. Lau and Ella Jackson were married in Denver, Colorado. The following year they moved to Minneapolis where for 20 years Ben was employed as bookkeeper for various grain firms and wholesale hardware concerns. During the Hoover Administration, Mr. Lau worked with the Grain Stabilization Corporation in Chicago, and during the Roosevelt Administration, with the Resettlement Project, until 1936 when he retired and moved to Klemme, making his home with his sister, Minnie. His wife, Ella, died in 1942.

Mr. Lau was a member of varous clubs and enjoyed bowling and was fond of hunting and fishing. For 50 years he suffered more or less with asthma. Just recently he spent a week at Iowa City but found no relief, and finally a few other complications appeared which hastened his passing, which occured Tuesday evening, August 14, 1945. He reached the age of 57 years, 3 months and 29 days.

He leaves of his immediate family: three sisters, Mrs. Frances Ridder, Mrs. Wesley Schuldt and Miss Minnie Lau, all of Klemme; three brothers, Henry C. Lau, Tracy, Minnesota, August G. Lau, Garner, Iowa, and Walter F. Lau, Albert Lea, Minnesota; and other more distant relatives and friends.

NOW OVERSEAS



(Courtesy Gloce-Gazette)

ROBT. L. KIMBALL, 1-c

Robert L. Kimball, fireman first class of the U. S. Navy, son of Mr. and Mrs. Walter Kimball, of Boone, formerly of Klemme, has returned to his ship after spending more than a month in a hospital in the Philippines with a case of tropical fever and pneumonia.

Mrs. Werner Schlawin returned home Tuesday of last week from a Mason City hospital where she was a patient for three weeks receiving medical care. She is making a good recovery at this writing.

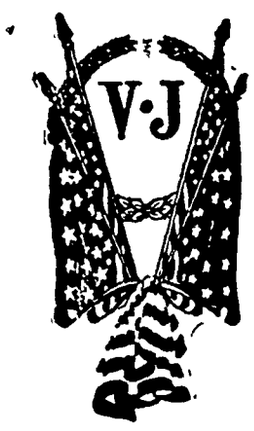
EMBLEM OF PEACE!

The Emblem pictured here is the badge of an honorable discharge from the Armed Forces of the United States of America.

Now that Peace has come, let us all honor this emblem by seeing to it that every opportunity is presented to the boys and girls who are wearing it. . . . The men and women who have been responsible for our great victories on land, sea and in the air.

WELLEMEYER

TOTAL VICTORY



With the falling of the last bastion of the Axis, Americans may now join with their Allies in rejoicing the return of peace.

Peace loving people everywhere may now raise their voices in thanksgiving for a safe and secure future.

ROTHS' CAFE

Tom and Leoda Roths

La Vohn Christie from Illinois is visiting at the Sumner Trumbell home this week.

The Klemme Girl Scouts will collect your waste paper again on Monday evening, beginning at 6:00 o'clock.

Claire West and children, Peter and Rosemary, of Nora Springs, visited at the Sumner Trumbell home Sunday.

Mr. and Mrs. J. N. Day enjoyed a picnic at the Hotchkiss cottage at Clear Lake Tuesday evening in honor of John Baumgartner, Jr., just home from the Pacific, and Margaret Skow of Watertown, So. Dakota.

Guests at the Rev. Harvey home Sunday who enjoyed a picnic dinner at the outdoor fireplace were Mr. and Mrs. Clarence Lindsey; Mr. and Mrs. Ed. Haupt; Dorothy Lindsey and Janice Haupt, all of Rowan.

Mr. and Mrs. Mayo Whaley and son Karroll, of Marshalltown spent the past five days at the Hugh Hummel home. While here they visited the Grotto at West Bend, and also visited with friends at Kanawha.

Pfc. and Mrs. Rudy Hefty and two children, of Amarilla, Texas, came Thursday morning for a visit at the parental Daisy Lemke home. Mr. Hefty is on furlough prior to leaving for overseas duty with the army.

George Neitland, who has been working on the railroad here, was very ill for a few days during the hot, sultry weather. George contracted maleria fever while serving in the Pacific and is subject to an attack under certain weather conditions such as we have had.

Mrs. Lester Neuberger entertained to dinner Friday evening at the home of her parents, Mr. and Mrs. Frank Schulz, Warrant Officer Franklyn Buseman and wife; and Seaman Eugene Kluckohn and wife. Lt. and Mrs. Lyle Wilcox spent the evening visiting at the Schulz home.

Tornadoes Made in the U. S. A. We have more of the most vicious and freakish of all storms in one month than the rest of the world has in a year. C. E. Miller of the U. S. Weather Bureau, tells about it in The American Weekly, the magazine distributed with this Sunday's (August 26) Chicago Herald-American. 1tc

Mr. and Mrs. Conrad Quandt left Monday forenoon for the north country to spend the next five or six weeks at their cabin at Two Harbors, Minnesota, on the north shore of Lake Superior, during the "hay fever season." Their daughter, Mrs. Ernest Gerardi of Wichita, Kansas, is here to manage the cafe during their absence.

Harold Shoafstall and family of Jewell spent Sunday and part of Monday visiting at the parental Ted Dutheridge home near Klemme. Mr. Shoafstall is employed as operator at the Northwestern depot at Jewell.

The hemp plant at Britt has closed down, having processed all hemp on hand. A few men have been retained to store machinery and get the building ready for closing up. Three Klemme women, Mrs. Phillip Bock, Miss Lydia Bock and Mrs. Roy Schaefer, who were employed at the plant, are now home.

SYMBOLS OF PEACE—

Old Glory and the Dome of the Capitol at Washington symbolize everything that is free and peaceful to Americans. . . .

After months of sacrifice Americans on both the battle and home fronts have secured for future generations the heritage that these beloved symbols stand for!

LARSON'S SUPER SERVICE

Carold Larson, Proprietor

Local Happenings

Klemme and Vicinity

Fred J. Arnold was at Forest City on business Monday afternoon.

Julia Bell began work Monday as operator at the local telephone exchange.

Mr. and Mrs. M. D. Kubicek of Mason City visited at the John N. Day home Friday evening.

Mrs. Edward Rall was a 6:30 o'clock dinner guest at the John N. Day home Wednesday evening.

Mr. and Mrs. Emil Beier were visiting at the Wm. Beier home in Goodell Sunday afternoon.

Mr. and Mrs Ed. Jacobs entertained Mrs. Edward Rall to dinner Monday noon.

Mr. and Mrs. Delmar Kingery and children of Marathon, Iowa, came Monday for a visit at the A. L. Kingery home.

Mr. and Mrs. John Whitesell and son of Armstrong were supper guests at the A. L. Kingery home Tuesday evening.

Mr. and Mrs. Carol Larson and children and Mr. and Mrs. Fred Kluckhohn left last Thursday for Indiana, for a visit with Mrs. Fred Kluckhohn's relatives.

Franklin Kluckhohn has been painting the exterior wood work at the First National Bank, this past week, using a trim of white and brown.

Tom Roths is installing a walk-in cooler in the basement of his cafe, using the old bank vault as the refrigeration room. It will make a nice improvement.

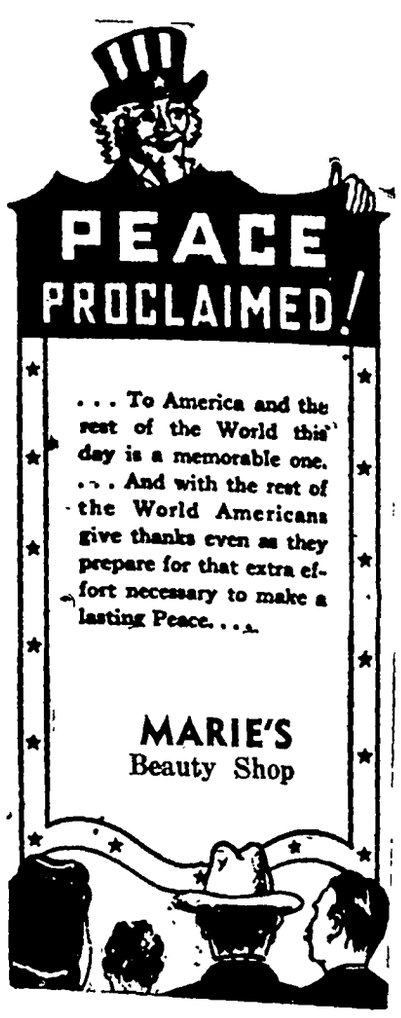
Seaman Eugene Kluckhohn, wife and baby, left Saturday for Highlands, New Jersey, after enjoying an extended furlough visiting with Klemme relatives and friends for a few weeks.

Pvt. and Mrs. John Clements and son, Jimmy, returned Saturday from Estherville where they spent several days visiting with Pvt. Clements' mother and other relatives.

Carl Wille had the misfortune one day last week to get his hand caught in a grain elevator, with the result that the bones were fractured in one of his fingers. He carries his arm around in a sling.

Walter Eisberg of Garner and M. S. Neilsen of Mason City, representatives for Pfister hybrid seed corn were in Klemme on business Tuesday afternoon. Mr. Henry Buseman has been appointed dealer for Avery township.

Mrs. Clara Stille entertained the following to dinner at her home Sunday noon: Mrs. Arthur Carlson and daughter, Carol, of Clear Lake; Mr. and Mrs. Kermit Stille and children of Thornton; Mr. and Mrs. Virgil Stille of Liberty township. For supper, Mrs. Stille entertained Geo. Stille and family of Goodell; Mr. and Mrs. Fred Meckstroth and Mr. and Mrs. W. C. A. Gast of Garner.



. . . To America and the rest of the World this day is a memorable one. . . . And with the rest of the World Americans give thanks even as they prepare for that extra effort necessary to make a lasting Peace. . . .

MARIE'S Beauty Shop

Mrs. Kenneth Medin and two children recently visited with her parents in Kentucky.

Mrs. Herman Paul was on the sick list several days last week but is again much better.

Mr. and Mrs. Fred Musfelt of Clarion came Friday to attend the funeral services for Ben Lau.

Mr. and Mrs. Lee Stewart of Webster City visited last week in Klemme at the Louis V. Perkins home from Monday to Wednesday.

Rosemary Stout of Waterloo, spent several days the past week visiting in Klemme with her cousin, Mrs. A. L. Kingery.

Miss Lydia Beier of Waterloo, and Mrs. August Ridder and son, Walter of near Leland, were dinner guests Sunday at the Frank Ward home.

Mr. and Mrs. R. A. Jorgenson entertained to dinner Friday evening Mr. and Mrs. H. D. Ramsay, Mr. and Mrs. C. G. Waterman and Lt. and Mrs. Lyle Wilcox.

Mr. and Mrs. Vic Perkins returned to their home at Estherville Friday after visiting at the parental Louis V. Perkins home since Monday of last week.

Mrs. Edith Lieuwen of Belmond visited with Klemme friends Sunday. Mrs. Lieuwen will teach in our grade and high school the coming school year.

Seaman Leo J. Blumer, 2-c, of Chicago, Illinois came home the latter part of the week for a visit with his parents, Mr. and Mrs. Walter Blumer

"Jack" Runge has been off the job as carpenter at the Northern Lumber Co for a couple of weeks as he has been laid up with a case of arthritis.

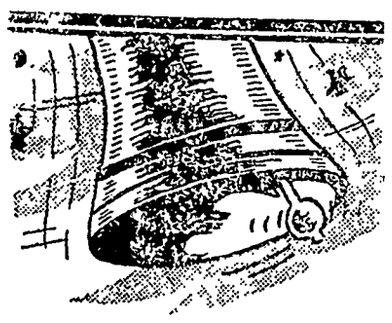
Mrs. P. M. Wilson returned home Sunday from Des Moines, where she spent three weeks visiting with her daughter, Mrs. Robert Risser and son, Bobbie.

Mr. and Mrs. Lester Stille and daughter, Lois; Mrs. Lydia Hartzel and Linda Lee Anderson were at Britt Sunday to attend an anniversary celebration in honor of Mr. and Mrs. C. L Hartzel, who have been married 31 years.

Mr and Mrs. Milton Weisbrod and two children of Fenton visited for a short time Sunday evening at the parental George Schoenwetter home. The Weisbrods had been at Waterloo visiting with relatives.

Reports from Iowa City are that Allan, son of Mr. and Mrs. Melvin Neuberger is improving from an attack of infantile paralysis. He is being given the Kenny treatment with good results.

Mr. and Mrs. W. C. Keraus moved their household goods last week to the apartment in the Wellemeyer building. Mr. Keraus also has his insurance office in the same building.



BELLS RING IN AMERICA . . .

. . . Americans everywhere turn toward the source of the bells which joyously proclaim the final Victory which brings Peace.

Americans turn to the Church to give thanks for our deliverance from the burden thrust upon us by the power seeking enemies who would have enslaved us all.

Yes, the Bells ring for Peace and we are truly thankful.

QUANDT'S CAFE

Mr. and Mrs. Conrad Quandt

Will Hold Annual Meeting

The annual meeting of the Klemme Cooperative Grain Company will be held at the Community Building on Friday, August 31, at 8:00 p. m. Patronage checks will be distributed at this meeting.

The number of laying hens on farms next January 1 is expected to be about the same as last year.

TO WHOM WE OWE SO MUCH

The boys and girls who have brought us peace. They all have had their important part to play . . . Theirs was the hard part . . . yet accomplished because of the confidence they had in the folks on the home front.

Yes, we are truly grateful to these, our men and women who so nobly sacrificed that we might continue to enjoy the privileges of "Life, Liberty and the Pursuit of Happiness."

Thada's

As Victory comes we feel an inward welling up of the emotions . . . a look, a glance, a hand clasp . . . words are unnecessary.

As we pause with this divine message of thankfulness surging through our very being we are conscious of our responsibility to the future . . . a responsibility to see to it that it will be a future free from doubts and fears . . . free from ignorance and greed . . . free from war.

We join our neighbors in this devout purpose, not only at home but for all peoples of the world.

he celebration will close with rvice Wednesday evening.

PERKINS WINS MANY RIBBONS

TAKES IOWA STATE GRAND CHAMPIONSHIP

Also Winner Of Sweepstakes And Many Division Ribbons At Gladiolus Show

Louis V Perkins of Klemme has another string of ribbons to add to his large collection of trophies as he won the Grand Championship and a number of division awards at the Iowa State Gladiolus Society and the Cedar Rapids Gladiolus show held at Bever Park at Cedar Rapids, Sunday, August 12th

Mr. Perkins' championship winner was an Ivy Robertson variety, with 22 buds, eight of which had opened to their full beauty. This was a delicate shell pink gladiolus with a faint blotch of scarlet in its pale yellow throat and was declared the best spike in the exhibition.

Other places won by Mr Perkins included 5 places and sweepstake winner in Division Three of Medium Flowers; 1 place in Division Four, Medium Flower, Three Spikes; 1 in Division Five, Large Flower, Single Spike; 2 in Division Seven, Giant Flower, Single Spike; and all places in Division Twelve, Recent Introductions.

Mr. and Mrs Perkins are also showing at the Minnesota Gladiolus Show at the fair at Albert Lea, Minnesota, this week.

TRAMPEL FAMILY INJURED IN AUTO ACCIDENT FRIDAY

Mr. and Mrs. John Trampel and two children, and Mrs. Howell, of Klemme and Mrs. Lona Coats of Clarion, figured in an auto accident near the Grayhound station east of Clarion Friday, when the Trampel and Coats cars collided.

Most seriously injured were Mr. and Mrs Trampel who were taken to a Clarion hospital for treatment following the accident. The Trampel children and Mrs. Howell, riding in the back seat of the Trampel car were only shaken up. Mrs. Coats, driver the the other car was not injured.

Mr. and Mrs. Trampel suffered head injuries when thrown against the windshield of their car. They were still in the hospital Tuesday when their condition was reported as improved

WAS OVERSEAS

FIRST LT. LYLE WILCOX

Lt. Lyle Wilcox is home at Klemme after spending over 2 years overseas as an engineer with the 398th Engineer Regiment. He entered the service in July 1943, and later was stationed in the British Isles. He saw service in the European theatre of war with Patton's Third Army. After a 30-day leave visiting with his wife in Klemme, and his father and relatives in Minneapolis, he will go to Alexander, La., for reassignment.

Respected among the flags of the Nations . . . "Old Glory" symbolizes to the world the principles for which we as a nation stand . . . With forthright assurance American fighting men and women have led us to victory over the foes of righteousness. These same men and women shall continue to lead us into a secure peace and a happy future, with the banner of America unfurled to the four winds of freedom.

AVERY SUNBEAMS HAVE ACHIEVEMENT SHOW

Large Crowd In Attendance For Annual Club Event

Directed by their leader, Miss Irene Marshall, and assisted by Arlene Wille the seventeen Avery Sunbeam 4-H Girls gave their annual Achievement program on Friday evening at Avery school No 2, before an audience of about seventy-five people.

Club project activities of the year were described by seven of the girls.

Gave One Act Comedy

A one-act comedy, "A Quiet Home Wedding," was given with all parts, including the masculine rolls, taken by the girls.

Iris Rosendahl played several selections on her accordion.

The program closed with the club pledge and the singing of the "Star Spangled Banner."

Products canned by the girls, which were later to be exhibited at the county Achievement Show, were on display.

Lunch was served by the girls.

Iowa now has 1,079 club members enrolled in 4-H sheep and lamb projects.

SCOUTMASTER HONORED BY SCOUTS AND SCOUTERS

Boy Scouts of Troop 56, Klemme and Troop Committeemen held a farewell dinner and party in honor of H. D. Ramsay, who resigned as Scoutmaster as he is moving away from the community.

Mr. Ramsay was a faithful worker with the boys and in token of their appreciation for the fine work he has done, he was presented with a gift from the Troop.

Kenneth Medin, who recently moved to Klemme, was welcomed by Scouts and Scouters as the new Scoutmaster for Klemme.

The dinner was held at the local community hall.

Farewell Party Held

The Double Four Club met at the home of Mrs. John Etchen on Friday afternoon, as a farewell party in honor of Mrs. H. D Ramsay who is leaving the community. Mrs. Ramsay was presented with a nice blanket by the ladies of the club.

The afternoon was spent in playing bridge. Mrs. E. C. Buntenbach won high score; and Mrs. Ramsay, second high.

LAST RITES HELD FOR BEN R. LAU

SERVICES HELD FRIDAY AT THE METHODIST CHURCH

Died Suddenly Previous Tuesday Evening From Asthma Attack

Benjamin R. Lau, 57, died at the home of his sister, Miss Minnie Lau, early Tuesday evening, Aug. 14th from an attack of asthma and other complications.

Funeral services for Mr. Lau were held at the Klemme Methodist Church, Friday afternoon at 2:00 o'clock, with Rev. Herschel E. Harvey giving the funeral address.

Interment was on the family lot in the Ell Township Cemetery. Casket bearers were Emil Lau, Ben F. Greiman, Lloyd Lau, C. G. Waterman, Aaron Greiman and George Lau. The Wellemeyer Funeral Service of Klemme, was in charge.

The obituary appears eleswhere in this issue of The Times.

KLEMME BUSINESS PLACES TO CLOSE LABOR DAY

In all probability the business places of Klemme will follow the custom of the past and remain closed all day, Monday, September 3rd, Labor Day, which is also a legal holiday.

A number of business places have signified their intention of closing. A definite announcement will be published next week.

RAT KILLER

Carl Finders, manager of the North Iowa Grain Co should be given a medal and proclaimed the North Iowa Champion Rat Killer.

During the past month Carl has exterminated more than 100 adult rats at the elevator, his best day being a total of 41 rats killed.

Carl has a novel way of getting the rats. The pests come to the elevator and feed in the bottom of the pit from which the elevator cups operate to hoist grain up into the bins. Carl waits until he thinks a lot of rats have gathered in the pit for their dinner, and then starts the elevator cups and hoists the rats into an empty bin and goes to work on them with a paddle!

He has also shot a number o rats besides the ones he catches in the elevator cups.

GOING UP!

Those tall hollyhocks are still coming in and at present the Times Office has two specimens on display near the office door that are about the limit . . . we hope!

Gladys Wenig brought in a 12 foot and 4½ inch hollyhock that we figured would stop all competition . . . but only for a couple days. Ira Overholt spied a tall one in Mrs. Herman Paul's garden and brought it to the Times Office. This specimen reaches skyward 12 feet and 7½ inches.

Is that the tallest?

KLEMME MERCHANTS LOST TO BELMOND SUNDAY

The Klemme Merchants dropped a baseball game to Belmond there Sunday, 4 to 3.

Belmond comes to Klemme for a return game Sunday, Sept. 2nd, while Goodell plays here next Sunday, August 26th.

THREE PICNICS IN PARK SUNDAY

IS A POPULAR PLACE FOR FAMILY GATHERINGS

Many Gatherings Have Been Held There This Summer

Although the weather was hot and sultry Sunday, the Klemme Park was about the coolest spot in the community, as a nice breeze was stirring there making it an ideal spot for a picnic.

Three family groups held forth at the park Sunday for picnic dinners and re-unions.

Barz Family Gathered

In honor of Mr. and Mrs. Henry Lau of Tracy, Minnesota, the Barz families of the community held a picnic dinner and family reunion at the park with the following present:

Mr. and Mrs. Henry Lau of Tracy, Minnesota; Mr. and Mrs. W. J. Barz and daughter, Mrs. H. G. Voetberg of Garner; Mr. and Mrs. Harvey Barz and children; Mr. and Mrs. Walter Rosendahl and children; Mrs. Esther Barz and family; Rev. and Mrs. Calvin Grosshuesch and family; Mr. and Mrs. Raymond Barz and family; Mrs. Clara Barz and Avis.

Mr. and Mrs. Eugene Greiman and family; Mr. and Mrs. Edmund Josten; Grandmother Wille; Rev. and Mrs. J W. Grosshuesch; Mrs. George Greman; Mrs. Martin Barz and daughter, Maxine.

Christians Family Picnic

The several members of the John Christians family held a re-union and picnic Sunday at the park.

Those who attended were John Christians, Duane and Elsie; Mr. and Mrs. Ed. Christians and family; Mr. and Mrs. Bill Neuberger and family; Mr. and Mrs La Verne Christians and family; and Mrs. Harold Christians and son.

Guests who were present for a picnic supper were Mrs. Peter Merkel; Mrs. Alfred Merkel; and Mr. and Mrs. Pete Thompson, of Paton, Iowa, who were here visiting the Merkels.

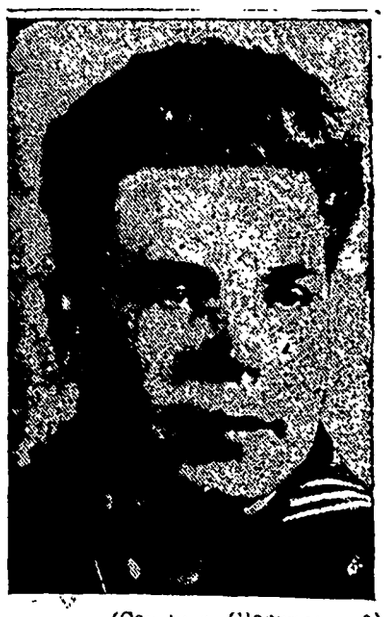
Another Family Picnic

The birthdays of Mrs Mary Waterman of Klemme, and Mr. Fred Musfelt of Clarion, were celebrated by relatives at a picnic dinner in the Park Sunday noon.

Those present were Mr. and Mrs. Mrs. Fred Musfelt, Mr. and Mrs. Oscar Musfelt, and Mrs. Malinda Rice of Clarion; Mr. and Mrs. Fred Radloff, Frieda, Ruth and Lawrence of Garner; Mrs. Mary Waterman; Mr. and Mrs. Clarence Waterman; Lt. and Mrs. Llye Wilcox; Mr. and Mrs. Wes Schuldt; Mrs. Frances Ridder; Walter Lau; Miss Minnie Lau, and Mrs. Antonio Keraus, all of Klemme.

The Park is sadly in need of a few more picnic tables and benches, and our town officials should do something about it.

NOW OVERSEAS



(Courtesy Globe-Gazette)

ROBT. L. KIMBALL, 1-c

Robert L. Kimball, fireman first class of the U. S. Navy, son of Mr. and Mrs. Walter Kimball, of Boone, formerly of Klemme, has returned to his ship after spending more than a month in a hospital in the Philippines with a case of tropical fever and pneumonia.

OBITUARY OF BENJAMIN R. LAU

BENJAMIN RUDOLPH LAU was born on the "Walnut Grove" farm in Liberty Township, Hancock County, Iowa, April 15, 1888, the sixth of a family of nine children born to his parents, August C. and Anna Boehm Lau.

His parents moved to Klemme when Ben was a small boy. Here he spent his childhood days and attended Sunday School and Bible School in the German Methodist church, and as he grew older he assisted his father in the grain business.

After completing his common school education in the Klemme Schools, he attended the Cedar Rapids Business College, after which he was employed for a few years in the Kenwood Trust & Savings Bank of Chicago as bookkeeper.

In the spring of 1910, at the age of 22, Ben R. Lau and Ella Jackson were married in Denver, Colorado. The following year they moved to Minneapolis where for 20 years Ben was employed as bookkeeper for various grain firms and wholesale hardware concerns. During the Hoover Administration, Mr. Lau worked with the Grain Stabilization Corporation in Chicago, and during the Roosevelt Administration, with the Resettlement Project, until 1936 when he retired and moved to Klemme, making his home with his sister, Minnie. His wife, Ella, died in 1942.

Mr. Lau was a member of varous clubs and enjoyed bowling and was fond of hunting and fishing. For 50 years he suffered more or less with asthma. Just recently he spent a week at Iowa City but found no relief, and finally a few other complications appeared which hastened his passing, which occured Tuesday evening, August 14, 1945. He reached the age of 57 years, 3 months and 29 days.

He leaves of his immediate family: three sisters, Mrs. Frances Ridder, Mrs. Wesley Schuldt and Miss Minnie Lau, all of Klemme; three brothers, Henry C. Lau, Tracy, Minnesota, August G. Lau, Garner, Iowa, and Walter F. Lau, Albert Lea, Minnesota; and other more distant relatives and friends.

Iced Coffee

Light and pretty enough for even the hottest days of the season are these two splendid egg main dishes:

Eggs A La King.
(Serves 6)

6 hard-cooked eggs, diced
2 tablespoons catsup
½ cup cooked or canned peas
2 tablespoons chopped pimiento
1 cup sliced, canned mushrooms
2 cups medium white sauce
6 slices tomato
6 slices buttered toast

Carefully combine all ingredients except tomato slices and toast. Heat thoroughly in double boiler. Broil tomato slices 5 minutes. Place on toast and pour over creamed mixture.

Ham and Egg Souffle.
(Serves 6)

¼ cup diced ham
3 slices egg
3 slightly beaten eggs
1 cup milk
½ teaspoon salt
¼ teaspoon dry mustard
¼ teaspoon paprika

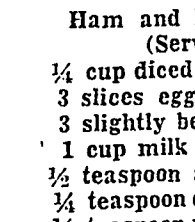
Brush bread with bacon drippings; cut slices into small pieces to fit deep casserole. Arrange in layers, sprinkling each with ham. Combine eggs, milk and seasonings. Pour over bread. Bake in a moderate (350-degree) oven until puffy and mixture does not adhere to inserted knife, about 45 minutes.

Summer desserts accent fruit and make a tasty, mouth-watering combination. Here are two suggestions which you will want to make use of some time this summer:

Summer Apple Tarts.
(Serves 5)

2 cups sliced apples
½ cup honey or dark corn syrup
1 teaspoon cinnamon
¼ teaspoon nutmeg
½ teaspoon grated orange rind
½ tablespoon butter
5 baked tart shells

Mix together sugar, spices and orange rind. Add to apples and toss together. Fill pastry shells with apple mixture. Dot with butter. Bake in a hot oven 15 to 18 minutes. If desired, these may be topped with beaten egg white or bits of American cheese.

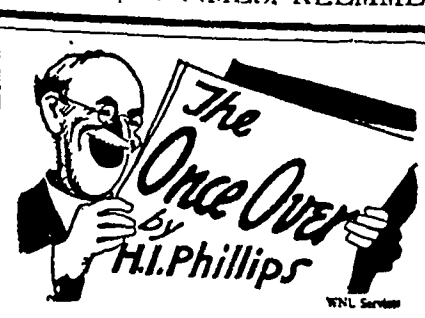


Parisian Peaches.
(Serves 6)

2½ cups cooked sliced or halved peaches
2 cups milk
2 eggs
3 tablespoons sugar
⅛ teaspoon salt
¾ teaspoon vanilla

Chill peaches well after cooking. Beat egg yolks, add sugar and then blend in scalded milk slowly. Cook in double boiler, stirring constantly until mixture coats the spoon. Add salt. Chill thoroughly, then fold in vanilla and beaten egg whites. Arrange drained peaches in a serving dish and pour custard sauce over them. Sprinkle with toasted almonds or slivered Brazil nuts, if desired.

Released by Western Newspaper Union.



McGOOFEY'S FIRST READER

I

1.—Oh, see the egg! Is it a fresh egg?

2.—Yes, but you mustn't be too particular these days.

3.—Which came first, the chicken or the egg?

4.—That no longer matters. The point to bear in mind today is that the customer comes last.

II

1.—Who is this?

2.—It is Jennie. Jennie is a housewife. Jennie is carrying a basket.

3.—What is that in Jennie's basket?

4.—A revolver, a letter from her senator, some credentials from her minister, a coil of rope, a map, a megaphone and a large bundle of money.

5.—Where is Jennie going?

6.—Jennie is going to try to get some eggs.

7.—Will she get some bacon, too?

8.—Don't be redick.

III

1.—Oh, see the egg! It is not like the egg in Chapter I.

2.—No. The egg has been polished, taken to market, card indexed, graded, stamped and given wound stripes.

3.—How does an egg get wound stripes?

4.—If you had to go through the wars that an egg has to go through in getting from the farm to the consumer you would have wound stripes.

IV

1.—Jennie is looking at the egg, isn't she?

2.—There are 67 people ahead of her, though.

3.—Will Jennie get the egg?

4.—No.

V

1.—Where is Jennie going now?

2.—She has left the store. She is going to a bingo party.

3.—Why?

4.—The door prize is one egg.

5.—Will she have a better chance to get the egg there?

6.—It won't be any worse.

VI

1.—Who is this?

2.—This is a maker of adages. He is author of the adage "Never place all your eggs in one basket."

3.—What is he doing?

4.—He is changing the adage to read: "Never use a basket to get negative answers."

Household Hints

Never use waxed thread in stitching wools. In pressing, heat of the iron melts wax and leaves a greasy line. This gathers dust and may attract moths.

—•—

Before starting to polish leather-seated chairs, wipe off the seats with a cloth dipped in sweet milk. You will be surprised at the dirt that will come off. Polish as usual.

—•—

Linoleum can be cleaned easily if it is kept waxed. A dry dust mop is generally all that is needed. Scrub only when dirty.

—•—

Peanut butter mixed with a little cream makes a good filling for white or graham cracker sandwiches.

Rotating Statue

One of America's outstanding memorials of the First World war is The God of Peace, the 38-foot onyx statue of an Indian by Carl Milles, installed in 1936 in the Ramsey county court house in St. Paul, Minn., says Collier's.

To show the detail of its back, this 60-ton figure rotates automatically on its base, to the right and to the left, 66 degrees in each direction, completing the two movements in five hours.

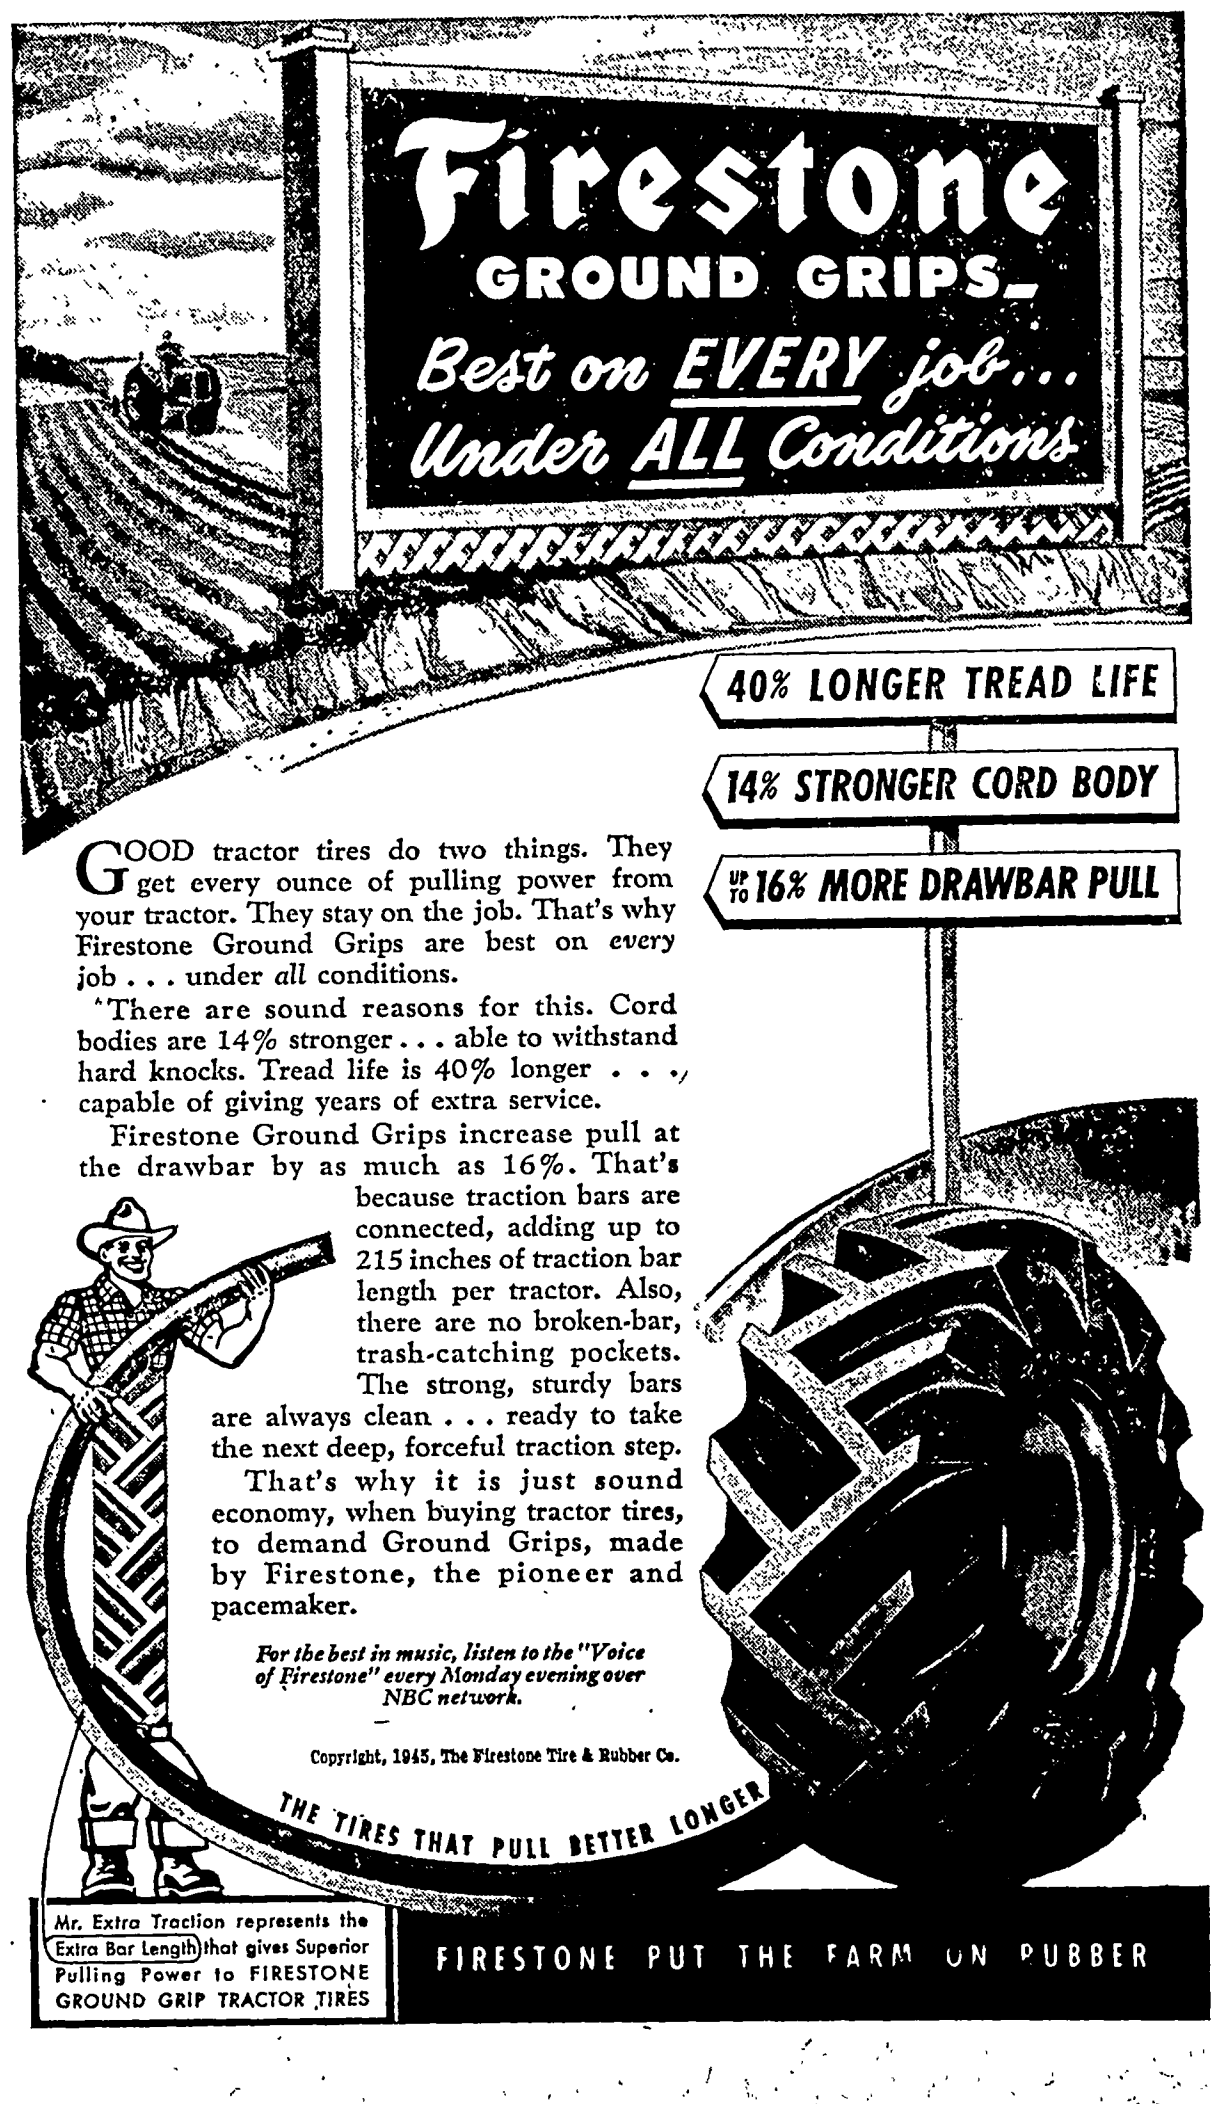
What you NEED is
SLOAN'S LINIMENT



GOOD tractor tires do two things. They get every ounce of pulling power from your tractor. They stay on the job. That's why Firestone Ground Grips are best on *every* job . . . under *all* conditions.

There are sound reasons for this. Cord bodies are 14% stronger . . . able to withstand hard knocks. Tread life is 40% longer . . . capable of giving years of extra service.

Firestone Ground Grips increase pull at the drawbar by as much as 16%. That's because traction bars are connected, adding up to 215 inches of traction bar length per tractor. Also, there are no broken-bar, trash-catching pockets. The strong, sturdy bars are always clean . . . ready to take the next deep, forceful traction step.

That's why it is just sound economy, when buying tractor tires, to demand Ground Grips, made by Firestone, the pioneer and pacemaker.

For the best in music, listen to the "Voice of Firestone" every Monday evening over NBC network.

Copyright, 1945, The Firestone Tire & Rubber Co.

Mr. Extra Traction represents the Extra Bar Length that gives Superior Pulling Power to FIRESTONE GROUND GRIP TRACTOR TIRES

FIRESTONE PUT THE FARM ON RUBBER

With the coming of peace Americans all may now look forward, without fear, into a new day of better living. . . .

A day of world wide understanding of the spirit of friendliness among nations. . . The Spirit that will make peace a fact.

Lewis Radio Shop

IN VICTORY!

Fighting . . . Sacrificing . . . Concern for the others welfare . . . a band of United Nations extend the warm handclasp of friendship as the bells peal out the news of final victory over the vicious enemy that would have enslaved the world.

The hands clasp a little tighter in token of the understanding resolve to see that such frightfulness shall never again be loosed upon the peoples of the earth.

Let the handclasp of nations be an ever present reminder that what has been so nobly started at the San Francisco Conference shall be the beginning and the essence of World Peace

Northern Lumber Company And Implement Shop

Victory has come and a prayer of thanksgiving rises from every heart as the roar of battle gives way to the quiet of returning peace . . . Our prayer is no less for an enduring peace as it is of Thanksgiving for the cessation of hostilities.

Yes, America with the rest of the world looks forward to a new era of Peace, Industry and Happiness based upon a true understanding of Good Will.

RECENTLY MARRIED

(Courtesy Globe-Gazette)

MR. AND MRS WALTER SCHLICHTING

Through the courtesy of the Mason City Globe Gazette, we picture Mr. and Mrs. Walter Schlichting, of Klemme, who were married July 25 and now live on a farm near Klemme.

MORE BOYS LEAVE FOR THE ARMED FORCES

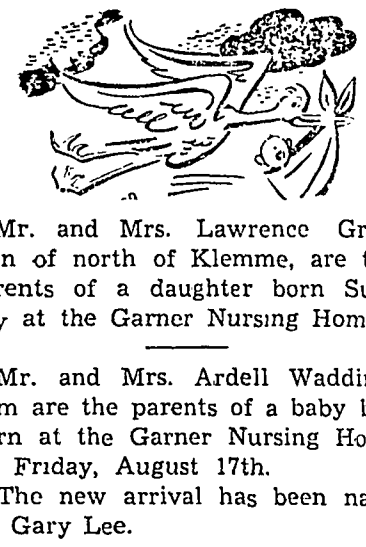
The following boys left for Jefferson Barracks, Mo., from Britt, August 13th to be inducted into the Armed Forces:

Glen P Kiley, Kanawha
Arvid B. Stokesbary, Garner
Marvin R. Wolwood, Garner
Maynard H. Swyter, Britt
Donald J. Horecka, Garner
Lewis L. Nedved, Britt
James L. Smith, Britt
Harm C Freeseman, Britt
Walter C. Asche, Garner.

The following boys were transferred into this county for induction into the Armed Forces.

Norman E. Greiman, from Waterloo to Garner; Trinidad Lopez, from Weslaco, Texas to Forest City; Domingo N. Lopez from Weslaco, Texas to Hayfield; David Aguilar, Weslaco, Texas to Forest City. Jesse C. Busick was transferred to Clarion for induction.

HELLO, FOLKS!



Mr. and Mrs. Lawrence Greiman of north of Klemme, are the parents of a daughter born Sunday at the Garner Nursing Home

Mr. and Mrs. Ardell Waddingham are the parents of a baby boy born at the Garner Nursing Home on Friday, August 17th.

The new arrival has been named Gary Lee.

Put Your Paper In Bundles Or Boxes, Please!

Leave In Front Of Your House or Store.

BETTER IOWA GARDENS

Lettuce, radishes, spinach, and kale are quick-maturing vegetables now going into the ground as victory gardeners make their last plantings of the season. More summer plantings have been made this season than at any time during the war.

* * *

Every gardener should take responsibility for seeing that surplus vegetables do not go to waste. If you're going to be away from home, make arrangements with some friend to pick the beans, the sweet corn and tomatoes as they mature. Surplus garden produce exchange centers will help to get surpluses into the hands of families who can use them.

* * *

Chinese cabbage does not transplant easily like kohlrabi and common cabbage. It is best to cut out excess seedlings, allowing one strong plant to every 15 or 18 inches in the row. Fertilize the plants and see that they get water during dry spells so they'll grow rapidly

* * *

Celery requires a rich soil with plenty of moisture and relatively cool weather. Many gardeners find they have more success with celery by growing it fairly close in cold-frames. Moisture can be regulated and kept more constant in a boxed-in area than in the open ground

* * *

Although green celery is more nutritious than blanched celery, many gardeners continue to blanch their plants To blanch celery well about 2 weeks are needed Blanching may be done by placing individual tiles over the plants, or by placing paper or cardboard cylinders around each plant. Boards can be set upright on each side of the celery row and stakes driven in to hold them in place. Drawing up the soil around the stalks may result in rotting.

* * *

Blanching improves the flavor, crispness and tenderness in endive. The large outer leaves may be brought to a peak similar to the method used in cauliflower, and tied together near the top. Any method which excludes light and keeps the inner leaves dry is satisfactory During rainy weather and after blanching has started, it pays to check the plants carefully for rotting of the leaves. If rotting starts, the leaves should be exposed to the air until they are dry.

RECIPE FOR KOSHER DILL PICKLES

No sugar, no vinegar required for these Kosher Dill Pickles. This is a favoritoe recipe of Mrs. Ruth Seaton Hicks.

Fill two-quart jars with medium sized cucumbers, add 2 cloves of garlic, 1 or 2 red Mexican peppers, and a generous amount of dill. Add boiling hot salted water (6 quarts water, 1 cup dairy salt) and seal jars. Some of the juice may come out of the jars for a few weeks so place them in shallow trays.

This produces a product so crisp it fairly crackles when you bite into it. The Mexican pepper gives it a "hot" touch and can be used or not as the maker prefers. It's the garlic that makes it a "Kosher" dill, but it can be omitted if the maker does not like garlic. but just as it is, it makes a wonderful dill pickle.

Caustic potash can be used to treat horn buttons of very young calves to prevent horns from forming.

One hundred laying hens that are producing an average of 50 eggs daily will drink an everage of 6 gallons of water per day in the summer.

Gravel roads are hardest on tires, studies by Iowa State College engineers show.

PEACE . . .

The peace loving American Eagle lays aside his armour of protection to pick up the tasks of peace once again. . .

With the full knowledge that we have won the right to a secure future, our earnest prayer and endeavor shall be for a secure and lasting peace, now and always.

Etchen Auto Co

It won't be long now before most of our boys and girls will be arriving home.

With open arms, thanksgiving in our hearts and deep appreciation of the unredeemable debt we owe them, we go about the business of keeping secure the Peace they have given us.

Kluckhohn's

Only when Victory for Peace follows Victory in War can the triumph be complete.

Together the peoples of a torn and bruised world have vowed to make an everlasting peace.

We here in this community have labored and contributed in a degree to this Victory. Now with thanks in our hearts and an earnest prayer we bend our energies toward the securing of the Victory for Peace.

The FIRST NATIONAL Bank

The Shield . . . a symbol of American Democracy!

With its Stars and Bars, it has once more served as a protection against the evil forces of aggression. . . .

It has been our protection and in cooperation with our Allies, the boys and girls of America have used this shield to successfully preserve our cherished ideals and principles.

This indeed is a day of thanksgiving throughout a liberated world!

H. Lau Sons

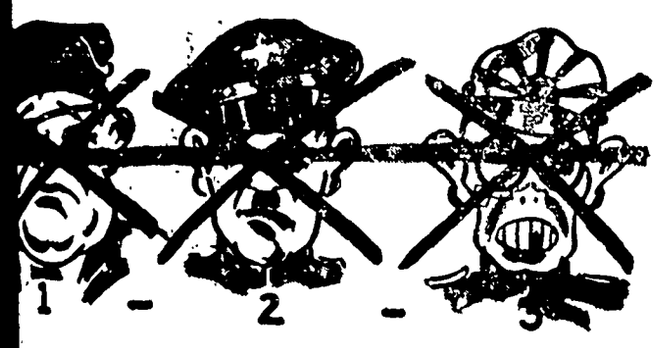
MISSION ACCOMPLISHED!

The aggressor nations have been defeated. . . . The God of War has been sent back to his mountains. . . .

And over the horizon, the fleet wings that have spelled Victory in the skies are winging their swift way home. . . .

Bringing a Peace that we hope shall reign forever throughout the world, with all nations joining a great brotherhood of understanding cooperation.

FEDERAL
North Iowa Grain Co.



UNITED NATIONS playing a game of terrific odds have chalked up a final victory to cross out the three major menaces to world security and happiness.

And now, together, working in harmony we shall check any rising power that may again threaten the security of a world once more at Peace. . . .

We shall do our part to make this a happier and better place in which to live.

Christie Garage

". . and they shall beat their swords into plowshares and their spears into pruning hooks; nation shall not lift sword against nation, neither shall they learn war any more . . ."

KLEMME NEWS

Mr. and Mrs. C. G. Waterman entertained to dinner last Thursday, Mrs. Mary Waterman, Mrs. Antonio Keraus and Lt. and Mrs. Lyle Wilcox in honor of Mrs. Mary Waterman, who celebrated her birthday that day.

Mr. and Mrs. Henry C. Lau, of Tracy, Minnesota, came Thursday, being called here by the death of Ben R. Lau, brother of Mr. Lau. They were guests at the home of Mrs. Lena Schroeder, sister of Mrs. Henry Lau, until Monday, when they departed for home.

Mr. and Mrs Clifford Adair last week end moved from the apartment above the post office, to the Wm. Stille house one block north of the post office, which was recently vacated by Mr. and Mrs. Levi Klotzbach, who moved into the Wessel house west of the depot.

H. D Ramsay's position as depot agent here terminates to day, Aug. 22, when a relief agent will arrive to take over the duties here. The Ramsay family expect to move to Waterloo this week where Mr. Ramsay will work as operator and ticket agent at the Rock Island depot

Mrs E. J. Arnold had the misfortune to break the bone in her thumb of the right hand last week Tuesday evening. She was out in the yard when she stumbled and tried to catch hold of a tree to get her balance and her thumb took up the shock as she fell. She is learning to use her left hand and is getting along fine now.

Mr. and Mrs. R. A. Jorgenson attended a picnic and program held by the Hawkeye Press Club at the shelter house at the Clear Lake State park Saturday evening. The meeting was in honor of Mr. and Mrs. J. C. Davenport who, after over forty years, are retiring as publishers of the Clear Lake Reporter, which they recently sold. Publishers were present from all over North Iowa.

NEWS ANALYSIS

Three Curb Germany in Agreements Remaking Europe; Air Blows Shake Jap Civilians

Released by Western Newspaper Union

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Red army men have been greatly intrigued by American timepieces, with this Russian holding wrist-watch to ear, paying G.I. $300 for it.

POSTWAR EUROPE:
Big Three's Design

Against a background of congressional opinion ranging from the declaration of Senator Ellender (Dem., La.) that the agreements "hold much promise for the eventual democratization of the whole of Europe" to the charge of Senator Taft (Rep., Ohio) that the changing of Germany's eastern boundary "sows the seeds of future war," the nation pondered the decisions of the Big Three at Potsdam.

Reached after lengthy sessions in the Hohenzollern's old palace grounds outside Berlin, the agreements called for the complete demilitarization of Germany; the destruction of its war making potential and supervision over domestic industry; the transfer of German populations from Poland, Czechoslovakia and Hungary; disposition of the German merchant marine, and the extension of the western Polish border up to the Oder-Neisse river lines of eastern Germany.

At the same time, the Big Three praised Germany's former partner, Italy, for wiping out Fascism and re-establishing democratic government, entitling the country to eventual admission into the United Nations. Disposition of Italian North African colonies is to be left up to a five man council of the foreign ministers of the U. S., Britain, Russia, France and China, who will also negotiate peace treaties with Germany and the other Axis satellites.

Other Big Three agreements included payment of material reparations to repair war damage and the transfer to Russia of 25 per cent of the industrial equipment in the U. S. and British occupation zones of Germany, immediate trial of war criminals, and exclusion of Spain from the United Nations because of its close Axis ties.

Prohibition of the production of arms, aircraft and ships; close supervision of the metal, chemical and machinery businesses, and elimination of cartels, syndicates and trusts, will seriously restrict the once-efficient German industrial establishment. In declaring that German industry would be geared to supply the needs of an agricultural and peaceful domestic economy, the Big Three stated that the country's living standards would be raised to the average European level, exclusive of Britain and Russia. Upon the German people's willingness to co-operate with the Allies will depend the restoration of their independence, it was said.

PACIFIC:
Japs Squirm

Having turned a deaf ear to the Allied ultimatum for unconditional surrender, Japan writhed under the mounting pressure of U. S. aerial blows, with Nipponese propagandists crying:

"We are enduring the impossible, with grinding teeth and clenched fist, when we see enemy planes penetrating our homeland and proudly flying over our heads."

Increasing swarms of B-29s added to the havoc already created by earlier raids, carrier plane assaults and naval bombardment of coastal points. Whereas the soldier in the field once bore the fury of Allied attacks, Jap propagandists said, the homeland now bears the brunt, with enemy troops at the front exhorting: "Hold that line, mother."

With more and more superforts being hurled against the Japanese, heavy bombardment of industrial centers further reduced the war-making potential of the Nipponese, appreciably cutting down on the production of munitions for the more than 4,000,000 enemy troops under arms. In addition to smashing at factories, Allied airmen have hammered at both overwater and inland transport, not only severing communications with the Asiatic mainland but between the home islands themselves.

As a result of the attack against communications, aircraft factories are experiencing difficulties receiving shipments of aluminum from the southern section of the homeland, and coal deliveries from the north have been seriously impaired.

Though the Japs spoke of underground factories for maintaining production and of the resolute will of the people to escape national annihilation, neutral sources did not rate their stock highly Though the Japs had spurned the Potsdam surrender bid, the Vatican said, intensification of U. S. attacks must make the Nipponese government appreciate the hopelessness of the military situation and improbability of stopping the Allies short of full victory by inflicting heavy losses.

MANPOWER:
Rap Army

Already partly blamed for slowing up reconversion by tying up materials and tools, the army was further charged with hoarding manpower and thereby threatening war production and orderly demobilization.

Declaring that the army could use only 3,000,000 of 8,000,000 men against the Japanese, Sen. Edwin Johnson (Dem., Colo.) said that retention of 5,000,000 in service not only imperiled coal and steel output, but that now was the time to release them while they still could be easily absorbed by industry.

Secretary Ickes needs more miners

Johnson's statement followed Secretary of the Interior Harold Ickes' assertion that unless the army were to free sufficient coal miners not only would industry be forced to operate on a four day week, but domestic consumers also would receive reduced supplies. With hard and soft coal production expected to fall 43,000,000 tons below needs, Ickes has sought the release of some 30,000 out of 130,000 miners in the services.

Though the army has consistently refused to let coal miners go because of its opposition to occupational releases, the war department announced that it planned to return over 7,000 ex-railroaders from Europe to help ease the transport labor pinch created by the redeployment program.

Meanwhile, civilian government agencies came in for their share of criticism over the tight manpower situation on the west coast, where virtually all war industries, but particularly shipyards and railroads, have been plagued by labor scarcities.

Assuring far western employees that the section would share in reconversion, and permitting war workers to sign up now for postwar jobs, would help to stem the exodus eastward in anticipation of better opportunities, a house committee said. Further, civilian government agencies should tighten regulations over job jumpers not subject to selective service, the committee declared.

POOR BRAKES:
1 in 7

One car in seven in the United States and Canada has poor brakes. This is the average shown by checks on 1,749,901 cars in the two countries by the International Association of Chiefs of Police.

Of the cars checked, the brakes of 255,989 or 14.6 per cent could not meet one simple requirement: Taking hold before the pedal came within an inch of the floorboard.

FARM BRIEFS . . .

During the first six months of 1945, county agents and farm labor placement officers filled 1,645,279 farm jobs, giving assistance to 250,000 farmers. During the month of June alone 640,216 placements were made as compared to 599,476 in June, 1944. Townspeople will be asked in August, September and October to help with local harvests in many areas with such crops as fruit, vegetables, potatoes, wheat, rice, cotton, sugar beets, peanuts, corn and tobacco.

POSTWAR BUSINESS:
Big Expansion

Emerging from World War II with a lot of cash on hand, industry plans to spend over 10½ billion dollars for new plants and equipment and working capital by the middle of 1946, the department of commerce reported.

Of the total, manufacturers expect to lay out over 9 billion dollars, while the railroads and gas and electric utilities plan to spend the rest. Manufacturers generally will finance three-fourths of their expansion with their own resources.

About half of the manufacturers' expenditures of over 9 billion dollars will be used for plant, equipment and alteration; almost 3 billion for increasing inventories, and the rest for furnishing credit to wholesalers for purchasing goods.

U. S. EXPENDITURES:
Overseas Total

Exclusive of lend-lease aid of 39 billion dollars, loans of over 1 billion and relief shipments of 373 million, the U. S. spent nearly 11½ billion abroad from July 1, 1940, to March 31, 1945, the Foreign Economic administration revealed.

Of the 11½ billion dollars, the FEA reported, over 4 billion was spent for metals and other supplies, much of which were used for war production, 4 billion for pay to American military and civilian personnel, and almost 2 billion for army and navy bases.

More than 5½ billion dollars were spent in the British commonwealth including the United Kingdom, Australia, Canada and India; 3 billion, 300 million in South America, and 147 million in Russia. Against total U. S. overseas expenditures of over 50 billion dollars for all purposes, foreign countries made cash purchases of 3 billion, 270 million dollars and extended almost 5 billion in reverse lend-lease.

Shooting Star

With the comment "it's the finest plane I've ever flown," Col. William H. Councill, 33, set his jet-propelled P-80 Shooting Star down at the New York airport after winging his way from Dayton, Ohio, in 62 minutes.

Built by Lockheed Aircraft and General Electric, and resembling a huge bat in flight, the Shooting Star could have covered the 544 miles in even less time, Councill said, revealing he has flown it at even greater speed than recorded on the flight.

Possessing a pressurized cabin, and capable of attaining a 45,000-foot altitude, the Shooting Star handles easily, Councill said. "There's no vibration and no noise," he reported. "You don't notice the acceleration. The pilot suffers far less fatigue than in the conventional type plane."

FRANCE:
Star Witness

Nervous, haggard and still a chain smoker, swarthy Pierre Laval promised to become the star witness in the treason trial of Marshal Petain following his surrender to American authorities in Austria and prompt transfer to the French.

Petain's counsel moved to call upon Laval following revelation of secret friendly dealings with the Allies by Gen. Maxime Weygand and Adm. William Leahy, chief of staff to the late Mr. Roosevelt and President Truman.

Testifying in court, Weygand disclosed that Vichy had agreed to keep the Germans out of North Africa in return for the delivery of American goods, while Leahy wrote a letter to Petain dated June 22, 1945, recalling that the marshal had acted against Axis interests at his request during his ambassadorship to France from January 1, 1941, to April 19, 1942.

Called Petain's "evil genius," Laval was an open advocate of wholehearted French collaboration with Germany, while the marshal has sought to prove that his objective was to play off the Nazis.

GRAIN STORAGE:
Less Wheat

Grains stored in the country totalled 1,412,000,000 bushels as of July 1, with 1,108,000,000 bushels on farms and 304,000,000 bushels in off-farm storages, the department of agriculture reported.

Of the huge stockpile of grains, 281,000,000 bushels is in wheat, 783,000,000 bushels in corn; 239,000,000 bushels in oats, 97,000,000 bushels in barley, and 13,000,000 bushels in rye.

Current stocks of wheat are 11 per cent less than a year ago and only 45 per cent as large as July 1, 1943. Corn storage is 31 per cent larger than a year ago but 7 per cent less than July 1, 1943. Oat reserves are 14 per cent higher than last July, but 9 per cent less than two years ago. The carryover of barley is 28 per cent larger than a year ago but 20 per cent less than July 1, 1943. Rye stocks are 41 per cent less than a year ago and only 27 per cent as large as July 1, 1943.

MEAT PRODUCTION:
Shows Decline

July production of 1,115,000,000 pounds of beef, veal, lamb and pork which may move in interstate commerce was 10 per cent less than that produced in June, and 22 per cent less than in July of last year.

Compared with July of last year, last month's production showed veal, lamb and pork down 18 per cent, 6 per cent and 45 per cent, respectively.

The Washington MERRY-GO-ROUND

DREW PEARSON

BRITISH LABOR PERSONALITIES

Britain's Labor party which swept Churchill out of office is a strange mixture, resembles the liberal branch of the Democratic party more than any Socialist movement. It has its liberal and its conservative wings, has had no labor troubles similar to ours during the past decade.

Clement Attlee, Britain's new prime minister, is a poor man. . . . He was little known among the fashionable people of England until 1935 when his salary was raised to 2,000 pounds a year. . . . After getting this pay boost, Mrs. Attlee was able to venture into society for the first time, was able to start playing golf, hire enough help to keep her home going. . . . Attlee likes to putter in his garden, do odd jobs around the house, constantly puffs a pipe, is a sharp contrast to fiery, charming Ramsey MacDonald, England's last Labor prime minister. . . . Attlee is no forthright leader, is considered more of an impartial middle man, will have all he can do to keep peace within his own widely split party.

Attlee's greatest rivals for power inside the party are paunchy, jovial Herbert Morrison and hard-headed, deep-voiced, testy Ernest Bevin. . . . Morrison lost his right eye when he was three days old, has had a "leftish" outlook ever since. . . . Morrison has played runner-up to Attlee in many elections, carries on constant behind-the-scenes warfare with Bevin. . . . Bevin had the same war job which Sidney Hillman took over in the OPM after Pearl Harbor—handling labor relations. However, Bevin made a better go of it, fought grimly and successfully for better rations for workers. . . . Morrison is a cockney, has a spry sense of humor, likes to dance, is head of the Labor party in politically potent London. He is also a man of daring, had the ancient tradition-encrusted Waterloo bridge torn down because he found it unserviceable, afterward had traffic rolling more smoothly through the center of London. . . . Morrison is a hard ruler.

Bevin—Union Boss.

Ernie Bevin is a hard-headed union boss. . . . He hates dictatorships but is a dictator in his own union, the giant transport workers. . . . Bevin runs his own union like John L. Lewis runs the mine workers. . . . Outside his union, however, Bevin's labor practices are more like those of Sidney Hillman and Phillip Murray. . . . He believes in negotiation rather than strikes. Bevin took a bad trouncing from Winston Churchill in 1926, has never forgiven the ex-prime minister. It was Bevin who called the 1926 general strike in England, a strike which Churchill dealt a shattering blow. . . . Bevin is a forthright anti-Fascist, was against Hitler, Mussolini and the Cliveden set from their inception, was responsible for the tough-minded position his party took internationally from 1933 to the outbreak of war. . . . As leader of the transport workers, Bevin controls considerable of the Labor party, is rough on his enemies, gruff with his friends, losses his patience frequently.

To get feminine support, the new labor government will lean heavily on a red-headed fiery labor M.P., Ellen Wilkinson. . . . Miss Wilkinson is at home in a fight, knows the world, has contempt for Britain's colonial policies, is a scrapper from the word go. . . . She knows about riots and bloodshed first hand, was in the thick of the black and tan trouble in Ireland, even led hunger marchers on London during the depression. . . . Miss Wilkinson lives in the Bohemian Bloomsbury section of London surrounded by poets, painters, actors and writers; has persuaded many of them to pitch into labor's fight. . . . Blunt and forthright, Miss Wilkinson was the first member of parliament to defend King Edward's marrying American-born Wallis Simpson. . . . In one speech she said, "We say that if a woman is good enough to be a man's wife, she is good enough to take her side by him as his equal in whatever rank of life intended."

Another powerful figure in the new Attlee government will be tall, sparse hard-headed Arthur Greenwood, recently minister of postwar reconstruction. . . . Greenwood was responsible for what little slum clearance the MacDonald government undertook. . . . A member of Churchill's cabinet, Greenwood never was known as a radical or a great liberal, is a seasoned bureaucrat, knows his way around government, is an able talker.

CAPITAL CHAFF

¶ Nelson Rockefeller recently asked for an appointment with Cordell Hull, but Hull refused to see him. Hull is a bitter-ender regarding Argentina, and it was Rockefeller who largely paved the way for Argentine recognition

¶ Mrs. "Hope Diamond" McLean, mother-in-law of Sen. Bob Reynolds whom the Scripps Howard papers have been exposing, is making a play for new members of the Truman cabinet. Some of them have been inveigled into her drawing room.

Veterans' SERVICE BUREAU

[EDITOR'S NOTE: This newspaper, through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.]

Revised G.I. Bill

Unless the senate accepts the revised G.I. Bill of Rights as it was liberalized by the house recently, there is little chance of further enactment until the reconvening of congress after the summer vacation.

The major provisions of the new bill which skimmed through the house by unanimous voice vote are designed to liberalize the loan and education sections and make only minor changes in hospitalization, employment, unemployment compensation and administrative titles of the original bill.

Amendments to the education sections extend from two to four years after discharge the time in which a study course may be started; extend from seven to nine years after the war's end the time in which education or training may be given at government expense; provide for short intensive post-graduate or vocational courses of 30 weeks or less; permit the government to finance correspondence courses; increase from $50 to $60 monthly educational subsistence allowance for a veteran without dependents, and from $75 to $85 the allowance for a veteran with dependents.

Amendments to the loan feature extend from two to six years after discharge or end of war the time in which a veteran may apply for a G.I. guaranteed loan; permit a qualified veteran to negotiate with any established lending agency or individual approved by the Veterans administration, for a loan for purchase of a home, business or farm in any amount; retain the existing limitation of 50 per cent of the principal, or $2,000, whichever is less, on the amount the government will guarantee; prohibit negotiation of loans until 30 days after a veteran's discharge, provide that the application need be approved only by the lender, instead of by the Veterans administration and provide that the reasonable value of property involved in a loan shall be determined by the lender's appraisal.

* * *

Q.—If a wife is separated from her husband, a lieutenant in the air corps, and he names his mother beneficiary in his life insurance, is the wife entitled to any benefits if the husband is killed?

A.—Since the mother is named beneficiary, she would be the recipient of all the insurance.

Q.—Are women in the service eligible for benefits under the G.I. Bill of Rights?

A.—Yes, nurses in both the army and navy, WAVES, SPARs, WACs and women in the Marine Reserves.

Q.—If a serviceman is not physically qualified for combat duty will he be sent overseas?

A.—The army will determine his physical qualifications, and if not physically qualified for combat he may be sent overseas for limited or other than combat duty.

Q.—Is the lapel pin for honorable discharge given only to men who have served since December 7, 1941?

A.—All men who served honorably in the armed forces since September 8, 1939, are entitled to wear the honorable discharge lapel pin.

Q.—How can I get a duplicate of my army discharge, lost in a fire at my home?

A.—You cannot get a duplicate, but you may obtain a verified certificate in lieu of discharge by writing to the Adjutant General, War Department, Washington 25, D. C., and asking for an AGO Form 0214.

Q.—What is the difference between an enlisted man's allowance and his allotment?

A.—An "allotment" generally is a sum of money reserved wholly from the pay of a serviceman and sent to his dependents or placed to his credit in a bank. The benefits obtainable under the Serviceman's Dependents' Act are termed "family allowances" and are made up from a sum from the soldier's pay plus a contribution from the government.

Q.—Was the increase in pay of enlisted men in the army for the duration only?

A.—No, the pay act is permanent legislation.

Q.—My husband served a year and then was discharged under a Section 1 disability. What is his draft classification and can he be reinducted?

A.—The Selective Service policy now is where men are honorably discharged, they are placed in Class 1-C and identified on the records by the designation, "disc." They may not be removed from this classification unless the director of Selective Service determines circumstances warrant a reclassification. In such case he may be reinducted, but not as long as he remains in Class 1-C.

Not Room for All on Land.

According to the army, the chances are that the nation's farms will not be able to absorb all of the men planning to return to them, in spite of the current shortage of a million farm workers. The army says that rural areas normally produce more young men and women than can be efficiently utilized on the farm. The problem may very well become acute considering the wartime increase in farm production achieved by more efficient use of labor on fewer farms.

A little more perspective on the problem may be had by a further analysis of the intentions of these men definitely planning to farm. In the first place, the survey makes it clear that a much larger proportion of the men want to become farm operators, by either buying or renting, than were farm operators before the war. A majority say they can count on returning to a tract of land which they or their families own . . . or they already have in mind a specific piece of land they expect to buy or rent. However, one out of every three indicate they will need to locate a farm to rent or buy after leaving the army.

So if the plans of all these prospective farmers materialize, there will be thousands of veterans looking for farms in the postwar period . . . and they very well may come up against a shortage of good land, which may, too, be selling at much higher prices than before the war. So there is fear on the part of the army that many of these men may be forced to settle on cheaper submarginal land.

The army points out that relief would be possible on this score if large sections of public domain or reclaimed land becomes available. About one out of six veterans said they would be willing to move on such tracts of land.

The same thing is true with respect to the farmer-serviceman as with the prospective business man . . . most of them are thinking of investing sums ranging up to $4,000. This may be compared with the department of agriculture estimates of $5,000 to $8,000 as the average cost of the family sized farm, not counting necessary tools, equipment, livestock, etc. . . . So these prospective farmers will also need financial help. How many will actually end up on the farm will depend on this aid, and on the comparative opportunities offered by industry and agriculture after the war.

In conjunction with the American Historical association, the Armed Forces institute has prepared a booklet entitled "Shall I Take Up Farming?" which is available at the Government Printing Office, Washington 25, D. C.

Most Will Work for Wages.

Of course by far the greatest segment of the armed forces plan to work for wages on their return. Two aspects of the plans of these four million men are noteworthy. First, only one-third of the white enlisted men who were employees before induction and plan to be employees after the war, definitely expect to go back to their former employers. Another one-third say they may return, but are not sure. This leaves another million men who will either migrate and move to other jobs or who have learned new trades and expect to do different work.

As a matter of fact the tendency among a large percentage of these servicemen is to aspire for work calling for a higher level of skill and in general, the proportion who plan to pursue their prewar occupations declines as one proceeds along the occupational scale. Five per cent of this group definitely plans to seek governmental jobs. The federal government now is by far the largest employer in the country and the monthly report of the Civil Service commission as of May 1, the latest report, shows paid employment in continental United States totaled 2,897,077, of which 2,001,186 were in the war agencies. Of this number, only 252,054 are in Washington.

While war cutbacks are expected to decrease this number somewhat, government work is expected to maintain the upward trend which has prevailed since the last war. State and local governments normally employ more than twice as many persons as does the federal government, and the five years immediately following the war are expected to see more than a million and a quarter jobs opening in this field.

Favorable employment opportunities and special considerations for veterans are expected to draw probably 10 per cent of the 52 per cent who plan to work for wages and salaries, into this federal, state and local government field.

Many Returning to School.

Veterans counting on going back to full-time school after the war is nearing the 600,000 mark.

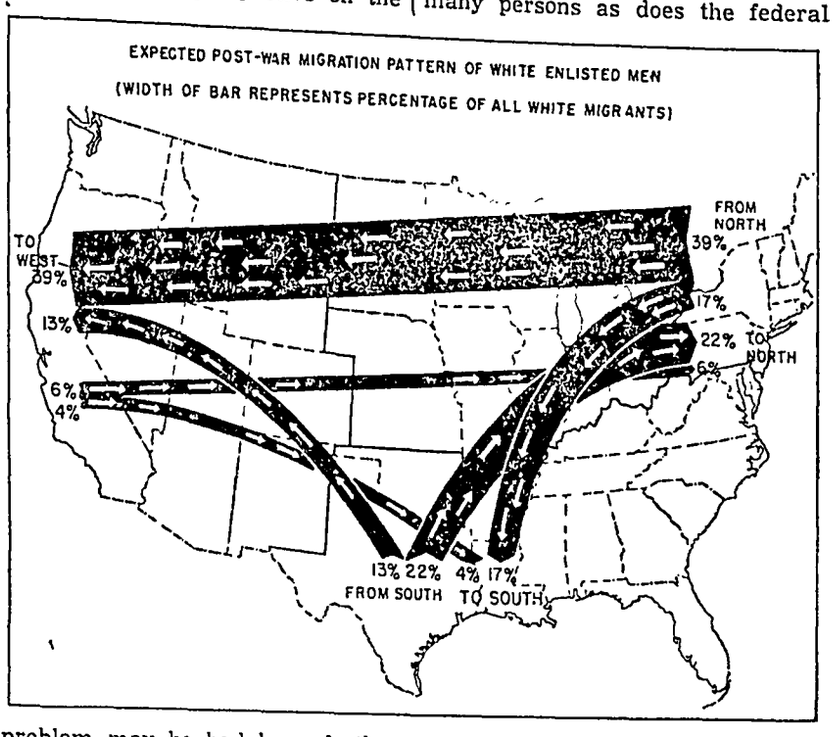
That most of these will enter college is indicated from the fact that more than 9 in 10 are high school graduates. The army points out that this war has brought about the first large decrease in college enrollment since the turn of the century and that non-military enrollments in colleges and universities dropped 44 per cent after the first two years of war Civilian college and university students in 1943 numbered smaller than 20 years ago. The deficit of college trained men, particularly acute in the liberal arts and teaching fields, will continue to accumulate as the war goes on. In view of these facts, it is interesting to note that the two most popular courses picked out by servicemen are engineering and architecture, and the liberal arts and sciences.

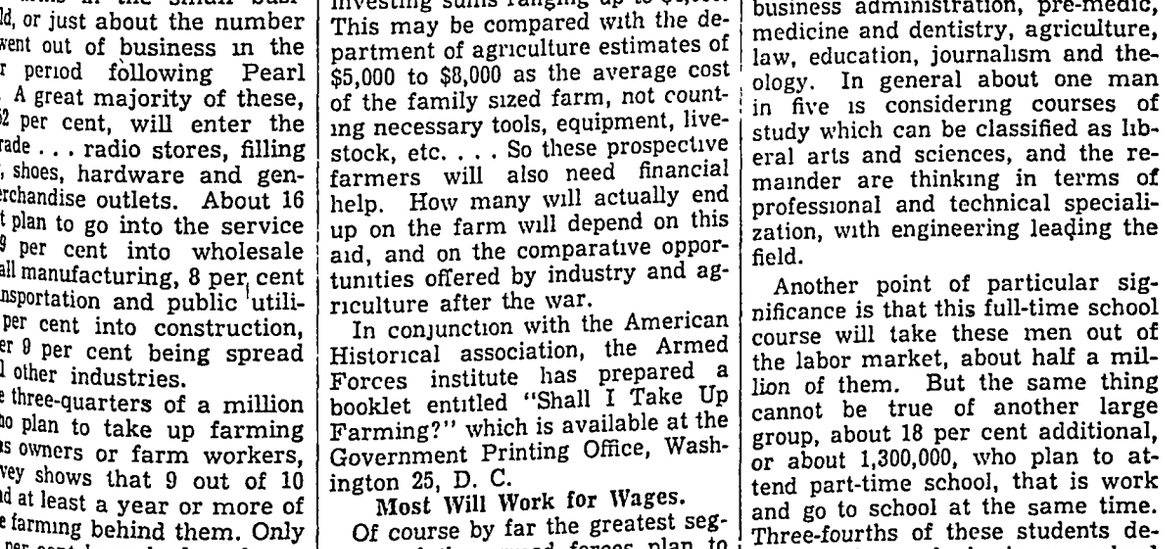
Engineering Most Popular.

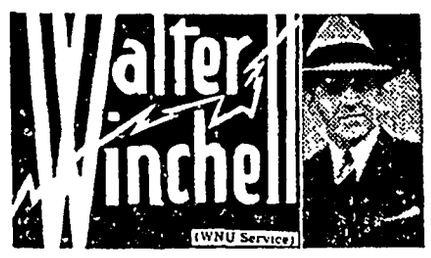
Other courses mentioned include business administration, pre-medic, medicine and dentistry, agriculture, law, education, journalism and theology. In general about one man in five is considering courses of study which can be classified as liberal arts and sciences, and the remainder are thinking in terms of professional and technical specialization, with engineering leading the field.

Another point of particular significance is that this full-time school course will take these men out of the labor market, about half a million of them. But the same thing cannot be true of another large group, about 18 per cent additional, or about 1,300,000, who plan to attend part-time school, that is work and go to school at the same time. Three-fourths of these students desire trade and business school courses. These also are in an older group and about one-third are married.

There is one more section of veterans which the survey classified. These were a group of about 3 per cent, about 225,000 who said they definitely plan to stay in the army. Up to more than 10 per cent who would consider re-enlistment under certain specific conditions. Two major considerations which will govern the actions of this segment are (1) the terms under which re-enlistments will be offered, including retention of rank, choice of service, duration of enlistment and opportunity for commissions, and (2) the kind and opportunities for civilian jobs which will be available after the war.







While Walter Winchell is away, this month, his column will be conducted by guest columnists.

Looking Back—and Ahead

By COMDR. JACK DEMPSEY

As I take over WW's chair, I find myself at a disadvantage. I have seen so little of Broadway in the last couple of years that I really don't know the score. My absence from the old street is only temporary. Like every sailor, I am looking forward to wearing a wide-brimmed Panama again, complete with a loud sports jacket and the brightest necktie I can find. That should be a matter of no more than eight months, for the Nips are hanging on the ropes and the bell isn't going to save them.

In the meantime I am in the Coast Guard for the duration, or as long as Uncle Sam has a job I can do. By the time this reaches you I expect to be somewhere in the Pacific. My assignment is that of military morale officer for the 11th, 12th, 13th and 14th Naval districts. Included in this group is Pearl Harbor and my duties may take me farther westward as our fleet hammers at the very doors of Hirohito's hovel.

Wants to Hold the White Horse

If I can only have the privilege of holding the Mikado's white horse when Admiral Halsey mounts him for his victorious ride through downtown Tokyo it will be a bigger thrill than I experienced when Jess Willard failed to answer the bell for the 4th round on that sunbaked day in Toledo, 25 years ago.

Speaking from experience I can assure you that a morale officer hasn't a tough assignment. Not with the Navy and the Coast Guard. I have trained thousands of seamen and I went ashore on Okinawa during that bloody campaign for the sole purpose of observing what benefits, if any, the men had received from our training program. There isn't a sailor out there who doesn't dream of coming home, but none of them want to return until the shooting stops. If you could talk with them at their battle stations you would be proud of just being with them.

As for myself, the war has been a wonderful, though hardly a pleasant, experience. It has been amusing, too. I was in England the day Jack London won the British Empire heavyweight championship from Tommy Mills. A British reporter asked me what I thought of Jack London and I replied that I had enjoyed reading his books and that I thought he was one of the truly great American writers.

"I am so sorry," replied the startled and polite Englishman. "I was referring to Jack London, the British prize fighter, and not Jack London, the American author."

I had to confess that I had never seen London fight and had no opinion to offer on the subject. I have since met London, a bald-headed veteran of 32 years. His defeat by Bruce Woodcock recently came as no surprise to me, as I judged from London's appearance that he was well past his prime.

A NEW FIGHTER

You may have gathered by now that I am still interested in the fight game. I am, and I expect to be active in it during the years that will be left to me after the war. Recently there arrived from the Argentine Abel Cestac, a young South American giant, sent to me by my old friend and foe, Luis Angel Firpo. If you know Firpo you will realize that he didn't lay out the money for his passage unless he was convinced Abel can fight.

Cestac hasn't been thoroughly tested yet, but I'm willing to take a chance. He's big, strong and rough.

Of course I can't be active in handling the South American. While I am in uniform, Max Waxman is looking after him. Waxman has managed several champions and he has been my personal manager for a great many years. I am fortunate to be associated in a business way with Max and also with Job Amron and Louis Brooks.

Because of them I have not had to make the financial sacrifice so many others had to make when they entered the armed forces. I couldn't have conducted my Broadway restaurant nor the Great Northern hotel any better than they have. We're a going concern and we are looking forwarl to the postwar years together.

BOXING WAS GOOD TO ME

Looking back from the exalted age of 50 years, I can truthfully say that boxing has been good to me. In the years just ahead I believe it will offer even greater opportunities to some Jack Dempsey of the future. Naturally I am convinced that the next heavyweight champion will come from the ranks of our fighting men. It was so after World War I and if I am not mistaken his name was Gene Tunney, a marine. I seem to recall meeting him on a rainy night in Philadelphia.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

JACOB ADJUSTS PERSONAL RELATIONSHIPS

LESSON TEXT—Genesis 33:1-11, 17-20.
GOLDEN TEXT—Let us therefore follow after the things which make for peace. —Romans 14:19

Eventually a man's past catches up with him and he must face his own record. The Bible says, "Be sure your sin will find you out" (Num. 32:23), and it always does.

Jacob, who had tricked and deceived his brother and had fled into a far country, ultimately had to return to his homeland and face Esau. The story of what happened makes up our dramatic and instructive lesson.

Before Jacob could be permitted to enter the Promised Land of his father, he had to meet God. He needed a thoroughgoing transformation of life and attitude, and he received it as he wrestled with God at Peniel (Gen. 32).

Ultimately the stubborn man had to yield, and then he found that it was God who had come to give him a great blessing. How often do we fight against the goodness and mercy of God. Yielding brings blessing; Jacob "the supplanter" became Israel "prince with God." He was now ready for

I. Reconciliation (vv. 1-7).

After living for 20 years in horror of meeting Esau, Jacob now learned that his brother was coming against him with an army. He resorted to clever strategy, but this time it was done not in sly crookedness, but in an open friendly effort to win his brother's good will.

There is nothing wrong about the use of a tactful approach, and it really worked for Jacob. His courtesy was shown by his seven bows. His bravery appeared in going out first. His conciliatory attitude showed in his rich gift to his brother.

Then came a surprise. Esau proved to be a loving brother rather than a hated enemy. Blood does count, and men do well to respond to the promptings of their hearts to be affectionate toward their brethren.

Note Jacob's pride in presenting his family. God had blessed him and he rejoiced in his fine children. The scene is typically Oriental, but it shows an attitude toward one's family which we could well emulate.

Next, a very practical note entered into the reconciliation of the brethren, namely:

II. Restitution (vv. 8-11).

The gift which Jacob had prepared for Esau was in the Oriental tradition, and yet it bore also the nature of a restoration of something of that which Jacob had taken from Esau in defrauding him of his birthright.

There is a place for proper restitution in every case where we have wronged another by taking his possessions or destroying his opportunities to prosper. Becoming a Christian is a forgetting of those things which are behind (Phil. 3:13) in a spiritual sense, but not in the ignoring of our obligations to others. What we can make right we must make right if we want God's blessing.

Esau was generous and did not want the gift, but since it would have been an affront to his brother to refuse, he accepted it. There are proprieties in life and little courtesies to be observed. Failure at this point has created much friction even between believers. Being a Christian should make one gentlemanly and ladylike Let's remember that!

Then, too, Jacob was wise in putting Esau under the friendly obligation which is inherent in the acceptance of a gift. Those who are stingy and close-fisted about giving to others often find that their lack of generosity has reflected in their lack of friends.

The time has come for the brothers to part, and we find Jacob falling into his old trickery as he prepares to

III. Return (vv. 17-20).

The portion between verses 11 and 17 indicate that instead of going on in straightforward dealings with Esau, Jacob resorts to evasion in order to be free to go where he would in his return to his fatherland.

Instead of going back to Bethel the place of blessing (Gen. 28), to which Jacob had been called (Gen. 31:11-13), he went to Succoth and ultimately to the outskirts of Shechem where his family fell into great sin. Ultimately, God did get him back to Bethel (Gen. 35), but only after much sorrow and suffering.

Jacob was called to live the life of a shepherd out in the fields with God, and when he pitched his tent near Shechem he compromised and lost out.

The incident pictures the tragic result of such folly in our day. Those who will not move over into the worldly life want to be close enough to it so that their children may have the cultural and educational advantages, and soon they find that they have lost their children to the world and have lost the savor of their own spiritual experience.

Salt Box and a Pan Holder Rack to Make

HERE is a pair of gifts that will bring joy to any homemaker. The salt box has the graceful proportions of those used in Colonial kitchens, and the rack with cup hooks screwed in place for hot pan holders is designed to harmonize with the box.

Both box and rack are easy to cut out of plywood or thin lumber scraps—either by hand with a coping saw or with a jig saw. The quaint stencil design may be applied right on the wood with wax crayon and then shellacked to fix the color. This washable finish brings out the brilliance of the crayon colors and at the same time gives a soft antique finish. The stencil also may be used with oil paint if preferred.

EMBLEM OF PEACE!

The Emblem pictured here is the badge of an honorable discharge from the Armed Forces of the United States of America.

Now that Peace has come, let us all honor this emblem by seeing to it that every opportunity is presented to the boys and girls who are wearing it. . . . The men and women who have been responsible for our great victories on land, sea and in the air.

WELLEMEYER

TOTAL VICTORY

With the falling of the last bastion of the Axis, Americans may now join with their Allies in rejoicing the return of peace.

Peace loving people everywhere may now raise their voices in thanksgiving for a safe and secure future.

ROTHS' CAFE

Tom and Leoda Roths

La Vohn Christie from Illinois is visiting at the Sumner Trumbell home this week.

The Klemme Girl Scouts will collect your waste paper again on Monday evening, beginning at 6:00 o'clock.

Claire West and children, Peter and Rosemary, of Nora Springs, visited at the Sumner Trumbell home Sunday.

Mr. and Mrs. J. N. Day enjoyed a picnic at the Hotchkiss cottage at Clear Lake Tuesday evening in honor of John Baumgartner, Jr., just home from the Pacific, and Margaret Skow of Watertown, So. Dakota.

Guests at the Rev. Harvey home Sunday who enjoyed a picnic dinner at the outdoor fireplace were Mr. and Mrs. Clarence Lindsey; Mr. and Mrs. Ed. Haupt; Dorothy Lindsey and Janice Haupt, all of Rowan.

Mr. and Mrs. Mayo Whaley and son Karroll, of Marshalltown spent the past five days at the Hugh Hummel home. While here they visited the Grotto at West Bend, and also visited with friends at Kanawha.

Pfc. and Mrs. Rudy Hefty and two children, of Amarilla, Texas, came Thursday morning for a visit at the parental Daisy Lemke home. Mr. Hefty is on furlough prior to leaving for overseas duty with the army.

George Neitland, who has been working on the railroad here, was very ill for a few days during the hot, sultry weather. George contracted maleria fever while serving in the Pacific and is subject to an attack under certain weather conditions, such as we have had.

Mrs. Lester Neuberger entertained to dinner Friday evening at the home of her parents, Mr. and Mrs. Frank Schulz, Warrant Officer Franklyn Buseman and wife; and Seaman Eugene Kluckohn and wife. Lt. and Mrs. Lyle Wilcox spent the evening visiting at the Schulz home.

Tornadoes Made in the U. S. A. We have more of the most vicious and freakish of all storms in one month than the rest of the world has in a year. C. E. Miller of the U. S. Weather Bureau, tells about it in The American Weekly, the magazine distributed with this Sunday's (August 26) Chicago Herald-American. 1tc

Mr. and Mrs. Conrad Quandt left Monday forenoon for the north country to spend the next five or six weeks at their cabin at Two Harbors, Minnesota, on the north shore of Lake Superior, during the "hay fever season." Their daughter, Mrs. Ernest Gerardi of Wichita, Kansas, is here to manage the cafe during their absence.

Harold Shoafstall and family of Jewell spent Sunday and part of Monday visiting at the parental Ted Dutheridge home near Klemme. Mr. Shoafstall is employed as operator at the Northwestern depot at Jewell.

The hemp plant at Britt has closed down, having processed all hemp on hand. A few men have been retained to store machinery and get the building ready for closing up. Three Klemme women, Mrs. Phillip Bock, Miss Lydia Bock and Mrs. Roy Schaefer, who were employed at the plant, are now home.

SYMBOLS OF PEACE—

Old Glory and the Dome of the Capitol at Washington symbolize everything that is free and peaceful to Americans. . . .

After months of sacrifice Americans on both the battle and home fronts have secured for future generations the heritage that these beloved symbols stand for!

LARSON'S SUPER SERVICE

Carold Larson, Proprietor

Local Happenings

Klemme and Vicinity

Fred J. Arnold was at Forest City on business Monday afternoon.

Julia Bell began work Monday as operator at the local telephone exchange.

Mr. and Mrs. M. D. Kubicek of Mason City visited at the John N. Day home Friday evening.

Mrs. Edward Rall was a 6:30 o'clock dinner guest at the John N. Day home Wednesday evening.

Mr. and Mrs. Emil Beier were visiting at the Wm. Beier home in Goodell Sunday afternoon.

Mr. and Mrs. Ed. Jacobs entertained Mrs. Edward Rall to dinner Monday noon.

Mr. and Mrs. Delmar Kingery and children of Marathon, Iowa, came Monday for a visit at the A. L. Kingery home.

Mr. and Mrs. John Whitesell and son of Armstrong were supper guests at the A. L. Kingery home Tuesday evening.

Mr. and Mrs. Carol Larson and children and Mr. and Mrs. Fred Kluckhohn left last Thursday for Indiana, for a visit with Mrs. Fred Kluckhohn's relatives.

Franklin Kluckhohn has been painting the exterior wood work at the First National Bank this past week, using a trim of white and brown.

Tom Roths is installing a walk-in cooler in the basement of his cafe, using the old bank vault as the refrigeration room. It will make a nice improvement.

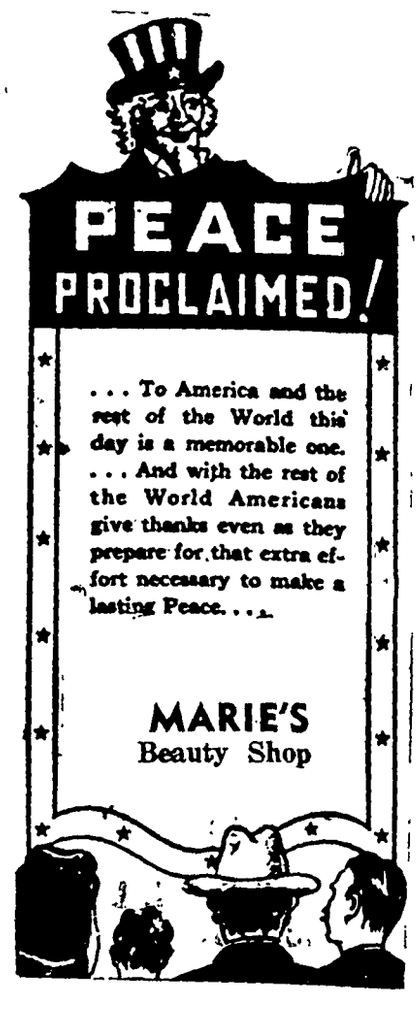
Seaman Eugene Kluckhohn, wife and baby, left Saturday for Highlands, New Jersey, after enjoying an extended furlough visiting with Klemme relatives and friends for a few weeks.

Pvt. and Mrs. John Clements and son, Jimmy, returned Saturday from Estherville where they spent several days visiting with Pvt. Clements' mother and other relatives.

Carl Wille had the misfortune one day last week to get his hand caught in a grain elevator, with the result that the bones were fractured in one of his fingers. He carries his arm around in a sling.

Walter Eisberg of Garner and M. S. Neilsen of Mason City, representatives for Pfister hybrid seed corn were in Klemme on business Tuesday afternoon. Mr. Henry Buseman has been appointed dealer for Avery township.

Mrs. Clara Stille entertained the following to dinner at her home Sunday noon: Mrs. Arthur Carlson and daughter, Carol, of Clear Lake; Mr. and Mrs. Kermit Stille and children of Thornton; Mr. and Mrs. Virgil Stille of Liberty township. For supper, Mrs. Stille entertained Geo. Stille and family of Goodell; Mr. and Mrs. Fred Meckstroth and Mr. and Mrs. W. C. A. Gast of Garner.



. . . To America and the rest of the World this day is a memorable one. . . . And with the rest of the World Americans give thanks even as they prepare for that extra effort necessary to make a lasting Peace. . . .

MARIE'S Beauty Shop

Mrs. Kenneth Medin and two children recently visited with her parents in Kentucky.

Mrs. Herman Paul was on the sick list several days last week but is again much better.

Mr. and Mrs. Fred Musfelt of Clarion came Friday to attend the funeral services for Ben Lau.

Mr. and Mrs. Lee Stewart of Webster City visited last week in Klemme at the Louis V. Perkins home from Monday to Wednesday.

Rosemary Stout of Waterloo, spent several days the past week visiting in Klemme with her cousin, Mrs. A. L. Kingery.

Miss Lydia Beier of Waterloo, and Mrs. August Ridder and son, Walter of near Leland, were dinner guests Sunday at the Frank Ward home.

Mr. and Mrs. R. A. Jorgenson entertained to dinner Friday evening Mr. and Mrs. H. D. Ramsay, Mr. and Mrs. C. G. Waterman and Lt. and Mrs. Lyle Wilcox.

Mr. and Mrs. Vic Perkins returned to their home at Estherville Friday after visiting at the parental Louis V. Perkins home since Monday of last week.

Mrs. Edith Lieuwen of Belmond visited with Klemme friends Sunday. Mrs. Lieuwen will teach in our grade and high school the coming school year.

Seaman Leo J. Blumer, 2-c, of Chicago, Illinois came home the latter part of the week for a visit with his parents, Mr. and Mrs. Walter Blumer.

"Jack" Runge has been off the job as carpenter at the Northern Lumber Co. for a couple of weeks as he has been laid up with a case of arthritis.

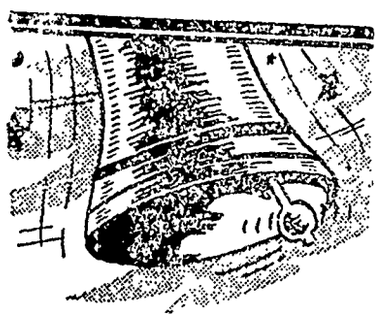
Mrs. P. M. Wilson returned home Sunday from Des Moines, where she spent three weeks visiting with her daughter, Mrs. Robert Risser and son, Bobbie

Mr. and Mrs. Lester Stille and daughter, Lois; Mrs. Lydia Hartzel and Linda Lee Anderson were at Britt Sunday to attend an anniversary celebration in honor of Mr. and Mrs. C. L. Hartzel, who have been married 31 years.

Mr. and Mrs. Milton Weisbrod and two children of Fenton visited for a short time Sunday evening at the parental George Schoenwetter home. The Weisbrods had been at Waterloo visiting with relatives.

Reports from Iowa City are that Allan, son of Mr. and Mrs. Melvin Neuberger is improving from an attack of infantile paralysis. He is being given the Kenny treatment with good results.

Mr. and Mrs. W. C Keraus moved their household goods last week to the apartment in the Wellemeyer building. Mr. Keraus also has his insurance office in the same building.



BELLS RING IN AMERICA . . .

. . . Americans everywhere turn toward the source of the bells which joyously proclaim the final Victory which brings Peace.

Americans turn to the Church to give thanks for our deliverance from the burden thrust upon us by the power seeking enemies who would have enslaved us all.

Yes, the Bells ring for Peace and we are truly thankful.

QUANDT'S CAFE

Mr. and Mrs. Conrad Quandt

Will Hold Annual Meeting

The annual meeting of the Klemme Cooperative Grain Company will be held at the Community Building on Friday, August 31, at 8:00 p. m. Patronage checks will be distributed at this meeting.

The number of laying hens on farms next January 1 is expected to be about the same as last year.

TO WHOM WE OWE SO MUCH

The boys and girls who have brought us peace. They all have had their important part to play . . . Theirs was the hard part . . . yet accomplished because of the confidence they had in the folks on the home front.

Yes, we are truly grateful to these, our men and women who so nobly sacrificed that we might continue to enjoy the privileges of "Life, Liberty and the Pursuit of Happiness."

Thada's

As Victory comes we feel an inward welling up of the emotions . . . a look, a glance, a hand clasp . . . words are unnecessary.

As we pause with this divine message of thankfulness surging through our very being we are conscious of our responsibility to the future . . . a responsibility to see to it that it will be a future free from doubts and fears . . . free from ignorance and greed . . . free from war.

We join our neighbors in this devout purpose, not only at home but for all peoples of the world.

Klemme Schools begin Monday, September 3rd.

CHAMPION GLADIOLUS—This stalk of Ivy Robertson gladiolus was judged the best spike entered in the combined exhibition of the Iowa Gladiolus Society and the Cedar Rapids Gladiolus Society at Bever Park, Cedar Rapids, Sunday, August 12. It was entered by Louis V. Perkins of Klemme, Iowa, who is pictured holding the 22-bud stalk with eight full blooms. Mr. Perkins won the Grand Champion for the State of Iowa for this entry.

PERKINS WINS AT GLADIOLUS SHOW

EXHIBITED AT SOUTHERN MINNESOTA GLAD SHOW

Took Large Number Of Trophies And Ribbons At Albert Lea

Mr. and Mrs Louis V. Perkins attended the Southern Minnesota Gladiolus Show, held at Albert Lea, Minnesota on August 22nd, where they exhibted the products of their gardens and captured a lion's share of the trophies and ribbons despite the fact that they had misfortune follow them on the trip, when they lost several large boxes of flowers at Lake Mills. A rope had broken which held the boxes of flowers on a rack on the back of their car, spilling the boxes along the highway, and ruining a large part of their exhibition spikes which they had planned to enter in the competition.

However, Mr. Perkins was awarded a vase for having the Reserve Grand Champion Spike of the show, which was the "Leading Lady."

Perkins also had the Grand Champion Three Spikes of the show "Colonial Maid," which won the Purple Ribbon and Silver Medal.

Here are the other places that Mr. and Mrs. Perkins came home with.

Bert Spike, Minnesota Origination, "Daisy Mae," Purple Ribbon.

Best Spike, Wisconsin Origination, "Miss Wisconsin," Purple Ribbon.

Best Spike, Iowa Origination, the "Hawkeye Red," Purple Ribbon.

Spike with longest flowerhead, "Ivy Robrtson," 33 inches, Purple Ribbon.

Spike with largest number of open florets, "Eleanora," 13 open, Purple Ribbon.

5 Varieties, all types, 1st place, Purple Ribbon.

10 Varieties, all types, 1st place, Purple Ribbon

20 Varieties, all types, 1st place, Purple Ribbon.

Best Lavender Spike of the show, "Colonial Maid," Vase.

Best Orange Spike of the show, "Drum Major," Vase.

Best Scarlet of the show, "Southern Drama," Vase.

Best Purple of the show, "Elanora," Vase.

Best Rose of the show, "Miss Wisconsin," Vase.

Sweepstakes in Division Three, Most Points, Green Ribbon.

Sweepstakes in Division Four, Most Points, Green Ribbon.

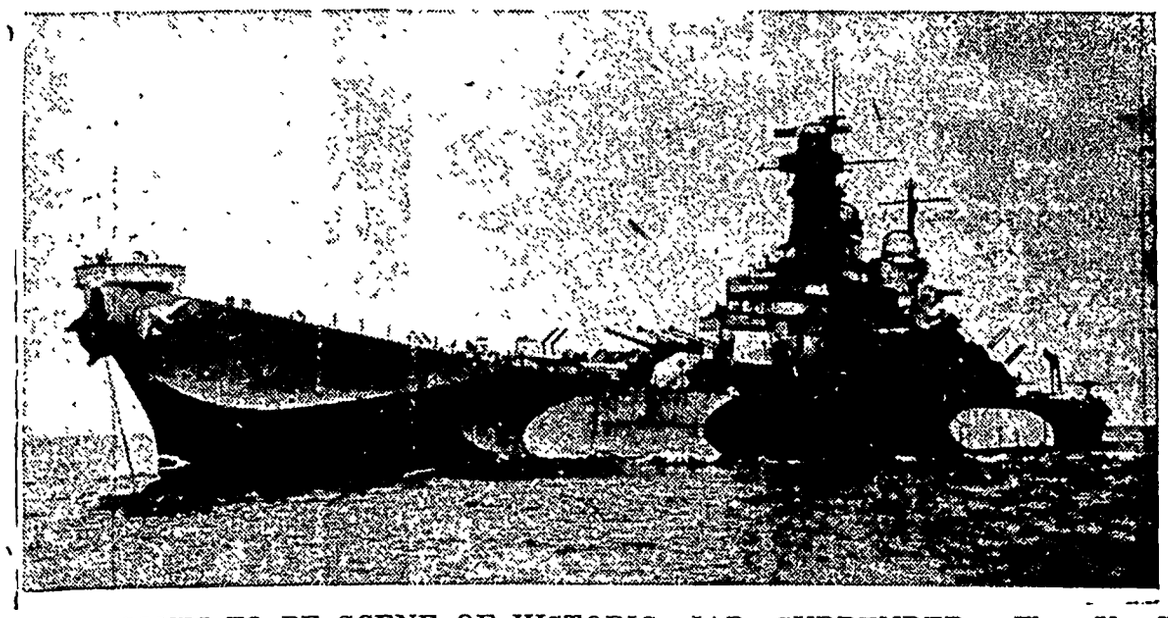
Sweepstakes in Division Nine, Most Points, Green Ribbon.

Division Champion, Division 4, "Leading Lady," Purple Ribbon.

Division Champion, Division 5, "Colonial Maid," Purple Ribbon.

Those who have not seen the Perkins Gladiolus Gardens here in Klemme, should take a little time and see the wonderful array of colorful flowers now in bloom.

Many people have visited the Perkins Gardens the past few Sundays. Many visitors come from a long distance to see these fine specimens.



USS MISSOURI TO BE SCENE OF HISTORIC JAP SURRENDER.— The U. S. Navy's mighty 45,000 ton battleship, the USS MISSOURI, will end her World II career in a blaze of glory, August 31, 1945, in Tokyo Bay, when she serves as the scene of the historic unconditional surrender of Japan to the United States. Proudly bearing the name of the home state of President Harry S. Truman, the fighting USS Missouri has been named by General of the Army, Douglas MacArthur, Supreme Allied Commander, as the locale of the formal ending of the war in the Pacific. Fleet Admiral Chester W. Nimitz, Commander-In-Chief of the United States Pacific Fleet and Pacific Ocean Areas, will sign for the United States, General of the Army, MacArthur for the Allied Forces which fought in the Pacific. The USS Missouri was launched Jan. 29, 1944. Construction was ordered June 12, 1940. Her keel was laid on Jan. 6, 1941 at the New York Navy Yard.

Klemme Schools Open With A Complete Staff Of Teachers

KLEMME BUSINESS PLACES TO BE CLOSED LABOR DAY MONDAY, SEPT. 3

As has been the custom for the past several years Klemme business places will be closed all day Monday, September 3rd, which is Labor Day and a legal holiday.

Complete your necessary shopping on Saturday night as business places will be closed in Klemme from Saturday night until Tuesday morning.

Open Two Nights A Week

Klemme business places will continue to remain open on Wednesday and Saturday nights for several more weeks, or until sometime in October. After that Saturday night will be the only open night during the balance of the fall and winter.

GRINNELL MAN BURIED HERE TUESDAY AFTERNOON

Funeral services were held at the Henry Jost home Tuesday afternoon for Mr. Ola Thompson of Grinnell, Iowa, who passed away Saturday after a long illness. Burial was in the Ell Township Cemetery. Services were conducted by Rev. Calvin Grosshuesch.

Deceased is a son-in-law of Mrs. Fred Nagel, and a brother-in-law of Mrs. Henry Jost.

Mrs. Oscar Swanson Received Letter From Brother In Norway

Mrs. Oscar Swanson was thrilled last week when she received a letter from her brother in Norway. This was the first news Mrs. Swanson had received from any of her relatives in Norway since the Nazis occupied that country Her brother said they were all well and were thankful that the Allies had liberated their country.

SCHOOL BOOKS MAY BE RENTED

GRADES AND HIGH SCHOOL BEGIN MONDAY, SEPT. 3

Students Will Register And Get Textbooks First Morning

Supt. A L. Kingery announces that the Klemme grades and high school will begin Monday, September 3rd at 9:00 o'clock with a complete staff of competent teachers, in both the grades and the high school departments.

Grade Teachers Named

Kindergarten: Miss Arlene Wille of Klemme.

First and Second Grades: Miss Lena Halfwassen, Chapin, Iowa.

Third and Fourth Grades: Miss Mary Jane Holmes, Britt, Iowa.

Fifth and Sixth Grades: Mrs. H. G. Voetberg, Garner, Iowa.

Seventh and Eighth Grades: Miss Vivian Westerberg, Forest City.

High School Faculty

Superintendent: A. L. Kingery.

Home Economics and English: Miss Fern McDaniel, Blythesdale, Missouri.

Vocal and Instrumental Music: Mrs. Edith Lieuwen, Belmond.

Commercial: Mrs. H. E. Harvey, Klemme.

Mathematics and Physics: Mrs. Harry Leith, Klemme.

H. S. Principal, Social Science, and Biology: Mrs. D. O. Turgasen, Klemme.

Rules For Registration

The following information is needed for the registration forms:

1. Name of pupil as it appears on birth certificate.
2. Date and place of birth.
3. Father's name, and mother's name.
4. Guardian, if not the same as above.
5. Address and telephone number.
6. Name of school previously attended if pupil did not attend the Klemme School last year.

Textbooks May Be Rented

High school and grade pupils will have several sets of new text books at the start of the school year. All grades from the third through the eighth will have new spellers and arithmetics. The freshman and sophomore English classes will have new text books and a limited number of literature books which have been purchased for each class. New typing books have also been purchased. New World History and Biology books have been added so each sophomore may have a copy of each.

The pupil may rent textbooks and rent workbooks at cost from the school. The rentals are used to pay for the book. A book that is in use four years pays for itself.

The following list of charges for each grade is printed for the convenience of those pupils who wish to pay cash for their books. The charges include both text book rental fees and the cost of the workbooks for the coming year:

Grade 1. $1.95	Grade 2. $2.25
Grade 3. $2.50	Grade 4. $2.50
Grade 5. $2.55	Grade 6. $2.55
Grade 7. $3.20	Grade 8. $3.25
Grade 9. $2.30	Grade 10. $3.10

Grades 11-12: Charges will vary depending upon subjects taken.

New Features This Year

For the first time in the history of the school rural grade and high school pupils will come to Klemme by modern, all-steel bus transportation. At present the school will operate two new buses; another bus has been purchased to be put into operation later.

Another new feature to be added this year will be hot lunches at noon for rural pupils. This feature will be put into operation before cold weather and as soon as the proper equipment can be installed.

Lynn Says

S-T-R-E-T-C-H the Meat: With civilians getting only about one-half the meat of former years, economy in its use is the watchword. Do it this way:

Serve meat in stews but extend it with noodles, dumplings and vegetables.

Extend ground meats with cereals such as oatmeal, cornmeal, bread and cracker crumbs.

Stuff cuts like heart, breast, etc., with your favorite dressing

Use the soup bones, shanks, knuckles, and other inexpensive, bony cuts for rich-flavored soups.

Combine leftover meats, ground, with potatoes and other vegetables for hash.

*Regal Pudding
Beverage

***Poached Lake Trout.**
(Serves 6)

- 1¼-pound lake trout
- ½ cup milk
- ½ cup water
- 4 slices lemon
- ½ teaspoon allspice
- ½ teaspoon salt
- 1 sprig parsley
- 2 cups medium white sauce
- Juice of ½ lemon
- 2 hard-cooked eggs, chopped

Place cleaned fish in skillet or long pan; add combined milk, water, lemon slices, spice, salt and parsley. Cover and cook for 20 minutes. Carefully remove to platter. Combine white sauce, lemon juice and hard cooked eggs; pour over fish and serve at once.

Cool as a sherbet is this grapefruit mint ice served prettily in grapefruit shells—a perfect ending to a warm evening dinner.

***Regal Pudding.**
(Serves 6)

- ½ cup honey or corn syrup
- 2 tablespoons flour
- ⅛ teaspoon salt
- 1 beaten egg
- 2 cups milk, scalded
- ½ teaspoon vanilla extract

Combine syrup or honey, flour, salt, egg yolks and whole egg. Add small amount of milk; blend and stir into remaining milk. Cook in double boiler, stirring constantly. Cool, add vanilla extract. Pour into sherbet glasses and chill. Top with the following:

Beat 2 egg whites until stiff; fold in 2 tbsp. light corn syrup, beating constantly. Slowly add 1 1-ounce square melted unsweetened chocolate, ½ teaspoon vanilla extract and ⅛ teaspoon salt. Chill.

Cold Sliced Meat in Aspic.
(Serves 8)

- 1 envelope plain, unflavored gelatine
- ¼ cup cold water
- 1½ cups consomme, highly seasoned
- ½ cup cooked peas
- 1 cooked beet, sliced
- 1 hard-cooked egg, sliced
- Slices of ham
- Slices of chicken or veal

Soften gelatine in cold water and dissolve in hot consomme. Pour a thin layer into a mold that has been rinsed in cold water. When it stiffens, arrange on it decorations of the peas, beet, and egg. Cover with a little more of the gelatine mixture which has been allowed to stiffen slightly. Dip other pieces of the decorations in the aspic and set them against the chilled sides of the mold. When these have stiffened, fill mold alternately with slices of the ham, chicken, and thickening aspic. When firm, unmold on a bed of lettuce leaves. Garnish with radish roses. Slice for serving.

Released by Western Newspaper Union.

Vitamin-Enriched Pork

While pork is recognized as one of the richest sources of thiamin among the natural and universally consumed foods, experiments at Washington State college showed that they could make this good source even better by artificially enriching the pork and by feeding the hog with vitamin enriched food.

Walter Winchell

(WNU Service)

While Walter Winchell is away, this month, his column will be conducted by guest columnists.

By JACK LAIT

Coast-to-Coasting:

Herman Shumlin, Broadway-made director, now a Hollywood wage-slave (at what a wage!) is hot for realism. For a scene in a film with Charles Boyer and Lauren Bacall, he wanted a photo of a bullet hitting a wall—and he wanted it authoritatively authentic. At 2 o'clock in the morning, he got four Warner lot cops to stand off and pop their 44's at a studio wall and had each shot shot from several angles. . . . He still didn't get just what he was after . . But, came the dawn, H. M. Warner sent for his whole force and demanded to know — what crackpot had been shooting up his bungalow? It's right past the wall. The place looked like Berlin!

Mike Romanoff, the Great Pretender, who now owns the most prosperous cafe in California, has won his naturalization papers, thus disproving canards that his Imperial Highballness was born in Brooklyn. Mike is a native of London. Strangely, his true name is Romanoff, which gave him his original inspiration to "adopt" the czarist clan. He says he will definitely not change the monicker now to Mike Stalin. . . . Dr. Irving Berman, Hollywood eye specialist, has it figured out that persons with normal sight should sit four times the height of the screen from the screen. Bring your own tape-measure!

The Commies in and around the movie industry have set up such an organized and agonized howl against a proposed Red probe that their activities are accentuating the positive far more than another official investigation is likely to. That Hollywood is crummy with every shade of bolshy lovers is obvious to anyone who can see or hear. A recent California legislative survey turned up conditions even more malodorous than surface symptoms had indicated. Stars, producers, executives — with no understanding of what the Russian system means—plug for it. Crimson propaganda creeps into costly films. Anyone who thinks democracy and a republic are pretty sweet is a fascist isolationist; anyone who thinks we're lend-leasing like fools is a Tory reactionary. The victory of the radicals in Britain was toasted and celebrated in mansions and swank cafes in the community which glorifies the Soviets and squawks about high U. S. income taxes in the same breath!

Tim Gayle has left Fred Waring exploitation to start another musical mag, "Preview." He formerly published "The Baton." He was going to call his new periodical "Finale," but Westbrook Pegler, whose advice he asked, didn't like that—said it sounded pessimistic. Peg also said in his letter: "I think anyone who starts a business enterprise today on his own money deserves either a medal or a scholarship in Matteawan. Anything that old Sam doesn't take away from you, in the improbable event that you make a dollar in the first place, will be taken by the unions and the lawyers whose services will be necessary to keep you out of prison from day to day." And Peg advises against pessimism!

Hollywood is where: A fortune rides on the turn of ankle or the tilt of a nose; everything is so irresponsible and goofy that a dozen new millionaires emerge every year; everybody wears slacks and owns race-horses; biggies love yesmen and hire high-priced monitors to stop them from doing what they'd love to do; everyone denies that the movies are just entertainment and insists the screen is a medium of education, culture, enlightenment and patriotism; and the cast and crew of "The Kid from Brooklyn" put in 48,400 man-hours in a prize fight sequence that runs 3 minutes, 14 seconds, when you see it.

Connie Bennett is back again, just a trouper on the payroll. Her ambitious venture as a producer came rather a cropper. . . . "Paris Underworld," a great story, was washed out with VE Day. But Connie had fun while it lasted—ordering people around, refusing this, turning down that, one Constance picnic.

Freddie Steele, ex-middleweight champ, couldn't get East for the "Story of G.I. Joe" premiers, but Pvt. Robert Mitchum (who plays the captain) got travel priority because he's in the army. Both are film finds and will be heard from plenty more. . . . Faye Emerson is heartsick. A few months ago she blazed up as Elliot Roosevelt's bride, daughter-in-law of the President. Since then, she's had some tough publicity breaks and the Roosevelt name no longer works magic. Soon Elliot will be back in private life.

JAPANESE WARLORDS CONFER

First Warlord. — Here are some American terms of surrender. Let us reject them at once.

Second Warlord. — Why so fast? Wouldn't it be well to think them over?

First Warlord.—If we start thinking at this point all is lost.

Third Warlord. — Are the terms really bad?

First Warlord. — I never realized Japan's position was so terrible until I read them.

Fourth Warlord. — Just what is the ultimatum?

First Warlord. — If we don't give up now we will get into trouble!

Second Warlord. — That is the understatement of the war.

—•—

Third Warlord.—Does it not mean that by rejecting the terms we will be leaping from the frying pan into the fire?

Fourth Warlord (emphatically).—What Halsey is using on us is no frying pan! How did we ever permit him to bring his fleet in so close?

First Warlord.—It was easy!

—•—

Fifth Warlord (entering with paper).—Here's another one!

Third Warlord.—Another what?

Fifth Warlord. — Another daily communication from the Yankee air force announcing the batteries, the team signals and the program for the day, play by play.

Fourth Warlord. — Where is our air force?

First Warlord. — It is busy in its suicide campaign.

Second Warlord. — How is the suicide campaign going?

First Warlord. — Excellent. It is terrorizing everybody but the enemy.

—•—

Fourth Warlord. — Is it perhaps about time the honorable Japanese faced facts, took stock and considered the prospect of losing the honorable Japanese shirt?

First Warlord. — Honorable Japanese can get along without a shirt.

Fourth Warlord. — We may get a chance to prove it.

Third Warlord. — Let us be of brave hearts. Remember we have the Japanese honorable ancestors with us.

Fifth Warlord. — I had a dream about honorable ancestors last night. I dreamed they were so overworked backing us up that they had inaugurated a night shift.

ALL. — MAYBE THAT WAS NO DREAM!

Help Wanted Ads For War Time

RESTAURANT CHEF: One who excels in making the worst of a bad situation preferred; must lack any desire to satisfy the customer and be a slave to the belief that any dish is appealing, provided it has a little succotash, string beans and creamed cheese on it.

—•—

LAUNDRY WORKERS: Bring own acids, tongs, sickles, hole-punchers, ripping devices and button busters; good money and lots of fun.

—•—

SALESMEN: No conception of salesmanship required; preference given to men and women who are not interested in selling anything anyhow; we provide most comfortable chairs in town, also Racing Form.

—•—

OFFICE BOY: One willing to start at $75 a week; $100 to $125 as soon as you remember to fill the paste pots; use of the boss's office for crap games provided. Three hours for lunch.

—•—

MAN TO MOW LAWN: $5 an hour and no criticism from employer; will give $2 an hour extra if you trim around the mintbed; only those who never remove a rock from path of lawn mower need apply.

—•—

MISCELLANEOUS: Jobs of all kinds. Do you want big money? Do you wish to get ahead? Write today, stating your lack of experience, giving details concerning your general lack of ability and naming the last three places where you exasperated the customers.

* * *

Two people, one a railroad ticket window clerk, convicted of a black market traffic in Pullman reservations in time of war, have been fined $100 and given a year in prison with sentence suspended. This means that they can close the books at a fine profit, escape any time behind bars and find comfort in the thought that they couldn't have done better if they had been able to get a lower for the judge.

* * *

"Eighteen Billion Tax Cut Possible"—Headline.
Wanna bet?

* * *

EATING OUT

Remember when the waiter used to come around, smile tolerantly and inquire if everything was okay? Now he stomps to the table in the manner of a Nazi with an ultimatum, slaps down a dinner check that looks like a federal budget estimate and almost demands "What's delaying your exit? Doncha know you're holding up new business?"

SEWING CIRCLE PATTERNS

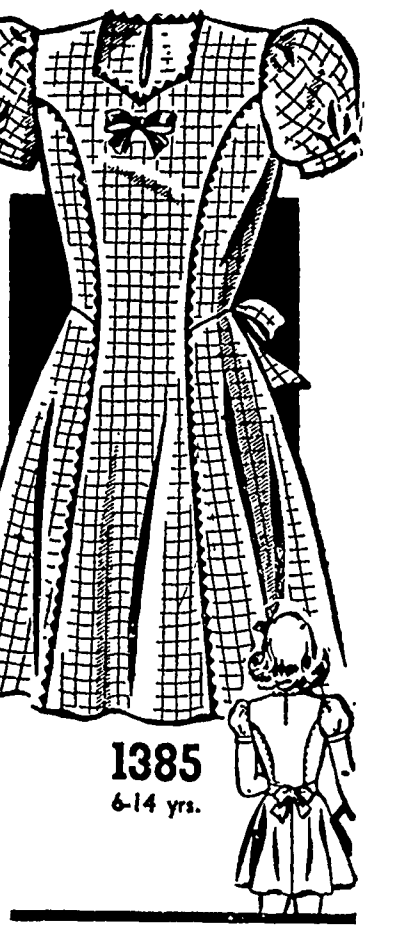
Tailored Shirtwaister for Fall Simple, Easily Made School Frock

Shirtwaist Frock

YOU'LL like this nicely tailored shirtwaist frock for the first days of fall. Its trim, clean-cut lines give that look of well grooming every one admires. Use a pretty plaid material, and make it with short or three-quarter sleeves—whichever you prefer.

* * *

Pattern No. 8885 is designed for sizes 14, 16, 18, 20; 40, 42, 44 and 46. Size 16, short sleeves, requires 3½ yards of 35 or 39-inch fabric.



School Girl's Frock

HERE is a charming school frock for the grade school crowd. She'll like the sweetheart neckline, short puffed sleeves and gay bow. Easy to make—mother can run it up in no time.

* * *

Pattern No 1385 is designed for sizes 6, 8, 10, 12 and 14 years. Size 8 requires 1¾ yards of 35 or 39-inch material.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

Household Hints

A couple of doorstops, screwed into the legs of a table facing a wall, will prevent the table from bumping the wall and marring it.

—•—

Empty salt bags, after being washed in hot suds, can be used as individual shoe bags for storing evening slippers. Or, they can be slipped over shoes to be packed for a journey.

—•—

A teaspoon of lemon juice added to each quart of water in which rice is cooked, will make the rice whiter and more fluffy.

—•—

Water hanging plants with ice cubes to prevent spattering. But do not place cube near center of plant.

—•—

Screens are comfortable, but they don't afford much privacy. Fool the neighbors. Paint the inside of the screens with a thin white enamel. You can see out but they can't see in.

—•—

If you have an old piano stool in the attic, refinish it to match your kitchen furniture and it becomes a handy adjustable seat, especially convenient for ironing.

—•—

Store peanut butter in the refrigerator where the oil will not separate. The jar is kept upside down until opened so the top butter will not become hard.

—•—

Needlepoint footstools may be cleaned by the dry suds method. Use a light touch and circular motion, never enough moisture to streak or soak. Lift off suds with a spatula. To test for color fastness, pat, don't rub, with a cloth dipped in lukewarm water.

Ancient Ceremony

A ceremony 5,500 years old is still being carried on yearly in Egypt when, in early October, the flood waters of the Nile are measured. Now a holiday, the occasion marks the amount of rich loam that is deposited by the waters, increasing the fertility of the land.

ATTEST: FRED C. MISSAL, County Auditor

7TH ADJOURNED JUNE MEETING

Garner, Iowa, August 3, 1945.

The Hancock County, Iowa, Board of Supervisors met in session on above date with F J. Schoun, Penn Eckels and John Chambers, present.

The minutes of the last meeting were read and approved as read.

BE IT RESOLVED that the following named persons be and they are hereby appointed members of the Hancock County Soldier's Relief Commission as follows

Rufus C Welter is appointed a member of the commission for one year

Chester S. Rice is appointed a member of the commission for two years.

Daniel E. Williams is appointed a member of the commission for a period of three years.

Be it remembered that on this, the 3rd day of August, 1945, the county supervisors of Hancock County, Iowa, met in session for the purpose of a hearing upon the budget estimate as filed by this board. There was present a quorum as required by law. Thereupon the Board investigated and found that the notice of the time and place of hearing had, according to law and as directed by the board, been published on the 18th day of July, 1945, in the four official newspapers of Hancock County, Iowa: Britt News-Tribune, Britt; The Klemme Times, Klemme, The Kanawha Reporter, Kanawha, and the Garner Leader, Garner, official newspapers, published in said county, and that the affidavit of publication thereof was on file with the County Auditor Thereafter and on said day the estimate was taken up and considered and taxpayers heard for and against said estimate as follows: No objections filed and no one appeared at the hearing.

FUNDS	1 EXPENDITURES For Year: For Year 1943	2 EXPENDITURES For Year: For Year 1944	3 Proposed Expen. Estimated 1946.	4 Est. Unencumberd Bal. Jan 1, 1946.	5 Est. Income Other Than Taxation 1946	6 Amt. Necessary to be raised by taxation 1946
General	60,009	69,189	85,000	none	10,000	75,000
Court House	4,169	4,453	8,000	4,000	none	4,000
Poor	37,680	25,456	45,000	24,000	1,000	20,000
State Institution	17,642	12,715	20,000	6,000	1,000	13,000
County School	9,314	8 284	9,000	none	3,000	6,000
Soldiers' Relief	5,537	4,002	10,000	2,000	none	8,000
Bovine Tuberculosis	1 435	342	12,000	11,000	none	1,000
County Bonds	none	none	..	.	.	.
Emergency	10,000	none	..	..	.	.
Bang's Disease	28	2,222	900	900	.	none
Farm to Market	none	none	100,000	65,000	35,000	none
A. Const. ½ mill (4644 06).	37,389	30 827	100,000	65,000	35,000	none
D. Maint. 5 mills (4644.11).	74,853	70,993	140,000	35,000	1,000	104,000
TOTALS	258,056	228,989	529,900	212,900	86,000	231,000

Estimated taxes per $1,000 of assessed value ..... $ 9.60

Thereafter and after hearing all taxpayers desiring to be heard, the board took up the estimate for final consideration and after being fully advised the board determined that the said estimate be corrected and completed so that when completed it should be in words and figures as stated herein. The vote upon final adoption of the budget was as follows

Ayes, F J Schoun, Penn Eckels, John Chambers. Nays, none.

Penn Eckles, Chairman of Board.
Fred C. Missal, County Auditor.

On motion and second the Board adjourned to August 13, at 9 o'clock A M

ATTEST

Fred C. Missal, County Auditor
Penn Eckels, Chairman.

8th ADJOURNED JUNE MEETING

Garner, Iowa, August 13, 1945

The Hancock county, Iowa, Board of Supervisors met in session on the above date with John Chambers, F. J. Schoun and Penn Eckels, present.

The minutes of the last meeting were read and approved as read.

On motion and second L. J. Henschen and Edith Elling are appointed a committee to witness the destruction of General Election ballots of 1944, all in accordance with section No. 852 Code of Iowa 1939, and laws amendatory thereto.

On motion and second the following salary schedule is ordered effective August 1, 1945 and until further notice:

County Superintendent of Public Instruction increased $250 per annum.

Deputy County Superintendent increased $10 per month.

Janitor increased $5 per month.

Supervisor Eckels is appointed a committee to investigate and cause repairs to be made in D. D. No. 83 main.

Supervisor Schoun is appointed a committee to investigate and cause repairs to be made in D. D. No. 7, section 5.

BE IT RESOLVED that the regular tax current and delinquent on lots 3 and 4, Brown & Treganza's addition to the Town of Britt, Iowa. (Property of Hancock County, Iowa)

Be and the same are hereby ordered remitted and the special sewer tax in the sum of $81.78 be paid in full and the County Auditor be and he is hereby authorized to draw a warrant on the County Fund in the sum of $81.78 in payment of the sewer tax assessed against the herebefore described lots.

On motion and second the Board adjourned to Monday, Augst 20, A. D., 1945, at 9 o'clock A. M.

PENN ECKELS

MR. AND MRS. FRANK SANDREY ENTERTAIN AT DINNER SUNDAY

Mr. and Mrs. Frank Sandrey entertained a large number of relatives and friends at their home to dinner Sunday in honor of their son, M-Sgt. William Sandrey, and Mrs. Sandrey's brother, Mr. Fred Busse of St. Cloud, Minn. M-Sgt. Sandrey is home from 19 months spent overseas in Italy and North Africa. He reports to Camp Grant September 3, after spending a 30 day furlough at home recuperating from illness.

Those present at the dinner at the Sandrey home include:

Ben loats and sons; Mrs. Lena Loats; Mr and Mrs. D. D. Pals; Mrs Sena Helland; Mr. and Mrs. Kalbwarf and daughter; Mr. Will Kruse and family, and Billy Dettman, all of Belmond.

Mr. and Mrs. Will Kimball and children; and Fred Busse, of St. Cloud, Minnesota; Mrs. Gregory Richardson of Owatonna, Minn.; Henry Busse and family, Mr. and Mrs. Will Johnson, Shirley Bisom, all of Klemme; M-Sgt William Sandrey and Mr. and Mrs. Ben Menninga of Meservey.

Will Kimball and family and Fred Busse returned to their home at St. Cloud on Monday.

BURMA MISSIONARY SPOKE AT METHODIST CHURCHES

Miss Grace Stockwell of Burma spoke at the Klemme and Liberty Methodist churches Sunday. It was a most interesting story of her escape from the Japanese upon the occupation of the Burma theatre of war She appealed for workers to go to Burma and other mission fields where the need is tremendous.

A basket dinner was served at the Liberty Church at noon with the following guests present: Miss Grace Stockwell. Mr. George Hill, Mrs. Ruby Woodin, Jessie and Mildred Woodlin of Clarion.

GOING UP! ! !

Last week the tallest hollyhock brought to the Times office reared skyward 12 feet, 7½ inches, and that seemed to be about the limit

Monday Mrs. Dale Schlei sent in a real "sky-scraper." Her hollyreached up into the clouds 12 feet. 9½ inches, 2 inches better than the tall one last week.

Mrs. Henry Keeper brought in a different kind of hollyhock. She brought one in that was a double 2 stalks branching out from a single stalk above the ground. This sample was 11 feet and 7 inches tall. If it had grown into one stalk it could have been 23 feet and 2 inches tall, but we can't count it that way.

So far Mrs. Dale Schlei holds the record of 12 feet, 9½ inches!

Is this the limit?

Mrs. Lieuwen Will Hold Recital Here Friday Evening

Mrs. Edith Lieuwen of Belmond will present her music pupils in a recital here Friday evening at the Klemme Methodist Church. The program will begin at 8:15 o'clock. Her pupils from Belmond, Goodell, and Klemme will be on the program.

The public is invited to attend.

Sunday School Superintendents Are Elected By Methodists

At the annual meeting held by Liberty and Klemme at the Klemme Methodist Church Wednesday evening, Miss Doris Pringnitz was elected Sunday School Superintendent of the Liberty Sunday school and Forest Cutshall was elected superintendent of the Klemme Sunday school.

Mrs. R. A. Jorgenson Hostess To U-Delt-Em Bridge Club

The U-Delt-Em bridge club met at the home of Mrs. R. A. Jorgenson Thursday afternoon with Mrs. H. D. Ramsay and Mrs. A. L. Kingery as guests.

Mrs. Kingery won the highest score; Mrs. Edna Thada, second, and Mrs. Ramsay, third.

Mrs. Ramsay, who is moving away, was presented with a going away gift.

Rural pupils feel "at home" in the Klemme schools.

A smaller percentage of the total beef slaughter is now being set aside for army use, according to a statement from the U. S. Dept. of Agriculture.

Go to school in Klemme.

ACCIDENT VICTIMS HOME FROM CLARION HOSPITAL

Mr. and Mrs. John Trampel returned to their home southeast of Klemme Saturday evening, from the Clarion hospital where they had been for a week being treated for injuries suffered in a car accident the previous week on Friday afternoon.

Mr. and Mrs. Trampel both received severe head cuts and bruises and Mr. Trampel was unconscious for a week due to a concussion of the brain. Mrs. John Howell and the two Trampel children, who were riding in the back seat of the car which collided with a car driven by Mrs. Lola Coats of near Clarion, were but slightly injured and were dismissed from the hospital the same day. Mrs. Coats was uninjured.

Mr. and Mrs. Trampel are both weak from the effects of the accident but both are making a good recovery.

The Trampel car was wrecked beyond repair, but the Coats car was not badly damaged.

FUNERAL SERVICES HELD TODAY FOR MRS. CHELSVIG

Funeral services were held today at 2:00 o 'clock at the United Brethern Church at Goodell for Mrs Nels Chelsvig, 76, who died at her home in Goodell on August 25th.

The funeral sermon was given by Rev. Carlton Spencer of the U. B Church and burial was in the Amsterdam Cemetery east of the town. The Wellemeyer Funeral Service of Klemme was in charge.

Mrs. Chelsvig was born in Norway, June 7, 1869 and came to this country with her parents at the age of 16 years. She was married to Nels Chelsvig in February of 888. The Chelsvigs farmed in Wright and Hancock counties for a number of years, retiring twenty-three years ago, moving to the town of Goodell.

Besides her husband, she leaves four daughters and five sons.

Mrs. Walter Schlichting Honored At Shower Tuesday Last Week

A group of ladies held a shower in honor of Mrs. Walter Schlichting, a recent bride, at the home of Mrs. Glen Schlichting last Tuesday afternoon.

The afternon was spent informly and lunch was served by Mrs. Glen Schlichting and Mrs. Clarence Trampel.

Mrs Walter Schliching was presented with a variety of useful and nice gifts.

WEEKLY NEWS ANALYSIS

Atomic-Bomb and Russ Attack Signal Japan's Acceptance of Unconditional Surrender Terms

Released by Western Newspaper Union.

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

Following in lightning succession, the U. S. use of atomic bombs and Russia's entrance into the conflict signalled the finis to the Pacific war, which had been waged with such bitterness since December of 1941.

With the second of its great industrial cities leveled by the terrific new explosive, and with Russian troops driving deep into Manchuria and Korea, the Japanese gave the first indication of their decision to throw in the sponge early on August 10 with the Tokyo radio's announcement of acceptance of unconditional surrender terms provided the emperor's position was respected.

Later, the Swedish foreign office revealed that the Japs had asked it to transmit their request for cessation of hostilities to the Allied powers.

Under terms of the unconditional surrender drawn by the U. S., Britain and China at Potsdam, and later subscribed to by Russia, the Japs were required to:

1. Eliminate the influences of those who have directed Jap conquest;

2. Submit to occupation of designated points in the home islands until world peace is assured;

3. Limit Jap sovereignty to the main islands of Honshu, Hokkaido, Kyushu and Shikoku;

4. Give up all foreign conquests;

5. Disarm all forces;

6. Remove all obstacles to freedom of speech, religion and thought.

In return, the Potsdam terms promised Japan retention of all industries to maintain the civilian economy and provide for reparations in goods; access to raw materials and free trade, and withdrawal of occupation forces upon organization of a peace-minded government in conformance with the wishes of the people.

In first indicating the Jap decision to give up the fight, the Tokyo radio declared that the Nipponese had approached Russia to act as intermediary in peace negotiations with the U. S., Britain and China several weeks ago at the request of the emperor. Having failed to establish contacts however, the government

Having first announced the U. S. use of the deadly atomic bomb, President Truman warned of its continued employment until the enemy quit.

finally determined to accept the unconditional surrender outlined at Potsdam, with the reservation that the emperor's position in the nation be respected.

While neither the U. S. nor Britain had ever officially discussed Hirohito's status in the event of a Jap collapse, it was felt that because of his standing in the Nipponese community as a supposed descendent from the sun goddess, he would be able to preserve order in the home islands following defeat. It was argued that his forcible removal might well throw Japan's whole social order into confusion and chaos.

Though the war in the Pacific had been a long and bitter one, with American forces pushing steadily ahead ever since the Japanese tidal wave was checked in the battles of the Coral Sea and Midway in the spring of 1942, the terrific explosive effect of the atomic bomb and Russia's subsequent entrance into the conflict was seen to quicken its end.

Even though admitting that "it is an awful responsibility which has come to us," President Harry S. Truman declared that the U. S. would continue to use the atomic bomb to destroy Jap munitions industries and reduce the enemy's ability to wage war until cessation of hostilities.

A milestone in the scientific age, the earth-shaking potency of the atomic bomb tempered the jubilation at first expressed over its use in hastening the end of the Pacific war.

First objective of the new atomic bomb, the rail and industrial center of Hiroshima on Honshu island lay in ruins, with buildings splintered and an estimated 100,000 persons killed. Only a few concrete structures remained standing in the heart of the city, with even the interior of these burned out by the fires following the explosion. So terrific was the blast, it rocked the B-29, from which the charge was dropped, while it cruised 10 miles distant.

Pioneer in atom splitting, Dr. Ernest Orlando Lawrence of the University of California stands beside cyclotron he developed for experimentations.

Goal of scientists for over 40 years, and the result of combined U. S. and British research since 1940, the atomic bomb has been secretly produced in two great plants at Richland, Wash., and Oak Ridge, Tenn., with two billions dollars required for its development.

With Maj. Gen. Leslie R. Groves in overall charge, and with Dr. J. R. Oppenheimer of the University of California heading the technical work, manufacture of the atomic bomb involved the use of uranium, a metallic substance found in southwestern Colorado and eastern Utah as well as in Canada, the Belgian Congo, Austria, Russia, Sweden, Norway and Cornwall.

Principle of the new explosive lies in splitting atoms — the tiniest particles of matter — and releasing the electrical charges they contain with the attendant energy. Besides energy, heat and light can be recovered, thus leading to wide postwar possibilities for the material.

In announcing the use of the atomic bomb with its magical substance, however, Secretary of War Stimson revealed that postwar adaptation of the product to civilian use will require additional experimentation to design machinery capable of harnessing the tremendous force.

Meanwhile, Stimson said, the U. S. intends to share the secret of the atomic bomb only with Britain and Canada, and in speculating on its use as a factor in maintaining peace, it was suggested that the English-speaking Allies would hold on to the explosive and restrict its use on behalf of the United Nations postwar security force to American and British planes.

Regretting that the atomic bomb's inventors did not destroy the weapon, the Vatican newspaper L'Osservatore Romano declared that it "made a deep impression (here), not so much for the use already made of the death instrument, as for the sinister shadow that the discovery casts on the future of humanity." Because people never can learn the lessons of history, the publication said, the atomic bomb will also remain a temptation for unscrupulous statesmen.

Foreign Farm Help Jumps in U. S.

Though the number of hired people doing farm work in the United States in midsummer this year reached a new wartime low, the department of agriculture reports that the number of foreign workers and war prisoners working on farms in the United States in midsummer was about 149,000.

The foreign workers come from Mexico, Jamaica, the Bahamas, and Newfoundland. Of the 56,000 Mexicans, most were in the West, but around 8,000 were on farms in the Midwest.

The number of Jamaicans came to around 16,000, and there were about 5,500 Bahamians. While Jamaicans are working through the whole country, the Bahamians are in Florida and other truck-growing areas along the Atlantic seaboard.

EUROPE:
New Developments

With America now committed to keeping the peace in Europe, political developments on the stricken continent commanded the nation's attention more closely.

Foremost recent developments included the U. S. and Britain's decision to grant occupied Germany a larger measure of local independence; the Allies' move to separate Austria from the Reich, and plans for the determination of a new government in Yugoslavia.

Declaring that it was up to the Germans themselves to re-establish their country in the eyes of the world, General Eisenhower announced that local trade unions and political parties would be permitted to function wherever the Allied military government ordained. Warning that the winter ahead would be hard, Eisenhower urged the Germans to repair damaged properties now, gather cordwood for fuel since coal will not be available, and go into the fields to harvest a good crop.

In determining to separate Austria from the Reich, the Allies planned for the creation of an independent state in free and open elections, before which the country would be divided into four occupational zones under U. S., British, Russian and French military commanders. The U. S. zone constitutes the north-central portion of Austria below the Danube.

Meanwhile, Yugoslavia prepared to hold a vote on the question of the form of a new government, with Moscow - backed Marshal Tito calling for a republican system excluding the monarchy. Charged with having been identified with Nazi collaborators by Tito, 21-year-old King Peter retorted that the country was now under a wave of terror by the Partisans, with all law suspended and no opportunity for a free and open vote on the future character of the government.

Nation's Losses

Within a day America lost an outstanding soldier and an equally notable statesman.

No. 1 U. S. ace of World War II, Maj. Richard Ira (Dick) Bong from Poplar, Wis., died when his jet-propelled "Shooting Star" blew up shortly after a takeoff at Burbank, Calif. Entering the air force in 1941, the then 20 - year - old former farm boy topped all other U. S. airmen by shooting down 40 Jap planes in action extending from Australia to the Philippines. Just before the "Shooting Star" exploded, Bong was seen leaping out of the cockpit, only to be caught in the air by the terrific blast.

Maj. Bong

One of the famed "irreconcilables" who fought to keep the U. S. out of the League of Nations, and also opposed ratification of the United Nations charter, Sen. Hiram W. Johnson (Rep., Calif.) died at the naval hospital at Bethesda, Md., at 79. Always a rugged independent, who tread according to his conscience rather than party interests, Johnson took most pride in his governorship of California from 1910 to 1916, when he led in the adoption of woman suffrage, workmen's compensation and elimination of partisanship in municipal and county elections.

Sen. Johnson

CIVILIAN GOODS:
Slow Coming

Though War Production board officials declared that the reconversion program gradually was gathering momentum, there are small prospects that needed civilian goods will reach retailers' counters in sufficient volume before well into 1946.

In reviewing the situation, WPB held out hopes for substantial production of electric irons, baby carriages and alarm clocks during the present quarter, with limited output of washing machines, vacuum cleaners and galvanized cans and pails. To date, only near sufficient quantities of razors, razor blades, hearing-aid batteries and dry cell batteries are being manufactured, it was said.

Though comparatively large amounts of electric ranges, refrigerators, film and lamps and fans are scheduled to be turned out in the present quarter, most will be reserved for military purposes, WPB revealed.

SOUTH AMERICA:
Export Surplus

During the years 1940 through 1944, the other American republics accumulated a surplus of exports over imports totalling $3,531,000,000, according to a recent compilation by the federal reserve board in Washington.

In 1944, the compilation shows, the export surplus of these countries was $1,115,000,000 compared with $450,000,000 in 1939, before full effects of the war were felt in western hemisphere trade.

The Washington MERRY-GO-ROUND

By DREW PEARSON

NO DUKE CHURCHILL

When Winston Churchill turned down a knighthood this week, his son, Randolph Churchill, probably heaved a big sigh of relief.

For it meant that his father, in turning down this lesser honor, probably would not accept a dukedom or any other high reward. Should the elder Churchill accept a peerage, he would move into the House of Lords, which would mean that his son, Randolph, upon his father's death, automatically would become a lord, thereby forfeiting the chance of a fighting political career as a commoner.

To inherit a title is the last thing young Churchill wants. His future career lies in the House of Commons, like his father.

Knowing his son's ambition, the prime minister used to hold a sword of Damocles over Randolph's head. When the mercurial Randolph got out of hand, his father half-jokingly would warn: "Tut, tut. Be careful or I'll take a peerage."

* * *

BATTLE OVER STEEL

One of the hottest fights in the whole hot history of the War Production board has been raging backstage regarding the future allocation of steel to industry.

It is a fight affecting almost every business in the country — large and small — and if the big industry boys get their way, civilian manufacturers will get less material even than during the third quarter of this year, when we were still fighting a two-front war.

The fight is over how sheet steel shall be allocated.

Basically, this boils down to whether the big automobile companies will get it all, or whether other manufacturers will be given at least a little.

It is exactly the same fight, in reverse, which occurred before Pearl Harbor. At that time, the automobile industry was using up most of the sheet steel. War production was held up until their output could be curtailed, and the auto boys pulled all sorts of wires to keep on producing cars.

Now, the same wires are being pulled to let steel be completely free, and not allocated to anyone. This is just another way of saying that the automobile companies will get it all, because they are the biggest peacetime buyers of steel and the steel companies naturally like to please their best customers.

Big Business WPB

Today, the War Production board, under chairman "Cap" Krug, is more big - business - controlled than ever, so the automobile boys may get their way.

Their fight inside WPB is being led by Vice Chairman Harold Boeschenstein, whose glass company sells headlights to auto manufacturers. He and other WPB moguls argue that the present "controlled materials plan" should be "open-ended," in other words, after a steel mill has completed its "must" government orders, it can sell whatever steel is left over to anyone it wishes.

Hitherto, farm machinery, hardware, the railroads and various war-supporting industries got definite steel allocations from the government. They were always assured some steel. Under the new proposal, however, they would have to scramble for it in competition with the automobile companies.

While the railroads, farm implement companies, et al, doubtless can look after themselves, a long list of small manufacturers also would be affected — those making hardware, electric irons, washing machines, etc. Hitherto, they have been able to get a certain amount of steel allocated to them by WPB. But under the proposed new plan, they would have to scramble for it. And in any battle with the auto companies, it is not difficult to guess where they would come out.

Actually there will be very little steel to scramble for. After war needs and war-supporting needs are met, it is estimated only about 1,000,000 tons of sheet steel will be left over. If WPB moguls have their way, however, the scramble will begin in the fourth quarter of this year.

NOTE—It will be up to new War Mobilizer John Snyder to make the final decision.

* * *

MERRY-GO-ROUND

Every mother's son west of the Mississippi river — and some east — are making moves to get the cabinet job of the toughest, most fearless member of the FDR cabinet—Harold Ickes. Jim Patton of Denver, head of the farmers union, is one of them. Another is genial Gov. Bob Kerr of Oklahoma, who led the switching of delegates to Truman during the Chicago convention. . . . However, "Harold the Ick" may fool 'em.

Veterans' SERVICE BUREAU

(EDITOR'S NOTE: This newspaper, through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.)

Income Tax Problems

The veteran returning home after his discharge will be wise if he consults a government income tax collector to get straight on his income tax with Uncle Sam.

Even though the veteran is confident he does not owe a tax, it would be well to get it straight from the internal revenue department. For most servicemen and women, the entire 1942 federal income tax was cancelled, but there were some exceptions. It is possible that if you paid federal taxes for the 1942-43 period, there may be a refund coming.

Unless the veteran is a commissioned officer or had a private income, he likely will owe no income tax for the time in service, since from 1943 there has been no tax on the first $1,500 of annual service pay or on the government's contribution to monthly family allowance. Neither is there a federal tax on mustering out pay, pensions or disability retirement pay, gratuities, war risk insurance proceeds nor on the veterans educational or rehabilitation allowances.

Prior to 1943 the exemption on annual pay was granted only to enlisted men and was $250 for a single person and $300 for a married person. If you owed income tax at the time you went into service, you may be one of those who obtained permission to postpone payment. If that is true, then you have six months to pay-up after your discharge. You may make application to pay in equal installments over a period equal to your full period of service if you desire.

If there were any taxes on real or personal properties unpaid at the time you entered service, there likely will be penalties added and interest charges. If the local courts permitted seizure of your property for taxes while you were in service, you have, under the Soldiers and Sailors Civil Relief act, the right to redeem it up to six months after you are discharged.

Questions and Answers

Q. Is the wife of a serviceman required to include the amount of her allotment in figuring her income tax?

A. No. The amount is taxable income to the person making the allotment, in this instance, the husband.

Q. Where can information be obtained on the number of battle stars to which a soldier is entitled?

A. Ordinarily the immediate commanding officer is the only person who can determine the number of battle stars to which a soldier on active duty is entitled.

Q. Is the family of a soldier notified if he is being transferred from Europe to the Pacific area?

A. The war department informs us that if a soldier is being redeployed from Europe to the Pacific, his family will be notified by the department and the soldier will be given every opportunity to notify the family of his change of address.

Q. My son has started studying law in college under the G.I. bill of rights. He has decided he does not like law and wants to take Business administration. Can he change his course?

A. Yes, he is perfectly at liberty to change courses. He is entitled to as much time as the law permits in colleges, regardless of what course he studies.

Q. How do I get extra gas to drive the family car when I'm on furlough and how much gas can I get?

A. Apply to your nearest ration board. Take with you the mileage record of the car to be used and your furlough papers. You will get a gallon a day up to 35 gallons.

Q. If a woman served for eight months in the WAC and was honorably discharged is she entitled to wear a lapel button and can she claim mustering out pay?

A. The war department says if a woman was honorably discharged from the Womens' Army Auxiliary corps she may wear the lapel button signifying such discharge. If she was discharged because of a service-connected disability she is entitled to mustering out pay and hospital benefits.

Q. Must a boy register with his local board on the day he becomes 18 or how soon thereafter?

A. Yes, he must register on his 18th birthday. In case his birthday falls on Sunday or a legal holiday, he must register the following day.

Q. What members of a navy man's family are eligible for medical care?

A. Dependents of a man in service in the navy who are eligible for medical care and hospitalization include his lawful wife, unmarried dependent children, adopted or step-children less than 21 years old or dependent mothers and fathers.

Unit Shelves Easy To Build in Home

WHETHER you have a house of your own or whether you move often, unit book shelves are the answer to many a problem. They may be scaled to fit almost any space; you may add to them as needed and they may be shifted from one place to another according to your mood. They may start in the living room and end in the

ONE OR MORE CENTER UNITS MAY BE MADE TO FIT ANY SPACE
DEEP SHELVES HOLD WIDE MAGAZINES
NO SHARP CORNERS
SIMPLE CUTS AND EASY CONSTRUCTION MADE RIGID WITH NAILS AND MODERN GLUE

children's room or in the kitchen. The units may be divided, multiplied or used in various combinations.

You need no special skill to make the three units shown. These well proportioned shelves were designed especially for amateur homecrafters to make with the simplest tools. A compass saw will cut the curved shelves of the end units. Because the shelves were designed by a bomb- maker a simple method of constructing them with no open dust space at the bottom was worked out and special thought was given to the width and depth of shelves so that they would have the maximum usefulness and, still be made of stock sizes of lumber.

* * *

NOTE—Pattern 270 gives a full size pattern for the curved shelves of these book cases and large diagrams with dimensions of all the straight pieces. Also a complete list of materials required and illustrated directions for each step in the construction of the units. To get this pattern enclose 15 cents with name and address and send direct to

or better. Demand St. Joseph Aspirin, world's largest seller at 10c. 100 tablets, 35c. You get nearly 3 tablets for only one cent. Always ask for St. Joseph Aspirin.

SNAPPY FACTS about RUBBER

1,417,000 airplane tires were built in 1944—733% more than were produced in 1941.

Carbon black is a pigment which, when mixed with rubber, reinforces the molecules of rubber—similar to the way slag or pebbles are used in reinforcing concrete. It is the third most important material that goes into a tire.

Shortages of carbon black, textiles and wire are largely responsible for the present critical shortage of tires. Over 125 feet of steel wire are used in the construction of an average-size passenger car tire.

Labor Costs Reduced and Farm Efficiency Greatly Increased With Improved Mechanical Developments

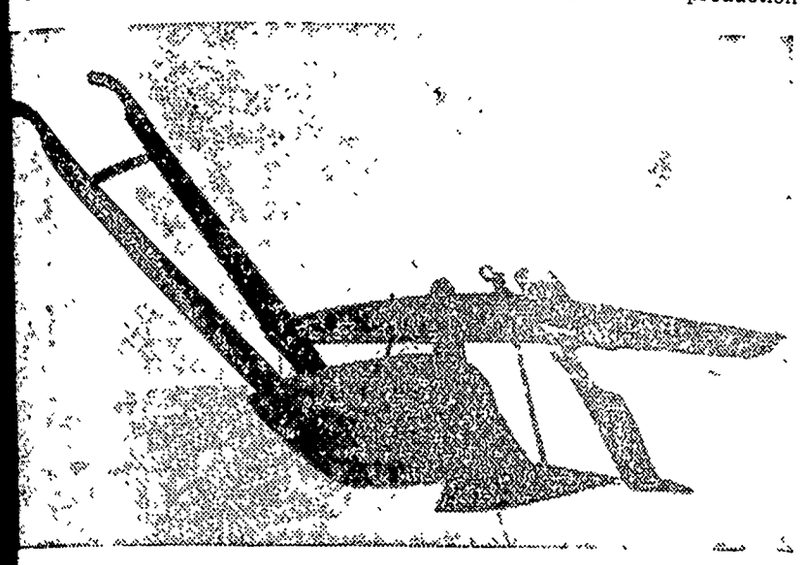
Farm Equipment Has Now Mechanized Farm Work, Now No 'Brother to an Ox.'

By George L. Gillette

Editor's Note:—George L. Gillette is president of the Farm Equipment Institute and has long been active in the manufacture and distribution of farm machinery and equipment.

Agriculture has come a long way since the days when the forked stick, the scythe and the flail were the rule rather than the exception, but it was not until the advent of farm machinery, a little more than a century ago, that agricultural practices made any real progress. Even in the early 19th century the methods used by the fellaheen of ancient Egypt were still followed, even in many of the more advanced countries. And then in the space of 50 years, agriculture made greater strides than in the preceding 50 centuries.

With the coming of the plow, the reaper and the other earlier types of farm machines, farming, though not an easy life,



Plow used on Gen. George Washington's plantation in Virginia. Has wood moldboard, wood standard, no landside. Flat iron share and iron sulter.

certainly became more attractive than it was to Millet's "Man With the Hoe." With the development of other types of equipment, which have followed in rapid succession, agriculture's progress has steadily continued. No longer does the tiller of the soil fit the poet's description of "stolid and stunned, a brother to the ox." No longer does the plowman homeward plod his weary way. He rides.

The horse-drawn cultivator and grain binder have given way in many areas to the tractor, cultivator and the combine. Harvesting of the corn crop is now performed in ever increasing measure by the tractor-operated corn-picker; cotton costs are being reduced by the mechanical cotton picker; the primitive pump is succeeded by the electrical-operated water system; hand milking by machine milking. The heretofore laborious job of making hay is becoming less of a backbreaking chore through the newer machines for harvesting and storage of this important crop — such as power mowers, rakes, pick-up balers, forage harvesters. And so on — each step an improvement over the old; less labor in growing and harvesting of food and feed crops; in livestock raising; in horticulture or dairying. In every branch of agriculture, the story is the same; increased efficiency through use of the machine; reduced effort on the part of the operator; more time for the better things of life, more possible of attainment in former years when the days were not long enough even to perform the single task of raising the food for the family.

In discussing the part which modern farm equipment plays in saving time and labor for the farmer, we are apt to overlook some of the important services which it renders in the job of food production. Modern farm equipment has done more than any other one thing to nullify weather hazards. It enables the farmer to both control and hasten his crop handling time, thus increasing the amount of work that can be done in the hours of sunshine available to him; weed control and cultivation can be adapted to individual weeds; controlled plowing helps do much to bury such insect pests as the corn borer, Hessian fly and the boll weevil; quick and positive erosion control is made possible through modern, mechanized farm equipment. All of these tend to increase acre yields and, in many cases, save entire crops.

Cost Per Unit Decreased.

One hundred years ago, with tools then available, it required several days of man labor to grow and harvest an acre of wheat. Today, in the Great Plains areas of the United States, expenditure of less than 10 minutes of man labor per bushel is not unknown when modern methods and machines are used. In other crops, the story is similar and, because of such methods and the marvels of present day equipment, it has been possible for the farmers of the Americas, Great Britain, or others of the United Nations to maintain or expand their production of food in the war period, despite reduction of workers on the land. Without the aid of such labor and time-saving machines, there is little doubt that the millions of men in the armed services and the many millions more at home would have long since faced serious food crises that might have jeopardized the outcome of this world struggle.

It is true that thousands of persons in war-torn countries, cut off from normal food supplies, have perished, and that in areas where the population still depends upon primitive agricultural methods, starvation is not uncommon. But such disasters serve to underline the importance of substituting improved food producing equipment for the hand tools of the ancients. Man can get along without many things, but not without food or the means of producing it.

With the wider distribution of present-day equipment and the new, even more efficient "machine tools of agriculture" to be available after the war, is it too much to hope that the scourge of famine may be stamped out entirely? In any event, the manufacturers of farm equipment can be relied upon to do their utmost toward that end.

In the meantime, they are continuing to produce both for civilians and military purposes.

Doing Big War Job.

Their factories have been turning out immense quantities of munitions and material for use on land, sea and air, and they will continue to do so as long as the emergency requires. They have produced more repair parts in the last several years than at any time in their history, to make sure that machines already on the farms will continue to function. They have manufactured as many complete machines as available materials, manpower and governmental restrictions would permit and have maintained throughout this period the high standards for which American farm machinery is noted throughout the world.

Products of the farm equipment industry have always been sturdily built to take the beating farm work demands; some idea of their sturdy construction is indicated by the orders for repair and replacement parts, received by manufacturers, for machines 30 and even 40 years old, still operating. Today, equipment going into the hands of the farmer is better engineered than ever.

Knowing something of the men who design and manufacture these farm machines, I am convinced that the products for the postwar era will be even better. The history of the farm equipment industry has been one of continuous progress and of ever-increasing service to agriculture. I am confident that this record will be even brighter in the years ahead.

LIFE OF MACHINERY

The life of farm machinery can be greatly extended as proven by tests conducted at the University of Missouri. Corrosion and lack of care of unhoused farm machinery cut its life in half, and added to the upkeep cost. A record on a few of the implements:

Equipment	Life Housed	Unhoused
Walking plows	20 years	15 years
Gang plows	20 years	10 years
Corn planters	8 years	4 years
Cultivators	20 years	8 years
Mowers	12 years	7 years
Binders	12 years	5 years
Wagons	24 years	19 years
Disk harrows	15 years	8 years

Modern Machine Farmer Builds Up for Prosperity

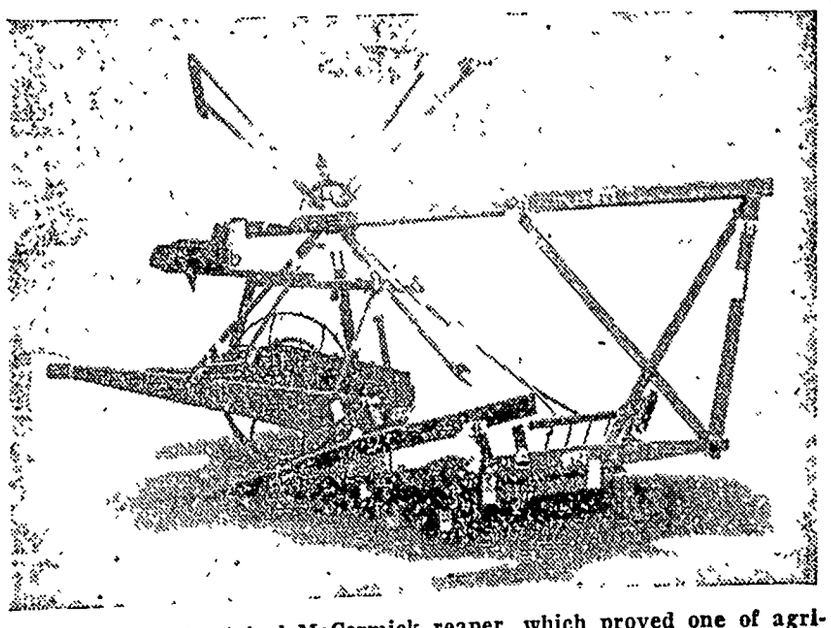
For years the farm equipment industry — dealers, manufacturers, and trade publications — have been active advocates of soil and water conservation and improvement of soil fertility. One-crop farms, especially where tobacco, cotton and corn were the cash crops, began bringing home to them the fact that the nation's wealth was leaching down the hillsides and into the streams that carried it to the ocean. Such lands were rapidly passing out of production, ceasing to pay taxes and to support prosperous farm families and communities. Villages, even counties, faded with the farms as they "wore out."

To awaken the nation to the consequences of this trend, if not counteracted, the industry long has laid stress upon the long-pull benefits of soil conservation and the part that farmers can play in the program by using the tools already on the farms, and available for soil conservation efforts.

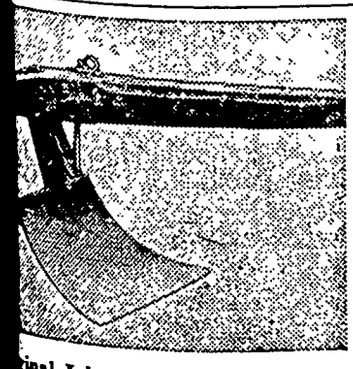
Contour farming, terracing and crop rotations in the United States go back to Thomas Jefferson's work in Virginia well over a century ago. Writing in the American Farmer in 1821, the ex-President of the United States, in a signed article, answered inquiries from readers of that pioneer publication as to contour farming and about the plow he used on his son-in-law's Virginia farm. But Jefferson's efforts to teach the pioneer American farmer to build a permanent agriculture, and with it community and national prosperity, were soon forgotten in the rush to virgin lands that opened up to settlers as the Louisiana Purchase and other territorial acquisitions beckoned young farmers toward the mid-West and the Pacific.

While good farmers on their own initiative followed conservation practices, comparatively little was done in an organized manner until the United States department of agriculture in the '20s began taking active notice of the erosion of top soil on cultivated lands; set up erosion-control experiment stations and instituted an intensive study of soil erosion. In 1935 the Soil Conservation service was established and by the middle of last year, 45 of the states had soil conservation districts totaling 1,114 and embracing 620,491,197 acres.

Being vitally interested in this effort long before there was an organized conservation program, the industry naturally got behind and cooperated with the United States government in helping the farmer solve his land problems when the nationwide program was inaugurated. Through personal effort; in their advertisements, and booklets on the subject farm equipment companies, their field representatives and dealers have made helpful suggestions to the farmer on soil fertility, water capacity and preventing the loss of soils.



Facsimile of original McCormick reaper, which proved one of agriculture's most important machinery developments.



Original John Deere Steel Plow.

REPAIR FOR 1946

It is always easier, costs less and takes less time to prevent a farm machinery breakdown than to fix one. According to present indications, the farmers of 1946 will be utilizing the same prewar machinery that they operated in 1944.

Every farm should have a comfortable work shop, where all machinery can be placed under shelter and gone over on rainy days for the long winter months ahead. As equipment finishes its job, it should be cleaned and put away.

IMPROVED UNIFORM INTERNATIONAL

SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Of The Moody Bible Institute of Chicago.
Released by Western Newspaper Union.

Lesson for August 26

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

JACOB ADJUSTS PERSONAL RELATIONSHIPS

LESSON TEXT—Genesis 33:1-11, 17-20.
GOLDEN TEXT—Let us therefore follow after the things which make for peace. —Romans 14:19.

Eventually a man's past catches up with him and he must face his own record. The Bible says, "Be sure your sin will find you out" (Num. 32:23), and it always does.

Jacob, who had tricked and deceived his brother and had fled into a far country, ultimately had to return to his homeland and face Esau. The story of what happened makes up our dramatic and instructive lesson.

Before Jacob could be permitted to enter the Promised Land of his father, he had to meet God. He needed a thoroughgoing transformation of life and attitude, and he received it as he wrestled with God at Peniel (Gen. 32).

Ultimately the stubborn man had to yield, and then he found that it was God who had come to give him a great blessing. How often do we fight against the goodness and mercy of God. Yielding brings blessing; Jacob "the supplanter" became Israel "prince with God." He was now ready for

I. Reconciliation (vv. 1-7).

After living for 20 years in horror of meeting Esau, Jacob now learned that his brother was coming against him with an army. He resorted to clever strategy, but this time it was done not in sly crookedness, but in an open friendly effort to win his brother's good will.

There is nothing wrong about the use of a tactful approach, and it really worked for Jacob. His courtesy was shown by his seven bows. His bravery appeared in going out first. His conciliatory attitude showed in his rich gift to his brother.

Then came a surprise. Esau proved to be a loving brother rather than a hated enemy. Blood does count, and men do well to respond to the promptings of their hearts to be affectionate toward their brethren.

Note Jacob's pride in presenting his family. God had blessed him and he rejoiced in his fine children. The scene is typically Oriental, but it shows an attitude toward one's family which we could well emulate.

Next, a very practical note entered into the reconciliation of the brethren, namely:

II. Restitution (vv. 8-11).

The gift which Jacob had prepared for Esau was in the Oriental tradition, and yet it bore also the nature of a restoration of something of that which Jacob had taken from Esau in defrauding him of his birthright.

There is a place for proper restitution in every case where we have wronged another by taking his possessions or destroying his opportunities to prosper. Becoming a Christian is a forgetting of those things which are behind (Phil. 3:13) in a spiritual sense, but not in the ignoring of our obligations to others. What we can make right we must make right if we want God's blessing.

Esau was generous and did not want the gift, but since it would have been an affront to his brother to refuse, he accepted it. There are proprieties in life and little courtesies to be observed. Failure at this point has created much friction even between believers. Being a Christian should make one gentlemanly and ladylike. Let's remember that!

Then, too, Jacob was wise in putting Esau under the friendly obligation which is inherent in the acceptance of a gift. Those who are stingy and close-fisted about giving to others often find that their lack of generosity has reflected in their lack of friends.

The time has come for the brothers to part, and we find Jacob falling into his old trickery as he prepares to

III. Return (vv. 17-20).

The portion between verses 11 and 17 indicate that instead of going on in straightforward dealings with Esau, Jacob resorts to evasion in order to be free to go where he would in his return to his fatherland.

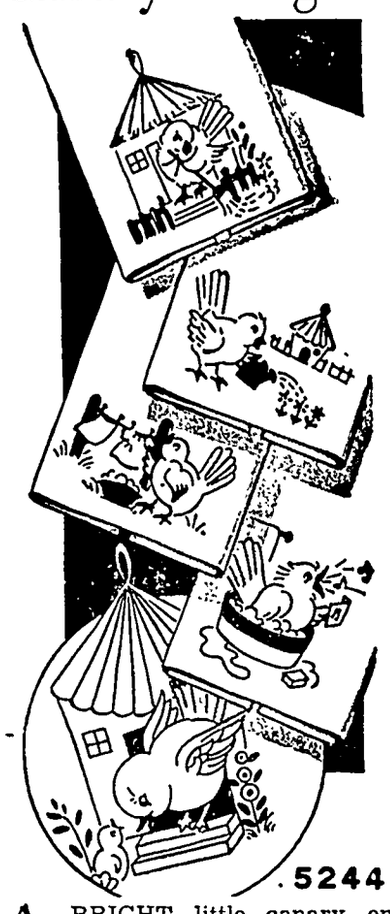
Instead of going back to Bethel the place of blessing (Gen. 28), to which Jacob had been called (Gen. 31:11-13), he went to Succoth and ultimately to the outskirts of Shechem where his family fell into great sin. Ultimately, God did get him back to Bethel (Gen. 35), but only after much sorrow and suffering.

Jacob was called to live the life of a shepherd out in the fields with God, and when he pitched his tent near Shechem he compromised and lost out.

The incident pictures the tragic result of such folly in our day. Those who will not move over into the worldly life want to be close enough to it so that their children may have the cultural and educational advantages, and soon they find that they have lost their children to the world and have lost the savor of their own spiritual experience.

SEWING CIRCLE NEEDLEWORK

Canary Design to Embroider



A BRIGHT little canary enlivens any kitchen. Use these 6 by 6 transfer designs on tea towels, on cottage curtains, on the corners of a breakfast or luncheon cloth. Besides yellow for the canary, red, green and blue are the other colors needed.

* * *

To obtain six transfer designs for the Canary Towels (Pattern No. 5244), color chart for working, illustrations of stitches used, send 16 cents in coin, your name, address and the pattern number.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

Send your order to:

SEWING CIRCLE NEEDLEWORK
530 South Wells St. Chicago.
Enclose 16 cents for Pattern.

What are the two most important words we have learned in this war?

NOT long ago, Russian armies were lined up on the Oder, facing desperate Nazi resistance before Berlin. On the 14th of February, nearly 4,000 bombers and fighters, part British, part American, flew to that vital sector and smashed at enemy strong points and concentrations. Some planes actually unloaded their bombs only 12 miles in front of the Russian spearhead!

That was *Combined Operations.*

In Burma, a British Admiral led tough U. S. Rangers, Tommies from all parts of the Empire, Indian Ghurkas and Sikhs, Chinese foot soldiers, carrying weapons made in Bridgeport. All wore different uniforms. But all shared in their hearts a single determination—to destroy the arch-destroyers, to conquer the common enemy.

That is *Combined Operations*—two words that affect the future of mankind.

We have learned the lesson that to win this war we had to fight side by side with our allies, regardless of race, religion or politics.

And now, with durable peace within our grasp, we cannot abandon that lesson. Unity, efficiency, fellowship, international cooperation *must be continued.*

Every American citizen, every man and woman in the nation, has a definite contribution to make toward seeing that a permanent international body to maintain peace be made a *going concern.*

We must add our strength to the surging movement toward unity among all men of good-will in every part of the globe. We must pledge our unswerving support to that movement, give our statesmen and legislators the support they need to make it effective. We must determine to *make the necessary start,* even though the first step is not as altogether perfect as we might wish.

Will you play your part in this greatest of all Combined Operations? Will you take your place in the ranks with your fellow men in the striving toward permanent peace?

First, get and *keep* yourself informed about the *specific* proposals for peace and international cooperation which are now before us. Read and listen to the discussions of them. Ask your Public Library for material on them.

Second, interest your friends in these questions. Get them discussed in any social, labor, business, religious or other groups to which you belong.

Third, say what you think—for or against—in writing, to your Congressman and Senators, to your newspaper. Declare yourself. Speak up.

Work today for peace, that your children may live tomorrow.

* * *

Mr. and Mrs. Art Kudje and daughters, Jacqueline, Patricia and Ginger; Joe Johnson; Eunice Larsen and Corrine Merkel, returned home Sunday from a week's vacation spent at a cottage at Clear

Mrs. Ed. Rall returned to her home at Hanover, Ill., today, Wednesday. She recently underwent a major operation at Mason City, after which she spent several weeks in Klemme recuperating at the home of Mrs. Dick Swalve.

Richard Sucher, who was instrumental music instructor in the local school last year, has purchased a music shop in Waterloo. The Sucher family who have been living at Clear Lake, are moving to Waterloo this week.

Mrs. R. W. Elder, acompanied by her grandson, Billy Waddingham, went to Ames and Des Moines last Wednesday, returning home Friday night. They visited with the Clarence Elder family at Ames, and with Mrs. Ima Fuller at Des Moines.

Rev. and Mrs. H. E. Harvey attended a 6:00 o'clock dinner at the home of Dist. Supt. Earl Burgess and wife at Algona Saturday evening. Rev. and Mrs. Burgess entertained all of the Methodist ministers and their wives in the Algona District.

Mr. and Mrs. John Meunchow and son Johnnie, of Arcadia came Saturday evening and visited until Sunday evening at the George Lawhorn home. Mrs. Meunchow before her marriage several years ago was Miss Georgia Ford, teacher in the 7th and 8th grades of the Klemme schools.

Mr. and Mrs. Henry Busse and Mildred were Sunday afternoon callers at the John Trampel home. Other callers were Mr. and Mrs. Clarence Trampel and John; Mr. and Mrs. Glen Schlichting and Wayne; Mrs. Paul Cavitt and Mr. and Mrs. John Waddingham and sons.

Mr. and Mrs. Melvin Neuberger and daughter left Sunday for Iowa City to visit over Monday with Allan, who is being treated at the childrens' hospital for infantile paralysis. Allan was to be released from the isolation ward Monday and would be able to visit with his family. He is reported to be making satisfactory progress.

Local Happenings

Klemme and Vicinity

Mrs. Paul Kramer and children were Belmond callers Saturday afternoon.

Mr. and Mrs. Henry Huisenga of Titonka were Sunday afternoon callers at the John Trampel home.

Mrs. Quentin Stille and Mrs. Antonio Keraus were at Garner on business Friday afterncon.

Irene Marshall and Betty Ann Kramer were Garner visitors Tuesday.

Bernard and Henry Smid moved into the apartment above the post office this past week.

Mrs. Frances Swalve, Mrs. Ed. Rall and Mrs. Clarence Swalve, were Mason City visitors Tuesday.

Miss Irene Harms has gone to Des Moines where she will teach this year.

Pfc. and Mrs. John Clements and Jimmy spent Sunday visiting with relatives at Estherville.

Grandma Schlawin was visiting at the Louis Griffen home the past week.

Mr. and Mrs. Emil Beier were dinner guests Sunday at the Albert Borchers home atGarner.

Mr. and Mrs. Emil Barz of Waterloo spent the week end visiting with relatives here.

Mr. and Mrs. Hemmo Beek and George of Goodell, were Sunday dinner guests at the John Trampel home.

Mrs. John Howell and Ronald and Melbourne Trampel spent last week Wednesday until Saturday at the Guy Smith home in Clarion.

Robert Cavitt is spending a couple of weeks visiting with his uncle and aunt, Mr. and Mrs. Art Conners.

Mr. and Mrs. Clifford Montgomry and children, William and Carole, were Forest City visitors Saturday evening.

Mrs. Evert Barz has so far recovered from her illness that she was able to come up town the past week.

Mr .and Mrs. P. H. Petersen of Seneca, Iowa, were supper guests at the A. L. Kingery home Monday evening.

Miss Novella Bredbenner left Monday evening for Des Moines to get ready for her teaching position there.

Miss Gladys Schlichting of Mason City spent the week end visiting with her parents, Mr. and Mrs. Fred Schlichting.

Mrs. August Trampel, Gertie and Johnny of Dows, were Sunday afternoon visitors at the Peter Trampel home.

John Josten is expected to arrive home this week from Rochester, Minn., where he recently underwent an operation.

Mr. and Mrs. Clarence Bachman and children, Darlene and Roger, were visiting at the Paul Kramer home Sunday evening.

Mary Ann Blumer spent a few days the past week visiting with her aunt, Mrs. Anna Waddingham at Ventura.

The C. S. C. S. of the Methodist church will meet Sunday morning at 10:00 a. m. at the church. All children come.

Guests of Rev. and Mrs. H. E. Harvey Sunday afternoon were Mr. and Mrs. Ross Meechem and family of Clarion.

Frederick Larson of Fort Dodge spent the week end visiting with Jimmie Fredin at the Mrs. C. A. Arnold home.

Mr. and Mrs. Fred Kluckhohn and Mr. and Mrs. Carold Larson and children returned last Thursday from a visit with relatives at Oxford, Indiana.

Are Houdini's Secrets Lost Forever? War Against the Black Widow! The War's Luckiest Father! Those are the titles of four interesting features appearing in Th American Weekly, the magazine distributed with this Sunday's (September 2) Chicago Herald-American. 1tc

Mrs. Martin Brinkman and son, Martin Jr., have returned from a visit with Mrs. Brinkman's brothers and other relatives in Wisconsin.

Miss Stella Thieman, who operates a beauty shop of her own at Marion, spent Sunday in Klemme visiting with her parents, Mr. and Mrs. George Thieman.

Mrs. Frank Gruetzmacher and daughter, Glenna, have returned to Des Moines. Miss Gruetzmacher will again teach in the Des Moines schools this coming year.

Mr. and Mrs. C. G. Waterman, and Lt. and Mrs. Lyle Wilcox drove to Swea City last Thursday evening for a visit with Mrs. Rosa Mitchell.

The Legion Auxiliary will meet Tuesday evening, Sept. 4th at the Hall. Mr. and Mrs. Geo. Cosgriff and Mr. and Mrs. J. C. Thomas will serve.

Dr. and Mrs. W. F. Missman returned Sunday evening from Land O' Lakes, Wisconsin, where they spent a two week's vacation at their cottage on a lake.

Mrs. Jeff Gregory and son Bryan of Dow City, Iowa, came last week for a visit at the Gerald Koerner home. Mrs. Koerner and Mrs. Gregory are sisters.

The Methodist W. S. C. S. will meet Thursday, Sept. 6th with Mrs. E. J. Arnold, Mrs. Martha Bredbenner and Mrs. A. G. Koerner as hostesses.

The Klemme Cooperative Grain Company will hold their annual meeting at the Community Hall on Friday evening of this week. You are invited.

Mr and Mrs. Roy Schaefer left early last Thursday morning with a large truck load of hemp mill machinery which they delivered at Earlville, Illinois. They returned home Friday evening. Roy says that threshing in Illinois is about finished and that corn in that state is much further along than corn in northern Iowa.

Mr. and Mrs N. G Moberly have improved their house by having composition shingles put on over the siding the past week. The shingles give the house the effect of being built of stone, are grey in color and will make the house a lot warmer, acting as an insulation material as well as a beautifier.

Mr. and Mrs. George Lawhorn entertained to supper Sunday evening Mr. and Mrs. John Meunchow and son, Johnnie, of Arcadia; Mrs. Leo Jass of Garner, and Mrs. Earl Schaeffer of Forest City. The above ladies all taught school together in Klemme and before their marriages were the Misses Georgia Ford, Vola Goll and Florence Wilson.

Elwyn Jacobs had the misfortune last week to wreck his car while on the way home from Indianola where he had gone to arrange for his college work this fall. About 15 miles north of Des Moines his car skidded on wet pavement and turned over in the ditch. Elwyn escaped with only a shaking up and a few minor bruises, but his car was badly damaged.

Rev. and Mrs. Calvin Schmidt of Berne, Indiana, came the last of the week to be present at the 50th anniversary celebration of the Reformed church here, and to visit relatives and old friends in Iowa. Rev. Schmidt was pastor of the Peace Reformed church north of Klemme for several years. The editor acknowledges a pleasant call from Rev. Schmidt while he was in Klemme.

Mr. and Mrs. H. D. Ramsay and children, Larry and Carmen left Thursday evening for Garrison for a few days visit with relatives. Mr. Ramsay is on his vacation this week after which he will begin his new work at the Rock Island depot at Waterloo. The Ramsay's are spending their vacation moving and looking for a house in Waterloo. A relief agent is here taking over until the new arrives.

Canned grapefruit juice holds an average of 97 percent of the vitamin C of freshly extracted juice.

KRUEGER RE-UNION HELD AT ALGONA PARK SUNDAY

Mr. and Mrs. Wayne Lemke, Sharon and Larry of Des Moines; Mr. and Mrs. Otto Lemke and Mr. and Mrs. Clarence Lemke attended the annual Busch-Krueger reunion and picnic which was held at Call's Park, Algona Sunday. A fine picnic dinner was enjoyed at noon and the afternoon was spent visiting. About fifty people were in attendance.

Annual Coop. Meetng Hcld Friday Evening Well Attended

About sixty members attended the annual meeting of the Klemme Coop. Grain Company held at the Community Hall Friday evening.

Elmer Arnold and Fred Klinge were both re-elected directors.

Business reports of the past year were presented showing that the company had made a fine gain.

An interesting talk was given by Mr. R. M. Hall, of Hanlontown, who told of the advantages of a member-owned cooperative.

KEITH STILLE, P. R. 1-c, USN TAKING AVIATION COURSE

Keith Stille, Parachute Rigger, First Class, U. S. Navy, veteran of numerous naval engagements and who has been on shore duty on the west coast for the past few months, has recently transferred to Naval Aviation and is now stationed at Liberty, Missouri, where he is going to ground school and taking Navy Aviation Pre-Flight.

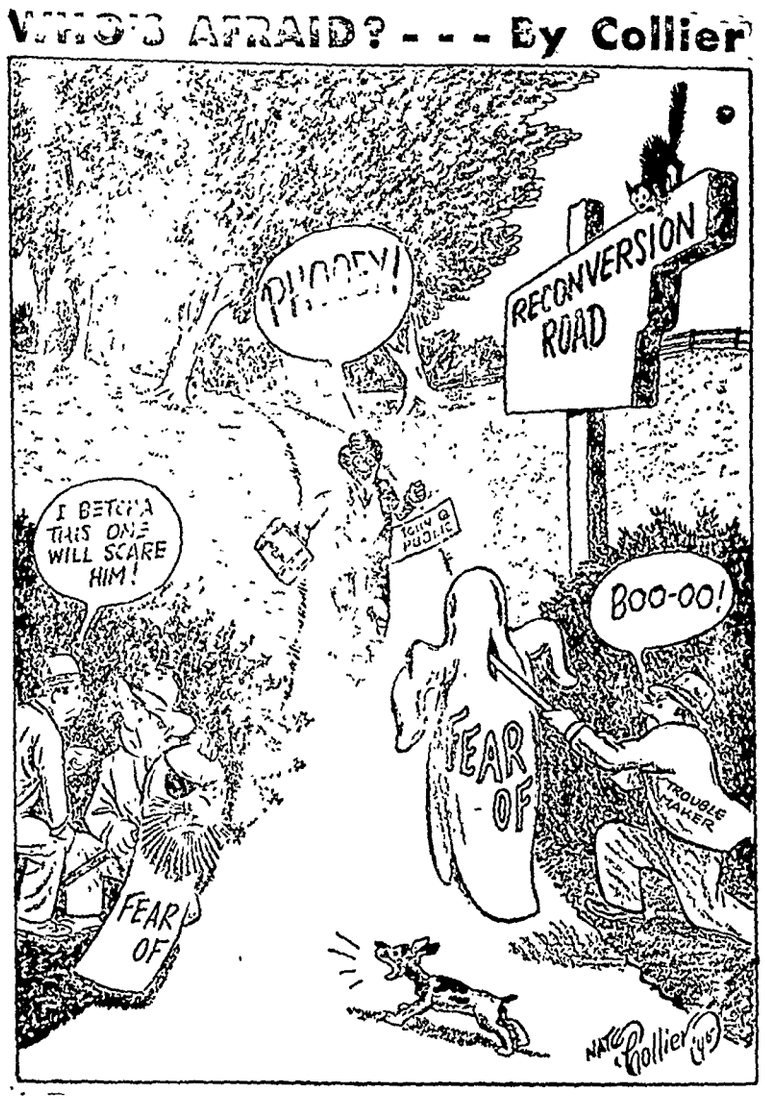
Keith spent the week end visiting at the Lester Stille home near Klemme, returning to Liberty on Monday.

Keith's new address follows:
K. E. Stille, P. R. 1-c,
III B-2, N. A. R. U. (V-5),
Liberty, Missouri.

Soldier Returns To Camp

Pfc. Herbert Webner returned to camp Wednesday evening after spending a thirty day furlough in this community visiting with his wife and son, and with his parents, Mr. and Mrs. Dan Webner.

WHO'S AFRAID? - - - By Collier



NOW A CIVILIAN

Pfc Lester Neuberger, son of Mrs Lewis Neuberger, returned home Saturday morning from a year and a half spent with the U S. Army overseas. He wears five bronze stars, the Good Conduct Medal and has been honorably discharged from the service on the point system. His wife and two children have been living with her folks, Mr. and Mrs. Frank Schulz, east of Klemme.

SEAMAN KATTER WAS ON A SIX MONTHS SEA CRUISE

NEW ORLEANS, LA. Sept. 4.—

Cecil B. Katter, 24, signalman third class, USNR, of Klemme, Ia., has returned to the U. S. Naval Armed Guard Center here following a six-month voyage to Europe.

Serving as a member of the Navy gun crew protecting vital war supplies aboard a merchant vessel, Katter visited ports in Cuba, Africa, France and Belgium.

Entering the Navy in June of 1944, the Armed Guardsman received recruit training at Great Lakes, Illinois. A graduate of the Klemme High School, he was engaged in farming prior to entering the service. His wife, Irene Becker Katter, now makes her home in Klemme with her parents, Mr. and Mrs. Fred Becker. His parents, Mr. and Mrs. Ben Katter, reside on a farm northwest of Klemme.

Iowa this year may harvest the largest honey crop in 4 years.

BACK TO PACIFIC

LT. (s. g.) B. E. MISSMAN

Lt. Byrnes E Missman of the U S. Marines, who has recently been stationed at Chicago since returning from overseas in the Pacific, spent Monday in Klemme visiting with his father, Dr. W. F. Missman.

Lt. Missman was on his way to San Francico where he will again leave for further duty in the Pacific a a dentist in the medical corps.

FORMER KLEMME GIRL IS MARRIED AT DES MOINES

Mr and Mrs. P. W. Johnson of Dakota City, former residents of Klemme, announce the marriage of their daughter Shirley Rae, to Rollie Kilgore of the United States Army Air Force.

The ceremony took place on Friday July 27th at Des Moines.

GARNER GIRL ACCEPTS POSITION IN CREAMERY

Miss Fredericka Girres, of Garner, has acepted a position as secretary of the Klemme Cooperative Creamery Company and began her bookkeeping duties here Monday.

Miss Girres has been employed in the Hancock County Ration office for the past few years.

She succeeds Earl Ruka, present secretary, who has resigned to accept a state job with a Des Moines insurance company.

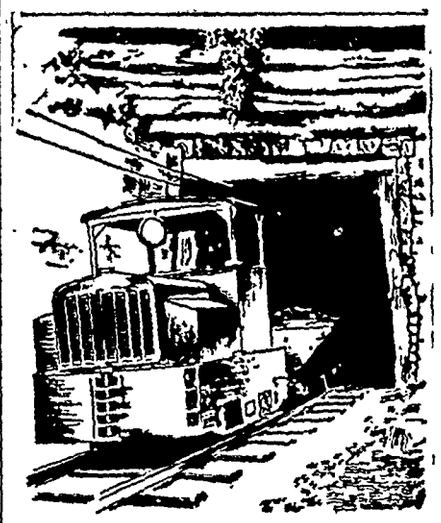
Mr. Ruka has been active in insurance for several years. The Rukas will continue to live here until the first of the year. Mr. Ruka's new work with the insurance company begins October 1st.

BRIDGE COMPLETED

Leo Becker, Garner bridge contractor, has completed the construction of another wooden bridge between sections 22 and 21 in Liberty township. He is now at work on a bridge in Amsterdam township destroyed several weeks ago by the cloudburst that hit the Kanawha vicinity.

BELMOND DEFEATED LOCALS IN GAME HERE SUNDAY P. M.

The Belmond Millers defeated the Klemme Merchants in a baseball game played on the Klemme diamond Sunday afternoon 6 to 2.



COAL IN IOWA

Ranking second to agriculture in Iowa's resources, coal has been mined for 95 years. Twenty-two counties produce it. From 3½ million tons in 1880, it increased to 9 million in the peak year of 1917. In 1910, 297 mines employed 18,000 men. Recently the output has dropped to 3 million tons but with peace there is a good indication that this quantity will increase. The state's industries need this fuel and its mining operations will contribute to the Nation's wealth behind War Bonds. *U. S. Treasury Department*

CONTINUED BOND SALES ARE NEEDED

Stating that the need for Victory Bond sales and hence for Victory Bond advertising will continue indefinitely, Secretary Vinson of the Treasury Department issued the following statement this week:

"There are millions of our men overseas. Billions of dollars will be needed to bring them home, to provide their mustering out pay, and to care for the disabled.

"Other billions will be required to provide for contract cancellations and to meet other costs incident to the liquidation of our war effort.

"All this will cost money. We should make the Victory Loan the last of our organized drives, but for the benefit of the country and for the benefit of its citizens, we should continue the sale of United States Savings Bonds, especially under the payroll savings plan.

"By buying bonds—and holding them—we will consolidate the victory and sustain our economy."

"No group has played a more important role in the successful financing of the war than the advertising people of America—and we are confident that we can count on you to see the job thru for as long as the need exisits."

HANCOCK COUNTY BOYS TAKE ARMY PHYSICALS

The following boys reported at the Legion Hall at Britt on August 28th to go to Ft. Leavenworth, Kansas, for pre-induction physical examination:

Plane Finds Exact Po Of North Magnetic

The first plane to search exact position of the North netic Pole was the British which made two flights ov around the charted locat Boothia peninsula, Canad tween May 19 and 26, 194 Collier's. The special instr employed indicate that this some 250 miles north-north the position shown on cha maps for many years.

It is still, however, near miles south of the North self.

Ham and Egg Souffle
Green Lima Beans
French Fried Onions
Molded Apricot-Grape Salad
Vanilla Ice Cream with Jam
Beverage Nut Bread

It's combined with chocolate for a flavor combination hard to resist:

Peppermint Wafer Dessert.
(Serves 9)

½ pound peppermint stick candy
½ cup light cream
½ tablespoon unflavored gelatine
2 tablespoons cold water
1½ cups evaporated milk, chilled and whipped
½ pound chocolate wafers

Crush candy; add light cream. Heat in double boiler until candy dissolves. Add gelatine softened in cold water. Chill until partially set. Fold in beaten, chilled evaporated milk. Break chocolate wafers in half and stand around outside of a 9-inch pan. Place layers of wafers on bottom; spread with ½ of the gelatine mixture. Top with second half of wafers and spread with remaining gelatine mixture. Chill for 12 hours. Cut in squares and serve.

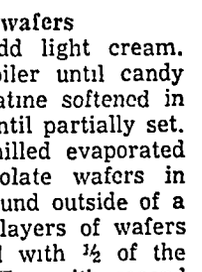
Cherries are another great favorite for dessert. The family will enjoy these tarts made with either fresh or canned cherries.

Cherry Tarts
(Serves 6)

2 cups canned or fresh sour, pitted cherries
6 tablespoons sugar
2 tablespoons cornstarch
⅛ teaspoon salt
1½ tablespoons butter
2 tablespoons currant jelly
6 baked tart shells

Drain cherries. Mix together sugar, cornstarch and salt in saucepan; add cherry juice or a small amount of water (½ cup). Cook together 15 to 20 minutes until thickened, stirring constantly. Remove from fire; add butter and jelly. Fold in cherries. Pour into tart shells. Bake in a hot oven (475 degrees) about 5 minutes.

There are some evenings when most of us enjoy a bit of well-chilled fruit with a few crispy cookies. In this case, you will want the cookie jar full with these Orange Honeys that taste better as they mellow:



Orange Honeys
(Makes 7½ Dozen)

3 cups sifted flour
3 teaspoons baking powder
½ teaspoon salt
½ cup shortening
½ cup sugar
1 egg
1 teaspoon vanilla extract
1 cup honey
¼ cup chopped nuts
¼ cup chopped candied orange peel
¼ cup chopped candied lemon peel

Sift together flour, baking powder and salt. Cream together shortening and sugar until light and fluffy. Add egg and vanilla extract. Beat well. Add flour mixture, nuts, orange and lemon peels to creamed mixture. Mix well. Drop by teaspoonfuls into well greased baking sheets. Bake in a moderate oven (375 degreees) for 10 minutes.

Marguerites.
(Yield: 2½ dozen, 2 inches in diameter)

2 eggs
1 cup brown sugar
½ cup flour
¼ teaspoon baking powder
¼ teaspoon salt
½ cup chopped nut meats
½ cup whole bran

Beat eggs slightly; add remaining ingredients in the order given. Fill small buttered pans ⅔ full of mixture. Bake in a moderate (350-degree) oven about 15 minutes. Cool slightly before removing from pan. Dust with powdered sugar.

McGOOFEY'S FIRST READER

Oh, see the automobile!

It is a new automobile.

How do you know it is a new automobile?

Because no door is hanging by one hinge and most of the windshield glass is still intact.

—•—

Who is the man looking at the new auto?

The name is Joe.

Will it do Joe any good to look at the new auto?

No.

—•—

Why will it not do Joe any good to look at the new auto?

Because it is just a sample.

Is it the only sample of the postwar auto?

No, some company brings out one every week.

What is the sense of letting Joe see samples of the postwar auto if Joe cannot buy one?

The idea is to cut Joe in on a peek into the future, f.o.b. Detroit.

—•—

What has the postwar auto that the present models lack?

Everything, including a windshield wiper that works, and handles that don't come out in your hand.

Has the postwar auto many innovations?

It photographs as if it had.

—•—

What's so different?

The front.

But don't they always change the front of an auto?

Yes, but this time they have gone the limit.

What is that big thing behind which the car seems to be hiding?

That is the postwar bumper.

Will there be more collisions in the postwar world?

Perhaps not, but they will be louder.

—•—

Where is the engine?

The engine is where it always was.

Wasn't there some talk of putting it under the rear seat?

Yes, there has been talk of that ever since Henry Ford first frightened a horse.

Will there be an engine under the rear seat some day?

Not until they develop asbestos pants.

—•—

Is the gas tank in the same location?

Yes, the gas tank is in the same location.

Couldn't they put that up front as a novelty?

Only if you think fireworks constitute a novelty.

—•—

Oh, look at Joe. He is getting into his old flivver.

Yes.

Why?

Because Joe knows a wreck in the hand is worth two blueprints in the bush in covering a distance between two given points.

* * *

INFLATION NOTE

Yearling race horses are bringing terrific prices at the summer dispersal sales. The average is around $7,000. In some cases they are bringing $30,000 and more. A few years ago at Saratoga there was the other extreme and we recall Tom Piatt, a noted breeder, withdrawing his yearlings in a huff when the auctioneer found it hard to get bids much over $500.

* * *

THOUGHTS ON A SUNDAY NIGHT RADIO PROGRAM

Does mother quarrel with her kin?
Does dad get ugly on one gin?
Oh, daughter, will you ride or hike
Quite swiftly to the nearest mike?

Does little Jennie think her pop
Loves some girl in a barber shop?
Does popper think it's wrong or right
You'll have to listen Sunday night!

Does little Edgar, nearly eight,
Play pool and drink and stay up late?
Should he be spanked or viewed with pride?
The air-wave judges will decide!

Their troubles some folks love to share
When they can get upon the air;
Their private lives to all they'll show—
If they are on the radio.

There will be poems very deep
With organ tunes to make you weep;
I think I'll beat my wife up so
We'll both get on the radio!

* * *

W. B. Stout, past president of the Society of Automotive Engineers, predicts that an atomic engine no bigger than a human fist will some day drive an auto for life. There will probably be some fellow who will always complain that he is not getting high test electrons.

—•—

HONK! HONK!

His motor ran by atoms—
He thought that it was swell;
He merely pressed a button . . .
Farewell, old man, farewell!

EDITOR'S NOTE: This newspaper, through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.

Surplus Property for Vets

The Surplus Property board has made arrangements through the Smaller War Plants corporation to sell surplus war property to honorably discharged veterans who have entered business or farming in amounts up to $2,500 on A-1 priorities without buying through regular dealer channels.

Surplus items for any commercial, industrial, manufacturing, financial, service medical, dental or legal, or agricultural enterprise with invested capital not exceeding $50,000, owned as solo proprietor by a veteran, or when non-veterans have not more than a half-interest, are eligible for purchase with the SWPC acting as buying agent or clearing house on all purchases.

All sales to the veterans will be made to SWPC under OPA regulations and in no instance will the price be greater than original cost to the government, less allowance for depreciation, obsolescence, etc.

The $2,500 limitation is placed on amount of sales so that a broad and equitable distribution of surpluses available may be afforded to all veterans who apply.

A typical procedure on a veteran's application could be as follows: An honorably discharged veteran living in Troy, N. Y., is opening a plumbing and heating supply business in his community. He needs a light delivery truck, office equipment and other items. The nearest district office is at Albany. He makes formal application in writing to this nearest office, giving all the necessary details. SWPC reviews all factors and decides the applicant has a good chance to build a successful business. His needs are recorded and as the property is available SWPC will purchase the items to fill, as far as possible, all requirements of the veteran. The veteran pays SWPC the amount involved on the purchase of the truck from the surplus property disposal office, either in cash or, in some special cases, under an arrangement of terms.

Questions and Answers

Q.—When a man has suffered wounds in action how is disability rating for pension purposes determined by the Veterans Administration?

A.—The Veterans Administration says that in the payment of service-connected disability pensions the percentage of impairment is determined on available records by a rating board. The percentage of disability is based upon the average degree of impairment in earning capacity, so that there may be no penalty on any individual for ability to overcome the handicap of disability.

Q.—What are the purchase price limitations in the extension of an agricultural loan guaranty under the G.I. Bill of Rights?

A.—The purchase price must not exceed the "reasonable normal value" of the property as determined by proper appraisal. The purchase price must be within the veteran's ability to pay and succeed in his operations. The local certifying committee will have to certify to the Veterans Administration on its opinion as to whether or not the proposed purchase price of the property exceeds the reasonable normal value of the property.

Q.—Do navy chaplains receive medals? Have any been awarded?

A.—Chaplains in the navy may receive medals and decorations. Lt. Gen. Merritt F. Williams was awarded the Bronze Star medal for meritorious service aboard the aircraft carrier Wasp, sunk in the Solomons islands. Lt. Comdr. Joseph T. O'Callahan, chaplain of the bombed carrier Franklin, has been recommended for the medal of honor.

Q.—Can the mother of an only son request that he be kept in the U. S. and not be sent overseas?

A.—The war department says that a soldier who is an only son is subject to overseas duty if he is qualified. The fact that he is an only son will have no bearing upon his assignment.

Q.—What is a death gratuity for a veteran?

A.—A death gratuity is a lump-sum gift from the government made to next of kin when a member of the armed forces dies. The amount is equal to six months of the deceased person's pay.

Q.—What is the maximum interest rate which may be charged on a guaranteed G.I. Bill of Rights loan?

A.—Four per cent per annum, with the government paying the interest on the guaranteed part of the loan for the first year.

SEWING CIRCLE PATTERNS

Pretty Lingerie Makes Nice Gift
Smart Two-Piecer for Fall Time

Nightgown and Jacket.

EVERY woman likes pretty lingerie and this enchanting nightgown and matching jacket is as lovely a set as you'll see. Make it in dainty all-over flowered fabric or in soft pastels. It will be a lovely gift for the fall bride.

* * *

Pattern No 8791 is designed for sizes 12, 14, 16, 18, 20; 40 and 42 Size 14, gown, requires 3⅜ yards of 35 or 39 inch material, jacket, 1½ yards 39 inch fabric.

For Special Occasions.

A FASHION favorite for fall—the two piece frock. This one, buttoned down the back, nipped in smartly at the waist, makes you look your best on those extra special occasions.

To keep a hem even, in a dress or other garment, after you have sewn an inch or two, insert a piece of cardboard the width of the hem and about six inches long and slip it along as you sew.

—•—

To clean fireplace bricks, cover them with paste made of powdered pumice and household ammonia. Let dry for an hour, then scrub the bricks with warm, soapy water.

—•—

To exterminate white flies on house plants, cover with a newspaper canopy and have someone blow smoke under it.

—•—

Keep cooked meat covered. Chopped and sliced cooked meats spoil more quickly than meat in the piece. Cut or chop just before using. Keep meat sandwiches and salads cold right up to time of serving.

—•—

Put a few pieces of charcoal into glass in which a hyacinth bulb is planted to keep the water sweet.

—•—

When threading a sewing machine needle, hold something white under the needle and it will thread more easily.

—•—

Moderate heat should be used to preserve the life of your porcelain enameled utensils. When the contents have reached the boiling point, the flame may be lowered even more. This is a fuel saving tip also.

—•—

Wipe off the fruit you have bought with a clean, slightly damp cloth before putting it away. This will clean it and check any rot that may have gotten on it from other fruits.

—•—

Don't throw away lemon and orange skins. Bake them in a moderate oven until very crisp. When cold grate or grind them and store in a well corked bottle. A pinch in a pudding or cake makes a great improvement.

Airplane Stamps Nos. 1, 2, 3, and 4 (Book 3) good for one pair shoes each. Valid indefinitely. Book No. 3 must be presented when shoes are purchased.
OPA non - rationed low-priced shoe release through Sept. 29th.
Tire Inspection:
All commercial motor vehicles must have inspection every 5,000 miles, or every six months, whichever comes first.

SAVING SOFT CORN

Top attention should be given to plans for saving possible soft corn. The feed is needed for livestock production, and there's money to be saved by farmers who make the most of the opportunities.

Good crib ventilators are about the best investment farmers can make. Ventilators make possible the cribbing of corn of considerable higher moisture content than would otherwise be possible. Even with ventilators, corn with more than 25 per cent moisture is dangerous to crib if it is to be kept through warm spring weather.

Besides putting ventilators in cribs, farmers will want to check crib roofs for leaks and sidewalls for loose or rotten boards.

Rectangular temporary cribs not more than 6 to 8 feet wide are better than circular cribs. If high moisture corn is to be stored thru the winter, ventilators should be installed in the temporary structures.

Corn should be as mature as possible before cutting for fodder or silage. But it should be cut and put up as soon after the first frost as possible. Further delay means lowered food value.

Has His Cows, Anyhow

Decision of John Kirker, farmer near Montezuma, not to do the milking when he saw the sky was threatened with an approaching storm, probably saved him his life one day recently. He had returned to his house and was at supper as the storm came. Lightning struck the barn, killing a mule, burned the barn, and destroyed much hay and harness.

VICTORY BOND CAMPAIGN SET FOR OCT. 29 TO DEC. 8

Secretary of the Treasury, Vinent, has announced the quota of the Victory Loan Campaign starting in late October as eleven billon dollars, of which seven billion dollars is for corporations and four billion is for individuals, including two billons in E Bonds. The Iowa quotas have not yet been announced. Time of the Victory Bond campaign is from October 29th to December 8th, both dates inclusive

Mrs. A. H. Dulmes Honored At Afternoon Party

Mrs. Art Kudje entertained a group of ladies at two tables of contract bridge at her home last Wednesday afternoon in honor of Mrs A. H. Dulmes of Grundy Center, who was here visiting.

Mrs. C. G. Waterman won high prize; Mrs. Edna Thada, second and Mrs. Ed. Jacobs, low. Mrs. A. H. Dulmes received a guest prize.

After the gamse Mrs. Kudje served a nice lunch.

Mrs. John Trampel Honored At Afternoon Party

Mrs. John Trampel was honored at a pink and blue afternoon party at the home of Mrs. Henry Busse on Saturday afternoon. Neighbors and friends were invited and the afternoon was spent informally.

Mrs. Busse served a nice lunch and Mrs. Trampel received a variety of gifts.

Tomato Time
IS ALL THE TIME

There's no time like the present time for using atoes. And that will be just as true in the middle o winter when you reach for a can or jar of tomatoes your pantry shelf.

A five-ounce glass of tomato juice gives you 1-3 of the Vitamin C you need for the day, and abo of your Vitamin A needs. A small tomato or ha serving of cooked or canned tomatoes will provide the amounts of these Vitamins.

Since the tomato is a good mixer at mealtim sure you are putting up all you can during the ne weeks. It's unlikely you'll be able to get as many tomatoes from your grocer's shelves as you need, should plan now to depend on your own shelves.

IT'S TOMATO TIME ALL THE TIME –
Eat 'Em Up and Put 'Em Up!

TREASURER HANCOCK COUNTY

Hancock County Board Proceedings

9TH ADJOURNED JUNE MEETING
Garner, Iowa, Aug. 20, 1945

The Hancock county, Iowa, board of supervisors met in session on above date with F. J. Schoun, Penn Eckels and John Chambers, present.

The minutes of the last meeting were read and approved as read.

Supervisor Eckels is appointed a committee to investigate and cause repairs to be made in D D No. 36-2

Supervisor John Chambers is appointed a committee to investigate and cause repairs to be made in D D No. 84 and D. D. No. 26, lateral No. 23.

On motion and second Wm. Henschen is appointed engineer to investigate and report on the necessity and fesibility of a cleanout on lateral 2-B of D. D No. 10, petitioned for by Wesley Kehl.

On motion and second Charles F Merten is appointed engineer to supervise the cleaning of open ditches in D D No. 7 petitioned for by V P Casperson et al

On motion and second the bonds of William Henschen, engineer on D. D. No. 120-7 and on D. D. No. 139 are approved

On motion and second the bond of Charles S. Whitney, county superintendent, is approved.

On motion and second the contract for prisoner of war labor is approved

WHEREAS C F Merten, county engineer, has to report that the Maudlin construction company of Webster City have completed their contract for crushing and stock piling gravel to his entire satisfaction and whereas there is due on said contract a final payment in the sum of $962.10.

BE AND IT IS THEREFORE RESOLVED by the Board of Supervisors of Hancock County, Iowa, that the report of the Engineer be approved and the County Auditor be and he is hereby authorized and ordered to draw a warrant on the construction fund of Hancock County, Iowa, in favor of the Maudlin Construction company of Webster City in the sum of $962 10 as a final payment on said contract. All as provided for by law

WHEREAS Wm. Henschen, Engineer on D. D. No. 137, has to report that the Concrete Products corporation of Humboldt, have completed their contract for material in the construction of said district to his entire satisfaction and whereas there is due on said contract a final payment in the sum of $267 41.

BE AND IT IS THEREFORE RESOLVED by the board of Supervisors acting for and in behalf of D D No 137 Hancock County, Iowa, that the report of the Engineer be and the same is hereby accepted and the County Auditor be and he is hereby authorized and ordered to draw a warrant on the funds of D D No. 137, in favor of Concrete Products corporation in the sum of $267 41 as a final payment on said contract. All as by law directed.

The Board of Supervisors acting for and on behalf of D D No. 138 having met pursuant to previous resolution and published notice for hearing on the report of the commissioners heretofore appointed to assess benefits to the lands and tracts in said district and it appearing that

(A) The report of said commissioners is on file within the time fixed by the resolution of their appointment

(B) That notice has been published in The Garner Leader and Signal as provided by law and resolution of this board proof of which is on file

(C) That no written objections have been filed, nor oral objections made to said report

(D) That certain errors have occure in the published notice which he uses, discrepancy between said notice and the commissioners report which are slight and do not materially affect or alter the respective assessments

(E) The time having now arrived for consideration of said report and the Board having considered the same

BE AND IT IS HEREBY RESOLVED that the report of said commissioners classifying said lands be and the same is in all respects approved, ratified and confirm and the assessments as made in said report and amendment thereto is found to be just and equitable and is affirmed against the lands, tracts, highways and railways as therein made

IT IS FURTHER RESOLVED that the published notice be corrected as follows:

Owner

Frank W Vavrick, S 14 5 A NE SE sec 31-97-24

Harry L. Horecka, SW NE Per cent 0071 Am't-$99 40

Harry L. Horecka, SE NW Per cen .0238

Victor C. Waldeck, NE NE Sec. 6-96-24-Ac 25 6

BE IT FURTHER RESOLVED that the Auditor be and he is directed to levy the respective assessments as set forth in the classification and report of said commissioners and the published notice as corrected as therein shown and any person shall have the right to pay his assessment in full within 20 days after said levy without interest and be it further resolved if any levy in excess of $20 00 is made agninst any tract the owner of such land shall have the right to pay same in any of the options provided by Section 7484 of the 1939 Code of Iowa and law amendatory thereto upon such owner executing waiver provided in said section

The foregoing resolution was read and offered by Supervisor F. J Schoun and seconded by Supervisor John A Chambers and upon discussion the Chairman Penn Eckels put the motion upon adoption of said resolution and upon call of roll the vote was as follows

F J Schoun, aye, John Chambers, aye Penn Eckels, aye. Nays none.

Whereupon the Chairman declared the resolution duly adopted this 20th day of Aug 1945

PENN ECKELS,
Chairman

FRED C MISSAL,
County Auditor

This being the 20th day of August A D 1945 a date heretofore set for a hearing on the proposed establishment of D D No 141 Hancock County Iowa, a sub district of drainage district No. 10 Hancock county Iowa petitioned for by Abe Mezvinsky et al to be established in Sections 25 and 26 Township 96 Range 26 West of the 5th P M the hour of said hearing having arrived the report of the Engineer recommending said establishment and the proof of publication being on file and the Board being fully advised said hearing was held as scheduled

There being no objections oral or written to said proposed establishment and no claims for damages on file and it is deemed conducive to public health welfare convenience and benefit that said district be established

BE AND IT IS THEREFORE RESOLVED by the Board of Supervisors acting for and in behalf of D D No. 141 a sub district of D D No. 10 Hancock County Iowa petitioned for by Abe Mezvinsky et al which district is to be established through the lands listed in the preamble hereof be and the same is hereby established in accordance with the plans, specifications profile and report of the Engineer which are on file and the hour of 1 30 P M on the 10th day of September A D 1945 is hereby fixed as a time for the letting of the construction thereof Said letting to be held at the courthouse in Garner, Iowa

The County Auditor be and he is hereby directed to cause notice of said letting to be published in the Britt News Tribune a newspaper of general circulation published at Britt Iowa, which notice shall request bids on labor for the construction of said district set the time for commencement and completion, the approximate amount of work to be done, that the Board reserves the right to waive technicalities and to reject any or all bids all in accordance with Chapter 353 Code of Iowa 1939 and laws amendatory thereto.

The foregoing resolution was offered and read by Supervisor F J. Schoun who moved its adoption, seconded by Supervisor John Chambers, whereupon the chairman placed the motion of its adoption and upon roll call the vote thereon is F J. Schoun Penn Eckels and John Chambers aye. Nays none Whereupon the chairman declared the resolution duly adopted

On motion and second the Board adjourned to August 30 at 1 o'clock P M.

PENN ECKELS,
Chairman.

Attest: FRED C. MISSAL,
Auditor

RUBEN GROSSHUESCH TO TAKE MARRIAGE VOWS

The Grosshuesch family will go to Waukon this week where on Thursday the wedding of Miss Joan Leschensky and Ruben Grosshuesch will take place.

After the ceremony Rev. and Mrs Grosshuesch will drive to Pekin, Illnois for a visit with Mr. and Mrs. Floyd Burnham, brother-in-law and sister of Mrs. Grosshuesch.

BETTER IOWA GARDENS

Note on Food and Victory—even though victory is here and blue points have been liftd, it's still necessary to keep on the food preservation track, and save all produce from victory gardens It's likely to be many months before the food supply is back to normal.

* * *

Bolting or premature seeding of celery usually is brought on by a prolonged cold spell after plants were set out. Some gardeners have been having this trouble with Pascal celery this year. Pascal celery, though excellent for some areas, is not well adapted to Iowa. Golden Self Blanching is preferable.

* * *

Responsible for the delayed ripening of your tomatoes is the cool, wet weather. A deficiency of phosphorus in the soil may share the blame for this delayed ripening also.

* * *

Cracking of tomato fruits is caused by a spurt of very active growth immediately following a period of slow growth. Weather conditions are largely responsible.

* * *

Cabbage worms have been hard at work recently riddling leaves off the plants An application of rotenone dust will kill the worms on the plants. Be sure to get the dust underneath the leaves as well as on top Dust the plants once a week About a day after dusting many green worms can be found stretched out on the ground around the plants.

* * *

Information on vegetable storage may be found in Pamplet No. 70, available from the office of the county extension director or from the Extension Service, Ames. The family which plans to construct a cave storage for vegetables and fruits can obtain a blueprint with full specifications for 15 cents from the Extension Service Ask for Midwest Plan 73402 Full specifications are given with the blueprint The storage is designed to hold approximately 150 bushels of produce The storage cave may be entered through the basement making it unnecessary to go outside during cold weather.

CANNING FRUITS WITH SUGAR

•

Mrs Ruth Saton Hick's broadcast over WOI about canning fruits without sugar has brought many requests for this information in printed form. It is as follows:

Canning In Their Own Juice

Fruits are best if fully ripe and canned in their own juice. Sort the fruit, using only that which is fully ripe

To make juice, crush some of the ripest fruit (2 to 3 peaches will make sufficient juice for 1 quart) in a pan and heat slowly on top of stove or in the oven to draw out the juice Use this fruit and juice instead of water for the canning liquid. A little water may have to be added to firmer fruits such as peaches, when preparing juice One-eighth to ¼ teaspoon salt per quart will add to the flavor of the fruit.

Pack the fruit and add the juice, leaving one-half inch headspace in the jar. Process in hot water bath, the length of time recommended for the fruit. Fruit canned in its own juice when the fruit is completely ripe has a delightful fresh fruit flavor.

Water Pack

Fruit may be canned in a water pack very satisfactorily. Start the peaches, precooking in sufficient water to prevent sticking. If desired, add one-eighth to one-fourth teaspoon of salt per quart of fruit. When they come to the boil, pack and add the water in which they were cooked, leaving ½ inch of headspace in the jar. Process in hot water bath the length of time recommended for the fruit.

If You Have Sugar

You can use less than the one-half cup sugar allowed per quart of fruit for pears, peaches, apples or other naturally sweet fruits. The "taste-test" indicates that one-fourth cup per quart of ripe peaches is sufficient. The Bureau of Human Nutrition and Home Economics, says that for the best use of a small amount of sugar, add it directly to juicy fruit, without water, bring slowly to the boiling point, pack and process in the water bath.

It pays to trade in Klemme.

EIGHT R. Y. P. ATTEND DISTRICT CAMP AT FOSTER

The district camp for R. Y. P. was enjoyed by eight Hancock rural young people. President, Marjorie Fox; vice-president, Elmer Abele; Iris Abele; Lois Abele; Galen Haes; Phyllis Jensen; Ruth Upmeyer; and Marjorie Fitzpatrick took part in the sports, discussions, and religious programs. The discussions included the following topics: "Reporting the News," and "What Should We Expect From Rural Living."

Paul Henderson, County Extension Director, accompanied the group.

Specialist on the program were H. B. Howell, Extension Associate Professor; Frank Ehman, Director of R. Y. P., Iowa Farm Bureau Federation; C. R. Elder, Extension Editor; and Helen Hudson, Editor of the R. Y. P., "Over The State."

Other counties represented included Kossuth, Osceola, Palo Alto, and Cherokee.

WEEKLY NEWS ANALYSIS

Japs Guard Against Uprising; Plan to Demobilize 7,000,000; Nation Shifts to Peace Economy

Released by Western Newspaper Union

(EDITOR'S NOTE: When opinions are expressed in these columns they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Following the joyous news of Japan's capitulation, many persons the country over reverently made their way to church to offer prayers in gratitude for the cessation of hostilities. The crowd worshipping on the steps of St. Patrick's cathedral in New York City was typical, with a constant stream arriving to express their thanksgiving.

PEACE:

Tighten Imperial Grip

Even as General MacArthur arranged the complicated procedure for Japanese surrender and occupation, the U. S. prepared for the major readjustments looming ahead before the nation once again could tread the paths of peace.

With the Japanese government anxious to bring about a cessation of firing before the preliminary surrender parley in Manila, the conference was postponed to permit members of the imperial household to fly to the far-flung Asiatic battlefronts to enforce the emperor's orders to lay down arms.

Appointment of tough and able 57-year-old Prince Higashi-Kuni as Jap premier disclosed an effort to bring all of the weight of the imperial family behind the surrender acceptance to avert any outbreak of diehards which might upset the internal situation. A second cousin of the emperor and an uncle of the empress, Higashi-Kuni has had a long career in the Jap army, serving as chief of the military aviation board, commander of defense headquarters and a member of the supreme war council.

While it was expected that some fanatical officers may try to fight on, or commit hara-kiri, the great mass of Japanese were expected to give up peaceably. "There will be no trouble when American soldiers go to Japan if it is the wish of the emperor," said one Jap naval officer. "The army, navy and Japanese people exist only by the will of the emperor."

U. S. Demobilizes

With the end of the war, the services' carefully prepared demobilization plans were scheduled to be put into effect, with the draft continuing for men under 25 years of age unless the President or congress ordained otherwise.

Approximately 261,000 enlisted men and 40,000 officers are eligible for release under the navy's newly announced discharge plan requiring 44 points for the enlisted men and 49 for the officers. Under the program, one-half point is allowed for each year of age up to the nearest birthday; one-half point for each full month of active duty since September 1, 1939, and 10 extra points for dependents regardless of number. Requirements for WAVES are about 14 points lower, with the same credit computations.

Designed to relieve men with the longest service, the navy program will permit release of about 2,000,000 men within the next 12 to 18 months, which, with the army's plan for discharging 5,000,000 G.I.s within a year, will result in a total demobilization of 7,000,000 by 1947.

Except for four categories of specialists, all army personnel with 85 points or more will be immediately released, along with men 38 years of age or over. Until such a time as the size of the occupation force needed in Japan can be determined, however, there will be no reduction in the present point system, it was indicated.

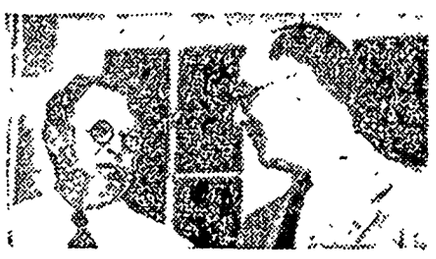
With G.I.s in the Pacific eligible for discharge due to be released, men with low-point scores in the U. S. or with only brief European service must prepare to accept overseas assignments, the army declared.

Ease Controls

Though five million people were expected to be discharged from war work following cessation of hostilities, industrial plans for a rapid reconversion to civilian manufacture promised early re-employment.

Fortunately, such basic industries as steel will be able to furnish civilian materials with little delay, and plans have been set up to continue government supervision over scarce items to permit more even distribution and prevent speculative hoarding and pressure for price increases.

With its financial position greatly bolstered by heavy wartime production, and with banking funds available before settlement of cancelled war contracts, industry generally is strongly heeled for reconversion. Meanwhile, civilians have record cash balances and bond holdings,



Economic Stabilizer Davis (left) and Secretary of Labor Schwellenbach leave White House after reconversion confab.

and will be able to draw unemployment compensation to tide them over the early transition period.

While manpower controls were removed with Japan's defeat, wage checks were retained to prevent an inflationary spiral, and efforts made to minimize strike threats.

With another bumper crop on tap, farmers could look to continued heavy government purchases for the large military and naval establishments and foreign relief, and an uncertain domestic market dependent on the speed of the reconversion program. Under congressional legislation, however, farmers have been assured of federal price support for at least two years after the war.

Among the first effects of reduced military requirements was the removal of gas, fuel oil, canned fruits, vegetables and juices and other processed foods from the rationing lists. At the same time, price control was lifted from such items as jewelry, sports equipment, toys selling at 25 cents or less, cigarette lighters, pipes, luxury furs and garments, some photographic apparatus and notions.

Because of the shortage of supplies, and no possibility for immediate increases, rationing will be retained on meats, fats and oils, butter, sugar, shoes and tires.

In the case of tires, OPA announced, drivers of cars used for occupational purposes will continue to receive cords according to the importance of their work, and "A" card holders will be given consideration in cases of unusual hardship.

Though a check will be kept on shoes, men's and women's wear manufactured before March 1, 1944, and priced at $3.50 or less a pair, will be ration-free through to September 29.

Army Teaches G.I.s Virtues of Thrift

How widely the members of the armed forces have been taught the virtues of thrift is indicated by figures supplied by the war department office of dependency benefits.

As of the end of June, there were 3,714,910 active monthly Class-E allotments-of-pay, which are voluntary assignments of pay to a soldier's dependents, a bank, an insurance company, etc., and are distinct from the family allowances to which the government contributes.

Over 40 million dollars have gone to insurance companies in the last three years to pay premiums on soldiers' civilian life insurance.

In June alone, $263,227 went to building and loan and savings and loan associations under the recently authorized plan permitting G.I. Joe to save for a home.

CROPS:

Another Good Year

Owing to record yields of wheat, oats, peanuts, rice, peaches, pecans and commercial truck crops; near record prospects for hay, tobacco, soybeans, sugar cane, and large production for potatoes, sorghum grains and flaxseed, the department of agriculture predicted the 1945 harvest would be the third best in history

With the wheat crop estimated at a record 1,146,283,000 bushels on the basis of conditions as of August 1, and with oats at 1,546,032,000 bushels, feed grain production was at a high level despite the estimated drop in the corn harvest to 2,844,478,000 bushels.

One of the bright spots in the crop picture was the estimated increase in sugar cane production to 6,976,000 tons, and rise in sugar beet output to 9,332,000 tons, promising to relieve the tight supply in the commodity.

Conservation Needed

After the most extensive study of farmland resources ever undertaken by any nation, the soil conservation service reported that more than 90 per cent of the country's farmland was in need of treatment to protect it from erosion and maintain fertility.

More than 3,600,000 man years of labor would be required for the huge task, the service said, along with 327,441 years of motor equipment; 1,089,978 years of horse-drawn facilities, and 2,544,106 tons of seed

Of the 417,561,000 acres of farmland now under actual cultivation, the service said that 43,000,000 should be retired because of steepness, erosion, wetness and stone.

LABORITE BRITAIN

With Great Britain and all the rest of the world awaiting the pattern of postwar life in the United Kingdom, King George VI presented the victorious Labor party's legislative program, with nationalization of the Bank of England and the coal mines heading the agenda.

At the same time, the king revealed that the war's end would not bring about a release of wartime restrictions, with the Laborites seeking power during the reconversion period to maintain control over materials and services to assure proper distribution at fair prices.

Besides nationalizing the Bank of England to promote employment and development, and socializing the coal mines as part of a program to integrate the fuel and power industry, the Laborites propose to reorganize transport; provide social security and industrial insurance; buy land for housing, and set up machinery for planning investments in new business.

WORLD RELIEF:

Needs Boosted

With the termination of the war in the Pacific expected to multiply its problems, the United Nations Relief and Rehabilitation Administration Director Herbert Lehman declared that more than two billion dollars in additional funds would be needed to help stricken countries before their restoration of stable economies.

Speaking at the third international conference of UNRRA at London, Lehman revealed plans for coping with the Asiatic relief problem, disclosing that plans already have been formulated for the shipment of supplies to China over the Stilwell road and through coastal ports. Of the 100 million Chinese reported destitute, many are expected to succumb even if relief should be offered immediately.

The London meeting was enlivened by Australia's demand to broaden the UNRRA control council to nine members instead of the present Big Four to provide smaller nations with greater representation in the allocation of funds.

FRANCE:

Break Marshal

Leader of France's liberation movement, Gen. Charles de Gaulle spared the life of Marshal Henri Petain by commuting his death sentence for plotting against the internal safety of the country to life imprisonment.

Nevertheless, the jury's additional sentence of national indignity stood, imposed even after Petain's final assertion: "My thought, my only thought, was to remain with the people of France as I promised instead of abandoning them in their agony. . . . My honor belongs to your country. . . ."

Most controversial French case of the century, Petain's trial found the country sharply divided, with charges on the one hand that the old marshal had delivered the state up to the Germans, and countercharges on the other that prewar politicians were using the proceedings to whitewash themselves.

CONSUMER BACKLOG:

Big Order

The American people bought nearly 23 billion dollars less of automobiles and parts, and furniture and housefurnishings in the three years, 1942-44, than they would have if these goods had been available in prewar volume, the department of commerce estimates.

In automobiles and parts actual expenditures totaled 1.8 billions, with expected expenditures under normal conditions, 16.2 billions and the deficiency in purchases, 14.4 billions.

Nizer Ex-Rays a Columnist

By LOUIS NIZER

Attorney. Author of "What to Do With Germany." "Thinking on Your Feet," Etc.

I am afraid to write this column because a columnist must have many talents.

1. He must be a humorist, whose column wears a pun-striped suit. As for example:

Alimony is the high cost of leaving.

Sex magazines are the filth column of America.

Today we have many sulfa-conscious young doctors.

True pals stick together 'til debt do them part.

He adored her and the feeling was nuptial.

Time wounds all heels.

---

2. A columnist must be a movie and theatrical critic who can create atomic bomb devastation with a phrase. As for example:

It took the Curies 30 years to find radium; it took Sir William Ramsay 16 years to discover helium; it took this play only 2 hours to produce tedium.

---

3. A columnist must be a lexicographer who can invent new words which tickle the brain and surprise the eye. As for example:

Bilboorish, Rank-in-justice, Teutonic Plague, guesstimate, sindicated column, kilocyclopedia, Emperor Fearohito, infantuation, Petainted.

---

4. He must be a philosopher who disguises his wisdom in simplicity so that he does not appear pretentious. As for example:

It's better to give than to lend and it costs about the same.

Suggested sign for a museum: "Touch as much as you like with your eyes, but don't see with your fingers."

I am afraid of Senators who have a difficulty for every solution.

Love at first sight often ends with divorce at first slight.

Funny thing about temper, you can't get rid of it by losing it.

Man argues that woman can't be trusted too far. Woman argues that man can't be trusted too near.

The President has the power to appoint and disappoint the members of his cabinet.

---

5. He must be a religionist who realizes that religion is caught, not taught. As for example:

An atheist is a man who has no invisible means of support.

The best reply to an atheist is to give him a good dinner and ask him if he believes there is a cook.

---

6. He must be an ironist who does not hesitate to master the art of insult. As for example:

She dresses like a bad photograph —underdeveloped and overexposed.

His mind is like his farm, naturally barren and made worse by mistaken cultivation.

He is addressing his speech to posterity, but his audience will be here before he finishes.

---

7. He must be an economist who knows that when a theory collides with a fact, there is a tragedy. As for example:

Those who complain about rationing ought to remember that there was no sugar until the 13th Century, no coal until the 15th Century, no coffee until the 17th Century, no matches until the 18th Century and no gasoline until the 19th Century.

---

8. He must be an internationalist who keeps the conscience of the people boiling. As for example:

A good motto for the war criminal trials is: "The prisoners, not the sentences, should be suspended."

Don't relax. Germany has more intelligence per square head than any other nation.

International moral: President Lincoln saw a small boy carrying a child up a hill on his shoulders. He asked him whether the burden was not too much for him. The boy answered: "It's not a burden, it's my brother!"

Under fascism, the only virtue is strength. Under democracy, the only strength is virtue.

---

9. He must be a historian with a human interest touch. As for example:

The spelling backward craze goes back a long way. In 1808 there was a political fight over Jefferson's embargo. His political opponents ridiculed him in cartoons as "O Grab Me."

---

10. He must be a reporter who can reveal information kept secret even from any Government officials.

Our Army found in a German chemical laboratory a new secret gas so powerful that a drop no larger than a pinhead would kill a human being. The Nazi laboratory chief revealed that Hitler lost his nerve. He was afraid to use this weapon because he had been informed that the Chemical Warfare Division of the United States Army had even more fearful gases and in much larger quantities!

The Washington MERRY-GO-ROUND

DREW PEARSON

EMPEROR ONCE DEMOCRATIC

Twenty-three years ago, this writer, visiting in Japan, got considerable first-hand information about the emperor from a young Japanese Quaker, Renzo Sawada, who had been picked to accompany Hirohito, then crown prince, on a trip to see the western world.

Why Sawada, educated in a Quaker school in Tokyo, was chosen to accompany the young prince on this history-making trip, I do not know, except that the Imperial council of education wanted a commoner of Hirohito's age who spoke English and French to travel with the future emperor.

Never before had a ruler of Japan left its shores. In the past scarcely was the emperor even seen by his subjects. Some idea of his isolation can be gained from the fact that the word "mika" means "awful"; the word "do" means "place"; and the name "Mikado" means "awful-place."

In the old days, priests came to worship at the "awful place," but they never saw the emperor whose other name even today is "Tenno," meaning "son of Heaven." The emperor is synonymous with the sun and from this comes the Japanese flag, with 16 spreading rays symbolic of the rising sun and the emperor.

In those days, the Mikado was the theoretical owner of all the land and all the people and their possessions. He was their God and protector. His lance and shield came from Ama, "the ancestral region." Thus arose the cult of Shintoism which actually means "rule of the superiors" or "way of the Gods." Even the word for government in Japan, "matusurigoto" means "shrine visiting" or "religion."

Modernizing the Emperor.

Thus during most of Japanese history; in fact, up until just after the arrival of Commander Perry in 1852, the Mikado was an ethereal spiritual being, not a ruler; and it came as a definite shock to many Japanese that their emperor-to-be should sail off to England and France to absorb western culture.

In fact, some of the more intense patriots actually threw themselves on the railroad tracks in front of the train carrying Hirohito to Yokohama in protest against the departure.

Naturally Hirohito may have changed a lot during the 25 years since his trip. Naturally, also my friend Sawada was prejudiced in his favor. However, the story of that voyage was one of a young man anxious to mingle with his fellowmen, astound the emperor-worshippers by wrestling on the deck with his aides, get a bloody nose, and dance democratically with the servants of the Duke of Atholl in the same "barbaric" Scotland, which, according to Shinto priests, is made from the mud and seafoam left over after creation of the "heavenly isles" — Japan.

Hirohito even managed to deliver a public speech to the lord mayor of London; and no emperor in all the history of Japan had ever delivered a public speech before. In all Japanese history, furthermore, no emperor had purchased an article of any shape, size or form. In Paris, however, Hirohito insisted on going alone and buying a necktie, and later a pearl for his mother.

Hirohito Goes Underground.

His greatest ambition, however, was to ride on the Paris subway or "metro." Before leaving Tokyo, Hirohito's staff had been strictly forbidden to let the heir to the throne ride on any subway; but despite this, the crown prince bolted most of his staff and ventured underground. He insisted on buying the tickets himself and handed them to the fat lady guarding the gate.

But he handed them to her in a bunch, instead of spreading them out fan shape, so that she could not punch them quickly. All of which brought forth a storm of abuse in metro French, heaped on the head of the future ruler of Japan.

Editor's Note: This article won the first prize in a contest sponsored by Western Newspaper Union in connection with the recent Midwestern Writers' conference at Northwestern university. Miss Gibson, the author, lives in Sheldon, Ill., a town of 1,000 population in Iroquois county, which is one of the leading agricultural counties of the Prairie state. After graduation from the school of journalism at the University of Illinois, she became a teacher of journalism at the Champaign, Ill., senior high school. At present she is a free lance journalist and chairman of public information for the Iroquois county chapter of the American Red Cross.

Miss Gibson

the building interests whose task it will be to supply the additional homes and business structures. As the grain man deals with farming interests, yet resides in town, he should be able to see both sides of the picture. The Red Cross home service chairman and a minister are recommended because of their contacts with servicemen.

When this committee has worked out an information questionnaire, it can be published in the local paper, for our weekly paper goes to all the boys and girls in the service.

With the questionnaires returned, the committee can begin to compile information. Then they can canvass the community to see what jobs will be available so that when Sam, who wants to be a partner in a grocery store, comes home, he can be sent to see old Mr. Fuller who wants to retire from active work and become a silent partner.

On the second committee, the Memorial, I would have five members, all men interested in sports: the high school board athletic chairman, the grade school board athletic chairman, a business man, a farmer, and a veteran, the latter to be chairman.

Trees As Memorials.

Windstorms have played havoc with the beautiful trees for which our town is noted. What better memorial to our war dead than stately trees? I should like to see the village, which is now free from debt, plant American elms and hard maple trees in the parking: the American elm because it is a quick growing tree and the hard maple because it has the most beautiful autumnal foliage of any tree I know.

As a memorial to our gallant fighters who return, I should like to have a well-run sports program. A number of things may be considered, among them an outdoor swimming pool at the high school, with the school showers and dressing rooms available to the swimmers. The initial cost might well be met by popular subscription with the school operating the pool afterwards.

During the summer vacation, the pool could be open suitable nights from 7 to 11 with swimming classes scheduled certain afternoons from 4 to 6. The athletic coach should be the director. In the winter the pool could be flooded and used for ice skating.

Softball might well be revived, for the grounds are still available and it would not take long to hook up the lights. Four organizations such as business firms could each sponsor a team with one or two nights a week set aside for double header games. There should be no admission charge, but a collection should be taken to pay for the lights. Moreover, consideration should be given to reinstalling croquet courts in the park for the youngsters and marking off space for horseshoes for the oldsters.

My town faithfully follows high school basketball, which provides excellent winter recreation. A survey should be made, however, to see how the high school gymnasium may be used winter evenings for adults for calisthenics, volley ball, handball, basketball and folk dancing. In all of this sports program the goal must be to use available community resources to provide a varied program to reach the greatest number of people.

Educational Needs.

Last but not least is the Education committee which should consist of five members: the high school principal, the grade school principal, a town father who has children in school, a farm mother who has children in school, and a high school alumnus, the latter to be chairman.

The business of this Education committee should be to make a survey of the postwar educational needs and make recommendations to the boards of education.

Perry L. Schneider, head of the evening elementary school division of the New York City board of education, says that there is a growing demand by adults for short non-credit courses in cultural subjects such as history, global geography, economics, current events, literature, music, art, crafts, and hobbies. He believes that it will be necessary to educate parents for reduction of juvenile delinquency.

Some of the courses Mr. Schneider suggests may be applicable to small schools. Perhaps the folks in my community will want not only the agricultural night classes which have proved popular but classes in manual training, personal typing, foods, sewing, interior decorating or child psychology.

For those adults who still enjoy taking part in plays, a community players' club might well be organized to meet once a week and to present one or two plays for the entire community. Those who like to sing might form a community chorus which could present concerts while those who like to play a musical instrument might form a community dance band to sponsor six dances.

Since our public library has a small stage, these three groups could easily use that as their meeting place so as not to monopolize the high school gym, which is a combined gym and auditorium. These clubs as well as adult evening classes should be considered a part of the high school teacher's work and enough teachers should be hired to take care of the demands

Of even greater educational concern is the quality of the grade school and high school instruction, for servicemen will want good schools for their children.

It will be well to consider restoring to the elementary school the subjects that were dropped because no teachers were available: art, cooking, sewing, and manual training. Likewise attention should be given to possible new subjects.

'Every Day Living for Boys.'

Perhaps eighth grade boys should be taught simple cookery, selection and care of their clothes, bedmaking, and room care in a course called, "Every Day Living for Boys." Both boys and girls might be taught simple gardening practices and encouraged to have their own garden plots during the summer.

As a part of the high school survey it would be right to consider if the history courses are providing the citizenship training we want and if the English classes in addition to teaching our young people to speak and write correctly are giving them the proper evaluating standards so that they will know how to judge a newspaper, magazine, book, movie, and radio program, thus discarding the trash and fastening their minds on the things worth remembering.

Since cooking and sewing were required of eighth grade girls, it would seem sensible to require of the freshman girls a home management course which could incorporate some principles of home nursing. Then during the three summer vacations of their high school days they might undertake such projects as canning vegetables, house cleaning and cooking, with credit to be given for such projects after due inspection by the teacher in charge.

A first aid course comparable to the one taught by the American Red Cross should be required of every boy and girl after he is 16 years of age and before he is graduated.

In a recent forum on divorce conducted by the Town Club of Chicago, Samuel A. Rinella, divorce attorney, declared, "Our schools train students in everything from carpentering to radio announcing but not enough, if anything, is done about instructing men and women in marriage."

Mr. Rinella's statement is so true that I think the Education committee should consider recommending a required semester's course in the senior year for both boys and girls in general sociology, marriage and the family.

In 1865 the folks of Pleasant Valley, a little village in the foothills of the Alleghenies, piled the relics of the Civil war that had just ended, the old brass cannon, the battered muskets, the broken swords, and the rusted bayonets into one heap. They melted them down and from them cast the gentle bells of Pleasant Valley to ring out over green fields and fertile farms as a memorial to their loved ones lost in that war.

Likewise, it is my hope that the Postwar Planning of the Re-Employment, Memorial, and Education committees will result in making my community a Pleasant Place in which to live.

uture Prosperity of U. S. Depends on Sound Postwar Planning

orically, America's economy s beginnings in farms and in towns. As more goods were ced and as farms multiplied, towns came into being and of them grew into large cities. existence of the large cities not, however, detract from the tance of rural communities. one-fourth of our people are rs and dependent upon the ction from their land for near- their income. Roughly, another fourth, living in small towns and to some extent in the cities, depend on farm trade in one form or another for a livelihood. These two groups represent at least one-half our population.

The importance of prosperity in rural America to the rest of the economy is indicated by the fact that approximately 70 cents of the farm dollar goes into the purchase of things which have to be manufactured. The farmer's prosperity, therefore, makes a maximum contribution toward the creation of payrolls and jobs.

Sound postwar planning should result not only in more jobs in your community but in permanent advances for the United States. In a democracy, progressive community action is essential to social and economic progress. — From "Postwar Jobs and Growth in Small Communities," Committee for Economic Development handbook.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Of The Moody Bible Institute of Chicago.
Released by Western Newspaper Union.

Lesson for September 9

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education: used by permission.

A NATION GOD USED

LESSON TEXT—Genesis 41:46-57.
GOLDEN TEXT—He hath given meat unto them that fear him: he will ever be mindful of his covenant.—Psalm 111:5.

Conservation of natural resources—that phrase has a modern touch to it, and yet we would do well to turn back to the story of Joseph in Egypt and learn anew the importance of not wasting what we have if we are to be fed in the days of shortage.

Certain it is that we should face at once the shameful record of waste in the manufacture and sale of intoxicants. This is temperance Sunday. Let us not fail to stress this truth.

Joseph recognized the provision of God and made use of it for His glory and the good of the people.

I. Food—God's Provision (vv. 46-49).

As men work with God in the cultivation of the land they are apt to begin to think of themselves as producers, when they are actually only the servants of the Lord in the orderly care of that which He provides.

We need to renew our sense of complete dependence upon God lest we become proud of our own supposed attainments and forget Him. Then He will have to withhold His bountiful hand and we shall stand with empty measures.

Remember, too, that what God has given to feed the nations cannot with impunity be used for the manufacture of intoxicating beverages which are designed and used for no good purpose—only for destruction. Let's not forget that God could send us a famine, too!

The manner in which Joseph cared for the gathering of the grain is worth noting. He did not sit in his royal office and send out an edict. He went throughout the land building storehouses, seeing that the grain was properly conserved.

We need more of that personal touch in government. Too much of life is controlled by "directives" and "rules" with too little of the touch of human kindness and a personal knowledge of the needs of the people.

Observe also the wisdom of storing the food in the place where it was raised and where it would eventually be needed. No shipping and re-shipping, no undue centralization, and no temptation to form a special "grain bureaucracy."

II. Family—God's Gift (vv. 50-52).

From among the Gentiles, Joseph took himself a bride. While it is not indicated, we have reason to assume that she was a believer in the true God One cannot imagine a man of Joseph's character and spiritual integrity marrying an unbeliever.

The sons which came into the home were recognized as God's gift. Note how God was counted into the life of these boys and of the home.

We spoke above about the need of conserving grain. Think now of the infinitely more important conservation of boys and girls.

The liquor interests have used this war to create a taste for beer on the part of millions of young men and women, both in the armed services and in our war plants. They have broken down the objections and the religious principles of many and we are almost at the point where one who objects is regarded as a foolish fanatic.

If America cannot with impunity use her grain to make booze, do you think God will hold us guiltless if we stand idly by and let the rapacious breweries and distilleries take our boys and girls? It is high time that we awakened to our responsibility and stood up for our convictions, come what may!

III. Famine — God's Opportunity (vv. 53-57).

Now the time had come when God's word to Joseph was proved to be true. When His loyal servant stood before the world as the one who was in touch with the infinite One, he had the food to give out because he had obeyed God's command.

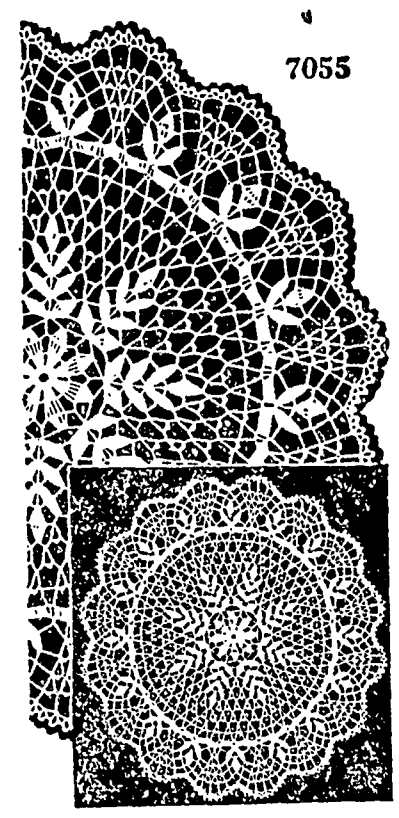
It is in the crises of life that the things of God prove themselves. When man's hand drops in weakness and despair, God steps in and does the abundant thing; that is, if we are willing to recognize Him.

There is another sense in which the coming of famine was God's opportunity, for it gave Him the chance He wanted to speak to men. In the days of plenty and prosperity mankind is self-sufficient and too busy to listen to God, but when there is no food to eat, he has time to hear God.

One wonders, with a wonder that is almost agonizing at times, whether America is going to force God to bring hunger of body to her children in order to make their hearts hunger for Him. Will we wait to cry out to God until we have felt the sharp pangs of hunger, or will we by our obedience and gratitude of heart encourage Him to continue His abundance toward us? Reader, how do you feel in your own heart?

SEWING CIRCLE NEEDLECRAFT

Lovely Doily Is Easy to Crochet



JUST one look at this lovely doily tells any crocheter, beginner or expert, that it's one of those very easy ones. Make a luncheon set.

The easiest crochet that's a pleasure to do. There are two doilies—one 18 inches, the other 12½. Pattern 7055 has directions and stitches.

Due to an unusually large demand and the current conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

JUST CHUCKLING

Generally So

"What is the feminine of bachelor?" asked the school teacher.

There was no reply until a small boy sang out: "a lady in waiting."

'Fly Away, Fly Away

"Are you an angel, Daddy?" asked Elsie.

"Well—er—not exactly, dear. Why do you ask?"

"Well, I heard Mummy say she was going to clip your wings."

Not in Reverse

Mrs. Katz—I want to know how much money my husband has drawn out this month.

Teller—Sorry, Mrs. Katz, but I can't give you that information.

Mrs. Katz—Aren't you the paying teller?

Teller—Yes, but I'm not the telling payer.

The most certain thing about a mule is his uncertainty.

Tweet, Tweoo!

Naive Nellie—I think it's wonderful that our servicemen are such a happy lot.

Mother—What makes you say that?

Naive Nellie—Why, whenever you pass them they're always whistling!"

Off the Handel

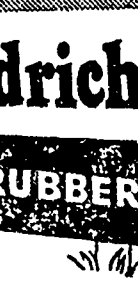
A well-known musician was staying in the village, and one evening, while taking a walk, fell in with some rustics on their way home from choir practice. He asked one of them what music they had been practicing.

"Handel," he was told.

"But I should have thought you'd find Handel rather difficult," the musician remarked.

"No, not very, sir," one of the villagers replied. "You see, we alters him!"

SNAPPY FACTS about RUBBER



A Boeing Superfortress lands on enough nylon to make 4,000 pairs of stockings. B. F. Goodrich builds Superfortress tires reinforced with nylon cord.

California not only has more passenger automobiles than any other state in the Union but also has more than any foreign country.

Using a road magnet, the Michigan State Highway Department recently gathered 400 pounds of nails, tacks, and other metal objects from 200 miles of highway.

Klemme – Iowa

Mr. and Mrs. Verner Priebe and family visited at the Clarence Lemke home Sunday evening.

Mr. and Mrs. Jerry Fox and children of Britt were guests at the A. L. Kingery home Sunday.

Mr. and Mrs. Wallace Pavey were at Mason City Tuesday afternoon.

Clair West of Nora Springs was a business caller in Klemme Friday.

Mrs. Fred Musfelt came from Clarion Friday for several days visit with Mrs. Mary Waterman.

Miss Ruth Stille, of Des Moines, visited over the week end and Labor Day with her parents, Mr. and Mrs. Lester Stille.

Mr. and Mrs. Frances Buseman and Mr. and Mrs. John Clements drove to Arnolds Park Sunday to spend the day.

Mr. and Mrs. C. G. Waterman drove to Mason City Saturday evening to inspect the B-17 bomber at the airport.

Mr. and Mrs. Dwight Hummel and children spent Sunday in Des Moincs visiting at the Rev. Herlein home.

Dick Dulmes, of Grundy Center, visited from Tuesday until Friday with Graydon Barz, at the Harvey Barz home.

Mrs. Paul Grange and Mrs. Raymond Keeper and baby son of Mason City, spent Friday visiting with Mrs Henry Keeper.

Dr and Mrs. D. P. Anderson and daughter Neva Ann, returned Friday from a vacation trip spent visiting with relatives in Kansas and Missouri.

Mr. and Mrs. Jim Lilly of Cedar Rapids, and Mrs. Minnie Lemke of Garner, visited at the Otto Lemke and Clarence Lemke homes Monday afternoon.

Dr and Mrs. A. H. Dulmes and son Dick, of Grundy Center, were entertained to dinner Thursday evening at the Rev. Calvin Grosshuesch home.

Mr and Mrs. John Clements and son Jimmie, spent Thursday visiting at the Wayne Pavey home in Webster City, and taking in the county fair there.

Pfc. Otho Keraus of the Sioux City army air base came Saturday and visited over Sunday with his parents, Mr. and Mrs. W. C. Keraus.

Mr. and Mrs. Conrad Quandt are now comfortably settled in their cabin at Two Harbors, Minnesta, where they will remain during the hay fever season.

Mr. and Mrs. Ed. Thompson left on a week end trip Saturday evening to take in the sights along the Mississippi river. They returned home today, Wednesday.

Miss Thelma Chambers, home economics teacher in the Britt high school, spent the week end in Klemme visiting with her parents, Mr. and Mrs. J. A. Chambers.

Mr. and Mrs. Orville Bridges and family; and Mrs. John Johnson and Doris spent Sunday visiting at the Truels Steffen home in Waterloo.

Leonard Swanson has re-shingled his house the past week with composition shingles, and has torn down the porch. The Swanson's are doing some remodeling on the house.

Mr. and Mrs. Henry Ludeke of near Meservey, visited with Herman Ahlstrom of near Goodell, Sunday. Mr. Ahlstrom has been ill for a long time, but is much better now.

Mr. and Mrs. Paul Van Buskirk and Mr. and Mrs. Lloyd Van Buskirk left today, Wednesday, for Rochester, Minn., where the men will enter Mayo Clinic for a check-up.

Mr. and Mrs. Wayne Lemke and children, Sharon and Larry, of Des Moines, and Mr. and Mrs. Clarence Lemke were entertained to dinner at the parental Otto Lemke home on Labor Day.

Milton Paul, who entered the CCCC (Capitol City Commercial College) at Des Moines last week, spent the week end and Labor Day visiting with his parents, Mr. and Mrs. Herman Paul.

Brother-in-Law Of Klemme Druggist Died Thursday

Mr. and Mrs. P. M. Wilson were at Belmond Sunday afternoon to attend the funeral of Mr. Thomas Brooks, brother-in-law of Mr. Wilson, who died Thursday evening.

Local Happenings

Klemme and Vicinity

Orville Maben of Garner, was in Klemme on business Tuesday forenoon.

Mr. and Mrs. Lloyd Sherwood and children spent Labor Day in Mason City.

Mr. and Mrs. Clifford Montgomery and children, William and Carole, drove to Mason City Sunday to see the B-17 bomber which was open for public inspection at the Mason City airport.

Dean Merkel went to Mason City Monday to enroll in a business course at the Hamilton University. Dean has been keeping books at the Farmers Elevator for the past several months.

Jacqueline Kudje went to Mason City Monday to begin her teaching duties, but school officials at Mason City decided to keep the schools closed for another 2 weeks because of infantile paralysis.

John Josten returned home last week from the hospital at Rochester, Minnesota, where he went for treatment and an operation. Mr Josten is making a good recovery and is able to come up town each day.

Mr. and Mrs. Leonard Lau and son Allan, left Tusday for Devils Lake, North Dakota, where Mr. Lau will teach in the State School for the Deaf. He has been at Ames for several weeks taking special instruction at Iowa State College.

Mr. and Mrs. Tom Vrba of Chicago, Ill., and Mr. and Mrs. Frank Vrba, Blanche and Eilene, Brookfield, Illinois, came Friday and visited until Labor Day at the James Vrba home west of Klemme.

Mr. and Mrs. O. A. Fredin of Fort Dodge visited at the home of Mrs. C. A. Arnold for a short time Saturday. Their son, Donnie, who has been working at the Arnold farm for the past month, accompanied them home to get ready for school.

Ernest Gerardi, accompanied by Mr. and Mrs. Larry Guthrie of Wichita, Kansas, came Saturday to spend the week end visiting with Mrs. Gerardi and daughter Gracka at the Quandt Cafe. Mr. Gerardi and the Guthries returned to Wichita Monday.

Allen, son of Mr. and Mrs. Melvin Neuberger, who has been a patient at the University hospital in Iowa City, was brought home Sunday. Allen is making a good recovery from his recent attack of infantile paralysis and apparently is suffering no ill after effects.

Dr. and Mrs. A. H. Dulmes and son Dick returned to Grundy Center Friday after visiting with Klemme friends for several days. They expect to return here later for a longer visit before Dr. Dulmes goes to Mississippi for re-assignment in the army.

The Liberty Methodist Church is undergoing repairs this week. A new shingle roof is being put on and the interior re-decorated. An expert glass mechanic was here to repair the leaded glass windows which were damaged by a storm last spring.

Mr. and Mrs. E. G. Beier drove to Van Meter, Sunday, for a visit with Rev. and Mrs. Wm. Suckow.

In writing up a party last week the name of Mrs. Martin Barz as a guest should have been included in Mrs. Jorgenson's bridge party.

With the resignation of Miss Agnes Samuelson as head of the Iowa Teachers Association at Des Moines, W. Henry Galbreth, editor of "Midland Schools," the magazine published by the Association, has been temporarily put in charge in Miss Samuelson's place. Mr. Galbreth is a former Klemme superintendent of schools.

Donald, son of Mr. and Mrs. Emery Schaefer of near Klemme, and Don Kirchner, son of Mr. and Mrs. G. B. Kirchner of Garner, left Sunday evening for Ft. Leavenworth, Kansas, where they enlisted in the army, procured uniforms and then left for Brookings, South Dakota, to enter the State College as part of their army training.

Mr. and Mrs. Art Kudje entertained to dinner Thursday evening Dr. and Mrs. A. H. Dulmes and son Dick of Grundy Center, and Dr. and Mrs. Earl Schaeffer of Forest City.

Roy Schaefer and daughters took Seaman Don Schaefer to Des Moines Thursday. Don has been enjoying a thirty day furlough at home. He has been assigned to the Naval Base at Norman, Oklahoma.

"TIMBER!" The Story of the Good Old, Bad Old Days of Lumbering. When rip-roaring loggers used their fists as much as their axes and thundering logging towns were wilder than the wild old west. Read "TIMBER" in The American Weekly, the magazine distributed with this Sunday's (September 9) Chicago Herald-American. 1tp

Mrs. H. D. Ramsay and daughter Carmen, returned from Waterloo and will continue to live in Klemme for about a month. The Ramsays have purchased a house in Waterloo but will not be able to move in before about a month. Mr. Ramsay and Larry are living in Waterloo with a relative at the present. Mr. Ramsay began his new work Sept. 1st, and Larry began his school work Monday.

Lt. Lyle Wilcox and wife returned Monday from several days visit with his father and other relatives in Minneapolis. Lt. Wilcox concludes his thirty day leave and on Friday will leave for St. Louis, Mo., where he will entrain with a group of troops for Camp Claiborne, La., where he will be reassigned. Mrs. Wilcox and her parents will take Lt. Wilcox to St. Louis in their car, and will then continue on to Camp Claiborne, where Mrs. Wilcox will remain. Mr. and Mrs. Waterman will return home on the train.

g Limit Is Ten Ducks

ily bag limit on ducks has back to ten. In 1944, ten us five additional mall- geons or pintails or any on of these three ducks taken. Under present s this "bonus" is no long- d. One wood duck is al- the bag, and only one k in possession. Hunters e in possession after the two days' bag limit of owl, except coot.

wo Geese Allowed

ose limit for 1945 is the ast years'. The daily bag da a n d white-fronted two, on snow geese and se, four, which may be addition to the two Can- white-fronted geese. Bag coot is twenty-five with on limit of twenty-five.

ote Ducks Until Mar. 8

st-season period for the of migratory game birds wa law is ten days, but l law now has been ex- om forty-five to ninety is will allow duck hunt- wa to have possession of l March 8th under the atutes. This is, however, by state law except by rmit.

e Decoys May Be Used

duck or goose decoys may be used, and no baiting of waterfowl is permitted.

Under the statutes state authorities may not liberalize federal regulations, but are empowered to further curtail them. However, in the past, as this year, the State Conservation Commission has made recommendations to the Fish and Wildlife Service previous to the announcement of federal regulations and has accepted the federal regulations without any further reduction.

KINDERGARTEN

Kindergarten will start on next Monday, September 17. To enter, a pupil must be five years old by January 1, 1946. Miss Arlene Wille be in charge of an all-day session.

—A. L. Kingery, Supt.

HEAVY WINDS, RAIN, HAIL, DAMAGED CROPS SUNDAY

A severe wind storm, accompanied by a heavy rain, and in some sections by rain, caused damage to crops and some buildings in the community Sunday afternoon.

Hail damaged crops from a mile north of Klemme to within a mile of Garner. Heavy winds also slit corn leaves in most fields around Klemme.

The wind reached near cyclonic proportions northwest of Klemme about three miles when trees were uprooted at the Bob Marshall and Reuben Lemke farms. At the Bob Marshall farm, owned by John Kaduce the wind twisted the barn out of shape and it will need a lot of repairs.

In Klemme a large tree fell against the house in northeast part of Klemme, owned by Mrs. Lulu Lawhorn of Garner, and tenanted by the Eric Meyer family. The falling tree damaged the roof considerably and the side of the house.

A tree falling against Art Schoenwetter's house in the north part of town, damaged a back porch.

LIBERTY CHURCH TO OBSERVE 60TH ANNIVERSARY

The Liberty Methodist Church Sixtieth Anniversary Day services and historical program will be held on September 23, starting at 10:30 a. m.

There will be no services in Klemme on the above date. Bring basket dinner and join the fellowship at Liberty.

The church has been repaired and repainted for the occasion.

THE "LID IS OFF" ON ENLISTMENTS IN THE NAVY

The U. S. Navy Recruiting Station, Mason City, Iowa, announces that under a recent Executive order issued by President Truman, qualified men between the ages of 17 and 30 may again enlist directly into the Navy. Chief Burris, Recruiter in Charge of the Mason City Station states that since December 5, 1942, direct enlistments of men 18 to 30 years of age has been banned under the prior Executive Order just recently cancelled.

For the convenience of men in the vicinity of Klemme, the Mason City Recruiting Station maintains a regular travel schedule. Each Friday from 1:00 to 2:00 p. m. a Navy Recruiter will be at the Draft Board Office in Britt.

Navy Recruiting Stations all over the country are initiating an all out drive for voluntary enlistments, particularly in the Regular Navy, among men in the age group of 17 to 30, inclusive.

The term of enlistment in the Regular Navy is now reduced from six years to four years.

ON OUR WAY! - - - By Collier

Joan Leschensky And Ruben Grosshuesch Married

(Waukon, Iowa, Democrat)

Before an altar banked with white gladioli, feathery white flowers and seven-branched candelabra, Joan Leschensky, daughter of Mr and Mrs. E. A Leschensky, will become the bride this afternoon (Thursday) of Ruben Grosshuesch, son of Rev. and Mrs. Calvin Grosshuesch of Klemme. The ceremony is being read at 4:00 p. m. in Zion Reformed church here.

The same color scheme will be used in the chancel decorations and the family pews will be marked with clusters of white flowers tied with bows of satin ribbons. White candles will be lighted in the candelabra by Calvin Moe and William Leschensky preceding the ceremony which will be performed at four o'clock by Rev. F. E. Stucki, pastor of the church. Mrs. Althea Harrison will be organist and Mrs. J. F. Kepler will sing 'My Heart is Like a Singing Bird." The ushers will be John Leschensky and La Verne Hansmeier.

The bride will be unattended, and given in marriage by her father. She will wear a gown of ivory satin with long sleeves coming to points at the wrist and the skirt extending into a long train. Her finger-tip veil was worn by her mother at her marriage twenty-three years ago. An arm bouquet of white roses will complete her attire and her only ornament will be a necklace of pearls, a gift of the bridegroom.

Bridal Reception

A reception at the Leschensky home for 70 guests will follow the ceremony, during which Robert Engrav will furnish piano music. Baskets of garden flowers will be used throughout the rooms. Mrs. C. H. Megorden and Mrs. Wm. Leschensky will preside at the tea table.

Miss Leschensky completed the course of study in the Waukon high school and attended Cornell college, Mount Vernon, two and one-half years, transferring her work to Mission House College at Plymouth, Wis., last year, and will complete her senior year there next June. Mr. Grosshuesch will also complete his theological work in the Mission House seminary at that time. The past summer he has served as assistant pastor at Cleveland, Ohio.

The bridal pair will leave this afternoon for the lake region near Plymouth, Wis., where they will spend their honeymoon, after which they will establish a home in Plymouth.

Relatives and friends from a distance in attendance at the wedding will be Rev. and Mrs. Grosshuesch, daughter Gertrude, and sons Edward and Ewald of Klemme; Mr. and Mrs. Ed. Kuhlman, uncle and aunt of the bridegroom, and Aug. Ritterhaus, Menno, South Dakota; Elsie Barrett and Leila Huebsch of Mount Vernon; Lena Braatz and Paul Ohm, La Crosse, and Jane Hale, Oelwein.

NOW A CIVILIAN

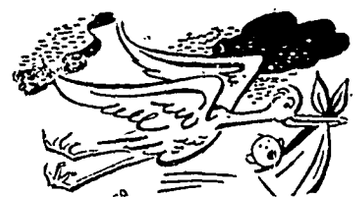
PVT. OTHO KERAUS

Pvt. Otho Keraus, son of Mr. and Mrs. Wm. C. Keraus of Klemme, entered the Armed Forces in April, 1944 and left for overseas in January of 1942, first being stationed in North Ireland, and later in England, from which place he went with the 34th Division to Africa, landing at Oran. Pvt. Keraus went all through the African campaign with an Anti-Tank Company. He then saw more hard fighting with the famed 34th Division in Italy for nearly 12 months. Near the end of the Italian campaign he transferred to the Air Corps and was with the 317th Fighter Squadron until the end of the war there. He came to the States on a thirty-day furlough last September, 1944, and has since been stationed at the Bomber Base at Sioux City in the payroll station. Keraus received an honorable discharge at Jefferson Barracks, Mo., on Sept. 6th, and is now at home for a visit with his parents here.

Work Circle Meets Thursday

The Work Circle of the Methodist Church will meet at the church parlors on Thursday afternoon, September 20th. Mrs. H. E. Harvey, and Mrs. Frank Schulz are hostesses. The ladies will sew on a quilt.

HELLO, FOLKS!



Mr. and Mrs. Orville Stokesbary are the parents of a 7 lbs. 14 oz. baby daughter born Sunday, September 9, 1945, at the Garner Nursing home. The young lady has been named Julie Ann.

NEUBERGER FAMILIES HAD PICNIC IN PARK SUNDAY

The Neuberger families of this community held a picnic dinner at the Klemme park Sunday in honor of Lester Neuberger, who recently returned from over seas and has been honorably discharged. Those present were Lester Neubrger and family; Mr. and Mrs. Clarence Lemke; Mr. and Mrs. Don Neuberger and family of Clear Lake; Mr. and Mrs. Melvin Neuberger, and children; Mrs. Lew Neuberger; Wert Loger; and Mr. and Mrs. Frank Schulz.

M. L. HARSON IS NEW ROCK ISLAND DEPOT AGENT HERE

M. L. Harson has taken over the duties of depot agent for the Rock Island lines here, taking the place of H. D. Ramsay, who went to Waterloo.

Mr. Harson was formerly at Estherville for 1 year, and the past 3 years has been at Waterloo. Mr. Ramsay took over the operator's position vacated by Mr Harson.

Mr. Harson, who is a son of Mr and Mrs. L. R. Harson, who formerly farmed east of Klemme, is married. His wife is staying with relatives at Rowan until they move to Klemme, about October 1st.

Farm Bureau Has New Sound Movie Projector Machine

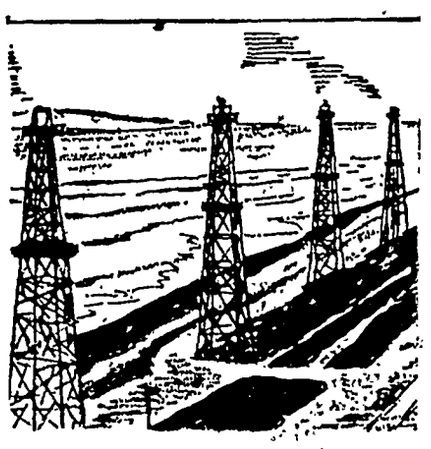
The Hancock County Farm Bureau's new sound movie projector will be used at the annual township Farm Bureau meetings during September and October according to Chas. F. Jackson, county organization director.

The colored film on "The Story of Phenothiazine," one on vegetable storage and a comedy will be used for the meetings. Two of the films are especially timely. The Phenothiazine film tells a real good story on parasite control in livestock. Attend your township meeting. See your movie projector in action.

HOT SCHOOL LUNCHES

Recently, economists of the U. S. Department of Agriculture asked farmers in different parts of the country what improvements they wanted in their schools. Among those listed was hot lunches served at school. This was favored by 4 out of every 5 farmers interviewed

Hancock County does have a number of schools that are serving hot lunches. Others plan to begin serving soon.



CALIFORNIA PROSPERITY

The 49's stirred up prosperity in California but they would be amazed to read the figures on industrial and agricultural gains of recent years. Between 1940 and 1944, total civilian employment gained 37 percent; income and savings shot up 138 percent; farm crops, 175 percent; mining and oil, 37 percent and manufacturing 157 percent. The increased earnings of men and firms build the Nation's resources to guarantee your War Bonds.

U. S. Treasury Department

THREE INJURED IN CAR WRECK

HEAD-ON COLLISION OF TWO CARS NEAR STROMER FARM FRIDAY EVE

Both Cars Completely Wrecked In Early Evening Crash North Of Klemme On No. 69

Three people were seriously injured and taken to a Belmond hospital early Friday evening after two cars crashed head-on just a few rods south of the Herman Stromer farm 1½ miles north of Klemme on highway 69. The accident occured at about 7:00 o'clock.

Cars involved in the accident was a Willis carrying license plate 41-3620 registered in the name of Katherine Nuehring, Forest City, Iowa, and driven by Luverne Nuehring, U. S. Navy, home on a furlough and son of Mr. and Mrs. Henry Nuehring of Belmond; and a Pontiac coupe, bearing license plate 77-767, registered in the name of R. E. McLain, 414 Insurance Exchange Building, Des Moines, and driven by Mr. McLain. With him was Mrs. George C. Whitmore, also of Des Moines.

The car driven by Nuehring was going north; the McLain car was going south when the accident occured. It is thought that Nuehring attempted to pass a car ahead of him, not seeing the McClain car approaching and Nuehring swerved toward the ditch on the left side of the road, but too late to avoid crashing into the McLain car.

The cars struck head on, completely demolishing the front end of each, but did not turn over.

A Klemme physcian was summoned by persons who gathered at the scene of the accident, and the accident victims were removed to the Belmond hospital for further attention. Nuehring was the most seriously injured and his condition was critical for a few days, however, reports are that he has now a good chance to recover. He suffered a fractured right jaw, concussion of the brain, a fractured right ankle and a number of less serious cuts and bruises.

Mr. McLain received a bad cut on his lip and chin which required 22 stitches to close, chest injuries, minor cuts and bruises.

Mrs. Whitmore received a bad bruise on her upper front teeth, a bad injury to her right shoulder, injured ankle, and several head cuts and a number of bruises.

The Des Moines people were removed to their homes Saturday.

Sheriff L. M. Brower of Garner investigated the accident. Both cars were towed into Klemme and tored at the Etchen garage.

NEW BANK TO OPEN AT CRYSTAL LAKE SOON

Charter Has Been Approved By State Banking Department

Hancock county will have a new bank with the opening soon of the Farmers Bank & Trust Co. at Crystal Lake. Stock of $30,00 has been subscribed and a charter has been approved by the state banking department.

Laurice Larsen, farmer and extensive landowner, is the president; Clifford Stewart, vice-president; and Rush Gabrielson, cashier. The board of directors includes Laurice Larsen, N. P. Scanlon, Clifford Stewart, Wayne Jones Peter S. Juhl, A. C. Taylor and Rush Gabrielson.

Crystal Lake has been served in recent years by a branch of the First State bank at Britt. Gabrielson, cashier of the new bank, was manager of the branch.

Edwin Josten Lost Eye In Farm Accident Wednesday

Edwin Josten, farmer residing 2 miles south of Klemme on Highway 69 lost an eye in a farm accident last Wednesday.

Mr. Josten was helping bale hay when a chain broke and struck him in his face, breaking his glasses and the broken glass in turn pierced his eye. He was taken to a Mason City hospital where it was found necessary to operate. He is reported to be making a good recovery at this time.

***Orange Honey Nut Cake.**
2 cups sifted cake flour
3½ teaspoons baking powder
¾ teaspoon salt
½ cup butter or shortening
½ cup sugar
⅔ cup honey
2 egg yolks
½ cup orange juice
2 egg whites, stiffly beaten
⅔ cup nuts, if desired

Sift flour once, measure, add baking powder and salt and sift together three times. Cream butter thoroughly, add sugar gradually, and cream together until light and fluffy. Add honey slowly and blend. Add egg yolks and beat thoroughly. Add flour, alternately with orange juice, a small amount at a time, beating after each addition until smooth. Fold in egg whites. Bake in two greased 9-inch layer cake pans in a moderate (350-degree) oven 30 to 35 minutes.

There are any number of cookies which will keep easily and travel well even if they travel far. Here are suggestions for those camp and overseas boxes:

Honey Chocolate Chip Cookies.
½ cup butter or substitute
½ cup honey
1 small egg
1 cup sifted flour
1 teaspoon baking powder
¼ teaspoon salt
½ teaspoon vanilla
½ cup semi-sweet chocolate chips
¼ cup nutmeats, chopped

Cream butter and honey until light and fluffy. Add egg and beat well. Sift flour, baking powder and salt twice. Add flour mixture to butter mixture; then add vanilla and blend all well. Fold in chocolate chips and nuts. Chill and drop by spoonfuls on a greased cookie sheet. Bake in a fairly hot (375-degree) oven for 12 minutes.

Honey Pecan Cookies.
½ cup butter or substitute
1 cup honey
1 egg
¼ cup sour milk
2 cups flour
½ teaspoon soda
½ teaspoon salt
¾ cup pecans
¾ cup each of raisins, candied cherries and dates

Cream butter and honey. Add the egg, sour milk, flour which has been sifted with soda and salt. Add the fruits and nuts. Drop on greased tins and bake at 350 degrees for 15 minutes.

Spicy and sweet are these fruit spice bar cookies. They are easy to pack and they mellow with age:

Fruit Spice Bars.
1 cup sifted flour
¼ teaspoon soda
½ teaspoon salt
½ teaspoon ginger
¼ cup shortening
¼ cup brown sugar
½ cup molasses
2 eggs, beaten
¼ teaspoon vanilla
1 cup raisins
¼ cup nuts

Sift together flour, soda, salt and ginger. Cream together shortening and sugar until light and fluffy. Add molasses and blend well. Add eggs and vanilla extract. Mix well. Add flour mixture gradually to creamed mixture, blending well. Fold in raisins and nuts. Spread batter into a greased pan 7x11 inches. Bake in a moderate (350-degree) oven. Cut in bars.

Veterans' SERVICE BUREAU

EDITOR'S NOTE: This newspaper, through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.

Employment of Handicapped

Both as an inducement for industry to hire handicapped veterans and a protection to both industry and the veteran, 28 state legislatures have now enacted second-injury-fund statutes which, in general, require employers to pay workmen's compensation only for specific second injuries.

The fund pays the additional costs of permanent total disability resulting from the loss of a hand, arm, foot, leg or eye, following a previous loss of one of these members or organs. The fund is usually financed by payments of fixed amounts by an employer or his insurance company in the case of death of an employee having no dependents. Freed from the fear of heavy permanent total disability charges in these cases, employers are much more willing to employ handicapped workers.

According to records submitted by the department of labor, the cost of maintaining second injury funds is small, for recent studies show handicapped workers are actually more careful than normal employees and have a lower accident frequency.

Employers had been reluctant to hire these handicapped veterans lest they suffer second injuries, become permanently and totally disabled and cost employers increased workmen's compensation charges.

States which have established these second injury funds include Arkansas, Idaho, Illinois, Maine, Massachusetts, Michigan, Minnesota, Missouri, New Jersey, New York, North Carolina, Oklahoma, Rhode Island, South Carolina, Utah, Arizona, Colorado, Iowa, Kansas, Maryland, Oregon, Tennessee, Washington and Wyoming. Wisconsin, North Dakota, Ohio and West Virginia have equivalent arrangements while California, Connecticut and Pennsylvania have such legislation pending.

Questions and Answers

Q.—Can the mother of an illegitimate child file an application for family allowance, if a soldier is the father?

A.—Yes, the mother may file application for the child, but she must either have a court order declaring the soldier to be the child's father, or she must have a statement from the soldier admitting parenthood. She must also have a certified copy of the child's birth record. The mother herself is not entitled to family allowance.

Q.—Can a dishonorable discharge be changed to an honorable one?

A.—A former officer or enlisted man or woman may request a rehearing or a review of his case before a five-member board in the war and navy departments. The discharge may be corrected in accordance with the facts. However, these boards may not change the sentence of a court martial.

Q.—Is there an artificial hand available that looks like a hand, and different from the ordinary "hooks" which are most common?

A.—Yes, the navy has developed an artificial hand, made of plastic, that looks like a hand and eliminates the necessity of wearing gloves. It has the consistency of pure rubber and is tinted to match the individual skin. It is operated by a one-pound cam mechanism hidden inside the hand, spring controlled and made of duralumin and permits natural movement of the fingers. Mechanism is operated by a tiny cord running up the arm and around the shoulders, controlled by action of the shoulder muscles.

Q.—I was in the regular army before the war and was discharged due to injury in December, 1940. I have since been working in a war plant and I have a pretty good business opportunity. Do I come under the G.I. Bill of Rights or have I waited too long after my discharge to apply for benefits?

A.—As long as some of your service was after September 16, 1940, you are eligible for G.I. benefits. Assuming you had other than a dishonorable discharge, you may still apply for benefits, since the law requires they must be claimed and secured within two years after discharge, or the end of the war, whichever is later.

Q.—When a soldier's wife receives maternity care under the EMIC government plan, must the application be filed with the Soldier's Relief for payment from the war department?

A.—No, the application should be filed with the state health department, through the personal physician or the hospital.

Q.—May a young man marry while he is a cadet in the U. S. Coast Guard Academy?

A.—The navy department says that cadets are not permitted to marry until they have graduated from the coast guard academy.

THE BATTLE OF THE TINKERS

"Galway, Eire.—The annual finals in the battles for the championship of the Tinkers will be held tonight. The Tinkers are caravans of gypsies. They precede the main bouts by competitions in drinking poteen and boasting, after which the bare-fist fights begin."—News Item.

—*—

The tournament began shortly after 9 p. m. Padriac O'Feeney, a top Tinker, began the boasting. "I kin lick any bucko in the glen with me arms in a sling and me feet in a cast," he declared, baring his chest. "I was niver in bitter shape since the night I kilt the four bullocks with slaps from the palm of me left hand. Bring on me opponint!"

"Why the foul-mouthed . . . !!!" roared Finley Mulligoweneagh, 6 foot 5, and built like the Irish gods of old. "A sissy he is! 'Twas medium-sized bullocks he kilt an' it took him five minutes. I could of finished all four with the thumb o' wan hand. Let me at him!"

"I could bate the likes of ye fresh off a sickbed and without a drink in me system," barked O'Feeney. "Did ye iver hear o' the time I took on the sivin mad stevvidores of . . ."

—*—

The bell rang for the first round, after two hours of this, and Terry Moolihahn, the referee, called, "come out for your instruckshins!"

"Put a more respictful tone to your words," snapped O'Feeney, glaring at him.

"Now I want ye both to come out fightin'," began the referee.

"The likes of ye tellin' me what you want!" roared Mulligoweneagh, flooring him with one punch.

—*—

Numerous referees being always carried as "spares" at the Tinker fights, Garry Finnerty took his place.

"Now in case of a knockout," began Finnerty.

"In case!" bellowed O'Feeney, giving him the butt. "In case of a knockout? Hear the mon!"

ROUND I.

Whereupon the two principals tore out of their corners. They had a little trouble finding each other.

Finally they met accidentally and fell into a clinch. The referee tried to part them but found he was separating two spectators by mistake.

ROUND II.

O'Feeney fell on his face three times as he came from his corner. His opponent, falling but twice, was the sharper as they got to their feet. Both swung haymakers at the same time and landed on the referee, who was saved by the bell.

ROUND III.

O'Feeney's eye had been cut. His seconds had leaped in to put a patch on it, but they put the patch on an innocent bystander in their general uncertainty. The bell for the round failed to sound as the official timekeeper had become engaged in a brawl of his own. There were 30 or 40 other fights in progress all over the glen now. The spectators began to yell for action.

—*—

Here the spectators became disorderly.

Cries of "they're stallin'" and "Throw the sissies out" rang through the fields.

—*—

The fight was then stopped as a **FAKE.**

But it took 27 referees to stop it.

* * *

MORE ABOUT HORSE SHEDS

Our recollection of old-time horse sheds at Mansfield Grove, hard by the East Haven river, before the days of trolley cars is shared by Bob Stevenson.

"We remember those sheds. We used to hold the annual great family picnic there, with the uncles and the aunts and the cousins and the great-aunts, and the grandmothers and the grandfathers and heaven only knows how many kids of all sizes and degrees of inevitable addiction to falling off the rocks into the sea, getting lost in the far meadow reaches, or adventuring in some boat to look for pirate treasure or distant Thimble islands," writes Bob.

"The New Haven members of the clan would roll out in the grandeur of the finest that they could hire at Kirk's livery, with fringed surreys, red-striped yellow wheels, shining black - enameled dashboards and ribbon-tied whips in flare sockets.

"Aunt Eliza made the clam chowder in an iron pot braced on stones over a driftwood fire, enough for the entire picnic. The rest of the food came in large, heavily laden baskets, traveling under carriage seats. But any further recollections of what we had to eat at those long grove tables would only make us sadder in these days of rationing."

* * *

Elmer Twitchell suggests that we let Japan keep the emperor and one end of the horse. Or maybe we should take him off that horse and put him on a mouse.

* * *

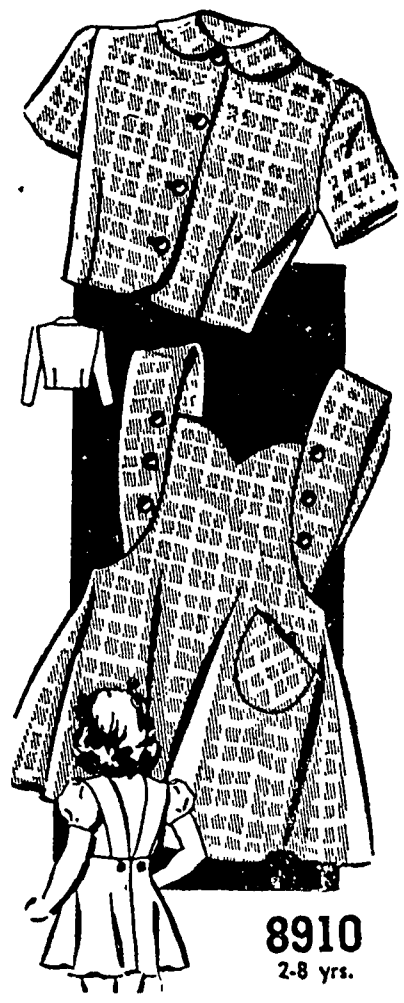
NO DOUBT OF IT.

If Hirohito is a god,
Then when he passes out
He'll meet two other fellow gods,
Adolf and Ben, no doubt.

If Hirohito is a god
Then "Hit and Muss" of course,
Will be included in the act
Called "Three Men on a Horse."

SEWING CIRCLE PATTERNS

Tot's Jumper and Matching Jacket



JUST the thing for a growing youngster—an adorable little jumper and jacket to match. Your young daughter will love the full cut skirt and gay button trim.

Pattern No. 8910 comes in sizes 2, 3, 4, 5, 6 and 8 years. Size 3, jumper, requires 1⅛ yards of 35 or 39 inch material; jacket, 1¼ yards.

Due to an unusually large demand and the current conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

Send your order to:

Household Hints

Black locust, red cedar, white oak and butternut make the best fence posts as they are durable. If softwoods, such as maple, basswood, poplar, beech or birch, are used, it is best to creosote them.

—•—

In making coffee, tea or chocolate to be served iced, double the strength—to allow for the ice used in cooling the beverage.

—•—

When saving buttons from an old garment, put matching ones on a safety pin to keep them together. It will save time later.

—•—

Keep all furniture about an inch away from the wall, then you are certain you will not rub the wallpaper and make a mark or grease spots by an overdose of furniture polish on the back of a table or chair.

—•—

Poached eggs are much tastier if fixed in hot milk instead of water.

When Angry Llama Spits It Blisters Skin of Human

The llama, common beast of burden in the South American Andes, is an odd creature. It looks something like a camel, but it has wool like a sheep, feet like some huge bird of prey, and a mouth like a rabbit. The llama combines the neigh of a horse with the stubbornness of a mule. When mad it will spit saliva whose acid causes human skin to blister upon contact.

The llama is allied to the camel but is smaller, standing about three feet at the shoulder and is without a hump. It varies in color from black to white.

Acid Indigestion
Relieved in 5 minutes or double money back
When excess stomach acid causes painful, suffocating gas, sour stomach and heartburn, doctors usually prescribe the fastest-acting medicines known for symptomatic relief—medicines like those in Bell-ans Tablets. No laxative. Bell-ans brings comfort in a jiffy or double your money back on return of bottle to us. 25c at all druggists.

A Dab a Day keeps P.O.* away!

Ease Wash Job

Scientists who have studied the washday job suggest "wheeling" loads of clothes rather than lifting and carrying them in the laundry and to the line. A bench or box fitted with casters will hold the basket, hamper or tub in the laundry or near the wash place if work is done outdoors. Other suggestions are that one stand erect at work, sort clothes on a table instead of the floor and place blocks of wood under legs of washing machine or wash bench to bring it to the most comfortable height. This will save one-third of the energy required to put them on the line. A bag for clothes pins, with a draw cord so as to hang in the most convenient place or to be sewed onto a clothes hanger and slipped along the line saves steps. A clothes line should be about 6 feet high for the average woman and should be tight, to save "stretch" in hanging out clothes.

Valuable Vegetable

Spinach may not be the wonderful food that makes Popeye do the feats of strength shown in the cartoons, but it is a valuable item in our vegetable diet, nevertheless. That it is a popular vegetable with Americans is shown by the fact that its consumption has increased about five times in the last 20 years. Moreover, it is one of the best and most easily grown of our common greens. As a commercial crop spinach has many advantages. It is hardy and may be grown somewhere in the United States during all 12 months of the year. It lends itself to iced shipping very easily, and when frozen is so good that the sales of frozen spinach in many places are larger than those of fresh spinach. It may also be canned, but canned spinach is generally thought to be quite inferior to either the fresh or the frozen product.

Wash Machine Care

Don't think you are giving your washing machine all the care it needs just by keeping the machinery properly oiled and greased. Correct lubrication is essential for satisfactory operation, but complete cleanliness is equally important.

Your washing machine should be cleaned thoroughly after each use. Pour in about a pail of clean hot water and let the machine run a couple of minutes. Drain, and wipe dry the inside of the tub and the metal parts.

Always loosen the wringer and wipe the rollers dry. Wipe the entire outside of the machne with a sudsy cloth and then go over it with a dry cloth. When not in use, the washing machine should be protected from dust and dirt with a cloth or cover.

Second Highest Capital Sits Up in Mountains

The second highest capital in the world—next to La Paz, Bolivia—Quito, metropolis of Ecuador, sits in the heart of the Andes, almost two miles above sea level. Believed by many to be, from an artistic point of view, the most important city of the New World, Quito is one of the oldest seats of civilization in the Western hemisphere. Its history goes back not only to four centuries of Spanish influence but further to the time when it was the capital of the Inca empire and, before that, a settlement of the Caras Indians. Quito's geographical situation is greatly responsible for the fact that the city is today an artistic shrine. While the vicinity of Pichincha volcano—at the foot of which the famous battle for the independence of Ecuador was won by Sucre—has caused tremors and earthquakes which occasionally rocked the city and cracked buildings, causing extensive damage, the mountains have, on the other hand, proved to be for Quito a protective barrier from the world. Thus it has retained more of the characteristics of the Spanish colonial period than perhaps any other South American city. Only in 1908 was its modern development hastened by the arrival of the railroad. For centuries before, the capital of Ecuador had practically lived a life of its own, remote, isolated, aloof in the heart of its mountains, guarding its treasures from the passing world.

Egg Protein Efficient For Building Body

Every sealed, sanitary egg contains a yolk and a white filled with nourishing foodstuffs. The protein of both the yolk and the white are efficient for building and mending body tissues.

Twelve of the 13 minerals needed by the human body are found in the edible portion of the egg, largely in the yolk. The iron content of the yolk is high in comparison with other foods and the fact that this iron is associated with copper in both the white and yolk, makes the iron most available for blood formation, reminds Miss Hazel Bratley, extension nutritionist.

Eggs are important sources of most of the essential vitamins. And as with the minerals the yolk is the richer in health-giving vitamins. These vitamins include riboflavin, which is essential for health and vigor; thiamin, also called B1, which steadies nerves; niacin, which helps in preventing and curing pellagra; vitamin K, an antihemorrhagic factor; vitamin A for healthy body tissue and vitamin D for promoting the best use of calcium and phosphorus. Truly an egg is a bargain in food value at almost any price.

Powerful New Sunlamp Tans Skin Rapidly

Capable of converting any room into a "beach at home," an electric lamp being manufactured is so rich in ultraviolet energy that it suntans human skin three times faster than Old Sol in midsummer.

Only five minutes exposure is required to mildly redden the untanned skin of a person of average complexion who basks 24 inches from the lamp. To get the equivalent coloring, one would have to sit under a July sun at the Jersey seashore for 15 minutes.

Because its base is the same type and size as bases for regular household incandescent bulbs, the sunlamp can be screwed into any regular light socket operating on standard alternating current electricity. But for convenience in aiming and in handling, a simple adjustable portable holder for the lamp is recommended.

Safety Record

Although railroads are handling a greater amount of high explosives on account of the war than ever before, not a single railroad employee lost his life in 1944 as a result of accidents in connection with the transportation of explosives. Seven accidents due to the transportation of explosives took place in 1944. These resulted in only one person being injured and a total property loss of $75,440. One accident took place in connection with the transportation of fire works, while six accidents resulted from the transportation of military explosives. In the past 11 years, there has been only one fatality resulting from accidents in connection with the transportation of explosives and that one took place in 1939.

Dangerous Cargo

In connection with the transportation of great quantities of dangerous articles, other than explosives, handled by the railroads in 1944, two persons were killed and 40 injured. Those two fatalities resulted from accidents in connection with the handling of gasoline. Accidents in connection with the movement of various dangerous articles other than explosives totaled 990 in 1944. Of this number, gasoline accounted for 178, electrical storage batteries, 170; crude oil, 138; sulphuric acid, 72; nitric acid, 46, and naphtha, 30. Property damage in connection with fires and explosions resulting from such accidents totaled $568,283 compared with $1,128,150 in 1943, when there were 966 accidents and six fatalities.

Safe in Feed

Well over 700,000 tons (14,000,000 bags) of commercially mixed feed containing urea as an ingredient were fed to ruminants in the United States during the past year with satisfactory results, according to a statement compiled by a special committee selected to review technical and practical backgrounds of urea feeding. Extensive studies at leading agricultural colleges and experiment stations in the United States demonstrate without exception that urea, in scientifically safe amounts, is properly assimilated, the committee said. It can efficiently replace a limited portion of the normal protein in the diet of such ruminants as dairy cows, growing heifers, steers and range cattle.

Sandpapering Shine

When clothes shine results from wear, sandpaper's abrasive action may raise a garment's nap again. However, the remedial effect will be only temporary and the fabric will be permanently weakened. Light scorch effects may be removed by sandpaper, whereas deeper ones will be impossible to remove. And an undesirable weakening of the fabric which may develop into a hole simply cannot be avoided where sandpaper has been used. Removal of heavy-scorch is generally not attempted even by professional cleaners. They can, however, often successfully treat the shine caused by faulty pressing at home. Often, too, light scorches can be removed by means of an oxidizing agent.

HANCOCK COUNTY REAL ESTATE TRANSFERS

A. O. Sonerholm and Thilda Sonerholm to Calvery Evangelical Lutheran Church, Crystal Lake. W. D., 8-7-45, $200.00. Lots 12 and 13 in block 10, in the Village of Crystal Lake, according to the recorded plat.

BOARD PROCEEDINGS

TENTH ADJOURNED JUNE MEETING

Garner, Iowa,
August 30, 1945

The Hancock County, Iowa, Board of Supervisors met in session on above date with F J Schoun, Penn Eckels, and John Chambers, present.

The minutes of the last meeting were read and approved as read.

Supervisor Chambers is appointed a committee to investigate and cause repairs to be made in D. D No. 67, D. D. No. 57 and D D. No 26.

Supervisor Schoun is appointed a committee to investigate and cause repairs to be made in D D. No. 5 main

On motion and second the report of Charles F Merten, Engineer on cleanout of D D. No. 7, petitioned for by V P Casperson et al. is approved Said cleanout to proceed only on the construction of the engineer insofar as same is practicable.

On motion and second the report of William Henschen, Engineer, on cleanout of a part of lateral No. 2 B of drainage district No. 10, petitioned for by Wesley Kehl, is approved. Said report recommends this cleanout be made by blasting with dynamite

The Board of Supervisors of Hancock County, Iowa, acting for and in behalf of D. D No 139 Hancock County, Iowa, met pursuant to previous resolution and published notice for hearing on the report of the commissioners heretofore appointed to assess benefits to the lands, tracts, and highways in said district, and it appearing

(A) That the report of said commissioners is on file within the time fixed by the resolution of their appointment.

(B) That said notice has been published as by law directed in the Klemme Times, and the Proof of Publication thereof is on file.

(C) Written and oral objections were heard and discussed and all objectors agreed to final action of this board thereon

(D) That several minor errors in the published notice and the commissioners report are corrected and do not materially affect or alter the respective assessments,

E) That the Board is fully advised and consideration of the classification report was taken up as scheduled

BE AND IT IS HEREBY RESOLVED that the report of the commissioners classifying said lands be and the same is in all respects approved, ratified and confirmed and the assessments as made in said report is found to be just and equitable and is affirmed against said lands, tracts, highways as therein made.

BE IT FURTHER RESOLVED that the Auditor be and he is hereby directed to levy the respective assessments as set forth in the classification and report of the commissioners and the published notice as by law directed and any person shall have the right to pay his assessment in full within 20 days after said levy has been extended and be it further resolved that any levy in excess of 20 00 made against any tract the owner of such tract of land shall have the right to pay same in any of the options provided by Section 7484, Code of Iowa, 1939, and laws amendatory thereto upon such owner executing waiver provided in such section.

The foregoing resolution was offered and read by Supervisor John Chambers who moved its adoption, was seconded by Supervisor F J Schoun, whereupon the Chairman placed the motion of its adoption and upon roll call the vote thereon is F J Schoun, Penn Eckels and John Chambers, aye. Nays, none.

Whereupon the Chairman declared the resolution duly adopted.

On motion and second the Board adjourned to September 4, A. D., 1945 at 9 o'clock A. M.

ATTEST
Fred C. Missal, County Auditor.
Penn Eckels, Chairman.

COURT GIVES DIVORCE TO COUPLE AT GARNER

District Judge Tom Boynton of Forest City granted a divorce in district court to Avery Bier from his wife, Eva Bergstrom Bier. The couple was married at Omaha, Nebraska, April 5, 1944, and have no children. The plaintiff charged cruel and inhuman treatment. No alimony is to be paid by either party.

6,877 IOWANS LOST LIVES IN WORLD WAR II

According to a report by Mrs. Bessie Wilson, director of the Iowa War Records, 6,877 Iowans have been listed as "killed in action" in World War II. There were 112 war fatalities listed in the state during the month of August.

Seventy-five Iowa families have lost two or more sons during this war. There records also showed that there were 90 fewer deaths last month than in July and 209 fewer than in June.

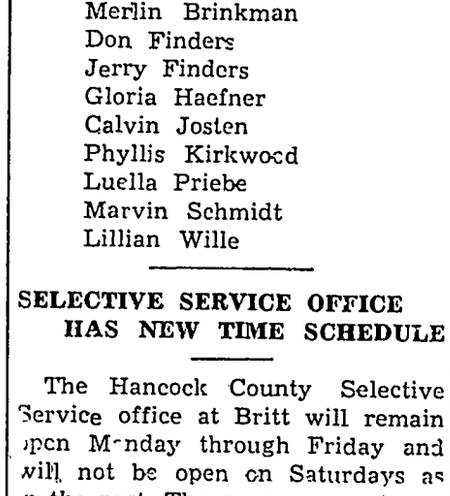
Behind Your Bonds
Lies the Might of America



FOOD FOR ALL

Besides Iowa's great waving fields of corn, its fields of other grains will feed millions, provide jobs for thousands and add to the Nation's wealth to guarantee War Bonds. Almost 10 million acres are at work. Annually the harvest amounts to 596 million bushels, worth $471,469,000. Iowa grows 201 million bushels of oats, 38 million bushels of soybeans and 55 million pounds of popcorn. Onions, asparagus and melons sprout and ripen there to help feed the world and win the war.

WEEKLY NEWS ANALYSIS

U.S. Moves to Take Over Japan; See Early End to Rationing As Reconversion Pace Quickens

Released by Western Newspaper Union.

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

JAPAN:
Work Out Occupation

Its huge guns belching smoke and fire and bombarding the Nipponese coastline just a few weeks ago, the huge 45,000 ton U. S. battleship Missouri was to become the peace ship of World War II, with the Japanese formally signing surrender papers aboard the vessel in Tokyo bay.

Taking place several days after U. S. airborne troops were to descend on the Atsugi airdrome southwest of Tokyo to spearhead the Japanese occupation along with marines landing simultaneously at the Yokasuka naval base 20 miles below the Nipponese capital, the formal surrender ceremony was to see General MacArthur signing for the Allies as a whole, with Admiral Nimitz countersigning for the U. S. and Admiral Fraser for the British.

In working out the initial occupation plans, General MacArthur and his staff left no stone unturned to assure the safe conduct of the U. S. forces. At the same time, the new Nipponese government headed by Prince Higashi - Kuni strove to prepare the population to accept the American landings peaceably and refrain from riotous outbreaks, imperiling the whole surrender.

Under General MacArthur's plans, the Japanese were ordered to ground all planes and disarm all ships at sea several days before the first U. S. landings. Then, while sprawling Allied fleets moved in close to Nipponese shores, the Japanese were to immobilize all vessels in Tokyo bay and strip coastal guns and anti-aircraft batteries.

As a final precaution, the Japanese were ordered to evacuate all armed forces out of the immediate landing area, to forestall possible attack by fanatical troops. Guides and interpreters were to be furnished to facilitate General MacArthur's control of the occupation territory.

Jap Casualties

In the first full admission of the intensity of Allied air attacks, the Japanese news agency Domei reported that 44 of the nation's 200 or more cities were almost completely wiped out by bombings, with a toll of 260,000 killed, 412,000 wounded and 9,200,000 left homeless.

Of the total, the atomic bombs dropped on Hiroshima and Nagasaki accounted for 90,000 killed and 180,000 wounded, Domei said. Declaring the toll may be even greater, the Japs revealed that many of the burned are not expected to survive because of the nature of the wounds, while persons only slightly touched by the fires later weaken and often die.

Reporting that 2,210,000 homes were completely demolished or burnt down, and 90,000 partly damaged, Domei said that in addition to the 44 cities almost completely wiped out, 37 others, including Tokyo, suffered loss of over 30 per cent of their built-up area. Of 47 provinces, only 9 escaped with relatively minor damage, Domei revealed.

CHINA:
Key Position

Relieved from Japanese encroachment, and pivotal point of the Orient, China has assumed a renewed importance in the far east, with Chiang Kai - shek and his Premier T. V. Soong playing their cards well in the complicated game of international politics.

Chiang and T. V. Soong

Backed by the U. S., Chiang's government holds the upper hand in the vast, sprawling nation with its 400,000,000 people, with its position greatly strengthened in dealings with the Chinese communists, Russia and even Britain.

Though the Reds have openly defied Chiang, U. S. financial and material support of his regime, plus efforts of Ambassador Hurley to bring the two dissident factions together, have enhanced his standing. In his dealings with Russia, U. S. and British pressure has resulted in recognition of China's sovereignty over Inner Mongolia and Manchuria, though the Reds have obtained a 50 per cent interest in vital railways in the latter province, secured Port Arthur as a naval base and been allowed use of the ice-free port of Dairen.

By marching his armies into the crown colony of Hong Kong, which the British wish to retrieve, Chiang even struck up a bargaining position with London.

RECONVERSION:
Pace Quickens

Breathless trying to keep up with relaxation of unending wartime controls, the nation contemplated early removal of meat, tire and shoe rationing, even as the government removed restrictions on industry to permit full-steam ahead on reconversion.

Following a previous announcement that the government had abolished packer set-asides on beef, veal and ham supplies for the army and other federal agencies, an early end of rationing was expected with OPA's revelation that it would reduce meat point values in view of military cutbacks in orders and a prospective heavy fall run of cattle.

With the announcement that tire production would be doubled to 4,000,000 monthly during October,

With industry given the go-ahead signal for civilian production, manufacturers strove for speedy output for the pent-up postwar market. Here, body is being slung on chassis of one of the first cars to roll off of postwar production line.

November and December, unofficial predictions that rationing of cords would be terminated within 90 days were strengthened.

Forecasts that shoe rationing also may be ended shortly were supported by an announcement of the Tanners Council of America that production of civilian footwear may exceed 30,000,000 pair a month for the rest of the year, the highest level ever reached by the industry.

By lopping off most controls and only retaining authority to assure military and other emergency production, and break bottlenecks in scarce materials for civilian output, the government gave manufacturers the go-ahead signal on such a wide variety of items as refrigerators, radios, distilled spirits, trucks, oil furnaces, construction machinery, metal furniture, motorcycles, photographic films, storage batteries, waxed paper, sanitary napkins, machine tools, shipping containers, pulpwood and commercial chemicals.

Removal of all lumber controls except those necessary to fill priority orders assured a speedy resumption of both industrial and home building construction.

U. S. CREDIT:
Supplants Lend-Lease

Following termination of the 41-billion-dollar lend-lease program, Foreign Economic Administrator Leo Crowley revealed that the U. S. was prepared to advance six billion dollars in credits to other nations for procurement of material in this country to bolster sagging postwar economies.

At the same time, Crowley said that negotiations might begin within the next year for settlement of lend-lease accounts, which find U. S. contributions of 41 billions offset by only 5½ billions in mutual assistance.

Under plans outlined by the FEA chieftain, the U. S. would furnish 3½ billion dollars in long-term credit to nations wishing to purchase goods already contracted for to fill cancelled lend-lease orders. An additional 2 billion 800 million dollars would be advanced for procuring industrial and other goods.

Marines Tell Pacific's No. 1 Fish Story

Fish stories are generally tall stories, but two marines who landed on Iheya island in the Ryukyus recently have an unusual fish story to tell—and it's true!

Shortly after the unopposed landing on this mile-long island, dwindling food supplies prompted marine officials to permit the island's fishermen to make a fishing jaunt inside the reef which parallels the shoreline, Staff Sgt. Bob Hilburn reports.

Once fairly out in the water, the group divided into two parties. Each pair of craft rigged up a net between them and then the swimmers, stripped to loin cloths, went over the sides.

Then—and this is the fish story part—the swimmers, by their antics actually drove the fish into the nets.

Chieftains Meet

Here to discuss increased financial assistance for rehabilitating France, internationalization of the Rhineland and re-establishment of his country as a world power, Gen. Charles de Gaulle (left) arrived in Washington, D. C., to be greeted by President Truman.

QUISLING:
On Spot

Fighting back savagely, big, bulky Vidkun Quisling was hard pressed in defense of his collaboration with the Germans in Norway as the state presented an avalanche of evidence purporting to show that he had co-operated closely with the Nazis in their heavy-handed occupation of the country.

Quisling was first taken back by state presentation of reportedly captured German documents stating that the Nazis had used information supplied by him in their invasion of Norway. The collaborationist also was shaken by charges that he had turned over to the Germans a communist leader blocking his political program and also denied a reprieve to an official sentenced to death for refusal to force Norwegian girls to work for the Nazis.

Throughout the trial, Quisling defiantly asserted that he had played with Naziism in an effort to prevent British establishment of bases in Norway in 1940 and possible invasion of the Scandinavian peninsula by Russia from the north and Germany from the south to thwart the move. He also claimed to have worked fervently from 1918 for the creation of a German, British and Scandinavian bloc to arrest the development of Communism in Europe.

PACIFIC:
Ask Bases

Taking a realistic view of the Pacific situation, in which the U. S. looms as the greatest power, the house naval affairs committee demanded that this country be given control over both Allied and former Japanese bases for the construction of a powerful defensive system capable of resisting attack from any direction.

Issued by Chairman Vinson (Dem., Ga.) the congressional proposal urged U. S. domination of the whole Pacific area stretching from the Hawaiians westward to the Philippines and Ryukus, and including the Marshall, Caroline and Marianas islands. In addition, the house committee said, the U. S. should take over American developed bases in the Manus islands in the Australian Admiralties; Guadalcanal in the British Solomons; Espiritu Santo in the British-French New Hebrides and Noumea in French New Caledonia.

Justifying American control over Pacific bases, the house committee cited "the loss of American lives in taking these bases. The expenditure of vast sums of American money in establishing and equipping these bases. The great dependence of the world upon the United States for maintaining peace in the Pacific and world. . . ."

SALARIES:
Bar Lifted

With President Harry S. Truman having set the pattern for removal of controls over wages and salaries under jurisdiction of the War Labor board, the treasury announced relaxation of restrictions on salaries of administrative, executive and professional personnel under its wartime supervision.

In both cases, employers will be able to grant raises to workers provided they do not use the increase as a basis for requesting higher ceiling prices. In instances where price changes are involved, government agencies will retain authority over proposed raises.

At the same time, the WLB is empowered to grant wage increases where substandard rates are in effect to bring them more evenly in line with living costs.

SKIN TREATMENT:

Establishment of eight centers specializing in the treatment of tropical skin disease was announced by Maj. Gen. Norman T. Kirk, surgeon general of the army.

At the same time the army said that there is no basis for fear of tropical skin infections spreading in this country because practically none of these diseases are contagious and no patient with a transmissible skin disease would be allowed out of an army hospital until he was noninfectious.

The Washington MERRY-GO-ROUND

DREW PEARSON

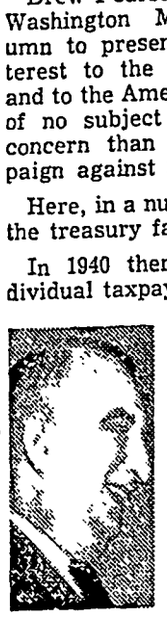
TREASURY'S COMPLEX TAX PROBLEMS

(Ed. Note—In Drew Pearson's absence, Fred M. Vinson, secretary of the treasury, contributes a guest column on one of the most important problems of the treasury—tax evasion.)

Drew Pearson has offered me his Washington Merry-Go-Round column to present any subject of interest to the treasury department and to the American people. I know of no subject of more immediate concern than the treasury's campaign against tax evasion.

Here, in a nutshell, is the situation the treasury faces:

In 1940 there were 4,999,999 individual taxpayers. Today there are more than 50,000,000. In an effort to handle the vastly increased task of processing returns and collecting taxes the personnel of the bureau of internal revenue was increased from about 22,000 to about 50,000.



Fred Vinson

With the manpower shortage the bureau could not expect to increase its forces proportionately with the number of taxpayers. And in many respects bureau employees found their work increased out of proportion to the number of returns. Under the withholding program, a large part of the work formerly done by the taxpayer is now done in the bureau. The processing of wartime tax relief provisions also threw much additional work upon the bureau. Under these conditions the normal investigative work of the bureau inevitably suffered.

The bureau has always proceeded upon the theory that the average American is honest, and that a small but efficient force could deal with the dishonest.

But millions of us are now taxpayers and the honest must be protected against those among us who, tempted by war-swollen incomes and shortages in civilian goods and services, would cheat the rest of us. No city, however small, can afford to be without a police force. And no city, which has experienced a population increase of more than tenfold in a five-year period, would think of trying to get along without enlarging its law enforcement groups.

That is why the treasury is building up its investigative forces. Our object is to recruit and train 5,000 men.

This will be no Gestapo. It will be a taxpayers' law enforcement group protecting the government's interest in taxes, and at the same time protecting the honest taxpayer against the black market operator, the racketeer and every other kind of tax evader. And it will be good business, too. We expect to collect $20 for every one spent.

When taxes are evaded the honest taxpayer loses, since every dollar evaded increases by that much the burden borne by other taxpayers. In many cases, the honest taxpayer has especial reason to welcome the tax-evasion campaign. A reputable furrier or jeweler, for instance, could not continue in business if a next-door competitor should be permitted to sell furs or jewelry without collecting excise taxes. Any business firm which cheats the government by failing to pay for the services which government provides is engaged in dishonest competition, just as much as if it cheated the landlord out of his rent or workers out of their pay. Taxes are high, but they must be collected fairly. And so long as any substantial portion of the taxes due remains uncollected, it operates to defer the reduction of tax rates.

Much more than expedience directs this tax-evasion campaign. Fundamental morality is involved. The man who evades taxes picks his neighbor's pocket. And in these times, when we are asking so much from the men in uniform, any pocket picking at their expense becomes unthinkable. As President Truman has said:

"We are not fighting this war to make millionaires, and certainly we are not going to allow the black-market operators or any other racketeers to be in a favored class, when the men in the armed forces, and our citizens generally, are sacrificing so heavily."

My readers may say, "All right. Tax evasion is indefensible. How bad is it? What are you doing about it?"

The answers to the two questions go together. The treasury is gathering, from many sources, information that will give the entire picture of tax evasion. That same information will serve as evidence to bring tax evaders to justice. The treasury is enlarging its investigating forces, as I have noted, to handle a tremendous backlog of fraud cases, accumulated during recent years and the cases now piling in.

Walter Winchell

(WNU Service)

While Walter Winchell is away, this month, his column will be conducted by guest columnists.

By BABE RUTH

(As Told to Ben Epstein, Sports Writer.)

I'm for the Kids!

The government, national and municipal, is throwing the kids of America a curve!

Don't get me wrong. The old Babe hasn't fallen for one of those phony isms. I like my United States the way they started it. The guys who wrote the Constitution were no bushers. They won a pennant their first time out and this country has been in first place ever since. That's class, no morning glory record. The kind that knocked off the Nazis with their hidden ball tricks and likewise sky-hiked the Japs to their ancestors.

With Eisenhower, Halsey and MacArthur hitting in the clean-up spots, the World Series is a cinch. That's why you and I are proud of our 48 States setup. Three hundred plus hitters from top to bottom supported by a double play combo, sound catching and fast outfield that knows how to handle sneak attacks. I'm no military expert but in war, as in baseball, you must be strong down the middle.

What has all this got to do with the Government taking a potshot, perhaps innocently, at the kids? Simply this: It has completely forgotten them.

Yep, I know the diamonds are still there and nobody is bothering the kids. That's the trouble. No one is bothered over the fact that they are playing with broom sticks and balls made out of a synthetic something. This is the situation in New York and, no doubt, the same in other cities. It's both depressing and alarming. Not only to the future of baseball and other sports, but more important the moral and physical welfare of our future citizens.

SAWDUST FILLED BASEBALLS

I know materials that ordinarily go into the making of sports athletic equipment were necessary for guns, ships, planes, etc. I say they could be made without let up and take heat off the kids. It's up to the law makers. How? Simply by freezing the many so-called "essentials." It seems to me that some of the manufacturers continue to make useless gadgets for the grown-ups who "understand." Personally, I would sacrifice my shoes if I thought it meant the elimination of sawdust now stuffing what is now called a baseball.

If it's one thing I know, it's the make-up of the average kid. I've buddied with thousands of 'em from coast to coast, but let's keep home runs out of the column. Their language is playing games with equipment made out of durable stuff. With such baseballs, gloves and bladders unavailable, he gradually drifts to the corners where he figures it's more interesting. Have you noticed the rise in juvenile delinquency lately?

Right now, the only playable baseballs, good for an inning or more, are being manufactured for the professionals. I suppose that Organized Baseball is doing the best it can. All balls fouled into the stands are donated to members of the armed forces. I endorse that idea. Certainly the soldiers and sailors need recreation. But that brings me right back to where I started: What about the kids?

What about the kids and future of baseball? The kids, mind you, are the life blood of the game. And if the game doesn't come to the aid of the kids, baseball will strangle itself with its own hands. Today, major league competition is a Class D standard. The majority of players who return from the service will be passe.

Comebacks for them is a rough assignment. The gap is big. Hank Greenberg is gamely trying to beat the rap and you can see from his batting average the going is tough—almost too tough. But gritty service guys like Hank should make it.

Night play, which I tagged as an out-and-out mockery of baseball in this same space last year, just about rubs out the kid for keeps. Sensible parents will put him to bed where he belongs but won't improve his baseball education. Meanwhile the owners are favoring fatter schedules under the arcs, which also makes CENTS. Occasional games under the lights, say, between 7 and 14 per season, is okay for the sake of novelty. If the owners play every night except Sunday — how are they going to replenish when the present crop of Class Ds run out?

The reason I grabbed a chance to manage the Eastern teams in the Esquire all-American boys game is because I will be able to be with them for a week—seven days with a gang of kids. I plan to cram in as much teaching as I can. You'd be surprised how little some of them know about inside baseball. For example. At a baseball school in Florida some Springs ago I thought I had discovered another second baseman on the order of Charley Gehringer. That is, I did until I realized he didn't know he was supposed to cover second base.

Top for Toy Chest Is a Folding Table

STENCILING the scalloped borders, bright stars and topsy-turvy letters on this toy chest is sure to put you in gay spirits. The chest itself is easy to make from

Optimism Shown Over Bumper Crop Conditions As Government Makes Final Survey for 1945

Wheat Leads Off With Largest Harvest Ever Grown in the Country

America's 1945 farm outlook gives promise of a total production higher than for any year on record except the bumper seasons of 1942 and 1944.

Some 350,000,000 acres are due to be harvested, with record or near-record productions indicated for a number of crops. Many above average acre yields are anticipated, with a record yield of 147.7 bushels per acre expected for potatoes, a near-record for rice and an exceptionally high yield for oats, over 7 bushels above the 10-year average and close to the 1942 record. Above average yields are expected for barley, rye, wheat, corn, sugar beets, sugar cane, dry peas, tobacco, sweet potatoes, and a number of the vegetable crops. Milk production may total as much as two to two and a half billion pounds more than in 1944 for a new record.

N. E. Dodd, chief of the Agricultural adjustment agency which has the job of helping U. S. farmers work out acreage goals, reports that 1945 goals appear to have been met or exceeded for wheat, oats, rice, dry peas, tobacco and peanuts and that both flaxseed and sugar beets, while not reaching hoped-for goals, are well above the 1944 acreages.

Preserving the Land.

Despite the hard use to which the land has had to be subjected during the war years, it is still going strong, Dodd said, one of the main reasons being the influence of increased use of soil building and soil and water conserving practices. A considerable part of this year's expected harvest, he emphasized, can be traced directly to improved methods of handling soil.

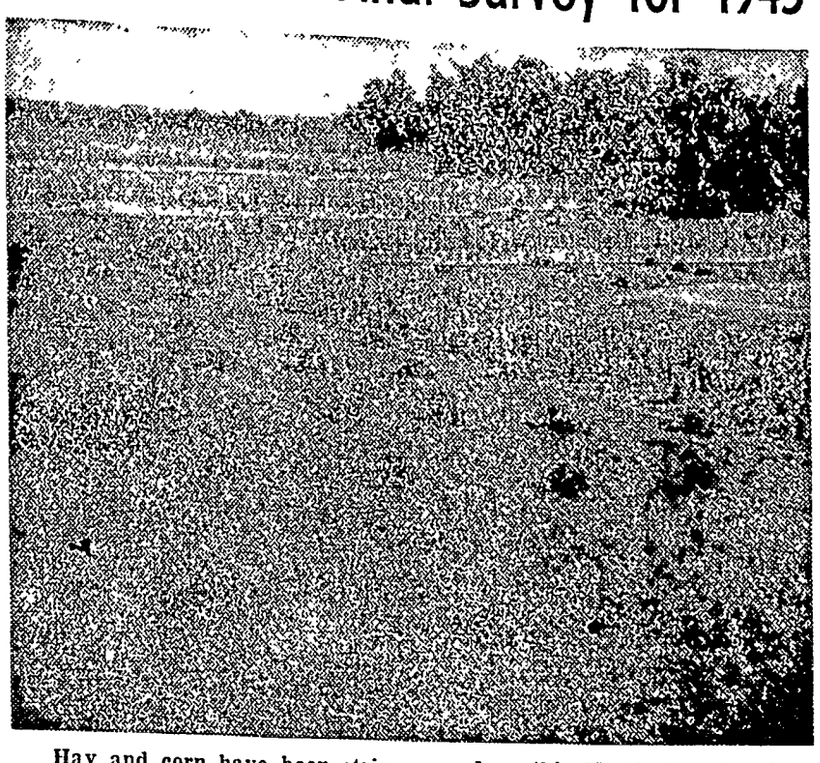
Last year set new records, for example, for acreage under contour cultivation and that planted to green manure and cover crops. Acreage of small grains and other drilled crops grown on the contour more than doubled over 1943, and still further increases are seen for 1945. Lime and superphosphate being used to establish soil improving crops are showing rapid increases and would be far greater, according to Dodd, if larger quantities of these vital materials were available. As it is, 87 per cent more superphosphate was used on legumes and grasses in 1944 under the AAA program than the average for 1939-43, and nine times as much as in 1936.

Terracing, strip-cropping, irrigation, weed control and many other improved farming practices are also doing their part in holding the fertile top soil on fields and in conserving moisture.

Crop Prospects Reported.

Naturally, farm production cannot be calculated as accurately as industrial production. Even if factors such as labor, machinery, storage and marketing, repair parts, fertilizer, and soil conditions are favorable, the farmer cannot be sure that the weather won't upset his well-laid plans. The present harvest is late in some sections due to unseasonable spring weather that interfered with planting schedules and in some cases necessitated last minute crop shifts. Drouth, floods and inroads by insects and pests of various kinds can still throw the farmer's entire production schedule out of line. But here's what this year's outlook on individual crops is:

Wheat — Largest crop of record, and the third U. S. billion-bushel crop. Estimated at 1,146,000,000 bushels, this year's indicated wheat harvest is 67,000,000 bushels above the previous record crop of 1944. It is 43 per cent greater than the 10-year average for 1934-43. Winter wheat production is up 14 per cent over last year. Estimated acreage of all wheat for harvest is 64,961,000 acres, 9.5 per cent above 1944, with winter wheat acreage substantially above last year in nearly all important producing states.



Hay and corn have been strip-cropped on this North Carolina farm to protect the soil from erosion and to help increase crop yield.

Oats—Oats production is expected to be the largest since 1920, a total of 1,546,032,000 bushels. This is 33 per cent above the 1944 crop and 45 per cent above the 10-year average. Indicated yield per acre is 36.9 bushels. The estimated planting of 45,911,000 acres in 1945 is the largest of record. This is the sixth consecutive year in which the oats acreage shows an increase for the country as a whole.

Corn — Marked improvement in prospects during July has resulted in an August 1 estimate of about 2,844,000,000 bushels of corn in 1945. The current estimate, while below three successive 3,000,000,000-bushel crops in 1942, 1943 and 1944, exceeds production in any year except 1923 and 1932 of the two preceding decades. The average yield of 30 8 bushels compares with 29 1 bushels estimated a month ago, 33.2 bushels last year and the average of 26.8 bushels per acre Most important corn growing states had "corn weather" during the latter part of July, favoring better than average progress — called "remarkable" in some sections—to bring an increase of 159,000,000 bushels in prospect since July 1.

Rye—Indicated production of 27,883,000 bushels is up slightly more than 2,500,000 bushels over last year, the result of a higher per acre yield since the acreage for harvest is 7 per cent smaller. This is still only two-thirds of the 1934-43 average production.

Rice—If the indicated harvest of 76,000,000 bushels is realized, it will be the largest rice crop on record, and more than 8 per cent above last year's record level. A prospective yield of nearly 50 bushels an acre, plus a near-record seeding of 1,511,000 acres, is credited with the new high. Acreage increases are reported in each of the rice producing states — California, Louisiana, Texas and Arkansas — with farmers in the first two named exceeding reported March intentions.

Barley — The expected harvest of 270,000,000 bushels will be 5 per cent below the 1944 production and 1 per cent less than the 10-year average. Sharp declines are indicated in all of the major barley producing states, except California. The entire acreage seeded, an estimated 11,922,000 acres, is about 17 per cent less than 1944 and 19 per cent below average.

Dry Beans—The smallest production since 1936 is anticipated for 1945, the indicated total of 14,714,000 bags of 100 pounds each (uncleaned) being more than one-fourth less than the record-breaking crop harvested in 1943. Bean plantings in Michigan and New York total 711,000 acres, the smallest since 1939 and less than were planted in Michigan alone in 1941. Farmers appear to be reducing their plantings to about the level of the years before the present war.

Lima bean production is expected to be a little larger than last year, California's 178,000 acres marking an increase of 8,000 acres over 1944.

Dry Peas — Although considerably less than last year's big crop, the 1945 production will probably be about double the prewar average for a total of some 5,500,000 100-pound bags (uncleaned). Acreage this year, also double the prewar average, is concentrated mainly in the Pacific Northwest. About 514,000 acres are expected to be harvested, with yield indicated at 1,074 pounds per acre, below 1944 and 10-year average.

Soybeans — A total of 13,283,000 acres grown alone for all purposes appears to be about 46 per cent larger than the 10-year average. Eighty-three per cent is in the north central states. Indications are that about 10,392,000 acres will be harvested for beans, only 3 per cent less than the 1943 record. It is still too early for conclusive production forecasts. But August 1 conditions point to a crop of 188,284,000 bushels.

Potatoes — A crop of record proportions is indicated for 1945—some 420,206,000 bushels. Only in 1943 and 1928 has the production of potatoes exceeded the crop now in prospect. Acre yield may set a new record, if expectations of 147.7 bushels per acre for the United States are realized. The previous high for yield was 139 6 bushels in 1943. Total indicated acreage for harvest is 2,845,600, slightly below last year and about 190,200 acres less than the 1934-43 average.

Sweet Potatoes — Fewer sweet potatoes are in view, about 11 per cent less than the 1944 crop. Acreage is down but yield per acre of 94.3 bushels is expected to be the highest since 1929. Total production in prospect is 67,133,000 bushels.

Sugar Beets — Expansion of plantings to 780,000 acres, almost 23 per cent over 1944, carries an estimated production of 9,332,000 tons at the indicated national average of 13.1 tons of beets per acre. Although the acreage is 12 per cent less than the 1934-43 average, a higher than average yield per acre is expected to put total production at only 7 per cent below the 10-year average. Sugar recovery of about 1,300,000 tons is predicted.

Sugar cane — Acreage for sugar and seed is up about 2 per cent over 1944 for a total of 302,700 acres, 5 per cent more than the 1934-43 average. Louisiana, which normally accounts for about 90 per cent of the national acreage, increased 1 per cent over last year and Florida 13 per cent. Production of sugar cane for sugar and seed is indicated at 6,976,000 tons, about 12 per cent above the 1944 total tonnage.

Fruit — Although the apple crop appears to be headed for a record low production, the 1945 peach crop is setting a record high with an estimated 82,650,000 bushels, 6 per cent greater than the peak harvest of 1931. A good pear crop is also in prospect, some 33,162,000 bushels. The three Pacific Coast states, where about three-fourths of the nation's pears are usually grown, expect a record combined production of 26,031,000 bushels — 11 per cent more than last year and 30 per cent above average. The cherry crop is down considerably from last year's level, and the apricot pick is estimated at only about 210,500 tons compared with last year's record crop of 324,000 tons. A prune crop of some 152,600 tons (fresh basis) is indicated from Washington, Idaho and Oregon. Grape production appears to be a little above last year with an indicated pick of 2,801,900 tons, of which some 2,598,000 tons will come from California.

Hay — Second largest hay crop ever produced in the U. S. is expected this year — a total production of all tame and wild hay varieties of about 104,000,000 tons. Only 1942 has seen more hay cut on American farms. A probable 12,000,000 tons carried over from crops of previous years added to the 1945 production would provide a supply of 116,000,000 tons.

Flaxseed — Indications are that a flaxseed crop over half again as large as the average for 1934-43 will be harvested in 1945, a total of 33,972,000 bushels. This would be 44 per cent greater than the 1944 crop. Nine of the 17 states for which flaxseed acreages have been estimated show increases over 1944, ranging from 1 per cent in Iowa to 81 per cent in Texas. In the four major flax states — Minnesota, North Dakota, South Dakota and Montana — where approximately 88 per cent of the 1945 crop will be produced, the increase this year is 49 per cent.

Loading alfalfa hay on a Wisconsin farm. This year's hay crop promises to be the second largest on record.

Ask REA Aid for Wind-Driven Farm Generator

A wartime development — a four-bladed wind-driven generator that will charge its heavy storage batteries in a 5 mile wind, and with an average wind velocity of only 10 miles per hour, will provide 1,000 kilowatt hours of dependable power per month.

This is enough to provide lights for house, barn, chicken houses and brooders, in addition to operating an electric refrigerator, a water system and other household items.

The entire cost of these systems is in maintenance and repayment of investment. A large percentage of farmers, unable to secure electric service, due to cost of installing power lines, will profit by the four-bladed wind-driven generator. Steps are now being taken to secure the approval of the REA so that the generator may be purchased under some form of REA loan, by those who do not have access to rural power lines.

JUDAH'S CONCERN FOR HIS FAMILY

LESSON TEXT—Genesis 44:18-34.
GOLDEN TEXT—How shall I go up to my father, and the lad be not with me?—Genesis 44:34.

The family is the fundamental unit of society, and is therefore of more importance than the church, the state, or the social order of which it is a vital part. Every force which encourages the breakdown of the sacred relationships of the home and family is set for the destruction of society itself.

Men have too often chosen to go the way of the flesh, and therefore they have disregarded God's plan and purpose. But the home is just as sacred as ever in His sight, and brotherly love still finds a high place among the virtues of real men.

The family comes before us as we continue the study of Joseph's life. As we study it we bear in mind Joseph's dealings with his brethren, who as yet did not recognize him as the one they had sold into captivity. He was bringing them kindly but definitely to the point of real repentance, so that he could show himself gracious to them.

To do so he had brought disaster upon them. Being happily on their way homeward with a new supply of food, they were overtaken and proved to be thieves, and Benjamin, the beloved of their father Jacob, stood condemned to death by their own words.

In that crisis the mouths of the others seemed closed, but Judah, who had really saved Joseph's life (Gen. 37:26, 27), and who had apparently finally come to himself as a man of essential goodness, pleaded for Benjamin's life.

That plea presented a truly sacrificial brotherly love, as he manifested

I. Courage (v. 18).

Easy rests the yoke of family life as long as all is joyful and prosperous. But when adversity strikes, when sorrow comes, or sickness, or sin, then the true test of devotion is at hand.

It was a brave and manly thing for Judah to stand before the one whom he knew only as the man who was "even as Pharaoh." The circumstances were all against him. He expected the flaming anger of the offended ruler. His brethren had collapsed in despair. It was one of those dark hours which come to every family when someone must demonstrate true love by being strong-hearted and fearless.

II. Intelligence (vv. 19-29).

We have become so accustomed to accomplishing things by the use of words that we are in danger of substituting speech for action. Even in times of sorrow or need we send a well-worded card or telegram, and regard our mission as accomplished.

Words have their place, but there comes a time when they must be coupled with intelligent action. Crises call for more than a cheerful smile or an encouraging word, much as they may mean in such an hour. We must be prepared by our close contact with our loved ones to speak and act with vigor and assurance.

III. Self-denial (vv. 30-33).

One step deeper goes the devotion of this man to his father and his brother. He had done no wrong that merited punishment, but evidently his brother Benjamin had been guilty. Had he been of the spirit of Cain he would have said, "Am I my brother's keeper?" and let him answer for himself. Why should Judah suffer for another? Why should he allow himself to be imprisoned in a strange land to save his father from sorrow and his brother from what seemed to be the just reward for his deeds?

Thus reasons the man of the world, but such is not the language of the true brother. He says, "Let thy servant abide instead of the lad as a bondman." Well and courageously spoken!

IV. Love (v. 34).

Love for father and brother underlies all of the courage, conviction and self-sacrifice of a man like Judah. In his younger years, and possibly under the influence of his brothers, he had failed in that respect, but now his real devotion to his brother was evident.

That affection was a real, powerful and beautiful thing, and yet it is but a faint prefiguring of the affection of the One who "sticketh closer than a brother," who "though he was rich, yet for your sakes he became poor, that ye through his poverty might be rich" (Prov. 18:24, II Cor. 8:9).

Let us improve the opportunity to review our relations with our own family, to determine whether there is aught that we in intelligent and courageous self-sacrifice should do for our own. Concern for family will pay rich dividends, especially in these days of broken homes and disturbed personal relationships. Love will do more than anything else to hold us together.

6. Mark Twain.

SNAPPY FACTS about RUBBER

"Hard Sponge," a new synthetic rubber product developed by B. F. Goodrich, combines great strength with extreme lightness. Experiments point to its possible use in airplane wings.

A type of vine recently discovered in China, which attaches itself to trees and other objects, has been found to yield latex (natural rubber). Stems grow to 50 feet in length and yield about a pound of latex.

Inner tubes made with a special type of synthetic rubber hold air much longer than tubes made of natural rubber.

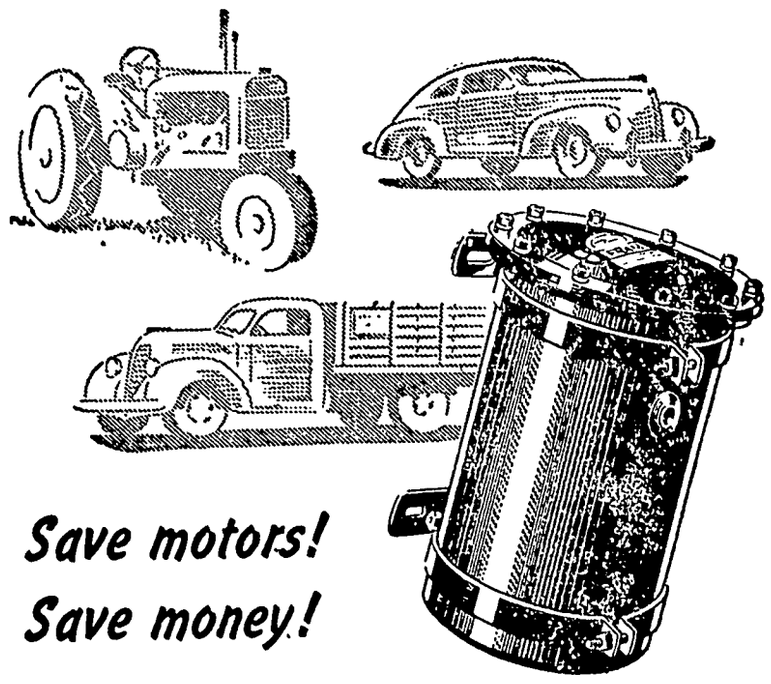
Keep 'em rolling

B.F.Goodrich

FIRST IN RUBBER



Save motors!
Save money!

Put FRAM Oil Filters on All Three!

HERE'S how to save a lot of long, costly repairs . . . lengthen the life of your car, truck, tractor or stationary engine. Just install Fram oil filters!

WHY EVERY ENGINE NEEDS FRAM

During normal operation, dirt, dust, grit and other abrasives are sucked into engines. At the same time carbon and sludge are formed within the engines. Unless filtered out, the dirt and carbon grind away moving parts, while the sticky sludge clogs oil channels to hamper lubrication and increase wear. But with a Fram, these impurities are filtered out, to keep motor oil *visually clean!* That's why millions of Fram filters and cartridges are used by our armed forces—why Fram is standard equipment on more than 75 famous car, truck, tractor, bus, marine and stationary engines. Experts agree on Fram!

MONEY-BACK GUARANTEE

Remember, a Fram oil filter *must* satisfy you, or you get your money back. If your equipment is already filter-equipped, Fram replacement cartridges can be put in present filters to step up performance. Remember, Fram oil filters are easy to install and cartridges may be changed in a jiffy. So see your dealer today! Find out "How's Your Oil Filter?" The Dipstick tells the story!

Pfc. John Clements left Tuesday to report back for duty at Jefferson Barracks, Mo., after enjoying a 30 day furlough here with his wife and son at the Pavey home.

Mrs. Abbie Ross and Mrs. Butz of Garner, and Irene Butz of Meservey spent Friday afternoon visiting in Klemme with Mrs. John Day.

Mrs. Naska Bock, Mrs. Esther Barz and Grandma Wille spent Sunday afternoon visiting at the Heiko Jassen and Louis Janssen homes near Meservey.

Miss Eunice Larsen left Sunday for Iowa City to get ready for the opening semester of Iowa University. Miss Larsen will be a sophomore this year.

Mr. and Mrs. George Schoenwetter, Mrs. Vician Mace and Mrs. Frank Ward were Mason City visitors Friday and while there called on Edwin Josten at the hospital.

The local Red Cross ladies will again soon take up their work for fall and winter. Hospital supplies are needed now and this will be the main project of the year.

Mr. and Mrs. Edmund Josten; Mrs. Esther Barz and Edward, and Mrs. Lena Schroeder and grandson Dickie Ingle, were Mason City visitors Thursday.

Mrs. Lulu Lawhorn came Monday from Garner and visited until Tuesday evening with her son and daughter-in-law, Mr. and Mrs. George Lawhorn.

Rev. Earl Josten and son Robert Lee of Carlisle came last Wednesday for a visit with the Reverend's father, John Josten. All were supper guests at the Emil Patet home.

Mrs. Dwight Hummel's picture appeared in the Mason City Globe Gazette last week in a group picture of the first Federal grand jury to hold a session in Mason City.

Mrs. Lew Wesenberg of Goodell and Mrs. R. A. Jorgenson of Klemme, attended a meeting of the executive board of the Red Cross organization for the east half of the county at Garner Friday forenoon.

Mrs. Clara Smith, who taught in the Klemme seventh and eighth grades the past few years, is teaching this year at Wapello, Iowa, as an instructor in the Junior High department.

Mrs. Henry Ludeke of Meservey; Mrs. George Schoenwetter, and Miss Frieda Schuldt went to Boscobel, Wis., Saturday to attend the wedding on Sunday of Miss Wilda Greene, sister of Mrs. Ludeke. The ladies returned home Tuesday.

After two weeks of sweltering weather which was ideal for the corn, cool weather followed the rain storm Sunday and the low temperature Tuesday morning was 52 degrees. The corn still needs a lot of warm weather, but is making good progress.

Mrs. C. A. Arnold entertained to dinner Sunday: Mr. and Mrs. H. R. Gibbs and Isablle; Mr. and Mrs. Roland Gibbs; Mr. and Mrs. Virgil Bridg ford of Mason City; Rev. and Mrs. H. E. Harvey, Elwood, and La Nelle; Lola Gast, and Sgt. Asa Gibbs of Minneapolis.

Mrs. Emma Clements; Mrs. Ernest Roben and son Bobbie; Mrs. Les Ramsay and daughter Dawn, all of Estherville spent Saturday visiting with Mr. and Mrs. John Clements and son, and Mr. and Mrs. W. F. Pavey at the Pavey home.

Klemme and Vicinity

2,500 toothpicks at THADA'S for 13c. 1tc

Mrs. Mary Roths is reported to be very ill as we go to press.

Mr. and Mrs. Dwight Helps visited in Belmond Saturday eve.

Donald Turgasen drove to Des Moines on business Tuesday.

Miss Lydia Beier of Waterloo spent the past week in Klemme visiting with relatives and friends.

H. D. "Ole" Ramsay of Waterloo visited for a short time Saturday with his family here.

Do you trade regularly at THADA'S? They have hand and laundry soap. 1tc

Mr. and Mrs. Henry Ludeke of near Meservey, were Klemme visitors Tuesday.

Mr. and Mrs. Ed. Becker were dinner guests Sunday at the Harm Braner home at Belmond.

Don't fail to buy your starch at THADA'S. You get 30c worth for 20 cents. 1tc

Mrs. George Ulrich recently had her house in the notrhwest part of Klemme repainted.

Mrs Ernest Pringnitz and Mrs. Henry Helps visited with Henry Helps at Thornton, Sunday.

You can get all the pudding you want at THADA'S. Only 4c per box. 1tc

Mrs. Margaret Brooks of Belmond spent Thursday in Klemme visiting with her brother, Pete Wilson and wife.

C. A. Larsen, accompanied by Clair Christie of Belmond, drove to Kansas City on business Sunday.

Mr. and Mrs. Wayne Pavey and daughter Carol, of Webster City, spent Sunday visiting at the W. F. Pavey home.

Mr. and Mrs. Ed. Jacobs took their son Elwyn, to Indianola Sunday, where Elwyn enters Simpson College this year as a Junior.

Don't fail to buy your starch at THADA'S. You get 30c worth for 20 cents. 1tc

Mr. and Mrs. E. G. Beier and Miss Lydia Beier spent Sunday afternoon visiting at the Chas. Bredlow home near Swaledale.

Sgt. Asa Gibbs arrived home last week to enjoy a furlough visiting with his parents, Mr. and Mrs. Harry Gibbs and family.

The J. W. Johnson house, tenanted by the Bisom family, in the northwest part of town, has recently been repainted.

Mrs. Henry Medaus entered the Mercy hospital at Mason City on Monday, and on Tuesday morning underwent an operation.

Be sure you have a Federal Stamp before going duck hunting September 20th. You can get the duck stamps at any post office.

Verle Keraus of Garner and Otho Keraus of Klemme, drove to Atlantic, Iowa, over the week end for a visit with the Keith Albertson family.

Mr. and Mrs. Virgil Bridgeford of Mason City came Saturday evening to spend Sunday visiting at the parental H. R. Gibbs home.

Mr. and Mrs. Dorance Day and son Gary, arrived Monday night from El Sequendo, Cal., where Mr. Day has been employed for the past few years. The plant has now closed. Mr. Day and family are visiting at the parental John Day home here and at the Mrs. Petersen home in Clear Lake for the present.

The post office building, owned by J. W. "Bill" Johnson, is undergoing a "face-lifting" job. J. E. Stille has been painting the wood trim the past week. Mr. Johnson expects to cover the sidewalls of the building with asphalt shingles which should greatly improve the appearance of the building.

Mrs. Ronald Barz is keeping house for Harley and Graydon Barz while their parents are away on a vacation in Minnesota. Myrna Barz is staying at the Ben V. Greiman home.

Sunday was Mrs. Elmer Arnold's birthday, and in honor of the event Mr. and Mrs. Lloyd Lau and Cozette; Marjorie Lau, and Lois Ann Jacobs called at the Arnold home. Mrs. Lloyd Lau had baked a lovely birthday cake which was served as a surprise for Mrs. Arnold.

Mrs. Alfred Hamstreet of Mason City spnt several days of the past week in Klemme visiting at the home of her brother-in-law and sister, Dr. and Mrs. W. F. Missman.

Lt. (sg)and Mrs. Robert Risser and son Bobbie, of Des Moines, spent Sunday in Klemme visiting at the parental P. M. Wilson home. Lt. Risser was home on an emergency leave, being called to Des Moines by the serious illness and death of his mother.

Lt. Lyle Wilcox concluded his 30 day leave and left Friday for St. Louis, Mo. to report for duty. He was accompanied by Mrs. Wilcox and her parents, Mr. and Mrs. C. G. Waterman. The trip was made in the Wilcox car. Lt. Wilcox proceeded by train for Camp Claiborne, La., while the rest of the party drove to Camp Claiborne. Mrs. Wilcox will remain at Alexander, La., near the camp, while Mr. and Mrs. Waterman will return home via train or bus.

Mr and Mrs. Anson Avery and daughter returned last Wednesday from a vacation and fishing trip spent near Two Harbors, Minnesota. Anson's fishing experience was very good, and among other fine fish, Mr. Avery hooked and landed a 24-pound lake trout, the largest caught at Two Harbors this season. The big fish has been put in the Klemme locker and later will be the main part of the menu for a fish dinner at the Avery residnce southeast of Klemme.

Klemme streets have been exceedingly dusty the past two weeks and the housewives are about up in arms and clamoring for the city dads to get the streets treated for the menance. Klemme should do a bit of post-war planning and a number of streets should be improved with black-top this coming year.

Do you trade regularly at THADA'S? They have hand and laundry soap.

Mr. and Mrs. Harvey Barz and Mr. and Mrs. Alfred Merkel left Saturday to spend a week's vacation and fishing in the vicinity of Brainard, Minnesota. They will also visit with relatives in Minnesota before returning home.

NEW IOWA BOOKLET JUST OFF THE PRESS

The fifth and newly revised edition of the booklet "Iowa Welcomes You," published by the State Printing Board and edited by Sherman W. Needham, Superintendent of Printing, is available without cost on request from that office. The attractive 85-page booklet, containing numerous photographs, gives pertinent data about Iowa. An important section of the book gives the physical description of Iowa's state parks and recreational reserves and contains a small highway map of the state with outstanding historic and scientific sites called to the reader's attention.

FARM BUREAU RESOLUTIONS COMMITTEE IS FORMED

President V. A. Cook of the Hancock County Farm Bureau has announced that Fred C Missal as Chairman, Alfred Josten, A. E. Rasmussen, Eugene Feathers, Mrs. Harold Oxley, Clark Lackore, Oscar Johnson, and Victor Loebig, will serve as members of the resolutions committee for this county.

The committee will meet soon to draw up the first rough draft of the resolutions. Suggestions from the members of the Farm Bureau policy can we accurately reflect the sentiments of the members, said President Cook.

The resolutions will be acted upon at the annual meeting of the county Farm Bureau.

President Cook pointed out that the county Farm Bureau resolutions are sent to the state Federation office for consideration by the state resolutions committee.

V. A. Cock, voting delegate from this county, will exert his influence in an attempt to have this county's Farm Bureau resolutions adopted by the state organization at its annual meeting on November 19, 20 and 21

FAMILY GATHERING HELD AT MRS. SCHROEDER'S HOME

What was originally planned as a picnic Sunday, turned out to be a dinner instead at the home of Mrs. Lena Schroeder where relatives gathered in honor of Seaman Evert Barz who is home on a furlough after active duty in the Pacific. The weather was too cool to hold the picnic in the park.

Those present were Mr. and Mrs Edmund K. Josten; Mrs. Esther Barz, Milvern and Edward; Grandma Wille; Mr. and Mrs. W. J. Barz; Mrs. Henry Voetberg; Mrs. Clara Barz and Avis; Evert Barz and family; Walter Rosendahl and family; Marvin Barz and family; Mrs. Martin Barz and Maxine, and Mrs. Ronald Barz and two daughters.

KLEMME YOUTH INVOLVED IN TRUCK-TRACTOR CRASH

Garner Leader: Otto Peterson was seriously injured about 4:30 Tuesday afternoon when struck by a truck driven by Edw. D. Buntenbach, son of E. C. Buntenbach, a mile east of the I. V. Rasmus farm. Peterson was taken to a Mason City hospital. He suffered dislocation of both shoulders and other injuries, the nature of which was not immediately learned.

Peterson was pulling a manure spreader with a tractor from one field to another diagonally across the road when the accident occurred. Buntenbach was traveling east. The tractor was upset and damaged some. Buntenbach was unhurt and the truck was not much damaged.

Peterson, who farms independently, has been living with Mr. and Mrs. I. V. Rasmus. Sheriff L. M. Brower investigated the accident.

NOW A CIVILIAN

PVT. JOHN CLEMENTS

Pvt. John Clements entered the armed services on September 1, 1942, and received an honorable discharge at Jefferson Barracks, Mo Sept. 18, 1945 after being overseas for 23 months. Clements received his first training at Camp Perry, Ohio, and then went to the Aberdeen Proving Ground in Maryland; next to Camp Sutton, N C. and left for overseas from Camp Beauregard, La., Sept. 9, 1943 and landed at Liverpool, England, and for a time was stationed at Andover, England and then went to Rhiems, France. He was with the 28th Division and went through France, Belgium, Luxemborg and Germany. He saw service both as an infantryman and in the ordnance work. He holds the ETO ribbon with 3 campaign stars and the good conduct medal. His wife and son reside in Klemme.

Methodist Study Circle Held First Fall Meeting Last Thursday

The first fall meeting of the Methodist Study Circle met on Thursday afternoon, September 13 at the home of Mrs. Herman Paul, with twenty-four members present.

Mrs. Chambers was devotional leader, and Mrs. Levi Ridder gave the fifth chapter of the study, "The Indian in American Life."

Mrs. Paul served a delicious lunch after the meeting.

OCTOBER IS 4-H ENROLLMENT MONTH

4-H Boys and Girls over the state are making plans for their October enrollment drive. The 4-H organization is recognized as the leading rural youth group in the nation. Its aim is to promote leadership and training and to be of service.

SAILOR HONORED AT BIRTHDAY DINNER THURSDAY

Mrs. Clara Barz entertained several relatives at a birthday dinner Thursday evening in honor of her son, Evert Barz, who is home on a furlough from the navy.

Those present were Mr. and Mrs. Evert Barz and children; Mrs. Lena Schroder; Mr. Cleo Ingle and son, Dick; and Raymond Barz and family.

Mrs. Barz had prepared a nice decorated cake which served as the center-piece for the table.

Seaman Barz was the recipient of a number of nice gifts.

WILL SPEAK ON PRISONER OF WAR CAMP AT ALGONA

Major Louis C. Hutton, Executive Officer, Coming To Klemme

Major Louis C. Hutton, Executive Officer of the Algona Prisoner of War Camp will come to Klemme Monday evening, September 24 and will address men and boys at the Klemme Methodist Church, beginning at 8:00 o'clock.

The meeting is sponsored by the Brotherhood of the church and all men and boys are invited.

Women's Guild To Meet Wednesday, September 26th

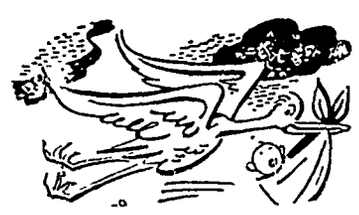
The Women's Guild of the Evangelical & Reformed Church of Klemme will meet at the church on Wednesday, Sept. 26th at 2:00 p. m. Mrs. John Albers and Mrs. Frances Swalve are hostesses.

County Officials Enjoyed Week's Vacation In Minnesota

Several Hancock County officials returned home last week from northern Minnesota where they enjoyed a week's vacation and fishing at Leach Lake.

Those in the party were Auditor Missal, County Engineer Merten, Treasurer McMillin, and Supervisors Chambers and Eckels. The men had good luck fishing, but J. A. Chambers, who had never before done any fishing, caught more fish than all the others together.

HELLO, FOLKS!



Mr. and Mrs. Lester Buseman of Blmond announce the arrival of a 10 pound son born Tuesday, September 11, 1945, at the Garten Nursing home at Belmond. The Busemans now have two sons and a daughter.

County Superintendent Gives Data On Schools In Hancock

TEN CHILDREN ENROLLED IN KINDERGARTEN HERE

With the opening of the Kindergarten department of the Klemme Grade School Monday, 10 pupils were enrolled. Miss Wille is the Kindergarten teacher.

The following pupils are enrolled:

Joyce Lassahn	Sandra Medin
Michael Malley	Roger Olsen
Gordon Johnson	Diana Masterson
Ruth Ann Lauster	Jeanne Barz
Rosalie Rosedahl	Linda Swalve

GRADE PUPILS

Through an error, two names of grade pupils were left out of the enrollment list published in The Times last week. The following should have been in the list:

Grade 2, Lois Heginger
Grade 3, Margaret Medaus.
Grade 4, Le Roy Josten.

SHAMROCKS BREAK EVEN IN TWO GAMES PAST WEEK

The Klemme high school baseball team last week lost one game and won one, defeating Hayfield 10 to 3 with Brinkman pitching, who allowed but 2 hits. Dick Finders was behind the platter.

The Shamrocks lost a close one to Kanawha Friday when the visitors went home with an 8 to 7 victory. Each team collected 9 hits. Kanawha broke a 6 to 6 tie in the 7th inning by scoring two runs, while Klemme came back by chalking up one run.

COUNTY-WIDE MEETING OF ALL MINISTERS AT BRITT

A county-wide meeting of ministers of all denominations will be held at the Central States building at Britt in Tuesday Sept. 25th beginning at 2:00 o'clock.

The meeting is sponsored by the Iowa Christian Rural Fellowship and the Rural Sociology Department of Iowa State College as a preliminary to taking a state-wide religious census. The survey will be made in this county within the next few weeks.

Returned Monday From Minnesota Fishing Trip

Mrs. Kenneth Johnson of Goodell, and Mrs. Fred Etchen of Klemme, accompanied Mr. and Mrs Atron Greiman and children of Garner on a fishing trip to Red Lake, Minnesota, last week In another party Mr. and Mrs W. F. Greiman and some friends from Des Moines, also went to Red Lake. All returned home Monday and all had good luck fishing. In Aaron Greiman's party two 20-lb and one 11-lb. Northern pike were caught and everyone caught their share of smaller fish. Mary Ann, daughter of Mr. and Mrs. Aaron Greiman hooked and landed the 11 pound Northern while fishing off of a dock.

GEORGE NETLAND INVOLVED IN CAR-TRUCK ACCIDENT

George Netland, who was recently discharged from the army, figured in an auto-truck collision early Saturday evening.

Netland crashed into a stock truck, owned by Albert Schmidt, just west of the North Iowa Grain Company, and opposite of the Ben Netland residence in northwest Klemme. The Schmidt truck was upset by the impact, and several hogs being taken to the stock yard escaped when the truck upset.

The front of Netland's car was badly damaged, but the truck did not suffer any severe damage. No one was injured, except for a few minor bruises.

Sheriff L. M. Brower was in Klemme at the time, and was near the scene when the crash took place and investigated the accident.

RURAL TEACHING SALARIES ARE HIGHEST IN HISTORY

Less Number Of Schools Operat- in This Year Than Year Ago

County Supt. of Schools, Chas. Whitney has released the following statistics on rural schools in Hancock County:

"There are eighty-four township sub-district schools operating this year as compared to ninety-one last year. Eight subdistricts were closed and one was reopened since the opening of school a year ago.

"St. John's Lutheran Parochial school in Concord township, an elementary school, is operating with Mr Carl Harmel as teacher.

"The teaching staff for rural schools has seven beginners and fourteen experienced teachers who did not teach last year to supplement the number who taught last year in the county. The teacher turnover the past summer is lower than any year for four years and rural salaries are the highest on record in this county.

"The number of pupils enrolled in elementary schools in the county not maintaining a high school is not yet available.

"The Goodell Public School is maintaining only an elementary school this year, transporting the high school pupils from the Independent district to near by high schools Klemme, Belmond and Kanawha) by bus. Goodell expects to reopen its high school at some future time. There are 13 high school pupils in the district this school year.

"Every independent and consolidated school in the county maintaining a high school has submitted bus routes to the County Board of Education for approval. Not all busses are in operation due to difficulties in production, distribution, and delivery, but will be as soon as the busses arrive."

IRENE MARSHALL RECEIVES TRAINING SCHOOL AWARD

The following seven 4-H Leaders and 4-H Committee Members attended all of the 4-H Leader Training Schools during the past year:

Miss Irene Marshall, Klemme; Mrs. Phillip Puffer, Corwith; Mrs. Percy Bailey, Corwith; Mrs. Lyal Fox, Britt; Mrs. C. A. Bird, Woden; Mrs. Aaron Stromer, Garner; Miss Lila Meyer, Hayfield.

Since the main club project was food preservation, the Kerr Glass Mfg. Co. has presented a dozen quart jars to each of the seven women in recognition of their attendance at these meetings.

VEGETABLES IN WAR

Vegetables, like grains and meat, do double duty to help bring the war to quick victory. They provide vital food for fighting men and are potential wealth that help make War Bonds the best investment in the world. Ohio produces some 70 million dollars worth of truck garden products, potatoes, tomatoes and the like. Over 5,000 acres in Wood county are devoted to tomatoes, Sandusky county has 1,500 acres in cabbage. The tomatoes sketched above are going into a cannery to add to next winter's food reserve.

Watch Your Kidneys
Help Them Cleanse the Blood of Harmful Body Waste
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—fail to act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.
Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength.
Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.
There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

(Serves 6)

...tablespoons salad oil
... cup chopped onions
... cups soft bread crumbs
... cups diced carrots
...½ teaspoons salt
... teaspoon pepper
... teaspoon marjoram
... cup chopped parsley
... eggs
... frankfurters

...oil. Add onions and simmer ...ft. Do not brown. Combine bread crumbs, carrots, salt, pepper, marjoram and parsley. Add the slightly beaten eggs, the onions and the oil in which the onions were cooked. Mix ...urn into the center of an ...allow pan and shape into a ...oaf about 4 inches in diam-

...rankfurters in half, the split ...se. Arrange, skin side out, ... carrot loaf, overlapping ...ightly. Tie a string around the frankfurter crown and secure with a few toothpicks above and below string. Brush frankfurters with oil Bake, uncovered, in a moderate (375-degree) oven for 30 to 35 minutes Remove from pan, using pancake turner or wide spatula, and place on a hot platter. Garnish with fried apple rings

This sugarless cake, though made with syrup, is light, moist and fine-textured The important point to keep in mind is to add the syrup to the creamed shortening very gradually. Pour it from a bottle into a measuring cup and add a little at a time, beating until the mixture is thoroughly blended after each addition. When syrup is properly blended in this way, a smooth, light batter results.

***Peanut Brittle Sugarless Cake.**
(Makes 2 8-inch layers)

2¼ cups cake flour
2½ teaspoons baking powder
¼ teaspoon salt
½ cup shortening
1 cup light, bottled syrup
2 eggs
½ cup milk
1½ teaspoons vanilla extract
¼ cup crushed or chopped peanut brittle

Sift the flour. Measure and sift again with baking powder and salt. Cream shortening. Add syrup gradually, beating after each addition. Add well-beaten eggs and beat until thoroughly blended. Add sifted dry ingredients with the milk, beating after each addition. Add vanilla and the crushed or chopped peanut brittle. Turn batter into two lightly greased tins. Bake in a moderately hot (375-degree) oven for 25 to 30 minutes.

Syrup Frosting.

¼ teaspoon salt
2 egg whites
1 cup light, bottled syrup
¼ teaspoon lemon extract
¼ teaspoon almond extract
¼ cup crushed or chopped peanut brittle

Add salt to egg whites and beat with rotary beater until stiff. Add syrup gradually, beating after each addition. Continue beating until mixture stands in peaks. Add extracts. Put between layers and on top and sides of cake. Decorate top of cake with crushed peanut brittle.

Here is an alternate menu plan for making wartime entertaining easier for you.

Chilled Tomato Juice
Individual Beef Loaves
Creamed Potatoes
Green Beans Garnished with Pimiento
Molded Cottage Cheese and Cucumber Salad
Homemade Wheat Bread
Lemon Upside-Down Cake
Beverage

Crushed peanut brittle and syrup provide all the sweetening necessary for this lovely glamour cake. Sugarless frosting also made without sugar stands in high, beautiful peaks and stays soft.

These individual beef loaves are extended with bread crumbs but none of the precious meat flavor need be sacrificed when a seasoning of rich beef broth is used to highlight the meaty flavor.

Individual Beef Loaves.
(Serves 6)

1½ pounds ground beef
1 tablespoon beef broth
2 tablespoons chopped onion
1½ teaspoons salt
¼ teaspoon pepper
1½ cups dry bread crumbs
1¾ cups milk
1 egg

Lightly mix all ingredients together. Avoid over-mixing. Shape into six individual loaves. Set aside in baking pan and bake in a moderate (350-degree) oven for 40 minutes.

Broadway and Elsewhere

By JACK LAIT

Whispered in Washington

Impending changes—Lt. Gen. Kenney to succeed Gen. Arnold as chief of Army Air forces. . . . Admiral Nimitz to get Admiral King's cushy Navy post when King is ready to retire, which won't be right away. . . . Undersecretary Sullivan is regarded as having the best chance to fill in when Secretary of the Navy Forrestal steps down. . . . Secretary of Commerce Wallace isn't as sure of sticking as he and his "liberal" friends think he is. . . . A labor bloc in the Senate, prodded by CIO's Sidney Hillman and Rep. Vito Marcantonio, is organizing to demand that President Truman veer sharply left or not only face a legislative fight, but possibly a new, third party on a nucleus of the American Labor Party and Political Action Committees. . . . In this group are Senators Wagner, Kilgore, Pepper, Hill, Guffey and Murray, and they are working on Magnuson, Thomas and Mead, who haven't yet decided to go all out.

Congress will get a battle from the Army. . . . The legislators, fresh from their home constituencies, will whoop it up for more and quicker discharges. . . . The Army will resist. . . . The lawmakers will claim that on the present 85-point system, only about 1,000,000 are eligible for release, and they will propose militantly that the basic minimum be reduced at once to 60 points or less. . . . The army will argue that keeping men in uniform is the perfect answer to unemployment during the reconversion interim . . . But, in its secret councils, the Army doesn't monkey much with economic strategy — just wants to keep a big Army.

East Coast, West Coast—

Clark Gable's real name is William — William Clark Gable. . . . Warners have settled on the man to play Will Rogers — Joel McCrea. . . . Lt. Henry Fonda, in the Navy since '42, has won the Bronze Star for heroism in the Mariannas. But they say his domestic affairs are not too happy . . MGM's official biography of Robert Donat says, with no amplification or footnotes: "— Returning to England, he resumed his film career in '39 Steps' and 'Night Without Armor,' with Marlene Dietrich, then took a six months' leave of absence to regain his health." . . . Jack Dempsey and his two daughters are living in a house rented from Estelle Taylor, where Jack and Estelle spent their honeymoon. There is talk since she divorced Paul Small, she may rewed the Old Mauler.

Many who saw the sharp and striking MGM newsreel reporting of the plane crash against the upper stories of the Empire State Building may have admired the enterprise which made these releases by far the best. Therefore, they may be interested in the story behind the story. . . . "Newsreel" Wong, the famous Chinese photographer who has been with Metro 21 years and has covered every battlefront and the far reaches of the globe for news subjects, was given a furlough while attached to Gen. MacArthur on Luzon. . . . He decided to spend it in New York, the only place of interest and importance he had never before visited. . . . He arrived on a Saturday morning, in uniform and with his cameras, looked up the Metro Manhattan office in the phone book, and went there. The place was closed for the day, but some scrubwomen were at work and so the door was open. . . . Wong was about to leave, when a telephone, hooked on through the switchboard, rang. He picked it up. An excited voice reported the crash. . . . Wong grabbed a cab. Police lines were closed, but because of his uniform and a breastful of service ribbons he was allowed through. . . . He did his stuff with his usual vigor and sped back to the office. . . . By that time, the executives had heard of the hot story and were in and 'phoning for photographers frantically, when Wong, whom they had never seen, whose presence on this continent was news to them, entered with the whole thing in his bag. . . . They slapped him on the back, hugged him, etc. . . . "That's quite all right," said Wong. "I always did want to see the Empire State Building!"

Investigators of two Congressional committees are in Hollywood, looking into the activities of the Communist groups in that area. With the "degradation" of Earl Browder by his monkey-glanded party, a lot of the boys and girls in the picture colony and its offshoots felt they had to get furiously busy to prove their Red loyalty. . . . When a resolution condemning communism was presented to the Central Labor Council of California, the motion picture crafts were in the foreground voting it down.

SEWING CIRCLE PATTERNS.

Charming Side Button Princess

HERE is a charming side button princess dress to carry you through your busy day-long schedule. Soft scallops make an attractive finish for the closing.

Pattern No. 8907 is designed for sizes 12, 14, 16, 18 and 20 Size 14, short sleeves, requires 3¼ yards of 39-inch material; 1⅜ yards trimming for neck and side front.

Due to an unusually large demand and current conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

SEWING CIRCLE PATTERN DEPT.
530 South Wells St. Chicago
Enclose 25 cents in coins for each pattern desired.

Ship's Odd Signal

One of the oddest signals flown by a ship is the white paying-off pennant which is hoisted on a British naval vessel to show that it is homeward bound to be put out of commission, says Collier's.

Although this pennant is only two inches wide, its length is equivalent to that of the ship, which may be hundreds of feet. Therefore, a small balloon has to be attached to the end of the ribbonlike streamer to keep it in the air.

Underground Parking

The parking problem in Buenos Aires is relieved by an enormous area built under one of its huge plazas. A boulevard more than 450 feet wide is the roof for this parking center, which covers 16 blocks.

CONSERVE AND PRESERVE

Purple grapes again this year are more likely to adorn the family cupboard. But if grape is your family's very favorite jelly, compromise with the sugar shortage by canning some juice for jelly making, as you have the sugar.

Jelly from grape juice stored 6 months will have as good texture as that made from the fresh juice, though you may sacrifice some flavor. One advantage of using canned juice is that harmless cream of tartar crystals, which will settle in the bottom of the jars and may be strained out, will not then appear in the jelly.

Canning Preparation

To prepare the unsweetened juice for canning, remove the grapes from clusters, wash, and add just enough water to the kettle to prevent sticking. Heat 10 minutes at simmering, but do not boil. Strain through several layers of cheesecloth Pour into hot jars and process 20 minutes in hot-water bath. Complete seal.

Grape juice for beverages usually is prepared with just enough sugar to bring out the flavor. However, delicious juice without a bit of sugar can be made by pressing the grapes in a cider press. If you have an old-fashioned lard press, you might try your luck with it.

Preparing Juice

In lieu of a press, here's an excellent method for preparing juice. Wash, stem and crush fresh, ripe grapes. Add 1 cup of water to each gallon of crushed grapes. Heat 10 minutes at simmering, and strain through several thicknesses of cheesecloth. Let stand in a cool place, preferrably in a refrigerator 24 hours Strain again. Add 1 cup sugar to each gallon of juice. Reheat to simmering and pour into hot jars. Process 20 minutes in hot-water bath, then complete seal.

Now, in these methods, if sugar is still your problem, you must have sweetened grape juice, use corn syrup Sweeten the juice to your own taste either before canning or after the juice is opened.

* * *

A little reconversion on the kitchen front will transform garden tag-ends into handsome jars of vegetable soup in no time.

The idea is to use what you have, or at any rate, what you and your neighbors have. Swap your surplus for what you need The more vegetables you use, the better the soup.

Vegetable Potpourri

You'll probably have carrots, snap and wax beans, limas, parsley, tomatoes, corn. And, if yours is an adventurous soul, some okra. Celery, too, enhances soup flavors; here's a good chance to try out that idea of pulling off the outer leaves, leaving the inside stalk to grow.

Forget to put beets in, they'll dye the whole mixture. And save onions, cabbage and other strong-tasting vegetables to add when the soup is used Processing multiplies the strength of these prominent flavors until their weaker sisters are completely squelched.

Cube Vegetables

Cube vegetables or cut small. Add water if needed and heat the mixture to boiling. Pack the jars hot and cover with hot cooking liquid. Process in pressure cooker at 10 lbs. pressure—60 minutes for pints, 70 minutes for quarts. Or, if you haven't a pressure cooker, 3 hours in a water bath will process the soup about right.

When you open the jars next winter, don't forget about boiling the mixture 15 minutes before you taste. Use with meat stock, or plain, or add one of the noodle, rice or dumpling family. If there's not too much liquid, those diced vegetables will be a good addition to gelatine salad.

SPEED SEPARATOR WASH BY USING NEW METHOD

A. W. Rudnick, Iowa State College dairy specialist, says the new washing method takes less time to wash a cream separator than it does to tell about it. As a matter of fact, he says the average homemaker should be able to do the job in two minutes.

The new method worked out at Iowa State College is a time and labor saver. Warm water for washing, boiling water for rinsing and a wetting agent are the only materials needed.

Rudnick says the first step is to rinse the supply tank with about a cup of warm water. At the same time pour a pint of warm water over the float and let it run thru the separator. Next place a tablespoon of the wetting agent in the supply tank. Pour in a pail of warm water and allow this solution to run through the separator. Brush the supply tank inside and out and wipe the front of the machine. The fourth step is to dismantle the machine and place the parts in a supply pan. Finally, pour a kettle of boiling water over the parts, drain and dry. That's all there is to it.

After the separator has been washed, it should be kept clean by hanging the parts where they will not be contaminated.

HANDLING SOFT CORN

Surveys are under way in all of the counties in the state which indicates that we will have much soft corn even though frost holds off until the normal time, the first week in October. Farmers are going ahead with plans to take care of their soft corn.

WHEAT MAY BE PLANTED ANYTIME NOW

Farmers in Hancock County may plant their wheat any time after September 19, with assurance that they are safe from Hessian fly infestation, Paul Henderson, County Extension Director announced today.

Louis Adamic, American sociological writer, was born in Yugoslavia of peasant parents, and came to the United States when not quite 15 years old.

U. S. Army records show that more than one in 4 American soldiers is 5 feet 10 inches or more, and almost one in ten is 6 feet or more.

Durazzo, Albania, flourished 2,500 years ago as Epidammus of the Greeks, and was renamed Dyrrachium when it passed into the hands of the Romans.

KLEMME NEWS

Pvt. Thomas F. Roths, Jr., came Tuesday from Camp Campbell, Kentucky being called home on an emergency furlough because of the serious illness of his grandmother Roths.

Mr and Mrs. Otto Lemke have improved their residence on East Main street by having the old front porch taken off the house and in its place have built a modern closed-in porch.

Mr. and Mrs. R. A. Jorgenson entertained to dinner Friday evening, Mr and Mrs. Lyle Liebendorfer and Grandma Liebendorfer of Forest City, and Pvt and Mrs Robert Liebendorfer and son Jon of Hobbs, New Mexico

H D Ramsay of Waterloo was a Klemme visitor for a short time Saturday. Mrs. Ramsay and Carmen acompanied him back as far as Marble Rock, where they remained for a week's visit with Mr. Ramsay's parents.

Mr. and Mrs. Orville Bridges entertained to dinner Sunday Mrs. Herman Bridges; Mrs. Walter Walter Drake and children; Mr and Mrs. Glen Bridges and children, and Mr. and Mrs Cecil Bridges and children.

Mrs. Ben Coobs and Mrs W. F Pavey were at Mason City Thursday afternoon and while there visited with the following Klemme people at the Mercy hospital: Edwin Josten, Mrs. Henry Medaus, and Walter Lauster.

Mr. and Mrs. C G. Waterman returned Sunday morning from their vacation trip of a week from the south. They were in parts of Missouri, Arkasnas,, Louisiana and Mississippi. They went south with their daughter by automobile to Alexandria, La. and returned home by train.

"Leases on Luck," by Damon Runyon; "Feudal Dame Again Ruling the Isle of Sark" by Fannie Hurst. Both articles by these well known novelists appear in The American Weekly, the magazine distributed with this Sunday's (September 23) Chicago Herald-American. 1tp

Mr. and Mrs. Wayne Lemke and children, Sharon and Larry of Des Moines came Sunday. Mr. and Mrs. Lemke continued on to the Twin Cities while Sharon and Larry spent Sunday and Monday with their grandparents, Mr. and Mrs. Otto Lemke.

Mrs. C. A. Arnold and Mrs Lester Stille will attend the Methodist Conference at Estherville and will leave for there Thursday.

Miss Betty Etchen, of Des Moines, is enjoying a week's vacation and is visiting this week with her parents, Mr. and Mrs. John Etchen.

Mrs. Etta Costello and Seaman and Mrs. Lawrence Costello and daughter Mary Adeline, of Blue Island, Illinois, came last Wednesday for a visit until Monday at the E. J. Schneider home. Mrs Costello is a sister of Mrs. Schneider, and Seaman Costello is her nephew.

Capt. and Mrs. A. H. Dulmes returned to Grundy Center Friday evening after spending several days visiting with Klemme friends. They were guests at the Art Kudje home while in Klemme. Capt. Dulmes is home on a thirty day leave from overseas duty in Italy. He expects to return to Klemme to practice medicine as soon as he receives his discharge from the armed service.

Edwin Josten returned home Friday from the Mercy hospital at Mason City where he went for treatment following an accident in which he lost the sight of one eye. Mr. Josten was struck in the face by a hay sling as they were elevating hay into the barn, breaking his glasses which in turn pierced his eye with broken glass. He is making a good recovery and was able to be up and around after coming home.

Clemence Dane, English novelist and playwright, was born Winfred Ashton and took her pseudonyn from the famous church of St. Clements Dane in London.

Before Franklyn P. Adams was a columnist or a radio celebrity, he was an insurance salesman, and also collaborated in 1909 with O. Henry on a musical comedy, "Lo."

An estimated 100,000,000 tons of freight were carried over the Rhine river in peacetime years.

New Banana Plantation A Major Development

Starting a banana plantation is a very different sort of a job than planting an apple orchard, for example. Because of the ravages of disease, wearing out of soil, and other reasons, it is frequently necessary to abandon a banana plantation and move on to virgin land. . . . Drainage ditches are dug and the underbrush is cleared away. The land is then lined and staked and made ready for planting. . . . At each stake, 15 to 18 feet apart each way, a hole about one foot deep is dug and a 3 to 4 pound piece of healthy rhizome is planted.

After planting and before the sprouts appear above the ground, all the big timber is cut down, leaving a tangle of branches, logs and stumps. Then through this jungle, roads and railroad lines must be built. The tangled mass of timber soon rots away, making a good mulch and adding humus to the soil. It thus provides excellent growing conditions for the young banana trees. In about three months the plantation is ready for the first cleaning which involves trimming off the branches of the felled trees and cutting weeds and other tropical growth. This is repeated about every three months.

In the meantime roads are completed, railways are laid, housing for the employees is prepared and everything is made ready for the harvest. This is usually a race against time. In 12 to 15 months after planting, the fruit is ready for harvest. Cutting must be geared to shipping, however, because the banana has to be in the consumer's hands in a limited number of days after it is taken green from the tree. On the ship special equipment maintains the fruit at the proper temperature and humidity.

Sparkling Windows Add To Charm of Home

To make sure that windows will be bright and clean, do not use soap and water on the panes. Soap streaks the glass and is hard to rub dry. Clear warm water can be used if the glass is not too dirty. If grease and dirt cling to the panes, add a little ammonia or alcohol to the water to get the windows clean. Use four tablespoons of dilute ammonia for each gallon of water.

Windows can be cleaned and dried quickly and easily if the water or solution is sprayed on. The spray gives a thin, even film of the liquid all over the glass.

If you do not have a spray, the next best way to wash windows is with a chamois, which takes up water quickly and thoroughly and leaves no lint, as cloth often does. A piece of chamois may also be used to dry the windows. For windows that are left open often, protect the sills from rain spots and dust with a coat of liquid wax, after washing and drying the sill. Apply a thin layer of wax, and polish until the wax is hard enough to provide a protective finish.

Good Seed

Does seed of oats, barley, wheat and other farm grains actually "run out?" A good many farmers believe it does. They think it's necessary to get new seed every few years because, they say, their seed "runs out." In other words, they believe that seed grown for a number of years on the same farm loses its ability to yield satisfactorily. Agronomists say that there's probably some foundation for such a widespread belief because seed on many farms does cease making satisfactory yields. But, the reason they say, is the accumulation of disease and other crop mixtures in the grain. It is their contention that if seed oats and barley are kept pure, and disease is properly controlled by seed treatment, seed sources of oats and barley can be maintained on the same farm and produce satisfactorily for an indefinite time.

Deficiency in Cattle

In cattle, probably the first noticeable symptom of vitamin A deficiency is a cloudy condition of the eyeball, and excess watering of the eyes. There may be loss of appetite. Calves are commonly dead or weak at birth. The cow may have difficulty in calving and frequently retains the afterbirth. She may give little or no milk. Ewes may have similar symptoms, and in addition may develop lambing paralysis, with resulting loss of the ewe and lambs. Good green hay, a good source of carotene which is the substance from which vitamin A is produced in the animal's body, is the preventive and the cure for this condition. Brown or bleached hay does not have enough carotene.

Proper Kraut Storage

There are two methods for storing kraut. First you can pack it in glass jars or tin cans and process it in a water bath. Or, second, you can store it in the container in which it was made by sealing over the surface with hot paraffin. Recent research, not yet completed, now seems to indicate that the second method will mean the kraut retains more vitamin C than if it is processed. That's providing the seal in the crock or jar isn't broken, of course. In any event, food preservation specialists recommend that kraut be stored in a cool, dark, dry place.

Klemme Soldier Transferred

Dear Jergie:

I am now at Keesler Field, Miss. It's a pretty place, but is wet. It rains about every day (a little, so they say.) It rained hard last night just as we got to the barracks here at midnight.

We came through Houston, Tex., then up to Baton Rouge, La. where we crossed the Mississippi, then on to New Orleans and across the St. Louis Bay to Mississippi, and then out here to this camp. Not much to write about. My new address is:

Pvt. Harold Lassahn, 37803901,
370th AAF BU Sqdn. O,
Keesler Field, Mississippi.

The Army's basic photography course costs $550 a student.

BETTER IOWA GARDENS

Everything should be in readiness in advance for storing garden vegetables. Containers such as crocks, and lined baskets with lids should be collected. Beets, carrots, parsnips and the like shrivel badly unless they are stored in closed containers. It is not necessary to store root crops in sand if the container is covered with a lid.

* * *

Concrete building blocks and wide boards can be used to make additional shelf space if needed for the vegetable storage. Place several building blocks along the wall to support the first length of plank. A block placed at each end of the first shelf will give support for the second shelf and so on.

* * *

Beans to be used as dry mature beans should be allowed to ripen fully on the plants. When the majority of the pods have turned thin and papery, the plants may be pulled and spaced out in a well-ventilated place to dry thoroughly before the seeds are threshed cut.

* * *

Squash or pumpkins, regardless of whether or not they are new varieties, should be allowed to remain in the garden until the first frost in the fall. That's true for butternut squash which many gardeners have grown this season. Chances are that the fruits will be better quality. The skin of matured fruits is difficult to dent with the fingernail. All fruits should be cut from the vines with about 2 inches of stem attached. They may be left in the sun several days to hasten curing.

* * *

Recent cool weather is a reminder that frost isn't too far off. Most crops—potatoes, cabbage and perhaps pumpkins and sweet potatoes—to store. It's time to see that the storage room is ready.

* * *

Dig sweet potatoes just before the first killing frost and cut off the vines Take care, in digging, not to injure the roots. If a light frost does not kill the vines, dig the potatoes at once as frozen sap passing down to the roots will cause decay. If it isn't possible to dig the potatoes at once, cut off the vines and cover the tops with dirt to prevent freezing.

* * *

After digging sweet potatoes allow a few hours drying, but ever let them stand overnight. Harden the skin by storing at 80 to 90 degrees Fahrenheit for 3 or 4 days. Then store in crates in a dry room at about 60 degrees Fahrenheit.

* * *

Some gardeners still have not dug their Irish potatoes even tho the vines have been dead for several weeks, and the patch is now a mass of weeds. Potatoes will keep much longer if dug and put into a cool cellar. Late summer soil is too hot and will reduce the keeping quality of the potatoes.

* * *

Where sweet corn is all picked, especially where there were some European corn borers, now is a good time for the home gardener to cut the stalks close to the ground and let them dry out in a shock. These stalks will be all ready for mulching material or for burning later. If used as mulch, burn them early next spring before May 15. Stalks cut now mean less work later when the garden is made ready for fall plowing.

* * *

Is there a second crop of snap beans on those old plants you did not get to pull? Use them.

FAMILY LIVING PROGRAM ANNOUNCED FOR HANCOCK

Township women's organizations are being completed in most of the townships of Hancock County. The Family Living program will get under way in Ell township on Oct. 2nd with their first meeting at the home of Mrs. L. F. Weaver. Dates and places for other township meetings will be announced later.

Miss Hazel Grimes, County Extension Home Economist, says major subjects to be covered in the county this year are: Care of Electrical Equipment; Time Management; Furniture First Aids; Personal Design; and Your Best Foot Forward.

All rural women interested in attending any phase of the program should contact the Township Chairman or some member of her committee. You will then receive a notice of the time and place for that particular meeting.

RAIN TODAY!

A good rain fell over this section of the state which is beneficial to fall plowing.

The past week was cold and no corn weather. The temperature rose again Tuesday, making it an ideal corn day. A lot of warm, sunshiny days are still needed to mature the corn crop.

From Pearl Harbor to Jan. 1, 1944, industrial accidents killed 37,600, or 7,500 more than the military dead, according to the war production board.

FARM BUREAU CALENDAR OF EVENTS

WEEKLY NEWS ANALYSIS

MacArthur Lands to Rule Japan; Press Demands for Open Airing Of Disaster at Pearl Harbor

Released by Western Newspaper Union.

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

In conference aboard USS Missouri, Jap navy officers chart Tokyo bay for Admiral Halsey's staff preparatory to American fleet's triumphant entry as part of General MacArthur's occupation force.

JAPAN:
Mac's Show

Cool as a cucumber, Gen. Douglas MacArthur stepped from a transport plane at Japan's Atsugi airdrome 20 miles southwest of Tokyo, smoking his large, corncob pipe. Stopping to look around, he saw the field abuzz with activity, as members of the 11th air borne division, landing from scores of aircraft, busied themselves for the occupation.

Evidently pleased, Japan's new boss then made his way forward, stopping to greet Lieutenant General Eichelberger, chief of the U. S. 8th army, which had fought in the Philippines. "Hello, Bob," were his first words upon his historic landing on enemy soil.

In landing to take over control of Japan, U. S. forces looked upon an extensive scene of devastation in Tokyo and Yokohama, scorched by repeated B-29 and naval carrier raids. Unlike Europe where splintered masonry cluttered everything, charred hulks and ashes were all that remained from thousands of Oriental frame buildings. Whole areas were burned out, with only buildings encompassed by spacious walks, lawns or clearings spared from the roaring flames which once swept block upon block.

Despite the widespread damage, Japanese held their heads high in contrast to the Germans, who had humbled themselves in an effort to please their conquerors. Peering from windows as G.I.s streamed by, or walking the streets, or setting up temporary shelters from salvaged tin, the little brown people remained perfectly composed with typical Oriental indifference.

Promising to match MacArthur's landing at Atsugi airfield in sheer drama was the scheduled surrender ceremonies aboard the USS Missouri in Tokyo bay, with Lt. Gen. Jonathan Wainwright, rescued from a prison camp in Manchuria, present to witness the capitulation of the haughty imperial staff which dictated terms to him upon the fall of Corregidor over three years ago.

LEND-LEASE:
Asks Write-Off

In asking congress to write off the 42 billion dollar lend-lease program, constituting 15 per cent of the total U. S. war expense, President Harry S. Truman declared that adequate repayment not only had been made by recipients through their war efforts, but also through their agreement to promote international trade through a lowering of tariff and other barriers.

Further, the chief executive said that if so huge a debt were to be added to the financial obligations already incurred by Allied nations, it would react disastrously upon our own trade, decreasing production and employment at home.

Whereas there once was talk that the U. S. would retake tanks, trucks or machine tools lend-leased, top officials said, little of such material will be retrieved since reclamation would only add to the mounting stockpiles of war surplus in this country. Of the 42 billion dollars of lend-lease, against which the U. S. obtained only 5½ billion dollars in corresponding aid, half was in military supplies and the remainder in civilian goods like food.

OCCUPY RICH LAND:

The first Japanese soil to feel the impact of American occupation comes within a region which would have been a prime military prize while the war was on.

Atsugi airport, where the Yanks landed, lies in the southwest section of the Kwanto or Tokyo plain, normally Japan's most productive farm and industrial region. Nearly 10 miles inland from Sagami bay, this site is only 20 miles southwest of the capital and largest city, Tokyo.

PEARL HARBOR:
Rap Report

Despite release by army and navy boards of inquiry of 200,000 word reports covering the Pearl Harbor disaster of December 7, 1941, congressional circles remained dissatisfied over findings, demanding open trials of principals involved and access to information upon which the investigators based their conclusions.

Gen. Marshall

No sooner had the reports been made public, adding the names of Gen. George C. Marshall, Adm. Harold C. Stark and former Secretary of State Cordell Hull to those of Maj. Gen. Walter C. Short and Rear Adm. Husband E. Kimmel for failure to take proper precautions, than Chairman May (Dem., Ky.) of the house military affairs committee declared he would not stand for "any whitewash." The people are entitled to know the whole truth based on all the facts, he said.

On the other side of congress, Senator Taft (Rep., Ohio) asserted the reports left a lot to be told, and full evidence studied by the courts of inquiry should be revealed now that military security no longer is involved.

Issuance of the report had other repercussions, too. President Harry S. Truman and Secretary of War Henry Stimson took strong exception to the censure of General Marshall, the two terming criticism of the army chief of staff "entirely unjustified" while praising his "great skill, energy and efficiency" throughout the Pearl Harbor episode.

In naming General Marshall, the investigators charged he failed to keep General Short, Hawaiian army commander, fully advised as to the growing tenseness of the Japanese situation; failed to send him additional instructions after the U. S. ultimatum to Tokyo made war inevitable; failed to furnish him on the evening of December 6 and morning of December 7 with critical intelligence indicating a rupture of relations with Nipopn, and failed to look into and determine the state of readiness in Hawaii during the critical period.

Then chief of naval operations but since retired, Admiral Stark was censured for delaying a warning of an impending attack on Pearl Harbor by sending it by cable rather than telephone. The two hours difference in transmission would have enabled the navy to make preparations for the assault.

In singling out Hull, the boards averred that he might have conducted negotiations with Jap Emissaries Nomura and Kurusu differently to gain precious time for the army and navy to gird for action.

Cordell Hull

To crown the navy's negligence, pointed up by failure to take proper precautions even after being apprized of a Jap task force's presence in near Hawaiian waters, subordinate officers did not report the sinking of an enemy submarine in outer Pearl Harbor the morning of the fateful attack to the army.

Insect Repellents

DDT is the most effective insecticide yet tried for bedbug control, according to information to the National Association of Housing Officials. This fact was determined at the end of an eight months' experiment, involving more than 3,000 infested dwelling units in 35 developments throughout the country.

In most cases, it was found, housing units treated with a 4 per cent solution of DDT in deodorized kerosene are protected against reinfestation for at least 90 days.

WAR CRIMES:
List Defendants

Not as blustery as he was when Germany ruled the European roost, Reichsmarshal Hermann Goering topped the list of 24 Nazis scheduled for trial as war criminals early in October.

Named with Goering was a galaxy of former Nazi bigwigs accused of preparing the nation financially and industrially for war; scheming diplomatically for advantage; regimenting the nation internally, and leading the German armed legions into attack.

Next to Goering, Rudolph Hess, Hitler's choice for his successor before he flew to Scotland in a vain effort to receive Allied support for an attack on Russia, heads up the list of defendants. Close behind are Joachim von Ribbentrop, who, as foreign minister, directed Nazi diplomacy; Martin Bormann, head of the people's army; Franz von Papen, big shot in German politics and master of international intrigue; Adm. Karl Doenitz, who directed U-boat warfare, and Field Marshal Wilhelm Keitel, chief of the wehrmacht.

Joint U. S., British, Russian and French plans to try the accused before an international military tribunal in the former Nazi shrine of Nuerenberg, however, did not meet with the full approval of many distinguished members of the American Bar association.

Declaring that Allied procedure was without historical precedent, P F. Gault, constitutional and international law expert, said the system of trial offered a dangerous pattern which might be followed in the future against the President of the U. S. down to ordinary citizens. Under procedure established, trials may be held outside the presence of the accused, no appeal is provided against judgment; the tribunal may admit any evidence it wishes, and also determine the relevancy of testimony.

Working Capital Up

Well heeled to meet reconversion problems, U. S. corporations possessed almost 47 billion dollars worth of working capital on March 31, the Securities and Exchange commission reported.

Of the total of almost 47 billion dollars, SEC said, nearly 25 billion dollars was in cash on hand or in banks. Holdings of government securities showed a slight drop to almost 20 billion dollars, still substantially in excess of tax liabilities of about 16 billion dollars.

In addition to current working capital, corporations have been promised further increments through income and excess profits credits; allowances for stepped-up debt retirement of emergency facilities, and provisions for new figuring of base-period returns for excess profit determination.

POSTWAR ARMY:
Asks Draft

Even as President Harry S. Truman asked for an extension of draft of men 18 through 25 for two-year periods of service to provide replacements for dischargees, both the army and navy announced revision of their plans to step up the release of enlisted personnel and officers.

With congressional sentiment for extension of the draft still lukewarm Mr. Truman declared that the army would be unable to meet postwar demands through volunteering if discharges were to continue at an appreciable rate to relieve present soldiers from extensive overseas service. To speed up recruiting, however, the President recommended that the regular army ceiling of 280,000 be raised and inducements offered volunteers.

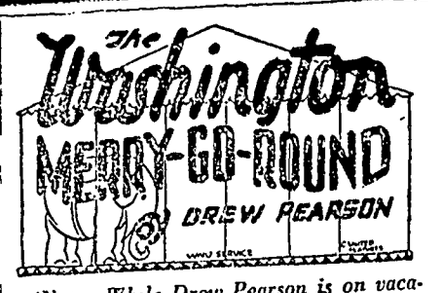
Meanwhile, the army revealed plans for lowering the point-standard for discharge from 85 to 80 to bring about release of 6,050,000 G.I.s by next July. Assuming there will be 500,000 new draftees and 300,000 volunteers, army strength would be pegged at 2,500,000 men.

In addition to announcing that the point score for enlisted personnel would be cut, the army disclosed that officers hereafter would also be discharged on a general basis rather than after individual review of their need as at present. Further, the army said no men with 60 or more points would be sent overseas and the discharge age would be lowered from 38 years.

To help expedite discharges of 2,839,000 men within the next year, the navy announced a revision of its point-scores to include overseas duty. Previously, it had been planned to release between 1,500,000 and 2,500,000 men within 12 to 18 months.

FARM TAXES:

Average farm real estate taxes per acre increased over 3 per cent from 1943 to 1944, the first increase since the outbreak of the war, with the index of real estate taxes per acre for the U. S. (1909-13-100) advancing from 178 in 1943 to 184 in 1944. Since 1934 average taxes per acre have varied within very narrow limits and although the increase in 1944 is the sharpest within this period the index still does not exceed the high points for the period, which were 186 in 1937 and 1939.



(Note—While Drew Pearson is on vacation, Secretary of Agriculture Clinton P. Anderson contributes a guest column.)

By CLINTON P. ANDERSON
Secretary of Agriculture

WASHINGTON. — The first Sunday after V-J Day, a friend came by with an automobile to take my family and his for a drive into the country to have dinner with another friend. Nothing like that had happened in years. We were all delighted at the chance to ride through country lanes, to talk about the height of the corn, the possibilities of crops, and the probability that we would enjoy meat for dinner.

But as we started back into Washington, we could not help but notice that the roads were filling up. There was a long line of traffic and many folks drove by at speeds which seemed reckless to us. They were perhaps driving 40 or 45 miles an hour and we had become accustomed to the 35-mile an hour leisurely gait.

When one speeding car swirled past us, I heard my wife murmur, "My, what I wouldn't give to have gasoline rationing back."

I began to wonder how many of the things that war had brought to us as sacrifices or privations we would soon come to appreciate as blessings in disguise. I began to wonder how long it would be before people would sometimes sigh for some of the real advantages of the days during the war when we all lived a little closer together, a little more simply, and perhaps a little more in the traditional American pattern that had started this country on its way to becoming a great nation.

Real Values of Life.

Do you remember back in the years of the depression that Henry Ansley out in Amarillo, Texas, wrote a book entitled, "I Like the Depression?" Frankly, I liked his little book, because he told of the blessings that had come to him with a reversal in his financial situation. He told of the discoveries that he had made as the period of wild prosperity passed and the long months of depression set in. He told of the farmers who had gone back to living on their farms instead of living off their farms.

The war has done something to all of us. It made us appreciate some of the real values of life that many of us had lost sight of. We all complained a little about the war, didn't we? We were a little disappointed when we found that the stocks of new cars were frozen, but we discovered that the old car was a lot better and would run a lot longer than we had thought.

Car-Pool Neighbors.

I remember my first experience with a car pool. We had two automobiles at our house; our next door neighbor had two automobiles at his place. We were not well acquainted, mostly because it wasn't necessary, until the war came along. Then my next door neighbor and I and two others, who heretofore had gone to our offices by separate means, found ourselves fused together into a car pool. We were irrevocably tied to each other. We had to rise at the same time in the morning, leave at the same hour for work, and return home together in the evening.

I am sure that at first we all resented a little the fact that we lost our freedom of action, but we gained a great lesson in neighborliness. We found out that the people who lived next to us might be just as interesting and attractive, just as pleasant and just as companionable as the people whom we had always known who lived down the street or across the city.

Victory Garden Blessing.

How many women improved their figures as they walked to market! And think what Victory gardens did for the men!

Like Drew Pearson, I will perhaps be away from Washington when this column is printed, away on a short vacation. While I am gone, someone will be mowing my lawn. During the war I had to mow my own lawn. I couldn't find anyone interested in taking care of my particular little piece of property. And a strange thing happened: I found that I could mow it as well as anyone else, that I could mow it quickly, and that I could learn within a short time exactly how each particular section could be best mowed to develop the best cut of grass. And I found out also that when I mowed it myself, I not only improved the lawn, I improved my own digestion.

I'll miss that now that the war is over, because I'll tell myself that I'm too busy to do it when I can hire someone else for the job. I suppose that my wife will miss something, too, because she used to walk to market and carry her groceries back home in a basket.

As for myself, I reflect upon the fact that an automobile salesman used to be able to sell me a new car each year. But when the war came I learned that automobiles will go 50,000 or 100,000 miles and still be pretty dependable as a means of transportation.

THE CUSTOMER-WORM TURNS

The characters are a clerk and Mr. and Mrs. Elmer Twitchell. The scene is almost any store. Time—Six months after the war.

Clerk (as Mr. and Mrs. Twitchell appear at his counter)—Well?

Elmer—Well, what?

Clerk—Do you wish something?

Mrs. Twitchell—Don't tell him!

Elmer — Not a chance, honey; we'll make him wait.

—*—

Clerk (smiling)—What can I do for you?

Mrs. Twitchell — He's actually smiling! Him, of all people!

Elmer (handing her a paper) — Here's something for you to read, honey. I'll tackle a magazine.

—*—

(They sit down on camp stools which they have carried to the store, and ignore the clerk.)

—*—

Clerk—If there's something I can show you. . . .

Mrs. Twitchell — Can't you see we're busy?

Elmer — Take it easy. We'll get around to you in time.

—*—

Clerk — After all this is a store catering to the public, and I'm the clerk here.

Mrs. Twitchell—Oh yeah!

Elmer—Do you know who we are?

Clerk — You're customers, aren't you?

Mrs. Twitchell — Don't tell him, Elmer!

Elmer (as the clerk seems impatient) — One of them guys who's always in a sweat, eh!

—*—

(The Twitchells yawn and continue reading, ignoring the clerk quite completely for 10 or 15 minutes.)

Clerk (pleadingly) — I wish you'd let me wait on you.

Mrs. Twitchell — Don't try to rush us!

Elmer — You want us to let you wait on us ahead of other clerks in this store, eh? You're somebody important, I suppose.

Clerk (who has, with the coming of peace, reconverted to the prewar manner) — If you don't see what you want ask for it! We aim to please! A satisfied customer is a solid foundation for business success. . . .

Mrs. Twitchell — Quick, Elmer, the aspirin!

—*—

Clerk. — The secret of this store's popularity is customer-service. My time is your time! May I assist you promptly?

Mrs. Twitchell — Tryin' to intimidate me, eh?

Elmer—Ignore the big bum, dear.

—*—

Clerk. — Aw, come on; lemme wait on you!

Mrs. Twitchell — Nothing doing. If you don't like it go to some other store!

Clerk — But it's my duty to wait on customers and . . .

Elmer — You ain't the only clerk in this place. Wait for your turn like the rest of 'em.

Mrs. Twitchell — When we're ready to be waited on in a polite manner we'll let you know.

Clerk — Doncha know there's a peace on?

The Twitchells (swooning) — That does it!

* * *

NOT YET, BUT SOON

"How many gallons? Fill 'er up!"
How sweet those words once more!
The long dead words of yesterday
That disappeared with war;
"How is ya windshield? How's the oil?" . . .
"Just name the type and brand" . . .
What joy and rapture this now brings
Throughout the weary land!

"What kind of meat? A tenderloin?"
"A porterhouse? Why not!"
"I wish you'd take these nice loin chops" . . .
"These hams will hit the spot!"
Oh, what a thrill when talk like that
Is looming just ahead—
And not a butcher says, "You'll have
To take stew meat instead!"

To find a guy who'll do a job
For ten bucks at the most
And not want forty dollars just
To paint a hitching-post!
To live as once we used to live
Quite kindly man to man
With patience and with courtesy
Within the post-world plan!

* * *

He stood on a corner with two suitcases, a letter to the secretary of labor, a kit of tools, a copy of "How to Live Within an Income," a copy of the classified ad pages, a bathing suit and a worried look.

"Whatcher doin'?" a friend asked.

"I'm reconverting," he replied.

* * *

After the peace, Japan is going to have a wonderful time running around with cameras photographing American soldiers, sailors and marines.

EDITOR'S NOTE: This new through special arrangement wit Washington Bureau of Western New Union at 1616 Eye Street, N. W. ington, D. C., is able to bring reade weekly column on problems of the v and serviceman and his family. Qu may be addressed to the above and they will be answered in a subs column. No replies can be made dir mail, but only in the column which appear in this newspaper regularly

Disability Rate Change

Because of the much greater centage of survival from shot wounds of the brain, ches abdomen in this war than in War I and because of new dis ties incident to service in the ics, the Veterans administratio adopted a new rating schedu determining the degree of disa suffered by veterans of this w

The schedule, which has be preparation for two years, rep and liberalizes many provisio one prepared in 1933 and last example, 176 separate disabili bones, joints and muscles wit merous gradations within eac compared to 126 listings in the vious schedule.

Special attention has been in the new service-connected ability ratings to scars res from explosions, oil burns an residuals from frozen or imme foot. A number of tropical dis have been listed as cause fo ability with special ratings ad for each, although only ma and filariasis have been encoun among discharged veterans.

Changes in the medical co of the relationship of specific eases to other conditions and to service connection are also ref in the new schedule. This ha sulted in the inclusion of many disabilities, some of which rated as high as 100 per cent temporary basis where they not expected to produce more a 10 per cent permanent disa All changes are designed to tate more accurate and more e ble ratings for the various ty disabilities.

In using the new rating sch however, the basic policy of the erans administration remains changed and the veteran is al the benefit of the doubt as be the higher of two ratings, in d mining whether or not a disa is service-connected.

Questions and Answers

Q. How does the death ra wounded soldiers in the presen compare with that of the World war?

A. According to the war depart announcement June 1, the death of our wounded soldiers in this is 8 per cent. The death ra wounded soldiers, who lived enough to reach surgery in the World war was 24 per cent.

Q. Would transfer to a di outfit overseas account for th motion of a corporal to a priv

A. The war department says a soldier could be demoted, w prejudice, to the grade of priv he was transferred into an org tion where there was no vacan his grade.

Q. Is a former member of the bees, who participated in the at Vella Lavella entitled to a

A. One star has been authori be worn on the Asiatic - Pacific service ribbon for participati one or more of the following ac Vella Gulf action, August 6 t 1943; Vella Lavella occupatio gust 15 - October 16, 1943, action off Vella Lavella Oc 6-7, 1943.

Q. How soon after filing a tion for a pension can the wi a war veteran expect pay

A. There would be no way o ing the exact time which elapse, but the pension wou retroactive from the date of cation.

Q. Would you advise dr government insurance policy?

A. Most service officers beli advisable not to drop governme surance, especially if you h service disability and likely w be able to pass a physical exa tion for private insurance. jority of veterans are conv their government insurance in payment or other form of p life insurance. At least, the v should permit his insuranc run its present term until he chance to analyze his ability to up an insurance schedule ad ments. We suggest that you sult your local draft board, ve administration or your priva surance company.

Q. Can a veteran of either war or the First World war o hospital in another state to ta vantage of a better climate, a he remain in the hospital wh state in which he lives?

A. According to the Veter ministration, it is possible in cases to be transferred to a pital outside his state. His tra tation would not be paid for the physician in charge such a transfer. You shou the matter to the regional the Veterans administration rated you and is handling

Radar equipment recently made this "search" of surrounding terrain. Lettered on the photograph of the plan position, indicator scope, are designations of points picked up by the radar pulse.

a second, or 186 miles. The range of the object would therefore be half of 186 or 93 miles. Radar has been perfected to see beyond the horizon, but it will not see through water at present stage of development.

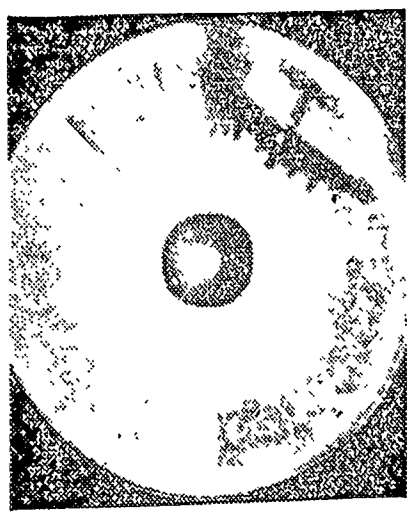
Physical Make-Up.

The actual physical make-up of radar sets varies. Uses and manufacturers will develop different types, as has been true with radios, automobiles or planes. In general, however, they are made up of the following parts

1. A radio-frequency oscillator, or vacuum tube or group of tubes. These oscillating at a desired frequency send out into the air the waves.

2. A modulator sends out the direct bursts of the short-waves, which enables the receiver to handle them when they return. Each burst of energy is about one-millionth of a second long, the pause between the bursts being a few thousandths of a second in length.

3. An antenna, which directs the waves on their take-off, and beams them in particular direction and distance. It is the beaming on a fixed area. The antenna is adjustable to cover any part of the entire horizon as it revolves in a circle.



This photo, made during a demonstration of a mobile trailer-mounted radar set, shows the illuminated oscilloscope as the image of a bomber, flying at low altitude, came into the range of the radar beam. During war the antiaircraft gun's crew would receive exact location of the bomber immediately.

4. The receiver is the set which picks up the returning waves, similar to a radio receiving set.

5. The indicator or the brains, is the device which takes the information gathered by the radio waves and presents them in readable form. The waves are transformed into light patterns on a radar screen. It may consist of one or more cathode-ray tubes similar to the ones used for screen on a television set. On this screen appears a visible electronic beam. Returning radar waves cause the beam to deflect and it is the pattern of deflection that tells the story to the operator.

Furnishes Weather Data.

Weather forecasting has been added to the scores of uses for peacetime radio development. Prompt and accurate weather information is already being furnished through radar installations at Wright field, Ohio.

When used by pilots of commercial planes, all that is necessary is for the pilot to push a switch marked "weather," and he gets a picture of advance cloud formations on a special screen. Tracking clouds instead of a target, the screen will indicate approaching storms at a distance of one to two hundred miles.

This use of radar, it is believed, will result in the saving of thousands of lives annually, in addition to property loss caused by planes crashing during storms.

The planes will be guided around storm area. There is so much moisture in turbulent clouds that the signals are reflected from the drops of water back to the plane. Thus even in darkness, the pilot can detect such an area ahead and go around it.

Air travel will become safe when radar is in universal use. Not only will pilots be able to avoid bad weather, but they will be able to see mountains through clouds by day or night, and thus avoid crashes.

It offers additional safeguards to air travel, by doing away with collisions in the air, and provides a means of safe landing when the field would be otherwise invisible to the pilot.

Aids Ocean Travel.

On the seas, the use of radar will be just as effective as in the air. It will aid the ship captains in avoiding icebergs, other ships, wrecks and land obstructions that have caused the loss of thousands of lives in peace time.

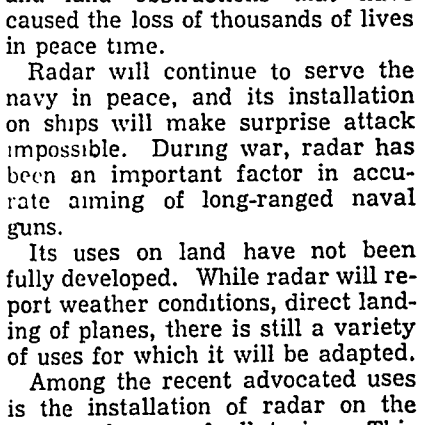
Radar will continue to serve the navy in peace, and its installation on ships will make surprise attack impossible. During war, radar has been an important factor in accurate aiming of long-ranged naval guns.

Its uses on land have not been fully developed. While radar will report weather conditions, direct landing of planes, there is still a variety of uses for which it will be adapted.

Among the recent advocated uses is the installation of radar on the front and rear of all trains. This will aid materially in the prevention of railroad accidents, which have mounted materially.

War officials are already busy in developing the radar so that it will become an effective weapon against the atomic bomb, just as it was against the V-2 and other bombs launched by Germany. A good part of the failure of Germany to wreck England was due to installations of radar.

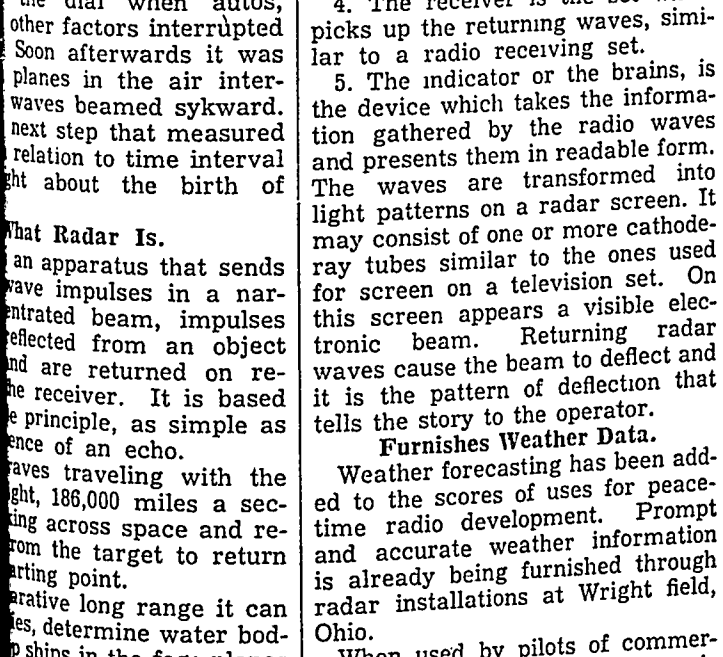
The final value of radar in peace is not known. It is believed that its usefulness will find no limits. It is known that radar's uses in peace will be even more beneficial than its use in war had been destructive and deadly.



Close-up of the antenna of the first complete radar, installed "topside" a building at the Naval Research laboratory in the late 1930s. It is a so-called "dirigible" antenna, meaning it is so mounted that it can be turned to allow for around-the-compass search. This older model has recently been improved.

The Civil Aeronautics administration is experimenting with appliances loaned by the army and navy. Their hope is to develop instruments to enable tower controllers to see all aircraft within miles, and to install collision-warning devices.

In the rapid growth of commercial aviation, which is certain to follow immediately after the war, radar will bring new safety. It is held by some authorities that radar installments on planes will be as much a part of the plane's equipment as brakes or lights are on a car.



IMPROVED UNIFORM INTERNATIONAL

SUNDAY SCHOOL Lesson

JOSEPH'S TESTIMONY TO GOD'S PROVIDENCE

LESSON TEXT—Genesis 45:1-5, 9-15.
GOLDEN TEXT—Oh that men would praise the Lord for his goodness, and for his wonderful works to the children of men!—Psalm 107:8.

God rules the universe. He has His plan which will be carried out, yes, even in spite of man if need be. "He can overrule the acts even of wicked men and make them links in a chain of providence by which His purposes are carried out."

Forgiveness, opening the way for the restoration of fellowship and the showing of kindness, brought the story of Joseph and his brethren to a happy ending. Under the good hand of God, the story which began with tragedy is brought to a conclusion of blessing.

I. Love Overcomes Fear (vv. 1-4).

Following the earnest plea of Judah, the heart of Joseph could no longer withhold itself from the full expression of affection and devotion to his family.

Joseph tenderly shielded the family troubles from the eyes and ears of strangers by sending out the Egyptians. It was the first step of consideration which paved the way for reconciliation. How often just the opposite is done—airing family affairs before the world, and humiliating those who may be in the wrong, thus making it difficult for them to admit their guilt.

Then, too, this was a moment too tender and delicate to be seen by outsiders. The tears of a strong man like Joseph mean a deep movement of spirit—a solemn and often a sacred moment.

It should also be noted that the brothers were afraid, and well they might be, because of their sin against Joseph. After many years these astonished men found themselves face to face with the one whom they thought they had disposed of and they knew their sin had found them out. It always does, sooner or later, but inevitably.

II. Grace Overrules Sin (v. 5).

The guilt of these men was nonetheless real and Joseph could not remove it, but he encouraged them by showing how God had used their evil devices to work out His own good pleasure. He can make the wrath of man to praise Him (Ps. 76:10).

It is worth stressing again that in the very hour when the prospects for Joseph's future usefulness seemed ruined, God was opening the door to the greatest experiences of his life, and was preparing him to serve the thousands whose lives were saved by his wisdom and ability in the years of famine.

Nothing is more important in the life of a child of God than to be yielded to His will, unmoved by circumstances, abiding His time, responding to His guidance whether it be by the opening or closing of doors, prosperity or adversity. And herein is the marvel of it all—even sin may be overruled by God's grace for His own glory.

That does not invite anyone to sin that grace may abound (Rom. 6: 1, 2), but it does offer encouragement to the one who has fallen, that God can redeem the years that the locusts have eaten (Joel 2:25).

Our lesson also sets us an example of how true forgiveness acts. So often when forgiveness is asked or granted, there is an "I can forgive but I can't forget" attitude, which means that while hostilities have ceased at least temporarily, there is no real friendship or the disposition to show kindness. Is there any real forgiveness at all in such an attitude of heart and mind? We fear not.

III. Kindness Provides the Best (vv. 9-15).

It might have been enough to send food and a kind greeting with the brothers to their own land, but love does not seek the minimum expression of its feeling. It asks not how little, but how much can I give or do. Note the tender touch in verse 15, "he kissed all his brethren." Here was no general forgiveness, but a personal renewal of long-lost fellowship.

Bringing his aged father and brothers into the land of plenty was not enough, Joseph also gave to them the "best of the land" (47: 11). His thoughtful consideration in sending for his father (Gen. 46:5-7) was part of the same piece of kindness.

Joseph puts to shame the modern "hard-boiled" attitude toward needy and aged members of the family. In their eager and relentless pursuit of fame or riches, many ignore or trample upon the members of their own families. Often they are ashamed of the broken bodies, the humble apparel, the broken or uneducated speech of their parents.

They fear lest their new-found friends in some circle of wealth and supposed "position" will think them strange or ridiculous. God pity the man or woman who is ashamed of a humble or aged father and mother!

Life-Sized Doll Can Wear Tot's Clothes

SHE'S as big as life and twice as natural! Wears the size 3 clothes that a youngster has outgrown — has yarn hair that kids can braid.

* * *

A real life-size playmate — 32 inches tall in stocking feet! Pattern 527 contains pattern of doll only; complete directions.

Due to an unusually large demand and current conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

Bridge, Forest Stolen; Find Unknown Sub and Church

Many objects of incredible size were either lost or found in the decade preceding the present war, says Collier's. An 80-foot bridge was stolen one night in Italy, and a forest was cut down and carted off a large estate in Hungary.

On the other hand, a submarine, of which no record existed, was found on the bottom of an abandoned navy dock in France; and an old deserted church was discovered on a farm in England which no one, including the owner of the land, had ever seen or heard of before.

SNAPPY FACTS about RUBBER

B. F. Goodrich has produced an airplane tire that figuratively sprouts wings. When wheels are lowered for landing, special vanes or flaps on tire cause it to rotate, which overcomes severe scuffing and drag when wheels hit runway.

American scientists and engineers have achieved in five years with synthetic rubber what it took nearly 70 years to accomplish with natural rubber.

Bees upset many plans for cross pollination of fruit trees until B. F. Goodrich developed a "spider web" rubber spray as a blossom protector.

THE METHODIST CHURCH
Liberty And Klemme

Next Sunday, September 23, is the Sixtieth Anniversary program for the Liberty Church. There will be no services in Klemme on that day, but we shall all go to Liberty for all the services.

Morning worship service starts at 10:30 a. m. with Rev. Harry E. Whyte preaching.

Basket dinner will be served at the church at noon.

Rev. F. Earl Burgess, District Superintendent, will preach in the afternoon at 2:30 o'clock, after which the former ministers and friends will bring greetings.

An illustrated Historical Sketch will be given in the evening at 8:00 o'clock, after which Rev. C. H. Petterson of Forest City will preach.

The Liberty Choir will furnish special music in all the services.

HISTORY—
Continued from front page.

In 1872 Rev. Gottlieb Haefner came to Concord (Garner) as the first resident pastor. The services were held in the Court House, and Rev. Koerner served Liberty.

After intervening pastorates by the Revends W. H. Rolfing, E. W. Henke, and C. F. Tram, Rev. Koerner returned to serve the charge for the second term of years, beginning in 1881. During this time the church was erected and dedicated in Garner.

Rev. Koerner returned to Liberty in 1883 and during his pastorate the church was built in Liberty and dedicated on September 20th, 1885, just sixty years ago.

The new church building was a rectangular structure, about 34 ft. wide and 48 feet long. The entrance was on the east side, above which arose a 75 foot steeple that could be seen for many miles. Inside the church the pulpit platform and altar rail was on the west side with a balcony across the east side, below which was the entrance and a small room for the use of mothers and their babies. Two large stoves provided heat.

The first pastor to preach in the new Liberty Church was the Rev. Adolf Dulitz, and in 1886, Rev. J. J. Spicker came for 2 years. Rev. Henry Kaste came in 1889 and remained one year.

Rev. F. H. Wellemeyer came in 1890 at which time the Conference sent him an assistant, Rev. Henry Schwietert. These men served Garner, Hayfield, Liberty and Klemme. The German Methodist church being built in Klemme during Rev. Wellemeyer's pastorate.

The next two pastors were Rev. Henry Schuldt and Rev. W. F. Mertz.

In the fall of 1894, Klemme and Liberty were made separate charges and under this arrangement Rev. Gottlieb Haefner was sent as the first resident pastor and the parsonage was built in Klemme The combined membership was 196 full members and 26 probationers.

Rev. Adolf Dulitz returned in 1901 and remained for 3 years.

Rev. George Wessel came in 1904 and served for 6 years. The Liberty church was remodeled during this time. An addition was added on the north, the steeple taken down and replaced with a tower. A new entrance was also constructed.

Rev. H. W. Schneider came in 1910 for three years.

In 1913 Rev. J. W. Witter came for three years.

Rev. A. H. Meyer was the next pastor who came in 1916 and was here three years. At this time the church was further modernized when the building was raised and large basement rooms provided, which included a kitchen, dining room and electric lights were installed and the church had its own power plant.

Rev. W. C. Bergman came, and about this time the German language was discontinued and English used in all services.

In 1923, during the pastorate of Rev. A. W. Guager, the English and German Methodist churches in the town of Klemme were merged.

Rev. Harry E. Whyte was the next pastor, coming in 1928 and the new church was built in Klemme and dedicited in Oct. 1930.

Rev. J. L. Ralston came in 1932 and remained two years.

Rev. Wm. Zabilka then came for a period of seven years.

Rev. H. E. Harvey, the present pastor came in 1941 and during his pastorate the Klemme Methodist church celebrated its 50th anniversary in 1943, and now the Liberty church is celebrating its 60th anniversary on Sunday, September 23, 1945.

Local Happenings

Klemme and Vicinity

Miss Lydia Beier spent the past week visiting at the Will Beier home in Goodell.

Mrs. Mary Waterman went to Clarion Tuesday for a few days visit with relatives.

Joe Johnson spent the past week at Renwick visiting his son, Clarence Johnson and family.

Otho Keraus returned home Sunday from several days visit in the Twin Cities.

Mr. and Mrs. Ira Overholt spent Sunday visiting with his parents at Indianola.

Larry, son of Mr. and Mrs. Ole Ramsay is now enrolled in a Waterloo high school. Larry says he likes it very much.

Miss Jacqueline Kudje went to Mason City Saturday to be ready to begin teaching school there on Monday.

Mrs. Ernest Lewis substituted for Mrs. Donald Turgasen as high school teacher the first of the week as Mrs. Turgasen was ill.

Walter Lauster was a patient at where he underwent an operation last week Tuesday. He now is at home recuperating.

Miss Gladys Schlichting of Mason City spent the week end visiting with her parents, Mr. and Mrs. Fred Schlichting.

Mrs. Elmer Arnold and daughter Evelyn, and Mrs. Wesley Lau and daughter, Marjorie, were visiting in Mason City Saturday.

Mrs. Don Carson, of Des Moines came Friday for a visit with her mother, Mrs. John Johnson and family until Monday.

Supt. A. L. Kingery attended a meeting of Hancock County school masters at the Court House in Garner Saturday evening.

A. J. Schlei is here this week for a visit with relatives. He recently returned from the hospital at Rochester, Minn., where he was receiving treatment.

Mr. and Mrs. A. J. Kudje took their daughter, Patricia, to Iowa City Sunday where she enrolled as a freshman at the University of Iowa.

Mr. and Mrs. Fred Barz, and Mr. and Mrs. Eugene Greiman drove to Minnesota Sunday and spent the day visiting at the Ernest Palmby home.

Mr. and Mrs. Harvey Barz and Mr. and Mrs. Alfred Merkel returned home Sunday evening from a week's vacation spent in Northern Minnesota.

Mr. and Mrs. Emil Beier and Miss Lydia Beier enjoyed a turkey dinner Sunday evening at the Floyd Wilson home at Marble Rock.

Mr. and Mrs. Henry Thieman returned home Friday from South Dakota where they spent several days visiting with the Schuetpelz family.

Mr. and Mrs. Lew Griffin returned home Saturday from McGregor where they spent several days of the past week visiting with relatives.

Miss Arlene Schmidt, who is enrolled in a beauty college at Des Moines, came home Saturday and spent Sunday visiting with her parents.

Mr. and Mrs. Henry Coobs and daughters, Nancy and Jessie, of McGregor spent Monday and Tuesday visiting at the W. F. Pavey, Ben Coobs and Verner Lewis homes. Miss Jessie Coobs is a nurse at Rochester, Minn.

Miss Eunice Larsen, who spent the past week in Iowa City, came home Saturday. She returned to Iowa City again Tuesday to begin her university studies. Miss Larsen is a sophomore in the University of Iowa this year.

Mr. and Mrs. Ed. Becker entertained to dinner Sunday Mr. and Mrs. Harry Buss, Harriett and Beverly of Cedar Falls; Mr. and Mrs. Sylvan Johnson of Forest City; Dwight Helps and family; and Mr. and Mrs. Ben Coobs and Peggy.

Mrs. John Etchen and daughter Betty, were Mason City visitors Tuesday.

Mr. and Mrs. Kermit Schlei returned last Wednesday from a week's visit in Chicago.

Capt. and Mrs. A. H. Dulmes were dinner guests Thursday at the A. L. Kingery home.

Mr. and Mrs. George Lawhorn entertained Capt. and Mrs. A. H. Dulmes to dinner Friday evening.

Cecil Bridges assisted with work a couple of days last week at the Jacobs Hardware store.

Mrs. J. C. Thomas and son, Jimmy, were at Mason City on business, Friday.

Mr. and Mrs. Fred Becker and daughter, Mrs. Cecil Katter, left last week for a trip to Chicago and around the lake country.

Mr. and Mrs. R. A. Jorgenson attended a meeting of the Hawkeye Press Club held at the Country Club at Greene, Saturday evening.

Mr. and Mrs. Ferdinand Lemke of near Meservey entertained Capt. and Mrs. A. H. Dulmes to dinner Friday noon.

Seaman Garland Brinkman arrived home the first of the week from the west coast on a furlough and is visiting with his parents, Mr. and Mrs. Martin Brinkman.

Mr. and Mrs. George Cosgriff entertained to dinner Sunday evening Tom Cosgriff and family of Britt; and Adrian Hart and family of Mason City.

Mr. and Mrs. Lester Stille and Lois went to Des Moines Friday and stayed until Sunday evening, visiting with their daughter and sister, Miss Ruth Stille.

Mr. and Mrs. Art Kudje and Capt. and Mrs. A. H. Dulmes were dinner guests last Thursday evening at the Dr. Earl Schaeffer home at Forest City.

Mr. and Mrs. John Day and Mr. and Mrs. Dorance Day and Gary visited at the Bert Mathews and Mrs. Peterson homes in Clear Lake Friday evening.

Mrs. Henry Medaus returned home Tuesday from the Mercy hospital at Mason City where she went a week ago for an operation and treatment.

KENNETH SCHULTZ MOTHER DIED LAST WEDNESDAY

Funeral Held Friday At Mason City For Mrs. Frank Schultz

Mrs. Frank J. Schultz, 58, of 115 6th S. W., Mason City, died in a Mason City hospital last Wednesday at 12:40 a. m. after a 2-month illness.

Funeral services were held on Friday afternoon at 2:30 o'clock at the McAuley & Son funeral home in Mason City with the Rev. Alvin N. Rogness, pastor of the Trinity Lutheran Church in charge. Burial services were held in Oakwood Cemetery at Plymouth

Mrs. Schultz, nee Theresa Cummings, was born April 8, 1837, at Plymouth, Iowa. She was married on May 20, 1904, at Northwood, and spent her entire life in Cerro Gordo county except for a few years at Albert Lea and Austin, Minn. Mr. and Mrs. Schultz moved to Mason City 10 years ago.

Surving are Mr. Schultz; one daughter, Mrs. R. R. Sutton, Mason City; 2 sons, Kenneth A. Schultz of Britt, and Harold S. Schultz of Mason City; 7 grandchildren; 7 brothers and sisters, Mrs. Rose Towne, Mrs. Nell Allen, Mrs. Thomas Underwood, Mrs. Glenn Leaman and Albert Cummings, all of Mason City; Fred Cummings of Moline, Ill.; and Leo Cummings of Atwood, Cal. She was preceded in death by an infant son, and a daughter and a sister

SANDREY'S CATTLE BEST SELLERS IN CHICAGO

Chicago Stock Yards, Sept. 19—Hancock County, Iowa, cattle were among the high sellers reported in the past week's trade at the Chicago Stock Yards.

Harry Sandrey of Klemme, was represented by a load of steers that was good enough to sell without sort at $17 75 per cwt. They averaged 1230 pounds each.

GRADUATES

Cadet Nurse Grosshuesch

Cadet Nurse Gertrude Grosshuesch, daughter of Rev. and Mrs. Calvin Grosshuesch of Klemme, completed her training at the Deaconess Hospital at Marshalltown, and went to Des Moines to take the State Board examinations. She is a graduate of the Klemme High School.

Thanks For The Egg!

While the Times staff was enjoying a lunch Saturday afternoon one of the staff glanced out the window and saw a white leghorn hen on the lawn near the shop. All at once she layed an egg, and of course it was promptly retrieved. Soon thereafter Don Christiance came along and captured his hen, which had gotten out of the pen. Thanks for the egg, Don!

OHIO INDUSTRY

Ohio, fourth in manufacturing among the states, leads the Nation for forgings, bolts and nuts, stamped and pressed metal products. It heads the list, too, for rubber tires, clay products and office machinery. The rubber industry dates back 75 years to Dr. Benjamin Franklin Goodrich's activity there. The iron and steel industry dates back to primitive years and spurred the growth of big cities. Peace years will find these factories humming and putting more resources behind War Bonds. *U. S. Treasury Department*

CELEBRITES

TED WEEMS AND SCREEN STAR HAVE CHICKEN DINNER AT KLEMME FARM HOME!

Now it can be told! Ted Weems, famous orchestra leader and his singing star, Miss Mary Lee, and Miss Rita Costello, Mr. Weem's secretary, enjoyed a good old fashioned country dinner Sunday at the home of Mr. and Mrs. Elmer Schneider, east of Klemme, where Mr. Weems and his party were guests Sunday and Monday.

The trip to the Klemme farm home had been planned, but Mr. Weems did not want any publicity and requested the Schneiders not to tell of his visit until he had departed from the community as he wanted to spend a quiet day in the country.

Mr. Weems and his party had come from Bismarck, North Dakota where his orchestra appeared, and were on their way to Ottumwa to play Monday night.

Miss Costello is a neice of Mrs. Schneider. Miss Lee has appeared in a number of pictures with Gene Autry.

Mr. and Mrs. Schneider say they enjoyed having these celebrites in their home for the two days.

"RED" BUNTENBACH ON IOWA U FRESHMAN SQUAD

In a radio broadcast Friday evening the name of a Klemme boy was given a prominent spot in the sports review when it was stated that Edward "Red" Buntenbach had been chosen on the Iowa University freshman football squad.

"Red" starred in athletics while in the Klemme high school and was a letterman in both baseball and basketball.

Pays to Advertise

The Fayette County Union, newspaper of West Union, tells a potent story of the pulling power of grocery advertising. The wife of a former Hawkeye man now living in New Mexico ordered some of the items in a grocery advertisment appearing in a current issue of the Union.

STOP FOR SCHOOL BUS

It has been brought to the attention of The Times that a number of car drivers fail to stop when school buses are loading or unloading passengers along the highway.

Don't pass a school bus when passengers are being loaded, or unloaded, and whenever the "Stop" signal on the bus is displayed.

To violate this rule may mean the serious injury, or death of a school child.

Victory Loan Campaign To Be Launched Oct. 29-Dec. 31

ON LONG FLIGHT

(Courtesy Globe-Gazette)

KENNETH EUGENE BELL

Kenneth Eugene Bell, Seaman 2-c, son of Mr. and Mrs. Wm. Bell of near Klemme, was orderly on the plane which recently brought liberated prisoners of war, including survivors of the USS Houston from Japan to the United States.

Among the noted personages on the plane were Lt. Comdr. F. H Callahan, who radioed the last message from Corregidor; Maj Donald Boyle, marine flyer shot down off Japan; Lt. Comdr. David E. Hurt, skipper of the submarine Perch, scuttled in the Java sea in 1942, and Comdr. Arthur Maher senior survivor of the Houston.

Among the liberated prisoners was the only surviving officer of the submarine Sculpin. Lt. George E. Brown, 26, New York, who told how Capt. John Cromwell went down with the scuttled raider off Truk to make certain the Japs would never get vital information

A diary brought back by Warrant Officer Ernest Downey, 36, of Pocatello, Idaho, lists the identities of the 2,658 men who died in Cabanatuan while he was imprisoned there, and the burial places of the dead from his state.

Seaman Bell's wife and two sons live in Garner.

SATURDAY IS "FOR-GET-ME-NOT" DAY IN KLEMME

This week Saturday, September 29th, marks the first "For-Get-Me Not" day to be held in Klemme for on that day the United Service Women of Klemme will have their first drive to raise funds for disabled veterans of World War II.

This is a very worthy cause and everyone should contribute his bit to help comfort our boys in the many hospitals throughout the land who are sick and wounded, and for some of whom the war will never end.

FRUITS OF GOOD EARTH

Orange consumers have been familiar with California's fruit for years but few realize that the crop of 1940 was valued at 48 millions while that of 1944 brought 154 millions, an increase of 224 percent. Potato growers tripled their output and peaches jumped from a 10 million dollar harvest to 41½ millions. Small crops like prunes and apricots had several hundred percent increase. For years California soil will help feed the world and add to the Nation's wealth behind War Bonds. *U. S. Treasury Department*

IOWA'S QUOTA HAS BEEN SET AT 135 MILLION DOLLARS

Hancock County's Share Of Quota Is Set At $896,000

Iowa's Series E Bond quota for the Victory Loan campaign, to be launched October 29, continuing through December 31, is $46,000,000, and the state total quota for the campaign is $135,000,000.

The total quota for Hancock county is $896,000, and of this amount $353,000 is for E bonds.

It's The Final Drive

Quotas for the drive, the final government financing effort of this type, were announced today at a meeting in Des Moines of 500 county leaders including county chairmen and war finance committee leaders.

The quota for individuals including the E bond goal is $81,000,000, the non-banking quota or corporation quota for the state is $54,000,000.

State war finance committee leaders pointed out that the E bond goal was considerably less than the $86,000,000 quota for this security in the Seventh War Loan, but said they expected a long difficult campaign, and would not minimize the size of the job to be done.

The securities which will be offered in addition to the Series E, F, and G bonds, are Series C Savings Notes, 2½% Treasury Bonds of 1967-72, maturing December 15, 1972; 2¼ % Treasury Bonds of 1959-62, maturing December 15, 1962; 7-8% Certificates of Indebtedness.

During the period from December 3 through December 8, subscriptions will be received from all non-bank investors for the market securities. The 2¼ % and the 2½ % bonds will be dated December 3, and will be sold at par and accrued interest from those dates.

"Let's Finish The Job"

The theme of the campaign will be "Let's Finish the Job," and stress will be placed upon the cost of rehabilitation of veterans, the cost of mustering out men and women in service, cost of continued hospitalization for many veterans, as well as the continuing cost of maintaining the armies of occupation in Germany and Japan.

V. L. Clark, executive manager of the Iowa War Finance committee today asked county workers to go out after an all times sales record and to put Iowa first among all states on the per cent of the E bond goal attained. In the Seventh War Loan campaign, Iowa ranked second in the nation and only lost out on first place by one-fifth of one per cent.

"We know that Iowans have the money with which to meet the goals outlined for us," Clark said. "We feel that they should still be so jubliant over the victory given us by our fighting men that all should want to do their full share in helping finance the peace and help finance the final costs of rehabilitation.

"Every Iowan should be glad to lend his dollars at good interest to see the job through."

Clark said that while this was the final drive, he felt that the government would continue to offer Series E and other bonds, and that the payroll savings plan of purchase would be continued.

"Since this is the final drive, we hope that the people of Iowa will invest to the limit realizing that they will not be asked to participate in another campaign of this type."

LEGION AND AUXILIARY MEETS TUESDAY, OCT. 2

The Klemme Legion and the Auxiliary Unit will meet at the Community Hall on Tuesday evening, October 2nd.

Mr. and Mrs. John Lemke, and Mr. and Mrs. Lester Stille will serve.

Duck Is a Good Tonic for Fall Dinners
(See Recipes Below)

Ways With Fish, Fowl

st of us know just how to pre- meat to delicious perfection, e know very about sea- and cook- sh and fowl ke them de-

haps this is se we had, a few years ago, ample quan- of meat coming our way. Now, e finding that these meat sub- s can be truly appetizing in own right.

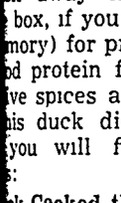
purpose of this information is e you some very special ways k away in your mind (or box, if you prefer not to trust mory) for preparing these oth- od protein foods.

ve spices are used in prepar- is duck dinner which I am you will find perfectly de- :

k Cooked the French Way.
1 duck
Salt and pepper
Sprig of thyme
Sprig of marjoram
Sprig of winter savory
Sprig of rosemary
1 blade of mace
Few peppercorns
½ cup water
2 tablespoons butter
Yolks of 5 eggs
1 onion

n and wash duck. Rub over alt and pepper and place in ven. Roast until a delicate Remove duck from oven t it in pieces. Place in a stew ater, spices and onion cut in Stew gently until meat is ten- Add the butter to the gravy ir in well-beaten egg yolks. over the duck and serve.

would be pleasingly surprised at how good striped bass can taste when pre- pared by boiling and served with mustard mayon- naise. Here's the way to do it:



Boiled Striped Bass.
(Serves 3 to 4)
3 pound striped bass
rot, thinly sliced
on, thinly sliced
spoon salt
leaf
spoon freshly ground pep- corns
4 celery leaves, minced
spoon minced parsley
p white vinegar
2 quarts boiling water

and prepare fish. Into a roasting pan, place carrot, seasonings, vinegar and boil- ter. Bring to a boil. Place water. Simmer gently 15 s, then remove from over d allow fish to poach an ad- l 10 minutes. Remove fish iquid. Drain. Arrange on platter with a garnish of lem- watercress. Serve with:

Lynn Chambers' Point-Saving Menus

Roast Duck Browned Potatoes
Slivered Carrots and Green Beans
Green Salad with
Blue Cheese Dressing
Cherry Tarts Beverage

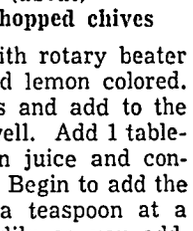
Mustard Mayonnaise.
1 egg yolk
1 teaspoon salt
1 teaspoon dry mustard
¼ teaspoon sugar
¼ teaspoon paprika
Pinch of cayenne
2 tablespoons lemon juice
1 cup salad oil (about)
¼ cup finely chopped chives

Beat egg yolk with rotary beater until it is thick and lemon colored. Mix the seasonings and add to the egg yolk, beating well. Add 1 tablespoon of the lemon juice and continue to beat well. Begin to add the oil, about a half a teaspoon at a time, beating steadily as you add. As mixture thickens, the remaining lemon juice may be added. Add oil sufficient to make a rich, thick dressing. Add chopped chives. Store in cool (not freezing) temperature.

Redsnapper is a tasty fish which you will like prepared this way:

Redsnapper With Tomato Sauce.
(Serves 6 to 8)
3 pounds redsnapper
Salt and pepper to taste
2 tablespoons butter or substitute
1 cup strained tomato
2 onions, sliced
1 carrot, diced
Celery and parsley root, diced
1 cup sweet cream
1 tablespoon flour

Clean and bone fish. Add salt and pepper and let stand for several hours. Place onions, carrot, celery and parsley in kettle with 1 quart cold water. Let boil, then add fish, whole or in slices, and the butter and tomatoes. Let cook slowly until flesh is firm or separates easily from the bone. Lay carefully on a platter. Strain liquid, let heat, add flour dissolved in the cream and let cook until smooth.



The cream may be omitted and the sauce thickened by adding liquid gradually to the yolks of two eggs, well beaten. Pour over fish and serve hot, garnished with parsley.

If you want to serve a really elegant fish dinner to your guests, then this is the main dish to try:

Halibut and Shrimp a la Newburg.
(Serves 6 to 8)

Part I.
1½ pounds halibut
2 slices onion
3 eggs, separated
½ teaspoon paprika

Part II.
1½ pounds boiled shrimp
2 cups white sauce

Cook fish in boiling salted water with onion until tender (use 1 teaspoon salt to 1 quart boiling water). Drain and shred. To one cup of the hot white sauce, add stiffly beaten whites and the shredded fish. Place in center of a hot platter and set in oven with oven door open. Break shrimp into small pieces. Add to remaining white sauce and gradually add to beaten egg yolks mixed with a little cold water. Add the paprika, heat well and place in a border around halibut and serve at once.

If friend husband brings home duck, then you will want to prepare it thus:

Sportsman's Duck.

Just before using, cut off wings, head and feet. Remove feathers dry. Singe with flame. Draw, wash well and dry thoroughly. Season. Roast in a very hot (500-degree) oven for 18 to 20 minutes. The meat should be bright, cherry red. Serve with currant jelly and wild rice.

PRIVATE PURKEY ON OCCUPYING JAPAN

Dear Ed.—

Well I am all in a lather on account of I got to be in the occupation force in Japan and I wish you would write my congressman, also the Secretary of War, the President and anybody else who might get me out of it: It is pretty tough to come through the European shindig after making the fight for a better world, democracy and the assorted freedoms and then wind up as a probation officer over them Japanese.

—*—

Occupying Japan is not up my alley. It will be like occupying a haunted house full of Charlie Chans. It is bad enough to occupy countries which look, talk and act like me without taking on a country where I got to keep looking in the book to find out about the customs, habits and sound effects. And anyhow there is something about people who go around all day in kimonas that gets on my nerves.

—*—

I was not at home exactly among the Krauts and Eyeties but they was members of the same league more or less and they understood pinochle, horseshoe pitching, gin rummy, checkers, craps and reddog. They didn't sit on the floor to eat or wear no socks with a special section for the big toe.

—*—

But the Japs is something else. I got nothing no more in common with them than the New York Giants has got with a outfit of circus Eskimoes. It is the same as putting a lifelong resident of Brooklyn in charge of a Chinese rice plantation.

—*—

All I know about Japan is what I see in the movie travelogues, plus what I read in the war news beginning with Pearl Harbor and if they is nice people to be stuck with for a couple of the best years of my life then an American boy's place is in Thibet.

—*—

For one thing I do not care for fishheads, rice and waterlily salads and they tell me a good beer saloon is harder to find in Japan than a hamburger w. . onions. Also the fraternization situation is very poor. Italian, Kraut and French dolls is not too hard to go for in dull moments, but I never in my life found myself wishing I knew some Japanese dame to call up.

—*—

It would not seem natural for me to have snapshots took of me in a affectionate post with a Nip doll, even if it don't look so bad in some of them comic operas.

—*—

Also, I don't like the emperor set-up. If he keeps on insisting he is God it is going to make me pretty sick and I am apt to drop some remarks which will bring on another war. I do not like Japs anyhow. They all look alike and when you have seen them two guys what was house guests in Washington all the time of the Pearl Harbor stab in the back you have seen them all.

—*—

My idea is that the Chinese should occupy Japan and let the others go home where they come from. They would get a bigger kick out of it and after what they have took from the Japs for the last ten years they should be in just the right occupation mood. Me, I would not be a Class A occupyer. If I got to occupy some place send me back to Germany which with all its faults wears pants, coat and vest, uses shoelaces and knows what a undershirt is for.

Yours, Oscar.

* * *

PEACE MY EYE!

One of the major problems of peace remains unsolved; how to disarm the kiddies.

—*—

The little ones have so far ignored the peace proclamations and all unconditional surrenders. They are clinging to their arms and munitions.

—*—

We took it up with Junior today. He has scoffed at all the radio reports of Japanese surrender and all the statements on war's end. The rest of the world might be standing on the brink of a peaceful world, but not Junior.

We tried to reason with him.

"Listen, the war is over," we said, "Don't you understand?"

"Bam! Bam!" he shouted, leveling a machine gun on us.

"This all belongs to yesterday," we argued. "The world has ceased firing."

"Ack! Ack! Ack!" he replied, switching to an anti-aircraft weapon.

"Peace has come," we insisted. "Now you must lay down your arms and reconvert to ping-pong or marbles or something. . . ."

That settled it. Junior now trained a bazooka on us, and reinforced by all the kids in the neighborhood, wiped us off the map.

—*—

The FBI has arrested 118 railroad dining car workers for not seeing that the customers got what they paid for. Years of experience eating on railroad trains had caused us to assume this was a matter of fixed policy.

"In many instances," says the account of the arrests, "the meat portion was greatly reduced." Don't try to tell us that it took the FBI to discover this.

* * *

Can You Remember — Away back when the Japs used to think the height of hard luck was an earthquake?

Japanese leaders concede it must have been something they ate, but they are not ready to admit it was rice.

* * *

Mr. Andrew Spring has become a neral partner in our firm, "Outwater & Wells"—Newspaper notice.

Moving M. E. Van Realte to remark that the outlook is damper and damper.

* * *

Love on your wedding day I send;
Because the war is at an end.

Veterans' SERVICE BUREAU

EDITOR'S NOTE: This newspaper, through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.

APPRENTICESHIP FOR VETS

With many labor unions suffering from lack of apprentice help, particularly the building trades unions, the federal committee on apprenticeship has through a survey of industry learned that 300,000 apprenticeship positions can be handled by industry from the ranks of returning servicemen.

The committee consists of representatives of management, labor unions, the U. S. Department of Labor, U. S. Office of Education, the Federal Security agency and the apprentice-training service of the War Manpower commission.

The committee has recommended that to protect veterans and to maintain high standards of apprenticeship, adequate safeguards be set up by state agencies authorized to approve business establishments for apprentice training to assure veterans thorough training in all skilled trades. The committee has ruled out as apprenticeable training programs for occupations such as salesman, managerial positions, professional and semi-professional positions and clerical work.

Definitions for true apprenticeship which are reserved for all-round skilled trades and which have been adopted by WMC's apprentice training service include the following basic standards: (1) An apprenticeable occupation is considered one that requires 4,000 or more hours to learn; (2) A schedule of the work processes to be learned on the job; (3) A progressively increasing scale of wages that should average not less than 50 per cent of the journeyman's rate over the apprenticeship period; (4) Provisions for related classroom instruction of about 144 hours per year; (5) Terms of condition of employment and training to be stated in a written agreement and registered with the state apprenticeship council; (6) Review of local apprenticeships by the state or federal apprenticeship councils; (7) Apprenticeship to be jointly established by the employer and employe; (8) Adequate supervision and the keeping of records for all apprenticeship programs.

Questions and Answers

Q.—What information must a veteran submit in order to apply for guaranty of a loan under the GI Bill of Rights?

A.—The veteran first executes a form called a certificate of eligibility. In this he gives a summary of his service record, the amount of the loan, and the purpose for which it is to be used. This is submitted to the Veterans Administration by the lending agency.

Q.—If a blue discharge from the Army is neither honorable nor dishonorable, under what circumstances is it given?

A.—The War Department informs us that an honorable discharge certificate is given when a soldier's service has been honorable. A dishonorable discharge is given in compliance with the sentence of a general courtmartial because of a military offense of a serious nature. A discharge "other than honorable" (blue) is given for in-between cases.

Q.—Is there a plan to release from the Army men who have had four to five years service without regard to other factors?

A.—No, there is no plan for release because of length of service. There is authority for retirement of a soldier after 30 years' service or if he is disabled in line of duty after 20 years' service.

Q.—I am in a veterans hospital receiving domiciliary care. Can I also receive educational or vocational rehabilitation benefits at the same time?

A.—Yes, the Veterans Administration has ruled that a veteran receiving vocational training or education under either Public Law 346 or Public Law 16 of the 78th Congress while receiving domiciliary care is not receiving duplicate benefits, which is prevented by law.

Q.—There seems to be some difficulty over seniority rights in obtaining my old job. Is there anything I can do about it?

A.—Yes, if you fill all other qualifications of the selective service act you are entitled to your old job as a matter or right, regardless of any question of seniority. This is the ruling of the Federal Courts and of the National Headquarters of the selective service system.

Q.—What is the ratio of disabled veterans applying for jobs?

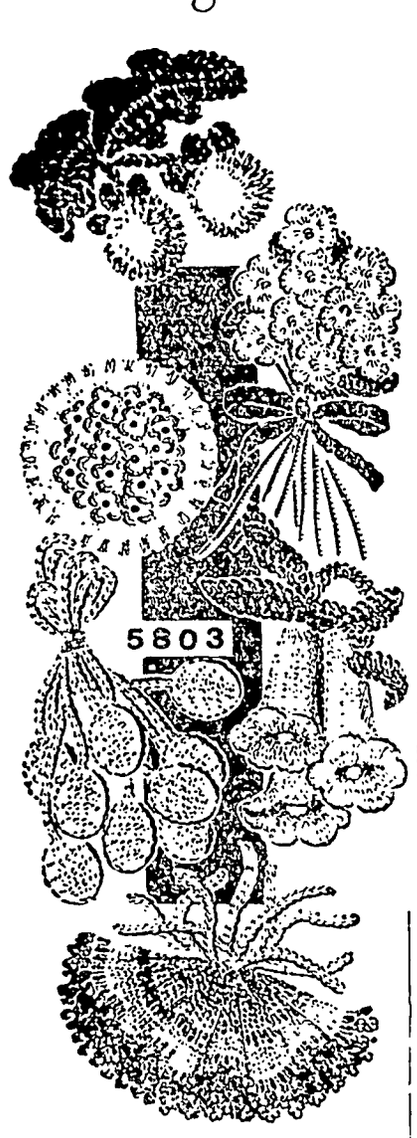
A.—The War Manpower Commission reports that of more than 1,000,000 veterans who have sought employment at U. S. Employment service offices, approximately one-fourth were physically disabled and required selective placement techniques.

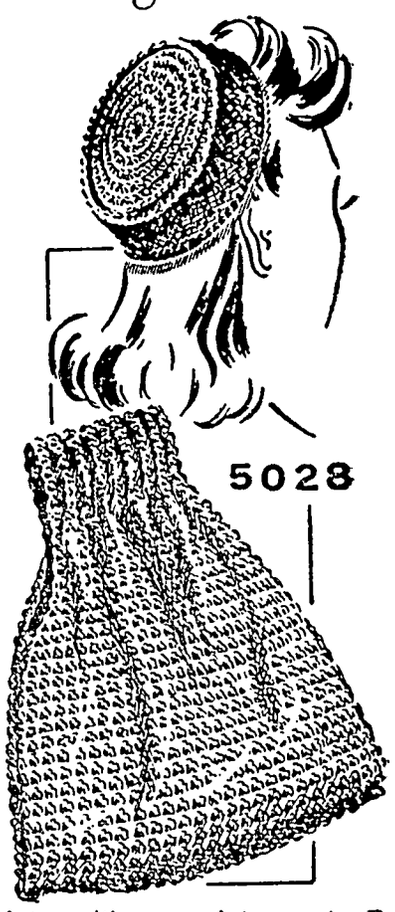
Q.—How many loans and in what amount has been made under the G.I. Bill of Rights?

A.—The Veterans Administration reports that through June, 1945, 10,441 loans for a total of $17,241,457.43 had been guaranteed.

SEWING CIRCLE NEEDLEWORK

Gayly Colored Lapel Ornaments Muff Bag and Matching Pillbox





Clever Lapel Ornaments

GET busy with your crochet hook and make these clever lapel ornaments for gifts and for yourself! Six designs are included — a green and white wool "snowberry"—a two-inch cluster of variegated flowers with bead centers—tiny flat flowers on a lacy "valentine" background — brightly hued "grapes" — corde cluster of trumpet flowers—a five-inch "pouff" circle.

* * *

To obtain complete crocheting instructions for the six lapel ornaments (Pattern No. 5803) send 16 cents in coin, your name, address and the pattern number.

Pillbox and Muff

A SMART pillbox and a large-sized "muff" or over-the-arm bag are extraordinarily good looking done in black cotton yarn or in a brown, navy blue, wine, kelly green or a very dark red. Perfect for the first fall days—convenient and comfortable to wear later with your winter coat. Bag measures 18 by 16 inches—is done in one piece.

* * *

To obtain complete crocheting instructions for the muff bag and matching pillbox (Pattern No. 5028) send 16 cents in coin, your name, address and the pattern number

Send your order to:

SEWING CIRCLE NEEDLEWORK

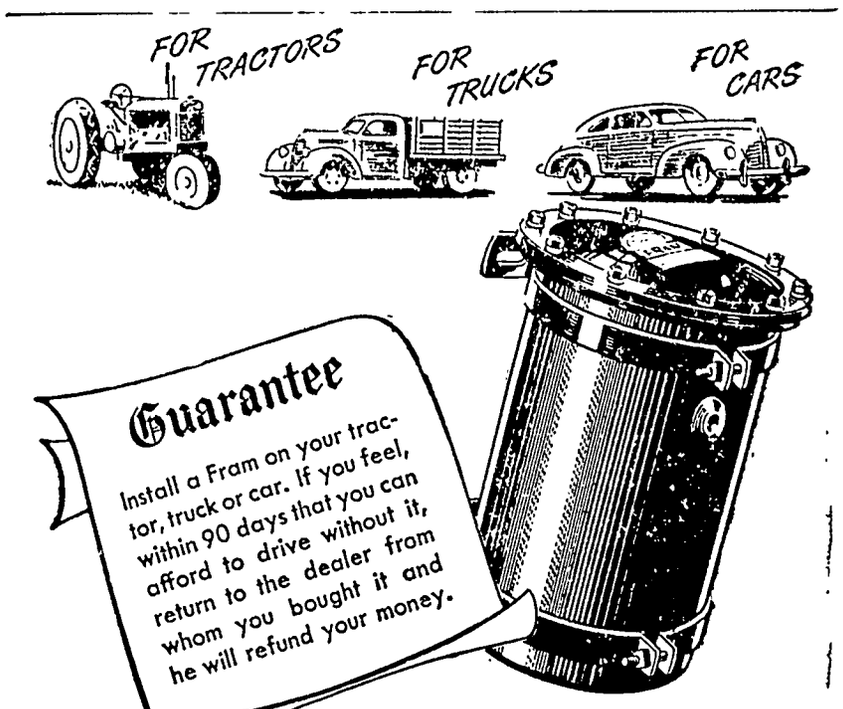
26,000 Heirs Turn Up

The largest number of "heirs" to an American fortune turned up in Philadelphia in 1935 at the proceedings to determine the rightful owners of $25,000,000 which had been left unwilled by a Mrs. Henrietta Garrett, says Collier's.

Although this wealthy widow had lived alone without communicating with a friend or relative for 35 years before her death in 1930, more than 26,000 alleged relatives from 48 states and 27 foreign countries claimed a share of her estate. But so far, no one has received a cent.



FOR TRACTORS
FOR TRUCKS
FOR CARS
Guarantee
Install a Fram on your tractor, truck or car. If you feel, within 90 days that you can afford to drive without it, return to the dealer from whom you bought it and he will refund your money.

FRAM Oil Filters are GUARANTEED

...to save motors and money!

READ the guarantee above and you'll see why Fram oil filters *must* give complete satisfaction. With Fram filters you can't lose!

HOW FRAM SAVES YOU MONEY

Scientifically - designed Fram Oil and Motor Cleaners filter out dirt, grit, carbon, sludge and other harmful contaminants—keep motor oil *visually clean*. Thus Fram saves motors and money—lengthens the life of your car, truck, tractor or stationary engine.

GET IN TOUCH WITH YOUR DEALER

Millions of Fram filters and cartridges are used by our armed forces . . . while Fram is standard equipment on more than 75 famous makes of car, truck, tractor, bus, marine, Diesel and stationary engines. Experts agree on Fram! So to help save motor trouble, breakdowns and costly repairs . . . put a Fram on every engine and put Fram replacement cartridges in every filter. Fram oil filters are easy to install, cartridges may be changed in a jiffy. So get in touch with your dealer today! Find out "How's Your Oil Filter?" The Dipstick tells the story!

Supervisor Penn Eckels is appointed a committee to investigate and cause repairs to be made in D D No 36-2

In the matter of the hearing on the establishment and construction of Drainage District No 142 Hancock County Iowa petitioned for by John Goll et al

WHEREAS the date and hour for said hearing has arrived and the report of the Engineer is on file recommending said establishment and construction the proof of publication being on file and the Board being fully advised said letting was held as scheduled pursuant to a previous resolution and notice as published

It appearing there are claims for damages on file, Charles F Merten, Engineer Mark Miller and Walter Kehl are appointed a commission to appraise damages in accordance with section 7449 Code of Iowa 1939 and laws amendatory thereto said commission to report on or before September 18th and the report of the Commissioners shall come up for hearing at 10 30 A M on the 24th day of September A D 1945 to which date this hearing is continued

BE IT THEREFORE RESOLVED by the Board of Supervisors acting for and in behalf of Drainage District No 142 Hancock County Iowa that the hearing on the establishment and claims for damages will come up for further hearing at 10 30 A M on the 24th day of September A D 1945 in accordance with Chapter 353 Code of Iowa 1939 and laws amendatory thereto

The foregoing resolution was offered and read by Supervisor Schoun who moved its adoption seconded by Supervisors Penn Eckels whereupon John Chambers Chairman Pro Tem placed the motion of its adoption and upon roll call the vote thereon is F J Schoun, Penn Eckels and John Chambers aye. Nays none.

This being the 10th day of September A. D. 1945, a date heretofore set for a letting on the construction of D D No 141 a drainage district petitioned for by Abe Mezvinsky et al the hour for said letting having arrived, the proof of publication being on file and the Board being fully advised said letting was held as scheduled

The Chairman of the Board proceeded to open all bids on file and after duly considering all bids on file, the Board does find the bid of Booth & Olson, contractors, to be the lowest and best bid on file.

BE IT THEREFORE RESOLVED by the Board of Supervisors of Hancock County, Iowa, acting for and in behalf of Drainage District No. 141, Hancock County, Iowa, that the bid of Booth & Olson, Contractors, Sioux City, Iowa, be accepted as the lowest and best bid for the construction of the open ditch in D. D. No. 141 as specified in the report of the Engineer and they are hereby awarded a contract for said construction. All other bids are hereby rejected.

BE IT FURTHER RESOLVED that Chairman Penn Eckels be and he is hereby authorized to execute said contract in behalf of Hancock County, Iowa, acting for and in behalf of D. D. No. 141.

Charles F. Merten is hereby appointed Engineer to supervise the construction of said district and his bond as such Engineer is hereby fixed at $500 00

On motion and second Walter Kahl, William Boehnke and Charles F. Merten are appointed a classification and assessment commission to assess benefits, against all lands, tracts, highways, railroads and parcels in the water sheds of Drainage District No. 141, Hancock County, Iowa.

On motion and second the Board adjourned to September 24, A. D., 1945, at 9:00 o'clock A. M.

SCHOOL NEWS

SENIOR CLASS NEWS

—Ruth Bell.

With the third week of school coming to a close, we find we have nineteen students in our class. Elsie Gerdes, George Gerdes, Lois Avery and Nellie Sherwood have come to join our group this year.

In American Literature class we have been studying the early periods in literature. The Juniors and Seniors are taking this subject. Miss McDaniel is our teacher.

In American History we have been studying about early civilization, our early explorers and their discoveries

Sociology has proved to be a very interesting subject. It is a subject of man's social life. A few members of our class chose Physics instead of Sociology. They are studying about the value of water.

We have been studying journalizing, posting, and the trial balance in bookkeeping. We thought it all rather hard at first, but it has now proved to be very interesting.

Mrs. Lewis was our American History teacher and Sociology teacher for a few days while Mrs. D. O. Turgasen was absent because of illness.

JUNIOR CLASS NEWS

—Emily Lou Johnson.

At the end of three weeks there are 17 pupils in our class We are taking the following subjects: American Literature, Economics, Sociology, and Typing

American Literature taught by Miss McDaniel is hard but very interesting We have studied about such important writers as John Smith and Cotton Mathers

Economics taught by Mr. Kingery is the study of how man makes a living We are all looking forward to a test over such things as how we make a living, how we live, some facts for consumers, and our everyday life and work.

Sociology taught by Mrs Turgasen is a study of our Social Living. There are 13 Seniors taking Sociology with us We are all sorry that Mrs Turgasen is leaving.

Typing taught by Mrs. Harvey is an interesting subject So far we have learned the places of all the letters We also have learned how to operate the tabulator.

SOPHOMORE NEWS

—Ed Grosshuesch.

We have three new members in our class this year, they are Ben Katuin, Harold Carolus and Melvin Howard We lost three members from last year, but still have the largest class, 33, in high school.

In Geometry we are studying angles and degrees We have one test and by the looks of our papers we are going to need to study. Mrs. Leith is our teacher.

In Biology we are studying about green plants and how they live

In World History we are studying about the first civilization and the origin of our alphabet.

Miss McDaniel teaches our English and Literature class. We have had paragraphs and the parts of speech We have new Literature books and have read three very interesting stories about education and old English schools.

FRESHMAN CLASS

—Mildred Meinders
Alice Meyer.

The Freshman class had tests in Science, English and Algebra this week. The girls started canning in Home Economics and have processed tomatoes and made vegetable soup.

Robert Baack performed an experiment in Science class. The experiment was to prove which was heavier, cream or milk, and we came to the conclusion that milk is heavier than cream

In Algebra we have finished the first chapter and are studying on chapter two, which is about equations.

There are twenty in the Freshman class this year. There are 15 girls and 5 boys.

SEVENTH AND EIGHTH GRADE NEWS ITEMS

Vivian Westerberg, Teacher

Merlin Brinkman brought us a Japanese paper flower which the Brinkmans had received from Garland Brinkman.

In Art we have been making people images.

In Eighth Grade History we have been studying about the discovery of America

Dorance Baack was absent on Thursday and Friday of the past week.

The following people received 100 in Spelling this week:

Seventh Grade— La Nelle Harvey, and Beverly Pringnitz. In Eighth Grade: Luella Priebe, Lillian Wille, and Gloria Haefner.

GRADES 5 AND 6 NEWS

Mrs. H. G. Voetberg, Teacher

We had treats in our room on Friday. It was Reverdy Mace's birthday. We all sang the Happy Birthday song.

For Art we are making pictures of a school bus. We've all decided that we'd like to have a ride on one.

Janice Carpenter and Margaret Boland were absent part of this week because of illness.

In Arithmetic Friday the Fifth Grade read about Addition and how offices use adding machines. We borrowed the adding machine from the office and each of us took a turn in using it. For most of us it was our first experience at using a machine of this kind.

FIRST AND SECOND GRADE SCHOOL NOTES

Those who received one hundred for a week in spelling in the Second Grade were:

David Waddingham
Roger Bachman
Dennis Haefner
Margaret Haefner
Warren Terhufen
Shirley Barz
Lois Heginger.

HUNTERS REPORT VARIED SUCCESS SHOOTING DUCKS

Duck hunters were out around their favorite ponds before dawn last Thursday morning and some hunters returned home with a bag limit, while others shot a few ducks, while others reported luck was against them.

Should be Good Shade

A sunflower stalk in the yard of A. J Evans of Cresco has grown to extreme heights this year. It now stands more than twelve feet high and has more than 100 blossoms on it. The plant was given special attention and was transplanted in the early part of the season

BETTER IOWA GARDENS

Late September in the garden is the time for a little let-up—but the gardener shouldn't entirely relax his efforts. Unless cabbage worms are still active, no dusting or spraying needs to be done. Cultivation, fertilizing and watering are outdated for the year. In most cases, early crops are all harvested and root crops aren't ready to be lifted. The good gardener, with frost time approaching, will keep one eye on the thermometer. And the night before a posible frost, pick or cover up all crops that are apt to be frost-killed

* * *

Now, too, is a good time to check over the different varieties for each kind of vegetable planting in the garden, decide on the varieties that did best, those that are inferior, or don't seem adapted. Be fair in making this variety decision, for the crop failure may be the fault of the gardener rather than the variety.

* * *

Community garden committees should be finding out now how many of their Victory Gardeners are going to be Postwar Gardeners They'll want to know if the 1946 community garden will need to be the same size as this year, reduced in size or abandoned.

* * *

If you haven't already done so, make arangements now for fall plowing in the garden. Then, when the root crops are out of the way, you can retire to armchair gardening—seed catalog in hand—until next spring.

CONSERVE AND PRESERVE

Wafting from the kitchen doors these good fall days, are the pungent odors of pickle and relish making. Nor will they be any less enticing alongside the meat platter on cozy winter tables.

If you've green tomatoes, just waiting to get frost-bitten, you might dill them into pickles Pick them uniform in size and free from blemishes. Wash and drain. Cucumbers may be substituted in this recipe.

Dilled Green Tomatoes

40 to 50 green tomatoes
2 ounces mixed pickle spices
fresh or dried dill
1 pint vinegar
1 pound salt
4tbsp. sugar
2 gallons water

Place a layer of dill and spice in a 5-gallon crock. Fill the jar with tomatoes within 4 inches of the top. Mix vinegar, salt sugar, and water, pour over the tomatoes and add a layer of dill Cover with a weighted plate to keep the vegetable under the brine Each day remove the scum Keep at room temperature for about two weeks. Pack in sterilized quart jars, one-half cup vinegar added to each. Fill up jars with boiled, strained and cooled pickle brine Seal airtight.

Here's a good relish, using up those odd-sized peppers. Use what you have.

Pepper Relish

1 peck red, green or mixed sweet peppers
2 cups cold water
1 cup salt
2 cups vinegar
1 cup brn sugar
½ cup white mustard seed

Wipe peppers, cut in halves, remove seeds and put through meat chopper. Put in kettle and add water and salt. Cover and let stand overnight. Drain and pour over vinegar, sugar and mustard seed which have been boiled two minutes. Fill sterilized jars to overflow and adjust covers.

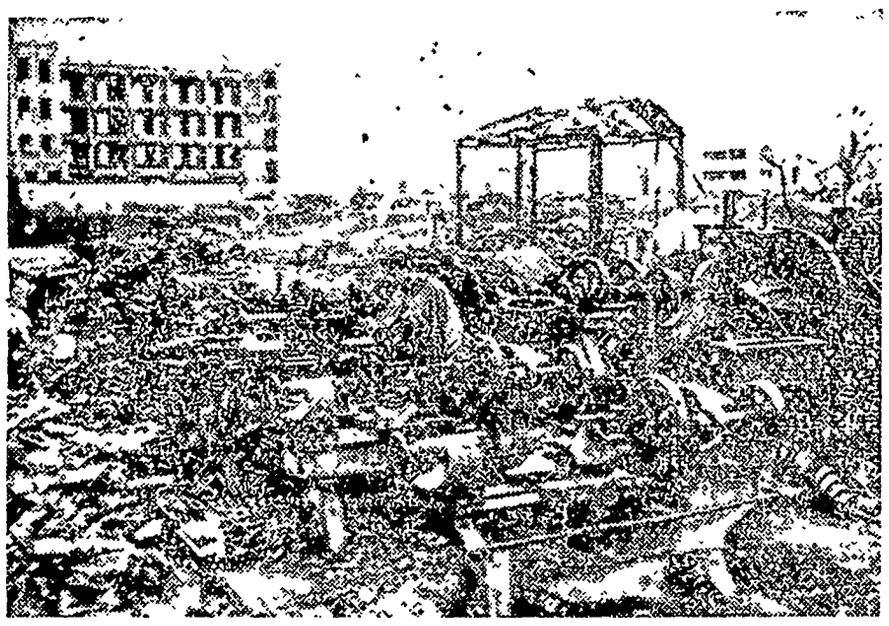
WEEKLY NEWS ANALYSIS

Congress Backs Pearl Harbor Probe, But Stiff Fight Looms Over Truman's Domestic Policies

Released by Western Newspaper Union

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)



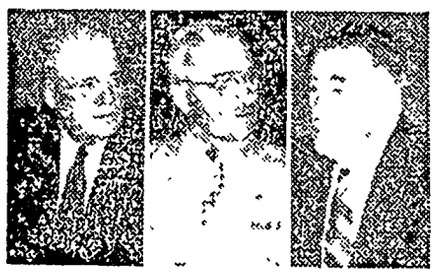
Home as well as factory industrial facilities felt the lash of U. S. air raids, with only the machinery standing in the ashes of this burned-out residential shop in Tokyo.

CONGRESS:
Fight Looms

Highlighted by an 18,000 word message from President Truman, congress went back to work after a brief recess to tussle over legislation extending the draft, tiding the nation over reconversion, holding the price line until volume production develops, readjusting the farm economy to peacetime, and providing credit for foreign countries.

The first congressional move, however, concerned none of these weighty problems but rather the Pearl Harbor debacle of December 7, 1941 Stealing the ball from the Republican opposition, Senator Barkley (Dem., Ky.) called for a joint senate-house inquiry into the disaster, with an amendment by Senators Vandenberg (Rep., Mich) and Ferguson (Rep., Mich.) broadening the probe to include the Philippine, Wake and Midway islands setbacks as well. Matching speedy passage in the senate, House Speaker Rayburn (Dem., Texas) assured prompt action in his chamber.

Barkley's resolution for an investigation followed on the heels of congressional clamor for an inquiry as a result of general feeling that the army and navy board reports constituted a whitewash of political



Speaker Rayburn (left), President Truman (center) and Majority Leader Barkley.

higher-ups. Barkley himself took recognition of this sentiment, declaring that the probe should bring out all facts relating to civil as well as military responsibility, with no effort to shield any individual.

Though support for a joint-congressional investigation of Pearl Harbor was nigh unanimous, the administration faced rougher sledding on other important legislation, with the Republicans threatening a bitter fight against so-called paternalistic aspects of Mr. Truman's domestic program and liberal foreign lending provisions.

Particularly acrimonious debate was expected to develop over such administration-supported measures as increasing unemployment compensation to a maximum of $25 a week for 26 weeks; entrusting the government with providing for full employment; banning racial or religious discrimination in hiring, and extensive federal public works building. Opponents also girded to fight the administration's reconversion pricing policies, which seek to hold charges to 1942 levels until mass production permits volume.

In military matters, a lively fight loomed over extension of the draft for 18 to 25 year oldsters, with the issue somewhat tempered by efforts to boost voluntary recruiting by pay inducements.

JAPAN:
Details Defeat

Because of the disruption of communication lines and the, blasting of heavy industries in the wake of the U. S.'s relentless forward advance, Japan was finished last June, Premier Higashi-Kuni told the 88th session of the imperial diet.

The premier's analysis of Japan's defeat followed Emperor Hirohito's appeal to the Japanese people to fulfill the obligations of the unconditional surrender and work to regain the confidence of the world.

In detailing the Nipponese downfall, Higashi - Kuni revealed that combined U. S. sea and air might had sharply reduced Nipponese shipping and rail communications and cut down the flow of materials to war industries. In turn, these plants suffered heavily from air bombardment.

Declaring that the ruins of Hiroshima and Nagasaki were too ghastly to even look upon, Higashi-Kuni admitted that the use of the atomic bomb proved the real turning point of the war, with Russia's entrance capping the disastrous turn of events.

Even as Higashi-Kuni spoke, U. S. forces continued to pour into Japan for occupation duties, with an estimated 300,000 to 400,000 men eventually needed to complete the operation.

With U. S. troops fanning out over the Japanese home islands, efforts were made to speed up the release of American war prisoners, many of whom charged mistreatment during their captivity. Aviators especially were singled out for abuse, first being pummeled by any civilians upon parachuting to safety, before being turned over to military guards.

REDEPLOYMENT:
Revise Plans

Considered its answer to widespread criticism on the part of servicemen as well as the public, the army revised its redeployment plans to free an estimated 665,000 vets from Pacific duty.

Under the new plan, G.I.s exempt from overseas service will include those with 45 or more discharge points; those between 34 and 37 years of age with a year of service, or those 37 or over. Previously, the army had required 75 points for such exemption.

Meanwhile, 200,000 army officers looked forward to early release following the announcement of discharge plans based upon the point system. With points computed on the basis of one for each month in service, one for each month of overseas service, five for each combat award and 12 for each dependent under 18, colonels, lieutenant-colonels and majors need 100 points for discharge; captains, first and second lieutenants, 85, and warrant and flight officers, 80.

EMPLOYMENT:
Set Goal

Speedy rehiring of many discharged war workers by reconverting industries will be necessary if the War Manpower commission's goal of an immediate postwar factory employment of 14 million is to be achieved.

The necessity of speeding up reconversion to absorb the postwar labor glut was pointed up by the WMC's own estimate that four million persons would lose wartime jobs within the next six months. Aircraft plants alone will discharge one million, with ordnance releasing 800,000, shipbuilding 600,000 and government over 100,000.

Manufacturing industries cannot sop up all of the available labor supply, WMC said, declaring that increasing numbers of men and women will have to enter mining, building, trade and farming. Because the war restricted much activity in these enterprises, and anticipated postwar markets will lead to business expansion, WMC predicted wider employment in these fields.

QUISLING:
Defends Self

With death staring him in the face, pale and grim Vidkun Quisling was pictured as a constructive European statesman and passionate foe of Bolshevism by his counsel Henrik Bergh during the closing stages of the celebrated treason trial in Oslo, Norway.

Though no political disciple of the notorious collaborator, lawyer Bergh depicted Quisling as an idealistic eccentric, who, while contacting Hitler in 1939, also communicated with Chamberlain in an effort to bring about peace between Germany, Britain and France. Bergh attributed the collaborator's sympathy with the Nazi occupation of 1940 to a desire to prevent Norway becoming a battleground like Poland through a British landing and subsequent German counterattack

First sympathetic to communism while doing relief work in Russia in 1923, Quisling changed his attitude in 1930 upon seeing mass imprisonments, starvation and plagues in the soviet, Bergh said.

RECONVERSION:
Strikes Interfere

In the first serious work stoppage in the reconversion period, production was cut sharply at the Ford and Hudson automobile plants following a variety of labor disputes. In Washington, D. C., the government remained in close touch with the situation, in keeping with President Truman's avowed determination to prevent a reconversion slowdown through labor differences.

At Ford's, over 26,000 workers were laid off as a result of strikes at parts suppliers' plants, with the walkout of 4,500 employees of the Kelsey - Hayes Wheel company over the discharge of union stewards chiefly interfering with production. The stewards had been fired for instigating a brawl with a foreman.

Curtailment of production at Hudson's followed the walkout of 6,000 workers in sympathy with 500 foremen striking in protest over a reduction of wartime wage rates.

SECT RITES FATAL

"I may be bitten and I may die," 32-year-old Lewis Francis Ford, lay preacher of the Dolly Pond Church of God near Birchwood, Tenn., told a newspaper reporter before conducting his sect's snake handling rites. "But if I do," Ford continued, "it will be because the Lord wants to show unbelievers the snakes are poisonous."

Shortly afterward, Ford was bitten on the right hand as he was removing a three-foot rattlesnake from a wooden box, and was taken to a near-by home where several of the followers of his faith prayed for him. When his condition worsened, however, he was rushed to a Chattanooga hospital, where he died.

Ford's death followed that of Mrs. Harvey O. Kirk of Wise, Va., who succumbed from a rattlesnake bite on the wrist during a religious rite. Before dying Mrs. Kirk gave birth to a child, which failed to survive.

JAP RESETTLEMENT:
Lift Coast Ban

Of 110,000 persons of Japanese ancestry, who were removed from the Pacific coast following Pearl Harbor, only 45,000 will return with the lifting of the ban against their resettlement there, U. S relocation authorities predicted.

Out of the 110,000 removed, about 50,000 have found new homes in other sections of the country, where they have entered a variety of industries ranging from watch-making to mechanical dentistry and proven their efficiency and trustworthiness. Another 50,000 have remained in relocation camps.

With feeling running high against Japanese-Americans in some Pacific coast communities, Maj. Gen. H. C. Pratt, commander of the western defense zone, called upon residents there to accord resettlers the same privileges of other law-abiding citizens.

SURPLUS GOODS:
Sales Policy

Hoping to speed the turnover of material and permit wider distribution among dealers during the immediate period of scarcity, the department of commerce reported that most surplus war goods would now be sold on a fixed price basis rather than sealed bids.

The department revealed its policy change at the same time that it announced 300 million dollars worth of material is being made available to wholesalers and retailers, with items including chicken wire, trucks and other vehicles, hardware, shotguns and shells.

Under the new selling plan, material will be disposed of to wholesalers and retailers under OPA ceilings, with allowances for profit margins. Thirty days credit will be extended. An estimated 80 per cent of dollar volume of all surplus sales will fall under the new pricing policy.

TIRE REPORT:

In renewing monthly reports, the Rubber Manufacturers association includes a breakdown of figures showing production in civilian passenger car, truck and bus casings and in tubes for 1941 and 1945 to indicate the present tire situation.

Production of passenger car casings for the first six months of 1941 totalled 29,040,711 units, with 5,365,459 units held in inventory. Estimated production for the six months ended last June 30 was 10,090,817 units, with only 950,412 in inventory

Sees Quick War Recovery for Japan

Since history consistently has shown that predominantly agricultural nations recover from war faster than highly industrialized nations, Japan will recover from the war faster than the United States, Dr. John W. Stanton, former war department consultant on Japan and professor at Northwestern university, declared.

"Two-thirds of the Japanese population before the war were engaged directly or indirectly in agriculture and fishing," he said. "Only a third were engaged in industry and commerce compared to two-thirds in Germany and similarly high proportions in the U. S. and Britain, each of whom will find recovery more difficult.

(Note—In Drew Pearson's absence, Herbert Bayard Swope, long a student of British political affairs, contributes a guest column on the new labor government.)

By HERBERT BAYARD SWOPE

Former Editor of the New York World and Public Relations Adviser to the Secretary of War.

NEW YORK.—The conservative defeat in England is not so striking a blow as some portray it. Unquestionably, there will be a trend toward socialization, but I think that this will be confined, at least for the next few years, to the natural monopolies—power, light, heat, transportation, communication (already in the state's hands except for cables) and, of course, mining, steel, and the Bank of England. But much of this has been on their program for the last 25 years.

In fact, even the Lloyd George government gave support to the basic plan.

There will be a trend on the part of the radical movement in this country to affiliate itself with the British program. And I think there will be efforts to gain a wider and deeper association politically with Britain and Russia. But I do not discern any trend toward communism.

Whatever Britain does will be done not by dictatorship, but under the rule of a true democracy. That characteristic saves it from becoming a repetition of Stalinism. After all, only two communists were elected out of 27 who ran. That's not dangerous, even though the propagandists can—and do—claim 100 per cent increase! (The Commies had one member in the last House.)

No New Foreign Policy.

I should doubt that there will be any decisive changes in foreign policy. Britain has consistently adhered to a pretty well formulated foreign policy for almost 300 years. However, it is reasonable to expect a greater sympathy on the part of the British foreign office for the movement left of center than with the kings and Tories the expiring government supported. An approach to self-government in India is to be expected.

I think foreign trade will become more international minded and more collective. I think it will move toward further cartelization. The question about British commerce growing will be dependent upon their range of wage. Labor will drive for wider employment and higher pay Probably it will take over many features of Beveridge's plan. To hold the British position in world markets will require subsidies. In other words, Britain will embark upon a species of protection.

Long Labor Rule

Attlee is a good man, overshadowed by his association with Churchill. My guess is that labor is in for a long run and, if there is any change it will be to displace Attlee for one of its own, such as Bevin or Morrison. As its name implies, this is a labor victory, built in a democratic framework.

Unquestionably, the fact that labor received a clear majority of all the votes, will tend to unify the country. I believe there is nothing to fear from England. In fact, we may be able to learn from this great experiment. My hope is that there will not be too great a limitation set upon free enterprise.

We should remember that Ramsay MacDonald's labor government swung steadily to the right. In fact, it is axiomatic that the ins grow conservative and the outs more radical.

That is happening in America right now. It wouldn't be surprising if the Republicans were gradually to move to the left, as against the conservatism of the southern democracy.

Universal War-Weariness

In my reading, it is almost a settled law of history that every country engaged in a war repudiates the leadership that brought its people into the war. We saw that exemplified after World War I. All the victors were repudiated—Wilson in America, Lloyd George in Britain, Orlando in Italy, Clemenceau in France. And the losers, too: the Hohenzollerens, the Hapsburgs and the Romanoffs.

Apparently a great wave of war-weariness overwhelms all peoples, and they throw out anyone remotely connected with the war. If that be true, it disposes of any question of military candidates. But there is small likelihood of that; America has chosen a great military figure really only once. That was Grant—and his presidency was a stench.

Attlee's cabinet is a strong one and certainly as good as Churchill had.

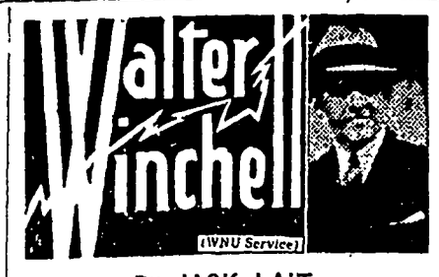
There is an additional point, in connection with the English result, on which I should like to expatiate for just a moment:

We Won't Copy England

There is an insistent belief that the English elections are definitely an indication of how ours is going. While unquestionably, the result shows a tendency, in reality there is nothing to warrant the belief that it is any more than such a tendency.

In 1908 to 1911, Lloyd George was beginning his successful campaign for vast social reforms in Britain. We remained conservative, electing Taft in 1908, and would have elected a Republican in 1912 had it not been for the Bull Moose split.

England went liberal during the war, and thereafter, but we turned solidly to the right immediately after the war, while England, in the early '20s elected a labor government. In 1923, when MacDonald got a plurality, we put our leadership in the hands of Calvin Coolidge.



By JACK LAIT

(Pinch Hitting this week for Walter Winchell)

Memo from Manhattan—

With my son, paratrooper-war correspondent George Lait, I saw a private projection of "The Story of GI Joe," which then had not yet opened in New York. This is a film centered around some of the famous activities of Ernie Pyle. We both have a sentimental interest in Ernie. I knew him when he was an inconspicuous desk drudge on a Washington newspaper, a nice little guy who gave no indication of the immortality he was to attain in our profession. But George knew him more intimately than he knows his brother. They crossed together in a tiny tub to Lisbon, flew from there to London, shared a little flat during the murderous blitz. They went together to Africa and shared tents, jeeps and foxholes during the adversities of the British defeat and retreat and through the triumphs of the allies from El Alamein to conquest of the desert and the Mediterranean.

They were side by side in Sicily and in Italy. George had caught malaria in the desert and came back here for a spell of rest. After that he went through campaigns in New Guinea, Saipan, through the bitter fighting on Leyte. He made battle jumps with the Eleventh Airborne Division and was about to go on to Luzon when the malaria caught up with him again. Gen. MacArthur ordered him flown back on sick leave. Meanwhile, Ernie Pyle had come home to rest and recuperate at his house in Albuquerque, N. M.

I met George at my Beverly Hills retreat, the day after he landed in San Francisco, and while we were there Ernie visited us. He was now on his way to cover the fighting in the Pacific. By this time, he was the most widely syndicated reporter in the world, the only man in my knowledge who ever had both the top best-sellers on the book market at once, and he could have commanded princely prices to lecture, write for magazines or take any of a score of broadcasting offers. . . . George, who had been through plenty with him, told him he was bound for stuff much worse and more dangerous than he had ever known. George pointed out to him his situation, on top of the world, and literally begged him not to go. But Ernie said the very fact that he had built up so large a following was a mandate and an obligation; he couldn't quit in the middle; he had a hunch he would never come back, but he insisted he should go on.

"The Story of GI Joe" takes him only as far as his turning to the road to Rome. . . . Burgess Meredith, who gives an uncanny personification, studied under George and others who knew Ernie well and acquired his little intimate mannerisms; makes even those who knew Pyle think he looks like him. . . . But, though he is a star and playing a greater one, GI Joe is the hero—collectively—of this brave film. I call it brave because Lester Cowan put two and a half million dollars into it, though he had pledged Ernie not to glorify him, gave his principal character no suggestion of any sort of romance, and contracted to let Ernie throw out any scenes he didn't like. He did discard several, which were quite costly, because they made too much of him and too little of the men he loved and who loved him. . . .

Perhaps it was this spirit and faculty that lifted Ernie Pyle above any other reporter of his generation. He was a self-effacing little fellow, not physically brave, who sweated and shuddered during action, but who not only never ducked it, but went, weary and woebegone, to seek it. . . . George tells me that during the nightly Nazi raids on London, Pyle would be panic-stricken—yet he was the first one at his typewriter when it stopped. . . . He had a lot of resistance, as many wiry little men have. . . . With the kind of stuff he wrote, he could have almost as well worked miles back of the front. But the reporter in him drove him right to where things were thickest.

His widow, Gerry, has pleased all his friends by stepping hard on a professional project to establish a gaudy memorial park in his memory. . . . That's exactly what would have made him wince . . . Perhaps modesty was his predominant characteristic, and it shows in this film, over a natural temptation for a producer, director and actor to create a hero . . . To himself, Ernie was no hero . . . He was bewildered by the praise and prosperity which poured down on efforts which he intended to be simple and humble, as he was to the last, and which I am sure he would want his memory to be.

After many long years at every angle of the business, I am scarcely a starry-eyed worshiper of a man simply because he does a newspaper job well . . . Devoting all my space this week to Ernie Pyle makes the first time I have done that since, 30 years ago this week, I wrote an obituary tribute on Paul Armstrong, who was the exact antithesis of the man I deal with here . . . That bears out a theory which has long seemed sound to me—a man is judged in the direct ratio of what he accomplishes to what he attempts.

People Make Fun of Mrs. Beulah Hank

INDIANAPOLIS, INDIANA. Mrs. Beulah Hankins, who lives 634 S. Collier, wrote an amus letter to Faultless Starch Co pany recently. She said,

"I want to tell you about you wonderful starch. I sure thin it's grand. Several peopl make fun of me for not boilin my starch. They say thi starch is for lazy people. have a boy four years old an I iron ten to fifteen suits o clothes a week for him. I lov to iron them as Faultles Starch makes easy ironing. also have twins, eight month old, and do they have a laundr —from twenty to twenty-fi dresses a week and most o these are white ones. The iron so smooth and smell good Thanks again for Faultles Starch. It sure saves me man hours of ironing."

SAVES TIME AND WORK

That's probably the most w derful letter anyone could wr about Faultless Starch! Mrs H kins is a busy wife and mother she has found that Faultless Sta saves time and work for her makes starch without cooking she has found that Faultless Sta makes her ironing easy She a kick out of people saying her Faultless Starch is for l people. Certainly she isn't la

MADE A SPECIAL WAY

If you are busy, too—especia on washday and ironing day—y deserve the time-saving and wo saving help Faultless Starch give you You see Faultless Sta is made a special way to help through your washing and to s you hours of ironing. So why enjoy Faultless Starch? All have to do is ask your grocer it. Then you can make perfect starch without cooking' And can make ironing so smooth, e and beautiful. It's yours for asking . . . PAZO for Simple PILES
Relieves pain and soreness
PAZO IN TUBES!
Millions of people suffering from simple Piles, have found prompt relief with PAZO ointment. Here's why: First, PAZO ointment soothes inflamed areas—relieves pain and itching. Second, PAZO ointment lubricates hardened, dried parts—helps prevent cracking and soreness. Third, PAZO ointment tends to reduce swelling and check minor bleeding. Fourth, it's easy to use. PAZO ointment's perforated Pile Pipe makes application simple, thorough. Your doctor can tell you about PAZO ointment.
SUPPOSITORIES TOO!
Some persons, and many doctors, prefer to use suppositories, so PAZO comes in handy suppositories also. The same soothing relief that PAZO always gives.

ntinuation of Nurses Training to Provide for Thousands of Qualified Hospital Assistants

By Walter A. Shead, WNU Staff Correspondent

A total of 112,000 girls and young women, of which number 59 nt or approximately 66,100 come from small towns of 5,000 and r population, are enrolled in the nurses training courses spon- by the United States Public Health Service of the Federal ity Agency.

These girls are entrained in what is more commonly called the nurses training corps and the erroneous impression has been ly fostered that they must enter the army and navy service upon ation. This is untrue, however, since the law providing for the ing of these nurses says they are trained for the armed forces, nmental and civilian hospital, health agencies, war industries r other purposes, and where the decide to practice is entirely tary on their part.

y may decide to stay in civilian ce, or to go into the army or but emphasis is placed upon the tary nature of their service.

Is the case in most war projects, ularly where money for operation from some other source, there siderable confusion in the Public Service as this is written as to er the governmental training of under the act will continue.

course also makes provision for duate courses for graduate to become supervisors or teach- approximately 20,000 have been d in these courses, which are asting up to approximately six

ding to information here, the ment of nurses for these courses has been one of the most successful efforts in the war and has been the most reasonable in point of cost to the government. The public relations program is in charge of Mrs. Jean Henderson Mulcahy of Jacksonville, Fla., a former newspaper woman, who prior to her coming to Washington, was for five years director of public relations for the Florida State Board of Health.

The cadet nurse corps is one of the few organizations in the war which has been given an official flag, and by action of Dr. Thomas Parran, Surgeon General, and approved by Paul V. McNutt, Federal Security Administrator, the flag was ordered as a white rectangular field, with a white Maltese cross centered on a red oval superimposed on a rectangle of gray and below the cross insignia the words "Cadet Nurse Corps" in regimental red lettering.

The official flag is ordered displayed at all induction ceremonies, graduation exercises, parades and at such other times as authorized by the Surgeon General.

Providence Was First.

The first hospital in the United States to be approved for installation of a cadet nurse corps was Providence Hospital in Washington, D. C., the second being Johns Hopkins in Baltimore.

According to Mrs. Mulcahy, the Providence Hospital corps is one of the model organizations in the country and under the direction of Sister Rita, superintendent of nurses there for the past twelve years, the cadet corps has been integrated with the five-year university course which was also inaugurated by Sister Rita several years ago.

In other words, at Providence, most applicants for cadet nurse training are selected from among girls who have had at least two years' college or university education and when they graduate they not only receive the coveted "RN," or registered nurse, degree, but they receive a bachelor of science degree from Catholic University of America, with which the hospital has affiliated for the course. Out of the more than 165 girls in the class at Providence, 107 are college girls.

Sister Rita explains that out of an avalanche of applications, she was able to make careful selection of girls with college training, that they make better students and that as a result of this careful selection, Providence Hospital has had no disciplinary problems such as has been true in other hospitals where such care was not exercised in the selection of applicants.

It may be that the experience with the cadet nurse corps at Providence will mark a turning point in the training of nurses throughout the country, since Sister Rita is planning to abandon the ordinary three-year nurses' training course which has been in vogue at most nurse training schools, in favor of the longer course and a college science degree.

Although the law provides for an insignia which may be worn on both indoor and outdoor uniforms, the students at Providence wear the same uniforms as students in regular training without insignia, and there is no distinction whatever made either in their training or in the treatment they receive by the hospital. And few if any of the cadet nurses at this school wear their outdoor uniforms to make them distinctive from the other girls in a total training school of 250 girls.

Large Urban Class.

In recruitment of the cadet nurses, according to public health service records, 40 per cent come from towns and rural communities of less than 2500 population. An additional 19 per cent come from towns of less than 5000 and only 9 per cent come from the large metropolitan cities.

Mrs. Mulcahy explained this unusual proportion of trainees from the small towns in the fact that parents felt that their daughters would be sheltered in proper environments, that many of them had not been away from their home town communities and that they felt safer and more secure in permitting their entrance in the cadet nurse corps, both as a patriotic move and as a security for their future.

There has been little complaint incident to this important training course to provide additional nurses during the emergency, particularly from the girls themselves. Most complaint, Mrs. Mulcahy remarked, comes from parents who believe the girls should have the same pay as privates in the army, $50 per month; that the girls are not subject to veterans' benefits and that they are not entitled to free mail.

To offset these, however, it is pointed out that the girls are receiving training for a life work at the expense of their government and that despite need for nurses in the armed forces, they are still free agents to practice when and where they will, or to not practice at all if they should so desire, if they marry, or for any other reason.

Farm Indebtedness Is Cut 25 Per Cent In Past Five Years

Farmers are using their larger incomes wisely in reducing their indebtedness. Many have paid off all their mortgages and others have reduced their obligations far more rapidly than their schedule of payments required. The total mortgage indebtedness on farms has declined at least 25 per cent during the last five years. Farmers are much better prepared financially to meet readjustments that may be necessary.

In another way, farmers are acting wisely in order to avoid heavy losses later. They are trying to keep prices of farms from sky-rocketing as land did in 1919 and 1920, only to be followed by a collapse which was a heavy burden for many years. The danger is not yet past for farms are being sold in many cases over 50 per cent higher than in prewar times. The situation is becoming a little better now and the prospects are more promising.

Merchants and business men in rural communities and smaller towns are preparing to meet changed conditions for their prosperity is so closely tied up with that of the farmers. Conditions for them are very good, as indicated by the rise of bank deposits in agricultural regions, by higher retail sales, and increased consumer demand for both goods and services. Merchants are trying hard to get the goods for which the demand is so large.

The good judgment and wise management which has already successfully accomplished so much will help not only the farmers, but also the entire country during the postwar period. We are ready to face whatever comes. Much has been done and even more is going to be accomplished to make the future as prosperous as possible. There has been some unemployment due to closing down of plants engaged in the manufacture of war material.

Good Start Made In Major Job Of Reconversion

Reconversion—and all that it entails between now and this time next year presents a black picture if one listens to the predictions of some government and labor leaders.

The reconversion picture from the viewpoint of business and industry is not so darkly shaded and a spirit of optimism prevails within the ranks of industry in most localities throughout the nation.

Insofar as government is concerned we are, almost still unprepared for peace. Although the full-time employment bill was introduced last January with urgent recommendations from the late President Roosevelt that it be enacted into law and later urging by President Truman . . . the bill still rests in a senate pigeonhole. And, although there are many ramifications to the question of reconversion from war to a peace-time economy, the problem of unemployment, of lower wages, if only for a short temporary period is predicted will slash the national income from approximately 162 billions as of now to around 112 billions annually as of January 1, 1946. And it is unemployment, the human side of reconversion, which will cause the most suffering.

But looking at the picture as pessimistically as one can, it is a far cry from a national income of 112 billions to around fifty billions which was the nation's income during the depression years in the mid-thirties. It is a harsh paradox to witness a nation which has won the greatest military victory in history and accomplished the most prodigious production miracle in the annals of man, throw up its hands and predict an army of eight million unemployed by next Spring with the government doing nothing about it.

Chairman Krug of the War Production board in a statement shortly after the peace emphasized that the actual job of reconversion will be handled by private industry with pretty much of a hands-off policy by the government. The government's part he said, will be to hold down inflation.

Well, according to the best informed persons here in Washington, that is not enough for government to do. And the record of private industry even in the most lush production year in the nation's history has shown that private industry alone is unequal to the task.

THE ISRAELITES IN A FOREIGN LAND

LESSON TEXT—Genesis 47:1-12.
GOLDEN TEXT—Lord, thou hast been our dwelling-place in all generations.—Psalm 90:1.

Preparation of a great nation takes time. God wanted Israel to have opportunity to develop from a family to a nation so He arranged for them to have a place of refuge and of abundant provision while they grew. He had already made ready for them by sending Joseph into Egypt, and now the whole family of Jacob moved down.

Jacob's fears had been overcome by the vision of God (Gen. 46:1-4), in which he was assured that this was the outworking of God's purpose to make of him a "great nation." The promises to him and his forefathers were now in process of fulfillment. The man who believes God is privileged to see Him work. We find the family of Jacob

I. In Egypt, but Separated (vv. 1-6).

As he presented the representatives of his brethren to Pharaoh, Joseph made known that he had settled them in the land of Goshen, a favored spot well suited to their life as shepherds.

It is worthy of observation that while they were now in Egypt there was no thought of mingling with the Egyptians. They were to be a separated people living in a strange land. Only thus could the purity of the nation be maintained and a people suited for God's service be kept and made ready.

The application to the life of the Christian lies right at hand. In Scripture Egypt is a type of the world, where fleshly appetites are satisfied and where strange gods are worshiped. The Christian is to "come out from among them" and to be separate (II Cor. 6:14-18).

The tendency in our time is to minimize the importance of separation from worldliness and to regard those who preach and practice it as being narrow and old-fashioned. Say what you will, it is a fact that worldliness has robbed the Church of its spiritual power and of its real testimony for Christ.

As a matter of fact, the Christian is not narrow. He is as broad as the counsels of God, and the worldling who boasts of his broad-mindedness has often mistaken superficial flatness for real broadness.

II. Blessed, but Blessing (vv. 7:10).

Jacob and his family received many mercies at the hands of Pharaoh and his people, but they were not in the land just to be blessed but also to bring a blessing.

The patriarch Jacob was brought by Joseph into the presence of Pharaoh. That noble son was not ashamed to bring his aged Hebrew father into the presence of the king. There he gave witness concerning his life. But he did something else—he blessed Pharaoh.

That scene speaks volumes to us as Christians. We are not of the world but we are in the world (John 17:15-17). We are to be a separated people for the glory of God, but that does not mean that we are not to bring blessing to those round about us. We are in the world not just to enjoy ourselves, but to make Christ known to others—to touch lives that are needy and saddened and sin-sick.

It is also of interest that the blessing of Jacob was given to the man on the throne. We are apt to think of the poor and the underprivileged as needing the gospel and forget that the rich man in the house on the hill may be the most spiritually hungry in town.

III. Preserved, but Preparing (vv. 11, 12).

God sent His chosen people down into Egypt that they might not perish in the famine. He wanted them kept and nourished while they grew into the great people which He ultimately led out toward the Promised Land.

That was important, for had they not been preserved the promise of God could not have been fulfilled. But all the time they were being prepared for the great day of deliverance and blessing which was to come.

Applying the truth once again to the Christian believer, it is not enough just to be safe in Christ. That is precious but it is not enough; there must be growth in grace.

Some Christians are saved and kept all right, but it is just a matter of being "preserved" and put on a shelf. They are of no earthly use unless it is to be exhibited, and that kind of a Christian is not really worth showing off.

Then, too, some of the saints are preserved but not in sweetness. They are evidently preserved by pickling, sour, unpleasant people sometimes called "vinegar saints." God deliver us from that kind of preservation! May we be kept in such a way that we are ready to witness for God!

SEWING CIRCLE PATTERNS

Patchwork Apron Is Colorful Scalloped Frock for Daytime

Cover-All Apron

LOOK through your scrap bag for pieces to trim this simple, practical cover-all apron. You'll find it wonderfully easy to make—just five pattern pieces. Trim with a gay tulip applique, or use the tulip motif for a pocket.

* * *

Pattern No. 8749 is designed for sizes 14, 16, 18, 20; 40, 42, 44 and 46. Size 16 requires 2½ yards of 35-inch material.

Afternoon Frock

SOFT scallops outline the neckline of this graceful afternoon frock. The simple gored skirt is very flattering and easy to wear. Use a pretty all-over scroll or floral print and add your favorite jewelry or a bright flower for ornament.

Household Hints

When grease or milk is spilled on a hot stove, sprinkle with salt to remove the unpleasant odor.

—•—

Keep a clothes hanger right in the sewing room when making a new dress. Then the half-finished dress may be placed on it when not working on it. There is no sense in bundling it up in a knot to cause wrinkles when this small step will prevent them.

—•—

A cloth dipped in kerosene will remove all grease and dirt stains from the sink as well as add to the polish. To remove grease spots from wallpaper, apply dry cornmeal with a clean, dry cloth to the spots and they will soon disappear.

—•—

Baste a line down center front of the dress you are making and another down center back. Use these lines as guides in fitting.

—•—

The egg slicer is good for much besides slicing eggs. Thin, even slices of cooked potatoes or beets may be made with it, and some fruits slice nicely that way.

—•—

When clothing is spotted with rain, place a clean, damp cloth on the material and press it with a moderately warm iron.

—•—

To make dainty sandwiches, use bread that is at least 24 hours old and slice thin with a sharp knife.

SNAPPY FACTS about RUBBER

Rubber production from native plants in Southern Florida is not promising at present, and commercial planting of tropical rubber plants there is not justified, in the opinion of the U. S. Department of Agriculture.

A special railroad coach equipped to demonstrate tyre (British spelling) conservation has traveled throughout England.

More than 40,000,000 heavy-duty truck tires have been produced since Pearl Harbor, even though 90% of the sources of supply of natural rubber were lost at that time.

Mrs. H. E. Harvey entertained the past presidents of the W. S. C. S. at her home Monday evening.

Henry Helps returned home Sunday from the nursing home at Thornton where he had been for several weeks.

Miss Ruth Stille of Des Moines spent the week end visiting with her parents, Mr. and Mrs. Lester Stille.

Rev. and Mrs. Fred Griewe, of Garner, attended the 60th anniversary celebration at the Liberty Methodist church, Sunday.

Mr. and Mrs. Bernard Beek and sons of Mason City were visitors at the Clifford Montgomery home Friday evening.

Harvey Hubbard went to a Mason City hospital Saturday for an examination. Harvey has been suffering from a case of sinus.

Mr and Mrs. Earl Pethram and her mother, Mrs. Bessie Newcomb of Chapin, were visiting at the W. F. Pavey home Sunday afternoon.

Keith Stille, of Liberty Kanasas, visited with Klemme friends Sunday. Keith is taking special Navy air training at Liberty.

Ernest Gerardi came Monday from Wichita, Kansas, to spend a weeks vacation here visiting with his family at the Quandt home.

Rev and Mrs. Wm. Zabilka, of Merrill, Iowa, were supper guests Sunday evening at the E. J. Arnold home.

Mr and Mrs. Levi Klotzbach left by train Friday evening for Monona, Iowa, where they went to attend the wedding of a neice.

Mr. and Mrs. J. A. Chambers attended the Annual Methodist Conference at Estherville last Thursday.

Mrs. P. M. Wilson spent Saturday in Belmond visiting with Mr. Wilson's sister, Mrs. Margaret Brooks.

Miss Novella Bredbenner, who teaches in Des Moines, spent the week end in Klmme visiting with her mother, Mrs. Martha Bredbenner.

Iva, daughter of Mr. and Mrs. George Christie, has enrolled as a freshman in the University of Minnesota. Miss Christie writes that she enjoys her college work.

Mr. and Mrs. Will Waddingham returned last week from a visit with relatives in Minnesota. They report that the potato crop up there is very good this year.

Milton Paul, who is taking a business training course at Des Moines, spent the week end here visiting with his parents, Mr. and Mrs. Herman Paul.

Mrs. Antonio Keraus spent the past week at Clear Lake, visiting with her brother-in-law and sister, Mr. and Mrs Patton, who have a cottages at the lake.

Mrs. Rhine Lemke of Garner, attended the anniversary celebration at the Liberty Church Sunday and enjoyed visiting with her old neighbors and friends.

A number of local duck hunters had good shooting the opening day of the duck season last Thursday and duck dinners have been popular the past few days.

T-4 Herman Lauen of Aberdeen, Maryland, came last week for a visit with his brother, John Lauen and family, and with other relatives and friends.

Miss Betty Etchen returned to Des Moines Sunday evening after enjoying a weeks vacation which she spent visiting with her parents here, Mr. and Mrs. John Etchen.

A number of Klemme members attended the meeting of the Eastern Star at Garner Tuesday evening. A pot luck supper was enjoyed which was followed by the regular meeting.

Phone your news to 12.

Local Happenings

Klemme and Vicinity

Mr. and Mrs. John Clements and LuVerne Lewis spent Saturday afternoon in Mason City.

Rev. J. W. Grosshuesch, father of Rev. Calvin Grosshuesch, is on the sick list this week.

Mr. and Mrs. Will Ridder and son of Waterloo, visited over Sunday with Klemme relatives and attended the 60th anniversary celebration of Liberty Church.

Mrs. August Ridder and son Walter, of near Leland, spent Sunday visiting with relatives here and to attend the 60th anniversary celebration of the Liberty Methodist church.

Clifford Montgomery returned home Tuesday from Motley, Minn. where he had been on business and visiting with relatives since last Thursday. Lyle Nuehring, who accompanied him on the trip, remained at Motley.

Chas. W. Stiehl, a former resident of Klemme, now of Long Beach, California, came Tuesday for a couple of days visit with old friends and to look after business. He leaves here for Tulsa, Okla., for a visit with his sister.

Milton Friedow, son of Mr. and Mrs. Floyd Friedow, who live seven miles west of Klemme, attended the fall executive meeting of the Iowa Association of Future Farmers of America held at the Kirkwood Hotel in Des Moines.

Rev. and Mrs. J. L. Ralston, of Salix, Iowa, were in our community Sunday to attend the 60th anniversary celebration at the Liberty Methodist Church. Rev. Ralston appeared on the afternoon program.

Rev. and Mrs. Harry E. Whyte and Lynn of Rockwell City, came Saturday evening for a visit with old Klemme friends and to attend the 60th anniversary celebration of the Liberty Methodist Church. Rev. Whyte, a former pastor here, delivered the Sunday morning address

Emil Beier and Harold Kothenbeutel were at Garner Thursday to take tests for driving the school buses. They were also informed that according to law, the fenders on school buses must be painted black. Flares and fire extinquishers are also necessary equipment needed to pass inspection.

Rudy Hefte received his honorable discharge and returned home Tuesday. His family has been staying at the parental Mrs. Daisy Lemke home the past few weeks. The Hefte family will move over to Britt where Mr. Hefte will reopen his filling station which he operated before the war.

Jack Tabb, who has been visiting with his uncle and aunt, Mr. and Mrs. J. A. Chambers, and with relatives and friends at Corwith for the past few weeks, returned to the army hospital at Fort Simmons, Colorado for further treatment of wounds which he received in Europe.

Petty Officer Lawrence Costello, wife and daughter Mary, and Mrs. Joe Costello, left Saturday morning for their home at Blue Island, Illinois, after visiting for about a week at the E. J. Schneider home. Mrs. Costello is a sister of Mrs. Schneider and P. O. Costello is her nephew.

Otho Keraus, who was recently discharged from the army, begins work October 1st with the Mitchell County Press at Osage as printer. Otho spent Friday and Saturday in the Times plant practicing up on the linotype machine and getting the "feel" of the printing art as it has been over four years ago since he worked at the trade.

Rev. and Mrs. Wm. Zabilka of Merrill, Iowa, came Sunday to attend the 60th anniversary celebration of the Liberty Methodist Church and to visit with old Klemme friends. Monday they drove to Oskaloosa, Iowa, for a few days visit with relatives before returning to Merrill. Their only son, Pfc. Billy Zabilka, is now stationed in France, after being in England for about 2 years. Miss Gladys Zabilka is teaching in the Paton, Iowa, high school this year.

Mr. and Mrs. Conrad Quandt returned home last Wednesday evening from Two Harbors, Minnesota. They said the weather had turned uncomfortably cold up in the lake country and so decided to come home earlier than they at first had planned.

BIG CITY GIRLS! A series of beautiful color paintings by Henry Clive, well-known American artist. Picture No. 1—San Francisco—appears in the American Weekly, the magazine distributed with this Sunday's (September 30) Chicago Herald-American. dtc

Seaman Kenneth Kluckhohn arrived home Monday evening from Minneapolis for a few days furlough and is visiting with his father, Frank Kluckhohn and family here. Kenneth expects to receive his honorable discharge from the Navy soon.

YES! Your Son or Daughter still in the Service can and should become a MEMBER of the
American Legion

WHY We have learned from experience that the best way to inform these veterans of their rights and benefits, their obligation to community, state and nation upon their return, is through the three National and State publications of THE AMERICAN LEGION. From these they obtain accurate facts relative to education, veterans legislation, rehabilitation and what is being done for their comrades who have returned to Civilian life, broken, perhaps, of body, but high of heart.

Mail Veteran's full name, branch of service, serial number, date of enlistment, home address and $3.50 to ADAM-SCHAEFER POST NO. 625, American Legion, Klemme, Iowa. This will pay for his or her National, State, District and Local Dues until December, 1946.

What is Necessary?

A Legion Card issued by this Post will admit to ALL Legion Posts in the United States, Paris, the Philippines, Hawaii— In fact any and all Posts in many other countries.

Here is a golden opportunity for parents, wives, sweethearts and employers to express in a very definite way their appreciation for the Victory these men and women have won for us, and at the same time show a personal interest in their future welfare.

—DO IT NOW!

Don't Jump The Gun!

Be Wise... Don't Buy Unsight and Unseen

We are being asked every day to take advance orders for Radios, Electric Washing Machines, Refrigerators, Frozen Food Units, Electric Appliances and many other household items that have been restricted in production and impossible to obtain during the war. All this in spite of the fact that we do not yet have the models to show.

Although many are willing to buy "unsight-unseen" we refuse to sell until the customer **sees** and **knows** exactly the kind of merchandise he will receive. We have always sold TOP QUALITY MERCHANDISE and we will again have regular stocks of these items in the best qualities the manufacturers can produce. You who have always depended on us for nationally famous refrigerators, washing machines, and the many other smaller appliance items, can rest assured we will make them available to you, with all of the modern improvements, as EARLY as anyone can.

We urge you to wait until you see them. That is in line with our way of assuring customer satisfaction. Surely part of our value to you is that we are experienced and skillful in seeing to it that what we offer is sound and desirable merchandise. We feel that we cannot do this unless you see the merchandise you buy. We can't do it from pictures or from manufacturers' representations and promises. We insist on seeing and why shouldn't you do the same?

We do not mean to say that you cannot, with confidence, place an order for an item made by a firm whose good reputation is unquestioned, but if you can wait until you personally see the actual model, and other models put out by reliable firms, we know you will be a lot better satisfied.

WE CAN MAKE ONE PROMISE TO YOU . . .

: Klemme, J. C. Thomas; Mrs. Amos Hanson; Gar- y L. McMillin; Corwith, ley; Kanawha, Mrs. D. L. Woden, Henry Bode; Britt, uer. Each of these chair- o direct his own campaign. ill be no kickoff meeting e. If anyone who lives in r township having no quo- es to contribute, he may money to H. L. Ollenburg, or to his township or town chairman.

Former Quotas Are Listed

The total quota for each township the past two years was $1,080 The total contributed in each of the townships during those 2 years was as follows:

Amsterdam, $1,324; Avery, $1,112; Bingham, $1,377; Boone, $956; Britt, $722; Concord, $1,219; Crystal, $1,212; Ell, $1,600; Ellington, $1,408; Erin, $1,081; Garfield, $1,442; Liberty, $1,398; Madison, $1,087; Magor, $1,512; Orthel, $1,327; Twin Lake, $1,197.

Town quotas were all different. Town totals for the two years were as follows: (the quota being the first figure given, and the second figure being the amount subscribed) Britt, $3,060, $3,021; Corwith, $720, $945; Crystal Lake, $450, $530; Garner, $2,700, $3,242; Goodell, $315, $334; Kanawha, 1,170, $1,501; Klemme $855, $984; Woden, $450, 489.

MRS. G. W. KLUCKHOHN HONORED ON BIRTHDAY

Twenty-five relatives, representing four generations of direct descendants, gathered at the Frank Kluckhchn home Friday evening to celebrate the eighty-seventh birthday of Mrs. G W Kluckhohn.

Fried chicken with the usual culinary trimmings constituted the main fare of the evening meal after which the customary birthday cake was enjoyed.

After Mrs. Kluckhohn had been presented with a corsage of flowers, gifts were opened and the many messages of congratulations and good wishes were read.

Mrs Kluckhohn is one of the few remaining original settlers of Ell township. Born in 1858 at White Rock, Illinois, the eighth child of Sebastian and Katherina Ell, she came with her parents to this uninhabited spot in Iowa in 1870, remained to make this her lifetime residence, and through the ensuing years has witnessed the development of the then unbroken prairie sod to the present modern farming community.

At the age of eight-seven Mrs. Kluckhohn remains in remarkably good health and derives ever increasing enjoyment from the visits of her many descendants and friends. She points with pride to the fact that her family line has been carried into the fourth generation through each of her five living children.

Those present at the gathering Friday evening included: Mrs. Kluckhohn; Mrs Sadie Turgasen; Mr. and Mrs. Donald Turgasen; Mr. and Mrs. Fred Kluckhohn; Mr. and Mrs. Carold Larson and sons, Robert and Craig; Mr. and Mrs. Clarence Kluckhohn; Mr. and Mrs. W. C. Keraus and son, Otho; Mr. and Mrs. Verle Keraus and son, Michael; Frank Kluckhohn and son, Franklin; Mr. and Mrs. Lynford Back and daughter, Roxanne.

UNITED SERVICE WOMEN WILL MEET OCTOBER 10

The United Service Women will meet Wednesday afternoon, October 10th in the bank basement and will work on a quilt. All members are urged to be present and visitors are welcome Lunch will be served by Mrs. David Schwichtenberg and Mrs. Ben Mullin.

The ladies have made and sent 100 handkerchiefs to the shipping center at Oskaloosa.

Mrs. Cornelius J. Wille and Mrs. Henry Jost had charge of the For-Get-Me Not sale Saturday afternoon and evening. Since the First World War it has been customary to set aside a day known as For-Get-Me-Not Day. To help disabled American veterans the flowers are made at the hospitals. One Klemme veteran, Alvin Albers made some while he was a patient at Des Moines.

Rural Boys And Girls Join A 4-H Club

BEEF FOR THE FOOD MARKET—The Junior cattle feeding project is one of the newer activities for 4-H club members It gives practical experience in buying, feeding and managing cattle on a feedlot basis. These Hereford steers were fed by Lowell and Arthur Hay, Webster County 4-H members. Rural boys and girls are urged to join the 4-H during the Hancock County Membership campaign during October.

OCTOBER IS 4-H CLUB ENROLLMENT MONTH

Mrs. C J. Wille and Curtis Greiman, County Chairmen of the 4-H girls and boys clubs of Hancock County, report 18 clubs have completed the year's work.

With the new club year starting in October, special emphasis is being placed in enrollment of old and new members during the month

Second year nutrition, with over products will be the girls major project Recreation, music appreciation, discussion of world affairs and cooperation in community campaigns are also a part of their yearly program.

As plans shape up now, all 4-H boys will have the opportunity to sign up for one or more of the projects of beef, dairy, swine and poultry.

As in past years, emphasis will be placed on efficient project management, with the boys getting experience in buying, feeding and selling livestock. Members also receive training in grooming and showing livestock in the show ring, one of the best places to gain poise and self-confidence .

Any boy or girl who would like to join a 4-H club should see the local leader, a member of the county committee, or Paul Henderson and Hazel Grimes at the Farm Bureau office in Garner.

MAKING INTERNATIONAL ORGANIZATION EFFECTIVE IS TOPIC AT ROTARY CLUB

The October 10th meeting at the Garner high school will be on the topic "Making International Organization Effective" and will be delivered by Mr. Simon M. Davidan, of Lima, Ohio. Mr. Davidan is a traveler, lecturer and specialist in international affairs. Born in Constantinople of American parentage and educated in Bethany, West Virginia and Yale University. Since completing his academic training he has traveled extensively, especially in Europe Because of the blending in his experiences of the Old World tradition and the New World education he has literally been forced to the public platform to speak on such themes as "What America Means to Me—And to The World." His outstanding achievements as a speaker in forums, colleges, and conventions plus his knowledge of Russia, have singled him out as one competent to address Rotary Institute Audiences in the field of his specialty, international affairs.

HELLO, FOLKS!

Mr. and Mrs. Verner Stromer of north of Klemme, are the parents of a 6 lbs. 2 oz. baby boy born at the Mercy Hospital, Mason City, Tuesday, October 2nd.

In Honor of Newspapers

During the War years your hometown newspapers brought you the chronicle of events and news of your community and the message of advertisers. It did so on rationed paper. Newsprint is still rationed and will continue to be rationed for months to come because of shortage in supply. Publishers of newspapers will continue to do their part under great handicaps Do they not merit some commendation for their service during their week, National Newspaper Week, October 1 to 8?

GARNER BUSINESS MAN DIED MONDAY IN HOSPITAL

Marvin Zeiger, 69, pioneer north Iowa jeweler and business man at Garner for 44 years, died at a Mason City hospital Monday following a 2 weeks illness.

During his years as a business man in Garner, Mr. Zeiger had served as councilman, mayor, fire chief and school director. His wife died 3 years ago

GARNER DRUGGIST SELLS BUSINESS, RETIRES

Frank Zeiger, who has operated a drug store at Garner for the past 42 years, recently sold his business to Robert Blank of Mason City, who took possession Monday. Mr. Zeier has retired from business.

URGES ACTION IN STOPPING FARM FIRES

Hancock County farmers, along with those all over Iowa and the nation are reminded that next week, October 7-13, is Fire Prevention Week, says Paul Henderson county extension director.

Henderson says that President Truman, in proclaiming Fire Prevention Week, appealed to all farmers to take active steps to wipe out farm fire hazards. Last year farm fires took 3,500 lives and destroyed 90 million dollars worth of property.

Fire studies by Henry Giese, Iowa State College agricultural engineer, show that most of the farm fires occur in the house. And perhaps more important is the fact that 85 percent of the known causes of farm dwelling fires can be laid to faulty construction of the dwelling. Checking up on these causes within the home is the No. 1 job during this next week.

All heating equipment should be checked thoroughly. The roof and chimney should be inspected for defects. The electrical wiring system should be examined and the lightning rods inspected. These are a few of the things which will help keep the fire toll down in this county and in Iowa during the coming year.

Pullets will get into production faster if they are confined to the laying house and not allowed to run around the farmstead.

Funeral Services Thursday For Mrs. Mary Roths, 85

NOW A CIVILIAN

T-Sgt Glenn V. Lewis, son of Mr and Mrs. Verner Lewis, of Klemme, received an honorable discharge from the U. S Marines September 24th at Camp Le Jeune, North Carolina, after over 4½ years of service.

Lewis, who is a graduate of the Klemme high school, enlisted and was inducted into the Marines on March 19, 1941 and received his "boot training" at San Diego, Cal.

Following graduation he was on special guard duty at the Bremerton, Washington Navy Yards, and later did guard duty at the Naval Radio Station at Bainbridge Island cut from Seattle, Washington. He was later transferred back to San Diego to take a special course in aviation engineering and left for service in the South Pacific October 15th, 1942 and for the next 16 months was stationed on New Caledonia, the Russells and other islands in the South Pacific and was returned to the states in February 1944 to receive special Navy V-12 training for officers preparatory school and attended the University of Washington, the University of California and later was transferred in July 1945 to Camp Le Jeune, N C. to await his turn to enter the final phase of officers training at Quantico. The sudden ending of the war, however, interrupted further officer training and he received his honorable discharge.

Glenn has not definitely decided on his future but expects soon to leave for Seattle, Washington to seek a career.

EXTEND SERVICEMEN'S FREE HUNTING AND FISHING PRIVILEGES

The State Conservation Commission has notified conservation officers and all agencies authorized to sell licenses that pending an official decision of the state attorney general's office, all servicemen will continue to enjoy free hunting and fishing privileges in the State of Iowa. This privilege is granted both residents and non-residents The Commission had earlier announced that with President Truman's official pronouncement of VJ-day, free hunting and fishing privileges would be discontinued The attorney general's office has advised that there is some question as to whether the war has ended within the meaning of the license exemption passed by the 50th General Assembly until officially so declared by Congress.

All activities of the fish and game department are supported solely through the sale of hunting fishing and similar licenses, revenue from which has decreased substantially since Pearl Harbor The department has been operating during the war period with curtailed programs and a reduced staff, many of the latter on a leave of military absence. Postwar revenue is expected to increase $100,000 annually, and the increase is to be used to finance post war fishing and hunting improvement programs.

Until clarification of the license exemption statute, members of the armed forces may continue to hunt and fish without first buying a license.

LAFAVRE ADDS TO FINE HERD OF BROWN SWISS

Purchased Two Top Cows At State Sale At Des Moines Monday

Clell Lafavre, who resides southeast of Klemme, Monday purchased the two top cows at the state sale held at Des Moines, and has added them to his growing herd of purebred, registered Brown Swiss cattle.

Mr. Lafavre has a fine herd of twenty-five Brown Swiss and has one of the outstanding sires in the state to head up his herd.

AGED KLEMME RESIDENT DIED EARLY MONDAY EVE

Services To Be Held Thursday Morning At Goodell Church

Mrs. Mary Roths, who had been seriously ill for the past few weeks died at her home in Klemme, Monday afternoon, October 1st, 1945, at 5.00 o'clock, having reached the age of 85 years.

Funeral services for Mrs. Roths will be held Thursday morning, October 4th, at 10:00 o'clock at the St. Mary's Church at Goodell.

Burial will take place at the St. Francis Cemetery near Belmond.

The obituary and other details are not available as The Times goes to press, but will be published next week.

MORE YOUNG MEN INDUCTED INTO ARMED FORCES

The following boys reported at the Legion Hall, Britt, September 21, 1945, to go to Ft. Snelling, Minnesota for pre-induction physical examination, according to a bulletin released by the Hancock County Board, Tuesday:

Leo W Barkema, Goodell; Donald G. Schutjer, Woden; Darwin D Sweet, Britt; Robert L. Kramer, Goodell; Librado Murrieta, Britt, Felipe Garcia, Hayfield.

Epifano Garcia was transferred into this county from Local Board No. 3, Weslaco, Texas, and left with the above group.

The following boys reported at the Legion Hall, Britt, September 24, 1945, to go to Ft. Snelling, Minnesota, to be inducted into the Armed Forces:

Verle A. Long, Lyle E. Green, Corwith; Kenneth D. Pannhoff, Garner; Carl Van Dusseldorp, Ernest J. Malek, Paul J. Malek, and Raymond E. Olthoff, Britt; Calvin H. Eden, Woden; Carroll L. Etchen and Merle L. Etchen, Goodell.

CHURCH WORKERS WILL MEET AT GARNER OCT. 12

The Inter-Church Council of Christian Education (composed of all church denominations) will hold its fall convention in Garner on Friday, October 12th, starting at 9:30 a. m.

The next steps in Christian Education will be set forth for the various age groups. Rev. W. E. Ulrich of Story City will be the chief speaker and guide for the day. Mrs. Orvis Shillington, of Clarion will have charge of the childrens' work.

All Sunday school workers and those interested are invited to attend the meeting.

A basket lunch will be served at noon.

NOVEMBER 18 DESIGNATED HARVEST HOME SUNDAY

November 18 has beeen set as the date for Harvest Home Sunday in Iowa, being sponsored by the Iowa Farm Bureau and Iowa State College for the seventeenth consecutive year.

Purpose of the special church event is to build better relations between town and country people in Iowa. It is expected that several hundred churches will participate in the event by holding special services.

County Farm Bureaus in the state have been asked to cooperate with the Extension Service and the ministers of the various counties. Many churches will make use of the 4-H club and rural youth members in arranging their program. Committees will be appointed to appropriately decorate the churches, depicting the completion of the 1945 harvest.

President Allan Kline of the Iowa Farm Bureau, will again prepare an official Harvest Home Sunday message, to be given in the churches on November 18.

lorful Fruit Desserts

ay like meat and vegetables d the same way day after day, but there's at least one type of food in which we like plenty of variety. Yes, desserts, of course!

hat the war is over and we back to many of our fa- oods, with rationing permit- 'll still have to hold off on that still take it easy on the anister.

dvice to you, in this matter erts, is to concentrate on oth fresh and canned. They sweetening and will not re- o much extra sugar. Then, re are lots of time-saving ou can apply to dessert mak- e chilling them or using mixtures.

several of these desserts try them on your family. em and be proud:

Peach Crunch Cake.
es 1 cake, 7 by 11 inches)
shortening

*Lime-Pear Pie
*Recipe given.

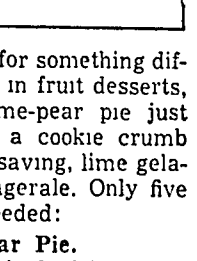
If you're looking for something different and colorful in fruit desserts, you'll find this lime-pear pie just the thing. It uses a cookie crumb crust, which is fat-saving, lime gelatin and bottled gingerale. Only five pear halves are needed:

Lime-Pear Pie.
(Makes 1 8-inch pie)

1¼ cups finely crushed cookies (vanilla wafers or gingersnaps)
4 tablespoons melted fat
1 package lime-flavored gelatin
½ cup hot water
1½ cups gingerale
1 tablespoon lemon juice
5 pear halves
¼ cup shredded coconut or nut meats, if desired

Combine cookie crumbs with melted fat and mix well. Press mixture firmly in an even layer on bottom and sides of a well-greased pie dish. Chill

Meanwhile, dissolve lime gelatin in hot water. Add gingerale and lemon juice. Chill until mixture begins to thicken. Pour a layer of the chilled gelatin mixture into the shell. Cut pear halves in two and arrange, pit side down, in star shape. Cover with remaining gelatin mixture. Sprinkle edges of pie with coconut or nutmeats. Chill in refrigerator until firm.



There's no need to try commando tactics to get the family to go for these fruit desserts. This apple dessert is made all the more nourishing because it uses both oatmeal and peanut butter and has a delightful nut-like flavor.

Apple Crisp
(Serves 4 to 6)

5 medium-sized apples
⅓ cup water
1 tablespoon lemon juice
½ teaspoon nutmeg
¼ teaspoon allspice
3 tablespoons flour
¾ cup rolled oats
½ cup brown sugar
⅓ cup peanut butter
2 tablespoons melted butter or substitute

Pare and core apples; slice. Arrange in baking dish. Add water and lemon juice. Sprinkle with spice. Blend together flour, rolled oats, brown sugar and peanut butter. Add butter. Spread over apples. Bake in a moderate (350-degree) oven for 40 minutes. Serve hot with milk or cream.

Pears coming into season right now will make a delectable dessert when baked and served with a sour cream mixture:

Toasted Pears.
(Serves 4 to 6)

6 large fresh pears
3 tablespoons lemon juice
¼ cup sugar
¼ cup melted butter or substitute
2½ cups corn flakes
1 teaspoon grated lemon rind
½ cup powdered sugar
½ cup sour cream
2 tablespoons lemon juice

Peel, halve and core pears; remove stem strings. Dip at once into lemon juice to which sugar has been added. Dip in melted butter. Roll in crushed cereal flakes. Arrange cut side down in a shallow baking pan. Bake in a moderately hot (375-degree) oven for 20 to 25 minutes or until pears are tender but not soft.

To make the lemon cream sauce, beat powdered sugar into the sour cream and flavor with the lemon juice.

Peaches may be used in place of pears, if desired.

Veterans' SERVICE BUREAU

EDITOR'S NOTE: This newspaper, through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.

Veterans Bill of Rights

It is virtually certain that this session of the congress will liberalize many provisions of the G.I. Bill of Rights, particularly since President Truman and the Veterans administration have now given added impetus to needed clarification and liberalization.

In his message to the congress, the President urged that prompt consideration be given for more liberal hospitalization and veterans care, more vocational training under the vocational rehabilitation act and to education and training under the serviceman's readjustment act (G I. bill). The President further urged more specific language for reemployment of veterans under the selective service act, so there can be no doubt about the right of a veteran to get back his old job should he desire it.

The Veterans administration itself will take the lead and spearhead the fight for these clarifying and liberalizing amendments and the administration will have the backing of such organizations as the American Bar association, the American Institute of Banking, the American Legion and the Veterans of Foreign Wars.

At this time 22,349 veterans, out of more than two million demobilized thus far, are taking advantage of the education features of the bill of rights. Some of the proposed amendments would include "adequate subsistence and travel allowances for veterans taking intensive refresher courses away from home; permit instruction by correspondence, particularly from approved educational institutions which have not hitherto conducted correspondence courses."

Questions and Answers

Q.—My husband was given an honorable medical discharge March 9, 1943. At that time they did not receive a discharge button. Where can he obtain one? Mrs. R. R., Marshalltown, Iowa.

A.—At any army separation center, probably at your local draft board, or one may be purchased at almost any army store.

Q.—Has an army officer the right to cut off the allotment to his wife and child without any reason? Has he no obligation to meet concerning his family? Wife, Stilacoom, Wash.

A.—Yes, he has the right to discontinue his allotment. He has the same obligations concerning his family as any other honorable husband.

Q.—I am making an application for a one-ton truck. I have a farm of 200 acres and need a truck very much. I am an honorably discharged soldier, with two years service. I would like to get a government - owned truck if possible. J. F., Schenectady, N. Y.

A.—If you are referring to a surplus war property truck, would suggest that you contact your local AAA county committee or your county agent for information where these surplus trucks are available from a bona fide dealer in your community. You are entitled to an A-1 priority without red tape if there are surplus war trucks for sale at any of your local dealers.

Q.—I want to know if a man that has been in the navy 16 months, is 26 years old and has a wife and two children, will get a discharge soon? Wife, Vida, Okla.

A.—Not necessarily. The navy man will be subject to the discharge system of rating adopted by the navy.

Q.—I am a World War I veteran and have a job. Will I have to give up my job for a veteran of World War II? Does a veteran of World War I have as much right as a World War II veteran? W. L., Mora, Minn.

A.—If you are holding a job now which was given up by a veteran of this war, then the honorably discharged veteran of World War II has a right to that job back under the provisions of the selective service act. A veteran of World War I has all the rights of a citizen of the U. S. A. and as much right as a veteran of this war except for the express benefits enacted for veterans of World War II.

Q.—A serviceman owed his father some money before he entered the service. Then the father became suddenly ill and was unable to work. The serviceman then provided the father a family allowance from the government. Should the serviceman get credit on what he owed his father for the amount the government sent? Reader, Hayden, Colo.

A.—That question obviously is a matter for private settlement between the serviceman and his father.

THE SUPER-CHICKEN

The poultry world is out to produce the Chicken of Tomorrow. It is working on a postwar kluck-kluck that will give a greater percentage of white and dark meat, a fowl that will even have meat on the neck and wings.

—*—

The Baby Chick Association of America and outstanding poultry experts are to convene to set standards for the Postwar Bird. If they, by any chance, get an order of chicken on a train or in a restaurant on the way to the meeting, their zeal for the achievement of their goal should be warmed 90 per cent.

—*—

Our experience with chicken lately leads to the conclusion that there is a crying need for a chicken that will have any meat whatsoever on it.

—*—

We don't know about the Chicken of Tomorrow, but the Chicken of Today belongs among the war crimes.

—*—

There is not enough meat on most restaurant chicken to hold the feathers on. They must have been feeding these birds plastic cracked corn.

—*—

Or is it the fault of the chefs, whose practice it seems to be to cook a chicken only in some form that will magnify its faults?

—*—

There may be chickens in America with meat on them, but the restaurants have been getting the other kind. A good many chefs seek to cover up the faults of these birds by serving them in the style called "Southern Fried."

—*—

Now, the real Southern fried chicken is a delicacy, but too many cooks in the East, West and North have been merely demonstrating that they don't know their compass points.

—*—

We don't know what the stuff is that they have been frying the chickens in, but it could be a combination of sawdust, putty and discarded chewing gum.

—*—

We got a Southern fried chicken the other night that must have had a wrapper made from the sweepings of a porch where the painter had been burning off the paint with a blowtorch.

—*—

There was some excuse for the Southern fried "wrapper," as the chef didn't have much to work on in the first place. Our dining companion swore that his order was a woodpecker wrapped in fire-hose and dipped in hot tar.

—*—

The chicken a la king hasn't been running good, either. It has been strictly a libel on royalty.

—*—

And have you ordered any chicken salad recently? Now we know what becomes of those old ends of lead pencils.

* * *

FALL REVERIE

A haze on the far horizon,
The infinite tender sky—
The ripe rich tint of the cornfield
And the wild geese sailing high;
And all over upland and lowland
Hot brakes and the smell of gas. . . .
Some of us call it autumn,
But others just let it pass.

SO SHE'S NERVOUS!

A California judge, granting Barbara Hutton a quickie divorce, was told by Barbara that her husband, Cary Grant, sometimes had queer moods and showed indifference toward her guests which made her nervous. From the court records:

Judge—How did this affect you?
Barbara—It made me nervous.
Judge—Did you require the services of a doctor?
Barbara—Yes.
Judge—Decree granted.

—*—

Curious fellows, these jurists. If all the women in America who were made nervous by their husbands got divorces there wouldn't be a handful of homes left in the land. America is what she is because the wives and mothers bore a lot with the old man and managed to take a little nervousness in stride. There are thousands of husbands whose behavior toward the wife's friends is at times pretty bad. But even if the average husband started heaving crockery the wife would overlook it. Only when he hit a guest would she call a doctor.

* * *

MUSINGS

It is a fairly safe bet that the year 1945 will go down in history as the twelve months that saw nobody putting in any claims to be a superman.

—*—

It is going to seem nice to phone the fuel-oil man without beginning the conversation with a supplication, an apology, a character testimonial and a claim that you know his cousin well.

—*—

Overheard at a gas station: Just keep cranking until she begins to resist.

SEWING CIRCLE PATTERNS

Smart Two-Piece Frock a 'Must'

WEAR this smart two-piece frock for dancing, earning or learning. The gay jacket has a softly flared peplum to accent a cinched-in doll waist—the skirt has graceful gores. A "must" in every junior wardrobe.

* * *

Pattern No 8905 is designed for sizes 11, 12, 13, 14, 16 and 18 Size 12, short sleeves, requires 3¾ yards of 35-inch material.

Due to an unusually large demand and current conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

EDITORIAL COMMENT

WE GOT THE EGG, BUT THE HEN GOT AWAY

Last week we mentioned that a white Leghorn hen laid an egg on the editorial lawn and provided a dainty morsel for the writer's breakfast, come next morning.

Soon after retrieving the egg, Don Christiance, the barber, showed up and retrieved the Leghorn hen. Don raises Leghorns and he presumed, (or did he?) that the rambling hen was one of his flock Anyway, we got the egg, Don got the hen.

But there have been developments in the case since that time

Now comes Al Koerner with the complete story, (and in writing) and not only gives us the egg, but also the hen with the compliments of the Koerner Dairy. Here is the story:

"On the last delivery before you found that egg, one of our pullets that had been hiding under the sub-floor of our milk car got scared and flew out at the Frank Gruetzmacher store and flew way over to your back yard. Gerald saw it fly out and didn't take the time to try to get it. You should have had that pullet for dinner That pullet is the third one we delivered down town. One flew out at Brinkman's, and another at Merkel's We usually look under the sub-floor but sometimes forget it. The next time you find a white pullet don't let anyone else claim it. Eat it with our compliments!"

Alright, Don . . . bring the pullet to us or . . . we'll settle for a couple of hair-cuts!

* * *

Yep, the war must be over. Our Klemme dealers have quit hiding cigarettes back of the counter or in a back room. They now have them displayed on their show-case and have most brands to offer the trade. Silly, wasn't it, hiding 'em behind counters. Made one feel like running down a bootlegger to get some moonshine a few years back.

* * *

The world is back on "regular" time again and it seems to run along about as usual. "War Time" was nice for the folks in town during summer months and even a few farmers now admit that it really didn't bother them much, as they went into the fields anytime they were ready.

GIRL SCOUT NEWS

—Marjorie Lau.

The Girl Scouts met at Mrs. Trumbell's at 7:00 p. m. Monday.

We played "I Am Thinking," and "I've An Idea," suggested by Maralee Ridder. We sang Girl Scout songs. Next we worked on badges and discussed taking a first aid course. We all agreed on taking first aid as soon as possible.

Rebecca West was born Cecily Isabel Fairfield in County Kerry, Ireland. She took her psuedonym from a heroine of Ibsen's while she was on the stage.

BOARD PROCEEDINGS

FIRST ADJOURNED SEPTEMBER MEETING

Garner, Iowa,
September 24, 1945.

The Hancock County, Iowa, Board of Supervisors met in session on above date with F. J. Schoun, John Chambers and Penn Eckels present.

The minutes of the last meeting were read and approved as read.

On motion and second the application and bond of Martin A. Bleich for a permit to sell cigarettes are approved and a permit is hereby granted

Supervisors Eckels is appointed a committee to investigate and cause repairs to be made in D. D. No. 15 Main, D. D. No. 46-3 and D. D. No. 1 and 2.

Supervisor Eckels is appointed a committee to investigate and cause repairs to be made in D. D. No. 52-54-17.

On motion and second the bond of Mary N. Gahan, Deputy County Superintendent is approved.

On motion and second the bond of Booth & Olson Contractors is approved.

In the matter of the gravel pit lease whereby Hancock County, Iowa, leases a tract for gravel pit described as follows That part of the NE 1-4 SE 1-4 of section 31-97-25 bounded and described as follows: Commencing at the SW corner of said NE 1-4 SE 1-4, thence W 603', thence W 330', thence N 630', thence E 410', thence S 172', thence W 80', thence S 458', to the point of beginning, containing 5.1 acres.

WHEREAS Hancock County, Iowa, desires to lease the hereinbefore described tract for a period of 15 years from and after the 1st day of July, 1945 at an agreed rental in the sum of $3,570.00 to be paid at the time of the execution of this lease.

BE AND IT IS THEREFORE RESOLVED by the Board of Supervisors of Hancock County, Iowa, that a lease be executed for the tract described in the preamble hereof to be used as a gravel pit and Chairman Penn Eckels be and he is hereby authorized and ordered to execute said lease in behalf of Hancock County, Iowa.

BE IT FURTHER RESOLVED that the County Auditor be and he is hereby authorized to draw a warrant on the construction fund of Hancock County, Iowa, in the sum of $3,570.00 in full payment of said gravel pit upon the execution of the lease thereon.

The foregoing resolution was offered and read by Supervisor Schoun who moved its adoption and upon roll call the vote thereon is F. J. Schoun, Penn Eckels, and John Chambers, aye. Nays none.

Whereupon the Chairman declared the resolution duly adopted.

On motion and second the petition of John Goll et al to change the outlet of proposed Hancock County, Iowa drainage district No 142 from station 0 to station 33 is hereby referred to Engineer C F Merten for investigation and report

In the matter of a hearing on the report of the appraisers appointed to appraise damages on account of the establishment of D. D No. 142, Hancock County, Iowa, petitioned for by John Goll et al.

WHEREAS pursuant to a resolution adopted and approved on September 10, A D, 1945 this date was fixed for a continuation on the hearing of the establishment of D. D. No. 142 Hancock County, Iowa, and to hear the report of the appraisers appointed to fix damages and

Whereas C F Merten heretofore appointed Engineer has filed an amended report with report does recommend that a lateral No. 1-B be constructed having its outlet at station No. 18 or lateral No. 1 and running thence East through the SE 1-4 SW 1-4 of section 11, Township 95, Range 24, and terminating on the East side of the North and South highway through the center of said Section 11, approximately 60' North of the Highway on the South side of said section 11, Said lateral to be constructed of 6" tile and the cost is estimated at $360.00.

Said report further recommends that the outlet of the main ditch be changed from Station 0 to Station 33, thus resulting in an estimated net cost reduction in the sum of $2,726.50.

BE IT THEREFORE RESOLVED by the Board of Supervisors of Hancock County, Iowa, that the report of the Engineer as amended be approved and said drainage district as petitioned for by John Goll et al and as amended in the report of the Engineer be established as recommended in the report of the engineer as amended and shall henceforth be known as D. D. No. 142, Hancock County, Iowa.

BE IT FURTHER RESOLVED that the report of C. F Merten, Walter Kahl and Mark F Miller appraisers heretofore appointed to fix damages on account of the construction of D D No 142, Hancock County, Iowa, be amended and the following damages are hereby allowed.

Gladys Reuber	$745 00
Ben Goll	$180.00
John Goll	$480 00

Said hearing on damage reported by the appraisers was held and final action thereon taken in accordance with and as directed in Section 7451, Code of Iowa, 1939, and laws amendatory thereto.

The foregoing resolution was offered and read by Supervisor Chambers who moved its adoption, was seconded by Supervisor Schoun, whereupon the Chairman Penn Eckels placed the motion of its adoption and upon roll call the vote thereon is F. J Schoun Penn Eckels and John Chambers, aye. Nays none.

Whereupon the Chairman declared the resolution duly adopted.

On motion and second the Board adjourned to Wednesday, October 3, A D 1945, at 9 o'clock A. M.

ATTEST:
Fred C. Missal, County Auditor
Penn Eckels, Chairman.
(Publish October 3, 1945)

Boiling or baking sweet potatoes in their skins saves vitamins as well as time. And cooking jacketed potatoes in a pressure saucepan is, well, about the best you can do.

CONSERVE AND PRESERVE

Apple time is back. And though the nation's apple barrel is not filled to overflowing this year, you may be the lucky owner of some bearing trees. Don't let a single apple rot or waste. Eat them serve them, store them, can them, give them away.

Apple sauce a family favorite? Chilled, it teams up mighty well with a bit of cream on top and a cookie or two.

Wash apples thoroughly, remove the stems and quarter. Cook in a small amount of water until soft. Cool. Then put through a colander. Sweeten to taste, spice if you like and pack hot into clean jars. Process 10 minutes in a hot water bath.

Foresight for Christmas

A foresighted Christmas though two of apple sauce, tinted green; and flavor a few with cinnamon candies, tinted pink, to include in gift baskets and boxes.

If it's apple pie next winter your husband votes for, apple slices may be packed either hot or cold. Remember, the cold-packed ones shrink in jars. Simply slice them—peeled or not—into clean jars and cover with boiling syrup. Seal or partially seal (depending on type of cover) and process in boiling water bath for twenty minutes.

Hot Pack Apples ....

Hot pack apple slices are dropped into boiling syrup, boiled until clear, packed hot in clean jars. Process 10 minutes.

If sugar is your difficulty, use a syrup of 5½ cups of water, 2 cups of syrup and 3 cups of sugar. This will be enough for about 8 quarts. Or a two-parts water to one-part sugar syrup will be about right.

When you open the jar next winter, either boil down the syrup until thick and use in the pie, or drain it off and save for cereals or custards.

FIREARMS SAFETY

With the hunting season getting well under way, the Sporting Arms and Ammunition Manufacturers Institute is again bringing to the attention of all hunters the fact that sporting firearms, carelessly handled, are a great danger. In the interest of keeping shooting a safe sport, the following rules are recommended:

1. Treat every gun with the respect due a loaded gun. This is the cardinal rule of gun safety.
2. Carry only empty guns, taken down or contained in a case, into your automobile, camp and home.
3. Always be sure that the barrel and action are clear of obstructions.
4. Always carry your gun so that you can control the direction of the muzzle, even if you stumble
5. Be sure of your target before you pull the trigger.
6. Never point a gun at anything you do not want to shoot.
7. Never leave your gun unattended unless you unload it first.
8. Never climb a tree or a fence with a loaded gun.
9. Never shoot at a flat, hard surface or the surface of water.
10. Do not mix gunpowder and alcohol.

DISTRIBUTING PLAN FOR CLINTON OAT SEED

A limited supply of the new Clinton seed oat will be allotted to Hancock County for distribution to farmers that are in a position to further increase the supply, Paul Henderson, County Extension director, has been advised by Joe L. Robinson, production manager for the Committee for Agricultural development at Iowa State College.

All applications for Clinton oats are to be made to the County Seed Distribution Committee.. Farmers who get the oats will be required to sign an agreement form that requires the oats be grown under conditions that make them eligible for certification. They will also agree to sell at least half the oats produced in 1946 or all that they do not use for their own seeding, whichever is the greater quantity. Resale price on oats grown in 1946 is fixed at not more than $1 a bushel above the Des Moines market price.

Full details on the plan of distribution and copies of application forms may be secured at Henderson's office.

There were 16 percent more beef cattle on feed for market in the 11 Corn Belt states on August 1 this year than a year ago.

LATEST INFORMATION ON RATIONING

Sugar:
Stamp No. 38 (Book 4) good for 5 pounds, valid. Another stamp becomes valid December 31.

Red Stamps A1 through E1 valid through October 31. F1 through K1 valid through November 30. L1 thru Q1 valid through December 31.

Shoes:
Stamps Nos. 1, 2, 3, and 4 on the Airplane sheet in Book 3, are good indefinitely

Save Time, Sugar, Shortening

Here's a trick to save time, as well as sugar and shortening. Mix a big batch of biscuit mix—say 8 cups of flour to 1 cup of lard. You then have the makings for cinnamon buns, peach cobbler, meat pie, meat rolls or whatever your family likes. Hot breads, desserts or main dish, practically for the asking.

COUNCIL PROCEEDINGS

Klemme, Iowa,
September 11, 1945.

Regular meeting called by Mayor Keraus with Bell, Kluckhohn, Lau, and Etchen, members of the Council, present.

Minutes of previous meeting were read and approved.

On motion the following bills were allowed:

Frank Ward, Aug Salary	$ 100 00
Alvin Thieman, Labor	3.20
E. F Jacobs, Meters, Etc.	65.93
Central States Electric Co., Light and Power	119.25

JUNIOR CLASS NEWS
—Emily Lou Johnson.

As our fourth week of school is coming to an end we all are very pleased with the progress we have made.

In American Literature we have finished studying about Washington Irving, Edgar Allen Poe, and Daniel Webster. Next we are going to study the different types of poetry. They are Narrative, Dramatic, and Lyrics. Thursday we had a true and false test over Daniel Webster's "Speech of Adams."

In Sociology we are studying about Culture Heritage and Culture Traits. It is becoming a very interesting subject. Since Mrs. Turgasen has left, Mr. Kingery is now our teacher.

In Economics we finished the chapter "Everyday Life and Work." It took up such topics as competition, etc. We will now study about consumption Wednesday we had a test over the first four charters Roger Ridder and Phyllis Christiance had the best grades

In Typing we are now studying for space and accuracy We have also learned the places for a few numbers Everyone seems to like typing very well.

We are all glad that Erwin Osborn is back in school again. He was absent for 2 weeks after having an operation for appendicitis

* * *

FRESHMAN CLASS NEWS
—Marion Anderson
Phyllis Boland

In Algebra we are learning to work problems by substitution

We have found our Literature books very interesting. Two of the most interesting stories are "The Milk Pitcher," and "A Start in Life."

The Freshmen girls have completed the unit on Preserving of Food and have started on the unit on Preparing Breakfasts.

For Science, Marion Anderson performed an experiment on The Five General Properties of Matter

* * *

JUNIOR HIGH SCHOOL NEWS
Vivian Westerberg, Teacher
—Luella Priebe, Reporter

This week we have learned two new songs in music They are "Don't Give Up The Ship" and "We Did It Before And We Can Do It Again"

We got five new books in our room this week They are The Farmer Boy, Old Paul, The Mighty Logger, Roller Skates, Silver Chief To The Rescue, and The Return of Silver Chief

The following people received perfect papers in Spelling this week Sandra, Beverly, Nellie, La Nelle, Lillian, Luella, Gloria, and Merlin.

Luella and Merlin were absent a half day this week

* * *

GRADES 5 AND 6 NEWS
Mrs. H. G. Voetberg, Teacher

On Wednesday we had lots of excitement in our room. When Mrs. Voetberg came into the room at noon, peanuts came from every direction. We gathered them and the last fifteen minutes of school we enjoyed eating them

Janice Carpenter and Larry Stille were absent one day last week because of illness.

We now are enjoying reading our Weekly Reader.

* * *

THIRD AND FOURTH GRADE NOTES
Mary Jane Holmes, Teacher

The Fourth Graders have completed the first unit in their Geography book. The title of it was "The Earth As A Globe." In this unit we became better acquainted with our directions. Our next unit is "Across The United States On The Lincoln Highway." The pictures look so interesting that we are anxious to study it.

The Third Grade Geography class is studying about 'Our Homes and Where We Live." We are reading about the different types of neighborhoods.

On Wednesday afternoon Daisy Schaefer brought treats to school for her room. The occasion was Daisy's ninth birthday We all wished her a happy birthday.

* * *

KINDERGARTEN NEWS

We now have eleven in our class. Wednesday Joan Christie started to school.

This week we made a health tree. We all brought pictures of food we should eat to make us strong and healthy. We pasted our pictures on branches of a tree that has a picture of a big milk bottle for a trunk.

Friday we colored pictures of a big dog. Each gave his or her dog a different name.

NEED GOOD EQUIPMENT FOR TOP EGG PRODUCTION

Good laying house equipment won't make poor pullets lay, but the best pullets in the world won't reach top production if they don't get enough to eat and drink, or if roosts and nests are crowded.

W. R. Whitfield, extension poultryman at Iowa State College, says that about sums up the importance of good equipment in the laying house. And he says if the equipment is there before the pullets are housed the middle of September increased egg output can be expected.

Experienced poultrymen have learned that the cost of good equipment is not high. On a 10-year depreciation basis, equipment costs only about 10 cents per bird per year for a 100-bird unit Increased production per pullet plus labor saved will more than make up this cost in a year's time.

Figuring on the basis of 100 general purpose pullets or 135 leghorns, this is about the equipment needed.

There should be about 400 square feet of floor space, with 80 lineal feet of roosts. Twenty nests one for each five birds, are required, and these should be the rear entrance kind. Wire netting doors should be used, and the east, south and west windows should be covered with 1-inch netting.

Inside the house, 32 feet of feeder space should be provided for the pullets. Whitfield suggests two 8-foot feeders, divided for different feeds. A 100-bushel feed storage bin, seperated into compartments will save labor. There also should be two 2-foot mineral hoppers for calcium, granular steamed bonemeal and grit, and there should be two 3-foot green feed racks.

Water can be provided in two water fountains on pail stands There should be 4 feet of water trough or 8 lineal feet of drinking space. Two light sockets, a catching coop or rack and a catching hook complete the equipment lineup for the house.

Souvenir Hunters ....

Why should thieves steal gasoline ration coupons from filling stations after the requirement to produce coupons for purchase of gasoline has been eliminated? Police at Bloomfield and Des Moines are puzzled over the problem. Numerous filling stations were entered in the two cities and coupons or postage stamps were virtually the only items taken.

Water piped into the house, especially to the kitchen sink, is rated one of the best ways to cut down work in the farm home.

KLEMME NEWS

Mr. and Mrs. Will Ridder and son James, and Miss Lydia Beier who has been visiting the past two months in Klemme and vicinity, have returned to their homes in Waterloo. They were accompanied by Henry Beier of Beltrami Minnesota, who will visit in Waterloo.

Otho Keraus, son of Mr. and Mrs. W. C. Keraus, left Sunday for Osage where he began work Monday as printer at the Mitchell County Press. Otho was recently given an honorable discharge from the army. Prior to entering the army 4½ years ago, he followed the printing trade.

The Broken Atom—And Our Destiny! The second in a series of articles by Robert D Potter, science editor, telling of the vast new source of energy and what it means to our future. A stirring story in The American Weekly, the magazine distributed with this Sunday's (October 7) Chicago Herald-American.

WEEKLY NEWS ANALYSIS

Round Up Japanese War Leaders; Hog Slaughter Shows Big Dip; British Seek Financial Aid

Released by Western Newspaper Union.

(EDITOR'S NOTE When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

With Britain seeking extensive American financial assistance, consultations get under way at state department with leading conferees including (from left to right) Leo Crowley, foreign economic administrator; Lord Halifax, British ambassador; William Clayton, assistant secretary of state; Lord Keynes, British economist, and Henry A. Wallace, secretary of commerce.

JAPAN:
Round Up War Lords

With high Japanese war leaders taking their own lives as the American net gradually began to tighten around them, the Nipponese government of Premier Higashi - Kuni assumed the responsibility for rounding up suspected war criminals in an effort to head off a mass suicide wave.

Hideki Tojo

Japan's No. 1 war lord throughout most of the Pacific conflict before enemy reverses forced his retirement, ex-Premier Hideki Tojo led off the suicide wave by attempting to take his life as American troops arrived at his country residence outside of Tokyo to arrest him. Though Tojo misfired, former war minister and army chief Sugiyama used better aim to kill himself, and ex-welfare minister Koizumi also succeeded in taking his life.

Having first professed full responsibility for the war before trying to shoot himself, Tojo shut up tighter than a clam following an improvement in his condition under the watchful eye of American medics. Refusing to talk on his sick-bed, the ashen 61-year-old former Japanese kingpin declared that he would not answer questions without documentary reference.

Meanwhile, capital circles revealed that Tojo and other suspected Japanese war criminals would have their unhappy day in court before a four-power military tribunal similar to the one trying Nazi overlords in Germany.

Representatives of the U. S., Britain, Russia and China will comprise the tribunal, which probably will sit in Tokyo and, as in the case of its European counterpart, try foreign government leaders on the unprecedented charges of conducting wars of aggression.

In addition to trial on the novel count of carrying on aggressive warfare, Japanese will be tried for such crimes as racial persecution, torture of helpless people, and murder of captured military personnel.

Though not questioning the goal of bringing Nazi and Japanese overlords to justice, many eminent American lawyers have opposed the procedure for trial, declaring that it establishes a precedent for kangaroo courts which might be used against Allied personages in the future.

SLAUGHTER:
Hogs Down

Though slaughter of cattle and sheep during the first eight months of 1945 hit new tops for federally-inspected plants, butchering of hogs dropped off severely, resulting in a continued tight meat situation. Only with an improved hog situation increasing the overall supply of meat did marketing experts look forward to an end of rationing.

With August slaughter at an eight year low, the eight month hog production totalled 26,821,667, away below the 50,352,226 mark for the same period last year. During the early part of September, hogs continued to trickle into leading markets, with shipments commanding ceiling prices.

Partly offsetting decreased hog slaughter were record butcherings of cattle and sheep for the first eight months of the year, with 9,071,406 cattle killed and 13,960,594 sheep. At 4,152,779, the calf total was the second largest on record.

FOREIGN AFFAIRS:
British Ask Aid

In the U. S. to sell this country on the feasibility of offering financial assistance to Britain, Ambassador Halifax and Economist Keynes declared that a prosperous Britain, getting its great exporting and importing machinery going at full blast, would help assure the stability so necessary for postwar peace.

Should Britain fail to secure sufficient aid to rebuild its industry and obtain raw materials for processing into finished goods, Messrs. Halifax and Keynes pointed out, the whole intricate system of exchange among nations would be affected, leading to social disturbances the world over and another outgrowth of isms.

Thus, in approaching the U. S. on a basis of mutual concern, the British came over as practical statesmen and not as beggars. Further, they disclaimed any intention of seeking an easy way out by negotiating interest bearing loans, but rather stated that they were opposed to any type of debt of a burdensome nature which, like World War I obligations, would have to be eventually repudiated.

In shying from the idea of an interest - bearing loan, the British left the way open for an outright grant, which would be strongly bucked here, or a long-range interest-free advance.

Shape Italian Treaty

While the British talked dollars in Washington, D. C., the Big Five council of foreign ministers continued discussions in London concerning the future political and territorial makeup of postwar Europe, with the diplomatists occupied with drawing up an Italian peace treaty.

Foremost of the problems associated with an Italian treaty was the disposition of the country's North African colonies, with the British reportedly frowning on the American proposition for permitting the Italians to retain their territories under a United Nations trusteeship.

As the eternal jockeying for protective boundaries and rich interests cropped up, the British were said to favor Italian retention of only western Libya while taking for themselves eastern Libya covering Egypt and Italian Somaliland fronting the gateway to the vital Red sea leading to the Suez canal. At the same time, the French reportedly sought a slice of northwestern Libya from Italy to strengthen their own Tunisian holding.

But if the disposition of Italian colonies posed a big problem, so did the readjustment of Italy's European borders, with France out for a readjustment of the Alpine boundary and Yugoslavia hot for annexation of the strategic Istrian peninsula with its rich port of Trieste. As the meeting progressed, the Big Five were said to have considered a compromise under which Italy would relinquish the peninsula jutting into the Adriatic sea but retain Trieste itself.

With U. S. and British pressure for free and open elections in Romania and Bulgaria already having forced the communists' hands in those countries, Yugoslav and Greek rightists next came to the fore at the foreign ministers' conference to request intervention in the political affairs of those Balkan states to assure a fair and peaceful democratic representation.

American Ship Losses Small in Pacific

A total of 200,058 ship tons of cargo were lost at sea by the army in the war against Japan, with 31 vessels sunk and 2 vessels damaged while en route from the United States to the Pacific theaters.

Army cargo shipped to these areas in the 44 months of the war totalled 43,520,000 ship tons. Those supplies lost at sea, therefore, represented only 0.46 per cent of the total amount shipped.

When losses in the Pacific are added to the previously announced 537,656 ship tons of cargo lost on outbound moves from the United States to the European, Mediterranean, Middle East, North and South Atlantic and Latin American areas, a total war loss of outbound army cargo at sea of 737,714 ship tons is obtained.

RELIGION:
Courses Challenged

Traditional American separation of church from state was the issue Mrs. Vashti McCullom of Champaign, Ill., raised against the Champaign school board in her suit to halt voluntary religious instruction in the public schools in the community.

With both Mrs. McCullom and the board prepared to appeal to the Supreme court in event of their loss of the decision, the suit promises to affect similar instruction in 1,856 communities in 46 states. North Dakota and New Hampshire are the only states without such religious courses.

In bringing her suit as the interested party, Mrs. McCullom stated that as the only pupil in his class not enrolled in the voluntary 30 minute per week instruction in the Protestant, Catholic and Jewish faiths, her 10-year-old son Terry had suffered acute embarrassment. As a result, she said, indirect pressure had been brought to bear against the youngster to take the course, regardless of his inclination, on public school property maintained by taxpayers' funds.

In countering Mrs. McCullom's charge, the school board pointed out that the courses were outside of the school curricula and purely voluntary, with the representatives of all of the principal religious denominations conducting and financing the instruction.

Aside from the state constitution and statutes involved, federal intervention hinged on the first amendment to the U. S. Constitution, which provides: "Congress shall make no law respecting an establishment of religion or prohibiting the free exercise thereof" . . . and section 1 of the 14th amendment to the Constitution declaring . . . "No state shall make or enforce any law which shall abridge the privileges or immunities of the citizens of the United States; nor shall any state deprive any person of life, liberty, or property without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws."

Mother of three boys and wife of a University of Illinois professor, 32-year-old Mrs. McCullom said that while she realized the suit might harm young Terry, her deep conviction on separation of church from state inspired her action.

Plan Jobless Benefits

Though the senate finance committee worked out a broad postwar unemployment benefit bill, the solons turned down Pres. Harry S. Truman's recommendation that jobless compensation be raised to a maximum of $25 per week.

Instead, the committee bent to the task of shaping a measure which would authorize the federal government to contribute funds toward extending the time of state unemployment payments 60 per cent. Benefits now range from $15 for 14 weeks in Arizona to $28 for 30 weeks in Connecticut.

Both federal and maritime workers would be made eligible for unemployment compensations under the proposed bill, at the rate existent in the state of their employment.

In addition, workers who migrated to war production centers would be allowed up to $200 for transportation expenses back to their old residences or new job locations. Money would not be advanced for the shipment of any household effects, however.

STRIKES:
Hit Radio

Heading up a wave of strikes, leaving over 100,000 workers idle, was the walkout of engineers of the National and American Broadcasting companies partly paralyzing radio programs and forcing executive technicians to take over operation of the controls.

Though the strike ostensibly was over wage demands, informed industry sources said the walkout was a flareup of a dispute between the independent engineers' union and Jimmy Petrillo's American Federation of Musicians, AFL, over which of the two should represent the employees who turn the records for transcribed broadcasts.

While the war labor board ordered the radio companies to deal with the engineers over the record changers, the AFM's jurisdiction over the so-called "platter jockeys" has been recognized in Chicago, Washington, New York and Detroit. Because the big chains feared Petrillo might call his musicians out on strike if they dealt with the engineers over the record changers, it was charged, they have been stalling on the negotiations.

DDT:
Urges Careful Use

Housewives who find use for DDT, the powerful new insecticide known to chemists as dichlorodiphenyltrichlorethane, are cautioned against placing the poisonous powder where it might be mixed with kitchen supplies, by Dr. Morris Fishbein of the American Medical association.

"In large doses DDT is poisonous to human beings and to a good many animals," Dr. Fishbein said. "When DDT is properly used, these poisonous effects are controlled."

The Washington Merry-Go-Round

DREW PEARSON

ARMY CRACKDOWN

The army is determined that returned European war veterans shall no longer appeal to congressmen or newspaper men to hasten their discharge from the army or to protest redeployment to Japan for police duty.

Severe secret orders have just been issued to this effect over the signature of Brig. Gen. A. M. Gurney, chief of staff for Lt. Gen. Lloyd R. Fredendall, commander of the 2nd army. The order, which has been secretly circulated, reads:

"Recently members of a division in the United States scheduled for redeployment to the Pacific area appealed to the press and radio protesting against transfer of the division to the Pacific theater. . . . Action of this nature, if concerted, may subject participants to disciplinary action. . . .

"Incidents such as noted in paragraph 3 above (the paragraph just quoted)," continued the secret order, "will be dealt with drastically by this headquarters and the commander concerned will be summarily relieved."

The division referred to probably was the 95th, stationed at Camp Shelby, Miss., which sent all sorts of appeals to newspaper men and radio commentators against being transferred from Europe to Japan. Apparently the protests worked, for the order to send the 95th to Japan was rescinded.

* * *

PRESIDENTIAL POKER

Those who traveled with President Truman on his various trips to Washington state and Potsdam found him a delightful and entertaining companion. One story they tell about Truman's trip to the northwest was regarding his salmon fishing off the Washington coast.

While the motor boat was chugging back to shore, Truman and his old senatorial friends, Gov. Mon Wallgren and Sen. Warren Magnuson of Washington, played poker. The stakes were low, but the thrifty Truman was trying hard to come out ahead. It was agreed that, no matter who was ahead, the game would stop the minute the boat hit shore.

So the President kept up a line of banter to the Norwegian skipper.

"Slow her down, Christiansen," he said, "I'm behind. I need a little extra time to catch up."

Or again, it was: "Speed her up, Christiansen, I'm ahead now. Let's get to shore before the governor catches up."

Finally, the motor boat touched shore with the President of the United States a few cents ahead. Skipper Christiansen was just as pleased as Truman.

* * *

ARMY AND RAILROADS

Even the army's friends on Capitol hill say the brass hats are killing any chance for public support they might have had by their autocratic disregard for civilian needs in such fields as coal mining, steelmaking and railroading.

One of the busiest railroads in the country today is the Southern Pacific, which has handled most of the east-west traffic to the busy port of San Francisco The S. P. is a single-track line able to carry its huge volume only by scheduling trains at 10-minute intervals round the clock. In order to maintain this schedule, it requires a huge crew of crack trainmen, repair men and other skilled workers. It has done pretty well even in the last year, although there was a recent bottleneck near El Paso which resulted in the holding up of 75 trains.

Southern Pacific officials have been begging the army to release skilled railroad men with the 80 points required for discharge, or to furlough railroad men in this country with less points.

Finally in mid-summer the army agreed to release 4,000 railroad men, with 2,400 of them assigned to the S. P. But then the army began going back on its promise and said it could discharge only 1,300 men. A few weeks ago, the army released 230 men to the Southern Pacific and said no more were available. The joker is that 24,000 men have gone into the armed forces from the S. P. employment roster.

Finally, War Mobilizer Snyder stepped in and forced the army to release 4,000 railroad men, amidst loud squawks from brass hats that this action would destroy morale.

* * *

CAPITAL CHAFF

¶ Senators are looking forward to better eating, now that Derwin Darling has come back from two years in the marines to resume management of the senate restaurant.

¶ Alleged United States opposition to the Kilgore unemployment compensation bill has cracked open. Forty-seven state administrations were reported opposed, but it now develops that Massachusetts, Rhode Island, Oklahoma, Washington and California are definitely for the bill, with Connecticut and several others about ready to support it.

Walter Winchell

(WNU Service)

Notes of a New Yorker:

Don't be disappointed that Halsey didn't ride Hirohito's horse. . . . That was just the colorful Old Boy's way of saying he'd get to Tokyo. . . . Admiral Halsey always was good with the phrase-turner's tool. . . . As frixample: The congratulatory message he sent to a submarine crew after a job well done:

"Your picture is on my piano."

The Boner Delightful (from an Aug. 24th a. m. paper): "De Gaulle Here. At City Hall, deception ceremonies will begin at noon."

Final Guffaw Dep't: The foot a newsmag once used to kick this colyumist is now in its mouth. We were booted because one of our predictions fizzled. . . . The Aug. 13th (1945) issue of the same critic contained this gem: "Last week Russia was not ready — if ever she would be — to go to war with Japan." . . Russia went to war with Nippon on Aug. 8th. To make the revenge sweeter — this broadcaster was first to accurately forecast Russia's positive entry into the war.

The House Ways and Means Committee has been giving a frosty reception to Pres. Truman's request for greater jobless benefits, with Rep. Knutsen of Minnesota asking: "If we pay a man $25 a week for not working, what will we have to pay to get him to work?"

"The answer to that," commented a politico, "is that you'll have to pay him a living wage, that's all."

"Yes," agreed a colleague, "but what constitutes a living wage?"

"That," was the retort wonderful, "depends on whether you're giving it or getting it."

Sallies in Our Alley: In the Cub Room Fanny Ward, the 76-year old doll-face, swapped howjoodoos with her friend, Supreme Court Justice Frank Murphy. . . . "Frank," she asked, "how do you keep so young?" . . . Looking at his charming companion alongside him, Mr. Justice replied: "Courtin' " . . . In "Polonaise," the new Chopin-inspired operetta, the principals are all European-born. . . . Kiepura is a Pole; his wife, Marta Eggerth, is Hungarian or Austrian. . . Kurt Bois, the new comedian, is from mittel-Europa, and other foreigners include David Lichine, the ballet master, and Tanya. . . . "Who's the most important person in the show?" inquired a clown. "The interpreter?"

The nationalist group has adopted another rodent for a pet: Traitor Petain. . . . The boo-hooey consists of sobbing about Petain's age and blubbering that he was merely trying to save France. Nutz! When Petain was in Verminy's hip-pocket he was an accessory to Nazi crimes committed against Frenchmen of all ages including children. Petain sent 35,000 French children to work in Germany as slave laborers!

When the six Americans were arrested on State Dep't orders recently front pages whooped about the espionage angle. . . . This reporter pointed out that the spy hoopla was merely the gimmick used by some diplomats in an attempt to muzzle journalistic criticism of State Dep't policies. . . . A few days ago a Federal Grand Jury refused to indict three of the accused, and the other three were not indicted for espionage but merely for "purloining" government documents. . . . It is about time Congress probed the striped-britches boys responsible for the whole shameful affair.

The American Navy and Hirohito's eyeglasses prove the same thing. That the Japs are a very shortsighted people. . . . The Japs signed the surrender terms. But our safety is in our fleet, not in their signatures. . . . We had their signatures on treaties December 7th, 1941. . . . The Jap is anxious to let bygones be bygones. So is any criminal on the day of his conviction.

Sounds in the Night: At the Enduro: "A waiter is a guy who believes that money grows on trays." . . . At the Metropole: "When is that tramp going to write her naughty - biography?" . . . At Chateaubriand: "He made her an honest woman. Sent her back to her husband."

Stork Club Confucius: Beware of a Jap on his knees. It only makes it easier for him to hit you below the belt.

Very Important People Dep't: Arch Oboler is one of those studied kerrickters, according to intimates. . . . More than before, they add, he keeps referring to himself in the third person. . . . "Oboler doesn't want to do it" or "Oboler didn't sleep so good last night" or "Oboler is getting hungry," etc. . . . Mr. O. wrote and directed a Metro film once and in conference he said: "I don't think Oboler will like that at all!" . . . "Really?" was the icy retort of a departing supervisor. "I'll tell him when he comes in!"

Gems of Thought

Every man is furnished, if will heed it, with wisdom nec sary to steer his own boat, if will not look away from his o to see how his neighbor ste his.—Emerson.

Faith is the substance things hoped for, the evidence things not seen.—Hebrews.

Never a tear bedims the that time and patience will dry; Never a lip is curved w pain that can't be kissed smiles again.—Bret Harte.

The prosperity which so welcome as an unmixed fa may far more rightly be garded as an intense form test.—Spurgeon.

Question Spotlights Spectacular Growth of Co-Operative Movement in U. S. in Recent Years

e Business Complains of Disadvantage; Co-Ops' Volume Tops Five Billion Dollars

By AL JEDLICKA

en congress ponders a new revenue bill this fall, one of the propositions under discussion will be the taxation of co-ops. Under pressure of established tax-paying enterprises, ons can be expected to comb the situation thoroughly, since pid growth of co-operatives in the present century not only the question of tax equality, but also of maintenance of ne.

though the question of taxation itself appears to head up operative question now, there are other and even more deep- ed underlying causes, principally the movement's threat to ditional American busi- stem. In this respect, the co-operative development ell shape as an economic tion, though frequent have robbed it of the con- y necessary for historical

e present time, however, can co-operatives are on a tide, with the strongly shed farm organizations ring 4,390,000 members teadily complemented by consumer and manufac- groups During the 1943-'44 ural marketing and purchas- operatives alone did over 5 dollars worth of business, n a tax-free basis.

result of the steady growth eratives spearheaded by the associations, and their ex- into various fields, tradi- established American busi- are stirring uneasily. only the handler and sup- agricultural products and formerly had been pressed co-operatives, competition been extended to manu- of farm machinery, hard- aints, electric refrigerators, machines, toasters, clocks, igarettes, lipstick, tires and s.

dition, co-operatives now lls, own pipe lines, refine m, possess timber tracts, surance, and operate banks, e companies and electric stallations.

the beginning, the co-opera- vement assumed the nature t enterprise for performing rofitable service for each nt's individual welfare.

n contemporary history he real origin of the co-oper- ovement back to Rochdale, where poor working peo- nized a grocery co-op in vail themselves of cheaper me historians credit the the movement to local farm which banded together in in the 1820s to reduce in- costs.

ing the establishment of the insurance groups, the co- movement assumed an- m in the U. S. after the r in the national farm a social and educational or- n also bent upon relieving economic conditions. Even- ning to co-operative meth- ttain its early objectives, ge failed in promoting a g co-op because of the un- ity of agents; bogged in consumer co-ops partly as a the panic of 1873, and gave m machinery manufactur- following overproduction r-servicing.

co-operative movement be- ke root here during World d congress recognized it as ment for aiding the farm legislation was enacted to x relief to operators. In gress stipulated that farm- growers and like associ- ganized and operated on a ive basis and acting as gents for their members t be requested to pay an x on earnings.

bsequent legislation, the ovided that co-operatives rchase as well as sell for ; deal with non-members s members; become cor- and pay interest on stock, be prosecuted under the laws.

vernment also set up a fed- ncy to loan money to co- s in 1921, with the financial y expanded through the dit act of 1933. In 1933, the act also permitted co-op- to sell equities without roval of the Securities and commission, which exer- t right over corporate is-

historians claim for the credit for the birth of the ive movement, the Roch- rprise of 1844 still receives general recognition for establishing the three general principles under which co-operatives widely function today. These principles include:

1. One vote to each member regardless of stock holdings.

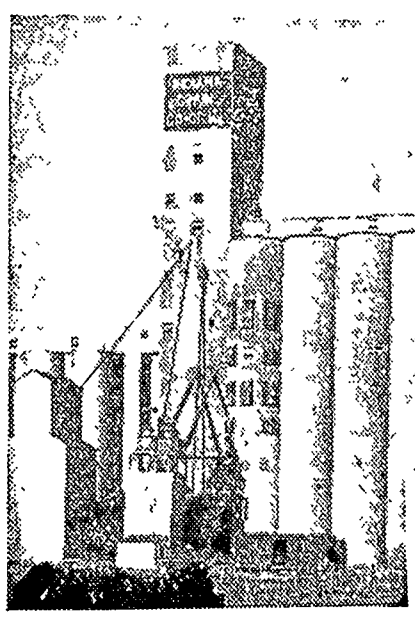
2. Distribution of net savings to patrons in proportion to their purchases.

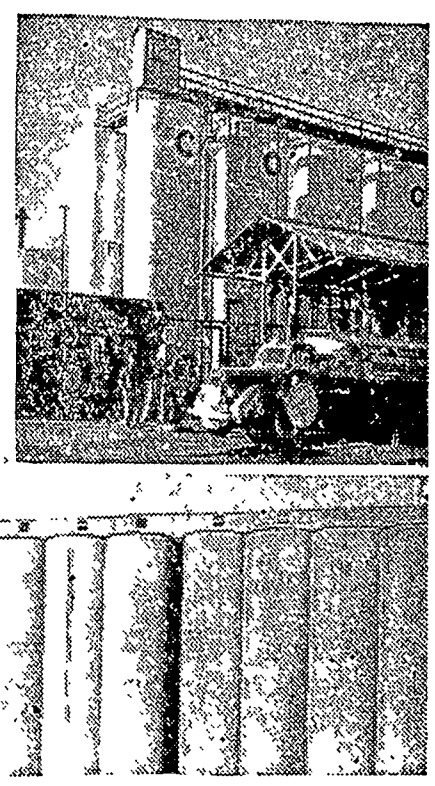
3. Limited fixed interest on capital shares instead of variable and unlimited dividends.

Organization of farm co-ops is relatively simple, with the pattern moulded to give each member an equal controlling interest in the operations. Upon subscribing for capital stock or paying a membership fee, the local group then adopts by-laws and elects a board of directors. A manager is hired, policies outlined and facilities secured. Although in charge, the manager remains under supervision of the directing board.

In addition to observing the Rochdale principles in voting, savings distribution and stock payments, local groups often confine ownership to farmers raising products handled by the co-op; restrict securities transfers, and limit the amount of shares a member may hold.

While co-operatives are generally organized on the local level, they usually affiliate with regional groups to obtain maximum efficiency of operation, with the regional bodies in turn sometimes combining with national associations But, in any case, the local group retains a voice in the broadened organization through the selection of delegates.





Successful co-ops include refinery at McPherson, Kan., top, and grain elevator of Indiana Farm bureau at Indianapolis, Ind.

While membership fees, stock sales and reserves provide working capital, co-operatives borrow on a large scale to finance operations, a study of the Farm Credit administration in 1939 revealing that approximately one-half of the co-ops then existent resorted to loans.

While figures show 4,390,000 members of 10,300 farm marketing and purchasing co-ops, the actual number of individuals participating in the movement may be considerably less since a person may belong to more than one organization.

With 7,522 units and 2,730,000 members, the farm marketing co-operatives do by far the largest business, with 1943-'44 activities totalling almost $4,500,000,000. Handling of dairy products accounted for $702,000,000; livestock, $636,000,000; grain, dry beans and rice, $452,000,000; cotton and its products, $258,000,000; fruits and vegetables, $160,000,000; poultry and eggs, $130,000,000; tobacco, $120,000,000; wool and mohair, $107,000,000; nuts, $49,000,000, and miscellaneous, $115,000,000.

For the 2,778 purchasing co-ops with 1,660,000 members, total business for the 1943-'44 season was placed at $730,000,000. Seventeen major regional procurement organizations alone secured $151,640,000 of feed; $50,702,000 of gas, oil and grease; $19,871,000 of fertilizer, and $10,893,000 of seed.

Never as successful in the U. S. as in Britain, American urban or consumer co-ops are insignificant alongside of the farm organizations. It has been figured that there are no more than 400 units at the most with 110,000 members doing about $5,000,000 business annually. Though consumer labor co-ops have failed in the past, the CIO's entrance into the field on a limited basis bears watching anew, with the union tactics apparently aimed at making up future tighter wage rates by reducing staple living costs.

In singing the praises of farm co-ops, advocates describe the movement as a means of putting the country's gigantic rural plant on a more efficient basis, with resultant profits to the producer.

This increased efficiency can be attributed to both the size of co-operatives and the nature of their ownership. By banding together, farmers are able to purchase goods at lower prices, and group distribution results in smaller overhead and decreased handling charges. By owning the business, of course, co-operators avert dealers' margins.

Though tax-exempt co-operatives have been the target of competitive businesses complaining of their tax preferment, R. Wayne Newton, manager of the National Association of Co-operatives, declares that the increased return of farmers results in payments of higher individual income taxes. At the same time, Newton says, the larger profits enable operators to spend more on merchandise in the local communities.

Charges that co-ops are making huge profits on their operations only serves to emphasize the size of margins formerly enjoyed by private dealers, Newton avers. By banding together for co-operative operations, farmers have tended to offset their previous disadvantage of being compelled to sell their products on a flexible open market and buy on a more or less rigid retail price level, he further states.

In spearheading the opposition to tax-exempt co-operatives, the National Tax Equality association points to the fact that co-op reserves retained after patronage refunds remain untaxed, thus enabling them to do business at lower cost while also permitting continuing expansion As a result, the NTEA asserts, co-operatives are growing at a rate of 10 times that possible for tax-paying enterprises.

Not only that but many tax-paying corporations have shifted to a tax-exempt status either through acquisition by co-operatives or by the voluntary action of stockholders, NTEA declares.

As examples, NTEA president, Ben McCabe, cites the northern California holdings of the Red River Lumber company, bought by the Fruit Growers' Supply company, a subsidiary of the California Fruit Growers' exchange, with a loss to the U. S. treasury of nearly $1,000,000 a year in tax revenues; the Ohio Cultivator company of Bellevue, Ohio, purchased by the National Farm Machinery Co-operative Inc., with a loss of about $196,000 annually to Uncle Sam's coffers, and the Globe Refining company of McPherson, Kans., taken over by the National Co-operative Refinery association.

Against the background of already established co-operatives and the shift of some tax-paying enterprises to a non-paying co-op basis, McCabe also cites the possibility of the growth of labor-sponsored consumer organizations, which would remain tax-free on two counts: one, because ownership would be vested in tax-exempt unions, and two, because they would distribute earnings before computing their levies.

Study Co-Ops

Co-operative principle and the technique of co-operative action by rural and urban dwellers were given extensive study in religious training schools sponsored by Catholic and Protestant groups throughout the United States this summer.

Between June and September 57 rural life schools and institutes for Catholic priests and teaching sisters were scheduled by the National Catholic Rural Life conference. Not less than 30,000 priests and nuns were to be contacte

IMPROVED UNIFORM INTERNATIONAL

SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D
Of The Moody Bible Institute of Chicago.
Released by Western Newspaper Union.

Lesson for October 7

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

LOVE FOR GOD AND LOVE FOR MAN

LESSON TEXT—Luke 10:25-37.
GOLDEN TEXT—Thou shalt love the Lord thy God with all thy heart, and with all thy mind; and thy neighbor as thyself.—Luke 10:27

"What shall I do?" The question of the lawyer in our lesson is a query which is on the lips or in the minds of millions of men and women each day. They want to do right and want to be right, but their lives lack the direction which only faith in God can give them.

Never does the question go more deeply than when it concerns man's eternal welfare, as it does in our lesson. Always that question indicates that man is not able to decide for himself, and needs the guidance of someone greater and wiser than he. This should lead us back to God, for only He can fully answer it.

The story of the Good Samaritan tell us what we must do to show our love for God and man, and gives a demonstration of how it is to be done.

I. What to Do (vv. 25-28).

The lawyer (a student of the law of Moses, and hence a theologian rather than an attorney) was posing a question to try to entrap Jesus. He was apparently not much concerned about eternal life and assumed that it could be obtained by doing something.

We know that eternal life is a gift (John 1:12; Rom. 6:23), but if the man wanted to have it by doing, Jesus was ready to meet him. In response to Jesus' question (v. 26), the lawyer gave Him what the Jews regarded as the summary of the whole law.

The man who can perfectly keep that law will have eternal life, declares Jesus But note that you must do it, not just talk about it. And you must keep the whole law, "for whosoever shall keep the whole law, and yet stumble in one point, he is become guilty of all" James 2:10, R V , see also Gal. 3 10).

Observe that the commandment, so highly commended by our Lord, concerns a true love for God which shows in an active love for one's fellowman.

Love is the only thing that can save our bruised and bleeding world How sad it is that in such an hour of need there is so little said in the church about love and it is practiced even less. It is the forgotten fundamental of all the fundamentals of faith! Let us begin to preach it and practice it!

II. How to Do It (vv. 29-37).

It is one thing to realize that one ought to do a thing; it is quite another thing to do it. Here we have what may have been an actual incident given by our Lord as an object lesson of the right and the wrong attitude toward a fellowman in need.

1. The Wrong Attitude (vv. 29-32).

The lawyer's effort to justify himself by diverting attention to the word "neighbor," which he felt needed definition, showed that he could not do the thing expected of him.

The reason for man's failure lies primarily in his own weakness and inability to do what God requires, but is also revealed in his pitiable and futile efforts to justify himself.

The one who seeing his sinfulness and his utter inability to keep God's law casts himself on the Lord is ready to receive the gift of eternal life. But the one who tries to defend his position and justify himself has shut the door on God's grace and mercy (see Luke 18:9-14).

The parable of the Good Samaritan answers fully and finally the question, "Who is my neighbor?" by making it clear that anyone who is in need, regardless of race, social position, condition or religion, is our neighbor.

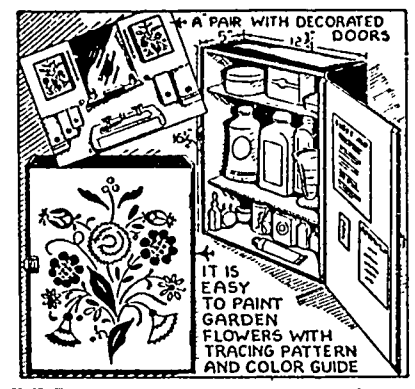
The priest and the Levite doubtless had plenty of excuses for not helping the wounded man, but let us remember that excuses, while they may count with men, mean only our condemnation in the presence of God.

2. The Right Spirit.

It was the spirit of Christ that made the Samaritan show a compassionate and sacrificial interest in the needy man. Only Christ can make you and me like that. His love in the heart is the only "good neighbor program" that will ever work.

Statesmen, philosophers — yes, and the man in the street — of our day are looking hither and yon for an answer to the world's need. They all sense that we must have something great, and tender, and powerful to unite the hearts of men, or we shall soon be in conflict again. The next time we may well write civilization off the globe. What is the answer? Love! First, a real love for God, then love for our fellowmen of all nations. The answer to the world's awful problem is a revival of Christian faith; without it we perish.

Bathroom Cabinet, Gay and Useful, Creates a Bright Spot in Your Home



WHY not brighten up the bathroom by making one or a pair of these gay little cabinets? A pattern gives you a list of materials needed, shows the exact size to cut each piece, and also illustrated directions.

The painting comes next; and that is the real fun. A tracing pattern gives the outlines for the old-fashioned garden flowers, color suggestions for painting the cabinet inside and out; and tells you what color to use for filling in each flower, leaf and stem.

• • •

NOTE—The Bathroom Cabinet pattern No. 284 and the Garden Flower Paint Pattern No. 285 are 15 cents each. Send request to:

MRS. RUTH WYETH SPEARS
Bedford Hills New York
Drawer 10

Enclose 15 cents for each pattern desired.

What you NEED is

SLOAN'S LINIMENT

What One Language Do All Speak?

YOU KNOW the answer to that one. They all speak the silent language of earth and weather—of crops and stock—of planting time and harvest. For they are farmers — blood brothers the world over.

Today, many of the farmers of other lands aren't doing so well. Their lands have been mined, fought over, ravaged. Their stock has been butchered. Their farm buildings burned. They have no seed to plant the soil.

They desperately need your help.

And you can give your help—through the dollars you give to your Community War Fund.

Those dollars you wring from the soil, and give to a great and worthy cause, help more than the farmers of other lands. They help farmers' sons—and other men's sons—endure the tedium of prison camps. They help provide the blessing of entertainment to service people throughout the world. And they help solve war problems right here in your own community.

The dollars you give to your Community War Fund go farther than any dollars you're apt to put anywhere else. And this year—they need to go farther than ever before. So give again—and generously—won't you?

Give generously to

Your Community War Fund

Representing the National War Fund

Phosphate fertilizer is profitable on many soils where winter wheat is to be sown. Applying about 150 to 200 pounds per acre is recommended.

Erick and John Josten have moved back to their own house after staying at the Emil Patet home for several weeks.

Mr. and Mrs. John Spitler of Belmond entertained to dinner on Sunday: Mr. and Mrs. Ed. Coyle, Judy and Larry; Mr. and Mrs. Tom Hartwig and son, Mitchell; Mr. and Mrs. Howard Spitler, and Doris and Dick Legge.

Mr. and Mrs. Emil Beier entertained the following for dinner Friday noon: Mr. and Mrs. Will Ridder and son Staff Sgt James Ridder and Miss Lydia Beier of Waterloo, Henry Beier of Beltrami, Minnesota, and Mr. and Mrs. Frank Ward of Klemme.

Floyd Friedow & Sons, who live 7 miles west of Klemme, have recently built a twenty foot addition to their large brick hog house. The Friedow's are holding another boar and gilt sale of Poland Chinas at their farm on Thursday evening, October 18th.

Mrs. Daisy Lemke entertained to dinner Sunday the Rudy Hefte family of Britt; Albert Etchen and family; Carl Swanson and family; and the Vernon McLaughlin family of Belmond. The dinner was in honor of Rudy Hefte, who was recently discharged from the army.

Miss Iva Christie, who is a freshman at Drake University at Des Moines, spent the week end visiting with her parents, Mr. and Mrs. Geo. Christie, northwest of Klemme. The Times had previously reported Miss Christie was attending the University of Minnesota, in which we were wrong.

Seaman George Stokesbary and family were dinner guests Monday at the Orville Stokesbary home. George has just completed his Navy "boot training" and is home on a furlough. Before entering the service a few months ago, he was employed as a city fireman in Des Moines.

Mr. and Mrs. H. D. Ramsay and Carman of Waterloo, were supper guests Saturday evening at the E. F. Jacobs home. Mrs. Ramsay and Carman remained in Klemme and expect to move their household goods to Waterloo, today. The Ramsays have purchased a house in Waterloo.

Albert Koerner and son, Gerald recently built a brick silo at the Koerner place at the northwest edge of town. Being unable to secure the services of a silo builder, they did the work themselves and as a result have a nice looking silo which has already been partly filled for the season.

Mr. and Mrs. John Meinders entertained to dinner Sunday Mr. and Mrs. Wm. Kardoes; Mr. Geo. Meinders and children; Mrs. James Trasck and children; Mr. and Mrs. Erwin Nuehring and children; Mr. and Mrs. Alfred Jurgameyer and children, and Mr. and Mrs. August Josten and children.

Mr and Mrs. Fred Becker, accompanied by their daughter, Mrs. Cecil Katter left by auto today for St. Louis, Mo., from which point Mrs. Katter will board a train for New Orleans, La., to join her husband, Seaman Katter, who is stationed there. Mr. and Mrs. Becker will take a sight-seeing trip before returning home.

A group of Klemme and Goodell ladies held a birthday party in honor of Mrs. E. J. Schneider at Mrs. Mary Dominy's home north of Goodell on Monday afternoon. The ladies from here who attended were Mrs. E. J. Schneider, Mrs. George Thieman and Mrs. P. M. Wilson. The ladies enjoyed a social afternoon and a nice lunch was served.

RICHARD BAMMAN
Phone 6F51 Klemme, Iowa

Mr. and Mrs. Wallace Pavey were at Albert Lea, Minnesota on business, Monday.

Cpl. Alvin G. Bachman has received an honorable discharge from the army.

Mrs. Greiman of Garner visited at the Karl Huenemann home on Friday.

Mr. and Mrs. W. V. Wildman of Nevada, Iowa, were visitors at the Gerald Koerner home Sunday.

North Iowa had its first heavy frost of the season Saturday morning.

Ray Hunsley, of Britt, County Weed Commissioner, was in Klemme on business Monday afternoon.

Mr. and Mrs. A. L. Kingery drove to Iowa Falls Sunday where they attended a family reunion.

B. A. Reemstma of Garner was a Klemme visitor Friday afternoon.

Mrs. Martha Dreier of Milwaukee, Wisconsin, came Monday evening for a visit with her old-time friend, Mrs. Clara Barz.

Mrs. Lena Schroeder and grandson Dickie, and Mrs. Clara Barz were at Forest City Wednesday on business.

Mr. and Mrs. Chas. Fritzel were called to Hartley, Iowa, Sunday to attend the funeral of Mr. Fritzel's brother-in-law.

Mrs. William Veldhouse visited Monday afternoon at the Howard Spitler home northwest of Klemme.

Clare West, of Nora Springs was in Klemme Tuesday visiting at the parental Sumner Trumbell home and looking after business.

Mrs. Mary Waterman returned to Klemme Thursday evening, after visiting ten days at the Fred Musfelt home in Clarion.

Word has reached Klemme that Dr. Dulmes has been given a two-week extension on his leave from the army.

Mrs. Lena Schroeder and grandson Dickie, Mrs. Clara Barz, Mrs. George Born and Everett Barz were at Mason City Thursday.

Mr. and Mrs. Lester Neuberger, Claudia Jean and Franklyn; Mrs. Lewis Neuberger and Wert Loger, spent Sunday at the Albert Hippen home at Renwick.

Mr. and Mrs. Clarence Lemke and Mr. and Mrs. Walter Rosendahl, Ione and Rosalie, spent the week end in Des Moines visiting at the Wayne Lemke home.

Mr. and Mrs. Ed. Buntenbach moved back to their Klemme residence Sunday, after living in their cottage at Clear Lake during the summer.

Mr. and Mrs. Wayne Pavey and daughter Carol of Webster City came Saturday for a visit at the W. F. Pavey home. Mrs. Pavey and Carol drove to Plymouth on Sunday for a visit with her relatives while Wayne remained here.

Mr. and Mrs. Dale Greiman are the proud parents of a baby girl born Sept. 25th at Mercy hospital in Mason City. The little miss weighs 7 pounds and 3 ounces and she has been named Florence Louise.

Dr. F. Earl Burgess, District Superintendent of the Algona district of the Methodist Church, called on Rev. and Mrs. H. E. Harvey Monday evening.

Mr. and Mrs. Rudy Hefte and children, and Mrs. Daisy Lemke were guests Saturday noon for dinner with Mr. and Mrs. Emil Beier.

Miss Gertrude Grosshuesch, who recently passed the state board examinations after graduating as a nurse, is now on duty at the Park hospital at Mason City.

Mrs. W. F. Missman went to Mason City Saturday to remain a few days with her sister, Mrs. Frieda Hamstreet, who underwent an operation.

Dr. and Mrs. W. F. Missman had as their guests last Wednesday and Thursday Mrs. Missman's brothers and their wives, of Chicago and Milwaukee.

John Clements, who has recently been discharged from services rendered in World War II, has accepted his old position and will be on the job as mechanic at the Northern Lumber Company.

Capt. and Mrs. A .H. Dulmes came from Grundy Center Monday for a visit until Friday with old Klemme friends. Capt. Dulmes was given a fifteen day extension on his leave from the army.

Mrs. E. F. Jacobs' brother, Lloyd Wistey, is a patient at the Veterans Hospital at Des Moines where he is being treated for a recurrence of malaria fever which he contacted while in the Pacific.

Mr and Mrs Lloyd Sherwood entertained to dinner Sunday Mr. and Mrs R. H. Sherwod of Rockwell; and Mrs. Nellie Sherwood and daughters, Opal and Ena Mae of Mason City.

The more mature the carrot, the richer in carotene, the yellow food substance that becomes vitamin A in the body. That is, up to the age of 90 days, after which the carrot gradually loses its carotene.

Plastic unbreakable dishes already on the market—right; of the same molds that turned dishes for the navy. Available in ivory only, the dishes will appear in rainbow hues.

4-H

Investment . .
For The Future

INVESTMENTS are our business.. But with most investments there is some risk. When young people invest their time and energies in 4-H club work there is no risk at all. It is all profit. That's the kind of an invesment we like to see grow and prosper in our community.

So we have every hope that this year's membership drive will go over the top in Hancock County in reaching new members. We can say to these new members that they will not regret their decision.

4-H club work is a going concern. It pays dividends every day of the year. You don't want to pass up that kind of an opportunity.

Farm Boys and Girls.. Join the 4-H during October!

Be Generous In Victory---GIVE To

HANCOCK COUNTY
War Chest
(LOCAL UNIT OF THE NATIONAL WAR FUND)

Quota $3,000 Campaign Dates Oct. 8-13

—V—

Your gift is your contribution to USO and USO Camp Shows for our occupation forces, our men still in service for months to come . . . for men in replacement units. And it is for desperately needed relief to the brave people of our allied nations brutally treated by our conquered enemies.

THIS IS THE FINAL WAR CHEST CAMPAIGN

Your generous gifts in two previous years left a surplus for this year, making it necessary to set a quota of only $3,000 . . . which is less than one-third of the 1944 quota. The National War Fund Drive this fall will provide for the next 18 months instead of one year.

GIVE GENEROUSLY — — LET'S KEEP UP THE GOOD RECORD OUR COUNTY HAS MADE!

A BIG BOOM

DITCH BLASTING DEMONSTRATION AT WILLE FARM

The second ditch blasting demonstration will be held at 9:00 a m. Tuesday, October 16, at the Carl Wille farm, 1 mile south of Klemme. (1 mile east of Highway 69)

Ditch blasting is becoming a regular practice in Iowa in an attempt to get low wet areas drained.

W. C. Lowe, representative of the DuPont Company, will again do the actual demonstrating The demonstration will consist of loading and actually blasting 500 feet of ditch. Everyone interested is invited to attend and be on time with all your questions

You may be able to cut down on flood loss to your crops by using this method of ditching.

"Double Feature" Program

An added attraction will be the loading and blowing of a large tree.

Ditching with dynamite has the following advantages.

First: Ditching dynamite will do the work speedily, with no loss of time. This method is simple, requiring no expensive tools or large crews of men.

Second: Ditch Blasting can be done in wet, muddy places that would be absolutely impassible to horses or machinery.

Third. Ditching with ditching dynamite is economical in practice and gives good results.

CAN MAKE FROSTED CROPS INTO GOOD SILAGE

Frosted crops of sudan grass, hegari, cane or Johnson grass can be put into the silo without danger of prussic acid poisoning when fed to livestock.

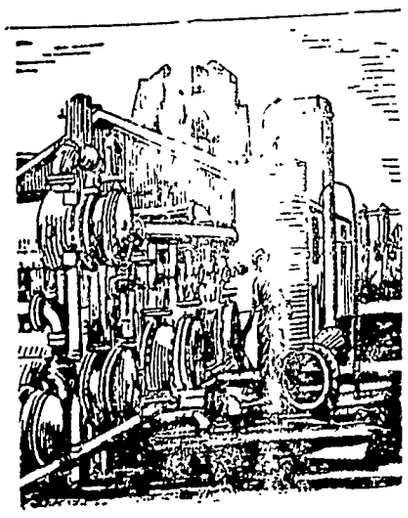
Paul Henderson, County Extension Director, says word from Dr. K. W Stouder, extension veterinarian at Iowa State College, indicates that the prussic acid, which is dangerous to livestock when the grass or cane is pastured directly, evaporates in the silo.

Stouder points out that it's the new growth that starts on the plans after a frost that contains the high amount of acid. That's why livestock, especially sheep and cattle, should be kept off those pastures after a frost.

House Guest Honored At An Afternoon Party

Mrs. Clara Barz entertained at an afternoon party Monday afternoon in honor of her house guest, Mrs. Martha Drier. Those present were Mrs. George Born, Mrs. Fred Nuehring, Mrs Lena Schroeder, Mrs. George Thieman, Mrs. Mary Waterman, Mrs. Raymond Barz, Mrs. Evert Barz, and Mrs. W. J. Barz.

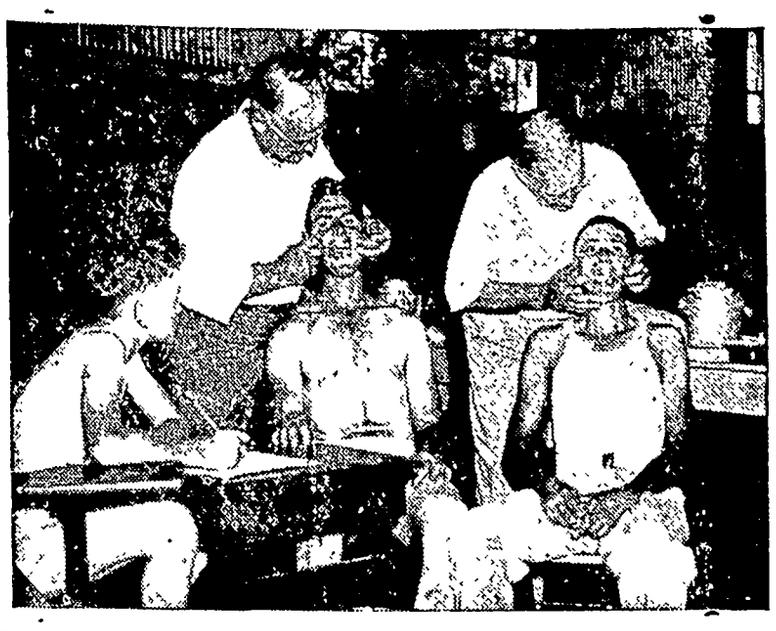
The afternoon was spent informally and the hostess served a nice lunch.



OKLAHOMA OIL

Since the first oil well was drilled at Chelsea in 1889, more than 100,000 wells have brought forth over $4 billion worth of crude in Oklahoma. Improved methods of production insure that the industry will be a major factor for years to come in supplying resources to the Nation for Victory Bond holders to share.

U. S. Treasury Department



IT'S HEALTH CHECK-UP TIME—Health examinations for 4-H members are an application of the spirit of the Health "H" in the club pledge . . . "I pledge my health to better living." They point the way to strong health programs and a healthy citizenry. Hancock County rural boys and girls are urged to join up with 4-H this month.

Arlene Wille Is Bride Of Leonard Kaduce, Farmer

CEREMONY PERFORMED AT REFORMED CHURCH OCT. 5

Bride Is Kindergarten Teacher In Klemme Grade Schools

Mr and Mrs Carl Wille, who reside on their farm one mile south of Klemme announce the marriage of their only daughter Arlene to Leonard Kaduce, son of Mr and Mrs John Kaduce Sr., who reside one mile north of Klemme. The single ring ceremony took place at the Klemme Evangelical and Reformed Church Friday afternoon October 5th at 4:30 o'clock

The Rev Calvin Grossnuech officiated and the couple was attended by Miss Julia Bell, and Pfc. Aaron Wille, both cousins of the bride.

The bride was attired in a street length frock of aqua wool and her corsage was of red roses and white carnations. Miss Bell wore a red dress and a corsage of red roses and carnations.

Following the ceremony a wedding dinner was served to near relatives and close friends at the Carl Wille home.

The bride is a graduate of the Klemme high school and attended and graduated from the Waldorf College at Forest City. She began teaching in the Klemme schools this fall as Kindergarten teacher.

Mr. Kaduce is also a graduate of Klemme high school and since then has been assisting his father in operating the farm.

Hancock County Seed Distribution Committee Held First Meeting

The Seed Distribution Committee of Hancock County held its first meeting to review the method of distributing Clinton Oats in the county and state All applications must be on file in the County Extension Director's office before November 1st in order to receive the attention of the county Committee. The members of the Committee are C J. Wille, chairman; Dean Nerdig; Clarence Bird; Jack Dethmers; Erwin Kahl; and Paul Henderson, secretary.

Only nine names can be submitted to the state committee from Hancock County This is 1½ times as many names as will probably get oats.

HELLO, FOLKS!

Mr. and Mrs. John Waddingham are the parents of a 6 lbs. baby boy born at the Mercy hospital at Mason City on Saturday, October 6th, 1945.

HANCOCK COUNTY 4-H GIRLS' PROGRAM

Oven products will be the major project of Hancock County 4-H girls during the year. The goal of each girl will be 8 bakings of quick breads, 3 bakings of whole cereal yeast bread, 2 bakings of enriched white yeast bread, 6 bakings of bread variations, 2 bakings of butterless cakes, 3 bakings of cakes with shortening, 6 bakings of cookies and 4 milk dishes. The planning and serving of meals will be studied. Music, citizenship discussions, recreation and community activities help to make out a rounded program

The above program was planned at a meeting on October 5th of leaders, assistant leaders, county officers and committee women with the assistance of Mrs. C. J. Wille county chairman and Miss Hazel Grimes, county extension home economist.

SECOND INTERNATIONAL SPEAKER AT GARNER, OCT. 17

The October 17th meeting will be on the topic "Maintaining World Trade And A High Standard Of Living" and will be delivered by Mr O L. McPherson, Vulcan Alberta, Canada. Mr. McPherson is a Canadian farmer and businessman First elected to Alberta Legislative Assembly at general elections 1921; elected speaker at the opening of the first session of the Fifth Legislature, Febr 2, 1922; re-elected at general election in 1926; appointed Minister of Public Works, Dec. 31, 1926; re-elected by acclamation, after assuming office; re-elected by acclamation, June 19, 1930 Since retiring from government services has been engaged in civilian war activities and in his personal business, the operation of mining properties and farming.

This speaker is sponsored by the Garner Rotary Club.

COPPER AND ASBESTOS

Arizona's Gila County has become the principal source of asbestos in the Nation. The gold rush of 1858 has been followed by development of copper. Between 1880 and 1929 the State's production jumped from 800,000 pounds to 830,626,411. Vast stores remain to be excavated to contribute to the Nation's wealth behind Victory Bonds.

WAS OVERSEAS

PFC. L. W NEUBERGER

Pfc Lester W Neuberger, son of Mrs Lewis Neuberger of Klemme, entered the armed services on January 29, 1943, at Ft. Snelling, Minnesota, and received an honorable discharge at Fort Sheridan, Illinois, August 31st, 1945, after being over eas 17 months

Pfc. Neubergr received his basic training at Fort Bragg, N S, after which he was assigned to the 601st Anti-Aircraft Artillery Unit in the Eastern Defense Command.

In March of 1944 he left for overseas and landed in Scotland From there he went to Wales and later was stationed in Southern England and leaving there he went through the countries of France, Belgium, Luxembourg, Holland, and Germany and saw service in these countries as a truck driver

He holds the ETO ribbon with 5 bronze campaign stars, and the Good Conduct Medal

His wife and children, Claudia, and Franklyn lived at the parental Frank Schulz home east of Klemme. Before the war Neuberger worked as a machinist in the Twin Cities.

Unsafe Shelter

After lighting struck a large maple tree on the Colin Craig farm near Keosauqua more than 285 sparrows were found dead under the tree. The birds had taken refuge from the storm in the tree.

OBITUARY OF MRS. MARY AGNES ROTHS

Mary Agnes Fitz-Patrick Roths was born on a farm near Limerick Ireland, on February 26, 1860, the daughter of Margaret Barry and Thomas Fitz-Patrick

She was baptized and confirmed in the Catholic faith in which she became with her brother, John to America, arriving in New York on May 1st, 1877, later coming to Belmond, Iowa, and making her home with her uncle, John Barry.

She was united in marriage to Frank B. Roths on November 2nd 1885 at Belmond and Mr and Mrs Roths made their home first at Garner, later they purchased a farm in Avery township near Klemme, where they made their home for 40 years

Mr. Roths passed away March 21, 1828, following a heart attack. and in November, 1930 Mrs Roths moved to her home in Klemme, where she resided at the time of her death.

On September 8, 1945, she suffered a slight stroke, and passed away October 1st at 5:00 p. m.

She leaves to mourn her departure three daughters, and two sons: Margaret Buseman, Anna Buseman, Sara Buss, Robert Roths and Thomas Roths; also 16 grand children and 10 great grand children. One granddaughter, Marie Maxine Buseman, preceded her in death.

She also leaves one brother, Michael Fitz-Patrick of Chicago, and many other relatives and friends.

Out-of-town relatives attending the funeral services were Mrs. Geo. Zempelman, Kenosha, Wis.; Mr. N. H. Rhodes, Easton, Minn.; Mrs. Emma Atcheson, Kent, Wash.; Mr. and Mrs. Robert Rhodes, Little Falls, Minn.; Mrs. Hulda Wiles, Des Moines, Iowa; Miss Katherine Barry, Belmond, Iowa; Miss Helen Beacom, Jackson, Nebraska; Mr. and Mrs. James Fitz-Patrick, Woden, Iowa.

Soy Bean Price To Stay Up

SUPPORT PRICE OF 1945 CROP OF SOY BEANS $2.04 BU.

Farmers in Hancock County, who will soon be harvesting soybeans, should keep in mind the following facts on the Farm-Support Program for soybeans for 1945, says Alfred V. Josten, chairman of the Agricultural Conservation Committee.

The base support price to all farmers will be $2.04 per net bushel for soybeans grading U. S. No 2 with moisture content of 14 per cent delivered to a country elevator, processing plant or other normal delivery point. (Base support price on 1944 crop soybeans was $2.04.)

Because prices generally must be supported at about 90 per cent of parity is necessary to establish support prices for some of the more urgently needed commodities at levels considerably above parity in order to assure prices attractive enough to obtain the necessary shifts in production. The 1942 support price on soybeans was 105 per cent of the comparable price compared to 125 per cent for the 1944 crop.

Support price programs are carried out through purchase of commodities for military and other governmental uses, including purchases for the school lunch program and other distribution programs; or through loans, purchases and other operations conducted by the Commodity Credit Corporation Support prices for crops grown and harvested in 1945 thru June 30, 1946.

Prices must be supported for a period extending until 2 years after the January 1 following the date on which the President or Congress proclaim hostilities to have ended.

ARMY OFFICER TEACHING IN KLEMME HIGH SCHOOL

Lt. William Rector, of Estherville began his duties as teacher in the Klemme high school Monday

Lt. Rector is a son of Rev. and Mrs. Seamans of Estherville. He is a graduate of the Mitchell, So. Dakota high school and received his B A degree from Dakota Wesleyan at Mitchell, with a major in history.

He taught schol for a couple of months after graduation and then enlisted in the army as a member of the National Guard in November, 1940. He saw 40 months of active service in the South Pacific and had over 500 days of actual combat service in the artillery. He saw service from Australia to the Philippines.

Lt. Rector will teach History, Sociology and Biology and is also acting principal of the high school.

Descendants in Louisiana of the 4,000 Acadians expelled from Nova Scotia in 1755 now number more than 300,000. They form a large portion of southwest Louisiana's population.

RICHES IN LAKE BEDS

A hunter, wading into a shallow lake in North Dakota to retrieve a fallen duck, discovered sodium sulphate. A FERA survey disclosed vast quantities of the mineral that is used for cattle, in paper-making and medicine. Bringing $20 a ton now, it promises substantial profits to add wealth to the Nation and surety for Victory Bonds.

Lynn Chambers' Menus

*Country Omelet
*Swiss Spinach Rye Bread
Asparagus Salad With Cheese Dressing
Prune Cake
Beverage
*Recipe given.

1 tablespoon melted butter
1 teaspoon salt
Dash of pepper
1 teaspoon sugar

Mix all ingredients together in order given. Drop by spoonfuls onto hot, greased griddle. Saute until golden brown on each side, turning only once.

*Swiss Spinach.

Into 2 cups of finely chopped spinach, blend ½ cup very thick, well-seasoned white sauce (flavored with onion and a dash of nutmeg), just enough to hold spinach together.

Eggs can always pack a nutritional punch into lunch and still keep a meal on an economical plane. You'll like both of these suggestions, one served hot, the other crispy cold!

Sunshine Egg Salad.
(Serves 6)

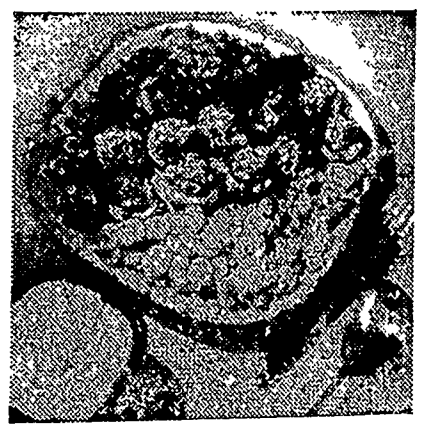
8 hard-cooked eggs
1 cup finely diced celery
¼ cup salad dressing
1 teaspoon Worcestershire sauce
1 tablespoon lemon juice
1 teaspoon scraped onion
Salt and pepper
Celery curls
6 thick slices of tomato
Salad greens

Chop eggs, but not too fine. Add celery, dressing and seasonings. Season to taste with salt and pepper. Press into molds, and chill before serving. Unmold each on a slice of tomato in a bed of salad greens. Garnish with celery curls, paprika and additional salad dressing, if desired.

*Country Omelet.
(Serves 5)

2 cups diced, cooked potatoes
3 slices bacon
¼ cup minced onion
4 eggs, separated
2 tablespoons top milk
1 teaspoon salt
¼ teaspoon pepper
1 tablespoon chopped parsley

Brown potatoes, bacon and onion together in a frying pan. Cool. Beat egg yolks slightly, add milk, salt, pepper and chopped parsley. Beat whites until stiff and fold into egg yolk mixture. Heat frying pan, add 2 tablespoons shortening into the pan. Pour in egg mixture. Cook over low heat until lightly browned on bottom (about 15 minutes). Brown top slightly under broiler and serve



There's a surprise in store with mushrooms de luxe that will make guests ask for more. An all vegetable luncheon like this is served with a smooth, creamy mayonnaise sauce made by mixing mayonnaise and milk and heating together.

An easy, point-free luncheon is made with mushrooms and served with vegetables. It takes only about 20 minutes to bake.

Mushrooms De Luxe.
(Serves 6)

12 large mushrooms
¾ cup dry bread crumbs
1 tablespoon chopped green pepper
1½ tablespoons chopped onion
1 teaspoon chopped parsley
1½ teaspoons salt
⅜ teaspoon pepper
½ cup real mayonnaise
½ cup milk

Wash mushrooms, remove stems and chop. Mix chopped stems, bread crumbs, green pepper, onion, parsley and seasonings. Brown in 2 tablespoons of the mayonnaise. Fill mushroom caps. Bake in a moderately hot (400-degree) oven 20 minutes, or until tender. Serve with vegetables and mayonnaise sauce, made by heating remaining mayonnaise with ½ cup milk and cooking until smooth. This is cooked over low heat, stirring constantly, 5 minutes or until hot.

A dressing for tomatoes, equal to none, is made by merely sieving well ripened avocado and seasoning with lemon juice and garlic salt. This will reduce the pressure on hard-to-get salad oil, ordinarily used for dressings.

Released by Western Newspaper Union.

THEY'RE MAKING CARS AGAIN!

("First New Model Car Rolls Off Production Line."—Headline.)

THE BASEBALL FANS TO A LOSING CLUB

(In the Japanese manner)

To the Club Owners, Managers, Pitchers and All.
Gents:

Being as how our club has turned out to be one of the worst clubs in history, taking last place at the start of the season and holding it nobly to the finish, we, the fans, now prostrate ourselves before you in deep humility and boundless sorrow

—*—

The pitching was sandlot stuff, the fielding would not stand up in the One-Eye League, the longest hit of the year was a two bagger on opening day and the management should of stood in bed. All of which hurts us deeply on account of we fully understand that we alone were responsible. We had nothing to say about the batteries, the schedule, the strategy or the coaching. All we did was to pay in and show we could take it. This was a rare privilege and we are to blame for everything.

—*—

In this hour of disappointment and chagrin we apologize, especially to his August Presence, Tim Maloney, the manager, to their Imperial Majesties Cunnihan & Jones, club owners, to pitchers Ganz, Snaffu and Crummie for the lousy season and for the fact the club wound up in last place. It tears our hearts out when we think of what they must be suffering.

With bowed heads and with tears streaming from our eyes we accept full responsibility for every lost game, wild throw, error and strikeout, trusting that the club owners, manager and players will be noble spirited enough to forgive us.

—*—

We know that the star pitcher "Lefty" Bizzle, every time he was picked and sent in to pitch against anybody, proclaimed himself as a man of peace, and opposed going through with the game at all. Never at any time in the season did he really want to pitch. In the high nobility of his patchless spirit and love for the team and the fans he always cried, "Include me out of this." Losing every fight by scores of from 18 to 32 to 0 he was ever an exponent of brotherly love.

—*—

The club owners, the managers and the coaches also showed in their matchless benevolence they were for harmony and understanding. And so it is with deep sincerity that we apologize for having ever caused them to think seriously of a winning baseball team. In the dust on our knees we express our profound sorrow for all the worries we have caused them.

In All Humility,
The Cash Customers.

P.S.—We also think the outfit, especially that bum who struck out with the bases full, should now concentrate on science and the arts.

* * *

The famous estate of J. P. Morgan at Glen Cove has been rented to Amtorg, the Russian purchasing commission in America. We trust there is something in the lease preventing the Russians from singing the Volga boat song in the Morgan swimming pools, doing Russian dances in the floral beds or having all the china done over with a hammer and sickle design.

* * *

THOUGHTS ON JAPAN

It is our fear that in most cases the fellows being held as war criminals will be put on trial at a time when they can get off on a claim of old age exemption.

—*—

Now that the war is over we can't help wondering whether next season will see the Japanese acrobats back in the circus labeled as Japs and not as Burmese.

—*—

We have it on excellent authority that the emperor's horse is in bad repute for accepting the result as a total defeat and not feeling particularly grateful to anybody for it.

Veterans' SERVICE BUREAU

EDITOR'S NOTE: This newspaper through special arrangement with th Washington Bureau of Western Newspape Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers thi weekly column on problems of the veterar and serviceman and his family. Question. may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.

Speed Up Discharge

With the rate of discharges from the armed forces soon expected to exceed 500,000 per month, several organizations, among them the American Red Cross, are taking steps to expand services to the veterans to make easier the path from uniform to civilian clothes.

The latest move of the Red Cross is the enlargement of the field directors' staffs in hospitals and the installation of full-time paid field directors in veterans administration hospitals to work with Red Cross volunteers now serving in these hospitals.

Many veterans in their haste to get home often pass up the service available at hospitals and separation centers and often regret their haste, for the army and navy and other organizations have provided trained personnel to inform the veteran of all his rights, to help him plan his future and to advise him in many fields. He should take advantage of these facilities.

Questions and Answers

Q. What members of an army man's family are eligible for medical care? Mrs. I. C., Downsville, La.

A. The war department says that the wife and children are normally eligible for medical care, but if a mother, father, or minor sisters or brothers are living within the soldier's immediate household and are dependent upon him for support they too may be eligible for medical care.

Q. My son was killed in action and I sent in a claim for a pension several months ago and haven't heard yet. I am sick and not able to work and I need some help. What can I do? Mother, Dalton, Ga.

A. If your son was unmarried and you were his beneficiary and dependent upon him you are entitled to compensation. If he was married, his widow is entitled to the pension. Suggest that you write again to the Regional Office of the Veterans Administration at Atlanta, Ga., and explain your case. Sometimes action is slow, but if you are entitled to a pension it will be retroactive from the time you made application.

Q.—My son enlisted in the air corps in June, 1944. He was called in January, 1945, and passed all the exams at the induction center. When he received all his "shots" he was sent to a hospital and he was given an honorable discharge March 8, 1945, due to his heart. Is he eligible for G.I. benefits?

A.—If the injury or ailment of your son was received or aggravated by his service, he is eligible for G.I. benefits. You may determine this by having him apply for a certificate of eligibility. Generally speaking a person must have served in the armed forces at least 90 days in order to qualify for benefits under the G.I. Bill.

Q. As I understand it, all World War II veterans who have been honorably discharged from the services are to receive a bonus or payment of $1,040. They are to receive this in $20 a week payments or $520 a year. As I am writing this I am serving time in prison, but I was given a medical discharge from the service in 1942. Will veterans who are serving time in any institution receive this money if they were honorably discharged from the service? No. 18850, Illinois State Penitentiary, Menard, Ill.

A. You have been misinformed, since no veterans receive a bonus. They do receive mustering-out pay up to $300 and if they do not obtain employment after applying to the United States Employment Service they may receive unemployment compensation up to $20 per week for a maximum of 52 weeks. If you received a medical discharge, it may be possible that you are entitled to draw service connected disability payments. Suggest you take the matter up with your prison physician for application to the nearest regional office of the Veterans Administration. If you have an honorable discharge, the fact that you are in prison will not make any difference in obtaining any compensation to which you are entitled.

Q. Is a veteran's dependent child, living separately, entitled to a part of his mustering-out pay? B. S., Geneva, Ala.

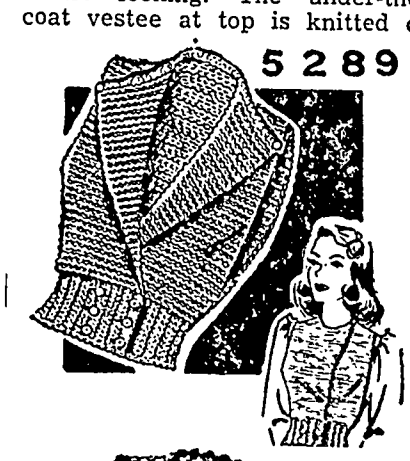
A. Mustering-out pay is given directly to the honorably discharged veteran, $100 at time of discharge, if he has served less than 60 days; $100 in 30 days if he has served 60 days and no foreign service, and an additional $100 in 60 days if he has had foreign service, a total of $300.

Q.—Can you tell me what fuel is used to power the new jet-propelled P-30 called the "Shooting Star"?

A.—Kerosene.

Pretty Vestees for Classroom Wear

LOTS of warm sweaters are needed by high school and college girls, they say, for campuses and low temperature classrooms. Each of the vestees shown is not only warm but exceptionally smart looking. The under-the-coat vestee at top is knitted of



soft wool—the "hearts and flowers" model is crocheted in white wool and embroidered in glowing colors. Small gold buttons will be striking.

* * *

To obtain complete knitting instructions for the Button Over Vestee (Pattern No. 5289) and crocheting instructions for the Hearts and Flowers Vestee (Pattern No. 5694) sizes 12, 14, 16, 18 included, send 16 cents in coin for each pattern, your name, address and the pattern number.

Due to an unusually large demand and the current conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

EDITORIAL COMMENT

THAT ELUSIVE HEN IS STILL AT LARGE

That hen that was claimed by both the Editor and Don Christiance is still at large and probably was somebody else's Sunday dinner according to a card we received from Don in Monday's mail:

"Dear Jergie: In reply to the whereabouts of the Leghorn pullet, am sorry but I can't accomodate you on your chicken dinner as I didn't catch the chicken as my legs were no match for her wings. Upon informing my wife of the stray, she said it wasn't our's as they were better trained than that, and also had their wings clipped. I declare that this one flew like an eagle, and I quit chasing her and the last I knew, Pete Wilson said on Sunday, Sept. 23, she was singing away merrily on Main St. As we were gone for a few days I lost out on the whereabouts of said pullet. Someone must be eating eggs or chicken. Here's hoping through your ad we can find the mystery Leghorn.—Don."

And that is that . . . now we are out a chicken dinner, or two hair cuts. Better that the Koerner Dairy should turn loose another hen or two down our way Maybe our luck will change!

And . . . to add injury to insult our old friend, Ralph Elder, who fo lo, these many years, has supplied the Editorial Manse with fresh eggs from his farm every week, Saturday delivered the usual box of eggs except . . . one egg short and another cracked! Can it be that Ralph was taking a dirty dig at us in that manner? Could be.

* * *

People like to gamble. It seems to be born right in them and the past week has given many a pious person a chance to take on the several baseball "pools" around the town. The customer list included business men, business women, retired farmers, clerks, more or less pious church-goers, and in fact just about every walk off life in town was taking a chance on the pool.

Did the Editor gamble? Well, not exactly, but we did make a few investments, total $3.25, that up to this moment have not returned any dividends!

Out of a yearly rate of 12 marriages per thousand population, an average of at least one per thousand involves a divorce.

REV. HARVEYS HONORED AT LIBERTY METHODIST

Monday evening the monthly birthday supper was held at the Liberty Methodist church which also was a surprise "pound shower" held in honor of Rev. and Mrs H. E. Harvey, who were presented with a variety of nice gifts from the members of the Liberty congregation.

Infant Daughter Baptized

Vicki Rae, the infant daughter of Capt. and Mrs. Victor Greiman was baptized at the home of her grandparents, Mr. and Mrs. Albert Kehl, Thursday evening, Oct. 4th, 1945.

In honor of the event Mr. and Mrs. Kehl had as their guests Rev. and Mrs. Calvin Grosshuesch, Mr. and Mrs. W. H. Greiman, the other grandparents of Vici Rae, and Vici's parents.

Swansons Making Extensive Improvements On Home

Mr. and Mrs. Leonard Swanson are making extensive improvements on their home in the southwest part of Klemme. During the summer Mr. Swanson has re-roofed the house, using light green colored shingles. The old siding was all taken off and heavy building paper installed and in place of siding the house was re-sided with white asbestos shingles. The old porches were torn down to give way for more modern entrances. The latest addition now being built is a large garage connected to the rear of the house.

Mr. Swanson, who is in the hatchery and feed business with his brother Albert, has a nice set of buildings which all harmonize with the house and with each other. The large hatchery building and the feed storage building are both finished with white asbestos sidewall shingles, with light green slate roofs. The large hen house further back is also white and harmonizes with the general lay-out.

In all the Swanson Hatchery is a very neat, attractive place and is one of the up and coming business places in Klemme.

Mrs. Jacobs' Brother Home From The Navy

Mrs. Louisa Wistey, 1004 S. 4th Street, Clear Lake, entertained at dinner last Thursday evening, Mr. and Mrs. E. F. Jacobs, Dean and Lois of Klemme, and her son, Glenn M. Wistey, EM 3-c, who had been discharged from the Seabees at Minneapolis the previous day after being in the service since January 1943 and was in the South Pacific much of the time.

His brothers, Clarence Wistey, CM 1-c, and Edwin Wistey, MM 1-c are expected home momentarily. A fourth brother, Lloyd Wistey, S 2-c, who received an honorable discharge last February and has been staying with his mother, is at Veterans Hospital, Des Moines, where he was taken 2 weeks ago when he became ill while on a trip.

A SALUTE TO THE FARMER

All Iowa is proud to join this week in a tribute to the farmer and his family — for the tremendous part they played in the Victory of America and her Allies. Never in history have farmers, anywhere, done such a job of food production.

When our fighting forces called for more meat, milk, and eggs, Iowa farmers —

- **Stepped up pork production from 15,000,000 hogs in 1941 to 20,000,000 in 1943.**
- **Boosted milk production from 6,920,000,000 lbs. in 1941 to 7,071,000,000 lbs. in 1943.**
- **Increased egg production from 99 eggs per hen in 1941 to 142 eggs per hen in 1943.**
- **Increased poultry production from 54,307,000 birds in 1941 to 69,926,000 in 1943.**

And this was done in spite of help shortages, equipment shortages, feed shortages, and many other adverse conditions. We are gratified to add this word in justly-deserved tribute to the outstanding wartime achievement of the Farmer and his family.

SCHOOL NEWS

SENIOR CLASS NEWS

—Ruth Bell.

In Literature Class we have been studying famous poets and their writings. We have been having special reports on authors this week as we read their poems.

We have completed the study of the colonization of the thirteen early colonies in American History. Mrs. Dethmers has been teaching our class this week.

In Sociology we have been studying Social Living This deals with our ability to get along with other people. We also have been studying about our reflexes

We are now closing the ledger in Bookkeeping This has proved to be the hardest step of our work in that subject.

We are now studying about the atmosphere in Physics We performed several interesting experiments this week.

JUNIOR CLASS NEWS

—Emily Lou Johnson

This week and for the next 3 weeks all the Juniors are studying on their class play It is a three-act comedy The name of it is, "Don't Take My Penny" It was written by Ann Coulter Martens. We were fortunate enough to find a play with enough characters in it for everyone in our class. We hope to put on a very good play. The play is to be given November 2nd Miss McDaniel is our director.

FRESHMAN CLASS NEWS

By Isabelle Gibbs and Norma Early

Wilford Back put on an experiment in General Science. It was "Is The Air, Because of It's Weight, Able To Do Something To Other Matter?"

In Algebra we have been working on Equations and have found out three ways of checking them.

The end of the first 5 weeks has come, and Six Weeks Tests are on the way. We are all in hopes of good grades.

The boys in Manual Training have been having mechanical drawing for the first 6 weeks.

7TH AND 8TH GRADE NOTES

Vivian Westerberg, Teacher

—Calvin Josten, Reporter.

Next week we have our Six Week Tests.

For Art we made Halloween decorations.

We had a visitor in our room on Thursday of this week. It was Virginia Kudje.

The following people received 100% in Spelling this week:

7th Grade: Beverly Pringnitz.

8th Grade: Luella Priebe, Lillian Wille, Gloria Haefner.

THIRD AND FOURTH GRADE NOTES

Mary Jane Holmes, Teacher

The Third and Fourth Graders are glad to have Alan Nebuerger back with them. He has not been able to be in school before this year due to illness, but he has been keeping up with his studies at home. With Alan's return to our room, the Third Grade enrollment is now thirteen.

On Monday afternoon, the 3rd and 4th Grades were treated by Lois Ann Jacobs. It was her ninth birthday.

Friday was LeRoy Josten's 10th birthday. He, too, treated his room.

We wished both of these people a happy birthday.

KINDERGARTEN NEWS

Arlene Wille, Teacher

Thursday Miss Lou Sheppard, from Iowa State Teachers College demonstrated Kindergarten Work to Rural Teachers in Hancock County. Miss Sheppard held her meeting in our room and used our class in her demonstration. We all enjoyed the time spent with her.

This week we have been modeling things from clay. We have made a nest with eggs, and a rabbit. We think it is fun to play with clay.

CIO Strives to Maintain High Pay Level in Postwar Industry; Act to Spur Building Activity

Released by Western Newspaper Union

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Facing tough winter in war-torn Austria, Viennese scratch for future provisions. At left, woman is shown picking up stray grain in harvested field, while at right another woman is pictured carrying home wood found in shelled forest.

LABOR:
Seek Peace

Armed with emergency powers, Secretary of Labor Lewis Schwellenbach moved into the troubled industrial front, where CIO demands for appreciable wage boosts threatened to retard the reconversion program and jeopardize stabilization policy.

Schwellenbach faced no easy task, what with the strategic oil, automobile, farm equipment and steel unions striving for wage readjustments to bring 40-hour-a-week pay up to wartime overtime levels, and major producers bucking the demands in the face of rigid price control.

In all instances, CIO demands for substantial wage boosts were predicated on the claim that the big companies had made sizable wartime profits and could use the money to defray part of the increases until peacetime production could be reestablished on a volume basis.

While oil workers already had walked out of midwest refineries in a strike that threatened to spread and imperil the national fuel supply, principal interest continued to center in the troubled automobile situation, where the United Automobile Workers headed by R. J. Thomas laid plans for enforcing their demands for a 30 per cent wage increase by walking out on individual companies and leaving their competitors free to invade their markets.

R. J. Thomas

In assuming command of a labor department strengthened by the inclusion of the War Labor board, war manpower commission and United States employment service, Secretary Schwellenbach planned to proceed slowly before exerting emergency powers, first exhausting ordinary procedure.

PACIFIC:
MacArthur Disputed

Taking sharp difference with Gen. Douglas MacArthur's declaration in Tokyo that only 200,000 American troops may be needed for the Japanese occupation, Pres. Harry S. Truman feared for its effect on army demobilization plans and Acting Secretary of State Dean Acheson said that at this time it was difficult to forecast the eventual size of the force.

Basing his estimate upon the Japs' wholehearted effort at co-operation with his command, MacArthur's latest figure of 200,000 was a sharp reduction from the 400,000 recently projected and the 900,000 at first thought necessary. In making his statement, MacArthur said that the Japs' execution of his dictates through their governmental framework relieved the U. S. of establishing an elaborate military authority to perform the same tasks.

In seeking to offset expectations that MacArthur's announcement might lead to speedier demobilization, President Truman declared the program was not dependent upon occupation needs.

Speaking for the state department, Acting Secretary Acheson asserted that the ultimate size of the occupation force will depend upon the scope of the job of eradicating the whole Jap war-making economy.

DEMOBILIZATION:
Point Cut

Asserting that no man would be kept just to maintain a big army, Gen. George C. Marshall revealed a stepped-up demobilization program providing for a further decrease of discharge points to 60 on November 1 following the October 1 slash to 70. At the same time, the total necessary for officers was to be cut to 75.

Marshall reviewed demobilization plans at a meeting with 300 congressmen at which he also affirmed receipt of General MacArthur's estimate of an occupation force of only 200,000 for Japan by next summer. Though MacArthur had reduced his estimate, Marshall said, General Eisenhower's figure of 400,000 for Germany remains the same.

Declaring that the present rate of releases has been determined solely by the availability of discharge facilities, Marshall said that all G I.s without useful army work would be freed within three to four weeks. With the exhaustion of high point men by late winter, the army may further alter its demobilization program by releasing all men with two years of service.

POSTWAR BUILDING:
Lid Off

With removal of all building controls, government agencies bent themselves to the task of speeding up construction and at the same time keeping costs within bounds to head off an inflationary boom during the reconversion period.

As experts looked for the erection of 500,000 private dwellings next year and a peak of 800,000 in 1948, officials sought to increase the supply of scarce building materials, permitting wage and price boosts and priorities to break bottlenecks, if necessary. Inventory controls also were to be strengthened to prevent hoarding and creation of artificial shortages.

At the same time, OPA announced that it would tighten price control over building materials to counteract heavy demand, while federal credit agencies prepared to discourage loose financing in a market booming with home needs and prospects for high postwar employment.

RETAIL PRICING:
Absorb Increases

Declaring that up to now retailers have not been squeezed by price control, OPAdministrator Chester Bowles reiterated government policy that dealers would have to absorb any increases in manufacturing costs in the reconversion period.

Rejecting a plea of a retailer group that such absorption would be uneconomic and unfair, Bowles said that dealers' markups were not reduced during the war, and records show that profits soared under increased volume and lower operating costs. Whereas the profit margin of department stores stood at 1½ during the 1936-'39 period, it reached 12 per cent in 1944, he said.

Under OPA's pricing policy for manufacturers for the reconversion period, some increases will be permitted to allow for higher labor and material costs. Profit margins will be held to half the industry-wide average for larger businesses or prewar levels for smaller firms, however.

Industry Takes Kindlier View of Oldsters

Because of their generally fine performance while "pinch-hitting" during the wartime labor shortage, older workers will find employment opportunities much broader in the postwar era than in prewar years, Northwestern National Life Insurance company found in a survey.

Hard-and-fast age limitations existing in the prewar era were pretty thoroughly broken down during the war and will stay broken in many fields, although most large concerns will conduct their most intensive recruiting in the 20 to 30 age group.

Many employers who have had unsatisfactory experiences with irresponsible young employees during the wartime labor shortage express a definite preference for older workers, who are loyal and very dependable.

NAVY:
Two-Ocean Dimension

A two-ocean fleet almost five times the size of the pre-Pearl Harbor force was proposed by naval chiefs at a hearing of the house naval committee.

Under the proposal advanced by Secretary of the Navy Forrestal and Fleet Admiral King, 300 ships would remain in active duty and another 100 would be kept in ready reserve. The remaining 680 vessels would be laid up but maintained in sea-going condition. A total of 500,000 enlisted men and 58,000 officers would be needed for the 300 active ships and planes and 815,000 to man the entire fleet.

For implementation of U. S defenses, the navy recommended establishment or retention of major naval bases for the Pacific in the Aleutians, Hawaii, Canal Zone, Guam, Saipan, Tinian, the Bonin-Volcano island group, the Admiralties and Philippines. Atlantic posts would include Argentina in Newfoundland, Bermuda and Trinidad.

ATOMIC TEST:
On Battleship

Even while plans were being mapped in Washington, D. C., for the postwar fleet, naval officials prepared to carry out a test of the atomic bomb's effect on surface vessels 500 miles off conquered Japanese shores.

Target for the experiment, which might eventually lead to a redesign of surface vessels as followed Billy Mitchell's test bombardment of the Virginia in 1923, will be the Jap battleship Nagato, with its 14-inch steel armor plate.

Although the restyling of warships after Mitchell's successful experiments led to their strengthening against air attack, they have remained vulnerable to underwater attack. So far, reports on atomic bombings have indicated the main force of the explosion is up and out, but naval chieftains also would like to determine any underwater effect.

16th Child Her Biggest

The mother of 15 children, Mrs. Francis Strohl's 16th child was an 18 lb. baby girl. The infant was one of the heaviest delivered, with a 25 pounder born in 1916 topping the record. 38 years old, Mrs. Strohl is a resident of Lawton, Pa.

LONG FLIGHT:
Across Great Circle

Approximately 25 hours and 43 minutes after taking off from northern Japan, the first of three giant B-29 bombers glided onto the sprawling Chicago airport, to be shortly followed by the remaining two after a 5,995 mile experimental run.

With three top U. S. air force commanders in the planes, the original plans called for a non-stop run to Washington, D. C., to test the great circle route and attendant weather in the far north. Because of strong headwinds during the early stages of the flight necessitating increased use of gas, however, the B-29s decided to land in the Windy City for refueling.

Though traveling 5,995 miles in a long journey which took them over Kamchatka, Alaska and Canada before reaching the U. S., the American airmen led by Maj. Gen. Curtis E. Le May fell 1,100 miles short of the record non-stop flight set by two Britons flying from Egypt to Australia in 1938.

WAR CRIMES:
Try Nazis

Charged with systematic starvation and neglect of internees at the notorious Belsen concentration camp, 45 Nazi men and women tried to fight back at their war crimes trial conducted at a British military court in Lueneburg, Germany.

In seeking to defend themselves, the accused followed the line that most of the 40,000 prisoners in the camp were all habitual criminals, felons and homo-sexuals. Britons taking over the camp upon the Nazi collapse claimed that their experience showed it was not necessary to use force to govern the internees.

In first seizing the camp, the British counted 13,000 dead, and another 13,000 died later because their condition was beyond treatment, medical officers charged. Though supplies were obtainable in the immediate vicinity of the camp, no effort was made to procure provisions.

U. S. INCOME:
1944 Peak

Figures compiled by the department of commerce show that total income payments to individuals in the United States in 1944 rose to a new high record of $148,090,000,000. The largest percentage of this total, or $19,345,000,000, went to individuals in New York state while the smallest percentage, or $196,000,000 went to people in Nevada. The amounts differed among the various states because of the size of the population per capita income.

FARM WAGE DELIRIUM

WASHINGTON. — Live-wire Republican Sen. Ralph Brewster of Maine recently telephoned hard-working Assistant Secretary of Labor Carl Moran, also from Maine, but a Democrat.

"Portland is among the nine distress cities of the country," Senator Brewster reminded Moran. "As you know, Portland shipyard workers have been dismissed from their jobs wholesale. Meanwhile, farmers up in Aroostook county can't get anyone to bring in their potatoes. What can you do about it?"

"What are they paying for farm labor in Aroostook county," asked the assistant secretary of labor; "still four cents?"

"No," replied the senator from Maine, "There's a guaranteed wage of $12 a day."

Assistant Secretary Moran said he would do his best to switch some workers up to the potato farms. However, he might well have replied that the labor department was that in name only and that it actually had almost nothing to do with labor.

For the fact is that, under Miss Perkins, the labor department was stripped of most of its labor duties. The War Labor board is separate and independent, and, most important of all, the U. S. employment service is under the War Manpower commission. Thus, Assistant Secretary of Labor Moran had to turn to an outside agency, the U. S. employment service, to try to get discharged shipyard workers to help harvest the Aroostook potato crop.

This, in turn, has brought out another difficulty affecting not merely Maine but the entire nation. Most war workers, drawing $1 to $2 an hour plus overtime and bonuses, don't want to go back to the farm and farm wages. The labor shortage on the farms, even after V-J Day, is as acute as ever. Farm wages are higher than ever, though still a long way from shipyard and aviation factory pay. So, somehow or other, either farm wages must go up, or war workers must go back to less money on the farm. In the former case, the farmers will have to get more for their crops, which, of course, means a higher cost of living in the city.

Ambassadors' Wives.

Last week this column reported that Mrs. Ed Pauley, wife of the U. S. reparations ambassador to Moscow and former treasurer of the Democratic national committee, was listed to receive $25 a day expenses while accompanying her husband to Russia. Since then, I have received further information that Mrs. Pauley, although listed by the state department as an official member of the party, declined to accept the $25 per diem.

However, I still believe it a highly debatable point, when a million or so G.I.s are not permitted to have their wives come abroad, that American higher-ups should take their wives with them to overseas war areas. After all, the average American soldier now occupying Germany or Japan has not seen his wife for more than a year.

When the Pauley reparations mission arrived in western Europe, the party was split up, because of limited accommodations in Moscow.

One group, including some of the best experts on reparations, were told to remain in Frankfurt, Germany, because there was no room to house them in Moscow. But Mrs. Pauley, despite limited accommodations, went on to Moscow.

Later, she also visited Potsdam for the Big Three session. She was the only American wife present. Mrs. Truman and Mrs Byrnes, wife of the secretary of state, remained at home. And during the last session of the Big Three, Mrs. Pauley sat in the gallery, a privileged witness to the historic ceremony. Many U. S. and British experts who had spent weeks preparing for this big climax and who had burned midnight oil whipping the agreement into shape, were barred from seeing the windup.

NOTE—On August 4, this column reported that the office of war information had given Mrs. R. A. McClure, wife of General McClure, a privileged job as receptionist in OWI's Paris office, thus permitting her to be near her husband in Germany. Immediately after publication of this disclosure, the OWI received an order from the White House for Mrs. McClure to come back to the United States.

Capital Chaff.

The shortening of the congressional recess, which was to last until October 8, has forced several congressmen to look for temporary lodgings in Washington They had leased their homes for the anticipated recess period. Some, like Los Angeles' Chet Holifield, were foresighted enough to make arrangements to have at least a bedroom available if they returned . . . Congressman Karl Mundt of South Dakota, one of the most vigorous Red-hunters of the old Dies committee, is traveling in Russia. . .

Portrait of a Man:

The namby-pamby treatment accorded Japan has become a bone in the throat of peace. Hirohito has become the fair-haired rat; Jap propagandists drool he is solely responsible for making peace, while the American conquerors sit around twiddling their bayonets. That is just another form of discredited appeasement which incited the war! . . . The impression is being created that the Mikado was just an innocent bystander. Hell, you would think Killer Hirohito was Lord Fauntleroy. Such horse-radish! . . . On Dec. 7, 1943 (the anniversary of Pearl Harbor), the Jap Emperor sent this cable to Hitler: "I express joy to see our goal realized step by step."

Not only is Hirohito being coddled, but the whole Imperial Jap family has been absolved of any war crimes. However, the blood on their filthy paws shows through the whitewash. . . . One of the most bestial crimes in history was the rape of Nanking. Prince Asaka was in command at Nanking when that unspeakable atrocity took place. . . . Asaka is the Mikado's brother!

It is a crazy world. The Greeks who were supposed to be liberated got tougher treatment than the Japs who are supposed to be conquered.

Japs are being treated as chums. Indicted seditionists continue their pro-Nazi sprees. Nazi war prisoners are coddled. Nothing is being done about the Argentinazis and Spanish fascists who aided our enemies. Our diplomats are leery about punishing all war criminals. . . . At the same time, isolationists are slinging slime at FDR. Our Russian ally is being rapped. Some politicos oppose plans to make certain Americans will have jobs.

WHOONELL WON the war?

Berlin newsboy Gladwin Hill relayed this striking contrast between the Soviet's stern realism in Nazi-land and America's hemming and hawing. . . . While the Americans were working out the fine points of a long range program to provide Germans with non-Nazi movies, the Russians blandly authorized German movie houses to reopen with the implicit warning to every German exhibitor that if he peddled any Nazism he might turn up missing.

Using their own ugly hatred instead of facts, some jack-asstrich rags are attempting to pin the blame for Pearl Harbor on FDR. . . . However, none of them raise their voices about the fact that Gen. MacArthur was caught napping at Manila. Almost our entire airforce in the Philippines was destroyed on the ground TEN HOURS AFTER the PH attack.

Some of us wondered why Colepaugh and Gimpel, who were deposited on the Eastern shore by a Nazi submarine, had their death sentences commuted to life in prison. . . . The col'm learns that Colepaugh (the American) "was of considerable help to the U. S." (with information), which is why his sentence was commuted. . . . Put Gimpel gave no help whatever and he was spared, too.

You've gotta hand it to those terrible Russians. When they capture spies they fix it so they never again have toothaches.

When Admiral Halsey visited the U. S. it was said he came for a rest, which isn't the fact. . . . Halsey was beached for sassing a Big Boy from the Navy Dep't. . . . This exec had flown to Halsey's ship to probe something that had to do with losing a ship. It turned out to be shortage of shells, which was not the Admiral's fault. The blame rested with the supply men in SF and San Diego. . . . At any rate, this biggie arrived on Halsey's birthday and as the ship's officers gave Halsey a surprise birthday cake with candles, the Man from Washington put a damper on the party by saying: "A birthday cake? With people starving? You all ought to be ashamed!" . . . To which Halsey, whose men love him for his courage and war record, said: "I'm very sorry, sir, you are unhappy about us all having a little cake. Tell me, how's the food been lately at the Stork Club?" . . . When Mr. Big got back to Washington Halsey was beached.

President Truman's warm humility has been his most striking characteristic. Perhaps it is best illustrated by his favorite motto: "It's what you learn after you know it all that counts."

Incidentally, when the U. S. Navy broke the Jap naval code (just before the Battle of Midway), what has never been revealed is that the Japs broke ours. The damage and casualties that resulted in the next 48 hours (before we had a new code) is something for the historians. . . Gen. MacArthur is among those due for attack. From what source and when I don't know now. He will be charged with being one of the first advocates for a soft peace for Japan (not many months ago).

SNAPPY FACTS about RUBBER

A U. S. Senator traveling in the West stopped to help a young lady change a flat tire. The flat developed a friendship that blossomed into marriage.

Soap is one of the important manufacturing agents of synthetic rubber. B. F. Goodrich has developed synthetic rubber using a rosin soap derived from Southern pine trees that is a great improvement over ordinary synthetic.

Demand for passenger car tires will total about 70,000,000 casings in the first year after the war—for both new cars and replacements.

FIRST IN RUBBER

WORKS WONDERS FOR MRS. WILLIAMS

NASHVILLE, TENN.—A recent letter from Mrs. Johnny Williams of Nashville, Tennessee, to the Faultless Starch Company revealed an important time-saving ironing secret. Here is what Mrs. Williams wrote:

"For the past three years I have been doing my own laundering. Last week I decided to give Faultless Starch a trial. It certainly made my ironing easier and I finished in almost half the time. I shall never stop praising Faultless Starch and I am telling all my friends about it. It sure worked wonders for me."

Would you like to save half your ironing time, like Mrs Williams does? We certainly can't promise it, of course, because you sure iron with a different iron and in a different way—but, you can't lose anything by trying Faultless Starch. And it may help you save time, just as it has Mrs. Johnny Williams.

EASY, BEAUTIFUL IRONING

There is an important reason why Faultless Starch makes ironing so easy. You see, Faultless Starch contains ironing-aids, already mixed in, that keep the iron from sticking No more fighting a "sticky" iron No more pushing or pulling at the end of each stroke. Your iron just slides along smoothly and beautifully. No wonder Mrs. Williams found she could save half her ironing time

YOU DESERVE FAULTLESS

Why should you go on fighting a "sticky" iron, when Faultless Starch can make your ironing so easy? Why tire yourself out when Faultless Starch can help save your back, your arms, your legs? Why work so hard when Faultless Starch can make it so easy to do beautiful ironing?

Just ask your grocer for Faultless Starch—and use it. Then you'll know why Mrs. Williams says it "works wonders" for her —Adv.

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION

for Coughs, Chest Colds, Bronchitis

PAZO for Simple PILES

Relieves pain and soreness

PAZO IN TUBES!

Millions of people suffering from simple Piles, have found prompt relief with PAZO ointment. Here's why: First, PAZO ointment soothes inflamed areas—relieves pain and itching. Second, PAZO ointment lubricates hardened, dried parts—helps prevent cracking and soreness. Third, PAZO ointment tends to reduce swelling and check minor bleeding. Fourth, it's easy to use. PAZO ointment's perforated Pile Pipe makes application simple, thorough Your doctor can tell you about PAZO ointment.

SUPPOSITORIES TOO!

Some persons, and many doctors, prefer to use suppositories, so PAZO comes in handy suppositories also. The same soothing relief that PAZO always gives.

Get PAZO Today At All Druggists

erican Farmers to Continue High Production Goals in Satisfying Demands of the Entire World

ime Need for Products res Farmers of Good Market and Price.

will the impact of war's end o American agriculture? question has been raised with ing frequency ever since o accepted President Tru- unconditional surrender nd the Jap hordes have laid eir arms. greatest crops in history have produced during the war. The d year was 1942. Next was and indications are that this will exceed 1943, so that 1945 be the third best.

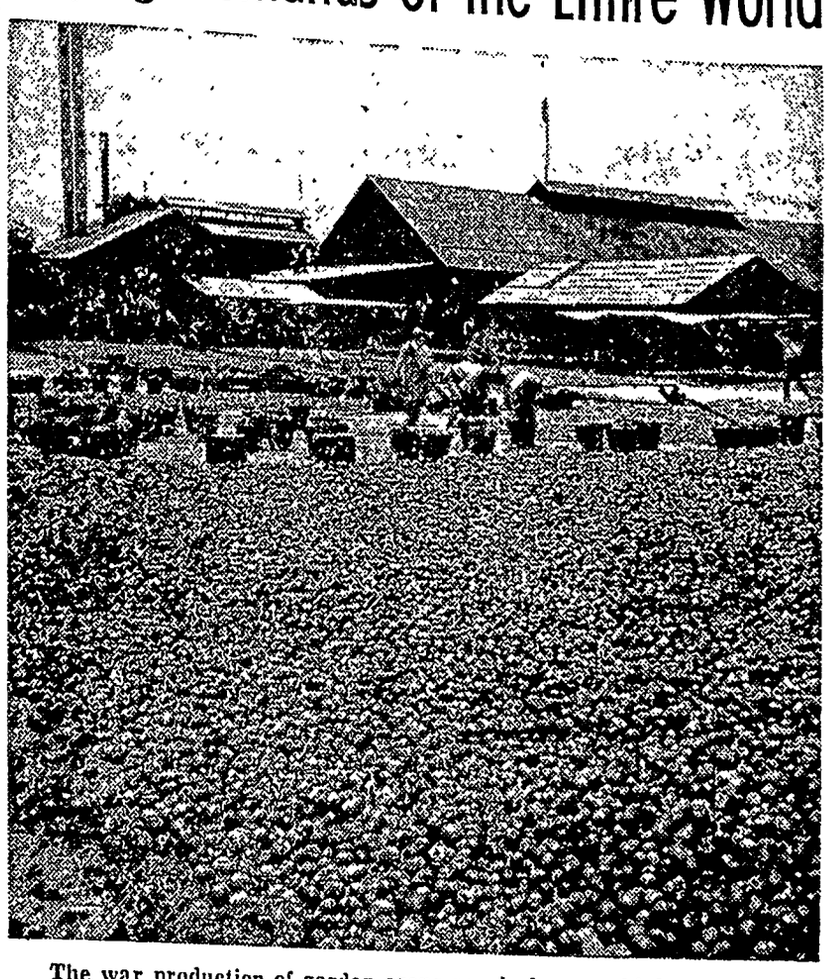
dit for this epic achievement go to the nation's farmers, but ntribution of the fertilizer in- y should not be overlooked. Ag- ural authorities estimate that than 20 per cent of the crop uction in the war years has been to the use of fertilizers. The of plant foods has been of es- al importance to the food pro- on program because it has en- farmers to produce bigger s on existing acres instead of g to plow up millions of acres ditional farm land. The saving bor, equipment and man hours been enormous.

rm income during recent years passed the peaks reached dur- and immediately after World I. Prices are now near or above parity. Even if prices should come down to government-support levels—a drop of perhaps 15 per cent below present peaks—farm purchasing power will be enormous. The farmer has a higher amount to spend out of his income than other wage earners, for the reason that less of his income is required for rent, food and fuel than is the case with city dwellers. Six million farm families comprising approximately 30 million people having a gross income in excess of 20 billion dollars a year will be a factor of tremendous importance to America's peacetime economy.



The war production of garden crops reached a new high. The demand will continue for some time. New varieties, improved soil fertilization and new equipment will aid the farmer in repeating his record production of these crops.

Farmer in Strong Position.

Just as significant as agriculture's high income rate in recent years is the fact that the farmer has been laying aside a good portion of his savings in war bonds to spend for essentials in years to come. Clearly the farmer has emerged from the war in a stronger position than he was at its start.

To maintain that position the farmer should do some straight thinking and planning. Two things are especially important: 1—He should avoid overexpansion through the purchase of additional land in the peace years ahead; 2—He should make immediate plans to repair the damage to his soil's fertility level which the vast war crop production quotas have caused.

The experience of the last war with its farm land boom and subsequent collapse should be a reminder that the American farmer should not go in for more land than he can successfully handle. Farm land prices have already risen dangerously toward inflation levels. Farsighted agricultural authorities are urging farmers to "keep their shirts on" and steer clear of the pitfalls of land speculation.

Better soil management methods on a well-equipped and economically operated farm will prove safer in the long run than vast fields without efficient management.

The key to successful farming operations in postwar years will lie in increasing the per acre yield on existing crop land rather than in bringing additional acreage under cultivation, a recent statement by the Middle West Soil Improvement committee pointed out.

"In months to come the emphasis will be on reducing the cost of crop production per unit," the statement sets forth. "That means making every acre do a better crop producing job.

"In every community there are farmers who increased their wartime crop output as high as 50 per cent, without increasing the cultivated area by one single acre. In every case the larger yield was the result of adopting good soil fertility practices. The experience of these farmers can be profitably followed by their neighbors in their peacetime operations. Their soil-conserving methods not only prevented waste of fertility, but actually have helped restore it.

"Such methods include growing legumes to enrich the soil's nitrogen and organic matter supply, the use of adequate quantities of mixed fertilizers containing nitrogen, phosphorus and potash, liming, contour plowing and a limiting, so far as possible, of soil-depleting crops."

Soil Fertility Replenishment.

The matter of soil fertility replenishment will have an important bearing on the peacetime continuation of farm prosperity. If the nation's farms are to be kept productive, a vast soil-rebuilding job lies immediately ahead.

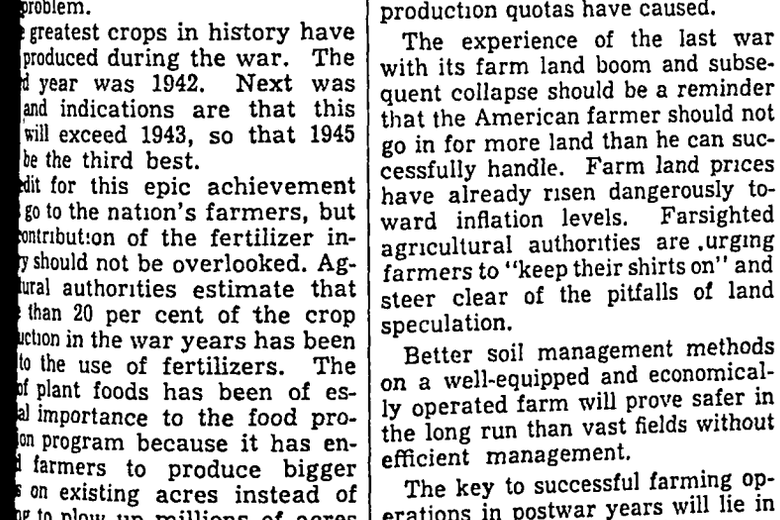
How important this is may be understood from a recent report issued by the Soil Conservation service of the department of agriculture which estimated that nearly one billion acres—more than 90 per cent of the nation's farmlands—need soil conservation treatment to protect them from erosion and to maintain their fertility.

Wartime crop goals used up the soil's resources of nitrogen, phosphorus and potash faster than they could be replaced in spite of the fact that the fertilizer industry broke all previous production records. Farmers have realized that this wartime drain on their soil's fertility level was a necessary contribution to victory. But the fact remains that wealth borrowed from the soil to help hasten peace must be repaid.

While every encouragement will be given to soil rebuilding projects by the federal government and by state agricultural agencies, the major responsibility for getting the job done will rest on the shoulders of individual farmers.

The effectiveness of the individual farmer's soil rebuilding program can be enhanced by the co-operation of agronomists at state agricultural colleges and experiment stations. Through research and experimentation over a long span of years, these experts have developed information concerning fertilizer needs for various crops and soils that is helpful to the farmer who is undertaking a replenishment program. The co-operation of the fertilizer industry will be an effective aid, also. The present plant capacity of manufacturers is sufficient to meet all peacetime needs of agriculture.

Farmers are more fortunately situated for accomplishing their soil-restoring job than at any time in the past generation. Dollars invested in war bonds, during the period when farm cash income has been at a high level and farm debt at a low point, can provide the ready cash to pay for the nitrogen, phosphorus and potash needed to build up the fertility level of America's soil.



Increased production of dairy and poultry products has been little short of a miracle. Better breeding, feeding and management has been the power. Even greater results can be expected in the next few years.

Industrial Reconversion Getting in Fast Strides

he war contractor who loses his of working for the government n a much better financial posi- for his immediate reconversion ds than the worker deprived of ployment by wholesale contract cellations. It was early realized some leaders that provision must made to enable manufacturers their working capital tied up war contracts to obtain use of capital at the earliest possible ment. Consequently the Office of Contract Settlement has been working long hours to speed up these settlements.

Reconversion Director Snyder reports that about 80,000 contractors and their employees have been trained in special courses and know about settlement procedure. Provision has been made also for the contractors to obtain government guaranteed loans to free funds frozen by contract cancellations. In addition the treasury department has moved forward the time for obtaining tax rebates by big business which will add to the 30 billions of stored up funds now in the hands of the large corporations for peacetime expansion and production.

But no farsightedness has been apparent in planning for the reconversion of the millions of wartime workers held to their posts by manpower controls . . . at least no legislation has shown up on the statute books.

IMPROVED UNIFORM INTERNATIONAL

SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Of The Moody Bible Institute of Chicago.
Released by Western Newspaper Union.

Lesson for October 14

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

THE HOME FOSTERING CHRISTIAN IDEALS

LESSON TEXT—Deuteronomy 6:4-9; Luke 2 51, 52; Ephesians 5 22, 25; 6:1-4.

GOLDEN TEXT—Be ye kind one to another, tenderhearted, forgiving one another, even as God for Christ's sake hath forgiven you.—Ephesians 4 32.

"Juvenile delinquency" is an expression often heard in our day. It speaks of the awful way in which our boys and girls have gone astray spiritually and morally in recent years. Fortunately, we are beginning to realize that most of the blame falls on the parents. It is parental delinquency in the matter of proper rearing of the children which needs our earnest attention.

The home is the right place for the fostering of Christian principles of living, but all too often even Christian people have put that whole load on the Sunday school and church. They can help, but they cannot do the job which should be done in the home.

Home should be a place where:

I. God's Word Is Accepted (Deut. 6:4-9).

The Bible teaches us the truth about God and that is information of the highest value and usefulness in the home. He is our God, and He is one God. There is no other God, and at the same time this infinite and eternal One is very close to us—our God. How precious!

The acceptance of the truth concerning God draws forth our love toward Him. He is not like the heathen gods who cause only cringing fear. He loves us and we love Him, with all our might (v. 5).

This Word of God and the truth concerning Him should be the normal and natural subject of conversation in the home.

Any time, night or day, and anywhere, in the house or on the street, it should be as easy for a boy to talk to his father about God as to discuss his school work, or sports, or any other thing.

Let's make it a natural, normal, accepted thing that God and His Word are talked about in the home.

II. Growth Is Expected (Luke 2: 51, 52).

In the well-ordered home the child finds his place as Jesus did, as an obedient, well-mannered, co-operative member.

There, too, is the natural place for normal, well-balanced development. There must first be growth in wisdom. The mind and will must be in control, lest the physical get out of hand. They must develop, even as the body grows. Thus the growth of the body becomes not just an animal development, but one amenable to proper restraints, cultivated and poised for full usefulness.

But the home fails if it does not at the same time give the child a chance to grow "in favor with God and man." The boy Jesus continued to grow in gracious personality, with both God and man as the interested recipients of the fruits of His spiritual development.

Every home should be a Christian home and every Christian home should be a center of normal growth for children. This should give us cultured Christian men and women for the next generation.

III. Love Is Expressed (Eph. 5: 22, 25).

Love is not just a warm and tender feeling hidden away in the heart. It shows in the homely details of daily life in the home.

A Christian wife expresses her affection for her husband by giving him his God-appointed place as head of the house. There is a graceful and voluntary submission to God's plan for the home which makes for order and unity. Happy is the woman who seeks that place and lives in it! Her life will be blessed!

A Christian husband will learn to control that natural masculine tendency to dominate. He will study the gentle art of courtesy and kindly affection. He will love his wife as Christ loved the Church, and that means a willingness to both live and die for her.

Christianity really should show forth at its very best in the home but, alas, so often just the contrary is true! Let us get that thing straightened out and keep it right!

IV. Rights Are Respected (Eph. 61-4).

Mutual devotion between husband and wife, and mutual trust between parents and children—there we have the basis of a real God-honoring home.

We must give attention to the matter of a fair and full recognition of the rights of others. The parent who rides roughshod over the wills of his children need not profess to be a true follower of Christ. Likewise, children who are disobedient and insolent to their parents have no real testimony for Christ.

This business of being a Christian is real. It calls for right living everywhere, and that must begin at home. In the home the parent and child must both learn and live the high standards of Christ.

SEWING CIRCLE PATTERNS

Party Frock for Little Girls

HERE is an adorable party frock for your young daughter. It's so easy to make—cut all in one piece with drawstrings at neck, sleeves and waist. Make it in a pretty floral print and add gay velvet bows.

• • •

Pattern No 8883 is designed for sizes 1, 2, 3, 4, 5 and 6 years. Size 2 requires 1⅞ yards of 35 or 39-inch fabric; 5 yards ribbon to trim.

Due to an unusually large demand and the current conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

Send your order to:

SEWING CIRCLE PATTERN DEPT.

At That, the City Chap Wasn't Doing So Bad!

A city chap was fishing on the banks of a stream for several hours without as much as a nibble, when a country lad approached and asked, "How many fish ya got, Mister?"

To which the angler replied, "None, as yet."

"How long ya been fishin'?" asked the boy.

"Oh, I guess a couple of hours."

"That ain't bad," observed the the boy. "There was a feller fished here for two weeks and he didn't get any more than you did in a coupla hours."

And the fisherman could but remark, "You don't say!"

"STOPPED TAKING DAILY LAXATIVES

After 15 years' dosing now eat KELLOGG'S *ALL-BRAN*"

Constipated? Given up hope of finding lasting, gentle relief? Then read this unsolicited letter:—

"I am a rural letter carrier. For more than 15 years I used a laxative *every night*. About a year and a half ago a good friend suggested that I try KELLOGG'S ALL-BRAN. I did so—with the result that I have *not taken a pill since*. I eat ALL-BRAN generously every day. I find it a great help." John H. Martin, Westminster, Maryland.

Wouldn't you like to be able to be regular without *ever* resorting to harsh laxatives again? You may — if your constipation is due to lack of bulk in the diet! Just eat a dish of delicious KELLOGG'S ALL-BRAN every day, and drink plenty of water! If not satisfied, send empty carton to Kellogg's of Battle Creek. You'll receive *double the money you paid for it!* ALL-BRAN is *not* a purgative. It's a naturally regulating food made from the *vital outer layers* of wheat. It provides gentle-acting bulk that promotes *normal*, easy laxation.

Get this delicious food at your grocer's. Ask for KELLOGG'S ALL-BRAN, the cereal that brings lasting relief to millions. Made by Kellogg's of Battle Creek and Omaha.

Here's why

NO ENGINE is Complete without an OIL FILTER

ENROLL and Help 4-H To Grow . . .

An organization of 1,7000,000 members—30,000 of whom are in Iowa— is fundamentally sound. We are proud to know many 4H members in Hancock County. We know they have high ideals, that they think straight and act decisively.

4-members are Builders.— They build for themselves and their community. The slogan, "To Make the Best Better" means that all the good things today are better things tomorrow.

4-H members are cooperators. They work together to strengthen their clubs. Because leadership is voluntary the members cooperate to hold up their end of the club program.

4-H members are friendly. The bonds of friendship bring members together. The spirit of friendship holds them together. Friendship prevails when competition is keen and when defeat is bitter.

4-H members develop spiritually, morally, physically, and socially.

THE SPIRIT OF 4H LIVES IN THE PLEDGE:

I Pledge . . .

My head to clearer thinking
My heart to greater loyalty
My hands to larger service
and
My health to better living
For my club, my community,
my country and my world.

IN THE SAME SPIRIT WE PLEDGE OUR CONTINUED SUPPORT TO THE 4H CLUBS OF THIS COUNTY IN THE DRIVE FOR MORE MEMBERS.

Central States Electric Co.

1945 QUAIL SEASON OPEN 45 DAYS FROM NOVEMBER 1

Open Counties All In South Part Of The State

The 1945 quail season has been announced and is open in 49 of Iowa's 99 counties, 13 more than in 1944. The counties have been divided into long and short season counties. In the 36 long season counties the dates have been set from November 1 to December 15, both dates inclusive. In the 13 short season counties the season is open 15 days, from November 1 to 15 inclusive. Bag and possession limits are eight days as in the past, and shooting hours are from 8 30 a. m. to 5:30 p. m. The counties open for 45 days include:

Madison, Warren, Marion, Mahaska, Keokuk. Washington, Louisa, Union, Clarke, Lucas, Monroe, Wapello, Jefferson, Henry, Taylor, Des Moines, Ringgold, Decatur, Wayne, Appancose, Davis, Van Buren, Lee, Johnson, Muscatine, Cedar, Scott, Clinton, Linn, Jones, Jackson, Delaware, Dallas, Polk, Adams and Page

The counties open for 15 days include:

Fayette, Buchanan, Benton, Iowa, Poweshiek, Jasper, Guthrie, Adair, Pottawattamie, Mills, Montgomery, Fremont

The 1945 quail census indicates the largest quail population in modern times.

BIG CROWD SEES BLASTING DEMONSTRATION HERE

About three hundred farmers and other interested parties witnessed the ditching with dynamite demonstration at the Carl Wille farm south of Klemme Tuesday forenoon when 500 foot long drainage ditch was built in one blast. Holes were first drilled 18 inches apart along the proposed ditch and dynamite charges set in each and the ditch was then excavated by blasting.

A representative of the DuPont Co. was in charge of the demonstration which was put on through the efforts of Paul Henderson, County Extension Director. The DuPont representative called at The Times office later and thanked us for the publicity in last week's paper that brought out such a big crowd in such a busy season.

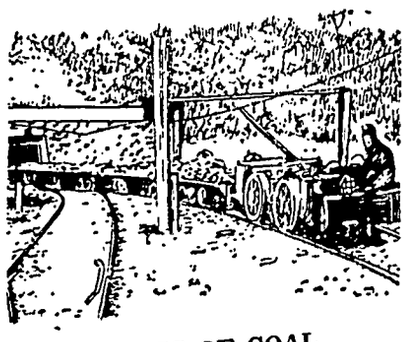
SHOE RATIONING MUST STAY SAYS AL MATHES

Shoe rationing must continue for a time until production more nearly equals unrestricted demand, according to Al Mathes, state rationing chief for the OPA district office at Des Moines.

Mathes pointed out that shoe production is not expected to exceed 23 million pair for September which is below the estimated consumer demand. In view of current low inventories it is considered inadvisable to remove shoes from rationing at this time.

Behind Your Bonds

Lies the Might of America



MILES OF COAL

Nearly 55 million tons of coal lie under Oklahoma, the workable area covering 10,000 square miles. Mining began in 1872 and reached its peak of 4,848,288 tons in 1920. Long after the oil supply may dwindle, coal will still be a major asset in the state. Our National assets are the assets behind Victory Bonds.

U. S. Treasury Department

WHILE reconnoitering at night on the western front, Sergt. Arthur G. Volonte, New York City, stumbled into a German patrol consisting of an officer and seven men. Sergt. Volonte told the officer that they were surrounded and the Nazis followed him back to the American commander. The sergeant has been awarded a Silver Star for gallantry. Americans buy War Bonds to help men like that to win this war. *U. S. Treasury Department*

To the People of this Community

Thanksgiving is in the air. The spirit of the Good Provider hugs you warmly. What better time or reason to buy another extra Victory Bond, the good provider of the future? As you sit around the festive table this year, last year of world peace since 1939, remember the millions of men and women still in uniform in strange lands In Germany about 2,500,000 Americans will be separated on this family holiday from fathers, mothers, brothers, sisters, wives, sweethearts and children. Every extra Victory Bond is a link between home and the Tokyo or Berlin patrol.

There's self-interest in your purchase of any extra bond today but there's service to your country too. You have most to gain by ownership of as many Victory Bonds as you can possibly buy. You guarantee yourself a better chance for personal peace and prosperity. You also help your government to pay the war costs and return home of men and women who will be badly missed Thanksgiving Day in your own home and your neighbor's home.

THE EDITOR

B. E. MISSMAN PROMOTED TO LIEUTENANT-COMMANDER

As the Times goes to press, we learn that Byrnes E. Missman, son of Dr W. F. Missman, was recently promoted from Lieutenant (s.g.) to Lieutenant-Commander in the U. S Navy.

More Klemme Servicemen Are On Way Home

Asa R. Arnold, Leon Lemke and Paul Haefner all arrived in the United States Saturday and are on their way home, and are expected any day now.

Sgt Walter Kletzbach arrived home Friday from overseas and expects to get his discharge soon.

Lt. Lyle Wilcox has received his discharge, and with his wife, are now on their way home from Alexandria, La.

Alvin Bachman received his discharge a short time ago.

"Bill" Sandrey received his discharge several days ago and is now helping his uncle, Harry Sandrey with farm work.

The boys are beginning to come home and it is good to see them around here again.

CORN CEILINGS STAY PUT SAYS OPA OFFICIAL

In answer to many rumors regarding a possible increase in the ceiling price on corn, OPA officials have emphasized again that current corn prices reflect fully parity to the producer and no ceiling increases are contemplated.

Walter Kline, state OPA director, also issued a warning to farmers to beware of "Outside" buyers who offer over-ceiling prices.

INTER-CHURCH SCHOOL CONVENTION HELD FRIDAY

Emil Beier, Klemme President For The Coming Year

The Hancock - Winnebago County Inter-Church School Convention was held October 12 at the United Presbyterian Church at Garner Rev E. W Ulrich, the state worker, brought a highly spiritual note to the day by his inspiring address and helps. The program was carried out as planned with Mrs. Orvis Shillington of Clarion as leader of the Children's work and church school workers of the county leading discussions Special music was furnished by Rev. E. W. Lindgren of Britt in "Moments With Great Hymns," and Mr. Clark Pollock of Garner, singing "Open The Gates of the Temple." Fifiteen churches were represented with an attendance of 54 delegates. The convention recommended that the ministerial association investigate weekday religious education classes.

A social hour with a pot-luck lunch served by the ladies of the United Presbyterian church was enjoyed at noon.

E. G. Beier Elected President

The following officers were elected as the County Council for the new year:

Pres. Emil Beier, Klemme.

Vice Presidents:

Olaf Swanson, Forest City.

John Chambers, Klemme.

Rev. Herbert Kelly, Britt.

Rev. H C. Shrout, Britt.

Secretary - Treasurer: Miss Alice Klippel, Britt.

Children's Division Superintendent: Mrs. Sam Vander Ploeg, of Goodell.

Young People's Division Supt.: Rev Carlton Spencer, Goodell.

Adult Division Supt.: Mrs. Clark Pollock Garner.

Administration Division Supt.: Mrs. H. H. Stewart, Kanawha.

Leadership Training Supt.: Rev. Leo Wilson, Stilson.

—Miss Alice Klippel.

NEWLY-WEDS HONORED AT RECEPTION HELD SUNDAY

A reception was held at the Community Hall Sunday afternoon in honor of Mr. and Mrs. Leonard Kaduce, who were recently married.

A large number of relatives of both Mr. and Mrs. Kaduce were present to enjoy a program of singing, talks and a mock wedding. Mrs. H. G. Voetberg acted as mistress of ceremonies.

The young couple received gifts and congratulations and best wishes. After the social hour a nice lunch was served.

On Thursday evening a large crowd of young people gave Mr. and Mrs. Kaduce a charivari which proved successful for the merrymakers who were sent to town for treats.

Date Set For Annual Farm Bureau Meeting

FRIEDOW & SONS SALE IS THIS THURSDAY NIGHT

Floyd Friedow & Sons are holding a sale of 35 Poland China boars and 5 gilts at their farm 7 miles west of Klemme this Thursday evening, beginning at 7:30 o'clock.

Mr Friedow and sons have specialized in pure bred hogs for several years and have some of the best Poland Chinas in this part of the state.

SOYBEAN HARVEST UNDER FULL SWING IN HANCOCK

The soybean harvest is in full swing in Hancock County, with most farmers reporting good yields of beans with some damage from frost in the low places. Moisture content is getting down in the soybeans and reports coming in indicate the beans are from 12 to 20 per cent over the county. Some of the beans brought to Klemme tested as low as 11 per cent moisture The higher moisture content beans are mostly from lower ground.

Some of the beans were caught by the frost, but they still can be combined. These should be moved to market in a hurry to prevent spoilage.

STUDY CIRCLE MET AT THE WELLEMEYER HOME

Mrs. Arthur Wellemeyer was hostess to the Study Circle of the Methodist W. S. C. S. on Thursday afternoon, October 11th.

Mrs. Elmer Arnold opened the meeting with the history of the hymn, "Beautiful Isle of Somewhere,"which was followed by a duet when Mrs. George Schoenwetter and Mrs. Dwight Hummel sang the hymn. Devotions were in charge of Mrs. Frank Ward who gave the sixth chapter of "Christ's Secret in Happiness" Chapter six of "The Indian in American Life" was presented by Mrs Arnold.

Twenty-five members were present and three visitors.

Mrs. Wellemeyer served a delicious lunch after the meeting.

John Neuberger Celebrated His 77th Birthday On Columbus Day

Chris Columbus discovered America and 376 years later on Oct 12 John Neuberger arrived That is why the calendar had a red date this month. Friday was John's 77th birthday, but on Saturday the Merlin Neuberger family brought in a nice big fish that Merlin had caught in Minnesota, and a fish dinner was enjoyed by Mr and Mrs. John Neuberger and daughters Ruth and Faye, and Mr. and Mrs Merlin Neuberger and Dean.

Friday evening Walter Blumer and family entertained Mr. and Mrs. Neuberger at a party at the Avery theatre.

Phone your news to 12.

Behind Your Bonds

Lies the Might of America

GRAND CANYON

Since John Wesley Powell navigated the Colorado River in 1869, thousands have gone to the Grand Canyon in Arizona to marvel at its grandeur and enjoy the thrills of burro trips into the gorge. Plane trips have added to the resort's popularity. Grand Canyon is another exhibit of our Nation's wealth behind Victory Bonds.

U. S. Treasury Department

ANNUAL COUNTY FARM BUREAU MEETING OCT. 25

Mrs. Raymond Sayre To Speak At Annual Gathering

Mrs. Raymond Sayre, Iowa Farm Bureau Federation women's chairman, will speak at the annual Hancock County Farm Bureau meeting to be held in the Garner High School auditorium, Thursday, October 25 at 8:00 p. m

Mrs. Sayre is also vice president of the associated women of the American Farm Bureau Federation

She was a member of the school code commission which prepared suggested code revision for Iowa school laws.

Mrs. Sayre is widely sought as a speaker at meetings. Her audiences enjoy and profit from what she has to say.

Election of county Farm Bureau officers will be held at this time.

County Farm Bureau resolutions will be presented for discussion and adoption.

Promptly at 8:00 a colored travel film, "Wheels Across India," will be shown.

A lunch and social hour will follow the business meeting.

LIBERTY FARM BUREAU MEETING HELD OCT. 11

Virgil Matz, Leah Rae Haberkamp, Bethel Haberkamp, Jo Ann Greiman, Clayton Greiman, Jeanetta Greiman, Susan Haberkamp, Mickey Brouwer and Beulah Ann Matz, pupils of Liberty School No. 1, under the direction of their teacher, Mrs. Charlotte Busch, presented a program at the Liberty Farm Bureau meeting, Thursday evening, October 11.

...ship chairman reports election of ...hip chairman, reports eelction of ...wnship officers resulted as fol...lows: director, Frank Bredlow; chairman, Clarence Lenz; secretary, Mrs. Kenneth Schulz; women's chairman, Mrs Aaron Stromer; vice chairman, Mrs. Lionel Rutz.

Charles F. Jackson presented some suggestions for the resolutions committee to act on.

Brief remarks were given by Paul Henderson in regard to "What's Ahead for the Livestock Farmer."

Hazel Grimes presented an outline of the women's program as prepared by the county committee.

The meeting closed with a lunch and social hour.

FARM BUREAU CALENDAR OF EVENTS

"NO MORE TROUBLE WITH CONSTIPATION!"

Says Long-Time Sufferer Who Tried KELLOGG'S ALL-BRAN

If you, too, are disappointed with pills and purgatives, be sure to read this unsolicited letter:

"For several years I was afflicted with common constipation. I tried various remedies, but got only temporary relief. Several months ago, I started eating KELLOGG'S ALL-BRAN each morning, drinking water regularly through the day. I have since never had the slightest trouble with constipation. My gratitude to KELLOGG'S ALL-BRAN." Mr. H. M. Riley, 11 E. Division Street, Chicago, Ill.

Do you want to be free of harsh laxatives for the rest of your life? If you may be, if your constipation is due to lack of bulk in the diet! Just eat a dish of KELLOGG'S ALL-BRAN and drink plenty of water every day! If not satisfied, send the empty carton to Kellogg's in Battle Creek. *Double the money you paid for it will be paid to you.* ALL-BRAN is not a purgative. It is a delicious cereal made from the *vital outer layers* of wheat. It is one of nature's most effective sources of gentle-acting bulk, which helps support normal laxation!

Get ALL-BRAN at your grocer's today. ALL-BRAN is made by Kellogg's of Battle Creek and Omaha.

SNAPPY FACTS about RUBBER

Although the Germans manufactured and used synthetic rubber in volume long before America, a general superiority of the American synthetic rubber over the German product has been established by technologists.

To obtain enough rubber to make a tire for a low-priced car, two rubber trees must be tapped for a whole year.

Longer, more uniform tire life, constant goal of tire manufacturers, is now being achieved through use of a new type of synthetic rubber developed by B. F. Goodrich.

Steering wheels of post-war cars may be cushioned with a covering of synthetic rubber.

USE ONLY AS DIRECTED

Have You Tried PINEHURST CIGARETTES with Gin-Seng Extract?

Treat yourself to the pleasure of this smoke—a smooth, mellow, mild cigarette—made of selected tobaccos, skillfully blended to the popular American taste. Pinehurst is truly one of America's standard cigarettes—not a substitute substitute—enjoyed for years by smokers who demand satisfaction in their cigarettes. Pinehurst's exclusive Patented Panax Process employs the use of Gin-Seng root for modern moisture conditioning—the only cigarette permitted to do so.

The use of Gin-Seng Extract as a therapeutic agent is an exclusive, patented process of this Company. The soothing features of Gin-Seng Extract help to relieve dry throat, cigarette cough and other irritations due to smoking. These cigarettes may be found much more pleasant and safe for those ordinary colds and other respiratory difficulties such as hay fever, asthma, etc.

By DREW PEARSON

EISENHOWER AND RUSSIANS

Gen. Dwight Eisenhower, a real diplomat, has been making progress toward friendship with the Russians, but got a setback the other day.

U. S. officials entering Eisenhower's office found him despondent. He was holding a copy of Time magazine.

"Look at that," he said, "six weeks' work gone."

Eisenhower pointed to a picture of a female entertainer in a Berlin night club standing on her head, legs apart, holding a picture of Stalin between them. Time had reproduced the picture.

"And just as I was making some progress with Marshal Zhukov," Eisenhower mourned "First he would scarcely see me. But recently we have become pretty good friends. When I go into his office he says, 'Here's to Ike.' "

Eisenhower went on to tell how Zhukov was blazing mad over the Time magazine picture He had just come from seeing the Russian commander who had demanded·

"What are you going to do about this?"

"Nothing," replied Eisenhower.

"What! You let the American press make mockery of the marshal?" exclaimed Zhukov.

"That's what we fought the war for—the right to criticize, the right for people to say what they please," said Eisenhower.

Eisenhower went on to explain to the Russian that because one newspaper or magazine published a picture of Stalin, it did not reflect the sentiment of either the American government or the American people, and that the American government scrupulously refrained from censoring the press on matters of this kind.

However, the Russians continue to be sensitive. It is hard for them to understand the difference between a regulated press as in the Soviet and a free press as in the U. S. A.

NEW SUPREME COURT JUSTICE

President Truman really let his hair down with Senator Burton when he called him in last week to tell him he was being nominated to the Supreme court.

Catching Burton just before the Ohio senator was about to leave for Cincinnati, Truman told him that he had actually promised the Supreme court job to another man, Robert Patterson, now secretary of war, but changed his mind.

"Harold," said Truman at the start of the interview, "I've made up my mind to appoint you to the Supreme court.

"You were always my first choice," Truman continued, "but I had some vacillations. I considered appointing Phillips of Denver, Parker of North Carolina and Patterson.

"Finally I decided to appoint Patterson and told him I was going to appoint him "

Truman then explained that it was better to leave Patterson in the war department to replace Stimson as secretary of war.

"One of the things that disturbed me about your appointment," Truman continued, "was the probable claim that I might be playing politics in order to get a Democratic senator from Ohio." (Truman had in mind the fact that Governor Lausche of Ohio, a Democrat, now can appoint a Democratic senator to replace Burton, a Republican)

"So I talked it over with Alben Barkley," Truman explained, "and he advised that if I was convinced you were the right man, I should appoint you and let political consequences go hang."

Note—Truman had picked up Senator Barkley at Paducah, Ky., the evening before and flown him back to Washington in his special plane, at which time they had conferred regarding the Burton appointment. Truman, incidentally, seems to be leaning more and more on sage, experienced Barkley for advice.

* * *

CAPITAL CHAFF

¶ President Truman still keeps up his rapid-fire early-morning appointment pace, sees as many as 15 visitors before lunch. Greek Publisher Basil Vlavianos visited Truman the other day, caught him sneaking a yawn and long stretch between callers.

¶ A new breath of fresh air in the post office department: Gael E. Sullivan of Chicago, assistant postmaster general.

¶ Visitors to the Franklin Roosevelt Memorial library at Hyde Park have doubled since the late President's death. Mrs. Roosevelt gave each of Henry Morgenthau's children a trinket from the former chief executive's desk as a memento.

¶ When Nelson Rockefeller was eased out of the state department, workers in that building were startled to see truckers removing the furniture from his office. He had furnished his suite with his own furniture. When the truck pulled away, even the chandeliers, which were Rockefeller's personal property, had been taken.

¶ Suggestion to Paul McNutt—check on why General MacArthur and Philippine President Osmena permitted so many Jap collaborationists to keep high office in Manila since liberation of the Philippines.

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try *Doan's Pills*. *Doan's* help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. *Ask your neighbor!*

DOAN'S PILLS

LOG OF A MAN IN QUEST OF BETTER FISHING

1.—Man who has the ambitions of Mike Lerner but not the time, equipment or information, tires of fairly good fishing in his own area at Indian river.

2.—News of big run of stripers at Wahoo beach 300 miles away, coupled with pictures of man who got a 40-pounder there last week, causes him to decide to pack immediately and leave home grounds, where only snapper blues have been biting.

3.—Start of trip delayed by long job of packing outboard motor, extra rods, tackle boxes, slickers, boots, gear of all kinds, utility clothing, etc. Drives 80 miles for first stop at Kickapoo Inlet. Finds bass were there last week, but are far away now. Asks if anything is running and gets answer: "Small snapper blues."

4.—Drives 50 miles to Big Horse Cove, well-known striped bass grounds. Sees numerous boats in bay. Rushes eagerly to boathouse and asks "What's doing in stripers?" Gets answer: "You know how bass are?" Replies: "No. How are they?" Is told: "Ain't heard of one caught in ten days. Nice run of snapper blues, though."

5.—Calls it a day and spends night deploring the luck. Starts early next morning for Roaring Rip, 60 miles away, on a report a feller got 20 nice ones, ranging up to 35 pounds, a few days ago. Finds bridge and beaches crowded with people getting snapper blues. "Any bass?" "Not lately. Ought to be good next month."

6.—Remembers hearing of a striped bass fishermen's paradise at Killikowowie Point, always good in October Drives 100 miles more. Finds famous guide, Stew Woodson, half asleep in a skiff in a small inlet. "How's the stripers?" "You're late. They was here last week. Nice run of snappers now." Asks Stew if any reports of stripers at other points. "Chet Baker got over half a hundred big ones four days ago at Winnepesaukee Ledge," is reply.

7.—Gets up at daybreak next morning and drives 90 miles to Winnepesaukee Ledge. Not a surf-caster around anywhere. Boats all at moorings. "Ain't been a striper took in last three days," says the guide. "School moved to Mulligans Bay, I guess. Snapper blues runnin' as big as six inches."

8.—Consults map and finds he is within 150 miles of Razzeldazzle harbor, famed for its stripers. Decides he might as well try it there. Reaches there at sunset. No bass in six weeks. Guides look for 'em around November this year. (But snappers are in!)

9.—Reaches home weak, sore and disgusted. Crossing iron bridge over Indian river, two miles from his own house, sees Ernie Perry and Ed Dudek casting for stripers. "Any luck?" he asks. "Boy, where've you been?" is reply. "Best run of stripers this season here for last five days."

10 —Throws outboard motor, fishing gear, maps, etc., into river and shoots self.

* * *

THE TROLLEY CAR PASSES.

New York City, one of the last strongholds of the surface car, announces that they will be removed from the streets by January 1. We, for one, feel a little sad, not only to see the trolley car pass from the streets of Gotham but from any other place. It was a symbol of a happier, more philosophical and more comfortable America.

—*—

The swifter, more up to date and less restricted bus has replaced it all over the land, but to us a bus is as satisfactory a substitute for a trolley as a witch's broom would be for a ride on a cloud.

—*—

Not that we have been on a trolley in years. We don't remember the last time, but our childhood memories of the trolley ride are bright and glamorous. We can recall trolley cars on the Sylvan avenue line back home that we loved And trolleys on the run from Merwin's beach, miles through a leafy passage by Woody Crest, Rocky Ledge, Prospect Beach and West Haven that still seems like something out of a fairy tale.

—*—

We have a particularly soft spot for the first trolley we ever remember. Grandma took us for a ride. It was winter. And it had a stove in the center and a conductor with side whiskers who put in a shovel of coal now and then.

* * *

An American congressman urges that we introduce baseball to the Russians. Can you imagine what would happen under Stalin to a pitcher who pitched his own way?

* * *

Can You Remember—

Away back when a small steak sold for 40 cents instead of $3.50?

* * *

Our big job is to select the war criminals of Japan. It would be a lot easier to pick the ones who are not.

Natives Found Corporal's Bite Worse Than His Bark

A corporal in New Guinea proved that his bite was worse than his bark when he put his teeth into his dealings with natives.

When the natives refused to take their work for the army quartermaster corps seriously, the corporal released an angry tirade—with such vigor that his false teeth fell to the ground.

"The incident," the army gravely reports, "caused great concern among the natives. The corporal was looked upon with respect and awe, and his orders were obeyed."

Beware Coughs from common colds That Hang On

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

DEATH IN THE CORNFIELD

The corn picker is a harmless machine if it is operated right. But for a careless operator or a careless workman it can become a most vicious killer!

Farm accident figures don't make pretty reading, but these are the facts: One out of every ten farm accidents in Iowa are corn picker accidents. During October, November and December, from one-third to one-fifth of the farm accidents can be charged to the mechanical corn picker.

Too often men are killed. Loose clothing or glove is caught in the moving snapping rolls, and often the machine crushes it's victim to death Sometimes only the fingers or a hand, and perhaps an arm is lost But that's a serious blow to any farm worker.

Most men know the precautions to be followed in operating a corn picker. They know the dangers of uncovered power drives. They know the rule about stopping the machine before making adjustments or removing clogged parts. They know about keeping gears and chains covered. They know that the manufacturer has placed warning signs on dangerous places.

But corn picking often is a rush job. It's easy to forget all these precautions, and maybe a minute or two will be saved. Minutes do not mean so much to the man who lies in the hospital recovering from an accident, and who must to use an artificial hand. And they to use a artificial hand. And they don't mean much to families of men who are killed . . . taking a long chance to save one or two minutes.

NORTH IOWA SCENERY NOW AT IT'S BEST

The Editor and wife had an occasion to make a trip to Cresco and selected Sunday as the day to journey to that north-eastern Iowa town.

We drove north to Forest City and then followed Highway 9 thru Manly, Osage and on to Cresco, a little more than 100 miles from Klemme This is a rather scenic highway and at this time of the year the light frosts have turned the oaks, basswoods, hard maples, elms, sumacs, into a riot of gorgeous color . . . that no artist could possibly picture on canvas.

Oaks and hard maples abound along Highway 9 and appear in their native state in small clumps and fair-sized plots of timber. The colors range through all the various tints of yellow and orange, from pink to deep red, light tans, to deep browns, and of course with various hues of green still in evidence.

We decided that October would be the ideal month in which to take a vacation, and Iowa is the ideal state in which to see the wonders of nature at it's best.

Our trip home took us through New Hampton, Charles City and Mason City along Highway 18, but it was getting dark and much of the beautiful scenery around New Hampton and Charles City, was lost for lack of light.

* * *

And to you boys and girls who live on the farm . . . to you we want to say, and urge you to join up with a 4-H club during the October membership drive. We think the 4-H is a mighty fine organization and you can feel very proud to be a member of the best and largest youth organization of its kind in the world. We say to every farm boy and girl "Join Up in October!"

* * *

If you are truly thankful that the war is over, you will show the greatness of your thanks by the amount of Victory Bonds you purchase during the coming drive. Make it your Thanksgiving offering that will return you dividens.

Total U. S. production of farm machinery in 1944 was valued at more than $1,080,000,000, compared with $552,000,000 in 1929.

WARRANT OFFICER BUSEMAN AT SANTA ANA, CAL.

SANTA ANA, CALIF.—Warrant Officer Franklyn Buseman, husband of Marilyn Back Buseman, and son of Mr. and Mrs. Henry Buseman of near Klemme, was honorably discharged from the separation base maintained here by the Army Air Forces.

W-O Buseman is a veteran of 55 months of service in the Army Air Forces. He served in England in his 30 months overseas.

Mr. and Mrs. Buseman returned to Klemme the first of the week.

War heroes have been decorated with medals of honor ever since Biblical times. The Jewish general Jonathan, for example, was awarded a gold button for military bravery in the 3rd century B. C.

Around Iowa

One Man Job

Mike Mead, 64, a veteran of World War I, is building himself a house in Waverly. He is doing virtually the entire work himself—he excavated for a basement with a spade, he made his concrete mixing equipment and made cement blocks and now has the rafters set. It was only with the roof beams and rafters that he had one day's help of one man.

Ever See Potato Seed

Ralph Thayer, farmer near Belmond, brought to town a curiosity in the form of a potato vine with appurtenances resembling small tomatoes. The Belmond Independent points out that this phenomenon occurs every eight or nine years on potato land. The things that look like tomatoes are actually potato seed balls containing from 50 to 500 seeds. Often there are from 60 to 70 varieties of potatoes represented in the seed balls

Good Place for Roasting

A perfectly formed potato about the size of a hen's egg was found growing inside the hollow of a piece of scrap iron in the garden of Cy Strayer of Ocheydan. It was quite evident the tuber had reached its greatest possible size because it filled the entire cavity of the scrap iron and was tightly imbedded.

Nicely Scaled, Too

Bert Bishop, of Osceola, has a new twist to the fish story ending —"but they got away". Seems that Bert and his wife were fishing on a northern Iowa lake and had caught a nice string of fish when they decided to call it a day. Bert gave the outboard motor a whirl to start it and, zip!—the propellor neatly sliced the string on which the fish were strung. They sadly watched the day's catch disappear from sight.

Corn Bomb Hits Japan

In one of the last carrier strikes against Toyko, Lt. Comm. R. E. Brown, USN, Creston, Iowa, had the satisfaction of fulfilling a pledge made to a Creston man, True LeMasters. He dropped a sack of Creston corn from a plane on a Tokyo airfield. He reported he had more trouble getting the corn past the California crop and plant inspection authorities than he did in planting it on the Japanese airfield.

Don't Overwork a Tool

A pitchfork can stab a man even though it is not in anybody's hands at the time. This is what happened to Albert Hagen of Glenwood who had set out to help a farmer do some stacking. Returning home, Hagen placed the fork in the back of his car which got out of control on a hill and overturned in a ditch. In the accident, Hagen was pierced in the back by the fork.

Fox Hunter

Donald Dockendorff of New London may not use the usual procedure for hunting foxes but he gets his animal anyway. Recently, he saw a fox coming up the road. Evidently the animal became blinded by the car lights and started down the center of the road. Dockendorff took out after him and now has avenged a chicken that was caught in his farm yard. Donald was unable to shoot the fox as it caught the chicken because of hogs and other stock in the yard.

Has His Cows, Anyhow

Decision of John Kirker, farmer near Montezuma, not to do the milking when he saw the sky threatening with approaching storm, probably saved him his life one day recently. He had returned to his house and was at supper when the storm came. Lightning struck the barn, killing a mule, burned the barn and destroyed much hay and harness.

Practical Education

Indianola high school has established a part-time cooperative, diversified occupation program in its vocational work department. This permits seniors, after completing regular vocational study work required by the course, to spend twenty hours a week in some store, factory or other industry to gain practical experience. Fifteen of such work-hours must be during the school periods and all youths must be 16 years or over to participate.

HELLO, FOLKS!

Mr. and Mrs. Karl Huenemann, of Klemme, are the parents of an 8 lbs. 9 oz. son born to them at the Mercy hospital, Mason City, on Friday, October 12th, 1945.

SCHOUN CAR HIT BY TRUCK CARRYING WAR PRISONERS

Frank Schoun, Duncan, member of the Hancock County Board of Supervisors, escaped injury early Saturday morning when his car was truck by a truck transporting German prisoners of war to Clear Lake to work on the Sam Kennedy vegetable farm.

The accident occured west of Garner when the Schoun car was struck in the rear when Schoun was making a turn to go into the yard at the county home. Schoun's car was upset in the ditch and was badly damaged but none was injured

---

LICENSES FOR EXPLOSIVES NO LONGER REQUIRED

County Clerk Elmer Raw telephoned The Times Tuesday that according to an official ruling he had just received, that it is no longer necessary to come to his office to secure a permit to purchase dynamite and other explosives.

Farmers, and others, who may require dynamite and other explosives, may now go direct to the dealer and make the purchase without the license formerly required.

'OPA" PRICE TAG TO APPEAR ON GOODS

The words "OPA Price" instead of "Ceiling Price" soon will appear on a large part of the merchandise sold in retail stores. Effective October 1th any retailer of goods other than foods will be permitted to mark merchandise with words 'OPA Price" wherever individual marking is required. To the shopper this will mean that the article is being sold at an OPA-approved price.

Lt. "Toky" Ahrenkeil Completes Physical Training Course

Lt. T. G. Ahrenkeil, of Goodell, recently was graduated in a special course of physical training at Lexington, Va, and has returned to camp at Victorville, Cal, where he is physical training instructor.

TEACHERS EXAMINATIONS

Examinations for uniform county teachers' certificates will be given at the court house in Garner, on Wednesday, Thursday, and Friday, October 24, 25, and 26, beginning at 9 a. m.

—Chas. S. Whitney, Co. Supt.

At present approximately 80 per cent of all tooth brushes are made from nylon bristles

SCHOOL NEWS

SENIOR CLASS NEWS
—Ruth Bell

We now have a new teacher for Sociology and American History. His name is Mr. Rector.

This is the sixth week of school so all of us have been studying real hard for tests.

Thursday we had a high school assembly period singing.

Mr. Kingery has been appointed our class sponsor. We plan to hold our class election next week.

JUNIOR CLASS NEWS
—Emily Lou Johnson

This week everyone is studying hard for their six weeks tests We all have our fingers crossed hoping the tests will be easy. Thursday morning we had our Economics test and in the afternoon we had our typing tests. Friday a m we had our Literature and Sociology tests.

Monday morning we got our new Sociology teacher, Mr. Rector.

We are still studying hard for our class play. We seem to be progressing very rapidly.

SOPHOMORE CLASS NEWS
—Ben Katuin

On Friday, October 12th, the Sophomore class met in the Science room and held an election of class officers. The results were as follows Billy Lacey, president; Ralph Nuehring, vice president; Derwin Wille, Secretary; Laverne Lewis, Treasurer; and Ben Katuin, Reporter.

This week we have a new teacher, Lt. William Rector, now discharged from the army. He will teach our Biology and World History classes.

We are now waiting for our report cards to see what our standing for the first six weeks will be.

SEVENTH AND EIGHTH GRADE NEWS
—Willis Bock, Reporter

This week was the last week of our first six weeks of school and we have been busy taking tests.

In Art we made Hallowe'en posters and decorations

The following people received one hundred in Spelling:

7th Grade: Sondra Bridges, La Nelle Harvey, and Nellie Greiman.

8th Grade: Lillian Wille, Gloria Haefner.

FIFTH AND SIXTH GRADE NEWS
Mrs. F. G. Voetberg, Teacher

Neva Ann Anderson and Janice Carpenter were absent part of last week

Those people having a perfect attendance record in grade five are Billy Waddingham, Kay Jacobs, John Bisom, Lu Verne Heginger, Eric Meyer, and Sharon Bridges.

Those people having a perfect attendance record in grade six are Maralee Ridder, Lyle Goll, Maxine Barz, Richard Tiggerman, Maurice Jacobs, Iris Schaefer and Delores Thieman.

Friday we read one of our travel letters sent from Mexico. We added some Mexican words to our vocabularies, such as: hcainda, sarape and sombreros All of us decided that some day we would enjoy a visit to Mexico City.

Each week we have a new letter sent from some other part of the world.

THIRD AND FOURTH GRADE NEWS
Mary Jane Holmes, Teacher

Friday was the end of the first six weeks of school. We took some six weeks tests in our room.

The Third and Fourth Graders are proud of the fact that none of us were tardy during the first six weeks.

The following people were not absent during the six weeks:

Cecil Jacobs, Le Roy Josten
Terry Koerner Ronald Karsjens
Donald Thieman Dennis Ridder
Lois Boland Thos. Waddingham
Faye Janssen Lois Ann Jacobs
Adeline Medaus Daisy Schaefer
Margaret Medaus
Carole Ann Montgomery

Last Monday Lois Boland treated our room to popcorn balls. It was Lois' seventh birthday.

FIRST AND SECOND GRADE SCHOOL NEWS
Miss Halfwassen, Teacher

The following pupils of the First and Second Grades have been neither absent or tardy for the first six weeks of school:

First Grade:

Gary Baack Connie Jo Bisom
Berleen Bridges Martin Brinkman
Carl Heginger Linda Malley
LaVohn Josten Marvin Josten
Janice Stokesbary Eva Thieman
Sharleen Swanson and Barbara Thompson.

Second Grade:

Dennis Haefner Jimmy Karsjens
Margaret Haefner Ione Rosendahl
David Waddingham

Kay Joyce Hampel of Garner visited our room Monday.

Margaret Haefner, Roger Bachman, David Waddingham, Ione Rosendahl and Warren Terhufen, are pupils of the Second Grade receiving 100 in Spelling for this week.

KINDERGARTEN NEWS
Mrs. Leonard Kaduce, Teacher

Jeanne Barz, Joyce Lassahn, Michael Malley, Diana Masterson, Sandra Medin, Rosalee Rosendahl, and Linda Swalve have had perfect attendance during the first 6 weeks of Kindergarten.

Kay Hampel visited our room Thursday and Friday. She came to school with Sharleen Swanson who is in the first grade.

FUNERAL SERVICES HELD MONDAY FOR PAUL KEMP

Goodell Farmer Died Friday After Retiring From Farm

Funeral services were held Monday at the St John's church in Belmond for Paul Kemp, 59, who died Friday afternoon at his home in Goodell, after a year's illness.

For the past 30 years he had farmed near Goodell. Mr and Mrs Kemp had just moved to their newly remodeled home in Goodell last Wednesday from the farm north of town.

Mr. Kemp leaves his wife, three brothers and one sister.

Mrs. W. F. Missman Entertained Bridge Club Thursday

Mrs W F Missman was hostess to the U-Delt-Em bridge club at her home Thursday afternoon.

Mrs. A. J. Kudje won the high score; Mrs. A. L. Kingery, second and Mrs Edna Thada, third.

WEEKLY NEWS ANALYSIS

Chart Economic Reform for Japs; Back Vets' Rights to Old Jobs; U.S. Acts to Settle Oil Strike

Released by Western Newspaper Union

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Out on strike of elevator operators' union in New York, girls picket Empire State building As a result of walkout, thousands of workers were forced to toil up flights of staircases to reach offices.

JAPAN:
Economic Checkup

To Gen. Douglas MacArthur went the task of supervising the economic reformation of Japan as a part of the U. S. program to destroy Nippon's war-making potential and promote widespread opportunity in a nation formerly dominated by four great business houses.

Hirohito Not a Pauper

As MacArthur bent to the task, the prospects rose that the personal fortune of Emperor Hirohito would be divulged, revealing him as one of the world's wealthiest persons. Though the Mikado's assets are known to only a select few, the imperial family maintains a four-story concrete building complete with staff on the palace grounds to keep its accounts.

Indicative of the vastness of Hirohito's holdings, the emperor possesses stock in every Japanese enterprise, since a bloc of shares are allotted to the emperor by a corporation upon organizing. Of the 300,000 shares of the Bank of Japan, Hirohito reputedly owns 140,000.

Besides the Mikado, the great business houses of Mitsubishi, Sumitomo, Yasuda and Mitsui possess the greatest holdings in Japanese enterprise, with their share estimated at over half the total.

Under the U. S program, steps will be favored for the dissolution of these politically influential institutions with their grip over banking, industry and commerce. Policies will be pushed for a wider distribution of income and ownership of productive and sales facilities, and encouragement given for the development of democratic labor and agricultural organizations.

In stripping Japan of its war-making potential, the U. S. will prohibit the operation of industries adaptable to war production. As in the case of Germany, manufacture of aircraft is to be prohibited and shipping is to be limited to immediate trade needs. U. S. authorities also will supervise Japanese industrial research.

As MacArthur's staff undertook an accounting of Japanese assets as the first step in the implementation of economic reform, the general ordered Premier Higashi-Kuni's government to institute immediate wage and price controls and ration commodities to head off extreme privation among the country's 80,000,000 people.

With Japanese experts figuring it would take Nippon from two to five years to get back on its feet, they proposed that the U. S. sell the country 250 million pounds of cotton within the next year in addition to 60 million pounds of wool, 3 million tons of rice; 2 million tons of salt; 500 thousand tons of sugar; 3 million barrels of oil, and 3 million tons of steel.

FOOD:
To Curb Output

Declaring commodity production goals should reflect consumer demand rather than maximum ability for output, Secretary of Agriculture Clinton Anderson indicated that the government's 1946 farm program may call for smaller harvests in view of decreased military and civilian needs.

In making his views known in a conference with farm bureau representatives in Washington, D. C., Anderson also raised the possibility of imposing marketing quotas to restrict the heavy output of certain crops.

At the same time, Secretary Anderson joined President Truman in assuring the farm bureau men that the government would back its commitment to support commodity prices at not less than 90 per cent of parity for two years after the official end of the war.

VETS:
Job Rights

Clarifying the rehiring provision of the selective service act, draft officials declared that a returning veteran has an absolute right to his former position, or one of like status, even if it means the discharge of a worker with higher seniority.

At the same time, the officials stated that no veteran would be required to take union membership in regaining his old position, since the law makes no provision for such conditions as a basis for his re-employment.

In handing down its ruling on vet job rights, draft officials directly clashed with the unions, which have stood for the rehiring of soldiers on a seniority basis, but opposed their re-employment in preference to others with longer working records at affected plants.

In further lowering the point score for overseas duty, the army revealed that enlisted men whose credits or age, as of September 2, 1945, equal or exceed 36, or who are 37 years old or 34 years old with more than one year of service, will be exempt. Also exempt are male officers with 48 points; army doctors and dentists with 45 points or 40 years of age; veterinary and medical administrative officers with 30 points or 35 years of age; dietitians and physical therapy aides with 18 points or 30 years of age, and nurses with 12 points or 30 years of age.

LABOR:
Fuel Threat

Secretary Lewis Schwellenbach's new streamlined labor department received its first real test as federal conciliators moved to bring about settlement of the CIO oil workers' demands for a 30 per cent wage increase before a growing strike threat imperiled the nation's fuel supply.

Early negotiations were snagged by the union's demand that discussions be held on an industry-wide basis and the companies' equal insistence that agreements be effected by individual refineries. In asking a 30 per cent wage increase, the oil workers reflected the general CIO aim of maintaining wartime "take-home" pay by bringing 40-hour-per-week wages up to the total of the former 52-hour week.

In other labor trouble, 60,000 northwest AFL lumber workers struck to press demands for a $1.10 hourly minimum compared with the present scale ranging upward from 70 cents, while 15,000 AFL elevator operators and building service employees paralyzed service in over 2,000 New York skyscrapers by walking out in protest of a War Labor board grant of $28.05 for a 44 hour week instead of the $30.15 asked for 40 hours.

LETTERMEN:

A survey by the American College Publicity association shows that only 4 per cent of college letter men were turned down as physically unfit for military service, thus debunking the impression of a high rate of rejections among athletes.

According to the survey, only 358 students out of a total of 9,635 letter men in 119 colleges—and universities in 1941 were found unfit for service.

Push Fight on Polio

In the mounting drive against polio, the National Foundation for Infantile Paralysis allotted the unprecedented total of $4,157,814 15 for research, education and the treatment in the year ending last May 31.

As yet no preventive or cure for polio has been found, although it is generally recognized as an infectious, communicable disease caused by a virus.

GERMANY:
Occupation Progresses

Following close on General MacArthur's announcement that no more than 200,000 troops would be needed within the next year to occupy Japan, it was revealed that U. S. authorities hoped to trim the post-war force in Germany to less than 400,000 by next spring and reduce it to skeletonal dimensions within a few years.

Disclosure of occupation plans for the shattered Reich coincided with reports that the co-operative attitude of the defeated Germans will permit the early election of local governmental officials with balloting on a county and state level following.

Meanwhile, the army revealed that it was training hand-picked German prisoners of war to aid in the administration and policing of occupied territory. Selected after careful screening, the PWs are taught American and German history, the English language and military government, and also are being acclimated to democratic surroundings.

BIG FIVE:
No Results

Failing of settlement of one important problem, the Big Five council of foreign ministers meeting in London to map postwar Europe moved for adjournment, with possibilities that the creation of peace treaties with former axis satellites may be directly negotiated between the U. S , Britain and Russia.

The magnitude of the task of reconciling the conflicting interests of the Allied powers in the European theater was reflected in the difficulty of disposing of pre-war Italian colonies and strategic islands of the Mediterranean: reshaping the Italian-Yugoslav border; drawing up peace treaties for the Russian dominated Balkans, and internationalization of the vital waterways

While the foreign ministers of the Big Five were scheduled to reassemble in November to receive the recommendations of their deputies on settlement of the thorny issues, Russian opposition to French and Chinese participation in the deliberations raised the possibility that direct negotiations between Washington, D C , London and Moscow may be established as an alternative.

U. S. Gets New Auto

The most colorful mass productionist of World War II, Henry Kaiser announced arrangements for his entrance into the low-priced automobile field in league with the Graham - Paige interests at the sprawling Willow Run plant originally set up for manufacture of B-24s.

To effect the greatest efficiency and economy, Graham - Paige will also produce its medium-priced car and line of tractors, farm implements and rototiller along with the new vehicle at Willow Run Joseph

Joseph W. Frazer (left) and Henry Kaiser.

W. Frazer, president of Graham-Paige, will act in the same official capacity in the new company to be called the Kaiser-Frazer corporation, and Graham - Paige will share in a 250,000 purchase of stock valued at $5,000,000 in the new firm.

Indicative of the cost of establishing a modern mass-production automobile factory, Kaiser-Frazer will invest $15,000,000 to be received from total private and public stock sales as follows: $2,000,000 for machinery and equipment; $1,750,000 for tools, dies, jigs and fixtures; $1,500,000 prepaid expenses; $1,750,000 deferred charges, and $8,028,800 for general corporate purposes.

ATOMIC BOMB:
Future Use

While congress worked up steam over the future of the atomic bomb, Pres. Harry S. Truman disclosed that the lawmakers would be given full responsibility for the control of the devastating explosive.

Mr. Truman's decision to submit the issue to congress came as Representative Arends (Rep., Ill.) told the house that he had learned that an even more destructive missile than the one which razed Hiroshima had been developed Calling upon the government to establish a scientific board to devise a defensive weapon against the atomic bomb, Arends said one such explosive could kill millions of city-dwellers.

Meanwhile, Senator Downey (Dem., Calif.) asked that the U. S. turn over the atomic bomb to the United Nations organization so that general possession would lessen the chances of its military development while at the same time encouraging further scientific research for an adaptation to peaceful usage.

Church Warning

Meanwhile the Federal Council of the Churches of Christ in America called upon the government "to state now its intention to place the new discovery under a world-wide authority as soon as all states will submit to effective controls," and to "press for such controls."

The statement also warned that unless international control can be achieved in the short period while the United States alone possesses atomic bombs, it may be difficult or impossible to achieve.

Veterans' SERVICE BUREAU

EDITOR'S NOTE: This newspaper, through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.

Veterans' Administration

Gen. Omar Bradley, new boss of the Veterans' administration succeeding General Hines, has moved with military dispatch in reorganizing the administration to provide better and more efficient service in behalf of the stream of veterans now being discharged from the services.

One of the most important changes made by General Bradley is a complete decentralization of all veterans facilities under the supervision of 13 branch offices. Obviously routine decisions can be made more promptly and more intelligently in a vast organization such as the Veterans' administration if they are not forced through a bottleneck in Washington.

Another change, one which had long been a subject for discussion, and ofttimes of criticism, was the medical service. The general now has separated and elevated the medical division to a higher status under command of Maj Gen. Paul R. Hawley. Under this new arrangement, the new "surgeon general" will report direct to General Bradley.

The Veterans' administration is combing the government agencies and other channels for help and likely will emerge in the postwar era as one of the largest if not the largest governmental agency, handling as it will the affairs of some 12 million discharged veterans at one time or another. The administration has recently been the object of both congressional and private investigation as to conditions within the organization, conditions at Veterans' hospitals, treatment of patients, the tremendous shortage of physicians and nurses and other help and no doubt, it will be General Bradley's policy to eliminate immediately all situations which led to these investigations.

Questions and Answers

Q. I was discharged on February 24, 1943 by reason of "Sec. II, A.R. 615-360 and CDD." Will you explain the meaning of this. I will soon be 42 years of age. Is there any way I can volunteer for service in the occupational forces? — S., Rogersville, Tenn.

A "This means that you were discharged under section 2 of the code governing discharge of veterans and "CDD" means a certificate of medical disability In other words, you were discharged for a medical disability of some sort. The nature of your disability should be stated on your discharge Yes, if you can pass the physical, the army is accepting volunteers for the occupational forces

Q. How many points does a father of four children have who has been in service since last October 24 and across since July?—Mrs. R. B., Uhrichsville, Ohio.

A. The army point rationing system as of September 2 gives 1 point per month for time in service, 1 point per month for time overseas, 12 points for each child under 18 years with a maximum of three, and 5 points for each decoration or battle star. If your husband has no decorations or battle stars, he would have about 51 points. At this time 80 points are necessary for discharge, although the army has announced discharge for 70 points by October 1, 60 points by November 1 and elimination of the point system later in the winter.

Q. I am writing in regard to a soldier killed in Germany who made his insurance to a lady who raised him. After his death, his own mother came and claims she should get his insurance. Which one is entitled to the insurance?—Mrs. T. G., Water Valley, Miss.

A. If the soldier named the lady who raised him as beneficiary in his insurance, she is entitled to it and will get it notwithstanding the mother's claims.

Q.—My brother left high school recently to join the navy. Is my mother entitled to an allotment or allowance from the government if he allots the required $5? E. W., Rogersville, Tenn.

A.—Yes, providing your brother listed his mother as a dependent when he enlisted or was inducted into the service.

Q. If a member of the regular marine corps extends his enlistment while overseas and the extension has one more year before expiration, will he have to remain overseas until the expiration, if he has been overseas 20 months?—Mrs. W. D., West Memphis, Ark.

A. Not necessarily. The marine corps has set up a rotation for return to this country after 18 months service overseas. Extension of his enlistment would have no bearing upon the time he spent overseas. The chances are this marine will return soon for duty in the states.

Nylon Brushes

The war service record of Nylon bristles is outstanding, says the Paint Industry magazine. It further comments that the American paint brush industry in a normal year uses up to 2,500,000 pounds of bristle and that prices of natural paint brush bristles comparable to tapered nylon have fluctuated from $5 to $18 a pound. Furthermore, natural bristles lose substantial weight before they reach the brush. They must be disinfected by boiling, and then must be cleaned, trimmed and otherwise conditioned, a long expensive procedure, mostly by hand operation, and the bristles of different grades, diameters and degrees of stiffness or color must be blended into the formula for a paint brush. Nylon produced mechanically in desired lengths and tapers, eliminates these costly steps. The nylon is also moth and vermin proof, resisting attack by all types of insects, while natural bristles are subject to these attacks. Nylon will not deteriorate in storage and will not dry out or rot. Nylon bristled paint brushes can be used with all types of paints, lacquers and calcimine, says the magazine.

Appetizing Meal Sells Nutrition to Family

Appetite and eye appeal sell nutrition to the family. Fruits and vegetables offer varied textures, flavors and bright colors that make a meal interesting. For crisp texture and the most vitamin C, serve vegetables and fruits raw frequently. To keep colors bright, and to conserve vitamins, cook vegetables just till tender, and serve at once. Vegetables cooked to a dingy brown mush are ugly and retain little food value.

In planning meals, try to work out interesting contrasts, crisp cabbage slaw with baked beans, crunchy toast with soup, chopped celery with peanut butter as a sandwich filling. Avoid serving all watery vegetables at a meal or more than one starchy vegetable. Garnishes give food eye appeal and flavor accent. Try parsley, watercress, green pepper, pickle, a dash of paprika. But color of foods themselves contribute, like the bright crimson of tomatoes on a cool bed of salad greens.

Economist Says Laborers' Concern Is Self-Interest

The American worker is job conscious rather than class conscious and is for the most part a "fence-sitter" willing to let management and unions vie for his support, Prof. Frederick H Harbison, University of Chicago economist said. The antagonism and name-calling which are so prevalent in American labor-management relations stem in a large measure from labor-management competition for allegiance of workers, he declared.

Our interviews with workers, supported by almost all the opinion polls, indicate quite clearly that a worker's life, hopes, and expectations center around his job, the professor said. To the extent that a union can secure a wage raise or increase job security, he will give it his active support. The vast majority of union members are "pork-choppers" interested in immediate tangible benefits. In return for their dues-dollar, they want value received

To the extent that management is able to deliver the "pork-chops" without union pressure, the worker is often ready to shift his allegiance to the company. In short, a large proportion of American workers are fence-sitters and are willing to let management and organized labor compete for their support. They are at the same time suspicious of management and distrustful of the union leadership, particularly when a question of compulsory membership or payment of dues arises.

Store Linen With Eye For Ready Use of I

Something to keep in mind you arrange equipment and in the kitchen drawers is how you use them. Store the most quently used things in space you can get to them quickly easily. Banish seldom used ment from the working area kitchen.

For the shallow drawer, you keep small kitchen equip use partitions to divide the into sections. Partitions are made of plywood but heavy board can be used.

Arrange the small pieces equipment in the sections so you can find them easily. Fo ample, you may put the sti spoons, the long-handled forks the tongs in one section, the masher and the egg beater i other. It is a good idea to ha separate section for knives, if keep them in a drawer, and to the knives in a rack so that don't touch each other Knives dulled by hitting other knive utensils in a cluttered drawer

U. S. Church Membership Continues on Incr

Church membership in the U States has reached an all-time of 72,492,669 persons, more th per cent of the population, ac ing to the 1945 edition of the book of American Churches, under the auspices of the Fe Council of the Churches of Chri America.

In announcing its publication Benson Y. Landis, editor of Yearbook, pointed out that the membership figure, as official ported by 256 religious bodies continental United States, sents an increase of 3,991,483 that compiled for the previous two years ago Total church bership, as well as the proporti church members in the popula has been increasing steadily many years, Dr Landis said.

With 23,419,000 members, the man Catholic church leads. A the Protestant groups, 23 Baptis nominations have a total of 14 193 members, 20 Methodist de inations have 9,924,842 member Lutheran denominations have 5 147 members The 256 reli bodies report 253,762 local chur

Well-Fed Cows Better Breede

Bang's disease is unquestion one cause of low calf crops in southern states, but inadequate ter feeding, over-grazed pastu and low phosphorus intake many grazing lands must be responsible for much low pro tion. Well nourished cows b more regularly and raise be calves than cows that are starved part of the year Exp ments show that an expenditur around $3 per head in concentr for wintering cows will result i creased returns of over $6 head in increased calf crop, siz calves. The death loss will als reduced

Enemy Broadcast Records

The library of congress has cepted the Columbia Broadcas system s gift of the total files 20,000,000 words of foreign s wave broadcasts eavesdropped recorded by the CBS short-wave tening station from 1939 to date. lied and enemy communiques propaganda were broadcast f more than 60 foreign stations. T were tuned in and "trapped" by cretly - located CBS receivers, selectively channeled into the work's news headquarters in York, where trained linguists u the direction of Jack Gerber, an Paul White, director of news, ceived and translated them i more than 15 languages.

...W. WADSWORTH WOOD

...nment restrictions on build- ...rivate houses ends October ...s comes as heartening news ...12 million families who are ... be ready and anxious to ...w homes. Now these people ...ndering: **Should we sell our ... home or give up our lease ...ope of building right away? ...ans can we safely and con- ... make right now?** ...question raises several other ...which may be summarized

...What will building COSTS ... comparison with those of ...r years?

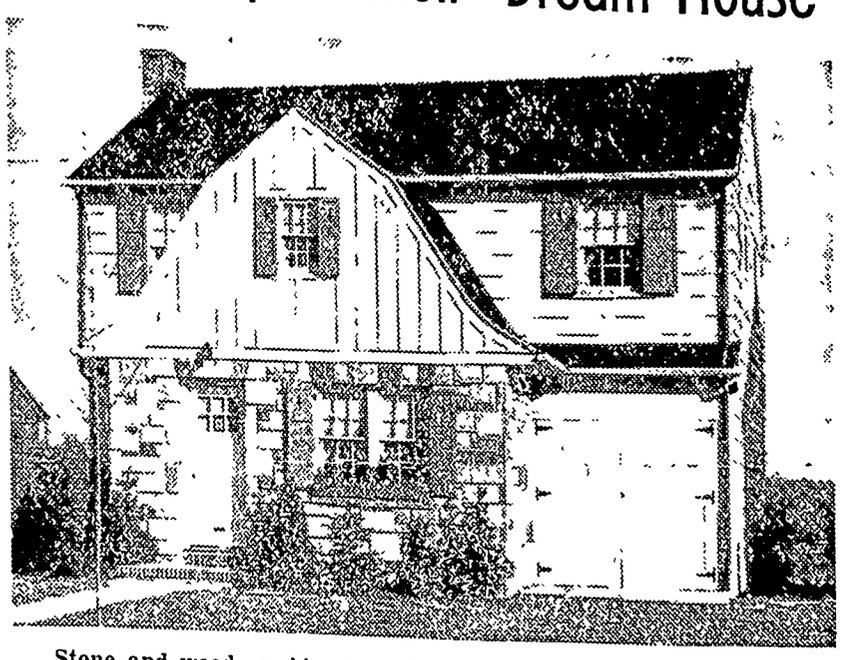
...ill conventional materials ...as lumber, brick, etc., be ...rer quality than prewar? ...hat are the new and dif- ... features and materials so ... discussed for coming ...s? Are those miracles in ... of revolutionary heating, ...nlined kitchens, and push- ...n laundries yet available?

...is the result of serious think- ...st on the subject of costs. ...the government unofficially ...es that home building costs ...creased one-third (requiring ...s to pay $8,000 for a house ...uld be built for $6,000 before ...)—these costs are really apt ... somewhat higher. It may ...,000 to build that former ...ome. This is partly because ...osts are steadily rising, and ...ent of the total building costs ...rectly or indirectly labor

...ents in some sections of the ..., such as in the South, may ...tly expect lower prices due ...fact that the less severe cli- ... permit the elimination of ...nts, sub-floors, etc. Less ex- ... insulation, also less expen- ...ntral heating plants, prove ...e.

...t wide and authoritative ... such as the two-year survey ...ted by Small Homes Guide, ...very pointedly why this fact ...important. They show that ... cent of families now plan- ... build, expect to spend from ... $6,000. Another large per- ..., 30.7 per cent, plan to build ...$6,000 to $10,000 class, while ...out 6 per cent are planning ...d in the $10,000 and better

...ese families are to get full ...or their money, the home



Stone and wood combine to make this attractive house. The built-in garage is one of its most appealing features. Contractors estimate it could be constructed for about $9,000, which is within the range about one-third of home builders are willing to pay.

low the trend towards saving expensive site labor costs

While the home building restrictions are being lifted, as of October 15, the announcement carries with it a six-point program that involves several directives aimed at correcting the present situation. These will seek to hasten production of scarce building materials; will strengthen inventory controls to prevent hoarding; will expand OPA price control of building materials to prevent inflationary pressure; control mortgage practices, facilitate action by industry groups and widely advise on home values. In the directive, great stress is put upon the rapid expansion of the home building industry as the greatest single added source of jobs in our entire economy, and the statement is made that: "we also know that the present housing shortage is bound to continue for some time and that there may be pressure to increase the price of new homes in response to an active demand."

In the light of these facts, thousands will be asking such questions as this. "Should I renew my present lease which expires in six months, or try to build a new home right away?" Wise advice would appear to be this: Renew for one year. A year and a half is not too much time for thoughtful planning and careful working out of your family's requirements—from site selection to the details of built-in storage facilities. There are countless houses that could have been good houses if a few extra months had been used for planning.

a flurry of questions always centers around: "What's new?" For example "Will air conditioning be cheaper than before the war?" Well, assuming that you refer to summer cooling combined with air filtration, de-humidifying and circulation, the answer is Yes Several mass production manufacturers are bringing out new, efficient units that can be added later to any forced warm air heating system. Others ask: "Will the new kitchen devices cost less or more than before the war?" Of course this refers to dishwasher, garbage-disposal unit, range, refrigerator The latter two will cost a little more but will be more efficient. Alert makers are planning to bring costs down by combining units, such as one which will wash both clothes and dishes, by changing bowls and substituting a rubber-covered wire dish rack for the agitator

A modern bathroom is a "must" in nearly everyone's planning. The important new development in bathroom ideas involves separating the different fixtures to eliminate early morning congestion Most favored arrangement includes separate shower stall, an extra lavatory and medicine cabinet The new fixture designs are more beautiful and have lots of added conveniences. Kitchens have been brought into focus with the modern "dreams" too. Many manufacturers are offering beautiful and complete package kitchens that include an amazing number of new items of convenience and advanced, automatic labor-saving equipment.

The gripes or "pet hates" concerning houses are going to be largely eliminated through better planning. There will be plenty of closet space, for instance. The trend is to larger rooms spread out on one floor; with larger windows and provision for more outdoor living. Colors will be bright and cheerful, and details of decoration will strike a smart, peacetime motif.

"How about all the promised postwar home gadgets?" you may be asking. Well, you can look for new refrigerators with deep-freeze compartments; new developments in automatic dishwashers and washing machines; ultra-efficient vacuum cleaners — vastly improved appliances ready early next year.

"Will postwar developments completely eliminate housekeeping drudgery?" The answer is, "Almost." For example, the precipitron takes dust out of the air electrically. Most kitchen chores, such as dishwashing, will be reduced to a minimum by automatic controls. Heating and cooling will be fully automatic. New developments in plastic wall and floor finishes, new rugs and draperies—should help in adding at least three hours more daily freedom to the clock of most housewives. It is indeed a great, new streamlined peacetime era which we are about to enter!

...ctric ranges, refrigerators with deep-freeze compartments, sinks ...ilt-in dishwashers, cabinets of all sizes . . . everything will be ...or the new kitchen early next year.

...g industry must hasten to ...te the traditional "hammer- ..." practices of "cut-fit-and- ...Certain union practices and ...ted building codes, too long ...act by local pressure groups, ...lso be changed.

...re frequently asked: "When ... be sure of being able to get ...uality building materials?" ... our best authorities quickly ...hat most of the hard materi- ...h as cement, sand, lime, ...tc., are plentiful. Still other thousands will be asking: "Should I sell the home I own now, rent for several years and then plan to build?" To such, wise counsel would be: Hold your home, as rents will be high and there will be no sudden drop in real estate values. First, because of rebuilding costs due to higher wage levels, and second, the very sizable backlog of demand that will require several years to satisfy. Start planning your new home now It will likely take you a whole year to get through all the steps carefully Selection of your new lot, title insurance, getting your ideas into blueprints, working drawings and specifications; getting bids, negotiating the financing—all this takes time.

Being very specific, others will ask: "All I can afford to spend is $6,000. I need three bedrooms. What can I expect?" Our frank advice is this: Not too much, if your total includes the cost of a lot. You had better choose a compact story-and-a-half design, and then plan to finish the two upper-story bedrooms and bath at a later date

In the matter of home equipment,

Dodge Corp. Survey Shows A Billion Dollar Backlog Ready for Home Building

A huge volume of funds is ready for investment in construction, according to the F. W. Dodge corporation, specialists in building statistics. In a recent announcement, Thomas Holden, president, stated that $7,753,138,000 has definitely been allocated to construction projects in the 37 states east of the Rocky mountains. Of this huge sum, $1,107,448,000 has been set aside for residential building.

Mr. Holden commented that "events since V-J Day have shown that postwar construction revival is likely to move considerably faster than was anticipated some months ago. The removal of controls has eliminated one of our anticipated revival bottlenecks."

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D
Of The Moody Bible Institute of Chicago.
Released by Western Newspaper Union.

Lesson for October 21

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

MAKING THE HOME CHRISTIAN

LESSON TEXT—Luke 10 38-42; I Corinthians 13 4-13.

GOLDEN TEXT—Love suffereth long, and is kind.—I Corinthians 13.4.

Things do not just happen. It takes praying and planning and real effort to accomplish a worth-while purpose. We are thinking these weeks of the home as a Christian center of influence. We trust that many are asking in their hearts, "What can I do to make my home really Christian?"

The answer is clear. A home will be Christian when those in it are Christian and put their Christianity into daily practice. First, you must be sure of your own salvation and that of the members of your household. Then you can proceed to put the principles of godliness to work.

Our lesson presents the believing home as one that is well-balanced. There is both:

I. Work and Worship (Luke 10: 38-42).

No home can be a place of comfort and pleasant fellowship without much work. A disorderly, dirty or run-down house is a disgrace and a discouragement to all that is finest in the relations of those who live in it.

Home need not be a mansion. It does not have to be richly furnished, but it does need to be clean and orderly Meals must be made. Cleaning must be done. So far Martha was right, but she went too far. She let the labor of the household hinder her from what she so deeply needed — fellowship, not only with her family but with the Lord.

Now, notice that Mary had not shirked her duty to share the work. Observe the word "also" in verse 39. She had worked, but she also sat at Jesus' feet. She knew when it was time to call a halt to labor and make the most of good comradeship. Blessed wisdom! Would that many burdened housewives would learn of Mary!

Jesus made it clear that life in the home is to strike a proper balance between work and worship. If you do not know where to make the division in your home, err on the side of worship. Give that more time than it should have rather than less.

Alas, is it not true that in most homes, even in Christian homes, worship is almost, if not entirely, forgotten! Something should be done about that. Will you do it in your home?

II. Love and Longsuffering (I Cor. 13:4-7).

We are apt to think of love as the warm feeling of interest and emotion which suffuses one's nature in moments of special pleasantness or of intimate fellowship. But life is not made up of a succession of pleasant incidents, of sunny afternoons and moonlit evenings.

Life is real; it is earnest, and often it is drab and irritating. What about such times? Can love meet them? Yes, for love knows how to be longsuffering.

But someone may ask, Does love really work, or is this just a fine-sounding but obsolete theory? It works!

Think of the things in life which irritate and depress us. Then put opposite them the qualities of Christian love as given in verses 4 to 7, and you will agree that what this world needs most of all is love.

Remember that talking about love, or reading about it, or studying it in the Sunday school will not make it effective. We must put it into practice. Why not start now? You will be surprised at the results.

III. Promise and Perfection (vv. 8-13).

Christianity has a hope, and that is not just a vague wishing that something might come to pass; it is a sure hope. In Christ all the rich promise of prophecy, of faith, of hope will come to pass.

The Christian home is the place to teach boys and girls to believe with assurance that He who has begun a good work in us "will perform it until the day of Jesus Christ" (Phil. 1:6).

We who see only dimly shall one day see our Lord face to face, and love shall abide through all eternity.

Many gifts are only temporary in their usefulness; in fact, almost everything that man makes or does (apart from his service for God) is transient.

Even as vital a matter as prophecy shall one day find its end in fulfillment. Hope shall eventually find its longing expectation satisfied. Faith will be justified in seeing what it has believed. Childish things will be put away by the full-grown man; knowledge will increase and darkness disappear.

But love — love is eternal. It never fails, and will never fail. God is love, and God is eternal. From all eternity and unto all eternity love continues. Therefore, we agree with Paul who, in the verse preceding this chapter (I Cor. 12:31) says that while you may covet the best gift, here is the more excellent way

HERE'S Today's Baking Powder... The Baking Powder with the BALANCED Double Action

"For years and years, a favorite, yet modern as tomorrow" . . . that describes Clabber Girl Baking Powder . . . *balanced* double action . . . tested and proved in both mixing bowl and oven . . . the natural choice for the modern baking recipe.

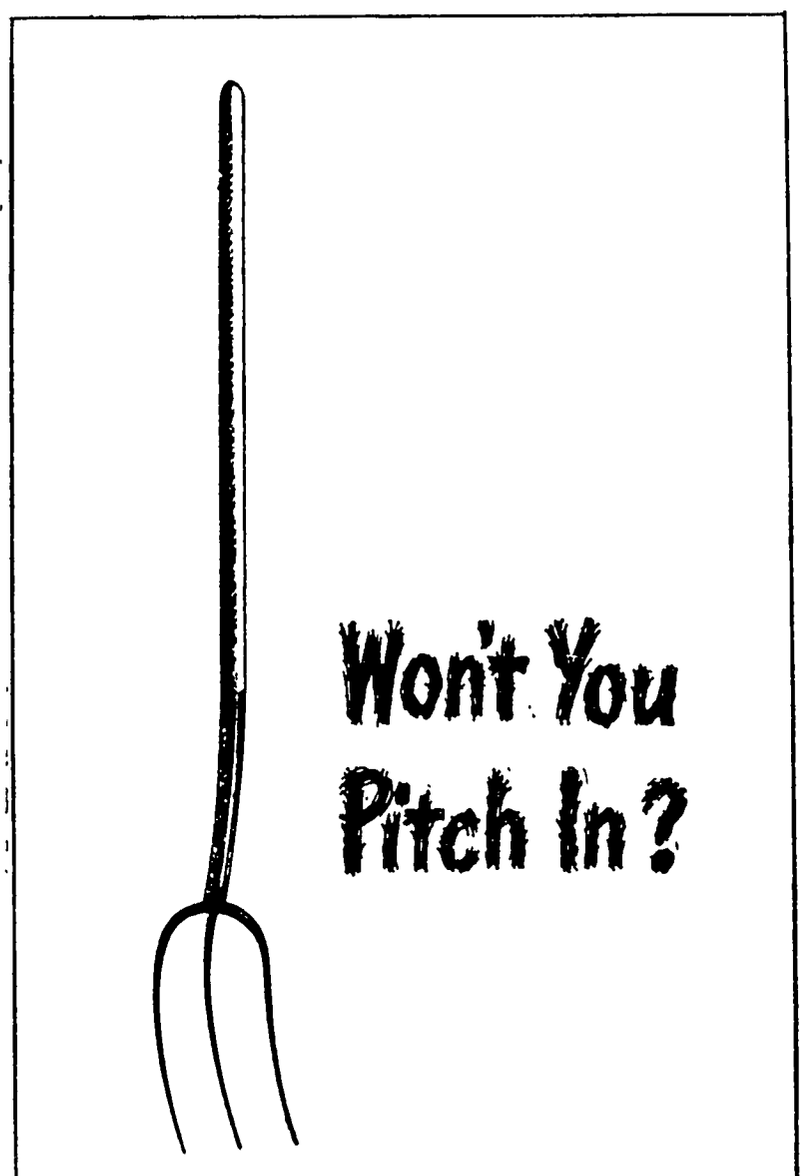
What you NEED is SLOAN'S LINIMENT



MR. FARMER, we need your help. We need you to pitch in on a job that's bigger now than at any time since Pearl Harbor.

It's the job of helping our people here at home, and our sons and brothers and husbands wherever their military duties may have taken them.

We need your help to keep U.S.O. Clubhouses and Camp Shows going, to enable War Prisoners' Aid to spread its mercy among American prisoners of war still in Jap hands, to feed and clothe and keep alive the destitute men and women and children of ravaged lands over the whole face of the earth—to help our own grieved and uprooted and troubled, right here at home. You can provide that help by giving to your local Community War Fund.

No matter what you give, it's vitally needed. We hope you'll give from the bottom of your heart and pocketbook. More than ever before, every dollar counts. So dig deep, won't you? And dig now.

Give generously to

YOUR COMMUNITY WAR FUND

In the evening Mr. and Mrs. Jerome Erdman, Mr. and Mrs. Earl Peterson and twin daughters, and Mrs. John Lackore, came to wish him happy return of the day. E. H. had a regular "wind - fall" as two fine birthday cakes came his way.

IOWA ELEVENTH IN DUCK STAMP SALES IN U. S.

Sale of duck stamps in the United States during the 1944 duck season totaled almost 1,500,000, and Iowa, with 44,078 sold, ranked eleventh in total sales. Minnesota, was first with 114,415, followed in order by California, Texas, Michigan, Washington, Wisconsin, Illinois, South Dakota, New York and Louisiana.

Since the first issue in August of 1934, duck stamps have become familiar throughout the country. They cost a dollar each and must be purchased by everyone over 16 years old hunting migratory waterfowl

tory Loan Bond Drive Will Launched Monday, Oct. 29

COCK COUNTY TOTAL UOTA PLACED AT $543,000

Of Sixteen Township Quotas as Been Set At $27,000

unty War Finance Committhroughout Iowa will this week final meetings preparatory to unching of the Victory Loan gn Monday. Forty thouvolunteer workers are exd to take to the field in the t- house bond so'icitation. e's quota for the Victory Campaign calls for the pur- of 46 million dollars in Ser- B nds for individuals and the se of a total of 135 million worth of bonds, including E Bonds, as the total goal types of securities.

Hancock County Quota

cock County's share of the 0,000 is 543,000, of which a- $353,000 is in E Bonds.

e war bond leaders felt that rive could be a real success were urging local leaders to the Victory Loan the great- nd campaign of them all, ng out that never before in istory of the state have the so much money in the and in their pocketbooks. leaders also said that follow- last war the Liberty Loan was the biggest bond drive

wa Wants To Be "First"

goal for Iowa is to be "first nation" on percent of E Bond attained The Victory Loan is the last bond drive. It ert.nue from October 29 to ber 31 with E, F, and G sold during that period ng toward quotas.

e will be a new denominaond offered, a $200 Roosevelt E Bond, bearing the picture late president. Slogan for mpaign is "They Finished Job, Let's Finish Ours!"

announcing the loan drive. leaders pointed out that one major expenses ahead is the ed care of wounded veterd their rehabilitation. They e campaign also is the means finitely curbing inflation. obtained in this drive will used for maintaining our s of Occupation and for the g up of war contracts for facturers producing materito the end of the war and contracts were terminated. are optimistic about this ign and we believe that it e our most successful bond to date," V L. Clark, executnager of the Iowa War Fi- committee, said.

real danger, however, lies fact that too many people apathetic and will feel that he war is over their obligahelp finance the victory is ver. This drive is in reality ory Drive, furnishing an opity for the people of Iowa to in victory and in peace. want to urge Iowans to buy limit, and to welcome the er workers when they call."

Hancock Quota Set Up

. Armstrong, Britt, Hancock bond sales chairman, has ced quotas for the several and townships of Hancock as follows:

l for Hancock County set at 0 of which amount E Bonds old must amount to $353,000.

n quotas are as follows:

. . ..	$30,000
. ...	27,000
awha	18.000
nme	15,000
rth	12,000
ell	9,000
tal Lake	9,000
en	9,000
nships, each	$27,000

's normal tobacco crop is 0,000,000 pounds.

Hawaii Calls

AND ANSWERS, TOO—Imogene Bal, Hawaiian school student, shows her patriotism and investment sense by wearing a lei made of War Stamps she will convert into Victory Bonds.

Farmers Have Less to Worry Them This Time

Washington, D. C.—Farm prices stand at 206 per cent of the 1909-1914 average —higher than the prices of 1918—and will drop again but not as sharply as in 1921 because the Government is required by law to maintain support prices of at least 90 per cent of parity for two full calendar years following the year in which the war ends, The Department of Agriculture has announced.

The announcement indicates the farmer will not be a victim of a drop in prices similar to that which followed the last war in 1921 when prices hit the low of 115 per cent of the May, 1920, level which was 235 per cent of the 1909-1914 level. Thus the farmer will have more money than after the last war.

War Finance Committee officials said that in addition to the maintenance of the price level for two years, that nonfarm families already have, and are accumulating, weekly savings through the Payroll Savings Plan of the War Finance Division of the Treasury. This, they claim is proof the non-farm front will be much better able to support itself than after the last war during the normal lull of reconversion. Buyers of farm products will have the money to buy, it was said, and farmers should avail themselves of the opportunity to acquire War Bonds during the Victory Loan so as to have the money with which to modernize and handle the nonfarm market demands that will be backed with cash to pay sustained prices during the two years after fighting ceases.

The Payroll Saving Plan has sold $18,000,000,000 in War Bonds to wage earners, that great bulk of non-farmers who will, if need be, enjoy the fruits of their savings in the reconversion period and have the cash with which to support themselves.

Secretary of Agriculture Clinton P. Anderson adds that "prosperity of the farm depends primarily on purchasing power in the city."

MRS. H. F. JOST TO BE IN CHARGE OF HOT LUNCHES

Supt. A. L. Kingery announces that arrangements have been made with Mrs. H F. Jost who will be in charge of serving hot school lunches.

Mr. Kingery says he expects to have everything in readiness for serving hot lunches at noon beginning the fore part of November

WHEN the tanker Virginia was struck by enemy torpedoes and exploded, Mike Kuzma, seaman, suffered severe burns in the blazing gasoline. He ignored his hurts, however, when he saw two shipmates worse off. He succeeded in towing both men out of the flaming area and supporting them until picked up by a rescue crew. Kuzma was awarded a Merchant Marine Distinguished Service Medal. Hundreds of thousands of dollars in War Bonds must be sold to replace that tanker and the fuel.

U. S. Treasury Department

BRIDGES FAMILY HELD RE-UNION

MET SUNDAY AT HOME OF MR. AND MRS. ELMER BEIER

First Meeting Of Entire Family In Past Thirteen Years

A family re-union of the Bridges clan was held Sunday at the home of Mr and Mrs Elmer Beier in Liberty township The family had not all been together for thirteen years and the gathering was held at this time as Mrs. Paul Stille and daughter, Barbara, and Mrs Irene Bridges, of De Ridder, La., were visiting the community.

All brought well filled baskets of food for the big dinner served at noon and which was attended by the following relatives of the Bridges family:

Mrs Paul Stille and daughter, Barbara, and Miss Irene Bridges of De Ridder, La; Mr and Mrs. Roy Fanselow, Mr. and Mrs. Bob Fanselow, Ben Fanselow, Henry Krummer, and Mr. and Mrs. Walt Wideman, all of Dows.

From Klemme and community: Mrs Herman Bridges; Orville Bridges and family, Cecil Bridges and family, Glen Bridges and family, Mrs Walter Drake and children; and Elmer Beier and family.

In all there were 52 people present for the dinner

Others who came to visit during the afternoon and evening were Mr and Mrs. Emil Beier, and Miss Novella Beier.

SOLDIER HONORED AT DINNER SUNDAY

Sgt Leon Lemke who returned home last week from overseas, a son of Mrs Daisy Lemke, was honored at a family gathering and dinner held Sunday at the Vernon McLaughlin home at Belmond

All brough well-filled baskets of delicious food for the big dinner.

Those present were Sgt. Leon Lemke; Mrs Daisy Lemke and son Donald, Carl Swanson and family; Albert Etchen and family; Robert Greiman, all of this community; Mr. and Mrs. Donald Madsen, of Clear Lake; and Rudy Hefte and family, and the Vernon McLaughlin family.

Pvt. Paul Ludeke Ill with Pneumonia In Philippine Hospital

Mr and Mrs. Henry Ludeke of near Meservey received word that their son, Pvt. Paul Ludeke has been seriously ill with pneumonia and has been confined to a hospital on Cebu Island in the Philippines since October 1st He is in the engineers battalion.

So that Paul may receive mail from his friends around Klemme, we are printing his address:

Pvt. Paul W. Ludeke, 37787868,
Casual Co., Replacement Center,
A. P. O. 718, % Postmaster,
San Francisco, California.

IOWA STATE RELIGIOUS CENSUS BEGUN IN COUNTY

The Iowa State Religious Census has begun in Hancock County this week Over one hundred workers will try to see all the families in the county to obtain the information requested in the Census Rev H E. Harvey, county chairman for the Census, met with the county leaders and township workers at Britt last Monday to distribute literature and the census cards He explained that 14 state bodies are cooperating with the 3 state agencies sponsoring the Census. It is directed throughout the state by a committee representing the Iowa Christian Rural Fellowship, the Rural Life Department of the Iowa Inter-Church Council, and the Iowa State College.

Reports obtained will be summarized and given to the leaders of the churches in the county for use in planning the local work. Copies will be sent to the Iowa State College to be used in studies of factors in church work in the state The Hancock County steering committee and the township chairmen will meet at the Central State office in Britt on next Monday, November 5, at 2 00 p. m. to tabulate the reports.

It is hoped that the Census will help mobilize the spiritual and human resources for more effective practice church programs General Douglas McArthur in his speech at the Japanese surrender expressed the concern of serious thinkers everywhere when he spoke of the need for improvement "of the spirit if we are to save the flesh" The results of the Census will help in establishing better factors for the intangible spiritual work of the churches of our state.

- Rev H. E. Harvey, Chairman.

FARMERS CAN SEND SEED SAMPLES TO AMES NOW

Assurance of high quality seed next year can be had by having seed tested in advance of planting. County Extension Director, Paul Henderson, points out that seed samples should be sent in to the Seed Laboratory at Iowa State College for testing as soon as possible.

That means timothy, clover, and grass seeds can be sent now. And oats samples also can be forwarded to Ames for testing this fall to be sure that next year's crop is planted from high calibre seed. Next on the testing docket comes soybean seed. This, too, should be mailed as soon as the harvest is over.

Henderson says R. H. Porter, head of the Seed Laboratory at Ames, has notified him that at present the laboratory is not overloaded with samples for testing. So Porter urges farmers to send seed now so the testing load may be more evenly distributed, and the laboratory, consequently, able to give speedier service.

USO Drive Last Week Went Over The Quota Set Up

Special Victory Bond to Honor Late President

Washington, D. C. (Special)—The Treasury has called attention to a special Victory Bond to be sold during the Victory Loan campaign, starting October 29, for $11,000,000,000.

The bond is in memory of the late President Franklin Delano Roosevelt. It will be on sale at all agencies authorized to issue United States Savings Bonds of Series E.

The bond will be in the denomination of $200, to be issued at $150. It will constitute an additional denomination of Series E Bonds, and will have the same terms and attributes as other denominations. It will carry a likeness of Mr. Roosevelt.

HERB GREIMAN BUILDING NEW MODERN HOME HERE

Herb Greiman is building a new home on his recntly acquired land adjoining Klemme on the southwest near the cemetery.

The Greimans are putting up a modern house, 24x30 feet in size, two stories high, on the knoll west of the north side of the cemetery Mr. Greiman has 60 acres of land in the tract he purchased and his other buildings will include a garage, modern chicken house and a barn.

The foundation for the house is already built and the frame-work will be under way in a few days Mr Greiman expects to have the house inclosed before cold weather sets in.

This is the first new post-war house to be built in Klemme. Several other families are planning to build new homes in Klemme next year Some new business buildings are also being planned

ANTONIO KERAUS HONORED ON 78TH BIRTHDAY AT LAKE

A number of relatives gathered Sunday at the H D. Patton cottage at Clear Lake to honor Mrs. Antonio Keraus, whose 78th birthday anniversary was on October 19th

The dinner was a surprise on Mrs. Keraus. Three decorated birthday cakes had been baked for the occasion Mrs Keraus was presented with a gift of money.

Those present were Mrs K raus Mrs. Rosa Mitchell of Swan City Mr and Mrs. W C K raus, Mr and Mrs C G. Watterman all of Klemme; Verle K raus and family. Mrs Rosie Horacka, and Lora Prochaska, all of Garner; Mr. and Mrs H D Patton, Clear Lake; Mr Otho Keraus, Osage; Mrs Elmer Prochaska, Mason City and Mrs Mary Waterman, Klemme

KLEMME AND BELMOND MEN SHOT NINE GEESE SUNDAY

Bert Jones of Klemme, accompanied by Chuck and Chunk Norris, Chet Hake and Doug Shark of Belmond, while hunting 9 miles southwest of Klemme Sunday, had one of those rare days that all duck hunters dream about . . . a flock of geese within gun range.

Out of eleven shells the men brought down and bagged 9 Canadian geese, of which number our townsman, Jones, shot two geese

KLEMME WENT OVER THE TOP IN USO FUND DRIVE

Klemme can chalk up anther victory as citizens of Klemme again over-subscribed the recent USO drive for funds

Because of the vast amounts oversubscribed in past drives, the quota this year was only $90.00. Workers had difficulty in keeping folks from being too generous but held the final amount down to the sum of $192 75, over $100 more than the quota.

J. C. Thomas was chairman of the drive and he was assisted by the following workers who solicited funds in the residential district:

Mrs Roy Schaefer, Mrs. Vivian Mace, Mrs J. A. Chambers, Mrs. R. A Jorgenson, Mrs. Swanetta Haefner and Mrs. Sumner Trumbell.

If any persons were missed and they would like to contribute can give their money to J. C. Thomas or leave it at the bank.

W. L. LAUE GIVES POINTERS ON DYNAMITE DITCHING

Last week The Times told about the crowd of over 300 who watched the ditching by dynamite demonstration at the Carl Wille farm south of Klemme.

This week we can add some interesting details to the story

Mr W. L. Laue, a representative of the Dupont Co., who was in charge pointed out the advantages of using ditching dynamite for certain kinds of ditches. He also reminded farmers present that ditching dynamite could not be used successfully under dry soil conditions or where there is sand or gravel.

Other advantages are: it leaves no spoil banks as it spreads the dirt out 300 to 400 feet on each side of the ditch.

He also made it plain that farmers should insist on ditching dynamite and not try to use other dynamite.

These are called 'single stick" ditches. Single cartridges of ditching dynamite are placed 12 to 18 inches apart to a depth of 20 inches . . . all in a single line and all shot by the propagation method. In wet soil this will result in a ditch 6 to 8 feet wide at the top and three feet deep.

AVERY, ERIN AND GOODELL HELD MEETINGS

During the past week, Mrs. Harry Ostendorf in Avery twp. was hostess at a meeting of twenty-eight women; Mrs. Leon Hansen in Erin township to twenty-two women, and Mrs. Geo. Stille in Goodell to sixteen women

At these meetings, Miss Hazel Grimes conducted a discussion on the care and operation of the electrical sweeper, refrigerator, and washing machine.

Miss Fannie Gannon, a specialist from Iowa State College, was a guest at the Erin township meeting.

OSCAR THADA DIED SATURDAY IN CANADA

Oscar Thada, brother of the late Walt Thada, died in Canada Saturday after an illness. Funeral services are at Thornton, Iowa.

Oscar Thada will be remembered by many Klemme people, as he worked in the store for Walt eleven years ago.

What Controls Do

It was sometime after rationing of tractor tires was out of mode that Claude Hicks of the Jefferson Firestone store was still reaching for the application forms when customers came into his shop. He had sent one or two to the ration board with applications before it occurred to him that the procedure was no longer necessary.

Poisonous Mushroom

There is certain death in the scal red - topped Amanita mushroo which meets the mushroom picke eye. This mushroom contains a po erful poison that stops the action the heart muscles, and a sing bite may prove fatal. The amani may be recognized not only by scaly red top, which makes it co spicuous, but also by a ragge paper-like collar which hangs arou the stalk just below the cap, and the large bulbous base. The scal give the top the appearance of ha ing been sprinkled with a fla breakfast food. The first symptom of poisoning are cramps and pain the stomach, and dizziness. De usually comes within a half hour two hours unless the poison pumped from the stomach imme ately. One one-hundredth grain atropine is considered to be an tidote.

SNAPPY FACTS about RUBBER

Post-war automobiles may ride o rubber springs which will eliminat noise and the necessity for lubrica tion. B. F. Goodrich has supplie over half a million rubber spring for military landing vehicles.

B. F. Goodrich is now makin tires of a new kind of syn thetic rubber. The new rubbe makes tires wear longer.

Since cotton is of almost equal im portance with rubber in the manu facture of tires, the rubber industry is one of the biggest customers o the Agricultural South.

Steel and brass are used i the manufacturing of ord nary passenger car tires.

drophobia Uncommon among Men and Animals

Two or three things can be said definitely about hydrophobia," late Dr. Logan Clendenning le. "Hydrophobia is a rare dis- e even among dogs. It is even er in human beings. Only about per cent of dogs who are actually en by another mad dog develop ies. And if 100 people were ually bitten by a rabid dog so the virus entered the skin, only ut 10 per cent of them would be- e infected.

In order for infection to oc- , the skin must be broken and in- tive material from the dog's iva enter the wound. The skin, course, is usually broken by the 's bite. But here again there is ort of preventive instituted by na- e, because when the saliva is vily infected, the dog has ally reached the paralytic stage that its jaw muscles are par- zed and it cannot bite.

Still another piece of comfort is even if infection occurs in a an being, prevention is pretty ain with the Pasteur treatment. s treatment can be begun even eral days or weeks after the bite occurred and still be perfectly ctive. A full course of this treat- nt reduces the possibility of the ase developing in a person who been bitten by a mad dog from per cent, as mentioned above, to than one-half of 1 per cent."

Picker's Clothes

One of the first things the apple ker should do is to see that he clothes for the job that protect skin and help prevent accidents. y should be fitted for bending, be g at the neck, ankles and wrists. have usable pockets.

Neighbors Will Appreciate Garden Gift Basket
(See Recipes Below)

Garden Gifts

Now that we once more have peace all over the world we all ought to start our good neighbor policy right at home Lots of little friendly gestures that mean so much have been forgotten during the war, but they should be reinstated

Something that all of us with a garden can do is to share with a neighbor There are probably lots of things that you yourself cannot use that would be welcomed by a neighbor Send a basket of garden vegetables or fruit all dressed up with fancy wrappings and ribbon and see what a friend you can make Incidentally, include a lemon or two to make it handy for the homemaker to season either fruit or vegetables

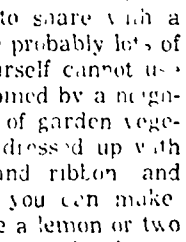
Another gift that will be welcome is a set of your favorite recipes, with or without a basket of garden produce Every woman has a few choice dishes which her friends have asked for, and it makes for more friendliness to be generous with the instructions

Here are some brief suggestions which I'd like to pass on to you, particularly for vegetables

If you find yourself short of salad dressings for a tossed salad, sprinkle 2 or 3 tablespoons of oil on the individual salad then squeeze lemon juice generously over this, salt to taste and toss the salad lightly

To make a good, old-fashioned cole slaw, add the following amounts to 2½ cups of shredded cabbage ¾ teaspoon salt, 1½ tablespoons sugar, 6 tablespoons coffee cream, and 3 tablespoons of lemon juice.

In making pickled beets, cook the beets first, then slice and cover with equal parts of lemon juice and water. Add sugar to taste, and slices of sweet onion, if desired.



Now that fall has come, we can start turning our attention to heartier foods again. Cabbage is a good vegetable to use because it is coming in season:

Stuffed Cabbage.
(Serves 5 to 6)

3 tablespoons uncooked rice
1 pound ground beef
1 egg well-beaten
2 tablespoons minced onion
2 teaspoons salt
½ teaspoon pepper
8 medium to large cabbage leaves

Lynn Says:

Refrigerate Your Foods: Refrigeration is necessary to most foods not only to preserve their appearance and palatability, but also to prevent food spoilage.

In most cases, temperatures of 40 degrees will take care of the situation. This temperature is best maintained.

Meat, milk, vegetables and fruits are extremely perishable and should be refrigerated immediately. Root vegetables do not need as low as 40 degrees and may be kept out of the ice box Bananas need never be refrigerated.

Keep all foods covered except meat. Cover it lightly with waxed paper.

Fruit needs chilling, not freezing.

The crisper or open dish or even paper cartons are excellent for keeping eggs in the refrigerator.

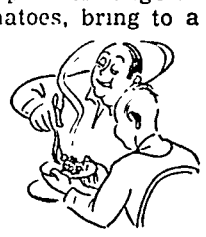
Meat needs the coolest place in the refrigerator—right under the freezing unit. Bacteria multiply very rapidly unless it is well protected.

Lynn Chambers' Menu.

Swiss Steak with Gravy
Browned Potatoes
Buttered Cabbage
Fresh Fruit Salad
Whole Wheat Bread Jam
Baked Apples

2½ cups canned tomatoes
1 tablespoon flour
4 tablespoons sour cream
½ teaspoon salt

Cook rice in boiling salted water until tender Drain and rinse. Mix rice, ground meat, egg, onion, salt and pepper Steam cabbage leaves in ½ cup water for 10 minutes. Fill leaves with meat mixture (⅓ cup to each leaf), fold leaf over meat and fasten with a toothpick Arrange in saucepan, add tomatoes, bring to a boil, then simmer gently for 1½ hours Mix flour, sour cream and ½ teaspoon salt to a paste, remove cabbage balls to a dish and stir sour cream and flour mixture into tomatoes Bring to a boil quickly and pour over cabbage rolls and serve



A favorite pie for fall, and incidentally a nice recipe to tuck into one of those gift baskets, is one for this unusual Green Tomato Mincemeat Pie It's spicy and fragrant, bound to please

Green Tomato Mincemeat Pie.
1 peck of green tomatoes
1 quart sliced apples, fresh or dried
1 pound seedless raisins
Salt
1 pound suet, chopped
Cinnamon, nutmeg, cloves
2½ pounds brown sugar
3 lemons
Water

Wash tomatoes. Cut in small pieces Sprinkle with salt. Let stand overnight. Drain. Add sufficient water to prevent sticking. Cook 30 minutes, stirring frequently. Add lemon juice, grated rind and white of 1 lemon, cut in small pieces. Add apples, suet, raisins and sugar. Add spices to taste and a few grains of salt. Simmer slowly, stirring frequently, until tomatoes and apples are tender and flavors are blended. Pack in freshly sterilized jar and seal. Line a 9-inch pie pan with pastry and fill with 2½ cups of the tomato mincemeat mixture. Cover top with pastry, flute edges and bake in a 425-degree oven for 35 to 40 minutes.

Two vegetables which we miss during the other seasons are ready to take their bows now. You will like both green tomatoes and eggplant prepared in this fashion:

Stuffed Eggplant.
(Serves 6)

1 eggplant
½ teaspoon pepper
4 tablespoons butter
4 tablespoons cracker crumbs
½ teaspoon salt
4 tablespoons milk
½ cup grated cheese

Eggplant may be cooked in boiling water for five minutes before scooping out. Cut slice from top or cut in half lengthwise Remove pulp and mix with other ingredients. Refill shells and cover with cheese and crumbs and bake in a moderate (350-degree) oven for 30 minutes.

Green Tomato Fritters.
(Serves 6)

1½ cups flour
2 teaspoons baking powder
⅔ cup milk
¼ teaspoon salt
1 egg, well beaten
6 green tomatoes, sliced ½ inch thick

Beat egg, add to milk. Mix flour, baking powder and salt. Combine with liquid and mix to a smooth batter. Sprinkle sliced tomatoes with salt and pepper. Drain on absorbent paper and dip in batter. Fry in deep fat until golden brown. Other raw vegetables may be prepared in this way.

Released by Western Newspaper Union.

Tanning Technique Ancient

Tanning of leather and the manufacture of shoes dates from prehistoric times. Part of the story has been gained from crude drawings, unearthed by archeologists, says the National Geographic society When a cave man cut or bruised his feet, he wrapped them in animal skins, and fur foot coverings gradually became as popular as present-day saddle shoes Various articles of leather, more than 33 centuries old, have been found in Egyptian tombs. The ancients discovered an early means of refrigeration when they learned that leather "breathes" and water remains cool in a leather bag. The Arabs, artisans in saddlery, probably did the first really satisfactory tanning, using flour and salt to cleanse the skins, then placing them in the sun to dry.

New Corn Products Include Zein and Allyl Starch

Corn is the largest volume agricultural material going into industry. In 1944 the amount ground for industrial purposes was about four times the 800,000 tons of synthetic rubber produced in this country. The starch industry, however, has not confined itself to corn as the single raw material. When the supply of corn ran out, wheat took its place. Looking toward possible new sources, work is being done in the industry on the grain sorghums as raw material for starch products. Products from corn include zein, a protein on the market for some time, while allyl starch, a new derivative recently developed, may be used in resins and surface coatings.

Studies Show Time Saving In Home Management

Time and motion studies by home management investigators in several states indicate that using both hands as a team makes many household jobs easier and speedier. Investigators in war industries have made similar conclusions. To change the working habits of hands takes practice, studies show, but pays in time and energy saved.

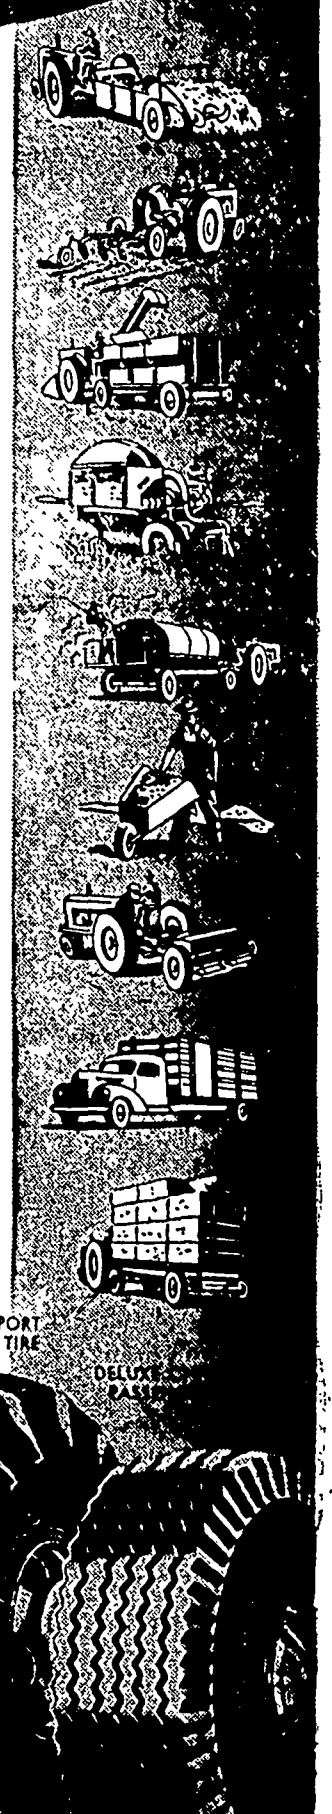
Recently home management specialists studied some of the common time - consuming household jobs. They went into 25 homes and observed the usual methods of doing these jobs, then tested ways of speeding the work, emphasizing the use of both hands.

One job investigated was washing spinach. Many a housewife has complained of the time it takes "to get the grit out of those curly leaves." Observation showed that the average housewife uses one pan in a single sink, and, with one hand, lifts the greens from the water to a colander, and back into the fresh washing water. Five of the women observed washed spinach leaf by leaf, which took 50 per cent extra time. Tests showed that the job could be done as well in less than half the time by using two pans or a double sink, filling them alternately with water, and using both hands to draw and drain off water and to lift the greens. Most women cut off the roots in the washing water or sink, but trimming directly into a garbage container before washing proved faster. The tests also showed that washing in lukewarm water takes less time than washing in cold water.

Airplanes Over Counter

One of Chicago's largest department stores has agreed to open an "airplane department" and will offer a popular, two-place model for sale from a conventional display room

There's a Firestone TIRE Built for Every Wheel that Rolls on the Farm



FOR your tractor . . . for your truck . . . for your car, and for every other farm use, there is a Firestone tire engineered and built to do the job — and to do it better than any other tire made.

There are certain definite reasons why Firestone tires perform better and last longer. One is Firestone's understanding of farm tire requirements based on years of experience in the farm tire field. Another is the never-ending Firestone research and development program to build the best today — and make it still better tomorrow. And still another vitally important reason for the superiority of Firestone tires is the fact that they are built by the finest craftsmen using the finest materials that science and machines can produce.

You can save time, money and do a better job of farming if you specify "Firestone" every time you buy a tire for your farm. From now on *make it a Firestone.*

For the best in music, listen to the "Voice of Firestone" every Monday evening over NBC network

SURPRISE PARTY HELD FOR E. C. BUNTENBACH

Sales barn and farm employees and their wives staged a big surprise party on their 'boss," Ed. C. Buntenbach at his home in Klemme Tuesday night, the occasion being Mr. Buntenbach's birthday.

The evening was spent in playing Five Hundred" at 7 tables.

Mr. A. J. Rawson won the high score for men, with Mr. Fred Jahnke, second. For the ladies Mrs. Williams was high, Mrs. Guy Cassrey, second and Mrs. A. J. Rawson, low.

After the games a delicious two-course lunch was served, which was featured by a decorated birthday cake, baked and decorated by Mr Buntenbach's daughter, Mrs. Harold Wicks.

The affair was a complete surprise to Mr. Buntenbach as he sat in his home to enjoy a quiet evening when the merry-makers arrived to help him celebrate.

In Nov., 1888, Mrs. Geo. Hirsch of Dallas, Texas, gave birth to 6 children, 4 being boys and 2 girls, according to the Daily Telegraph of London.

The glowworm and th have a secret man has be to copy for years—the producing bright light heat.

Let's tear your electric bill to pieces

GO AHEAD, lady—tear your electric bill apart and see w it's all about.

This little piece lights all your lamps. This one p your radios. This cools and keeps your food. This wa your clothes. This takes care of the cooking and iro and cleaning. And so on.

That's a lot of different jobs to be covered by one bill.

And—hold on! You've paid for more than just elec ity. *About 25c of every dollar you pay for elec service goes in turn for taxes which benefit your c munity and help pay for the war.*

Taxes UP. . . . General cost of living UP. . . . Y think the cost of electric service would be up, too. B *isn't.* It has even come down a little since the war b Actually—

The average family gets about twice as much tricity for its money today as it did fifteen years

This welcome fact comes from the careful planning progressive spirit of America's *business*-managed, supporting electric companies.

General MacArthur Receives Emperor Hirohito

Japan's emperor went to meet Japan's conqueror, General of the Army Douglas MacArthur. It was the first time in 2,000 years of Japanese history that a mikado had left the royal palace to be received by a foreigner. Emperor Hirohito, "The Son of Heaven," was dressed in formal morning attire, not in his flamboyant dress of admiral or marshal. The conquered ruler bowed to American correspondents.

Uncle Sam's Most Expensive Private First Class

Pfc. Arthur Griser, insert, whose wife and 11 children are shown awaiting his return from Europe to their Pitcairn, Pa., home. They have been married 12 years and have three sets of twins among their 11 children. Their army allotment of $280 a month is believed to be the highest paid to any private first class. Griser is just as anxious to return to his family as the paymaster is to be relieved of this expensive soldier.

It's a Long Walk Up to the Top

View of crowded Empire State building lobby after elevator strike went into effect. Workers seem hesitant about climbing stairs to their offices, and have backing of health authorities who put limit at eight flights for workers under 30 years old.

Football Gains Speed

An example of the quality type of football being displayed this season is demonstrated by Dan Dworsky of Sioux Falls, S. D., who will play fullback for Michigan. The end of the war has released navy stars.

Stricken Brothers Await Death

The three Pinion brothers, Billy, 15, left; David, 19, on bed; and Lloyd, 12, right, all crippled by muscular dystrophy, a rare disease, usually fatal, shown as they await their sad fate at the home of their widowed mother, near Salisbury, N. C. The boys were recently taken to Duke university hospital where doctors said they could do nothing for them.

Pearl Harbor Counsel

William Dewitt Mitchell of New York, a lifelong Democrat who served as attorney general under President Hoover, has been appointed counsel for Pearl Harbor quiz.

IMPROVED UNIFORM INTERNATIONAL

SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Of The Moody Bible Institute of Chicago.
Released by Western Newspaper Union.

Lesson for October 28

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

TEMPERANCE BEGINS AT HOME

LESSON TEXT—II Timothy 1:1-6; 3:14-15; Titus 2:1-4, 11, 12.

GOLDEN TEXT—As for me and my house, we will serve the Lord.—Joshua 24:15.

The influence of the home on the character of a child is the strongest factor in the development of high and holy standards in the life of the man and woman. "Train up a child in the way he should go; and when he is old, he will not depart from it" (Prov. 22:6).

Emphasis is placed on temperance in our lesson, and it is clear that in the home real temperance principles may be built into the thinking of boys and girls. It is not easy for a young person who has been brought up right on this matter to go astray, no matter how severe the temptation.

I. Our Family Is God's Gift (II Tim. 1:1-5).

Paul, the apostle of Christ, addressed his son in the faith, Timothy, with affection and appreciation. He knew the good which was in this fine young man and saw the possibilities for service for God.

He knew that as the background of that faith, there was a godly line of ancestors, those with an "unfeigned faith." This young man, so precious to Paul and so successful in the ministry, owed a deep and abiding debt of gratitude to these godly women who had directed his steps aright, who had instructed and encouraged him in the right way.

Let those who are young recognize parents and grandparents who admonish and instruct them as God's gift. Let them not regard them as those who would restrict or restrain them unduly, but who for their own good and the glory of the Lord teach them the way to God.

II. Our Faith in God's Guidance (II Tim. 1:6; 3:14, 15).

The gift of God for preaching which Timothy had was recognized by the church, and he was sent forth to proclaim the gospel. But alas! the burdens of life and the pressure of service cause a man to forget or neglect his calling so there comes often the need of stirring up the gift of the Lord.

God gave it. He will bless us as we use it to its fullest possible extent. He wants us too, to stir it up—this blessed, divine gift and calling.

The admonition (v. 14) is to "continue" in that which was learned, to remain true to the Word of God. We show our faith in His guiding hand, as we resist by His grace, the ever-present temptation to get away from the only true foundation of a life of usefulness and joy.

What we have learned as children we should hold fast in spite of all the devices of Satan and every weakness of the flesh. Stand fast in the faith!

III. Our Fellowship in God's Gospel (Titus 2:1-4).

Old and young are to be united in a great communion of believers proclaiming the gospel of God's grace by a living testimony, by a life devoted to the things of God.

Sound doctrine is the only source of sound living. To be "sound" means to be healthy, vigorous, free from defects, suited to a purpose. That means that everyday Christian living must express the vigorous soundness of the gospel.

Men and women are to be "temperate," not given to excess, and particularly in mind here is the use of intoxicants. To be temperate in such a day and land as ours can mean only one thing, and that is to abstain altogether. Christians ought to keep entirely away from intoxicants, and that includes beer and wine.

There is a positive side to the admonition, for soundness of life and faith shows itself in holy living, love, patience, the teaching of God's Word, and in fine fellowship among the people of God. We need to stress that side of the teaching of this passage.

IV. Our Faithfulness by God's Grace (vv. 11, 12).

God's grace has brought salvation to man through Jesus Christ and His atoning death on the cross. That grace calls for and calls forth from the believer a renouncing of that which is ungodly and lustful (and you can put intoxicants right in there!) and a determination to live right in faithful devotion to God.

That brings about right relationships to self, to others, and to God. The Christian is sober and self-controlled as to anything which could "intoxicate' him, whether it be liquor, or lust, or pride, or any other such thing. He also shows that grace of God before men in a life of righteousness. Then he finds his true place in a reverent devotion to God which makes him a worshiper "in spirit and in truth: for the Father seeketh such to worship him" (John 4:23).

Faithfulness to our Lord will count more than our words in the great battle against intemperance. Let us stand true to Him and keep our witness clear and strong!

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength.

Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

There should be no doubt that prompt treatment is wiser than neglect. Use *Doan's Pills*. *Doan's* have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. *Ask your neighbor!*

DOAN'S PILLS

How To Relieve Bronchitis

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION
for Coughs, Chest Colds, Bronchitis

Soy Flour

Either of two types of soy flour o the market, the full-fat and the low fat flour, can be used in most rec pes. Soy flour, like grits, helps make ground meats go further loaves or patties. It may be used soups and sauces, desserts, an many baked goods. Plain soy flou helps to thicken sandwich fillings. most of your favorite recipes, yo may replace two tablespoonfuls wheat flour with two tablespoonfu of soy flour in each cup of whit flour called for. To save time, p two tablespoonfuls of the soy flo in the bottom of the measuring cu then fill the cup with white flou

MRS. LYLE BRAGONIER IS TELLING HER FRIENDS

BLOOMINGTON, ILLINOIS.—Mrs. Lyle Bragonier certainly is pleased with Faultless Starch. Here is what she wrote in a letter:

"I surely am very much satisfied with Faultless Starch. It tops any make of starch. I'm through with all other starches. Make mine Faultless every time. I surely will tell my friends about this wonderful starch."

Are you that well satisfied with the starch you are now using? If you are not, why not try Faultless Starch right away and see for yourself why Mrs. Bragonier and so many thousands of other women enjoy this special kind of starch.

WHAT TO LOOK FOR

Here are some of the special advantages of Faultless Starch. Look for them when you try your first box.

You'll discover that Faultless Starch saves several minutes of time when it's time to make the starch. The reason is—you don't have to cook it. You just cream Faultless Starch with a little cold water and add boiling water while stirring, that's all. No cooking needed.

MAKES IRONING EASY

In addition, you will find that Faultless Starch makes your ironing smooth, easy, beautiful. The reason is—Faultless Starch contains ironing-aids that keep the iron from sticking. No more fighting a "sticky" iron. Ironing becomes a joy—not a job.

WON'T BLOW OR FREEZE ON

Another advantage is that Faultless Starch won't blow out or freeze out on the line. No more starching everything over again.

No wonder people like Mrs. Bragonier say, "It tops any make of starch. I surely will tell my friends about this wonderful starch."

You can enjoy Faultless Starch too. Just ask your grocer for "Faultless Starch." He has it. Use it next wash day, sure, and save time and work from now on. —Adv.

IF YOUR HEALTH IS "BELOW PAR"

Try My Way of Living for Just 90 Days

says AL WILLIAMS Noted Conditioner

Learn to Condition Your Body Against RHEUMATISM CONSTIPATION NERVOUSNESS INDIGESTION OVERWEIGHT And Many Other Common Ailments

"Are your nerves jumpy—your digestion upset—joints and muscles stiff and sore? Is your weight or blood pressure abnormal? Are you physically run down, tired out, sleepless, short of breath, subject to frequent colds, headaches, or spells of mental depression? If your answer to any of these questions is 'YES' I want to tell you about the methods I have used to combat such disorders in directing health improvement programs for more than 40,000 men and women from 16 to 86 years old", says AL WILLIAMS, West Coast conditioning expert.

Here is PROOF! Read What Users Say:

"Constipation is a thing of the past for me." Mrs. V. H.

"Had a bad case of neuritis when I started Program. It has disappeared completely." Mrs. M. G.

"Have lost 35 pounds in 90 days, feel 15 years younger." Dr. F. J. P.

"No need for laxatives after first week. This seems like a miracle to me." Mr. H. W. D.

"Have gained the weight I wanted. No colds or other sickness all winter." Mr. C. T.

"Blood pressure reduced nearly 25 points. General health greatly improved." Mr. L. G. R.

"I wouldn't take a million dollars for what I have learned from you." Mrs. H. S.

WEEKLY NEWS ANALYSIS

Settlement of Oil Workers' Pay May Set Reconversion Pattern; Ease Curbs on Consumer Credit

Released by Western Newspaper Union

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Their guns taken away, Jap naval shore patrolmen walk streets with wooden staves to maintain order among disarmed sailors in Tokyo.

LABOR:
U. S. Acts

Acting energetically, Secretary of Labor Lewis Schwellenbach took the all-important oil workers' wage dispute virtually in his own hands by transferring negotiations to Washington, D. C., in an effort to effect a settlement that was expected to set a pattern for the reconversion period.

With the Oil Workers' union demand for a 30 per cent wage increase embodying the program of other powerful CIO organizations, and with the oil companies' offer of a 15 per cent boost representing the usual compromise, final disposition of the case would go far toward determining the amount of "take-home" pay for employees during the ensuing months.

Schwellenbach's decision to shift the parley to Washington, D C., from Chicago, Ill., followed upon an early deadlock in the bargaining over the union's insistence that the dispute be settled on an industry-wide basis and the companies' stand that contracts should be signed by individual plants.

Meanwhile, over 1,500,000 persons were affected by the strike of AFL elevator operators and building service employees in New York, with business losses running over $1,000,000 a day and production of winter and summer garments virtually stopped. Balking at a war labor board award of $28.05 for a 44 hour week, the union asked $30.15 for a 40 hour week.

JAPAN:
Historic Precedent

September 27, 1945, went down in history as the red-letter day on which a Japanese emperor, unbending himself in defeat, made a personal call upon a victorious U. S. commander to break all precedent.

God to his people, small, wiry Hirohito, in formal morning clothes and high silk top hat, was very much man to Gen. Douglas MacArthur, who, steeped in occupational duties, met him in informal military attire and without a tie.

Motoring to the American embassy in Tokyo for the visit, Hirohito made his call just as MacArthur set about shaping plans for the re-education of the Japanese people and stripping Nippon of all its war-making potentialities by an economic reformation.

In recasting the Japanese mind, MacArthur chose to pursue the present policy of working through native personnel. Japanese press, radio, movies, government information bureaus, schools and various social groups would be used as mediums for the dissemination of democratic principles and ideals for world co-operation.

In Japan's economic reformation, the U. S. will strive for the eradication of all potential war industry, confining the Nipponese merely to civilian production. At the same time, efforts will be made to break up the business monopoly of the four great houses of Mitsibushi, Mitsui, Yusada, and Sumitomo, and promote widespread ownership and trade. Organization of labor and agricultural organizations also will be encouraged.

Meanwhile, Japanese economic experts called for a resumption of trade with the U. S. to speed Nippon's postwar recovery and stave off impending privation. In return for American cotton, wool, salt, oil, iron, sugar and leather the Japanese proposed exports of silk, gold, porcelain ware and lacquer goods.

TIRES:
Demand Mounts

While the production of new automobile tires is making fair progress, prospects for the elimination of tire rationing in the near future are not promising, according to the National Automobile Dealers association.

Although the tire industry is planning on the production of approximately 12 million tires between October and the end of the year, some will be reserved for new cars.

CREDIT:
Ease Controls

In a move hit by OPA because of inflationary possibilities, but rapped by finance companies because of its restricted scope, the government removed all credit controls over building renovation and eased regulations on loans for services or non-essential purchases.

Remaining unchanged in view of popular demand and limited supply was the 12 month credit repayment for washing machines, vacuum cleaners, bed linen, mattresses, boats, watches, cameras, automobiles, pianos and furniture.

Though OPA resisted the restricted easing of credit regulations for fear of a scaling of prices upward in face of heavy buying, certain financing groups declared that continuing restrictions placed low income classes at a disadvantage and price control and rationing assured market stabilization.

ARGENTINA:
Buck Change

Problem center of South America, Argentina was under another state of siege as the government of Pres. Edelmiro Farrell, controlled by Col. Juan Peron, rounded up economic, political and labor leaders following an ill-fated attempt to overthrow the present regime.

Colonel Peron

In extending military rule and suspending constitutional guarantees of speech, press and assembly, the government declared that it was forced to move to stem "a growing campaign aimed at alteration of the (existing) order and conducted by the oligarchy (powerful interests) . . . " Liberty would be restored when the various groups would know how to use it, Farrell added.

The abortive revolutionary attempt by two top Argentine generals followed close upon the heels of widespread demonstrations of democratic elements against the pro-military Farrell-Peron regime, maintaining the present economic and social setup in the face of persistent demands for its liberalization.

JOBLESS BENEFITS:
Shelve Bill

Declaring that the current wave of strikes has confused the question of whether a real need exists for the lengthening of unemployment compensation payments up to 26 weeks, the powerful house ways and means committee held up a senate bill providing federal aid for extension of benefits.

By its action, the house group dealt a body blow to President Truman's program for jobless aid, since the senate in passing a modified bill previously had refused to boost unemployment compensation up to a maximum of $25 weekly. The senate measure would have permitted the federal government to advance sufficient sums to the states to spread jobless payments over 26 weeks.

House committee rejection of the bill stirred labor's wrath, AFL Pres. William Green accusing the congressmen of "callous disregard of human needs," and CIO Chieftain Philip Murray calling upon the CIO and its Political Action committee for an all-out drive to "secure reversal of this shameful act."

ARMY SEEKS MISSING

Army "search teams" are combing the battlefields of Europe and the Pacific for personnel now listed as missing

Consisting of five soldiers, one of whom speaks the language of the locality, search teams are assigned a certain area of approximately one and one-half square miles. Information on missing personnel is consolidated to speed inve ...igation

OIL:
U. S.-British Pact

Virtual monopolists in oil, the U. S. and Britain came to an understanding for the orderly development of petroleum trade in the postwar world in a pact fashioned in London by Secretary of the Interior Ickes and British officials and subject to senate ratification.

Removing vigorous opposition to any control over domestic production as envisaged in a previous agreement later repudiated by the U. S., the new pact only provides for advisory regulation of American and British operations overseas. Both countries have extensive oil holdings in foreign lands, notably in the middle east, where deposits are reportedly as great as in the U. S.

In drawing up the agreement, Ickes and British Fuel Administrator Shinwell provided for mutual respect of all concessions and rights obtained by either country, and also pledged non-interference with operations.

MEAT:
More Available

Because of the seasonal increase in the marketings of range fed cattle, OPA removed point requirements for lower grades of beef, veal and lamb through most of October, and also made hamburger, lamb and veal patties, short ribs and brisket of beef, breast and flank of lamb and shank of veal ration-free.

In addition, points were lifted from such low-grade meat products as sausage, frankfurters, luncheon variety and canned meats.

In contrast, however, the continued tight supply of hogs and finished cattle necessitated the retention of current point values on pork cuts, bacon and other cured meats, and choice selections of beef, veal and lamb. Though fats and oils were kept on the rationing list, point removal on cheaper meat will furnish additional stamps for these items.

Henry II Takes Over

To husky, 28-year-old Henry Ford II, who in college displayed more of a penchant for sociology than engineering, went the presidency of the huge Ford Motor company, following the retirement of his famed grandfather from active service with the firm.

Upon assuming his post, Henry the II declared his ambition was to return Ford to leadership in sales again, the company having trailed Chevrolet throughout most of the decade preceding the war. On his toes, young Ford had shown the new 1946 model last July, only two days after government authorization for resuming civilian production, and the firm was well off to postwar output when impeded by strikes.

Retiring at 82 after having resumed the presidency of his famed company in June of 1943 upon the death of his son, Edsel, Ford declared that he would devote most of his energies to his outside interests, chief of which have been utilization of farm products in industry.

EUROPE:
Occupation Problem

In war or in peace, old General Patton, with a mind of his own continued to make news, the latest ocasion being his clash with General Eisenhower over the use of competent former Nazi civil servants for a restoration of German economy to head off threatened chaos this winter.

Besides being asked for an immediate report on the number of former Nazis still holding office in 3rd army territory, Patton also was directed to give Eisenhower a personal accounting of his control over the Bavarian region. For a hard peace, Eisenhower favors a ruthless denazification of Germany's political, educational and economic life, and an early establishment of a Reich living standard no higher than surrounding countries'

Though the first to be called on the carpet, Patton's attitude is known to be shared by other U. S. officers seeking to avert starvation, frost suffering and epidemics this winter in the shattered nation.

FAR EAST:
Native Uprising

Even as Chinese and British forces took over Indo-China, native Annamites rose in rebellion at the prospect of a return of French rule, terrorizing the European population of the state, which normally exports much rice, rubber, high-grade coal, spices and tin.

Frenchmen were the principal targets of native wrath, since many, under protection of Chinese and British guns, have displaced Annamites holding public offices preliminary to re-establishment of French colonial rule.

Strangely enough, the Japanese, who promised Indo - Chinese independence during their military occupation of the country and still remain in force prior to their complete demobilization, have been called upon to help assist undermanned Allied units re-establish peace.

GOOD NEIGHBOR:
Aids Health

Remote, disease-plagued regions of the Amazon systems of Peru and Bolivia have been equipped by modern health measures to progress in human welfare.

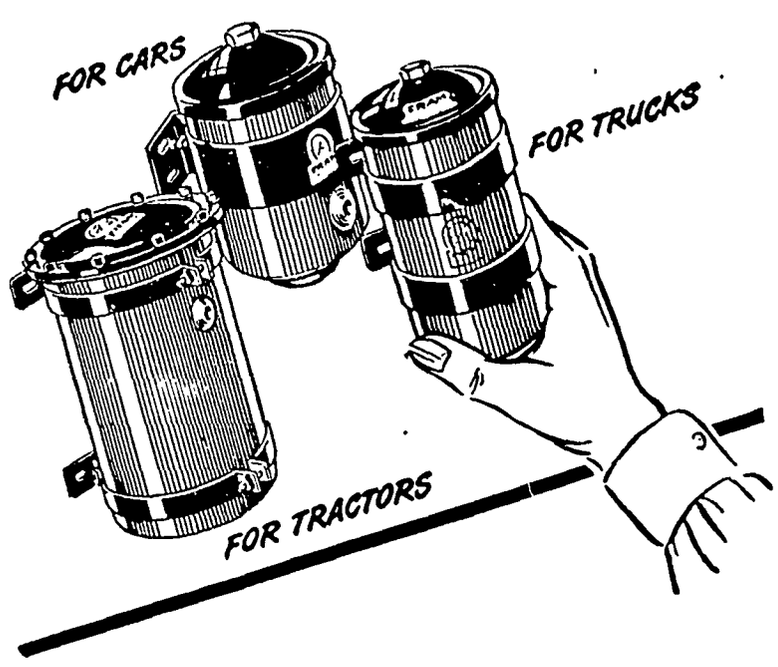
The menace of malaria and other tropical diseases has been considerably lessened in the two countries by inauguration of hospitals and medical services by the U. S. and South American nations through the Institute of Inter-American affairs.

Lunch Container

The desirable lunch container is large enough for a good lunch, easily cleaned and well ventilated. Satisfactory containers for carrying lunches include the basket with attached cover, a well ventilated bought lunch box with thermos bottle for hot or cold drinks, a tin, aluminum or granite bucket with close-fitting cover and holes for ventilation. Newspapers, paper bags, cardboard boxes, fiber or cloth boxes are not very satisfactory for carrying lunches. The lunch box should be cleaned well every day and relined with fresh waxed paper to keep food from taking up moisture and odors. It should be sterilized in boiling water at least once a week and kept in sunshine over the weekend. Soda dissolved in the rinsing water will help rid the box of fats, acids and odors.

Better Cotton

Too much moisture in seed cotton greatly reduces the quality of the lint, and sometimes causes the cotton to sell for as much as a fourth less than it would have brought had it been ginned dry. If the cotton is a bit green or is wet with rain or dew, if the weather permits, it should be spread in the open to dry. Storing damp or moderately wet seed cotton on the farm will make it gin better, provided it dries during storage. Cotton picked late in the season, after exposure to the weather, is often several grades poorer than the same kind of cotton picked after it opens. Picking cotton early not only results in better colored fiber, but also cleaner cotton. Later in the season, when the leaves and trash are dry and break easily, it is much harder to pick cotton free from trash.



Head Off Motor Trouble, Breakdowns, Costly Repairs

With FRAM Oil Filters!

"FRAM cuts engine wear in half" . . . "I highly recommend Fram oil filters for long motor life" . . . "100,000 miles before reboring" . . . these are typical of what drivers say about Fram! You see, scientifically-designed Fram Oil & Motor Cleaners filter out dirt, grit, carbon, sludge, abrasives and other harmful contaminants to keep motor oil *visually clean*. Thus Fram saves motors and money . . . helps keep cars, tractors, trucks and stationary engines on the job. .

MOTOR EXPERTS USE FRAM

Millions of Fram filters and cartridges are used by our armed forces . . . while Fram is standard equipment on more than 75 famous makes of car, truck, tractor, bus, marine, Diesel and stationary engines. Experts agree on Fram!

FRAM CORPORATION
PROVIDENCE 16, R. I.

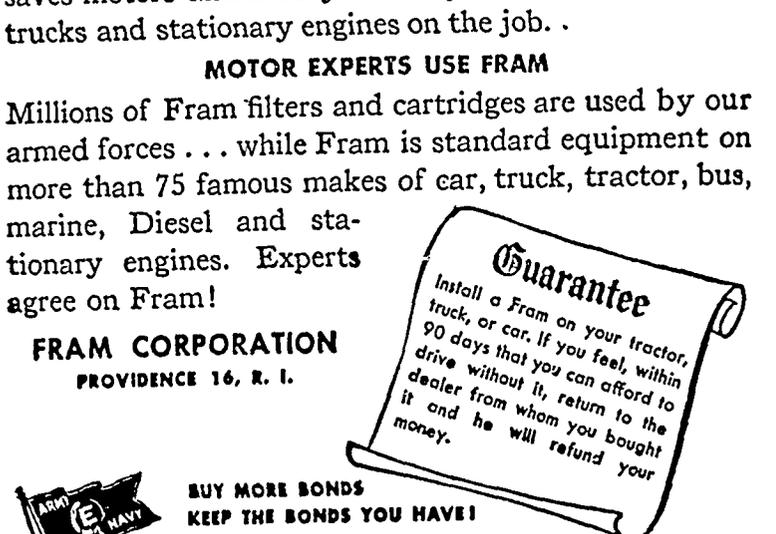
LIGHTER MOMENTS with fresh Eveready Batteries



"Hey, I said send up some quinine, not K-9!"

UNTIL RECENTLY, our entire production of "Eveready" "Mini-Max" batteries went to the Armed Forces for use in walkie-talkies, handy-talkies, and other vital communications equipment.

Now—although military needs continue to come first—substantial numbers of these extra-powerful "B" batteries are available for civilian use.

Remember: their exclusive construction makes "Mini-Max" batteries *size for size the most powerful batteries ever built.* In your radio, they deliver longer life—*longer listening!*

EVEREADY

The words "Eveready" and "Mini-Max" are registered trade-marks of National Carbon Company, Inc.

Mr. and Mrs. Gerald Ozborn and son Jimmy, of Marion, Iowa; and Mr. and Mrs. Harley Dawes and daughter, Susie, of California, spent the week end visiting at the E J. Thompson home. The ladies are sisters of Mr. Thompson.

1500'	20"	6.4'	8.5'
1600'	16"	6.7'	8.9
1700'	12"	5.5'	6.5'
2550'	10"	5.5	7.4'
	Lateral No. 1		
5200'	14"	6.0'	7.6'
700'	12"	5.8'	6.2'
655'	10"	5.3'	6.2'
	Lateral No. 1-A		
748'	8"	5 5'	5.7'
	Lateral No. 1-B		
1200'	6"	5.0'	8.1'
	Lateral No. 2		
350'	12"	5.5'	5.9'
	Lateral No. 3		
1120'	12"	5.7'	8.7'
	Lateral No. 4		
1700'	12"	5.2'	9.7'
1069'	10"	5.8'	6.0'

All existing tile lines crossed by new tile lines must be connected to the new tile by cemented junctions, for which the contractor shall be paid 3.00 each

Average haul from Garner 6 1-2 miles.

Bids will be received for material alone, for labor alone, or for complete labor and material. Bids for material shall include the tile delivered along the line of ditch as ordered by the engineer Bids for tile labor shall include digging the tile ditches, laying the tile and backfilling the trenches.

All tile shall be No. 1 Standard Drain Tile passing the specifications of the American Society of Testing Materials.

Bids will be opened at the above office promptly after the time for receiving same has closed.

A certified check by an Iowa bank in the amount of 10 per cent of the bid made payable to the County Auditor shall be filed with each bid, which in the case of the bidder receiving the award, should he fail to execute a contract and file a bond within ten days after acceptance of his bid shall be retained by the County as liquidated damages Any bids which do not conform to the provisions of this notice will not be considered

The successful bidder will be required to file a bond for seventy-five per cent of the contract sum as security for the construction and completion of the work awarded in accordance with the plans, specifications, and contract Said bond to be purchased from some Hancock County agent.

Plans and specifications for the work may be seen and may be secured at the above office or at the office of the County Engineer, Garner Iowa.

The Board of Supervsors of Hancock County Iowa, reserves the right to waive technicalities and reject any and all bids.

Work must be commenced by May 1, 1946 and must be completed by November 1, 1946. Section No. 1 must be completed by June 1, 1946.

Dated at Garner, Iowa this 15th day of October A. D. 1945 Published by order of the Board of Supervisors of Hancock County, Iowa.

FRED C. MISSAL,
County Auditor.

(Publish October 17, 24, 1945.)

Local Happenings

Klemme and Vicinity

Clair West of Nora Springs, was in Klemme on business, Monday.

Mrs. Elmer Schneider was at Mason City on business Friday.

Mr. and Mrs. A. L. Kingery were Mason City visitors Saturday.

Mrs. Naska Bock is at Mitchellville this week visiting with her daughter and family.

Mrs. Agnes Ahrenkeil of Goodell was visiting in Klemme Tuesday afternoon.

CURRENT COMMENT

"Put these back in the safe, Bridget. From now on, we'll keep our butter in the kitchen again."

In recent years, few things have seemed as precious as butter, so it's grand to get more of it once again. Here in America, butter is a vital part of our way of life. Not for just a favored few, but every home, country or town, on each side of the street. Yes, both in flavor and nutrition, butter adds so much to every meal. Now that there's more, let your family enjoy it to the full—rich, golden butter

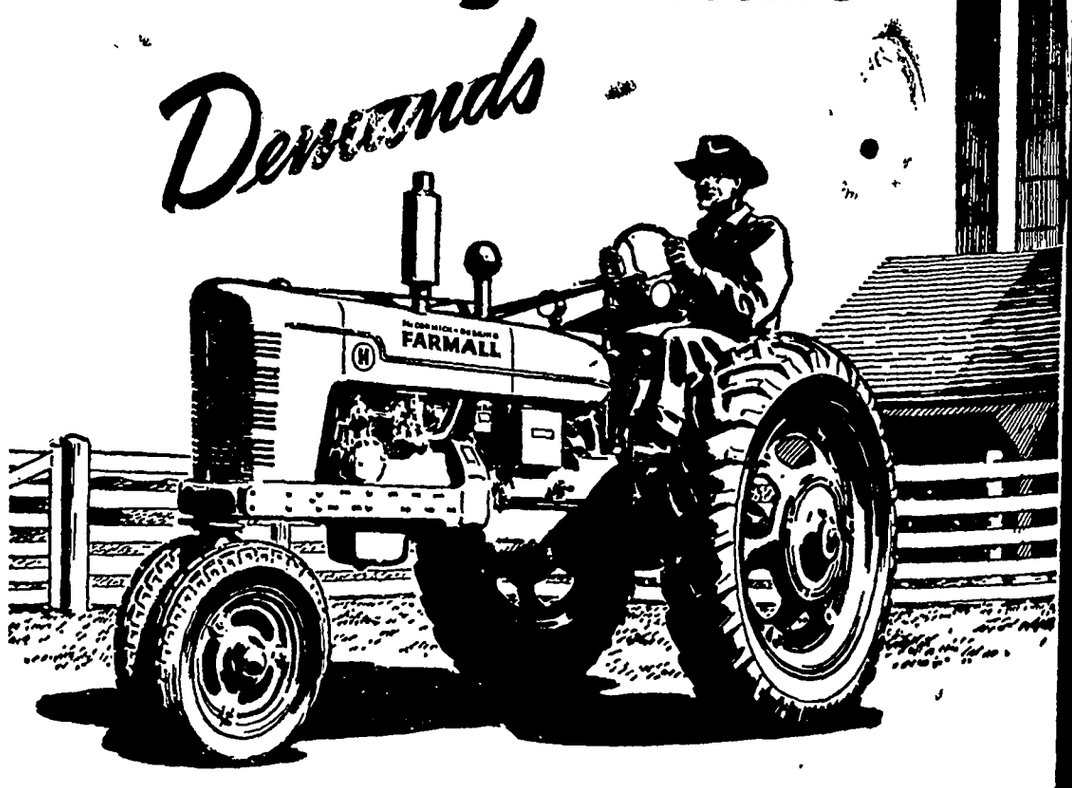
Postwar Agriculture
Demands



THE RIGHT TRACTOR
FOR THE PARTICULAR JOB

THE proverbial Jack-of-all-trades was master of none. The modern world of science and technology passed him by.

The same principle applies to farm tractors. The tractor that does a wide variety of jobs unsatisfactorily can't possibly produce the greatest results at the least cost in any job.

But that's what the farmer—particularly the small operator—has got to do to meet postwar competition: he's got to *produce the most food possible with the least effort and, consequently, at the lowest cost.*

The farmer with 10 acres in truck crops needs one kind of tractor. The farmer with 100 acres in wheat alone needs another kind—or, as is usually the case, two or more different tractors. The tractor which does a good job on the Great Plains may be useless in the rice territory. And so it goes.

Conditions of climate, the lay of the land, and the character of soils in the different parts of this vast country, together with wide variations in the nature of crops and the size of operations, combine to produce wide differences in the requirements for tractors. Harvester's policy is to meet *all* these requirements.

That is why Harvester's postwar line includes a great variety of Farmalls and other specialized tractors and attachments rather than a single tractor with a single system of tools. Every tractor in the line was developed after scientific research and testing under actual operating conditions showed the specifications needed for *efficiency* and *economy.*

Every *Harvester-built* tractor is the *right* machine for its *particular* job.

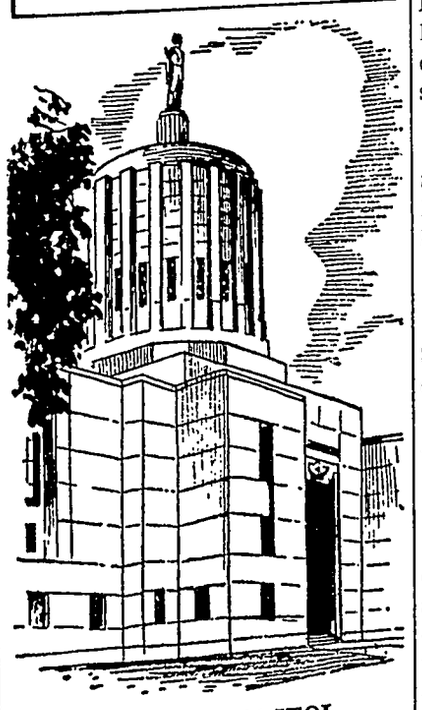
The Klemme Methodist WSCS will meet Thursday afternon, November 1st at the Church with Mrs E. J. Arnold, leader and Mrs P. M. Wilson in charge of devotion Hostesses are Mrs. C G Waterman, Mrs. Mary Waterman and Mrs. Edwin Josten.

Bonds Over America



OREGON CAPITOL

Oregon's capitol at Salem is now one of the fine structures which Americans buy War Bonds to protect. It's new and beautiful; one of the nation's prized possessions. It is worth buying a great many War Bonds to provide planes and materiel for our fighting men to use in its defense. Oregon City and Corvallis were capitals of the territory for brief periods but Salem became the permanent capital when Congress provided funds for the erection of territory capitol buildings there and the U. S. Treasury refused to provide the funds for construction anywhere else. Fire destroyed the first capitol and also another in 1935.

U. S. Treasury Department

Respect The Person With This Button

When you see this button worn on the lapel of ones coat, you know that the wearer has been honorably discharged from the armed forces. He or she has served your country well, performed the duties required of one in the uniform of our armed forces.

Respect the wearer of this button. Remember that if it hadn't been for the wearer, and millions more like him, you would be listening to commands given in not the English language but in Japanese. MacArthur would be receiving commands, not giving them; the list of American prisoners of war would include your name and mine. It would be our lot to suffer and not to rejoice.

The serviceman wearing this button deserves your respect.

British Miss Is Bride Of Klemme Soldier

Pfc Paul Haefner, son of Mr. and Mrs. Wesley Haefner of Klemme, entered the service in July of 1943, and received his honorable discharge October 21, 1945, after serving 13 months overseas. He received his first training at Jefferson Barracks, Mo., and was then transferred into the Air Corps Reserve at Grenier Air Field, New Hampshire On Dec. 4, he was shipped out of Camp Kilmer, N. Y and arrived at Swansig, Wales, British Isles and from there went to the Great Sailing Air Field near Braintree, Essex, England, which was the first air field built by the American engineers in England.

His assignment was with the 9th Air Force stationed there, and in the 322nd Bombardment Group. After the Normandy invasion the 9th moved over to an air field near Beauvais, France to cooperate with the ground forces in their march on to Berlin.

Besides his discharge emblem, Paul is also entitled to wear the European, African and Mid-East campaign ribbons with six battle stars; the good conduct medal and a Presidential Citation.

While stationed in England Paul met Miss Dora Potter, daughter of John Potter of Ilford, Essex, England, to whom he was married in the Barkingside Church of England, located in Ilford.

Mrs Haefner will come to the States as soon as transportation for civilians is available.

PFC. AND MRS. HAEFNER

IOWA TRAPPING SEASON OPENS SATURDAY, NOV. 10

The 1945 trapping season will open at 12:00 noon November 10 and continue through January 10, except that mink and muskrat trapping has been limited to thirty days, closing December 10. The entire state is open, except that muskrat and mink may not be trapped along the Mississippi River east of the Chicago, Milwaukee and St. Paul railway line from north of the north city limits of Muscatine to the state line.

Fur-bearing animals which may be taken from November 10 to January 10 include raccoon, possum, skunk, civet cat, and badger. There is a continuous open season on red and gray fox, weasel, ground hog, wolf and coyote. The season on beaver is closed except under permit.

MORE HANCOCK COUNTIANS INDUCTED INTO SERVICE

Raymond D Rollefson, Hanlontown; William DeBruyn, Woden; Gordon D. Specht, Garner; Kay C. Elling, Garner; Kenneth H. Olson, Britt.

The following boys reported at the Legion Hall, Britt, October 16, to go to Ft. Snellin, Minn., for a pre-induction physical examination

Palmer T Brones, Forest City; John Adams, Jr., Britt; Robert L. Reynolds, Hayfield; Dean Merkel, Klemme; Bernard A. Dankbar, of Garner; Keith A. Palmer, Britt.

The following boys reported at the Legion Mall, Britt, Oct. 18th to go to Ft. Snelling, Minn., for pre-induction physicals:

Edwin W. Tiggerman, Klemme; Adolph R. Bakken, Forest City; Harm Lewerke, Britt; Robert McNutt, Goodell; Kenneth R. Brager, Ventura; Carroll R. Meddaugh, of Woden; Dean C. Eisenmann, Woden, and Russell E. Corlew, Corwith.

The following boys reported at the Britt Legion Hall October 2rd to go to Ft. Snelling for pre-induction physical examination:

John F Roth, Jr., Garner; Gilbert W. Peterson, Britt; Christie Peterson, Goodell; Robert Skelley, Corwith; Gene S. Katter, Garner; Gene C. Tannahill, Forest City; Rafael P. Luna, Hayfield.

Klemme On New Ft. Dodge-Mason City Bus Route

TIME LIMIT PLACED ON WILD GAME LEGALLY TAKEN

Storage Permits May Be Obtained Without Cost

Each year a large number of prosecutions are made for illegal storage of wild game. Often the plea is made at the hearing that "I didn't know there was a time limit on possession of game that was legally taken."

The game possession law is one of the earliest game laws and has been enforced throughout the United States for a long time. In recent years the establishmnt of cold storage lockers in almost every community has made the strict enforcement of this law more necessary than ever before. With a shortage of domestic meat and the extended game season, plus heavy game population, the need for understanding how game may be legally stored is more important than ever. In cooperation with the Cold Storage Locker Association, the State Conservation Commission is making every effort to assist hunters in the legal storage of their game, and at the same time every effort is being made to prevent illegal storage.

Under the statutes all game must be disposed of within 10 days after the close of the season; however, by permission of the Conservation Commission, game, except waterfowl, may be held until June 30 the following year. Permits may be issued to hold migratory waterfowl 90 days beyond the close of the season.

To store game beyond 10 days after the season's close, simply ask the locker operator for an application blank, fill it out, and mail it to the State Conservation Commission, 10th & Mulberry, Des Moines 8, Iowa. All locker plants have been supplied with permit applications They cannot, however, grant the permit. It is issued directly from the State Conservation Commission office without charge.

Game held in lockers may at no time exceed the legal possession mit, and permits will be granted for each license under which game was taken.

U-DELT-EM CLUB MET WITH MRS. C. G. WATERMAN

Mrs. C. G. Waterman was hostess to the U-Delt-Em club at her home Thursday afternoon.

Mrs. George Lawhorn won high score; Mrs. Ed. Jacobs the second high, and Mrs. R. A. Jorgensen the third high score in contract bridge.

Mrs. Martin Barz was a guest.

Bonds Over America

DODGE CITY

Named for Col. Henry I. Dodge, Dodge City, Kansas, became one of the country's most picturesque cattle centers, the cowboy capital of the southwest. There the Santa Fe and Arkansas River Trails met. Travellers came with stories of Indian attacks on wagon trains. Cowboys drove in herds of thousands of cattle for shipment east on the railroad. Others rested and watered herds of young steers there before going north. The songs of soldiers and hunters mingled with the shouts of cowboys. Fearless, spirited men whose grandsons are now turning back the enemies far overseas founded that city. War Bonds furnish weapons and food for the men fighting today to fulfill their ancestors' dreams. *U. S. Treasury Department*

BUS SERVICE TO BEGIN IN KLEMME NOVEMBER 1ST

Klemme To Be Served By Winnebago Lines Starting Thurs.

Clair West,, co-owner of the Winnebago bus lines, was here Monday making arrangements to start bus service here November 1st.

The Winnebago Lines will operate between Fort Dodge and Mason City, running two buses each way daily. The bus from the south to Mason City will leave here at 10:20 a. m. and 7:56 p. m. The bus from the north bound for Ft. Dodge arrives here at 9:00 a. m. and 6:45 p. m.

The ticket office and bus stop for Klemme will be at the Roths Cafe.

The Time Table of bus schedules is published in this issue. It should be clipped out for future reference.

PHEASANT SEASON OPENED SUNDAY IN NORTH IOWA

The thirty-four day open season on ring neck pheasants opened in North Iowa Sunday.

A great many hunters from the southern part of the state came up into north Iowa for the opening day.

There are a lot of birds in Hancock County, but with none of the corn fields yet picked, the birds have plenty of cover and hunters as a rule, had only fair shooting, with but a few getting their limit of four cock birds per day.

Better hunting later in the season, when corn has been picked and the weather colder, should give local hunters all the birds they need.

AVERY 4-H BOYS SELECT VERN SCHLUTER, LEADER

The Avery Hustler boys 4-H club met at the Ostendorf home on Tuesday evening, October 23, to elect a local leader and plan their enrollment campaign for 1946. 12 boys have already enrolled and the prospects are good for a large club of active 4-H members. The boys discussed a local leader and decided to ask Vern Schluter to act as their leader in 1946.

Paul Henderson, County Extension Director, discussed 1946 projects, program and what is expected of a 4-H member.

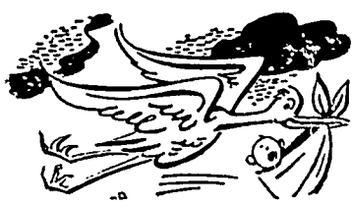
The boys will meet at the home of Delbert Bachman on Friday evening, November 9th. They plan to invite new members.

County Legion Auxiliary To Meet In Klemme November 6

The Hancock County American Legion Auxiliary will meet Nov. 6th at 2:00 p. m. at the Community hall in Klemme.

The Klemme Legion and Auxiliary will hold their regular meeting on Tuesday evening, November 6th. Mr. and Mrs. Lloyd Sherwood and Mr. and Mrs. Earl Ruka are on the serving committee.

HELLO, FOLKS!



Mr. and Mrs. John Trampel are the parents of a baby son born to them Thursday, October 25 at the Lutheran Hospital at Hampton.

* * *

Mr. and Mrs. Louis Stahl are the parents of a baby boy born to them on Thursday, October 11th. Mrs. Otto Schlawin is at the Stahl home to help care for the new arrival.

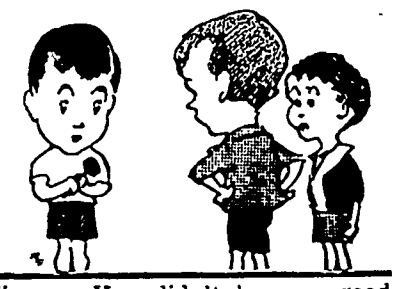
GOOD MORNING, MISTER MANN, WANT TO SEE THE BOSS ?
NAW, I JUST DEAL HERE GIRLIE, TO GET A LOOK AT THOSE BLUE EYES
O.K., MR. WILT, I'LL TAKE CARE OF YOUR ORDER
O.K., BEAUTIFUL, YOU KNOW, IF IT WASN'T FOR YOU I'D NEVER DEAL HERE!
CASHIER? PUT AN EXTRA FIVE IN BLONDY'S PAY ENVELOPE- WHAT? SURE WE CAN AFFORD TO- I'M GON'NA CUT OUT MY ADVERTISING!

CAKE EATER



Jimmy—You didn't have a good time at my party?

Johnny—Sure I did.

Jimmy — Then why aren't you sick?

It Pays to be Bad

Boy—Please, Doctor, come to our house quickly.

Doc—Why, who's sick?

Boy—Everybody but me. I was naughty and they wouldn't let me have any of the mushrooms father brought home from the woods.

Hoarding

Lottie—Why do you suppose old Mrs. Smith puts all her money under her pillow at night?

Dottie—I guess she wants to make believe she has enough to retire on.

How It Works

Customer — How much is that beef?

Butcher—That's our best 65-cent cut.

Customer—Did you raise it yourself?

Butcher—Yes, it was 55 cents yesterday.

Condition Critical

Myron (visiting friend in hospital) —Say, that's a swell-looking nurse you've got.

Byron—I haven't even noticed her.

Myron—Heavens, man, I had no idea you were that sick!

Higher Mathematics

Teacher—If John had four apples, Harry had six apples and Tom had nine apples, how many apples would they have all together?

Pupil — Could you make that onions?

Teacher — What's the difference?

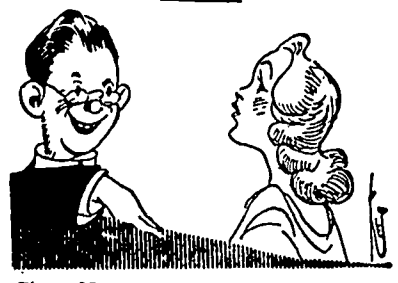
Pupil—I know my onions.

Shopping Day

Customer — Do women's slacks come in odd sizes?

Clerk—No, they get in that shape from being worn.

YOU'RE GRAND



She—No, I can't marry you. The man I marry must be upright and square.

He—You don't want a husband. You want a piano.

Nature Study

City Boy—What do you call these beautiful leaves I've just picked?

Country Girl (horrified) — That? Why, it's poison ivy!

C. B.—Well, don't get excited, I'm not going to eat them!

Postwar Planning

Veteran—I suppose that in the years to come I will have to make a living by my wits.

Girl Friend (dreamily) — Well, half a living is better than none!

DECEITFUL RASCAL

Angelo had been hired to work with a road gang high in the mountains and had been warned about rattlesnakes. He had been told, however, that a rattlesnake would always give a warning before striking.

One day as Angelo sat on a log eating his lunch, he noticed a large rattler a few feet away from him coiled and ready to strike. Depending on the information he had been given, he nonchalantly crossed his legs and waited for the signal. Just as he made this move, the rattler struck, landing on the log just a quarter of an inch away from Angelo's leg. For a second there was nothing but dust, and a few hundred feet away Angelo was heard to say: "Son of a gun, what's a da mat you no ringa da bell."

QUESTION OF AGE

Joan—I don't intend to be married until I'm 30.

Jane—I don't intend to be 30 until I'm married.

Old, Old Story

Wifey — Where were you last night?

Hubby—Well, in the first place . . .

Wifey—Yeah, I know all about the first place. Where were you after that?

Bright Side

Joe—This is a funny war in one way.

Bill—What way?

Joe—The Yanks are on one side and the jerks on the other.

Fair Enough

Her—Do you love me?

Him—Madly!

Her—Would you die for me?

Him—Well, er—no. Mine is an undying love.

One Thing Safe

Agent—Do you want all your office furniture insured against theft?

Manufacturer — Yes, everything except the clock. Everybody watches that.

Dough-nut

Mack—There is going to be a bread shortage.

Jack—That won't bother me any.

Mack—Why not?

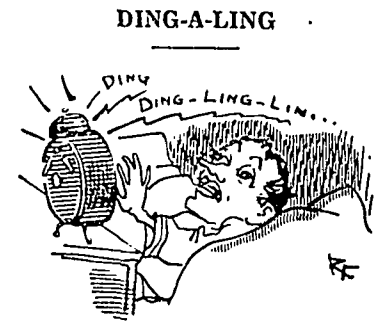
Jack—I only eat toast.

Old As You Want

Tommy—My granddad is 70 years old.

Jimmy — That's nothing. My grandma will be a 170 if she lives long enough.

DING-A-LING



John—What has done most to arouse the working classes?

Mary—I give up.

John—The alarm clock.

Didn't You Know

Dumb—What is the purpose of letterheads?

Dora—So you can find out the name of the man who signs the letter.

Parsonage Pun

Stranger—I want your father to marry us and this is the girl who is to be my wife.

Preacher's Daughter — He'll be very glad to mate you, I'm sure.

Knot So Good

First Acrobat—How did you ever learn to walk a tight rope? Don't tell me you picked it up yourself!

Second Acrobat—No, it has to be taut.

Double Dose

Dora—My father and mother are cousins.

Cora—So what?

Dora—That must be why I look so much alike.

Washed Away

Nit—Why doesn't water leave the shore?

Wit—Probably because it's tide there.

Mind Your Manners

Stranger—Little boy, would you like to show me the post office?

Boy—I'd like to, sir, but my mother says it's impolite to point.

Appropriate

Wifie—What's the name of the milkman's daughter?

Hubbie—Rosie O-Grade-A.

Correct

Nit—What is an octogenarian?

Wit—A fellow who takes care of octopuses.

Cotton Damage

Most of the ginning damage to cotton occurs during the first three to four weeks of the ginning season. The cotton is "green" and damp because of the high moisture content of the seed.

Cotton Pickers

The leaves of the cotton must be removed by chemicals in order for picking machines to do the best jobs. Cotton is easily stained by green leaves and this makes dyeing of the cotton difficult.

Garden Superstition

As late as 1740, people in New England thought potatoes would shorten men's lives and make them unhealthy.

Towel Laundering

Increased use of towels r more frequent laundering. towels straight on the line than by a corner. After usin towels, spread them out on ra dry instead of folding or bun them. Never pile wet towels floor or in a laundry bag. towels can mildew overnight weather.

Palm Wine

Fermented palm wine is used as a yeast substitut bread making in Liberia.

Canned Carp

A Minnesota manufactur about to can carp and mar grated, tuna-style, under the of "Lakefish."

Blooming Hats

It took clothes-ration points for an Australian girl to buy a hat. Knowing this, United States soldiers often brought to their dates specially made headpieces of fresh flowers. This custom, started by our troops, became the rage in hat-scarce Australia.

Progressive Century

The barometer and the thermometer were developed in the 17th century

Heating Safety

One of the most notable innovations in safe heating is the wet base boiler in which water circulates under the ash pit. The fact that the boiler can be placed on a combustible floor is of interest in connection with the trend toward the basementless house In such houses it is often desirable to install the boiler on a wooden floor in a utility room or kitchen Other safety features of modern boilers are foot-treadle door openers, ball-shaped, air-cooled handles and side shakers, making it easier to open and close doors.

Lucky Stones

Emeralds were once believed to be beneficial to the eyes and amethysts were thought to prevent drunkenness, according to Encyclopaedia Britannica. The belief in lucky stones still exists.

Bath Banishes Blues

According to etymologists, the English word "bath" comes indirectly from a Greek word meaning "to drive sadness from the mind." Which goes to prove again that the classic Greeks were a modern people and that they knew the full value of bodily cleansing. Bathe frequently and thoroughly, and thus "drive sadness from the mind."

Plan Baths

If the man of the house has been accustomed to taking his daily shower in the morning, reserve this time for him. The children might bathe in the evening, alloting the time according to their ages and when they go to bed. The younger children might be bathed before dinner, older children later. Plan your own bath for whichever hour will give you the most relaxation.

Eggs Nutritious

Eggs help keep the body healthy. They make strong muscles and red blood. A child needs four to five eggs a week. An older person needs three to five eggs a week. Eggs may be eaten plain, or mixed in other foods.

Whip Soap Flakes

Whip your soap flakes in a little hot water with an egg beater and you will need fewer flakes and get better results.

Youngsters' Party Delight—Ice Cream Clowns
(See Recipe Below)

Children's Party

How long since the youngsters had a party of their own? It doesn't have to be birthday time to celebrate, because parties for the younger set are fun to have, and essential for developing social poise.

Parties like this are easy on mother because refreshments must necessarily be simple. A little imagination and flair for decoration will do the rest.

Good wholesome food prepared attractively will go a long way toward satisfying the little guests. Add a few gay tablecloths and napkins, some easy but exciting games and you have all the ingredients for a successful party.

If you are serving sandwiches, cut them into shapes with animal cutters. A cool glass of milk, or hot chocolate with a frothy blob of whipped cream—now returned to the grocery shelves—will bring forth cheers from Jimmy's or Joan's friends.

The favorite dessert is cake or cookies with ice cream of course! Anything you can do to make this latter partyfied will all be on the credit side of the party.

Now that cheese and meat are easier to obtain, you can again have fun with sandwiches. Not too much seasoning, though, because youngsters' stomachs are sensitive. Here are some good suggestions:

Bologna Filling.
(Makes 15 to 20 sandwiches)

1 pound bologna
½ cup chopped pickles or relish
1 cup mayonnaise
1 tablespoon minced onion
Dash of tabasco sauce
3 hard-cooked eggs
½ teaspoon salt
1 cup ground raw carrots
½ cup chopped celery

Grind bologna and mix thoroughly with relish, mayonnaise, onion and sauce. Divide in half and to one part add 3 hard-cooked eggs, chopped, and ½ teaspoon salt. To the other half add the carrots and celery.

Deviled Egg Filling.

4 hard-cooked eggs
½ teaspoon salt
¼ teaspoon pepper
¼ teaspoon dry mustard
4 teaspoons vinegar
1 tablespoon chopped parsley
4 tablespoons mayonnaise

Chop the eggs fine. Add other ingredients and mix well.

Deviled Cheese Filling.

½ pound mild cream cheese
1 small onion
3 canned pimientoes or chopped green or red peppers
3 hard-cooked eggs, chopped
¼ teaspoon salt
½ teaspoon paprika
4 tablespoons mayonnaise

Grind the cheese, onion and pimiento. Add the eggs, seasoning and mayonnaise. Mix thoroughly.

Fruit salads, which contain well-liked fruits, are a nice contrast to sandwiches at children's parties. This one will be high in favor:

Orange, Pineapple and Apple Salad.
(Serves 6 to 8)

3 oranges, peeled and diced
3 slices canned pineapple or 1 cup tidbits
1 unpeeled red apple, diced
1 cup seeded grapes, slivered
½ cup pitted dates, cut in small pieces
⅓ cup mayonnaise

Mix fruit with mayonnaise and chill very thoroughly. Serve on shredded lettuce.

During the cooler weather, it is often advisable to have a hot dish for the youngsters to start things off right. Now that cheese is again available, it might be a good idea to serve the following spaghetti dish:

Creamy Spaghetti.
(Serves 6)

4 tablespoons butter or fat
4 tablespoons flour
1 teaspoon salt
⅛ teaspoon pepper
2 cups milk
½ cup grated American cheese
¼ cup chopped green pepper
¼ cup chopped pimiento
3 chopped hard-cooked eggs
2 cups cooked spaghetti (⅓ pound uncooked)

Make a white sauce of the butter, flour, salt and pepper. Blend in milk, cheese, pepper and pimiento. Add eggs and spaghetti. Pour into a greased baking dish and bake 35 minutes in a moderate (325-degree) oven. Turn onto a hot serving platter and garnish with chopped stuffed olives or pickles.

Simple foods made to look pretty are a big hit at any party and doubly so if the feeds are ice cream and cookies. In this dessert to top off the festivities, a plain cookie forms the ruff of the clown's suit, a ball of ice cream makes the head with raisin eyes and cherry nose and mouth. An inverted ice cream cone makes the clown's hat.

Ice Cream Clowns.
(Serves 6)

6 large cookies
1 quart vanilla ice cream
6 cones
Seedless raisins
Candied or maraschino cherries

Arrange cookies on a large plate. In center of each place a ball of ice cream. Top each ice cream ball with an inverted ice cream cone. Decorate each ball with raisin eyes and cherry nose and mouth.

Vegetable Dinner.

Remove the leaves from the cauliflower and cut off any bruised or dirty spots. Place it, top downward, in a deep bowl of cold salted water and allow it to stay there about half an hour to draw out dust and other impurities. Cook it whole in boiling water, uncovered. Cook 15-25 minutes until tender. Add about ½ cup milk to the water in which it is boiled—it will keep the cauliflower white. Lift out the cauliflower carefully and allow it to drain in a warm place.

Scrape the two small bunches of carrots, dice them and add them to briskly boiling water. Salt them and boil them until tender—about 10-12 minutes. Drain and butter.

Released by Western Newspaper Union.

Children's Party Menu.

Lynn Says:

Don't Ration Eye Appeal: Foods that look their best usually taste the best, too, because they've been cooked and served properly.

When garnishing daily dinner and luncheon platters, simplicity is the theme. A few freshened carrot tops, lettuce leaves, strips of green pepper or tomato wedges make the difference between the family's liking the food and merely eating it quietly.

Candles, simple flowers or a bowl of fruit add to the table immensely. They even seem to make the food more palatable.

Serve meat balls and chops on a bed of watercress and watch the difference.

Or, cut grapefruit rind into fancy shapes with a cutter and set them against a background of green.

Plug Shakers

When refilling salt and pepper shakers that have corks in bottom, or which have fallen inside, remove the cork and discard. Then paste mucilage paper over the hole. Or use adhesive tape.

Fires Costly

Every day in the U. S. there are 1,800 fires, 28 deaths caused by fire in 1,000 homes, 130 stores, 100 factories, 7 churches, 7 schools and 3 hospitals

Bike Passenger

You invite disaster when you carry another person on your bike

Clever Washcloth

Here's a clever way to use up those left-over slivers and scraps of toilet soap. Put them into a small turkish toweling bag when taking a bath; this bag full of soap can be put into the tub and you'll have wash cloth and soap in one.

Cleaning Diamonds

To clean diamond rings, cover them with wood alcohol and let stand for five minutes. Remove and polish with white tissue paper.

Hanging Trousers

Best way to hang trousers is upside down using a hanger with clips.

The READER'S DIGEST OFFERS dignified work—extra income to people with a little spare time

America's most widely read magazine—The Reader's Digest—can use a few more Community Representatives in this locality.

The work is pleasant and will take little time. It offers an easy way to make money. Our Community Representatives—young and old—are from every walk of life; busy, intelligent people who welcome this easy dignified means of adding to their income. They do not need to be the salesman type.

Although our readership is growing rapidly, still 4 out of 5 families are not yet subscribers to The Reader's Digest. By introducing the magazine to friends and acquaintances, you'll earn their hearty thanks...as well as liberal profits. By approaching strangers, you can also acquire new and valuable personal contacts.

Further, we have decided—for a limited time—to accept subscriptions from men in the service ...or who have been in the armed forces and are now discharged and back home... *at half price.*

In addition, many people whose subscriptions are about to expire will be entering their renewals at this season. By calling these people and forwarding their orders to Pleasantville, you receive generous profits.

For complete details of this Community Representative plan, mail the coupon below or a penny postcard to ALLAN SCOTT, The READER'S DIGEST, Pleasantville, N. Y.

Please send me details of your EXTRA-INCOME PLAN

BOARD PROCEEDINGS

1ST ADJOURNED SEPTEMBER MEETING

Garner Iowa, Sept. 24, 1945

The Hancock County, Iowa, Board of Supervisors met in session on above date with F J Schoun, John Chambers and Penn Eckels present.

The minutes of the last meeting were read and approved as read.

On motion and second the application and bond of Martin A. Bleich for a permit to sell cigarettes are approved and a permit is hereby granted.

Supervisor Eckels is appointed a committee to investigate and cause repairs to be made in D D No. 15 Main, D. D. No. 46-3 and D D 1 and 2.

Supervisor Chambers is appointed a committee to investigate and cause repairs to be made in D. D. No. 18 Main and D. D. No. 54-121.

Supervisor Schoun is appointed a committee to investigate and cause repairs to be made in D D. No. 52-54-17.

On motion and second the bond of Mary M Gahan, Deputy County Superintendent, is approved.

On motion and second the bond of Booth & Olson Contractors is approved.

In the matter of the gravel pit lease whereby Hancock County, Iowa, leases a tract for gravel pit described as follows That part of the NE¼ SE¼ of section 31-97-25 bounded and described as follows Commencing at the SW Corner of said NE¼ SE¼, thence W 603 feet to the point of beginning, thence W. 330 feet, thence N 630 feet, thence E 410 feet, thence S. 172 feet, thence W. 80 feet, thence S 458 feet to a point of beginning, containing 5.1 acres

WHEREAS, Hancock County, Iowa, desires to lease the hereinbefore describe tract for a period of 15 years from and after the 1st day of July, 1945, at an agreed rental in the sum of $3 570.00 to be paid at the time of the execution of this lease

BE AND IT IS THEREFORE RESOLVED by the Board of Supervisors of Hancock County, Iowa, that a lease be executed for the tract described in the preamble hereof to be used as a gravel pit and Chairman Penn Eckels be and he is hereby authorized and ordered to execute said lease in behalf of Hancock County, Iowa

BE IT FURTHER RESOLVED that the County Auditor be and he is hereby authorized to draw a warrant on the construction fund of Hancock County, Iowa, in the sum of $3,570 00 in full payment of said gravel pit upon the execution of the lease thereon

The foregoing resolution was offered and read by Supervisor Schoun who moved its adoption was seconded by Supervisor John Chambers, whereupon the Chairman placed the motion of its adoption and upon roll call the vote thereon is F J. Schoun, Penn Eckels and John Chambers, aye. Nays none

Whereupon the Chairman declared the resolution duly adopted.

On motion and second the petition of John Goll et al to change the outlet of proposed Hancock County, Iowa, drainage district No. 142 from station O to Station 33 is hereby referred to Engineer C. F. Merten for investigation and report.

In the matter of a hearing on the report of the appraisers appointed to appraise damages on account of the establishment of D D No. 142, Hancock County, Iowa, petitioned for by John Goll, et al.

WHEREAS pursuant to a resolution adopted and approved on September 10, A D, 1945, this date was fixed for a continuation on the hearing of the establishment of D. D No. 142, Hancock County, Iowa and to hear the report of the appraisers appointed to fix damages and whereas C F Merten heretofore appointed Engineer has filed an amended report which report does recommend that a lateral No. 1-B be constructed having its outlet at station No 18 on lateral No. 1 and running thence East through the SE¼ SW¼ of section 11, Township 95, Range 24, and terminating on the East side of the North and South highway through the center of said section 11, approximately 60 feet North of the Highway on the South side of said section 11 Said lateral to be constructed of 6 inch tile and the cost is estimated at $360 00.

Said report further recommends that the outlet of the main ditch be changed from Station O to Station 33, thus resulting in an estimated net cost reduction in the sum of $2 726.50.

BE IT THEREFORE RESOLVED by the Board of Supervisors of Hancock County Iowa, that the report of the Engineer as amended be approved and said drainage district as petitioned for by John Goll et al and as amended in the report of the Engineer be established as recommended in the report of the Engineer as amended and shall henceforth be known as D D No. 142 Hancock County, Iowa

BE IT FURTHER RESOLVED that the report of C. F. Merten, Walter Kahl and Mark F. Miller, appraisers heretofore appointed to fix damages on account of the construction of D D. No. 142, Hancock County, Iowa, be amended and the following damages are hereby allowed

Gladys Reuber	$ 745 00
Ben Goll	180 00
John Goll	480.00

Said hearing on damage reported by the appraisers was held and final action thereon taken in accordance with and as directed in Section 7451 Code of Iowa, 1939, and laws amendatory thereto.

The foregoing resolution was offered and read by Supervisor Chambers who moved its adoption, was seconded by Supervisor Schoun, whereupon the Chairman Penn Eckels placed the motion of its adoption and upon roll call the vote thereon is F. J Schoun, Penn Eckels and John Chambers aye. Nays none.

Whereupon the Chairman declared the resolution duly adopted

On motion and second the Board adjourned to Wednesday, October 3, A. D 1945, at 9 o'clock A M

PENN ECKELS, Chairman

ATTEST: FRED C. MISSAL,
County Auditor.

2ND ADJOURNED SEPTEMBER MEETING

Garner, Iowa, Oct 3, 1945

The Hancock County, Iowa, Board of Supervisors met in session on above date with F. J. Schoun, Penn Eckels and John Chambers, present.

The minutes of the last meeting were read and approved as read.

On motion and second notice of Warning to Depart is hereby ordered served on Mr. and Mrs. H. D. Leith, Mr. and Mrs. Eric Meyer and Stenus Harms and family.

On motion and second the petition of A. L. Loomis, et al. for a cleanout of a part of the Main in D. D. No. 15, Hancock County, Iowa, is hereby referred to C. F. Merten, Engineer, for investigation and report.

On motion and second the official bonds of Rufus C. Welter, Chester S. Rice and Daniel E. Williams, members of the Hancock County Soldiers Relief Commission are approved.

On motion and second the bond of C. F. Merten, Engineer, is hereby approved on D D No 141

On motion and second the quarterly reports of County Recorder Fern Peck Katter, County Clerk, Elmer Raw; and Auditor, Fred C. Missal, are approved.

Supervisor Schoun is appointed a committee to investigate and cause repairs to be made in D. D. No. 7, D. D. No. 113, and D. D. No. 52-54-17.

BE IT RESOLVED that the claims hereinafter set out be allowed in amounts designated thereon and the County Auditor be and he is hereby authorized to draw warrants on the several funds of Hancock County, Iowa, in payment of such claims in amounts set opposite each claim:

County Auditor.

3RD ADJOURNED SEPTEMBER MEETING

Garner, Iowa, Oct. 15, 1945

The Hancock County, Iowa, Board of Supervisors met in session on above date with F. J Schoun, Penn Eckels and John Chambers present

The minutes of the last meeting were read and approved as read

On motion and second the application and bond of the Nemetz General store for a permit to sell cigarettes are approved and a permit is hereby granted

Supervisor Chambers is hereby appointed a committee to investigate and cause repairs to be made in D D No. 9 Main

In the matter of D D No. 142 petitioned for by John Goll et al which district was duly established by the Board of Supervisors of Hancock County Iowa, at an adjourned session on the 24th day of September A D, 1945, all in accordance with Chapter 353 Code of Iowa 1939 and laws amendatory thereto and

WHEREAS it is deemed for the best interests of the taxpayers of said district that a letting on the construction of drainage district No. 142, Hancock county, Iowa, be held at the earliest possible date

BE AND IT IS THEREFORE RESOLVED by the Board of Supervisors of Hancock County, Iowa, that the 30th day of October at the hour of 1 30 P M at the Courthouse in Garner, Iowa be and the same is hereby fixed as a time and place for said letting

The County Auditor be and he is hereby ordered to publish notice of said letting in the Klemme Times, a newspaper published at Klemme, Iowa, which notice shall state the time and place of letting, the date for commencement and completion, the approximate amount and kind of work to be done and material to be used, that bids will be received in sections and on the whole both labor and material that the bidders will be required to file a certified check on some Iowa bank in an amount equal to 10% of the bid, that the Board reserves the right to waive technicalities and reject any or all bids.

The foregoing resolution was offered and read by Supervisor John Chambers, who moved its adoption, was seconded by Supervisor Schoun, whereupon the chairman placed the motion of its adoption, and upon roll call the vote thereon is F. J. Schoun, Penn Eckels and John Chambers, aye. Nays none.

Whereupon the chairman declared the resolution duly adopted.

WHEREAS, C. F. Merten, engineer, Walter ahl and Wm. Boehnke were heretofore appointed commissioners to view and classify lands and assess benefits in the watershed of D. D. No. 141, Hancock County, Iowa, all in accordance with section 7464 Code of Iowa, 1939, and laws amendatory and

WHEREAS, said commissioners did qualify as by law directed and did view said lands and did assess benefits as by law directed and did file their report on the 15th day of October, A D, 1945, which report sets out the assessment against each tract and parcel of land and highways in the district.

BE AND IT IS THEREFORE RESOLVED by the Board of Supervisors of Hancock County, Iowa, acting for and in behalf of D D. No. 141, Hancock County Iowa, that the report of the commissioner heretofore appointed to classify lands in D. D. No. 141, Hancock County, Iowa and the assessment of benefits for the construction of said district is hereby tentatively approved and a notice of hearing thereon will be had at the Courthouse in Garner, Iowa, on the 26th day of November, A. D. 1945, at the hour of 10:30 a m. at which time taxpayers in said district will appear and show cause why said classification and assessment designated shall not be taxed against the lands in the watershed of Drainage District No. 141, Hancock County, Iowa All objections to such assessment of benefits shall be filed in writing at the office of the County Auditor in Garner, Iowa at or before the hour set for hearing thereon.

The County Auditor be and he is hereby directed to cause notice of such hearing to be published in the Britt News Tribune, a newspaper of general circulation, published at Britt Iowa, setting out the names of the owners of said lands in D D. No. 141, Hancock County Iowa, together with the description of the real estate and the designated assessment each tract, parcel of land, highways and railways in the district is charged with

The foregoing resolution was offered and read by Supervisor John Chambers who moved its adoption, was seconded by Supervisor F. J Schoun, whereupon the chairman placed the motion of its adoption and upon roll call the vote thereon is F. J Schoun, Penn Eckels and John Chambers aye, Nays none.

Whereupon the chairman declared the resolution duly adopted

On motion and second the Board adjourned to Tuesday, October 30, at 9 o'clock a. m.

Penn Eckels, Chairman.

Attest: Fred C. Missal, County Auditor

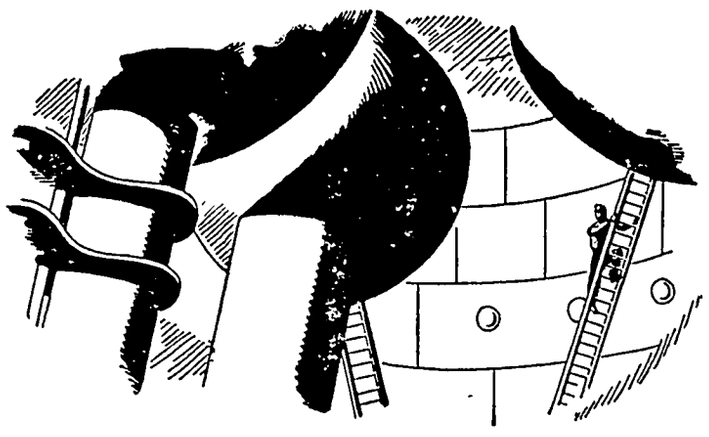
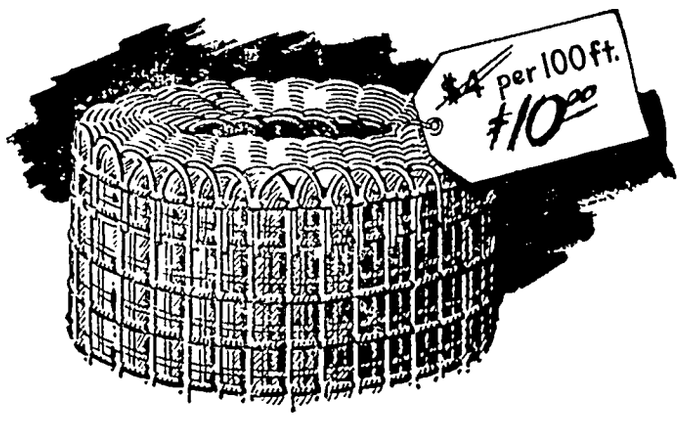
VICTORY LOAN



PROTECTING AMERICA'S FUTURE is a many-sided job . . . one that's up to *all* of us. For instance, your money in Victory Bonds will help to continue the planning and research that shortened the war . . . and will assure the peace!

THE ROAD BACK from war will be eased for our fighting men by our purchase of Victory Bonds *now*. Held by millions of Americans, bonds will provide a solid reserve of buying power to assure steady jobs for returning veterans.



YOUR DOLLARS IN VICTORY BONDS are needed to protect our country in another way. By buying bonds, we will keep the lid on prices of scarce goods . . . help prevent runaway inflation with its sure follow-up of depression.

NATIONAL SECURITY, and your own *personal* security, are both served by Victory Bond purchases. Victory Bonds provide a reserve for you for farm improvements later . . . in a nation kept healthy and prosperous by Bond investments!

Hancock County Total Quota $543,000

"E" BOND QUOTA $353,000.00

QUOTA ALL OTHER BONDS $190,000.00

Community Quotas Are As Follows:

HANCOCK COUNTY HAS ALWAYS GONE OVER ITS QUOTA — WE MUST NOT FAIL IN THE VICTORY DRIVE

Hancock County War Finance Committee

Cpl. Billy Zabilka Tells Of Trip He Made Through Ireland

Warrington, England

Dear Jergies,

Am now typing my article which has many grammatical errors, but I believe you will be able to interpret my meaning. The reason for the delay is that I've had to revise it to make it more interesting reading.

My Tour To Ireland

The morning of the twenty-fourth of May, 1945, found me hustling here and there packing my clothes in what we in the air forces call a bombardiers' bag. The time was 7:00 a. m and I had just a few minutes left to get to the flight operations office. When I arrived I asked the sergeant behind the counter if there were any rides to Ireland, to which his answer was a casual "no." However, that didn't discourage me one bit as I heard one of the pilots saying in a low voice that he was going to Scotland at 1:00 p. m. and I could go with him. After eating my dinner hurriedly, I dashed back to operations and waited for the pilot When I saw my name put on the flight orders, I grabbed my bag and walked out to the C-47.

At approximately 1:40 p. m. the pilot was warming up the engines and three minutes later found us in the air and on our way to Prestwick, Scotland. Flying over England's land was a thrill as one could see how small the fields actually were and the city planning of the English people. It seems to me that they consolidate their homes to make more room to grow food, which is an especially wise move in war time.

We arrived at the airport near Prestwick at 3:00 p. m. After getting out of the plane we found a "recon" car to take us to the operations office. When we arrived there I found out that it was strictly an ATC base with very few transient planes, so my hopes of getting a ride to Ireland were dashed.

I then went into Prestwick where I boarded a train for Stranraer, Scotland. Upon my arrival at this port city I immediately went to where the boat was docked. Before boarding the boat I exchanged my 3rd class travel warrant for a first class ticket and obtained my embarkation and disembarkation cards. After boarding the ship, the "St Margaret", I obtained a cabin for the night, since we weren't scheduled to sail until 7:30 a. m. of the following day.

When I awakened in the morning I loked out the porthole and saw the coast of Ireland before me I hurriedly washed and dressed, and by 9:30 a. m. I set foot on Irish soil. There was a train for boat passengers waiting to take us to Belfast, and I found it very easy to find access to a seat, although other people were less fortunate.

As we journeyed along I started to draw my conclusion about the Irish scenery, which seemed very depressive to me at first I guess the basis of that reasoning was the sporadic layout of the lakes which in my opinion is dull.

Arriving in the Northern Ireland capital of Belfast at 11:00 a. m I quickly found my way to the American Red Cross, where I reserved myself a bed for my stay in Ireland.

Finding out from the information desk about several stores that sold linen, I set out with the determination to purchase something of Irish make. The first two stores I went into would not sell me any linen unless I had the necessary coupon and they didn't back down on these words as a few clerks do However, when I came to the third store it seemed as if it were a dry cleaning establishment as there was nothing on the counters to sell. But in a few moments I found myself looking over several different shades and designs of handkerchiefs and table center pieces After spending approximately twelve dollars on the linen I took it back to the Red Cross. At 2:00 p m. I boarded the bus to Carrickfergus. My reason for going there was to see the famed castle and the cathedral which is related to it.

The castle called Carrickfergus Castle, was built in 1180 under the supervision of John De Courcy, a Norman knight. The name Carruckfergus comes from the story of a King Fergus who was in his boat sailing for Ireland. All at once a storm came and washed his boat on the rocks. "Caruck" means rock and therefore the name Carruckfergus.

As I entered the front gate I could see the thickness of the wall which appeared to be nine feet. The height of the gateway was approximately fifteen feet. Looking up I could see a large beam-like object with iron teeth protruding downwards which is called the "portcullis". In the center to the ceiling one could see a doorway which is very similar to those leading to the attic in many homes This doorway was very cunningly used in the earlier days. Suppose we use an example of how the castle is defended. The enemy approached in all their gaiety of armour, swords and bows and arrows. As they approached the gateway the defenders dropped the "portcullis", severing their chances of entering the courtyard. After a group had gathered at the gates, the defenders cleverly opened the doorway in the ceiling and poured molten lead upon the invaders. Higher up in the castle were men, equipped with their bows and arrows, raining death upon any reinforcements which the enemy might use.

Now that the battle is finished, let us get along with the rest of the tour. The room adjacent to the "lead-pouring room", of all things, was King John's private chapel, which was built in 1210 A. D. The structure of this small chapel as well as the castle itself is of Norman architecture which we can relate to John De Courcy, the builder.

As one enters the courtyard he can see at all sides where once the five-ton cannons stood. Each of the cannons fired a powder ball weighing thirty-two pounds.

The guide led me into the inner fortress where upon the walls hung old armour, spears and pistols of the 17th and 18th centuries. Also in this room was an old canoe which appeared to have been made from a tree trunk. It was mentioned to us that it had been discovered about five years ago and they guess its origin to date to 500 B. C. That may be good for Robert Ripley. but I'm still inclined to believe that that tale is false In the floor lay a door to a well, which furnished water to the inhabitants of the castle in those bygone days.

We went up some more steps that led to the king's courtroom. The size of the room appeared to be thirty feet by thirty feet. All the windows in this room were called windoors in these days. We came down the steps, ninety-two in all, out into the courtyard and through the front gate whereupon I produced the necessary fee and was directed to the cathedral.

The cathedral, which was built in 1164, was finished in 1213 under the same supervision as was the castle. However, the difference in the architecture was that it was of Gothic structure. About halfway back was a window built especially wide enough for those people who had leprosy to some outside the church to listen to the services. Since my guide was very inexperienced, I was unable to obtain the information I had intended to procure.

Seeing that there was nothing else of interest in this town I boarded a train back to Belfast. The time was now 6:30 p. m but knowing that the sun doesn't set before 10:00 p. m. over here, I took the next train to Antrim. When I arrived I walked about three miles to where I viewed the largest lake in the United Kingdom, called Lough Neah. I strolled about here for a half hour, then decided it was time for me to get back to Antrim to catch my train to Belfast

The following morning I was up bright and early to catch the train leaving for Port Rush where the Giant's Causeway is located. After purchasing my ticket I noticed the train was just going out so I politely pushed the gateman aside, and ran along the last train car where I pulled myself through a window. Looking back I saw the gateman shaking his fists.

I arrived in Port Rush at 11:00 a. m. As I passed through the gate there stood a taxi driver, who stopped me. He asked if I were going to the Giant's Causeway and when I asked him the fee, he told me that his price was seventeen shillings. I knew very well that he would take me, but I made him earn it, and played the "hard-to-get" attitude. When he was about to call it "quits" I thought it the opportune time to accept his offer He later said that most Americans say "yes" right away, but that I was certainly stubborn.

As we toured along the countryside viewing the cliffs and the North Atlantic ocean to the left of us, the driver pointed out several rock formations to me. Some of the formations are an elephants trunk, a giant's head, the lady's washing yard, four boulders taking the form of sugar loaves (cubes). and a lion's paw.

About a mile farther along the road we came upon Dunluce castle which tradition says was built in the 10th century by an Irish chieftain named M'Keown. But the remains of the castle now standing were rebuilt in 1590 by Sir James MacDonnell of Norman ancestry There were many battles fought over this castle including one waged by John De Courcy, who was completely defeated and returned to Dublin. Since this castle is gradually decaying, steps have been taken by the National Monument Department of Northern Ireland, to prevent the loss.

As we came to the headquarters of the guides to the Giant's Causeway, one of them offered me his services, whereupon I produced the necessary change. From these headquarters to the Causeway was about a fifteen minute walk. When we reached this place of interest, I was compelled to pass through a toll gate with my guide.

This Giant's Causeway is probably the most curious assemblage of basaltic columns in the world although they can be found in a few other countries. The legend of this remarkable creation states that Fin M'Cool, a poet and warrior, built the Causeway in order to fight a boastful Scottish giant who defied him. The Scotch giant came over, but went back a much wiser and sadder man.

The Causeway is divided into 3 unequal parts. These are: Little or Western Causeway, the middle section called the "Honeycomb", and beyond this the Grand Causeway. Within these three divisions are approximately 74.000 distinct and perfect columns. Each column has many segments, some of which can be seen,others not. The upper part of the segment which the traveler sees is either concave or convex.

As we rounded the toll gate we veered to our left where we came upon th Giant's well. The water, springing up between the interstices of the pillars, is fresh and pure enough for drinking. One of the stones around this spring has the impress of the giant's knee, where it is said that he stooped to quench his thirst. At the bottom of the well can be seen the pattern of the shamrock. We retraced our steps and came to the middle Causeway, close to the Honeycomb and the "Wishing Chair". Of course, as thousands have done previously, I took a seat and made a wish. After this episode we walked over the pillars to the great Causeway where we viewed 'Lord Antrim's Parlour". "The Keystone' of which it is said that if it were lifted, the Causeway would fall to pieces, is an eight-sided column. Other rock figures which were shown me by my guide were: "The Giants Coffin"; 'The Lady's Fan" (a seven-sided column) and the 'Giant's Loom." All of these were remarkably created and their resemblance is nearly perfect.

Coming out of the great Causeway, one could view the "Giant's Amphitheatre" of which the form is so exactly a half circle that an architect could not make it more so. About 300 yards east of the Causeway stands sixty column's of which those in the center are forty feet high, forming "The Giant's Organ." At the far extremity of the amphitheatre are four basaltic columns which rise to a height of 315 feet, called "The Chimney Pots." Since this was the end of my tour I bade my guide farewell and in the taxi I sped to arrive in Port Rush in time for my train.

I arrived back in Belfast at 4:00 p. m. and seeing I had some time left, I boarded a tram (street car) which took me near the Belfast Castle. After walking up a hill for about forty-five minutes I finally reached the castle. Seeing "No Admittance" signs along the road I boldly went forward into the yard where I was met by the guards. Proving my identity they proceeded to show me as much as they were "allowed" to do. During their speaking I was not permitted to take notes, but after I left the castle I hurriedly put down some of what they had mentioned. The castle being relatively new, was constructed in 1871 by the Earl of Shaftsbury who made a gift of it to the people of Belfast. Standing in the front yard I could see the image of a man constructed in rock, which I found to be the image of King Lear. Since this castle was the headquarters of the British Admiralty, I was unable to walk inside, but I thanked the man for telling me what he could, gave him half a crown, and walked down the hill to catch my tram

Since it was Sunday I thought I would visit the great cathedral town of Armagh, but seeing that quite a group from the Red Cross was going, I suddenly changed my mind and took the 10:30 a. m train to Londonderry. Since most of us have heard the melody "The Londonderry Aire" I thought it would be appropriate to see what the place was like. As I came into the railway station I saw in the harbor approximately twenty-five German U-boats. The following day I read in the newspaper that there were thirty-two U-boats docked there, of which seven came the day I was there.

Londonderry stands on both banks of the river Foyle and about twenty-one miles from the mouth of Lough Foyle. Derry, which means "oak wood or grove", was founded in 546 A. D. by St. Columba, the Irish saint whose missionary efforts brought about the conversion to Christianity of Scotland and North England. King James I granted Derry to certain citizens in London, and thus it was the name of Derry was changed to Londonderry.

I took a late afternoon train back to Belfast, arriving at 9:30 p. m. The scenery between Londonderry and Coleraine is what one expects it to be in Ireland which is very hilly.

I was awakened Monday morning by the sun peeping through the window. As I looked out, to my surprise, I saw cumuli floating about with no sign of rain. By the time I had risen, eaten, and arrived at the bus station it was 10:00 a. m. The ride from Belfast to Langford Lodge, which overlooks Lough Neah about seven miles from Antrim, was very impressive. The road curled along the hillsides as does the Burma road.

Since there were planes at Langford Lodge, I immediately inquired to see if any were flying to Warrington or to anywhere in England. To my amazement, there was a C-47 that was carrying supplies to Warton, England (about seven miles west of Preston).

Just about the time we were to take off, the sun disappeared and it commenced to rain. However, the visibility was still good so we took to the air at 4:05 p. m.. In a short time I could see Belfast below us as we headed out over the sea. With the hum of the engines in my ears, I soon fell asleep. About thirty minutes later someone shook me and pointed out the window to the land below which was the northern port of Ramsey on the Isle of Man. Just fifteen minutes later and I was on the ground heading for the railway station in Preston.

After due time I boarded the train which first took me to Wigan. I changed trains at 9:10 p. m. and fifty minutes later I was in Warrington. If you hadn't realized it, the distance between Wigan and Warrington is only twelve miles.

Arriving in camp at 10:30 p. m. a tired, haggard man, I finally dropped to my bunk and started going over my experiences in my mind. The tour of Ireland was very beneficial to me as I acquired much experience and education. I sincerely hope that this report of my furlough will be of interest to you as well as educational.

My regards,
BILL

SENIOR CLASS NEWS

—Ruth Bell

We are all striving to improve ourselves as the beginning of the second six weeks starts.

In American Literature we have been studying the unit called "The Nation Tested." The unit is composed mainly of Hawthorne's stories which we found to be very interesting.

The French and Indian War and the Revolutionary War have been our topics of discussion in American History.

In Sociology we have been discussing marriages and divorces. For Tuesday, each member of the class wrote a three hundred word theme on "Compulsory Military Training," either negative or affirmative.

We have come to the chapter in Bookkeeping which involves each step we have learned so far.

On Tuesday Mr. Hamilton from Mason City came and gave us a talk.

On Wednesday the Juniors and Seniors journeyed to Garner on the school bus and listened to another speech at the high school. This speech was given by a man from Korea.

The Physics class is studying the unit entitled "Molecular Mechanics."

JUNIOR CLASS NEWS

—Emily Lou Johnson

Last week we elected Class Officers, as follows:

President, Emily Johnson.
Vice-Pres., Maxine Buckley.
Sec.-Treas., Erwin Ausborn.

The Cheer Leaders were chosen and they are Betty Lacey, Ardel Rosendahl and Emily Johnson.

The following people from the Junior Class are in the Pep Band: Peggy Coobs, Elizabeth Goll, Lois Ann Lau, Francis Sherwood, Dean Jacobs, Clarence Larsen and Marcille Josten.

In Sociology, we are discussing marriages and divorces. It is very interesting. We also had to write a 300 word theme on "Compulsory Military Training," either for or against.

We are still working for speed and accuracy in typing.

American Literature will be very interesting this six weeks. We are reading such stories as the "Ambitious Guest," "David Swan" and "Feathertop."

In Economics we are studying the chapter about "Of What Importance is Good Management."

SOPHOMORE CLASS NEWS

—Ben Katuin

We have been studying about animals of ancient times in Biology. Friday we had a test. Tests are not difficult if we really study.

In World History we are studying the great men of the Roman Empire.

We are telling stories and giving speeches in English class.

SEVENTH AND EIGHTH GRADE NEWS

Vivian Westerberg, Teacher

—Harley Barz, Reporter.

The following people have been absent part of this week: Darlene Bachman, Lucille Priebe, Jerry Finders and Don Finders.

We have finished the book "Ol' Paul, The Mighty Logger," and we are starting "The Return of Silver Chief."

The following people in Seventh Grade received 100 per cent in Spelling: La Nelle Harvey, Nellie Grieman, Sondra Bridges, Jo Ann Carpenter and Beverly Pringnitz.

The following people in Eighth Grade received 100 in Spelling: Gloria Haefner, and Lillian Wille.

FIFTH AND SIXTH GRADE NEWS

Mrs. H. G. Voetberg, Teacher

Friday in Art we made Hallowe'en masks from paper sacks. We are going to wear them at our party Wednesday.

Neva Ann gave a very interesting report to us on cotton. She had visited a cotton gin and showed some pictures of places she had seen. She also had a cotton ball. We all decided that after finding out how difficult it was to separate the seeds from the fibres that the cotton gin was a very good invention.

In Sixth Grade History we have just completed our unit on the Greeks. Our next unit will be on the Romans.

FIRST AND SECOND GRADE NEWS

Little Edna Heginger visited our room Friday afternoon.

Those receiving a red star in Second Grade Spelling for the week are: Shirley B., Robert A., Margaret H., Warren T., and David W.

The First Graders have finished reading three Pre-Primers. They are "We Look and See," "We Work and Play," and "We Come and Go."

KINDERGARTEN NEWS

Mrs. Leonard Kaduce, Teacher

Monday we made Jack-O-Lanterns and learned a poem about "Hallowe'en Fun." We all want to make a Jack-O-Lantern for Hallowe'en.

We made a Hallowe'en mask out of a paper sack Wednesday. we had a lot of fun scaring each other.

We have a health train in our room. If we pass the health check-up each morning, we can go on a trip.

Roger was absent from our room this week.

Tropical fireflies go the American firefly one better—they do not only produce lights but go in for colored ones as well.

Theatrical matinees were unheard of until 1880.

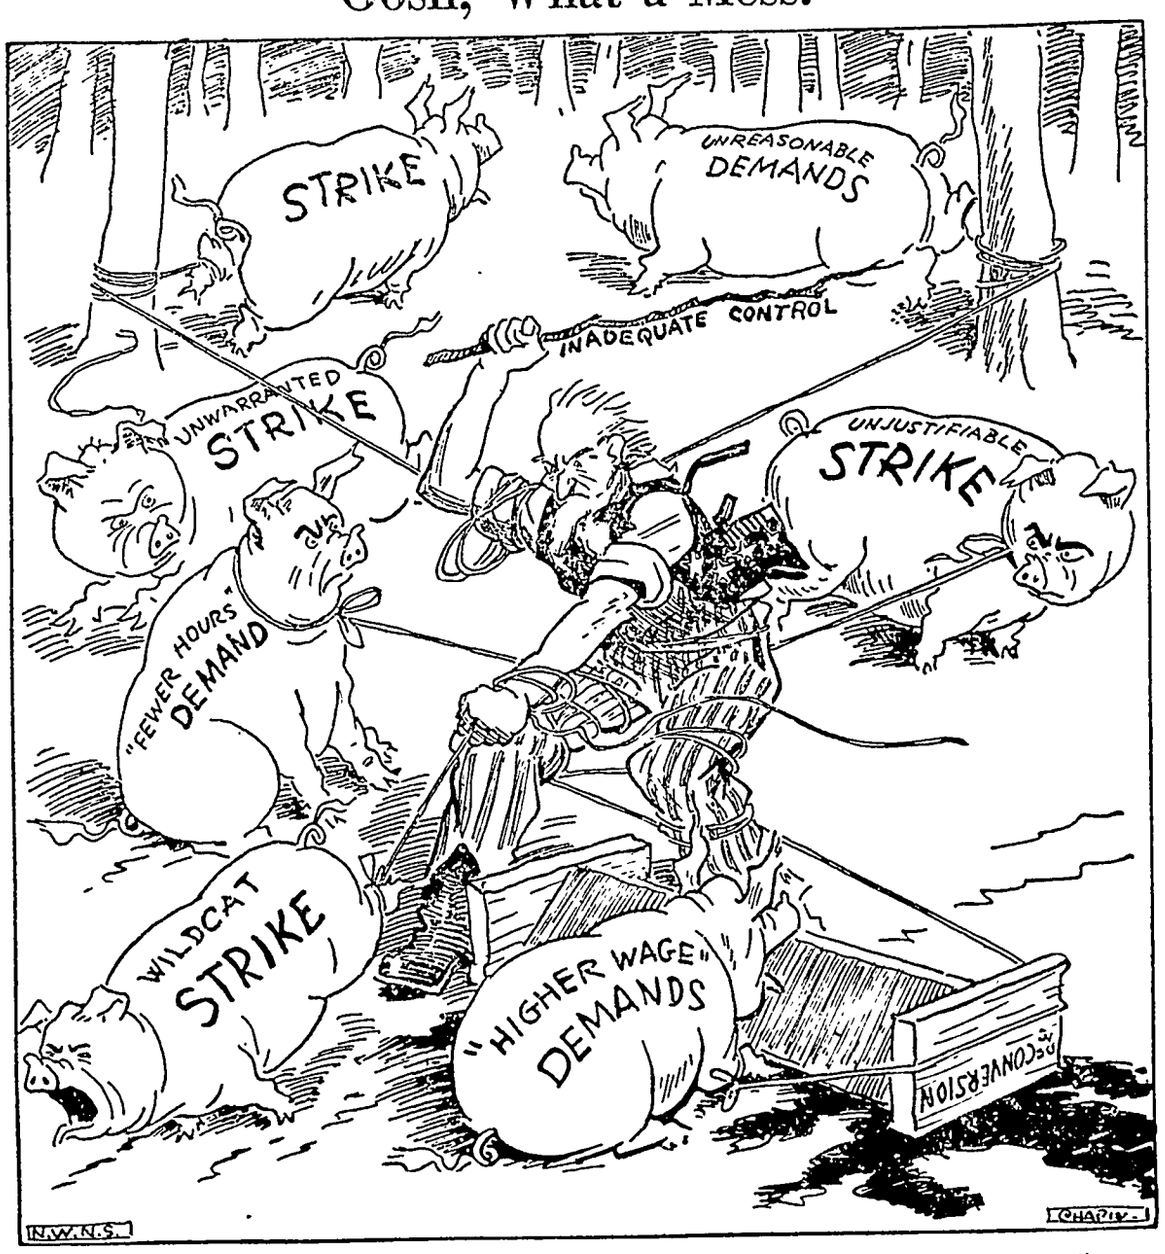
FARMERS ELEVATOR"

'Gosh, What a Mess!



Seeks Quarter-Billion Dollars For USO and Needy Abroad

Rallying to the slogan—"Be Generous in Victory"—community war funds affiliated with the National War Fund in some 10,000 cities and towns throughout the United States will inaugurate this week the third and final appeal on behalf of war-related causes and established home-front health and welfare services with a combined objective of $210,000,000.

Co-operating in this final victory appeal, it is expected that more than 43,000 individual committees numbering many thousands of volunteer workers will solicit contributions from more than 40 million Americans.

Despite termination of the shooting war, all of the organizations participating in the appeal are still called upon to provide vital and essential services for men and women in our armed forces, merchant seamen, prisoners of war not yet repatriated, and homeless and hungry war victims among our allies

Foremost among the war-born organizations, whose essential functions carry over into the post-shooting era is the USO (United Service organization) whose myriad services military authorities have characterized as an indispensable adjunct for sustaining the morale of army and navy personnel Familiar as the "home away from home" for servicemen and women since their entry into the armed forces, USO clubs, canteens, lounges and mobile services are still regarded as essential in sustaining the spirit and promoting the happiness of G I. Joes and Janes who must continue on duty in posts throughout the Western hemisphere USO clubs at debarkation ports, separation centers and in proximity to army and navy hospitals are still charged with the responsibility for letting this personnel know that they are not "forgotten men"—or women.

Revising its program to conform to changing needs, USO now provides at some 500 clubs adjacent to military hospitals, special activities to interest ambulatory convalescents and to aid them in renewing contacts with civilian life Especially trained hostesses render voluntary services in conducting programs designed to efface self-consciousness of casualties and make easier their resumption of normal activities.

Most distant, but regarded by military commanders as most important, USO camp shows, by order of the war department, continue to provide entertainment for the forces of occupation throughout the world. With actual combat at an end and with only routine duties to be performed, entertainment as an antidote for boredom that accompanies inactivity has been prescribed in increased dosage for occupation forces everywhere.

USO camp shows units, varying from two or four members to full-size companies which present duplicates of current Broadway smash hits — musicals, comedies and dramas—are trouping the sea lanes from Hollywood to Honolulu, from Broadway to Berlin, and from Texas to Tokyo, and are keeping high the spirits of occupation troops At debarkation ports, stars of stage, screen and radio participate in round-the-clock entertainment programs when returning troops are awaiting departure for home or separation centers.

A highly specialized and important function of USO camp shows is the entertainment provided for convalescents in army and navy hospitals and at USO clubs nearby. Programs designed to keep up the spirits of casualties and to permit audience participation are especially planned to bring happiness and diversion to these men.

For men of the merchant marine who for many months will be engaged in transporting supplies to occupation forces and in manning the ships returning thousands of our combat troops, United Seamen's service continues to maintain residence and recreation clubs and other facilities to provide comfort, care and diversion in ports throughout the world.

Many thousands of liberated prisoners of war awaiting transportation from enemy concentration centers are provided by War Prisoners Aid of the YMCA with materials for diversion, recreation and education. Until the last prisoner is repatriated, this organization will stay on the job to help make less irksome the continuing period of idleness these men must endure until they are returned to their homes.

In the Allied nations millions of people who face continued hunger and suffering are being aided by the 15 American agencies for foreign relief whose appeals are included in this campaign

Concerning the plight of civilian war victims, President Truman has said: "If we let Europe go cold and hungry, we may lose some of the foundations of order on which the hope for world peace must rest." On his visit to the United States after V-E Day, General Eisenhower told Americans: "Prosperous nations are not war hungry. But a hungry nation will always seek war if it has to in desperation."

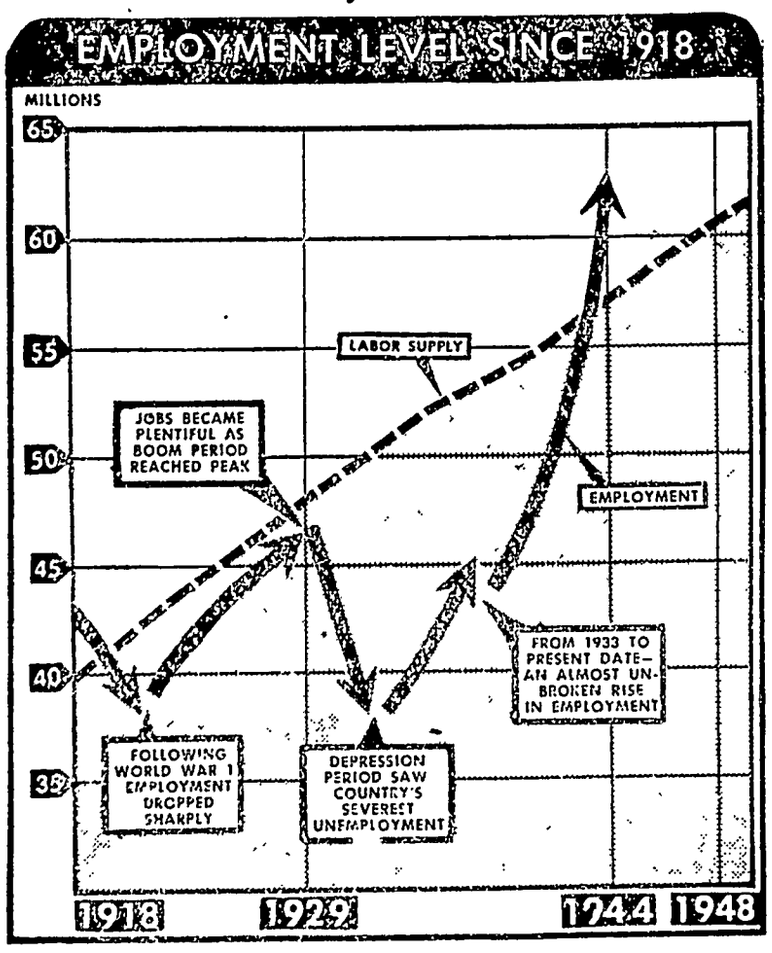
As an indication of the far-reaching assistance afforded by National War Fund agencies, lives of thousands of Netherlanders were saved by the prompt shipment to Holland of the first supplies of hydrolysates ever used in treatment of Europeans. This wonder drug was provided and employed by American Relief for Holland in a desperate effort to check death by starvation of Hollanders so emaciated by long deprivation they were unable to normally assimilate food.

United China Relief, another War Fund agency, organized in this country China's first blood bank which was staffed with American-taught personnel, equipped with American-donated blood plasma, and was flown into China to be used as a "university" for teaching Chinese medics the technique of this life-giving medium.

First supplies of penicillin available for export from this country were obtained and shipped by American Relief for Norway for use in treatment of suffering Norwegians in that long enemy-occupied nation.

All of the National War Fund agencies for foreign relief are engaged in providing emergency aid to supplement the inadequate help which millions of nationals in the Allied nations are able to receive from existing sources. Food, clothing and medical supplies are being shipped as rapidly as transport facilities are available in an effort to allay the suffering that may result from another winter of want.

Those 'Sixty Million Jobs'



The full employment bill has become a major domestic issue and is causing considerable debate. The above chart shows how the employment problem has changed since 1918, and where it stands today as the eventual solution of the problem is being faced.

Healing of the Mind

By Dr. J. B. Warren

Most patients have the same amount of brains; but something happened, likely in early childhood, that gave some a slant on life different from other people. So, just as a surgeon finds it necessary to open the abdomen to find the exact cause of the symptoms and so bring about a cure, so does the psychiatrist find it necessary to go down deep into the conscious and unconscious self of the patient to find the cause of the mental twist or notion that prevents the patient from being like, and living with, normal people.

Strawberry Planting

Summer or fall planting of strawberries is not recommended. Plantings made in midsummer usually result in a poor stand and low yields. Fall planting may give a better stand and the plants may fruit the following spring but the yield will be light

INDIANA COUNTRY EDITOR BUILT CHEMURGIC TRADE

THE LAST TIME I VISITED with Wheeler McMillen, something over a year ago, he was wearing, as he expressed it, skim milk clothes. That included his hat and an attractive tie.

His garb of that day represented, at least partially, the realization of his ambition. As a boy, on Ohio and Indiana farms, he worried about the waste of farm products. On his own Indiana farm he saw much the farm produced unutilized. The corn stalks, the grain straw, the skim milk and other things brought no financial return. As the editor of an Indiana country newspaper, he continued to think and write about those farm wastes. Later, as the editor of a farm publication of national circulation, he solicited aid in finding a solution for the farm waste problem, and along with that, a use in industry of farm products that would increase the farmer's market.

The result was the Chemurgic council, of which Henry Ford has been an enthusiastic backer. Under Wheeler McMillen's guidance that organization has found many industrial uses for farm products, including farm wastes. Some of these are still, more or less, in the experimental stage, though their practicability has been demonstrated. Many others have passed the experimental stage, and are in daily use in the production of commodities. they form the basis of many plastics, in fact, make such plastics possible. What were but a few years ago farm wastes, today are used in the production of automobile upholstering material. The industrial use of soy beans have made of that plant a major farm crop in the United States.

The days of throwing away the corn stalks, the straw, the skim milk and other farm wastes are about over. No other one man is so much responsible for this revolution in farm markets, respresenting increased farm revenues, as is Wheeler McMillen, editor of the Farm Journal.

Wheeler McMillen insists the great majority of American farmers do not want government hand-outs for not producing; that they do want, and are entitled to, a profitable market for what, and all, they do produce. To secure that market the products of the farm must be utilized for more than food purposes. They must have a place in industry. He is a practical farmer of the "dirt" variety, and has applied his own farm needs to all the farms of the nation.

The countless innovations in peacetime commodities, that will now be coming along, will utilize in their production, to a very considerable extent, the products of the farms, thanks, largely, to Wheeler McMillen.

Government Family Thrives On Milk of Patronage

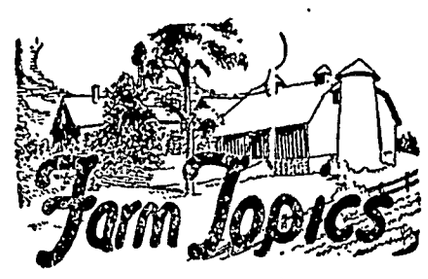
HOW THE GOVERNMENT family grows. A new bureau is born of an emergency. It grows and thrives on the milk of patronage, paid for by the tax payers money. The emergency passes. The purpose for which the new bureau or department was born ceases to exist. As a bureau, it is abolished, but the patronage appointed individuals who were, during the emergency, feeding on tax payers milk are not deprived of their sustenance. They are but switched to another nipple. That is what happened in the case of OWI. Its thousands of American employees in foreign lands have been switched from the OWI nipple to that of the state department. It is but a repetition of the same methods that have marked the creation of that enormous institution we call government. The expense goes on. The tax payer continues to pay.

* * *

A NEW YORK CITY friend, Edward Anthony, publisher of the Woman's Home Companion, sent me a book of pictures of New York City. It is a photographic debunking of the glamour, romance, adventure and success to be found in a metropolitan center. It is a book the boys and girls of rural America should see and consider. It would quickly demonstrate to them that a great city does not constitute a success mecca. Those pictures depict the life of that three-fourths of New York that is either on the edges of, or in, the gutters. Seeing those pictures would keep many a rural youth in the clean environment of the home town.

* * *

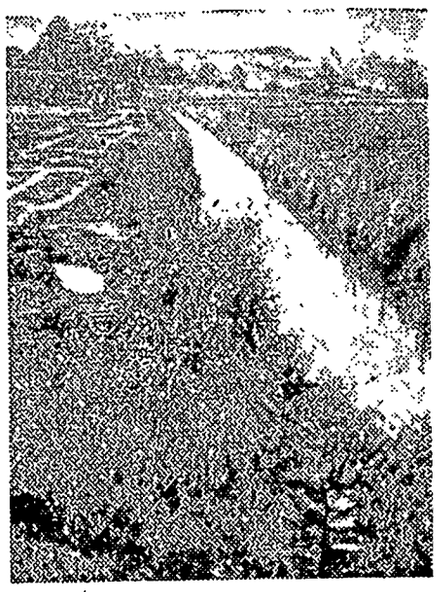
PRIVATE ENTERPRISE is promised a chance to provide the 60 million jobs it is estimated will be needed. "But," says the political big wigs, "if private enterprise fails government will have to take over." With the rules and regulations provided to make it as hard as possible for private enterprise to succeed it would seem those making the rules are hoping government will take over. That would be very much in line with the wishes of a radical minority, who want a government planned economy.



Drainage Practices Increase on Farms

Crop Yields Improved By Control of Moisture

Improved drainage is considered one of the better means of increasing crop yields on flat farmland without furthering the danger of erosion. Good ditches have been found to increase crop returns materially while actually cutting the cost of planting and cultivating. On some farms, drainage is necessary before such practices as terracing and strip-cropping can be satisfactorily employed, and good drainage is helpful to the best results from any soil-improvement or soil-building practice.

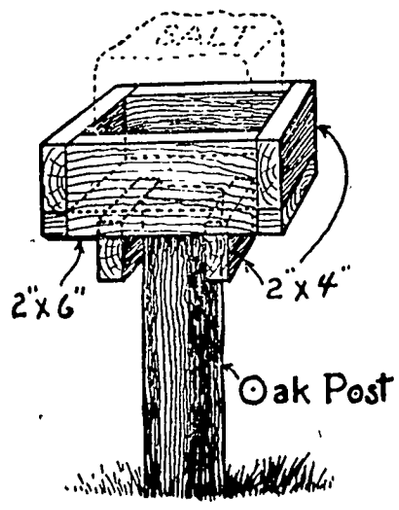


Typical New York state drainage ditch.

Experts point out that the drainage of wet spots in cultivated fields is generally the most profitable type of drainage a farmer can use. Surface drainage is usually accomplished with shallow ditches that quickly remove water from the top of the ground. Tile drains are employed when under drainage is needed to remove excess water from the root zone of the soil.

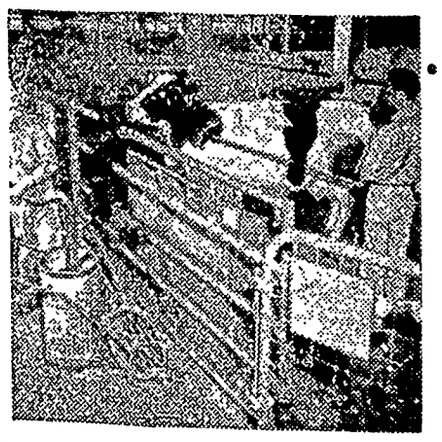
Emphasis in the AAA conservation program is laid on the importance of keeping ditches and drains clean and free from weeds, trash and sediment.

New Ideal Salt Box



Keep salt clean in the barnyard or pasture by erection of box as shown in illustration. The post should be set solid and the box spiked to the post. A hole in each corner will let out rain water.

DDT Proves Valuable In Dairy Fly Control



A 5 per cent suspension of "water dispersible" DDT powder is used to spray cows that are kept in open air stalls.

Walls and ceilings covered with DDT spray remain deadly to flies for three months. Dairy cattle made nervous by flies have been quieted by sprayings of the compound, an important item when it is realized that a cow's productivity is lowered by a pestilence of flies, apart from sanitary considerations.

Future of Soybeans

Soybeans have some advantages in the competition for peacetime acreage which will continue to make them a profitable farm crop. Some of the advantages are: more pounds of quality protein and oil produced per acre than by any other crop; value of soybean oil meal as stock feed; rapid strides made in the food and industrial usage of soy beans; present research indicating further industrial uses; and their replacement of unprofitable grains.

Old Crop

Historians tell us sugar was discovered before the birth of Christ. Perhaps the earliest mention of sugar cane appears in records of Alexander the Great. Down the Indus river in 325 B. C. Nearchus, one of the emperor's admirals, said they found "honey-bearing reeds which they enjoyed very much." Sugar cane is best grown in tropical areas, the principal sources being Cuba, Puerto Rico, India, Java and the Philippine Islands. Louisiana is also a large producer. Something of the enormous consumption of sugar can be gleaned by the fact that the average man in the United States consumes the equivalent of over two-thirds his weight in sugar each year. Sugar is used in a variety of ways —to sweeten beverages and cereals, to bake cake, make cream, preserve fruits and to flavor syrups. Its use by the candy industry is one of its principal markets.

N. Y. Subway Started in 1904

The New York City subway system, now the largest in the world, was not inaugurated until 1904.

Found in Tobacco

Rutin, a new medicinal agent used in treating high blood pressure, has been found in bright tobacco.

Iron Across Length

When ironing, press with the length rather than across the width of fabric wherever possible. But if a skirt, slip or nightgown is cut on the bias, then iron on a slant, along the grain or straight of the material. This will prevent the stretching and sagging which makes hems uneven.

Keeps Mouth Shut

The reason a dog has so many friends is that his tail wags instead of his tongue

MRS. ALLEN'S HUSBAND GIVES HER A SURPRISE

WEST MONROE, LA.—Mrs. Carl C. Allen of West Monroe, Louisiana, has an interesting story to tell about how she discovered Faultless Starch. Here is what she wrote:

"Last week my husband brought home a box of Faultless Starch. I decided to use it, thinking that all starches were about the same. You can imagine my surprise when I began ironing. My iron fairly flew and I was finished in no time. My clothes were so bright, with no rough starch blotches to mar their sleekness. I felt I just had to tell you how wonderful your starch is. My husband was just as proud as I when he saw his shirts. I wish all women could just try your product."

Now there is a thoughtful husband. That box of Faultless Starch really meant more to Mrs. Allen than a box of candy—and here is why:

SAVE 468 MINUTES A YEAR

Let's say it takes ten minutes to make hot starch when you have to cook it and stir it over a hot stove. But you can make hot Faultless Starch in a minute. That means you save nine minutes each time you make it. If you wash only once a week, in one year you would save 468 minutes, or seven hours and forty minutes. Would you rather have a box of candy or a box of starch that saved you better than seven hours a year?

SAVE 26 HOURS A YEAR

And that isn't all! Many people tell us that Faultless Starch makes it possible to save half their ironing time. Let's be conservative and say that Faultless Starch might save you half an hour each ironing day. In a year you would save twenty-six hours of hard ironing time! Which is best—a box of candy or a box of Faultless Starch?

Why go on starching and ironing the hard way when you can do it the easy way with Faultless Starch. Or, better still, ask your grocer for a box today. You deserve Faultless Starch, too.—Adv.

When Your Back Hurts—

And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use *Doan's Pills*. It is better to rely on a medicine that has won countrywide approval than on something less favorably known. *Doan's* have been tried and tested many years. Are at all drug stores. Get *Doan's* today.

DOAN'S PILLS

Upset Stomach

Relieved in 5 minutes or double money back

When excess stomach acid causes painful suffocating gas sour stomach and heartburn, doctors usually prescribe the fastest-acting medicines known for symptomatic relief—medicines like those in Bell-ans Tablets. No laxative. Bell-ans brings comfort in a jiffy or double your money back on return of bottle to us 25c at all druggists.

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION
For Coughs, Chest Colds, Bronchitis

Here's a SENSIBLE way to relieve MONTHLY **FEMALE PAIN**

Lydia E. Pinkham's Vegetable Compound is *famous* not only to relieve periodic pain but also accompanying nervous, tired, highstrung feelings—when due to functional monthly disturbances. Taken regularly—it helps build up resistance against such symptoms. Pinkham's Compound *helps nature!* Follow label directions. Try it!

Lydia E. Pinkham's VEGETABLE COMPOUND

THE CHURCH AS A FELLOWSHIP

LESSON TEXT—Romans 12:3-18.
GOLDEN TEXT—Be kindly affectioned one to another . . . in honor preferring one another.—Romans 12:10.

The greatest and most important institution in the world is the Church. The home, which we have been studying in recent weeks, is the primary unit of society, but its relationships are primarily of a personal nature. In the church there is an organized fellowship within a God-made institution, the living organism through which the Lord brings such blessing to the world—the Church.

Here, in God's house, among God's people, the believer finds strength and joy. The Lord's people are:

I. Different Yet United (vv. 3-8).

God is not interested in uniformity, but He does want unity. In the Church are all types of gifts and personalities, each one useful to God. He does not want them all reduced to that drab uniformity which characterizes so many man-made products.

Prophecy, ministry, teaching, giving, ruling — yes, all the various works to which God calls men should be done diligently for His glory. No man is to think of himself as more or less useful to God. His work is different, but it is God's work, and when all serve as they should there is unity and efficiency in the accomplishing of His blessed purpose.

The unity of believers in Christ (v. 5) is something which needs emphasis in our day. The forces of Protestantism are so divided as to be largely ineffective in many important fields.

Not only are they divided but there are almost endless divisions within denominations — yes, and even in local churches. Sometimes there are issues which cannot be met except by separation, but there are also many unnecessary divisions, dishonoring to God and weakening to the Church.

Let's remember we can be different (God wants us to be!) but we can still be united! God wants that, too!

II. Active Yet Kind (vv. 9-11).

God puts no premium on laziness or indifference. We are not to be "slothful," but "fervent" in spirit. Sometimes one feels that the Church has gone sound asleep. It is alive but inactive. It professes to have a zeal for God, but if there is any fervency of spirit, in most places it must be well hidden. But that is not possible, is it?

How much we need a stirring revival in the Church to bring the people of God into active service for Him. If your church as a whole does not respond to the Lord's Word, why do you not as an individual ask God to rekindle His fire in your heart?

There is to be a humility (v. 10), a fine cleanness of thought and life (v. 9), an unfeigned love for the brethren (v. 9), along with all the fervency of spirit and zeal for service.

There is much talk of uniting Christendom and no little danger of compromise for the sake of an outward unity. Such schemes are destined to failure, but unity in Christ, which recognizes Him as the divine Head of the Church, that we do desperately need and should seek for His glory, for the good of the Church and for the blessing of a world lost in sin and strife.

III. Troubled Yet Peaceful (vv. 12-18).

The Church of Christ is in the world to witness for and to serve Him. Hence, it must face all the persecutions and trials which an unbelieving world will bring upon it. Christians are not exempt from the troubles and sorrows common to all mankind.

Therein we find one of the great opportunities for effective witness, for as the Christian and the Church rightly meet such difficulties, they testify to the grace of God which can give peace in one's heart in the midst of turmoil and distress.

Read the verses. Persecuted, but not embittered thereby; weeping but also rejoicing; meeting evil with good and crookedness with honesty; meeting pride with humility and division with unity; yes, living at peace (as far as it is possible) in a belligerent world.

There is something essentially fine and noble and inspiring about the Christian Church wherever and whenever it lives up to the Lord's purpose for it and its members. There is something dismal and discouraging about the Church when it fails the Lord and His mighty cause.

Some feel that the Church is in just such a state of failure and impotence in our day. If it is true of your church, why not pray and work for a revival which will sweep all the deadness out and bring in a new refreshing breath of power from the very throne of God? Do it now!

Lighter Buses

New buses made of aluminum weigh from 1½ to 2 tons less than previous models

Japs Like Baseball

Baseball is more popular in Japan than anywhere else except in the United States and Canada.

Lacks Nitrogen

The firing of corn during the exceptionally wet weather is principally due to a lack of nitrogen.

SNAPPY FACTS about RUBBER

Largest inflatable rubber units ever made (200 ft. long and 25 ft. high) were the pneumatic breakwaters used to control the waves on the beaches during the Normandy invasion.

The various raw materials used in the manufacture of tires came from 35 different states.

35.7 pounds of synthetic rubber are used up in driving a car 20,000 miles at 35 m. p. h. 61 pounds are used while driving the same number of miles at 50 m. p. h.

Sponge rubber, a century-old discovery, may become a hundred-million-dollar industry.

FRED J. ARNOLD ESCAPED SERIOUS INJURY IN PICKER

Saturday forenoon Fred J Arnold escaped what might have been a fatal accident when his jacket caught in the wagon elevator shaft on a corn picker, winding his clothing so tightly around him that he was choked into unconsciousness.

Mr. Arnold had delivered a new corn picker to John Cline west of Goodell and was watching the machine by standing on it near the wagon elevator when his clothing got caught. As Fred felt the shaft catch his jacket he let out a loud yell for help. Before Mr. Cline and his son Raymond, and Merle Ruka, who was near, could shut off the power, Fred was unconscious.

Quick work by the men in tearing loose his clothing no doubt saved his life. His only injuries were a few bad bruises, but he was able to go to work Monday.

Farm Lady Fractured Leg Monday Evening; In Hospital

Mrs. John Johnson had the misfortune to slip and fall at her farm yard Monday evening, and in the fall fractured her leg. She was removed to the Mercy Hospital at Mason City for treatment.

Her daughter, Mrs. Don Carson, a registered nurse of Des Moines, came to care for her.

Funeral Service
Klemme Iowa

Mr. and Mrs. Keith Albertson, Jimmy and David, of Atlantic, Ia., spent Saturday and Sunday visiting with Klemme friends. Mr. Albertson, former manager of the Northern Lumber Co. yard here, is a salesman for a cement company.

Mr. and Mrs. John Meinders recently purchased a building lot on East Main street, and from all appearances have started construction on a house, as trenches have been dug for foundation footings and building blocks are stacked up.

Mr. and Mrs. Donald Bacon and children of Leland, came Monday and visited until Tuesday at the parental Art Wellemeyer home. The Bacon family left for Tucson, Arizona, Tuesday, where they will spend the winter in hopes of benefitting Mr. Bacon's health.

America's Greatest Comics! You'll find Jiggs and Maggie, Dagwood and Blondie, Donald Duck Barney Google, Skippy, The Katzenjammer Kids, Prince Valient, Snookums, Flash Gordon, The Little King and all your other favorites every week in the SUNDAY CHICAGO HERALD-AMERICAN.

Mr. and Mrs. Curley Lucas and children and Henry Keeper left last Wednesday morning for California, after enjoying a vacation in Klemme spent at the Keeper home. Mr. Lucas is employed as an auto mechanic at at naval repair base, while Mr. Keeper does truck gardening.

Bernard Smid purchased a lot in the southeast part of town from Dr. D. P. Anderson where he will have a home. Bernard purchased a tenant house from the Elder farm which he will have moved to town. At present he is getting the basement built to be ready for the house.

Mr. and Mrs. Walter Lauster and daughter; Miss Marie Blank and Mr. and Mrs. Edgar Buss all Vernon Twp. Consolidated school near Renwick, Friday evening. Miss Helen Albers, who teaches there this year, came home with them to visit with her parents, Mr. and Mrs. George Albers.

Ted Frese, athletic coach at West Union high school, has proven his ability as a semi-pro baseball player. Within a period of 19 hours this summer he pitched two games, totaling 19 innings. One of the two games went eleven innings to win 4 to 3

Clair West of Nora Springs was in Klemme on business Monday.

Mr. and Mrs. Wm. Wenz were at Garner on business Saturday afternoon.

Rev. and Mrs. Fred Griewe of Garner were visiting at the Emil Beier home Sunday afternoon.

Supt. A. L. Kingery was ill last Thursday and not able to be at his work at school.

Milvern Lau of Atlantic, Iowa, and LeRoy Lau of Leon, Iowa, visted at the Tom Bank home Sunday.

Mr. and Mrs. Wes Wherland of Des Moines visited Saturday and Sunday at the C. G. Waterman home.

Mr. and Mrs. Lyle Wilcox, Mrs. C. G. Waterman and Mrs. Mary Waterman were Mason City visitors Tuesday afternoon.

Mr. and Mrs. A. L. Kingery drove to Greene Saturday to attend the wedding of Mr. Kingery's neice. They returned home Sunday afternoon.

Pvt. Maurice Leverson left Saturday morning for Las Vegas after enjoying a 15 day furlough. His wife and baby are staying at the Clifford Adair home.

Mr. and Mrs. H. F. Jost and Supt. A. L. Kingery went to Des Moines Tuesday to purchase equipment needed to start serving hot lunches at the Klemme schools.

Mr. and Mrs. Emil Beier entertained to dinner Sunday Mr. and Mrs. Merlin Neuberger and Dean, Mr. and Mrs. Emil Blumer, and Mrs. Carol Brager and son, Daryl.

Mr. and Mrs. Wayne Pavey and daughter of Webster City, spent Saturday and Sunday in Klemme visiting at the parental, Wallace Pavey home.

Wilson Sandrey, who sometime ago moved a small house into town south of the Ed. Thompson residence, is enlarging the house and getting it ready to rent out.

Mrs. George Schoenwetter entertained a number of ladies at a quilting bee at her home Friday afternoon. Lunch was served by Mrs. Schoenwetter.

Methodist women are asked to bring their fancy work, aprons, etc. to Mrs. P. M. Wilson before Nov 3th so the committee can mark the prices before the Bazaar.

Ruth and Faye Neuberger, who are employed at Clear Lake, came Friday evening and spent the week end visiting with their parents Mr. and Mrs. John Neuberger.

Miss Corrine Merkel, student at the State Teachers College, Cedar Falls, spent the week end here visting with her parents, Mr. and Mrs. Alfred Merkel.

Mr. and Mrs. C. G. Waterman entertained to dinner Friday evening Mr. and Mrs. Patton of Clear Lake; Mrs. Mary Waterman and Mrs. Antonio Keraus.

Mr. and Mrs. J. C. Thomas, accompanied by Mr. and Mrs. Phillip Bock and Miss Lydia Bock, drove to Knoxville, Sunday, for a visit with Billy Bock at the Veterans hospital.

Mr. Titus Davis, who had been visiting his daughters, Mrs. R. A. Jorgenson at Klemme and Mrs. Lyle Liebendorfer at Forest City for two weeks, returned to his home at Kansas City, Thursday.

Mr. and Mrs. Fred J. Arnold entertained to dinner Friday evening Mr. and Mrs. Asa Arnold and daughter; Mr. and Mrs. Art Kudje; and Dr. and Mrs. Earl Schaeffer of Forest City..

There are "early birds" in the spring, but Emil Beier must be a "late bird in the fall." Anyway Emil brought us a nice mess of fresh strawberries from his garden Saturday, October 27th . . . and they were delicious!

Miss Dorothy Baack left Monday for Detroit, Michigan, where she is employed, after spending a vacation visiting with her parents, Mr. and Mrs. Herman Baack and family.

Mr. and Mrs. Karl Sanderfelt of Latimer, were visiting in Klemme Monday.

S-Sgt. and Mrs. Willard Palmer and children have ben visiting his parents, Mr. and Mrs. Paul Palmer in Clear Lake.

Mr. and Mrs.. Dan Webner and Etta Lou, and S-Sgt. Willard Palmer and family visited at the Kenneth Schlawin home Monday evening.

Mrs Herman Baack has returned from a two-weks visit with her son-in-law and daughter, Mr. and Mrs. Edward Mauritz and son Gary at Marshfield, Wisconsin.

Seaman Evert Barz is back to the status of a civilian again, as he received an honorable discharge from the Navy and arrived home Sunday afternoon.

Funeral services for Oscar Thada were held at Thornton, Friday. Mr. Thada was a brother of Walt Thada, former Klemme businessman.

Mrs. Rosa Rosa Mitchell of Swea City came Saturday afternoon and visited over Sunday with her mother, Mrs. Antonio Keraus, and other Klemme relatives

Dr. Missman returned home the latter part of the week from the Mercy hospital where he underwent a major operation. Dr. Missman was back in his office Monday to take care of his patients.

S-Sgt. Willard Palmer, formerly of Clear Lake, arrived home from overseas and is visiting with his wife and daughter at the Dan Webner home near Klemme. He is expecting to receive his discharge at an early date.

Last week The Times reported that Duane Polsdofer returned home Monday from the Mercy hospital following an operation. Duane got home alright, but not until Thursday as his doctor decided a few more days at the hospital were necessary.

Mrs. Dora Greiman Injured In Fall

Mrs. Dora Greiman, who is staying at the home of her son Henry, fell in the home Friday evening and suffered a dislocated shoulder.

VOLUME 50. KLEMME, IOWA, WEDNESDAY, NOVEMBER 7, 1945 NUMBER 51.

Warn Farmers Most Corn Not Ready To Crib

SHOULD DELAY HARVESTING OF HIGH MOISTURE CORN

Hancock County farmers are again reminded by Paul Henderson, county extension director, to delay shelling corn until the moisture has been reduced enough to insure safe keeping.

Tests made of samples of corn show that much of the corn crop is still not safe for permanent storage.

Unless the test shows less than 15 percent moisture the corn will not dry out enough this winter to prevent possible damage next spring.

Corn to be fed before spring probably can be stored if the moisture is between 20 and 30 percent, provided the cribs are well ventilated.

When moisture is over 30 percent, spoilage may occur even during the winter months.

Many farmers in all parts of Iowa are making ear corn silage from their wettest corn, according to information received by Henderson.

Farmers are having moisture tests run at elevators in the county.

How To Take Samples

In taking a sample, corn from a large number of ears should be mixed together. Shelling 2 rows for kernels from each ear with a power driver forced the length of the cob makes quick work of the sampling job. As soon as the corn is shelled it should be sealed in a jar filled tight container, (a pint jar is satisfactory.)

PVT. KERMIT KOERNER HOME FROM OVERSEAS

Pvt. Kermit K. Koerner, son of Mr. and Mrs. Albert G. Koerner, arrived home Friday from overseas having received an honorable discharge.

Pvt. Koerner was in Africa for seven months and in Italy for twenty-two months.

New Business Building Under Construction At Britt

Barnes & Brear of Garner started the erection of an implement building and garage on East First street at Britt. Floyd Klotz of Ventura will manage the Britt business. The building will be 50 by 90 feet in size, and constructed of hollow tile.

Bonds Over America

KANSAS WOMEN

Following the signing of the treaty with the Delaware and Shawnee Indians in 1854, settlers poured into Kansas. Women and children accompanied the men on steamboats, horseback, in prairie schooners and wagons. They went to make it home territory and courageously stayed to make permanent homes, despite the bloody years of border warfare over the slavery issue. They were strong, purposeful women who knew the opportunity for prosperity and good homes for future generations. Kansas has a monument to them on the capitol grounds at Topeka. Their grandsons battle for a controlled future for all the Nation and War Bond funds equip them.

November 17:
Liberty Busy Bees 4-H Club at Gloria Haefner's home.

November 19, 20, 21:
Annual meeting of Iowa Farm Bureau Federation at Des Moines.

GOOD NEIGHBOR POLICY DEMONSTRATED AT FARM

Neighbors Aid Nels Back Who Underwent An Operation

The "Good Neighbor Policy" was demonstrated last week at the Nels Back farm south of Klemme when 11 men came with their tractors and did Mr. Back's fall plowing in a hurry.

The women of the community also helped by bringing well-filled baskets of food to feed the hungry men at noon.

Mr. Back recently underwent an operation and his fall farm work was in arrears when his good neighbors decided to do something about it.

The men who came to help with the work were Russell Bell, Burr Church, Warner Butts, Dale Brede, Henry Brede, Henry Ward, Arthur Lowenberg, Herman Cunningham, LeRoy Carolus, Edgar Mayhew and Ice Burgess.

LIBERTY FARMERS IMPROVE THEIR FARM LANES

Several Liberty township farmers have improved the lanes from the road to their farm yards this past season by having their lanes graded up and graveled.

In driving cross country to Britt the other day the writer noticed the fine improvement in one Liberty township neighborhood where the lanes had been nicely graded and graveled. This fine improvement has been made at the following farms that we noted:

George Christie, Albert Lange, Kenneth Zwald and Herman Gast.

These farmers have a good high grade and should not be bothered much with snow.

East of town we noticed that Norman Leisner has built a new lane to his farmyard, from the west. The old entrance came in from the south.

South of town Wm. Janssen has built a new road from highway 69 to his farmyard. This is a good improvement on his farm.

There are perhaps a lot of other farmers who have built new lanes this year, but we do not know of them.

U. S. W. Will Meet November 14

The United Service Women will meet on Wednesday afternoon, November 14th with Mrs. Aug. Josten and Mrs Henry Jost as hostesses.

Everyone welcome.

Hot School Lunches Popular All Over The World

Klemme Public School Hot Lunch Program Off To Good Start

The hot lunch program was put into effect Tuesday noon at the Klemme School. One hundred and sixteen pupils were served hot lunches the first day.

The cost of the meal to the student is 15 cents, but he really gets about a 25 cent lunch as the government pays 9 cents on each meal served. Any profits made must be put back into the program and to be used for buying equipment, etc. Those who were served their first hot lunch at school Tuesday seemed to be well pleased.

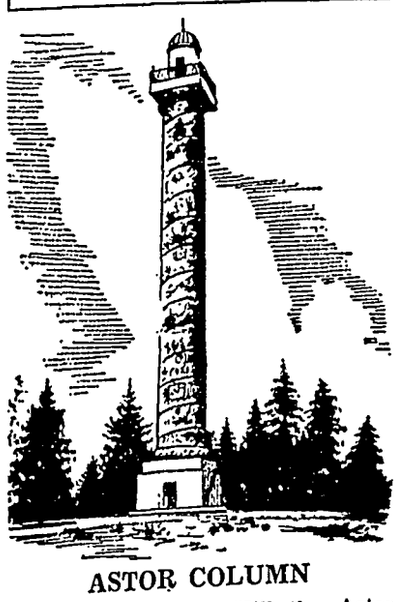
Mrs. Henry Jost is in charge of planning, purchasing supplies and preparing and serving the meals. She is assisted by Mrs. Lena Schroeder.

New tables have been ordered but did not arrive in time for the first hot lunch to be served. Other equipment will be added as the program gets under way.

Pastor's Wife Dies

Mrs D. W. Thompson, 74, died September 26 at Riverside, Cal., and burial services were held Oct. 3 at Fairfield, Iowa. The Rev. D. W. Thompson was pastor of the Goodell United Brethren Church 20 years ago.

Bonds Over America



ASTOR COLUMN

Atop of Coxcomb Hill the Astor Monument reaches skyward, close to the site of the first permanent settlement in Oregon. Captain Robert Gray on a trading mission and his crew were the first white men to visit Astoria, at the mouth of the Columbia River. They came in 1792 and in 1805 Lewis and Clark passed the spot, setting up winter quarters seven miles southwest. The city's location and name were picked by members of a fur trading expedition sent out by the famous John Jacob Astor Company. War Bonds pay for munitions, planes and warships that guard this area so that future generations may enjoy opportunities still untouched there.

U. S. Treasury Department

HOT SCHOOL LUNCHES IN HANCOCK COUNTY SCHOOLS

The Hayfield school is now added to the list of schools in Hancock County that serve or are planning to serve lunches soon. The other schools are Corwith, Crystal Lake, Garner, Kanawha and Klemme. The Klemme school began serving hot lunches this week.

Many rural schools encourage the children to bring hot food in a thermos bottle or cold food in a pint jar to be heated in a kettle of hot water. But how about the children in other countries

Well, in England they're given mid-day meals and extra nourishment, including cod-liver oil and malt Parents who can afford it pay for their children's meals at cost from 5 to 10 cents. Children of those who can't receive the meals below cost or free. Most of England's children got about a third of a quart of milk each day at school.

Russia's policy is a bit different. A mid-day meal, providing at least one-third of a day's rations, is required in all schools there. In some schools having longer school days, two or three meals are served The food is prepared in kitchen-factories and sent either partly or completely prepared, depending on the school's facilities.

Norway's school lunch plan has a name of it's own—the Olso breakfast. This meal is planned to include nutrients most often found lacking in the foods children eat at home. It includes half an orange, one-third quart of milk, one whole wheat rusk or rye crisp with butter or vitaminized margarine and whey cheese, as much whole wheat bread with whey cheese or cold liver paste as desired, and one raw carrot or half an apple. Since the meal requires no cooking, it's easily served in any of the schools and nutritive losses due to improper cooking are avoided.

In some Latin American countries, local garden projects are sponsored for the sole purpose of food for school children. And the program has taken an international turn, with Argentina and Brazil exchanging surplus foods for use in school lunches.

GAYLON BRIDGES HAD BIRTHDAY PARTY

Gaylon son of Mr. and Mrs. Glen Bridges was 4 years old Tuesday, October 30th, and in honor of the event all of his relatives came to the Bridges home in the afternoon and the kiddies arrived after school for a fine party.

Gaylon wishes that birthdays would come more often as the party was lots of fun; there were many gifts presented to him and it was a great day.

Soldier Son Home For Parent's Anniversary

WAS OVERSEAS

SGT. WAYNE BUSEMAN

Staff Sergeant Wayne G. Buseman, son of Mr. and Mrs. George Buseman of Klemme, received an honorable dischare from the army at the Fort Logan, Colorado separation center on October 28, 1945 after being in the service for nearly five years.

Sgt. Buseman was with the Hdq. Battery of the 80th Field Artillery Battalion and ranked as an expert gunner. He left for the Pacific theatre of war and arrived there on September 26th, 1943, where he saw active service for 2 years, and 1 month. Previous to that he was in service in the States for 2 years, 7 months and 21 days.

Sgt. Buseman participated in the Luzon and New Guinea campaigns and in the Philippine liberation. His ribbons and decorations include the Bronze Star Medal, Good Conduct Medal, Asiatic-Pacific Service Medal, Bronze Service Arrowhead, Pacific Theatre, Philippine Liberation Ribbon with 1 Bronze Star.

Sgt. Buseman was one of the first Klemme young men to enlist prior to the war.

CONTRACTS LET FOR DRAINAGE DISTRICT

The Hancock County Board of Supervisors awarded a contract to the Concrete Products Corporation of Humboldt for material on the construction of drainage district No. 142 recently established northwest of Klemme. The amount of the contract was $6,054.05.

Needles and Cummins of Greenfield were awarded a contract for the construction of a main open ditch and the tile lines. This contract totaled about $18,546. Needles and Cummins recently constructed open ditches in drainage districts Nos. 138 and 139.

The longest canal in the world is in China, completed in 1350 after 600 years spent in its construction. It is 2,100 miles long.

Bonds Over America

CLINTON COURTHOUSE

Justice as administered from the town court up to the Supreme Court of the United States has played a major role in the growth of this Nation. We appreciate our judicial system and buy War Bonds to supply warships, B-29's and tanks to protect it. The old court house at Clinton, La., with "lawyer's row" behind it, is an inspiring monument to justice's handiwork. There were decided the complex wrangles between cotton planters of East Feliciana from the days of the Republic of West Florida, 1810, onward. It was the guiding hand for peace and happiness in the parish, worth fighting to preserve and worth buying War Bonds for.

U. S. Treasury Department

MR. AND MRS. A. G. KOERNER MARRIED 42 YEARS SUNDAY

Sunday was the 42nd wedding anniversary of Mr. and Mrs. Albert G. Koerner and in honor of the event all of their children and their families enjoyed a family reunion and dinner at the Koerner home.

Those present were Mr. and Mrs. Gerald Koerner and son, Terry; L. A. Ridder and family; Glen Bridges and family; Orville Stokesbary and family; and Sgt. Kermit Koerner, who had just returned home from overseas, Friday.

In the evening Kermit showed colored slides of pictures he had taken in Africa and Italy.

Guests who came in the evening to congratulate the Koerners and to view Kermit's pictures were: Mrs. E. J. Arnold, Evelyn and Bruce; Mrs. Martha Bredbenner; Marjorie Lau; Leona and Erwin Lau.

MRS. D. H. HAMMON HONORED AT ALBERT LANGE HOME

Sunday, October 28th, marked the 92nd birthday of Mrs. D. H. Hammon of Garner. At noon the children gathered at the home of a daughter, Mrs. Albert Lange in Liberty township, northwest of Klemme, where a dinner in her honor was served. A beautiful cake baked and decorated by Mrs. Glen Lange served as the centerpiece at the festive board. The dinner was prepared by Mrs. Glen Lange, and Mrs Clifford Eliason.

In the afternoon, Mrs. Hammon's grandchildren and great grandchildren came to honor her.

Mrs. Hammon has good health in spite of her advanced age and spends a good deal of her time in reading and doing handwork.

SOME DAMAGE CAUSED BY HALLOWE'EN PRANKSTERS

Destruction of property on Hallowe'en can hardly be classed as a "practical joke." Some damage to property was reported, the most serious being at the Liberty school 6 miles west of Klemme where both outdoor toilets and the fences were wrecked; the door of the school was smashed in and the so-called "pranksters" scattered things around, breaking a number of phonograph records. The Sheriff was called to investigate the damage in this case.

In Klemme "pranksters" hauled away a lot of valuable shocked corn from John Heginger's place and scattered it all over the Main Street pavement.

Somebody also thought it was a lot of fun to release a cow from the stockyards but the owner did not think it very funny to sepnd a lot of valuable time finding the animal

Most of the pranks in town were confined to the usual soaping of windows and scattering park benches, crates and barrels around but not much damage done.

ARMISTICE DAY WILL BE OBSERVED MONDAY NOV. 12

This year Armistice Day comes on Sunday, but will be observed as a legal holiday in Iowa this year on Monday, November 12th.

The Legion Auxiliary ladies are sponsoring a program to be held at the Community Hall and all business places are again requested to close during the program.

There has been no general order issued for closing in Klemme, but as in the past, a number of places will be closed for the day.

Hallowe'en Party

Miss Phyllis Kirkwood entertained sixteen of her friends at a Hallowe'en supper last Wednesday evening at the home of her parents, Mr. and Mrs. Henry Jost. All enjoyed a fine time.

I TAKE THAT BACK!— THEY'RE STEEL BUMPERS INSTEAD OF SPARE TIRES!!

ADDITIONAL INFO

Nit—How do bacteria reproduce?
Wit—They divide and multiply.

Too Soon

Orderly Officer—Where's the sergeant?

Private—Oh, he's over in the barracks, hanging himself.

O. O.—Didn't you cut him down?

Private—No, he wasn't dead yet.

Good Old Times

Lettie—I would like to have lived in the days of King Arthur.

Betty—I don't know as I would have cared much for the days, but I would have liked the Knights.

HIGH PRESSURE TACTICS

The cross-examination had been unusually severe, but the district attorney had one more question to ask before dismissing the witness.

"Mr. Dixon," he caustically demanded, "how many attempts have been made to have you tell a different story than the one you just told the court? And who were the people who made those attempts?"

The answer was prompt. "Several people tried to make me see things their way, but you have been the most persistent by far."

Tall Tales

Myron (yarning about his trip in a sailboat) — The wind died down and for hours the boat didn't move. I had no food with me. Starvation was staring me in the face—

Byron (dryly)—It couldn't have been pleasant for either of you!

School Daze

Teacher—When you grow up, I'm sure you'd like to possess certain good qualities, such as truth, honesty—and what else?

Bright Boy—Sales resistance!

BAD SYSTEM

Housewife—Well, why don't you work, if you're hungry?

Tramp—I tried that once, ma'am, and it seemed to make me hungrier.

Boy versus Girl

Ned—I told her that each hour I spent with her was like a pearl to me.

Ted—Well, didn't that impress her?

Ned—No. She told me to quit stringing her.

Hasty Action

Sergeant — By the way, have you ever seen a ghost?

Corporal—Well, once I thought I saw one, but I wasn't there long enough to make sure.

ONLY SCRUB COW

The late president of a midwestern railroad had a life-sized painting of a cow framed and hung on the wall behind his desk at his office in Chicago.

The cow was just an ordinary-looking animal and friends who asked why he should want such a fine painting of an ordinary-looking cow in his office were told:

"Our trains through the dairy belt have killed hundreds of cows and that is the only 'scrub' cow they ever hit. The farmer who owned that cow said she was just a 'scrub' worth about $40. All the other cows that our trains have killed have been champions."

HER DAY IN COURT

Judge—Do you know the nature of an oath?

Mrs.—I ought to. I've just been helping my husband lay the stair carpet.

Excuse It, Please

Mrs.—What's that big noise outside?

Mr. — Oh, it's just some man talking to himself.

Mrs.—But why is he shouting so?

Mr.—I guess he must be a little deaf.

Excusable Error

Corporal (at a reception)—Goodness gracious, I've done something terrible!

Sergeant—What?

Corporal—I mistook our hostess's hat for a sandwich and put mustard inside!

Not Furlong

Tom—What's worse than swallowing a ruler and dying by inches?

Dick—How about going out of the house and dying by the yard?

Harry—Or getting down under your bed and dying by the foot?

Music in the Air

Myron—I see you advertised your saxophone for sale.

Byron—Yes, I saw my neighbor in the hardware store yesterday buying a gun.

Off Key

Brown—Is that a popular song she's singing?

Blue—It was before she started singing it.

CLEANING UP

Bill—My wife is a whiz at removing spots from clothes.

Phil—Grease spots?

Bill—No, five spots and ten spots.

Promotion

Betty—Yeah, Bill has just joined the nursing corps.

Letty—How do you know that?

Betty—He just wrote me he's the general's first aide now.

School Daze

Fifth Grader—What is the beginning of Learning?

Fourth Grader—I give up.

Fifth Grader — The end of SchooL.

Zoo-ologist

Jim—Look at that rhinoceros.

Tim—That ain't no rhinoceros That's a hippopotamus. Can't you see it ain't got no radiator cap?

Wrong Number

She—I like boys who are frank and earnest.

He—Oh, I'm sorry, but my name is Robert.

Specifications

Clerk—You say you want something in a uniform?

Lady Customer — Yes, something about 6 feet tall and dark and handsome.

Dental Floss

Harry — I'm going to have my name in everybody's mouth.

Jerry—In the toothpick business, I suppose.

Busy Signal

Giddy Young Thing (on telephone) — Is this May?

Voice (gruffly)—No, miss, this is August.

Double Blame

Myron — Was Smith's bankruptcy due to a lack of brains?

Byron—Yes, a lack and a lass!

No Trouble

Nit—How did you sleep last night?

Wit—Lying down, as usual.

Apron Basket

Turning an apron into a basket, quick as a wink, is a neat trick for gardening time. The secret is planting four drawstrings in the apron's hem—two in either side. Pull the strings, and there's the basket ready to hold seed packets, garden gloves or string. Later in the season, the basket apron will bring in a mess of peas or beans, a few roasting ears or apples, or other items that won't bruise or squash. Designed by a department of agriculture clothing specialist, the basket apron improved on the old and uncertain device of gathering up apron corners for emergency carrying. Denim, a grain sack, or other sturdy cotton is best for making the basket apron. By piecing the belt, a yard of material is enough, since the apron itself is cut from a 33-inch square. A commercial pattern for this apron, sold in the same envelope with a mop apron pattern, may be purchased in stores. Ask your home agent for more information about this apron if you are interested in making one.

MRS. JACK TRACY IS HAPPY NOW

KNOXVILLE, TENN.—Mrs. Jack Tracy, 1632 Martin Mill Pike recently wrote this letter to Faultless Starch Company:

"I am writing you just a line to express my happiness after starting to use Faultless Starch. It makes my wash turn out lots better on ironing days. I am very grateful for this wonderful starch. I will use no other starch as long as I can get Faultless Starch."

Have you ever used Faultless Starch? It is a different kind of laundry starch. And as Mrs. Tracy says, "It makes my wash turn out lots better on ironing days. I am very grateful for this wonderful starch." Special ingredients mixed into Faultless Starch make this wonderful difference.

Save Starch-Cooking Time

One big difference in Faultless Starch is that you don't have to cook it to make it turn clear. Just cream Faultless Starch with a little cool water. Then add boiling water while stirring. That's all. This advantage alone can save five to fifteen minutes of hot, tiresome work each busy washday.

MAKES IRONING EASY

Another big difference in Faultless Starch is that it makes ironing smooth, easy, beautiful. Here again special ironing-aid ingredients do the "work" for you—saving you the pulling and pushing that comes with a "sticky" iron. Your iron goes smoothly along—makes ironing a joy, not a job.

You want your wash to look clean, fresh and beautifully ironed. So let Faultless Starch help you. You deserve the advantages of Faultless Starch. Start using Faultless Starch now — and you will probably say, as Mrs. Tracy says, "I will use no other starch as long as I can get Faultless Starch." So ask your grocer today for Faultless Starch.—Adv.

Gentle Handling Necessary For Rayon Wash

In washing, one must remember that rayon is not so strong wet as when dry. It should be dled gently—not rubbed on a or in a washing machine with clothes. You are no doubt of the washing directions that with many rayon garments. wise to follow them for good re but if you haven't any direc these simple pointers will give results.

Make a mild soapsuds, using good soap and lukewarm water to 105 degrees Fahrenheit i enough. Be sure all of the so dissolved and that there is a inch foam on top. Squeeze the through the rayon material g If the material is very dirty haps two sudsings will be neces and two would be better tha long one. Of course it is w wash garments frequently, they become too dirty. Rinse oughly in water of the same perature as the suds water- squeeze, do not twist. A me ical wringer is good becau presses the water out and do twist the material as hand wri does.

Let the garment dry nat away from direct heat. Hang that the weight is evenly dis ed—this is important. Perhap have had a rayon slip tha been hung by the hem in places, with the result that the where it has been fastened line are longer than any othe of the hem.

Heroic Pilot Maintains Tradition of Fa

Tarragon Vinegar

Tarragon vinegar is a favorite in dressing summer salads. The dark green leaves of tarragon are used in seasoning the vinegar. They are used both fresh and dried. This herb needs a little covering of litter and leaves for winter protection.

Cage Crickets

In the Orient the chirping noise of the house cricket is highly appreciated and many households keep them in cages, the cages often elaborately wrought and decorated.

Two-Headed Stream

The Rhine river rises as a two-headed stream in southern Switzerland, enters the Boden See (Lake Constance), and emerges to continue its winding 850-mile course to the multi-mouthed outlet in the North sea. In its oceanward journey it picks up several important tributaries, such as the Lahn, the Neckar, the Main, and the Ruhr from the east, and the Mosel from the west. In some stretches the river is an international boundary. It is a frontier between Switzerland and tiny Liechtenstein, between Switzerland and the old Austria, between Switzerland and Germany, and between France and Germany. Through Germany the river flows in a general northwesterly direction, turning sharply west at the Netherlands line to enter the North sea.

reshen Grass With Fertilizer in Fall

Late August or September is the best season to give lawn grass a "lift." After the hard summer season, some refreshments in the way of fertilizer, and possibly lime, is needed for. Thin stands of grass are particularly in need of help. If your lawn has not been limed in the last few years, it is suggested that you apply 50 to 75 pounds of ground limestone per 1,000 square feet. This will sweeten the soil and make it possible for the grasses to respond better to fertilizer treatment.

The addition of 10 to 20 pounds of fertilizer per 1,000 square feet of lawn will do wonders. Fertilizers such as 5-10-5, 4-12-8 or those of similar ratios are well adapted for fattening lawn grasses. Uniform distribution can be obtained by spreading the material in two directions. Measure out half of the fertilizer needed for the lawn and spread it in a north-south direction. Then spread the other half in an east-west direction, and there should be little difficulty in getting even coverage.

Lawns given a tonic in the manner described soon will assume a good healthy color and develop a dense mat of grass. Lawns composed of fine turf will resist invasion by undesirable weeds such as crabgrass, chickweed and dandelion.

Combustionible Hay

Experienced farmers know that hay, if incompletely cured at time of storage—meaning that it has a moisture content of 25 to 30 per cent — is subject to spontaneous combustion.

Perk Up Potato Salad

Potato salad will taste better if placed in the refrigerator to chill several hours before serving time. This gives the onions and seasonings a chance to permeate the salad, making it uniformly delicious.

Trail-Makers

The first trail-makers in America were buffaloes.

HIGH ENERGY TONIC helps build RESISTANCE TO COLDS

Enjoy the feeling of energetic well-being! Take good-tasting Scott's Emulsion right away, if you feel tired, rundown, unable to throw off worrisome colds—because your diet lacks natural A&D Vitamins and energy-building, natural oils! Scott's helps *build energy, stamina, resistance*. Buy at your druggist's today!

SCOTT'S EMULSION
YEAR-ROUND TONIC

To Get Better Cough Syrup, Mix It at Home

So Easy! No Cooking. Real Saving.

To get quick relief from coughs due to colds, you should make sure by mixing your own cough syrup at home. It's no trouble at all, and you know it's pure and good. It needs no cooking, and it's so easy to make that a child could do it.

From your druggist, get 2½ ounces of Pinex. Pour this into a pint bottle, and add enough plain syrup to fill up the pint. To make syrup, stir two cups of granulated sugar and one cup of water a few moments until dissolved. Or you can use corn syrup or liquid honey, if desired. The full pint thus made should last a family a long time, and gives you about four times as much cough medicine for your money. It never spoils, and children love its pleasant taste.

And for quick results, you've never seen its superior. It seems to take hold instantly, loosening the phlegm, soothing the irritated membranes, and helping to clear the air passages.

Pinex is a special compound of proven ingredients, in concentrated form, well known for quick action on throat and bronchial irritations. Just try it, and if not pleased, your money will be refunded.

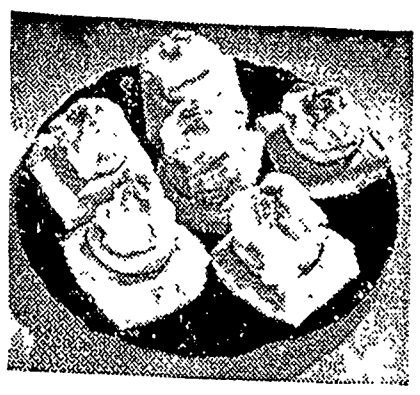
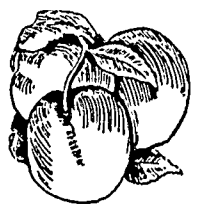
Sugar Restrictions Prevent Solution Of Dessert Problems



Mounds of creamy ice cream ride on top of peach halves set on squares of tasty, hot milk sponge cake. A dessert sauce made of the peach juice is a delightful foil for the fruit, ice cream and cake.

Now that food rationing has loosened up in most of the eatable goods, and we are once again able to get back on a prewar standard, cooking problems need not be pressing. However, in spite of this lifting of restrictions, we still have at least one major problem—that of sugar.

Little relief is in sight right now, and the situation will probably prevail for some months. What shall we do about dessert?



Well, first of all there are fruits which can be dished up in any number of perfectly delightful ways. There's whipped cream and ice cream, and, of course, sugar substitutes.

One cup of sugar or less is a good rule to follow if you are using recipes calling for this sweet but scarce commodity. If your cake calls for 1½ cups of sugar, use ¾ cup of sugar with ¾ cup of corn syrup. In this case you must use 2 tablespoons less milk than the recipe calls for and 2 tablespoons of flour, additional.

The fat scarcity also limits us to some extent on the baked goodies we want to make. That's why sponge cake will be popular, as in this following recipe:

Peach Sponge a la Mode.
(Serves 8)

Sponge cake
1 No. 2½ can peach halves
1 quart vanilla ice cream
Dessert sauce

The cake used uses 4 eggs and is made with scalded milk to give it a fluffy texture:

Sponge Cake.

2 cups sifted cake flour
¼ teaspoon salt
2 teaspoons baking powder
4 eggs
1 cup sugar
1 cup milk, scalded
1 teaspoon vanilla
3 tablespoons butter, melted

Sift flour and measure. Sift three times with salt and baking powder. Beat eggs with rotary beater until thick and lemon colored. Add sugar gradually and beat until fluffy. Fold in flour mixture, then milk, flavoring and melted butter. Fold until well blended. Pour into square cake pan lined with waxed paper. Bake in a moderate (350-degree) oven for 30 minutes. Cool in pans.

Dessert Sauce.

Liquid from peaches
2 teaspoons granulated sugar
Remaining peach halves, chopped
¼ cup salted almonds, slivered
1 tablespoon brown sugar

Cook the peach liquid down to ¾ cup. Stir in the granulated sugar and chill. Serve over the peach halves a la mode and top with nuts mixed with brown sugar.

To serve, arrange a peach half on a square serving of cake. Top with a mound of ice cream and serve with the dessert sauce.

If it's apples you want, then you will like this pie which is easy on fat because it does not have to have a top crust. It uses an egg for richness and flavor:

Open-Faced Apple Pie.
(Serves 6 to 7)

3 cups sliced apples (about ¼ pound)
1 egg, well beaten
¾ cup sugar
1 tablespoon flour
½ teaspoon cinnamon
½ teaspoon grated lemon rind
¼ teaspoon salt
2 tablespoons melted butter
Plain pastry for 1 crust (about 1 cup flour)

Line pie pan with pastry, building up the edge. Fill with sliced apples. Add remaining ingredients to beaten egg; beat well. Pour batter over apples. Bake in a hot (425-degree) oven for 25 to 30 minutes.

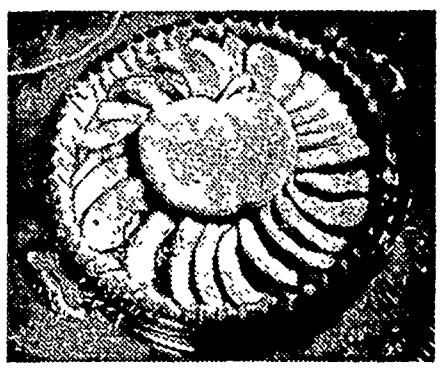
Apples which are best to use in this type of pie are Rome Beauty or MacIntosh.

Black walnuts can lend a distinctive flavor to pie when fruit supplies dip to a low during the cooler weather as in this recipe:

Black Walnut Pie.

2 cups milk
1 cup sugar
6 tablespoons flour
2 egg yolks
¼ teaspoon salt
1 teaspoon vanilla
2 teaspoons butter
1 cup black walnuts
Baked pastry shell
Whipped cream

Make a custard of the milk, sugar, flour and egg yolks, cooking until thick in a double boiler. Add salt, vanilla and butter. Cool. Add nutmeats and pour into a baked pastry shell. Let set and cool. Serve with whipped cream topping.



This novel apple pie saves shortening by using just one crust. For delicious flavor and good, old-fashioned heartiness, add an egg to the apple mixture.

The old-fashioned puddings are always popular because of their molasses sweetness and fragrant spices. Suet is usually used for the base, but one of the fats may be substituted if it is unavailable. Buttermilk is used to give that fluffy texture which is so appetizing.

Quaker Pudding.
(Serves 10)

2½ cups sifted flour
1½ teaspoons soda
½ teaspoon salt
½ teaspoon nutmeg
½ teaspoon cinnamon
1½ cups buttermilk
1 cup ground suet
1 cup molasses
1 cup raisins or other chopped dried fruit, or candied fruit
¾ cup rolled oats

Sift flour with soda and salt. Add all other ingredients in order given and mix thoroughly. Pour into two one-quart greased molds. Cover and steam for 3 hours. Serve with Foamy or Orange sauce.

Stuff green peppers with creamed chicken or turkey and rice. The peppers should be parboiled first, and after stuffed, they may be heated for 10 minutes in a moderate oven.

If you like stuffed green peppers, try them with a stuffing of corned beef hash mixed with onion. It's mighty good.

Like sweet potato pudding? One way to make it is to mash six cooked sweet potatoes with 6 tablespoons butter, 2 tablespoons grated lemon rind and 1 cup of orange juice. Bake this mixture in a greased casserole in a moderate oven for 15 minutes.

Released by Western Newspaper Union.

Lynn Says:

Make Meals Good: No family enjoys eating the same, same foods every meal. It's a good idea not to repeat dishes more than once every three or four weeks. Even favorite foods get monotonous when served too regularly.

To get contrast in every meal, follow the basic seven charts to see that you get in all different types of foods.

In planning a meal, have some things crisp, others soft, and still others hard. For example, meat can be the "soft" food, while broccoli or salad add the crispness, and rolls are the "hard" part.

Try to combine colors, too. Cauliflower, potatoes and creamed chicken may all be good, but they don't stimulate the appetite. However, consider the colorfulness of creamed chicken with french fried potatoes and peas with carrots.

There should also be a combination of hot and cold dishes. Even with a salad luncheon, the hot foods can be soup and coffee.

Some cooked, some raw is another good rule. Be sure to have a salad—a big one, too, if you are having roasted meat, cooked vegetables and pie or pudding, which are all cooked.

Braised Liver with Vegetables
Creamed Potatoes
Celery Sticks
Molded Plum-Pear Salad
Corn Sticks Honey
*Open-Faced Apple Pie
*Recipe given.

Avoid Stickiness

Before melting chocolate in a dish over hot water, rub inside of dish with melted butter or olive oil to prevent sticking. Measuring cups may be greased in the same manner before measuring molasses or syrup.

Lifts Bed

An electrically - operated hospital bed has been invented. It raises and lowers with the flick of a switch. The use of a nurse or hospital aide is eliminated.

Operators Advised to Use DDT Killer With Care

No one can be too careful in applying DDT, the insect-killing chemical which is attracting so much attention. When the material is used in barns, poultry houses, and similar places, all feed should be removed so that it will not become contaminated. He reminds that all drinking cups and salt licks should be covered while the DDT is being applied. The spray must be allowed to dry thoroughly before animals are permitted to return to the premises.

Operators applying DDT spray or dust are urged to avoid getting any more of the material on themselves than is absolutely necessary and the same precaution applies to inhaling the material. Operators should be especially careful with DDT and oil mixtures because the oil penetrates the skin of humans much more readily than water and, therefore, is much more dangerous to handle.

General use of DDT is not advised because there still is considerable research work to be done on insects and crops. It has been used safely as a spray for fly, bedbug, louse and roach control in dairy barns and poultry houses, as a spray in combination with bordeaux mixture for the control of flea beetles and leafhoppers on potatoes, and as a spray or dust under certain conditions for various household insects.

Biological Desert

A virgin forest has been called a biological desert because it does not produce enough feed to support animal life in abundance.

Deep Rooted Plants Aid Soil

Plants that root deep, including trees and some grasses, are important agents in enriching the surface soil, the department of agriculture has found. The deep-ranging roots draw from the deeper layers of the soil the various plant nutrients, particularly minerals. When the plant dies and decays these are returned to the soil, but are concentrated in the top layers where shallow-rooting plants can draw on them.

Washing Egg-Beater

Avoid putting the cogs of the egg beater in water. Rinse the spokes under cold water first, then wash only the spokes with your dishes.

KLEMME NEWS

Fred Yates, of Corwith, was in Klemme on business Tuesday.

Mrs. Emil Beier spent Monday visiting at the Elmer Beier home in Liberty.

Don Hildebrand of Mason City spent the week end visiting at the Henry Jost home.

Mr. and Mrs. Carl Wille and Lillian were dinner guests Sunday at the G. A. Goll home.

Mr. and Mrs. Hemmo Beek of Goodell spent Monday at the John Trampél home.

Mr. and Mrs. John Trampel have named their new baby boy Merlyn Kay.

Melbourne and Ronald Trampel spent Saturday afternoon at the Albert Ausborn home.

Mrs. Ed. Becker spent last Wednesday in the country visiting her sister, Mrs. Dwight Helps

Mr. and Mrs Henry Jost and Phyllis were supper guests at the J. M. Hildebrand home at Mason City last Thursday.

Mr. and Mrs. John Van Osten and Ardel of Meservey were Sunday evening visitors at the John Trampel home.

John Trampel and Mrs. Kathryn Howell went to Hampton Saturday and brought Mrs. Trampel and infant son, Merlyn Kay home from the hospital.

Miss Irene E. Peck of Clarion spent Saturday and Sunday at the home of her parents, Mrs. and Mrs B. H. Peck. She came to visit with her brother, Pvt. Merle, who is home on furlough.

Mr. and Mrs. J. A. Chambers, and daughter, Thelma; Jim Tabb, and Maurice Jacobs drove to Ames Saturday to take in the football game. The occasion was also Mrs Chamber's and Maurice Jacobs' birthdays.

Herb Bailey of Belmond was in Klemme visiting with old friends Wednesday evening. Mr. Bailey had just returned from a visit with his daughter, Ruth and husband at Keokuk, and reported that Ruth is recovering from a tonsil operation.

Mr. and Mrs. E. G. Beier and Mrs. Daisy Lemke called on Mrs. Dora Greiman at the Henry Greiman home Sunday. Mrs. Greiman is much improved and is now able to sit up. She fell last week and dislocated her shoulder.

XMAS SEAL SALE OFFICERS MET SATURDAY AT GARNER

Several Klemme ladies attended the noon luncheon and meeting of officers of the Hancock County Christmas Seals Sale committee, and plans were made for the annual drive.

Supplies were issued and seals will be mailed out at an early date.

Proceeds of the sale of Christmas Seals is used to combat tuberculosis. It is a worthy cause and one that everyone should support.

NOV. 21, 194

AN IMPORTANT DATE FOR THOUSANDS OF ARMY VETERA NOW IN CIVILIAN LIFE

Between now and November 21, thousands of Army veterans will reenlist in Uncle Sam's new volunteer peacetime Army. Because—men who have been discharged between May 12 and November 1 of this year and reenlist on or before November 21 will be able to return to the Army with the *same grade* as they held when discharged.

Men with six months of satisfactory service discharged as privates will, on reenlistment before November 21, be given the grade of private first class.

Men now in the Army who apply for discharge after NOVEMBER 1 for the purpose of reenlisting in the Regular Army will also retain their present grades, if they enlist within 20 days after discharge and before FEBRUARY 1, 1946.

"BEST JOB IN THE WORLD"

These special privileges are typical of the new law recently passed by Congress. Few opportunities for a lifetime career offer as many attractive advantages.

Can you think of any other job that would give you good pay, your food, clothing, quarters, free medical and dental care, world-wide travel, 30 days' furlough every year, education and training in any of nearly 200 skills or trades, *and enable you to retire with a life income any time after 20 years' service?*

There isn't any! That's why a job in the Regular Army has been called "The Best Job in the World."

HIGHLIGHTS OF TH ENLISTMENT PRO

1. Enlistments for 1½, years. (1-year enlistments for men with 6 months' serv

2. Men reenlisting ret present grades, if they reen in 20 days after discharge a Feb. 1, 1946 The same men discharged between M Nov. 1, 1945, who reenli Nov. 21, 1945.

3. An increase in the ree bonus to $50 for each year service since the bonus was or since last entry into serv

4. 20% extra pay when

5. Paid furlough, up to depending on length of ser furlough travel paid to h return, for men now in t who enlist.

6. Mustering-out pay upon length of service) to who are discharged to reen

7. Option to retire at ha the rest of your life after service — or three-quarters 30 years. (Retirement i grade of Master or First Ser to $155.25 per month for previous active federal mil vice counts toward retireme

8. Benefits of GI Bill of

9. Family allowances term of enlistment for depe men who enlist or reenli July 1, 1946.

10. Choice of branch of se overseas theater in Air, G Service Forces on 3-year enl

PAY PER MONTH— ENLISTED MEN

SENIOR CLASS NEWS
—Ruth Bell

On Wednesday we again went to Garner and heard a speech by a Colonel in the Army Air Forces.

On Monday we had a unit test in American Literature. This past week we have been reading stories by Bret Hart. We found his stories to be very interesting due to the fact that he uses local color in his writings.

We have been continuing our study of the Revolutionary War in American History. On Monday and Thursday we heard special reports

In Sociology we have finished our unit on marriages and divorces and are now studying education.

In Biology we are still reviewing each type of the procedure.

The Physics Class has been tudying about Motion, Velocity, and Acceleration.

JUNIOR CLASS NEWS
—Emily Lou Johnson

The Juniors are all breathing easily again and are studying hard for good grades since their class play is over.

Our Typing class is still working for speed and accuracy We are also learning to space words in the middle of a page.

Social Institutions and Religion are our main topics in Sociology

In American Literature we are reading poems and stories written by Emerson and Harris.

In Economics we are studying the chapter on "How Big Business Operates."

The boys are all practicing for basketball Our first game will be November 16th.

SOPHOMORE CLASS NEWS
—Ben Katuin

On Wednesday the Freshman, Sophomores and Seniors went to Garner to hear a speech on aviation, which we found interesting.

In Biology we have been studying about the animals with spinal cords; also, about snakes and frogs

In Geometry we have been studying parallel lines.

In English we are still studying speech.

FRESHMAN NEWS
—Alice Meyer, Reporter

The Freshman Girls in Home Economics Class have almost finished the Unit on Breakfasts. The class is divided into three groups with five girls in each They will each prepare a breakfast sometime soon.

In Science, we are having various different kinds of experiments We are studying about cells this week and it is very much fun looking in the microscope We looked at a piece of live skin which was donated by Robert Baack.

In English we have just finished the unit on Social Letters and we wrote a test over it. In Literature we are reading stories about out door life. We are reading a story about beavers and it is very interesting

In Algebra we are studying the terms with Negative and Positive signs. We are studying about the polynominals, binominals and trinominals and their use in equations.

FIFTH AND SIXTH GRADE NEWS
Mrs. H. G. Voetberg, Teacher

We are sorry to have Beverly Sobek and Maxine Barz absent part of last week.

In Sixth Grade language we have begun work on subjects and predicates.

On Wednesday afternoon we had our Hallowe'en party. The first event was a peanut hunt. At the end of the party Eric Meyer treated us with popcorn.

In Art we are beginning to make Thanksgiving things. We have some Pilgrim men and women decorating our room.

The Sixth Grade Geography class has been studying about India On Friday we read about the different religions of that country.

FIRST AND SECOND GRADE NEWS
Miss Halfwassen, Teacher

We have a bowl of goldfish in our room. It is fun to watch them swim.

Roger Bachman brought some cotton to our room. It was picked by a negro and came from San Antonio, Texas.

Wednesday we enjoyed a Hallowe'en Party. We all wore our masks and played games after which Miss Halfwassen treated us to candy and apples.

In the Second Grade Arithmetic Class we are learning how to subtract.

In our Language we have learned the word "period." Now we won't have to say "dot."

Veterans' Administration Has Capable Leader

General Bradley Has Fatherly Interest in Veterans; Actions Show His Ability to Administer This Big Job

By BAUKHAGE
Commentator and News Analyst

WNU Service, 1616 Eye St., N. W., Washington, D. C.

I have just come back from a visit with the father of 15 million.

That isn't such a far-fetched figure to use in describing the tall, rangy Missourian, who is in charge of "the biggest business in the world," which is how they describe the Veterans' Administration in Washington.

To call Omar Nelson Bradley "father" of the service men and women isn't stretching it. Ernie Pyle once said: "If I could pick any two men in the world for my father except my own Dad, I would pick General Omar Bradley or General Ike Eisenhower. If I had a son, I would like him to go to Bradley or Ike for advice." Ernie was a pretty keen judge of human nature on the hoof. I thought of that when one of Bradley's co-workers in the Veterans' Administration, who is almost a decade older than the general, said "fatherly" was the way to describe the manner in which he was treated the first time they had a problem to straighten out with the boss.

And then I met the General.

I found a weather-beaten, wiry, long-legged soldier, whose eyes twinkled brighter than the four stars on his collar. Fatherly, yes—and I'll have a word about that a little later. But I found out something else. I found out why he ought to be able to run one of the hardest jobs in the government. And I'll admit, right off, it sounds almost too good to be true.

We had been talking about the details of the reorganization of the agency which is now going on and with which General Bradley is minutely familiar. Then I asked him what it was, if anything, in his military training and experience that he could use in his present position.

He said that he thought it was the same with all jobs such as this. And here is the theory on which he works:

"First, build your organization on functional lines. Second, get the right man to head up each function. Third, give him full responsibility to act on his own authority."

How, I inquired, does this fit in with your military experience, having had some of that branch of adventure myself—although running a platoon isn't running an army.

"It's a good deal like the army," he answered. "You have your staff. You have say 20 sections, each with a special function, working under your chief of staff. Sometimes, of course, you group some of the functions, but the organization is along functional lines."

And how, I asked, do you choose the men to head up these various activities? His answer came back without the slightest hesitation.

"I choose a man, first for his ability, second for his loyalty—and I count heavily on the loyalty. Get loyal men of ability and you've gone a long way toward solving your problems in any organization."

That sounded pretty good to me, but what about the present situation where, after all, there is always a Congress on Capitol Hill, a Congress with constituents who have votes and some of whom want jobs. I asked the General, what about politics? He didn't seem worried. He said that he hadn't had any trouble.

"I'm not a politician," he said. "I never intend to run for office." That was all he would say, but here is a story I picked up later at the other end of Pennsylvania Avenue.

A certain Congressman got a hot letter from a constituent who had been fired from the Veterans' Administration. No doubt with due cause. He hot-footed it up to the General and spoke, as legislators often do to officials, with considerable vigor.

"I want the man re-hired at once," the Congressman demanded.

The General was polite but sorry. He stood by his decision.

"If you don't, I'll attack you on the floor."

"Go ahead," said Bradley, faintly recalling, I imagine, some of the attacks in Normandy.

"I'll block your bills," said the irate Congressman.

That was a horse of a different color.

"You will?" said the General. "All right, and if you do that, I'll go to the President with my resignation. He'll get that or find a means to stop you." (Period.)

We all knew about the General's war record—in Tunisia, on the Normandy beachhead, among the hedgerows, where he smashed a gateway at St. Lo which made Patton's lightning drive possible. But we didn't know much about the man. Most of us didn't know he was from Missouri and later some of us might have suspected that that was the reason why he was picked, although the President said it was because he wanted a World War II soldier to take care of the wants of World War II veterans. Now we have some other reasons for believing that the choice was predicated on wise advice and is going to prove itself a fortunate one.

On the horse-sense side, it is because Bradley has established a record as an administrator. He proved that in the army and had the acumen to see the chief fault in the veterans' organization and has set out to remedy it.

On the emotional side—well, Ernie Pyle was right.

The trouble with the Veterans' Administration was that it grew so rapidly that it didn't have time to delegate authority. And there was another reason for this. It was built on what seemed a very sound theory. Let's take its services to the veteran. For instance, small hospitals were scattered all over the country, many in little communities where the veteran could get to them easily. But that didn't work out. It was hard to get expert medical men, good service and the latest equipment in the smaller communities and because the regional organization was spread so thin, it was necessary to have a strong hand in Washington. The result was that the grip of that hand was so tight that the whole system was cramped.

Bradley put his finger on the situation (with the help of well-chosen counsel) and reversed the former policy. Now it's "bring the veteran to the hospital." Bring him by rail or plane in an emergency, but bring him to a well-manned, well-equipped center whose size and importance will attract the best there is in medical skill, when he needs specialized care.

Hand in hand with this regional centralization of the medical facilities, the new organization has decentralized the authority. As soon as Bradley looked over the set-up he said:

"This is like having a 150 regiments under one man. In the army that would be unthinkable. We'd break it down into corps and divisions at least."

And so that is what was done.

But first he made a sharp cleavage between the medical organization and the rest of the activities. He created a new office, "Acting Surgeon General of the Veterans' Administration." And he appointed the best man he knew, Major General Paul Ramsey Hawley, who had been chief surgeon for the European theater and did an outstanding job.

And here I wonder if there wasn't one of those important unconscious childhood impressions which helped. Bradley's middle name, Nelson, is for a well-loved family physician. And Bradley's fatherliness is attested to in his interest in the physical welfare of his men. Again and again war correspondents mentioned the fact that he planned engagements so that his troops would suffer the fewest casualties possible. He has an instinctive understanding of the afflicted.

BARBS . . . *by Baukhage*

Mahomet went to the mountain. The Mikado went to MacArthur. This, it seems only fair to say, merely demonstrates the excellent judgment of all parties concerned.

* * *

As I look back over a few decades I have enjoyed on this mundane sphere, the only things I regret seem to be the things I missed.

A lot of New Yorkers who had forgotten there were such things had to use stairs during the elevator men's strike. And this did more for the calves than if they'd taken the ceiling price off of veal.

* * *

Production of rubber heels is still behind demand. But there are still more of the other kind of heels than we need.

Veterans' SERVICE BUREAU

EDITOR'S NOTE: This newspaper, through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.

Small Business Aid

The small business division of the U. S. Department of Commerce is taking particular interest in veterans who are returning from the wars with the intention of entering the small business field.

The small business division has given the subject considerable time and thought and now has available for veterans a booklet, "Veterans and Small Business" which answers numerous questions in the minds of the returning soldier.

The booklet covers many facts of the highly competitive small business field and covers subjects such as, "Postwar Plans for GIs"; "Industry's Job to Place Servicemen"; "The GI Bill and Small Business"; "What About These Veterans' Loans?"; "Factors in a GI's Business Success"; "Getting Started in Your Business"; "How Long Can I Stay in Business?"; "Survival Chances of Retail Stores"; "Risk-taking in a Postwar World"; "Training Program for Small Business"; "Marketing Facts On a County Basis"; "Small Town a Most Important Market," and seven other factors or subjects.

These chapters were written by experts and information contained will be invaluable to the veteran contemplating entering the small business field.

These booklets are available to veterans by writing to the "Small Business Division" of the United States Department of Commerce, Washington, D. C.

Questions and Answers

Q. Can a mother who is all alone and in poor health, have a son released from the Army if he has been in since Jan. 25, 1943, and in the South Pacific since June 19, 1943, and has never had a furlough? Mrs. D. W., Greenwood, Wis.

A. The War Department says that the fact the mother is all alone and in poor health would not necessarily bring about the son's release. If the case can be considered a "hardship case" release might be given, but each case must be decided upon its merits and be recommended by the commanding officer. If your son, however, has been in the army since the dates you give, he possibly has enough points for his discharge now, or at least in the very near future. Without points for battle stars or decorations, which count five each, he has approximately 63 points. He is eligible for application for discharge now at 70 points and the number is fixed at 60 points Nov r 1.

Q. My daugh. wishes to know whether she will be entitled to services of a doctor and hospitalization benefits when her new baby arrives, if her husband who is now in the navy is discharged under the point system before the baby arrives?—Mrs. W. A. L., Mill Iron, Mont.

A. The Navy Department says that if she is now receiving navy medical care to which she is entitled, the navy will do everything it can to help her provided she does not move from the area where she is under treatment and the pregnacy is in the later stages. Suggest she contact the nearest navy hospital or dispensary for specific information.

Q. Is there a course of study in fire fighting listed in the educational program for veterans and are there any books available on this subject? —G. E. D., Philadelphia.

A. Many schools approved by State Boards of Education have instructions in fire fighting. For instance, the University of Maryland, College Park, Md., and Northwestern University, Evanston, Ill., have such a course. It may be possible that the University of Pennsylvania has such a course. Suggest that you write one of these schools.

Q. Will a soldier who has been in service for two years and 11 months in the States and 13 months overseas receive mustering-out pay if he is given a dependency discharge?—Wife, Treloar, Mo.

A. The War Department says that if his dependency discharge is honorable he is entitled to mustering-out pay.

Q. Please advise if an ex-serviceman can obtain a loan to join up in an open shop in one or more unions?—J. C., Coffeeville, Miss.

A. Can find no regulation which provides for a loan to join a union.

Active Children in Need Of Nutritious Foods

The food children eat does much toward building healthy bodies. The growing youngster is so active he needs plenty of energy foods, cooked cereals, bread and potatoes, to supply the energy he uses when he runs, climbs, jumps and plays games.

Boys and girls need also generous quantities of protein foods, as milk, meat, fish and eggs, for their young, growing muscles. Milk is especially important for strong bones and teeth. Fresh fruits and vegetables should be part of most meals, so that the youthful bodies can get materials to increase the red blood, and vitamins to help the body make use of the food eaten each day.

A hearty breakfast is a good start for the day. Milk and toast, fruit and cooked cereal or egg satisfy the child's keen hunger and make up about a third of the day's needed rations. At midday dinner the young person needs a satisfying serving of a protein food—meat, fish, or eggs—a green vegetable, potatoes or rice, a simple dessert, not too sweet, and milk. For the third meal of the day, one hot dish with sandwiches, fruit and milk will usually complete the day's needs.

Members of Cabbage Family Make Good Fare

Although everyone knows cabbage, there are a number of vegetables closely related to the cabbage that are not so common and, unfortunately, are not so well liked. And yet in most cases, if these plants are really cooked properly and served tastefully, folks will enjoy them just as much as they do cabbage.

Broccoli is probably the outstanding near relative of cabbage in importance. It is very easy to grow, the plants can be set out as soon as early cabbage plants are, or the seed can be sown in the ground as soon as you spade the garden and the seedlings later transplanted about 2 feet apart. As soon as the buds of the flower heads develop, you can cut them and start eating them, and you can keep cutting them until freezing weather in the fall.

Cauliflower is still another relative of the cabbage, but it is not as easy to grow as is cabbage and broccoli. To be successful, the plants must be set out at the same time as early cabbage, or else you must wait and set the plants in the garden in early July for a fall crop. Usually, the fall crop is more satisfactory than the spring crop.

Nutritive Vegetable

Egg plant is an oriental favorite, and used far more than in this country. It is an excellent vegetable to take the place of a meat course, however; and so is a good vegetable to grow in these days of strict rationing. It is also highly decorative; if you plan to enter a basket of vegetables in the harvest show this fall, an egg plant, with its glossy dark purple skin, is an absolute must in arranging an attractive display. Its nutritive value is high, and there are many tempting ways of cooking it. It is well to vary the method of serving. Eggplant grows slowly, and should be started under protection. The plants require an even temperature and do not thrive in cold frames. A dozen plants will be sufficient for an average family, and they are ususally obtainable in the markets.

Outdoor Fireplace

An outdoor fireplace should not be near a frame building because of the fire hazard. A fireplace may be built into a house chimney if a separate flue is made.

Ancient Roman Remains Mark City of Verona

Verona surpasses other northern cities of Italy in Roman remains, including one of the earliest theaters, a font of Parisian marble, parts of a temple, bridge, forum, arch, columns, aqueduct, city gate, and other ruins. In pre-Christian times it was the birthplace and boyhood home of Catullus, Rome's greatest lyric poet.

In its long war-torn history, Verona reached the height of its magnificence and power under the rule of the Scaliger family, 1260 to 1387. The Scala palace then became the home of famous poets and artists, each having his own apartment and servants. Their work adorns the many old churches and museum. Banished from Florence, Dante found temporary asylum there; Petrarch was an occasional visitor.

Crossed by seven bridges, the swift-flowing Adige river makes an S-bend at Verona, with the city on both banks. On the hills east of the city are the Giusti Gardens where cypress trees have reached heights of 130 feet in four or five centuries. A stair leads to a terrace overlooking the city with its many piazzas. The Piazza delle Erbe, on the site of the Roman forum was the center of city activity. Before the war it was a market place with busy stalls for fruit and flower vendors.

Factory Workers' Earnings Rise to an All-Time Peak

Average annual earnings of the factory worker in 1944 were the largest on record, according to the Alexander Hamilton institute. He earned 6.2 per cent more than in 1943 and double the amount which he earned in the prewar year of 1939. The gain in the factory worker's earnings last year was due partly to the highest hourly wage rates in history and partly to an increase in the number of hours worked. The factory worker gave more time to his job in 1944 than in any preceding year since the predepression year of 1929.

Wage rates in 1944 were 6 per cent higher than in 1943 and 58.2 per cent higher than in 1939. This increase was due only partly to a rise in basic wage rates. Other factors causing the rise were higher rates for overtime work, shifting of workers from the lower-wage industries to the higher-wage industries.

There were 5.2 per cent fewer factory workers employed in 1944 than in 1943. This decrease, however, was more than offset by the increase in per capita earnings. Consequently, total payrolls last year showed a gain of 1.2 per cent over the preceding year and reached the highest level on record.

Fill Cracks

Cracks between the edge of the bathtub and wall may be mended with a wide strip of adhesive tape, then paint these scraps the same color as the wall. This is not recommended as a permanent method, but it is an excellent temporary repair until the room can be redecorated.

Better Yield

In Florida, a 40 per cent solution of sulphuric acid is now being employed to give a 25 per cent better yield of turpentine in slash pine, by swabbing the cuts in the bark. The increase in turpentine output can amount to many millions of gallons and several millions of dollars.

Change Mattresses

Make mattresses last longer and keep them more comfortable by changing them around each week. Turn them top to bottom one week, and end to end the next week, etc.

Kids Govern OPA Office in Brooklyn for a Day

Photo shows the price panel in session, when the students of Midwood High school took over the operation of the Office of Price Administration's local rationing board in Brooklyn's Flatbush section for a day. For twelve hours the enterprising youngsters ran the rationing and price control machinery, with, of course a little expert supervision by a regular aide in interpreting some of the knottier problems that arose.

Japanese Sidewalk Salesmen

Customers crowd around the sidewalk stands in the Ginza District in Tokyo, which is similar to New York's Fifth Avenue. Shopkeepers, their stores destroyed by bombs, set up their wares in the street, and carry on their business outside the wrecked buildings. In the background is the famous Jap Department Store, Takashimaya, where only two floors are now in use.

Wants to Cross Atlantic in Barrell

Because "It is inevitable that some day, someone will cross the Atlantic in a barrel," Mark Charlton, discharged Canadian army veteran, wants to do it first. He is shown with the barrel in which he plans to make the attempt.

Had Kenny Treatment

Mrs. John Rybolt, at home in Los Angeles, after a year of the Kenny Treatment for Polio, is shown as she greeted her children, Brian 3, and Johnny, 6, while her husband looks on. Physicians say Mrs. Rybolt will be able to walk eventually with the aid of crutches.

Women's U. S. Softball Champions

The Jax Maids of New Orleans drove to the World Softball Championship to make it their third year in the last four that they have won the title. They won in 1942 and 1943. The bevy of beauties hammered out a win over the Toronto Crofton Club lassies by a score of 5 to 0, as Nina Korgan of the Jax allowed but two hits. Photo shows the Jax with their trophy.

Opens Trade Parley

THE FRUITS OF PUBLIC WORSHIP

LESSON TEXT—Isaiah 6:1-8; Ephesians 5:15-21.

GOLDEN TEXT—Praise ye the Lord. I will praise the Lord with my whole heart, in the assembly of the upright, and in the congregation.—Psalm 111:1.

The center of every community should be the church. The house set aside for the worship of God is the gathering place of His people. There they find fellowship as they meet their Lord. He is in their midst exalted and mighty, but ready to enter every humble and contrite heart.

Our lesson shows us how the worship of God brings blessed results as His people meet.

I. Recognizing God's Presence (Isa. 6:1-4).

King Uzziah, who had begun well but had forgotten God, was at the end of his life a leper because of his sin and dying in disgrace. Israel which had known unprecedented prosperity under God's blessing now hardened its heart nationally against God and was also about to go into eclipse. God needed a man to speak for Him in such an hour, to bring to His people a message of judgment and also of blessed invitation. To prepare that man, the great Isaiah, God gave a remarkable manifestation of His glory and power.

It is essential that the man who speaks for God should first see the Lord high and lifted up and to hear of His holiness and glory. The negative tone of the present-day message, the lack of enthusiasm and interest in holy things, the low standards of personal holiness, the failure to preach boldly the truth regarding God's holy standards are to be explained by the fact that there has been no vision of the eternal holiness and glory of God.

II. Renewing by God's Power (vv. 5-8).

To see the holiness of God is to be immediately conscious of one's own sin and unworthiness. The obvious conclusion which one draws from that fact is that anyone who is proud, who is not concerned about his own sins and the sins of his people, is living far from God and has either never known or has forgotten about His divine holiness.

Isaiah spoke of the pollution of his lips, thereby confessing that his heart was not right. Whereof the heart is full, thereof speaketh the mouth, for we read that "out of the abundance of the heart the mouth speaketh" (Matt. 12:34). Remember that even though Isaiah was a believer he recognized the need of cleansing.

"Then" (v. 6)—what an important word! When Isaiah called out in humble confession, "then" he was cleansed. The turning point is right at that place for any life. Only when we come to the place of confession and contrition which Isaiah knew, can we expect the Lord to send the cleansing fire and the enabling power.

Reformation, turning over a new leaf, character development, all commendable in their place, are not sufficient. There must be a divine cleansing of the life if there is to be a commission to service.

III. Realizing God's Will (Eph. 5: 15-17).

The ministry of the Church of God can serve no greater purpose than helping men and women to know the will of God. That wisdom (v. 17) comes through the teaching of God's Word and through the ministry of the Holy Spirit, both in the church and in the individual.

The Church (and that means every member) is to recognize that the evil day in which we live is a challenge to holy and effective living. Time is not to be wasted, or casually used. It is to be redeemed —every moment to count for God.

The walk of the believer is to be circumspect, that is, with "painstaking attention to details, under a sense of their importance," not a foolish walk, but a wise one.

IV. Receiving God's Spirit (5:18-21).

God wishes to fill His children with the Holy Spirit in such mighty overwhelming power that they are entirely under His control. Such Spirit-filled believers find their joy and satisfaction in the fellowship of those who sing the praises of God from the heart.

Being a Christian is not a depressing, sorrowful business. It makes you glad. It is God's people who sing and make melody. Some of us who have failed to appreciate this truth should begin now to "get happy" about our religion.

The Holy Spirit leads believers into a life of humility and self-denial (v. 21). Pride and self-exaltation are definitely ruled out.

Do not neglect the note of thanksgiving found in verse 20. The Church of Christ has so infinitely much for which to be thankful that actually ingratitude is a sin. How much blessing is lost because of it! Let us "give thanks always for all things."

Squeezing Grapefruit

You can squeeze large grapefruit on an ordinary orange juice reamer if you cut the fruit in half lengthwise (rather than crosswise), halve again, squeeze each quarter on the reamer, pressing cut side against point of juicer. Smaller grapefruit can be cut in halves like oranges, juiced on regular reamer.

Butter Substitutes

Adding salt and sugar to oleo or other butter substitutes makes it more palatable.

NIGHT COUGHS due to colds

Benediction .... Rev. Grosshuesch

JUNIOR CLASS PLAY WAS A GREAT SUCCESS

The Junior Class of the Klemme high school can chalk up a big victory . . . as their play was a great success in every way. It was greatly enjoyed by the audience, it was well played and from a financial angle, it was very good as proceeds went over $147.00.

All who were connected with the play in any way did a swell job and deserve a bouquet.

Congratulations, Juniors!

Miss June Jacobs, who recently graduated from nurse's training, went to Mason City Thursday to join the staff of the Mercy hospital. She is a neice of Mr. and Mrs. J. A. Chambers.

Local Happenings

Klemme and Vicinity

Mrs. E. J. Schneider was at Mason City on business Monday.

Walter Eisberg from northwest of Garner, was in Klemme on business Saturday.

Art Wellemeyer was at Minneapolis on busineess Monday and Tuesday.

Mr. and Mrs. Dale Schlei were Sunday dinner guests at the Ernest Werling home near Renwick.

Mrs. Kingery of Green, mother of Supt. A. L. Kingery, came last week for an extended visit here.

Mr. and Mrs. Sumner Trumbell were dinner guests Sunday at the C. H. Conklin home at Goodell.

Bob Hartzell, who was recently honorably discharged from the army, began work Monday at the Lewis Radio Shop.

Rev. H. E. Harvey was at Britt Monday morning checking up on the church census being taken in the county.

Mr. and Mrs. Asa R. Arnold and daughter spent the week end visiting with Mrs. Arnold's folks at Dysart.

Mrs. Margaret Brooks of Belmond spent Wednesday visiting in Klemme with her brother P. M. Wilson and wife.

Harry E. Heite, Jr., Sm. 2-c of New Orleans, Louisiana, came Friday for a visit of several days at the Arthur Kudje home.

Mr. and Mrs. Elmer Neeble of Hartley were guests at the Jules Cook home southeast of Klemme, last week.

Mrs. E. A. Yahnke and Mr. and Mrs. Irvin Conrad of Vernon Center, Minnesota, visited at the John Lauen home southeast of Klemme last week.

Dr. and Mrs. A. H. Dulmes, and Mr. and Mrs. Asa R. Arnold and daughter were entertained to dinner Friday evening at the Fred J Arnold home.

Pvt. Merle S. Peck is home on a 10-day furlough from Camp at Ft. Mc,Clellan, Alabama. He will report at Fort Riley, Kansas, then go to Japan.

Ralph Bunday and Kenneth O'Dea, tax experts for the Milwaukee and Rock Island railroads, were business callers at the courthouse last Thursday.

Mr. and Mrs. Donald Gibbs, of Clear Lake, and Charles Gibbs, Jr of Mason City, were dinner guests Saturday at the Sumner Trumbell home.

Mrs. Dale Schlei returned Saturday morning from a week's visit with her sister, Mrs. Edward Hahn at Elgin, Illinois. She was accompanied on the trip by her mother, Mrs. Axel Juhl of Clear Lake.

Dr. and Mrs. A. H. Dulmes drove to Grundy Center Saturday evening to spend Sunday with Mrs. Dulmes' mother and sister. Their son Dick, came to Klemme with them Sunday evening and enrolled in the Klemme schools Monday.

Charlotte Ann, daughter of Mr and Mrs. B. H. Peck, was dismissed from the Mercy hospital Monday. She had been a patient there for 3 months. Charlotte Ann had rhumatic fever and although she is not yet well, she is recovring.

Mr. and Mrs. Art Kudje entertained to dinner Saturday evening, Harry E. Heite, Jr., Sm. 2-c of New Orleans, Louisiana; Miss Jacqueline Kudje of Mason City; Mr. and Mrs. C. G Waterman, and Mr. and Mrs. Lyle Wilcox.

Mr. and Mrs. Cleo Ingle and children and Mrs. Lena Schroeder came Friday evening from Waukesha, Wisconsin. The Ingles left again early Saturday morning for Oklahoma, where they have purchased a farm and will make their future home.

Donald H. Gibbs, SW 2-c, formerly of Klemme, whose address is route 1, Clear Lake, was honorably discharged from the Navy at Pudget Sound Navy Yard, Bremerton, Wash., October 27th. Mr. and Mrs. Gibbs reside at Clear Lake. Donald is employed at the cement mill at Mason City.

AVERY TOWNSHIP R DIED OF HEART ATTACK FRIDAY P. M.

Held At U. B. Church At Burial At Amsterdam

ices were held Monday af- at the United Brethern at Goodell, for John M 68, of Garner, who died afternoon at a Mason City following a heart attack, Carleton Spencer, pastor of ed Brethern Church, gave eral sermon Arrangements charge of the Wellemeyer Service of Klemme.

ent was in the Amsterdam y, east of Goodell. Mr was carried to his final place by old friends and s: Tom C Nelson, John olf Schlichting, Charles d Jay T. Griggs.

life story of Mr. Bachman s a long time resident of township, appears at the of this page.

THREE SONS IN THE ARMED FORCES

Mrs. Hauko Barkema, who resides in Liberty township northwest of Klemme, has three sons serving in the Armed Forces

W. O. TED DORENKAMP

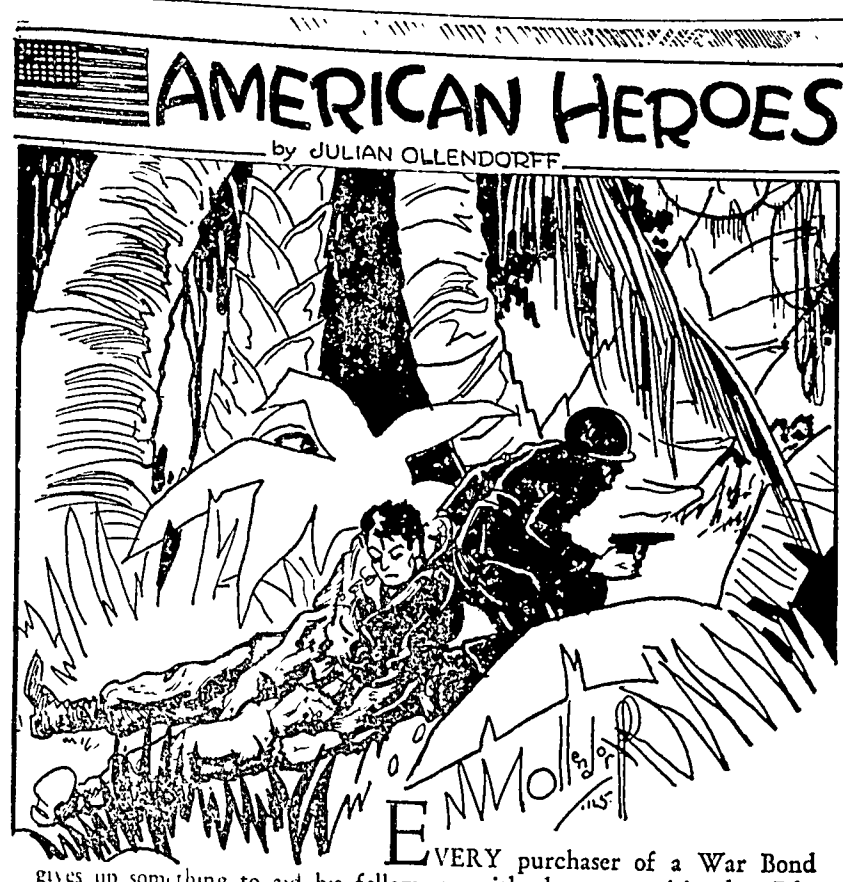
Ted Dorenkamp of the Naval Reserve has the rating of Warrant Officer on the staff of the U S S Puget Sound He served a year on a battleship in the African campaign.

C. G DORENKAMP

Cortland G Dorenkamp Seaman Second Class is on a ship off California

CPL. H. L. DORENKAMP

Corporal Herman L. Dorenkamp has had radar training at Boca Raton, Florida, and was recently transferred to Phoenix, Arizona.



EVERY purchaser of a War Bond gives up something to aid his fellowmen with the same spirit that Pfc. William P. Bowes of West Roxbury, Mass., showed in risking his life to save a comrade on a Pacific Island, though in a lesser degree. Though previous attempts to reach three wounded men had failed, Pfc. Bowes crawled through the jungle in the face of intense enemy fire and dragged one of the men 35 yards to cover. The action won him a Silver Star.
U S Treasury Department

WAS OVERSEAS

M-SGT HOMER SCHOENWETTER IN 12 MISSIONS OVER JAPAN

Master Sergeant Homer Schoenwetter, son of Mr and Mrs Geo Schoenwetter of Klemme, enlisted in the Army Air Corps in March, 19[illegible] and received most of his aircraft mechanical training at Albuquerque New Mexico

He trained for combat with a B-29 bomber crew and went overseas with his crew as an engineer aboard a B-29 in March 1945 and was based at Saipan in the Pacific Schoenwetter and his crew flew [illegible] most missions over Japan

The crew then returned to the States for rest training and returned to Saipan in August, 1945 The crew was on a bombing raid on Osaka before the war ended They crew then flew in supplies to [illegible] of war and on these [illegible] Schoenwetter said they got a view of all of Japan at low altitude

Schoenwetter received his honorable discharge on November 4, at Lowry Field, Colorado He wears the Asiatic-Pacific Ribbon with 2 battle stars and the air medal with oak leaf clusters

THEY WEAR THIS EMBLEM

Pfc. Harold E. Christians

Pfc Harold E. Christians, son of John Christians, was discharged October 29 at Camp McCoy, Wis He was inducted January 6, 1942, and served in the Infantry 17 months overseas and participated in the battles of Normandy, northern France, Rhineland, Ardennes, Central Europe He wears the European-African-Middle Eastern medal the good conduct medal and two overseas service bars.

T-4 Ronald M. Groesbeck

T 4 Ronald M Groesbeck, son of Clarence Groesbeck, received an honorable discharge from the U S A at Fort Sill, Oklahoma, on October 25 He entered the service on Jan 24, 1942, and was with the infantry for 1 months overseas, going through the battles of northern France, the Rhineland and Central Europe His decorations include the bronze star medal, the good conduct medal and the European-African-Middle Eastern campaign ribbons with three bronze stars

Norman E. Lau, AM 1-c

Norman E Lau, Aviation Metalsmith First Class, son of Mr. and Mrs August G. Lau, formerly of Liberty township, now of Garner, entered service in the U. S. Navy in February, 1942, and received an honorable discharge at Minneapolis on October 29. He was overseas for about a year, most of the time in the Philippines theatre of war His wife lives at Garner. Before entering the service he farmed with his father in Liberty township.

Promoted

Leo Blumer, who is stationed at Treasure Island, California with the U S Navy, was recently promoted to Seaman Third Class. He is a son of Mr and Mrs. Walter Blumer of Klemme. Leo has been in the Navy about 1 year.

Local Youth Was In "Hot Spots" Aboard USS Kalinin Bay

Calvin T. Schaefer, Aviation Machinist's Mate, Second Class, son of Mr and Mrs. Roy I. Schafer, of Klemme, and other men of the escort aircraft carrier USS Kalinin Bay, had helped take the vessel through some of the hottest action in the Pacific before she returned to the States in time to take part in the recent observance of Navy Day.

The battle records of many of the men of the Kalinin Bay read almost like the history of the war with Japan— including operations in the Solomons, the Marianas, the western Carolinas, the Gilberts, the Palaus, Liberation of the Philippines and the Battle for Leyte Gulf.

FIRST BASKETBALL GAME THIS FRIDAY EVENING

The first basketball game of the season will be played on the home floor Friday night when Woden high school comes for a double-header

Coach Kingery has been working with his squads and is trying to get the team in shape for the opening event Woden had a good team last year and should give the Shamrocks a good battle.

Hayfield Here Wed., Nov. 21

A pre-Thanksgiving vacation tilt will be featured on the local court next week. Wednesday evening, Nov 21 when the powerful Hayfield outfit invades the Shamrock floor This will also be a double header game.

Season tickets are now on sale for a series of seven contests The adult tickets are $1 75; high school $1.25 and grades 75 cents.

Buy Christmas Seals And Help Fight Tuberculosis

CHRISTMAS SEALS GO INTO THE MAILS MONDAY, NOV. 19

For 39 years funds to carry on the fight against tuberculosis have been raised through the sale of Christmas Seals In addition to financing thousands of minature film examinations, Christmas Seals support a number of other services.

They make possible an unceasing educational campaign to teach people how tuberculosis can be prevented Motion pictures, exhibits, newspaper articles, pamplets and talks are used in this campaign. Magazines and posters to promote the teaching of good health are sent to grade schools High school radio and press projects are sponsored.

Christmas Seals help finance examinations for persons who have lived in close contact with a case of tuberculosis. Last year thousands of tuberculin tests were performed and five thousand full sixe X-rays were taken.

Seals help patients in the county tuberculosis sanatoria prepare themselves for useful work when they are again well. These patients are in danger of another breakdown if they attempt work for which for which they are not fitted. As they are aided in obtaining jobs suited to their needs, the danger of relapse is lessened

Through these and like measures, carried on in cooperation with health departments, nurses, sanatoria and other agencies, the Tuberculosis Associations of Iowa are helping build ever higher the wall of protection against tuberculosis. But this disease continues to take its deadly toll. 345 Iowas lost their lives to tuberculosis in 1944 1,178 new cases of the disease were reported

Never has the educational work of the Christmas Seal been more needed! Never has the opportunity been greater for the fulfillment of its objectives!

Seals Will Be Mailed Out Next Monday

Letters containing the Christmas Seal will be mailed out by Hancock County workers and will go into the mails Monday, Nov 19

Those who receive the letters are requested to make the return soon as possible A return envelope is provided for that purpose. Those Klemme and vicinity who so desire may drop their return Christmas Seal letter in a box provided either the Thada Store or at the I Lau Sons Implement Store.

CHRISTMAS SEALS WILL PAY FOR X-RAYS IN HANCOCK COUNTY SCHOOLS

The Iowa State Department of Health is to have a portable X ray machine for taking chest photographs on minature film as part of their health program for Hancock County The exact dates have not been set, but it is believed to be two days in January.

The group to be x-rayed is made up of all high school students, all teaching personnel of the schools, janitors, school cooks, bus drivers, and other adults who come in contact with school children The rural school pupils will not be included in the program, only the teachers.

The cost is taken care of by the Christmas Seal program with no cost whatsoever to any one being x-rayed Any follow up full size x-ray, if needed, will also be free of charge.

There will be more about this later when the details of the program are available.

--Chas S. Whitney, Co Supt.

KLEMME YOUTH AWARDED $25 BOND FOR DAIRY WORK

Darwin Wille, member of the Ell Midgets 4-H club, has been awarded a $25 Victory Bond for outstanding work in dairy production

This award, according to Paul Henderson, county extension director, is one of eight made to Iowa 4-H dairy club members. The records of 70 members were considered by the state 4-H club office at Iowa State College to select the winners

The Kraft Food Co. of Chicago the donor of these awards. In addition, trip awards to the National 4-H Club Congress in Chicago will be made to sectional winners and six scholarships with a value of $200 each are being made to national achievement winners

Darwin has been a 4-H dairy member 4 years.

BRIDE-TO-BE HONORED AT MISCELLANEOUS SHOWER

A group of ladies honored Miss Mavis Neuhring, daughter of Mr. and Mrs. Owen Neuhring at a prenuptial shower held at the home of Mrs. Frank Sandry in Klemme on Saturday afternoon.

The afternoon was spent informally and a nice lunch was served by the hostesses.

Miss Neuhring received a variety of nice gifts from her friends.

MRS. EDNA THADA HOSTESS TO BRIDGE CLUB

Mrs. Edna Thada entertained the U-Delt-Em bridge club at her home last Friday afternoon.

Mrs. Arthur Kudje won the high score in contract bridge; Mrs. Fred J Arnold, second, and Mrs. P. M. Wilson, third high.

HOUSE IN KLEMME TO BE SOLD AT AUCTION SALE

A modern house on East Main Street, the former home of the late Mrs. Roths, will be sold at public auction Saturday. See advertisement elsewhere in this issue of The Times for particulars.

WEATHER BUREAU COLD WEATHER WARNING

Memories of the Armistice Day storm of 1940 have prompted Iowa Weather Bureau officials to advise farmers to listen closely for cold weather warnings.

Severe losses to livestock occurred in 1940, losses that can be prevented in the future if heed is given to the warning service of the United States Weather Bureau

"We are approaching a season of the year when rapid changes to colder weather can be expected," H. O S. Thom, senior meteorologist of the weather bureau stated recently.

He stressed that rapid changes can take place without much previous local indication.

"In fact," he said, "the warmest weather frequently precedes the approach of extreme cold As a result, the public is deceived and thrown off guard."

The Weather Bureau is prepared to give adequate warning of approaching cold spells, according to Thom.

So it's important that farmers be alert to unexpected changes and are ready to protect livestock and poultry and to avoid exposure of members of their famlies if a cold spell occurs.

Phone your news to 12.

WSCS ELECTED S AT MEETING

November meeting of the W. S. C S. was held at the Miss Berniece Tanner on November 6th, at which following officers were

OBITUARY OF JOHN MICHAEL BACHMAN

JOHN MICHAEL BACHMAN was born January 15, 1877 on a farm near Belmond, Iowa His parents were natives of Germany, having immigrated to Iowa 8 years before John was born. He was the seventh of a family of 8 children born to George Michael and Gertrude Bachman.

When John was 2 years old the family moved to Avery Township and since that time he has lived in Hancock County.

John Bachman was baptized as an infant in the Evangelical Church at Belmond He attended the rural schools of Avery Township and grew to manhood on the farm.

John Bachman and Anna Hanson were married April 24, 1909 at the home of the bride's parents in Avery Township. The following spring they moved to the Mart Bachman farm where they lived for 30 years. Seven children were born to them in this home, all of them survive their father, except one son, Arthur, who died in 1931

Since 1940 the family has lived in Garner.

John Bachman died of a heart attack Friday afternoon, November 9th, 1945, at Mercy Hospital in Mason City where he had been a patient for but a few days. He reached the age of 68 years, 9 months and 25 days.

John Bachman was a home loving man and a good neighbor

He leaves to mourn his passing, his wife, Anna, and six children:

Elmer Bachman
Vera (Mrs Lyle Osborne)
John, with the Armed Forces in Germany
Walter Bachman
Madeline (Mrs. Lyle Hanson)
Gladys Bachman

also two grandchildren; one brother, Fred Bachman of Belmond; and one sister, Mrs. George Griggs of Avery Township.

Suggestion II.

Farm Sausage Casserole
Combination Salad Crusted Rolls
Favorite Cake
Beverage

The main dish for this hearty snack can be made ready before company comes, and then heated about half an hour before serving time rolls around.

Farm Sausage Casserole.
(Serves 6)

- 1½ cups broken macaroni
- ½ cup diced American cheese
- 1 tablespoon minced onion
- ¾ teaspoon salt
- 1½ cups thin white sauce
- 1 cup green peas, cooked
- ½ cup sauteed mushrooms
- ¼ cup chopped pimiento
- 1 pound pork sausages, broiled
- Buttered bread crumbs

Cook macaroni in boiling, salted water until tender. Drain and rinse. Combine with all remaining ingredients, except sausages and bread crumbs. Place in casserole which has been greased. Top with sausages and sprinkle a few bread crumbs over the top Heat in a slow (325-degree) oven for 25 minutes.

Combination Salad.
(Serves 6 to 8)

- 1 head lettuce
- 1 cucumber
- 2 to 3 tomatoes
- 1 bunch radishes
- 1 bunch small onions
- 1 green pepper
- Celery curls
- Carrot curls
- French dressing

Wash all vegetables carefully and allow to chill. Break lettuce into chunks and line salad bowl. Toss in all other ingredients which have been sliced or cut into pieces and sprinkle french dressing over them.

Favorite Cake.

- 1 cup whipping cream
- 1 cup sugar
- 2 eggs
- 1 teaspoon vanilla
- 1½ cups sifted cake flour
- 2 teaspoons baking powder

Whip the cream until slightly thickened but not stiff enough to hold a peak. Fold in the sugar gently, the beaten eggs and vanilla. Add the flour which has been sifted with the baking powder and a speck of salt. Mix only until smooth. Place in two shallow cake pans and bake in a moderate (350-degree) oven for 25 minutes. Cool. Frost with seven-minute icing and sprinkle with coconut. Or, frost with whipped cream and sprinkle with coconut.

For impromptu entertaining, there's nothing easier to prepare than a tray of sandwich spreads with assorted bread and health drinks of citrus fruit juices in colorful glasses.

Seven-Minute Icing.

- 1 egg white, unbeaten
- 3 tablespoons cold water
- ⅞ cup granulated sugar
- ¼ teaspoon cream of tartar
- ½ teaspoon vanilla

Place all ingredients in top of double boiler. Beat with rotary beater until mixed, then place over hot water, and continue beating until frosting stands up in peaks (about 7 minutes).

Ahead of the other foods the returned G.I. will look forward to are the good, homemade desserts. Whatever was his favorite when he left is sure to be his favorite when he returns. He has spent many hours thinking and dreaming of that dessert.

Chocolate has been a favorite of the serviceman. His favorite may have been chocolate ice cream, chocolate pie or chocolate cookies. The sizes of portions should be man-size, he has learned how to eat in a big way and will not be at home when dainty portions are passed out. Milk seems to be the favorite beverage of returned servicemen. This might be served with the addition of chocolate or in form of a malted or egg malted drink, all of which will be welcomed. Give him a try with bread, raisin, nut, potato, or best of all a real home baked loaf. He may be tired of dark tack and stale white bread, and anxious to try something new and different.

Released by Western Newspaper Union.

Sportlight by GRANTLAND RICE

THE boxer-puncher argument takes on a new form in the case of Joe Louis against Billy Conn. For in addition to being a knockout puncher, Louis was also among the better boxers. So Conn had to gamble his boxing skill and his greater speed against an opponent who could box and wreck you with either hand.

Here's the story Conn told me of their only meeting:

"When we came to the 12th round, I knew I was out in front. At least I felt sure I had a lead on points. Then a funny thing happened. The 12th round was too good for my own good. I outboxed Louis by a good margin in that round, adding to my lead. Near the close of the round I found a good opening and I nailed Louis square on the chin with a right.

Billy Conn

"I saw his eyes roll and his knees sag. I knew Joe was hurt. So all I had to do in the next three rounds was to box and keep away. I know I could have done that, for at the time Louis was a tired man. But this is where I got dumb in place of being smart. I decided I could knock Joe out. I honestly thought he was all through.

"So instead of keeping away I sailed in and started slugging with him, toe to toe. The pictures showed that. I made no effort to keep away from a fellow who could out-hit me with either hand. The great Conn wasn't willing to win a world's championship on points. He also had to be Killer Conn.

"Well, I got what I deserved. I got knocked out. But I still figure a better boxer can handle a harder puncher, even when he is badly outweighed. These hard punchers don't like shifting, moving targets that are hard to tag."

Boxer vs. Slugger

Past records of the ring have usually shown the boxer can hold his own against the slugger. Jim Corbett proved it against John L. Sullivan, looking back some 53 years. Sullivan at the moment, however had been all through for some time, after 10 years of strong alcoholic indulgence.

What about Corbett and Fitz at Carson City? Well, don't forget that Ruby Robert could box as well as punch. Fitz in fact was a great boxer. Jack Johnson was another able boxer, one of the best.

What about Jack Dempsey and Gene Tunney, used as the leading example of boxer vs. puncher? They fought 20 rounds of which Tunney won at least 16—possibly more.

But don't forget that the Dempsey of Philadelphia and Chicago was far from being the Dempsey of Toledo. Seven years on top take their toll.

Sam Langford was a great fighter and a great puncher. But check Old Sam's record against 139-pound Jack Blackburn, who trained Joe Louis. Blackburn told me once that in seven fights Langford had never knocked him down. "I hurt Langford as much as Sam hurt me," Blackburn said. Blackburn was a master boxer, one of the greatest. Sam Langford will tell you that.

Langford looked better against Jack Johnson and Harry Wills than he looked against Blackburn — as Blackburn explained the case some years ago.

Why Conn Wasn't in Navy

With Joe Louis in the army, why wasn't Billy Conn picked for the navy? This question has been asked more than once. This is the story we get from a high navy official. "We had Conn all set to go into the navy. This was also O. K. with Conn. At the time we figured an army-navy ring match might help out a lot in some financial war campaign. Even if this never took place, we wanted Conn in the navy. So Conn reported at a navy recruiting station. But instead of waiting in line, Billy wandered around the place. Finally a navy petty officer, not knowing who Conn was, ordered him to get in line. The order was given somewhat brusquely. It made no hit with Conn. In place of obeying the command, Conn told the petty officer what he thought of him and just where he could go. And after this Conn left the navy recruiting place and went out to enlist in the army."

This is 100 per cent Conn. Just how Billy ever got by in taking army orders is another mystery. There is nothing the Pittsburgh fighter hates worse than taking orders, or even suggestions. He wants his own way.

* * *

$80,000 a Year Men

Ruth drew an $80,000 salary one year in baseball and that figure still remains tops in the diamond game. Walter Hagen made more than $80,000 around that time, but no golfer in those days ever drew important money from tournament play.

It is all different now. Nelson is already around the $60,000 mark this year with several big money tournaments left in the South, all ir the $10,000 class

Washing Woodwork

When washing woodwork, use dry suds from whipped soap jelly to prevent streaking walls. Use a strip of cardboard to protect the wall next to door frames and baseboards from getting splashed.

Celery Soup

Chopped celery tops flavor roasts, stews, bread stuffings. To make a base for cream of celery soup, combine celery tops with coarse ends of celery, cover with water and cook until soft.

Conestoga Wagon

The precursor of the great Prairie Schooner, the Conestoga wagon was a huge broad-wheeled, cloth - canopied wagon, usually drawn by six horses. Generally it was painted blue and was topped in red. It has been described as "one of the most distinctively American devices of all our transportation history." The Conestoga wagon originated among the Pennsylvania Dutch and took its name from the township in Lancaster county where they first were made. Records do not indicate definitely when they were built first but historians place it about the mid-18th century. The first turnpike road in the United States, from Philadelphia to Lancaster, over which they traveled, was opened in 1794. Occasionally they traveled independently but generally they went westward in caravans.

Good Breakfast Dish

A hearty cereal mush or porridge, which is usually served with milk, is a good main dish for breakfast. But everybody needs eggs, and if eggs are not included in other meals, have them as the main dish for breakfast several times a week. You might also serve fish once in a while. For example, creamed white fish flakes on toast, or codfish balls, or a smoked fish. The variety meats make good breakfast dishes, too—kidneys, liver or brains.

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try *Doan's Pills*. *Doan's* help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. *Ask your neighbor!*

MILK PRODUCTION IS THE SUREST GUIDE TO GRAIN FEEDING SAYS CANNON

During the winter months, dairy cows producing more than 2 gallons of milk daily should receive grain in addition to legume roughage, says C Y Cannon, head of the Dairy Husbandry Department at Iowa State College.

Experienced dairymen, Cannon points out have found that the most milk at the lowest cost comes from feeding according to production. Rough estimates of both production and feed are better than no estimates at all, but weighing both the milk from each cow and the feed she gets is by far the best system. Milk records can then serve as a guide for culling out the cows.

Roughage For Poor Cows

The importance of grain feeding according to production is stressed in Iowa's 1945 8-point dairy program which is aimed at increasing milk production from the cows now being milked.

Low-producing cows—those giving less than 2 gallons a day, can get along very well on good roughage. When a cow goes above that figure, though, she should get about 2½ pounds of grain for each gallon of milk she produces. The kind of grain depends both upon what's available on the farm and the kind and quality of roughage the cow is getting. Homegrown grains lower the milk production costs. Some protein may need to be added to the farm grown grain.

Grind Feeds

Regardless of the kind of grain being fed, Cannon advises that it be ground, and coarse grinding is better than fine grinding. Feeding unground corn and oats can result in a feed loss of from 20 to 25 per cent.

To complete the dairy ration milk cows should receive bonemeal and salt in a self feeder, and all the fresh water they want to drink

SCHOOL TO BE HELD FOR TEACHERS AND WORKERS

An Observation School for all Church School teachers and workers will be held in the Garner Methodist Church this Friday and Saturday, beginning at 10:30 a. m. Friday.

Mrs W. M. Hubbard of Clear Lake will be in charge of the observation school.

Gary Day Nine Years Old Friday

Gary, son of Mr. and Mrs. Dorance Day, was nine years old Friday, Novmber 9th and in honor of the event a nice birthday dinner was prepared and served at the J. N. Day home Friday evening. Gary had as his guests, his grandparents Mr. and Mrs. John Day and Mrs Peterson, of Clear Lake, and his parents, Mr and Mrs. Dorance Day. Gary received a lot of nice gifts and had fun blowing out the candles on a nicely decorated birthcake.

CAPT. RAY JORGENSON, JR. HOME ON TERMINAL LEAVE

Capt Ray A Jorgenson, Jr., son of Mr and Mrs R A Jorgenson, enlisted in the Army Air Corps in June 1941 and was inducted into the service at Fort Des Moines on Nov. 3, 1941. He took his flight training at Stamford, San Angelo and Lubbock, Texas, graduating as a bomber pilot on twin motored planes May 20, 1942 and was commissioned a Second Lieutenant and assigned as an instructor on twin motored bomber training planes.

He was promoted to a 1st Lieutenant in March 1943 and the following month went to Del Rio, Texas to pilot B-26 medium heavy bombers. He was sent to Dodge City, Kansas in June 1943 to give pilot instruction on B-26 bombers and was an instructor until August 1944 when he was promoted to Squadron Commander. He became a Captain in May 1944.

Capt. Jorgenson was at Dodge City until March 1945, when he was transferred to Hobbs, New Mexico to pilot B-17 four engined bombers and in May was transfered to Roswell, New Mexico to fly the army's Superfortress, the B-29 bomber.

He was transferred to Tucson, Ariozna in July 1945, to organize his B-29 crew for combat in the Pacific, when the war ended this activity.

Capt. Jorgenson began his terminal leave at Tucson on October 27 and will go on inactive duty in the Air Corps Reserve on December 14.

His family is with him here in Klemme, but he has made no definite plans for the future.

NOMINEES FOR CLINTON SEED OATS SELECTED

Nominees for the new high yielding oats called Clinton, were made to the State Committee by the Hancock County Seed Distribution Committee. The farmers nominated were:

Fern Huling, Boone Township; Werner Schlawin, Ell Township; Jerry Psotka, Liberty Township; Lewis Fisher, Britt Township; Henry Swanson, Orthel Township; Elmer Engstrom, Amsterdam Township; E. G. Gaskil and Son, Magor Township; Arnold Schmidt, Garfield Township; and Clark Lackore, Ell Township.

The State Committee will probably select between five and seven out of the nine farmers to grow this new oat variety during 1946. There were a great many applications and the committee stated that many more applications were worthy of growing certified oat seed if there had only been more seed to distribute.

BID—ATLACIDE

Sealed bids will be received in the office of the County Auditor until 1:30 P. M. on the 26th day of November, A. D., 1945, for the purchase of 10 ton of atlacide, to be delivered to the County Shed at Garner, Iowa. Atlacide to be of standard specifications. The Board reserves the right to waive technicalities and reject any or all bids. Published by order of the Board of Supervisors of Hancock County, Iowa, this 6th day of November, A. D., 1945.

FRED C. MISSAL,
County Auditor in and for Hancock County, Iowa

INDIVIDUAL SEEKS DAMAGES FOR OVER CHARGES

W. A. Eatinger of Los Angeles, Cal., has filed suit for $120.90 in the Polk County District Court in Des Moines, in an action in which Eatinger is seeking to obtain treble damages from John Nutt, operator of a used car agency. Eatinger's petition states that he was charged $70.00 for two tires, the OPA ceiling on each being $14.85 or $29.70 for both. Under the OPA Regulation, Eatinger can obtain the full treble damages for the overcharge involved. Since the overcharge amounted to $40.30, he is filing suit for $120.90.

A CIVILIAN

Sergeant Asa E. Gibbs re- his honorable discharge U. S. Army on November Sioux Falls, South Dakota after forty-five months the service of his country.

Sgt. Gibbs enlisted in the Quartermasters Corps on Jan. 28, 1942, and was inducted at Fort Des Moines, receiving his basic training as automotive mechanic at Camp Lee, Virginia and was sent from there to Dawson Creek, British Coumbia, Canada, to help in the construction of the Alaskan Highway. He arrived in Canada May 1, 1942.

In September, 1943, he was transferred to the Air Transport Command and his work took him to bases along the highway and into Alaska as far as Nome. He was also stationed at Seattle, Wash., Great Falls, Montana and Minneapolis, Minn., the three bases which the Alaskan Division of the A. T. C. had in the States.

Gibbs was promoted to Corporal in August 1942 and to Sergeant in January of 1943 and received his final rating of Staff Sergeant in April, 1944.

Sgt. Gibbs wears the American Theatre and the Asiatic-Pacific ribbons, the good conduct medal and has six service bars representing thirty-eight months of foreign duty.

State Loses Fine Holstein

Lightning claimed the life of one of Iowa's most famous champion Holstein cows at the state hospital at Clarinda The cow, "Clarinda Meisig'er Progressor," was seven years old. It was one of few cows at state institutions to attain a classification of "excellent." There were only two such cows at Clarinda and six others were at other state institutions. The lightning bolt also damaged one institution building.

SENIOR CLASS NEWS
—Ruth Bell

We have been studying Longfellow's poems in American Literature Friday we started on the poem, "Hiawatha."

On Friday we had a test over the Revolutionary War in American History.

We have spent our week in Sociology discussing the chapter on Religions and Social Institutions.

In Bookkeeping we have been tudying the chapter on "How to Correct Errors." On Friday we tudied the chapter on Interest.

The Physics Class has been tudying about airplanes this past veek On Monday Elwyn Etchen rought some airplane devices and ave a demonstration.

JUNIOR CLASS NEWS
—Emily Lou Johnson

This week in school nothing ery exciting has happened.

In American Literature we are eading poems written by Longfellow. Some of them are very good.

Speed and accuracy is still our oal in Typing. Everyone seems o be learning to type rapidly.

In Economics we are studying the hapter on "How Consumers Influnce Production" We are going have a test Tuesday.

Religion is still our topic in Sociology. We have had some very ood conversations about it. On Thursday we are going to have a st over several chapters.

Wednesday we had a pep meeting. The Pep Band played a few umbers and the school had a few ells It turned out fairly good.

SOPHOMORE CLASS NEWS
—Rose Schaefer

In English Class this week we re still studying Speech and Oppositives. In Literature we read The Man Without A Country," Down by the Reo," and "Bombalier" We have found these stories very interesting.

In Geometry Class we are having Parallel Line Theorems and Converse Theorems.

We have been studying about eptiles, birds and mammals in Biology On Friday we had special eports on different kinds of mammals.

In our World History Class we have finished our unit on the Roman Millennium and we will start eviewing it next week.

During the past week eight Sophomore girls have worked in he kitchen helping with the hot lunches

FIFTH AND SIXTH GRADE NEWS
Mrs. H. G. Voetberg, Teacher

We were sorry to have Beverly Sobek and Sharon Ward absent part of last week.

Many of us are enjoying the hot lunches at noon.

In Sixth Grade language we are beginning our work on the parts of speech. Thus far we've been having nouns.

We have completed our study of the Northwest Central States in Fifth Grade Geography. We were particularly interested in these states because Iowa is one of them.

THIRD AND FOURTH GRADE
Mary Jane Holmes, Teacher

The Third Grade finished their reading book on Friday. We have been reading "Through The Green Gate." Our next book will be the "Streets and Roads."

Dick Dulmes started to school last Monday. He is in the Third Grade. We now have 15 enrolled in the Third Grade and 11 in the Fourth Grade.

Dennis Ridder returned to school Tuesday afternoon, after having spent some time in Chicago.

Friday was Gary Day's ninth birthday. He brought a cupcake to school for each of us in the room.

KINDERGARTEN NEWS
Mrs. Leonard Kaduce, Teacher

Tuesday we had our first hot lunch. We all enjoy the meals very much.

This week we began practicing for the Operetta. The girls are little dolls, and the boys are brownies.

Roger was absent Monday.

We are now learning to write our own names.

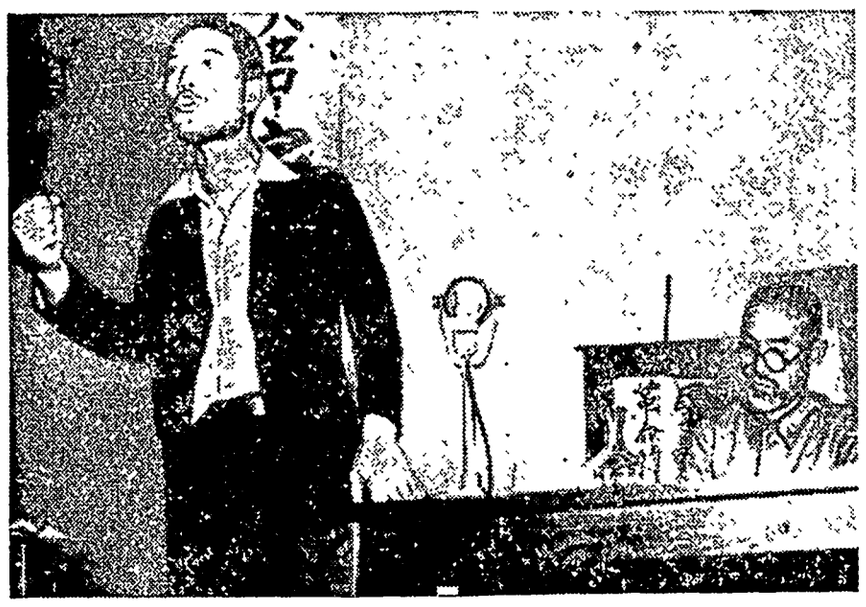
WEEKLY NEWS ANALYSIS

Congress Fashions 5½ Billion Dollar Tax Reduction for 1946; Ponder Postwar Army Training

Released by Western Newspaper Union

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)



With freedom of speech assured under Allied orders, former Japanese political prisoner addresses gathering in Tokyo. Under proposed liberalized constitution, all Nipponese elements would be afforded opportunity for recognition in nation's governmental councils.

TAXES:
Good News

Though the senate and house had yet to compromise their differences, John Q. Public could look forward to substantial reductions in income taxes in 1946, and American business was assured generous relief for the immediate postwar period.

No less than 2½ billion dollars was expected to be lopped off of individual income taxes as a result of provisions for permitting $500 exemptions for dependents before payment of the normal 3 per cent levy and the scaling down of surtax rates.

Close to another 8 billion dollars was scheduled to be pared from corporation income taxes through substantial reduction or total elimination of the excess profits assessment; repeal of the declared value excess profits and capital stock levies, and graduated decrease in surtax rates on companies with less than $60,000 net return.

In addition to income tax reductions, the use tax on automobile and boats was expected to be dropped. Solons were divided on the question of wartime luxury levies, however, with the house for cutting present rates to prewar levels July 1 and the senate against the action.

With reserves well over 6 billion dollars, both houses were unanimous in freezing present social security payroll taxes at 1 per cent on employee and employer alike and forestalling an automatic increase to 2½ per cent apiece January 1.

Under the tax relief bill drawn up by the senate, G.I.s would not be required to pay taxes on service compensation during the war years, and officers would be permitted to spread tax liabilities over a three year period interest free.

LABOR:
Setting Pattern

With both Henry Ford II and United Automobile Workers' leaders expressing confidence in settlement of a wage adjustment at the company, government officials held high hopes that an agreement might result in the establishment of a postwar pay pattern and clear the way for speedy reconversion.

Government optimism was a welcome note in the dreary labor picture, pointed up by the deadlock in negotiations between the UAW and General Motors over the CIO union's demands for a 30 per cent wage increase to maintain wartime "take-home" pay and the corporation's resistance to the demands because of possible effects on prices.

Setting the pattern for other CIO unions, the UAW declared that General Motors was well able to dip into alleged huge wartime profits to carry over any losses accruing from higher wages until future production reached big volume levels. Reflecting industrial sentiment for its own part, General Motors denied exorbitant wartime earnings and declared any withdrawal from reserves would crimp expansion plans.

As the companies and unions clashed, the administration worked on a reconversion wage policy designed to guide negotiations through the troublesome days ahead. Strongly influenced by labor, the government reportedly favored substantial wage boosts to maintain wartime "take-home" pay while freezing prices at prewar levels, except in hardship cases.

Giving both capital and labor its say in the formulation of a reconversion pay program, the government moved slowly in the establishment of policy. Hopes ran high that the forthcoming management-labor parley would result in the voluntary creation of machinery for settlement of important disputes.

MILITARY TRAINING:
Await Response

Having received President Truman's recommendation for one year of postwar military training for American youth 17 to 20, congress adopted a cautious attitude on the question, with one ear perked for popular reaction and the other for military argument.

Personal congressional response to the President's request varied, with Senator Revercomb (Rep., W. Va.) declaring " . . . I am open minded —I want to hear both sides of this. . . . " while Representative Celler (Dem., N. Y.) exclaimed " . . We want no truck with compulsory military conscription. . . . "

President Truman asks congress for military training for youth.

Meanwhile, it was estimated that about 975,000 youth would be called up for training each year under the President's program, with 250,000 rejected for physical or mental deficiencies. Because of weather considerations, the largest number of camps undoubtedly would be located in the south, with regular army officers and non-commissioned officers in charge. Fewer routine tasks, such as kitchen police, would be in store for reservists, military sources said.

JAPAN:
Reform Imminent

Her military machine smashed, Japan's highly developed economic monopolies, designed for foreign as well as domestic exploitation, also faced imminent dissolution as part of the Allied program to strip Nippon of her war-making potential and democratize the country.

The losers figured to be the five great financial-industrial families of Japan, which, as the dominant civilian powers, had exercised strong pressure on the nation's foreign policies. Backed both politically and financially by the government, the big five, known as the "zaibatsu," were heavy investors in overseas development.

By smashing the "zaibatsu," the Allies planned to loosen their grip over Japanese politics and permit more liberal and democratic elements to exert influence over government direction. At the same time, destruction of the great combines promised freer opportunity for economic development in the country.

As steps were taken for the dissolution of the "zaibatsu," the political transformation of Japan slowly gained ground with new parties in the development stage and more liberal political institutions impending in the rewriting of the national constitution.

AGRICULTURE:
Global Pact

First permanent body of the United Nations, the Food and Agriculture organization (FAO) came into existence in the grand ballroom of the Chateau Frontenac in Quebec, Canada, with 30 nations formally signing its constitution.

Though possessing no executive powers over member nations, FAO seeks, through voluntary interchange of information and effort, to improve agricultural production, raise nutritional standards and better the living conditions of rural populations. Indicative of the big job FAO has on its hands, two-thirds of the world's population is estimated to be ill-fed, with many facing periodic starvation.

Signatories to the FAO constitution include Australia, Belgium, Canada, China, Denmark, Dominican Republic, Egypt, France, Greece, Guatemala, Haiti, Honduras, Iceland, India, Iraq, Liberia, Luxembourg, Czechoslovakia, Mexico, Netherlands, New Zealand, Nicaragua, Norway, Panama, Peru, Union of South Africa, Philippines, England, United States and Venezuela.

FRANCE:
Left Swing

With their fundamental platforms at variance, France's three great political parties — the Communists, Socialists and Popular Republican movement — prepared for the establishment of a new constitution as demanded in the recent election.

As the three major parties and a smattering of smaller organizations moved to write a new political charter for the country, the Popular Republican movement, backed by General De Gaulle, loomed as a counterweight between the Communists and Socialists. Known as a Catholic Liberal party, and led by Foreign Minister Bidault, the PRM's surprising demonstration of strength in the elections was indicative of the quick defense thrown up by moderate elements against the threat of extreme radicalism.

The new alignment found France's political picture characteristically mixed, with the Socialists joined with the PRM for a western bloc of European nations against Communist opposition; the Communists committed to a swift program of nationalization of industries; the Socialists favoring more study of such an undertaking and the PRM for a moderate course.

FIRE RAIDS:
U. S. Vulnerable

Back from a tour of war-wracked Europe, Anthony J. Mullaney, chief fire marshal of Chicago, Ill., and a noted authority on fires, declared that investigations showed that no great city could withstand concentrated explosive and incendiary raids and domination of the skies overhead was the only assurance of safety.

In making his disclosure, Mullaney cited the obliteration of Hamburg, Germany, where all walls were of brick, numerous firebreaks existed, no skyscrapers reared up and an efficient fire department operated. In a contrast indicative of the vulnerability of American cities, Mullaney cited localities dotted with frame buildings, wood lathe and plaster construction, tall buildings, and few empty spaces for allowing a sweeping fire to peter out.

In burning out Hamburg, Mullaney said, great squads of Allied bombers first dropped explosives to rip up structures, with incendiaries then being loosed upon the open wreckage. Towering flames licked up the oxygen to create a vacuum into which air from surrounding areas then rushed in, creating fierce "fire storms." With instruments recording temperatures of 1,400 degrees F., over 40,000 persons were said to have died from the flames, heat inhalation or asphyxiation.

NAVY:
Speed Releases

With nearly 300,000 enlisted men and officers already released since V-J Day, the navy planned for the demobilization of an additional 800,000 by the first of next year through a reduction in discharge scores.

Following establishment of lower scores November 1, the navy contemplated an even further cut December 1, with male officers' point requirements pared to 44; enlisted male personnel to 39; WAVE officers to 30, and enlisted WAVE personnel 24.

In cutting its discharge scores, the navy left its point computation unaltered, with one-half point for each year of age; one-half point for each full month of service; 10 points for dependents regardless of number, and one-fourth point for each month of service outside of the U.S., since September 1, 1939.

TURKEYS:

G.I.s and civilians alike are assured of ample supplies of turkeys for the Thanksgiving and Christmas holidays even though the size of birds may be smaller than usual due to growers' speeding up production upon government demand.

Purchasing turkeys as early as last August, the army quartermaster corps assured plentiful stocks for service personnel. Most of the birds already have been dressed and stored in warehouses or are in process of shipment overseas.

Huge Postwar Market for Autos Looms

Potential demand for automobiles by domestic consumers next year should amount to 9,843,000 cars, after allowing for 331,000 cars to meet the increase in population, says the Alexander Hamilton institute.

At the beginning of 1942, the number of passenger automobiles in operation in the United States was at a record peak of 27,364,000, results of an extensive survey showed. As the result of the stoppage of production during the war, the prospect is that there will be only 21,921,000 cars in operation at the beginning of 1946. Taking into account the increase in population since 1942, the number of passenger automobiles in operation at the beginning of 1946 will thus be 6,768,000 cars below the normal level and in addition 2,744,000 cars may be scrapped in 1946.

Veterans' SERVICE BUREAU

EDITOR'S NOTE: This newspaper, through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.

Surplus Property Sales

Sweeping revision of surplus property regulations in favor of World War II veterans has been announced by W Stuart Symington, administrator, after a personal investigation which indicated that some disposal agencies were giving veterans "the run-around."

The changes include elimination of the $2,500 limit on preferential purchases and within reasonable amounts, there will be no limit;

Permission for a veteran entering the retail business to purchase an initial stock of goods for resale. Hitherto, under interpretation of the G.I. bill, a veteran could buy materials to establish a store, but could not obtain preference on stock for sale;

Permission for veterans to deal directly with disposal agencies such as the department of commerce and Reconstruction Finance corporation;

Special permission for veterans to buy automotive or other equipment required by his employment. It is said that few autos are available, however;

Provision that credit may be extended to veterans under terms and conditions established by the disposal agency which sells the goods. Thus, it will be possible for veterans to obtain loans from commerce department and RFC as well as the Smaller War Plants corporation. Information now is that the RFC will soon take over all disposal from the commerce department, which only recently assumed sale of consumer goods from treasury.

Questions and Answers

Q. When my twin brother entered the service he designated me beneficiary of his insurance. After a hasty marriage he made, he informed me and my parents he had not and had no intention of changing the beneficiary. After his death I was notified by the insurance department that I was his beneficiary. His wife has made some sort of claim for the insurance and has held up settlement for 16 months. Can anyone but the insured change the beneficiary or can the insurance department decide who is to get it?—J. F. K., Palo Alto, Calif.

A. No one can change the beneficiary but the insured. If you are named the beneficiary in the policy, then you are entitled to the insurance and the Veterans administration says the wife or no one else can hold it up 16 minutes. File your claim for the insurance with the Veterans administration.

Q. With reference to sale of government surplus property and the $2,500 amount sold to an individual, I am much interested in further details on this matter and any information relative to location of these surplus property boards will be much appreciated.—J. A. V., Hingham, Mont.

A. The $2,500 limit has recently been removed. Your nearest Smaller War Plants Board is at Boise, Idaho, 210 Capital Securities Bldg. Your nearest department of commerce board is at Denver, Region Nine, 1030 15th street. Suggest you write to these boards for further details.

Q. I want to know if a man 27 years old, who has been in the navy almost two years and has two kids, the oldest four years and the baby can't walk, can get a discharge on this condition soon.—Wife, Coweta, Okla.

A. No, the minimum number of navy points for enlisted personnel as of November 1 is 41 points. From your letter, your husband has only about 36 points, if he has had no overseas duty.

Q. My husband is a seaman in the navy. I have asked assistance of the Red Cross to pay my hospital bill for an operation. They said "No" and recommended the Navy Relief. I wrote them stating conditions; their answer was to loan me the money until I could work to pay it back. Wasn't I entitled to medical care?—Mrs. E. D., Taylorville, N.C.

A. The navy department says you were definitely entitled to medical care if you applied to the navy medical dispensary before your operation. Suggest you apply to the nearest medical dispensary and they will inform you as to your status.

Q. I was discharged from the navy under honorable conditions. The discharge reads, "BuPers-BuMed Joint Ltr." Could you please tell me what this means?—R. J. A., Hawthorne, Calif.

A. It means Bureau of Personnel-Bureau of Medics Joint Letter, the authority under which your discharge was given.

Q. Is it true if a boy enlists in the navy reserve at 17, that he is automatically released one day preceding his 21st birthday?—Mrs. E. R. M., Tule Lake, Calif.

Lawn Making Begins With Soil Preparation

Lawn making starts with the preparation of the soil. Spade to a depth of at least six inches and pulverize thoroughly. Apply the complete plant food at the rate of four pounds per hundred square feet. This assures an ample supply of all of the elements plants must get from the soil, available when they need them. Be sure to apply evenly. Work the plant food into the soil with a rake.

Sow good grass seed at the rate of four to five pounds per thousand square feet. If you sow by hand, sow half lengthwise and half crosswise. Roll to imbed seed and insure perfect contact between seed and soil. A tamper or wide board can be used on small areas when roller is not available. This step is essential and should not be omitted.

Water thoroughly, using a very fine spray. Continue to water daily until seed germination is complete — three to four weeks — then water as needed but always water thoroughly. Light sprinkling encourages shallow roots.

Milk Stains

Calcium and protein—two of the important food values in milk—cause difficulties in dish washing and laundering. The reason is that calcium forms an insoluble curd with the soap in the dish water which affects not only the looks but also the sanitation of the container. Bacteria and other organisms may be held under this film. The protein in the milk also makes cleaning difficult, because the heat of the dish water hardens or coagulates it, making a film that is difficult to wash off the surface. If milky dishes and fabrics are rinsed with clear cold water before coming in contact with warm soapy water, much of the calcium and protein will be carried away so that the washing may be done satisfactorily. Cans and pans used for milk on the farm, however, may be washed after rinsing with one of the cleansing agents sold for the purpose under trade names. Most of these also remove "soap stone" if it has already formed.

Feed Perennials

Where perennials are planted in beds, they are usually so thick that it is impossible to feed between the plants after they get above the ground, because of the danger of injuring some of the young tender shoots. So, in crowded perennial beds, early application, while plants are still dormant, is the most satisfactory method of making the initial spring feeding. Of course it is satisfactory to feed at any time, but more care must be exercised during the period when growth is tender. Apply the plant food at the rate of one rounded tablespoonful per square foot of surface area. Feeding will give you earlier bloom, deeper color, and healthy, disease-resistant plants Where perennials are mulched and it is too early in your locality to remove the mulch at the time of feeding, simply scatter the plant food evenly over the mulch, and it will be washed down into the soil by snow and rains.

Bats Climb

Bats cannot rise up into the air from the ground like birds; but must climb up some object such as a post or a wall and drop off into the air. For this reason bats sleep upside down. When disturbed they release their clutch on the branch or beam to which they are hanging, drop a short distance and fly away. The bat possesses among the keenest ears in the world—being able to hear the beating wings of the tiny insects it pursues and catches in the dark. To raise its temperature when cold, the bat has merely to flutter its wings. There are more than 2,000 species and subspecies of bats; because of its great wing-spread, the bat can fly much better than a bird, being especially proficient at turning

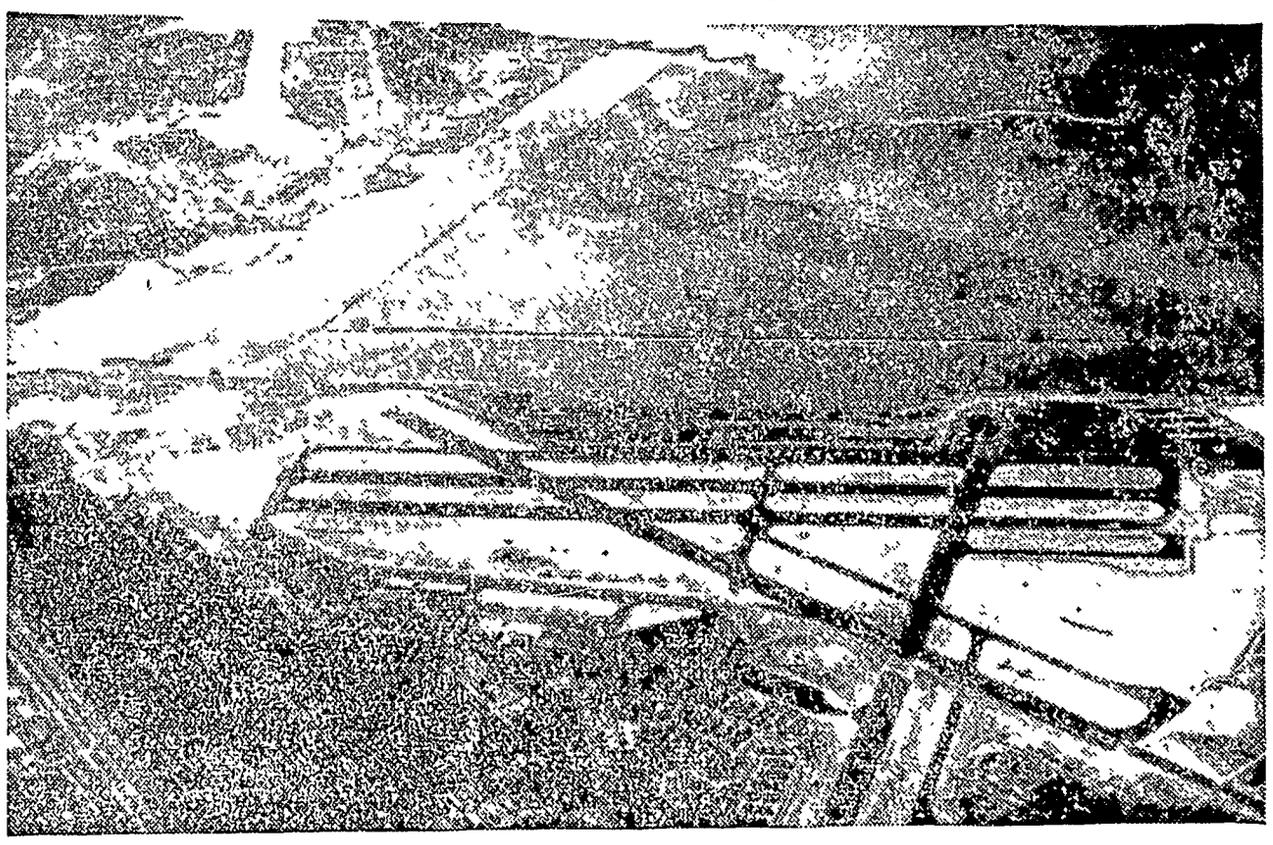
Hollywood Adds 'Atomic' Touch to Nation's Strikes

As all productions from Hollywood must no longer be considered colossal but "atomic," the strikers at the motion picture plants have led the way in proving to the world that they can put on an "atomic" strike. Shown above were sit-down strikers who blocked the main entrance to Warner Bros., Burbank, during the height of their strike. Deputy sheriffs who did not approve of the blockade are shown removing some of the strikers from the entrance.

Honolulu Now Has Largest Airport in the World



One of the first photos of the John Rogers airport in Honolulu to be released since before the war. The largest in the world, the airport is truly the crossroads of the Pacific, and it is here that Hawaiians will greet many of the delegates to the United Nations organization if their proposal to the Preparations committee, meeting in London, to make Hawaii permanent UNO headquarters is accepted.

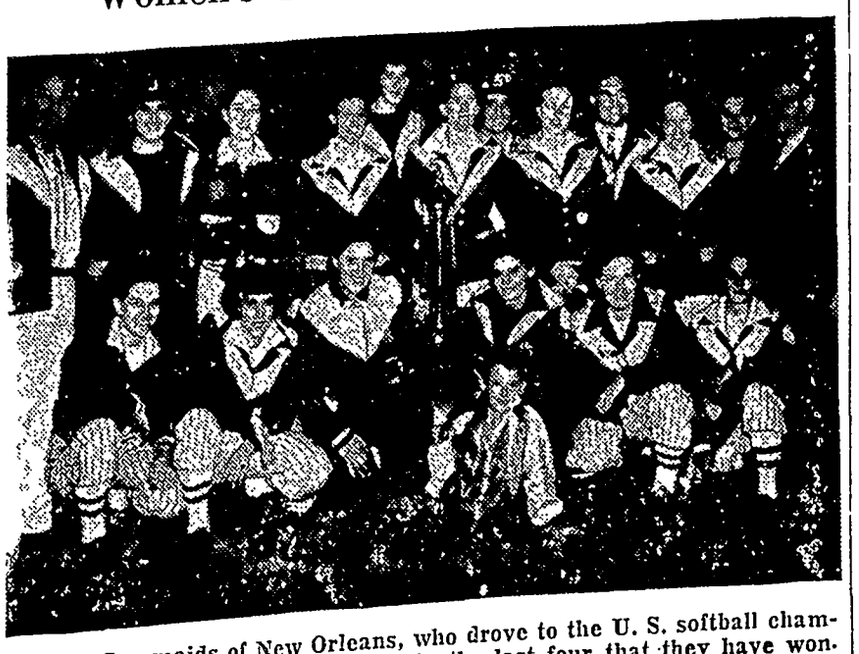
They're Here Today . . . Gone Tomorrow

If you are mentally agile, perhaps you can keep up with the Argentine situation. Here is Vice Adm. Hector Mernengo Lima, who became minister of the navy in the coup which ousted Vice Pres. Juan Peron for a short time. When Peron returned to office the admiral was arrested.

Led Kachin Rangers

Capt. Charles Coussoule, who was a leader of the famed Kachin Rangers who snaked through swampy Burma jungles to beat the Japs at their own game. He has returned to his home at Indiana, Pa.

Women's U. S. Softball Champions



The Jax maids of New Orleans, who drove to the U. S. softball championship to make it the third year in the last four that they have won. They won in 1942 and 1943. The bevy of beauties hammered out a win over the Toronto club, also winning the title of world's champions. Nine Korgan of the Jax allowed but two hits by the Toronto lassies.

From Beat to Opera

All in a Lifetime

A psychologist has estimated that the average 70-year life consists of 25 years of work, 20 years sleep, 8 years of sports and walking, 5 years of shaving and dressing, 7 years pleasure, 3 years of waiting, 2 years of eating, 1 year telephoning, 30 hours annually looking in mirrors and 4 hours annually wiping one's nose.

MRS. MARY MAJOR STOPS STICKY IRON

PENDENNIS, KANSAS. — Mrs. Mary D. Major has discovered one of the secrets of Faultless Starch, according to a letter she wrote recently. She said,

"The last time I was in town, I purchased a box of Faultless Starch, and used it on my wash. I surely was pleased with the results, when I ironed my clothes. My iron just glided along. There was no sticky starch on my iron. The starch is well named. It is all you say it is. It is absolutely faultless."

Isn't that a fine letter? She says that there was "no sticky starch on my iron"—and, of course, that means she did not have a "sticky iron."

STOP YOUR STICKY IRON

If you have to fight a "sticky iron" every time you iron, change to Faultless Starch and see the difference. It's no fun to iron with a "sticky iron." It's hard work to iron when the iron seems to stick at the end of each stroke. Your arms, your back, your neck, your legs ache with strain when you have a "sticky iron."

But you don't HAVE to fight a "sticky iron"! Just starch your wash with Faultless Starch—and see how easy it is to iron! You see, Faultless Starch contains ironing-aids that make your ironing smooth, easy and beautiful. With Faultless Starch you make ironing a joy—not a job. And when ironing is a joy, it's really fun to do beautiful starching.

SAVE STARCH-MAKING TIME

Another wonderful thing about Faultless Starch is that you can make perfect hot starch WITHOUT COOKING! And in barely a minute! Just cream the starch with a little cool water and add boiling water while stirring. That's all! Isn't that easy?

So change to the starch that Mrs. Major says, "It is all you say it is. It is absolutely faultless." FAULTLESS STARCH—at your grocery store.—Adv.

FOOTNOTES on FARM HOUSING

by LLOYD SHERWOOD
NORTHERN LUMBER CO

Winter is almost here again, and it won't be long before many of my farm friends will be facing the old problem of cold, wet animal shelters. Indoor condensation in stock buildings makes chores uncomfortable; but, more important, it affects profits in a number of ways.

1 When moisture penetrates the walls and structural members, it shortens the life of the building.

2 It reduces the productivity of the animal, whether it be a hen, a fattening hog, or a dairy cow They are as sensitive to their environment as we humans, say the authorities; and we all know we work best when we are comfortable.

3 It increases mortality. Cold, wet quarters weaken livestock and predispose them to disease.

4. It increases the number and cost of building changes, an important consideration in these days of labor shortage.

5 It increases the hours of labor necessary to keep the building clean, not only because litter must be changed oftener, but because it sticks to a wet floor and is hard to remove.

What causes such heavy condensation in animal shelters? Animals throw off large amounts of moisture. A fattening hog weighting 200 to 400 pounds may breathe out 4 to 6 pounds of moisture daily; and some moisture is evaporated from wet floors, troughs, and other surfaces. A flock of hens which consumes 20 gals. of water a day will throw off about 16 gals. of moisture in the same period. A Holsten cow producing 45 pounds of milk produces close to one pint of water vapor every hour.

When this saturated air comes in contact with a surface colder than itself, some of the moisture-load is dropped, or condenses, on that surface. It is like the beads of moisture which collects on the outside of a glass of cold water on a hot summer day. In winter, when the temperature of the interior surface of the building is below freezing frost will form, instead of water.

Now, it is a law of physics that heat will travel from a warm surface to a colder one. Most building materials are good conductors; that is, they allow heat to flow readily through the wood or masonry construction, consequently. the inside surfaces do not retain their warmth Fill those walls with the proper thickness of good insulation, Zonolite fill, and you slow up that heat loss considerably. The body heat of the animals is conserved, and the interior stays warm. This is half the battle against condensation. The other half is ventilation. We shall consider it next time. (1tc)

"Is sleep a thing to dread?
Yet sleeping you are not dead
Till you awake and rise,
here, or beyond the skies."

Local Happenings

Klemme and Vicinity

Mrs. Frances Ridder and son, L. A. Ridder were at Mason City on business Tuesday afternoon.

John Chambers went to the hospital at Belmond last Wednesday to remain for a few days treatment.

Mr. and Mrs. Wayne Pavey and daughter of Webster City visited at the parental W. F. Pavey home Sunday.

Mrs. Frances Ridder and grandson, Dennis Ridder, returned home last week Tuesday from their visit in Chicago.

Mrs. Antonio Keraus left Friday for Iowa Falls where she will visit at the home of her neice for several weks.

Mr. and Mrs. Verle Keraus and children, Mickey and Kaye, of Garner, spent Sunday at the parental E. C. Buntenbach home.

Mr. and Mrs. Wilbur Carr of Garner, were dinner guests Sunday at the home of their son-in-law and daughter, Mr. and Mrs. Fred J. Arnold.

Mrs. Anna Ulrich of Clear Lake was a Klemme visitor Wednesday.

Dr. A. H Dulmes was at Mason City on business Thursday morning.

Capt. and Mrs. Ray Jorgenson, Jr. and daughter, Judy, arrived Tuesday morning from Amherst, Texas, for a visit at the R A. Jorgenson home.

Mr. and Mrs. Carl Sanderfelt and family of Latimer were dinner guests at the Wm. Ax home Sunday. Mr. and Mrs. Fred Goll and family visited at the Ax home in the afternoon.

Mr. and Mrs. Drake of Woden, and Mr. and Mrs. Charles Drake of Mason City, visited their mother, Mrs. Margaret Drake at the Martin Barz home last week.

Mrs. John Johnson, who was receiving treatment for a fractured leg, returned home from the Mercy hospital last Wednesday and is now being cared for at her home by her daughter, nurse Mrs. Don Carson of Des Moines.

Mrs. Richard Mohler and Mrs. Jack Streckenbach left early Wednesday morning for their home in Dayton, Ohio, after spending ten days in the home of Mr. and Mrs. Arthur Wellemeyer, parents of Mrs. Mohler.

Mrs. Fred Musfelt and daughter, Mrs. Malinda Rice of Clarion, came Sunday for a visit with Mrs. Mary Waterman and other relatives and friends. Mrs. Rice returned home the same day, but Mrs. Musfelt remained here for a longer visit.

Mrs. Edith Lieuwen, of Belmond, who teaches music in the Klemme schools this year, left Monday for Minneapolis, from where she took passage on a plane for Seattle to visit her husband who is in the U. S. Navy and had just landed

Sgt. Homer Schoenwetter, who was with the air forces in Saipan as an engineer aboard a B-29, received his discharge and arrived home Friday evening for a visit with his parents, Mr. and Mrs. Geo. Schoenwetter.

Evangelistic services are being conducted at the Liberty and the Klemme Methodist Churches each evening this week. Services at the Liberty Church on Monday, and Wednesday; at Klemme on Tuesday, Thursday and Friday.

The Misses Eunice Larsen and Patricia Kudje, who are students at the University of Iowa, came Saturday morning and visited with their parents until Sunday evening. Miss Larsen is a sophomore this year, and Miss Kudje is a freshman.

Wm. Stille, Mr. and Mrs. J. E. Stille, accompanied by Miss Ruth Stille of Des Moines, left Saturday morning in Wm. Stille's car for Los Angeles, California. They will all spend the winter there, with the exception of Ruth, who is taking the trip as a vacation. She intends to return to Des Moines by plane after concluding her vacation. The Stilles will return to Klemme in the spring.

W. J. Barz of Garner was a business caller in Klemme Thursday.

Mr. and Mrs. Will Waddingham left last Thursday for Minneapolis, Minnesota, where they were joined by a sister of Mr. Waddingham, and together the party left for Calgary, Alberta, Canada, being called there by the illness of their sister, Mrs. Emma Jahnke, who was injured and hospitalized.

TIME MANAGEMENT LESSON AT LACKORE HOME

(At the home of Mrs. Clarke Lackore on Tuesday, Nov. 6th, twenty-two Ell township women discussed time saving practices. The actual distance was measured in doing a simple job in Mrs. Lackores kitchen. Then the women suggested ways to shorten this distance and simplify the task.

The lesson was concluded by a summary, presented in the form of a skit entitled, "Old Grandma Time." This was given without previous rehearsal by seven of the women.

Soldier of Democracy! The first complete biography of General Dwight D. Eisenhower will be published in the CHICAGO HERALD-AMERICAN beginning Sunday, November 18. Be sure to read this personal history of America's distinguished general — illustrated with photographs and arttists' drawings.

John Clements and family have moved into the upstairs apartment in Mrs. Antonio Keraus' house.

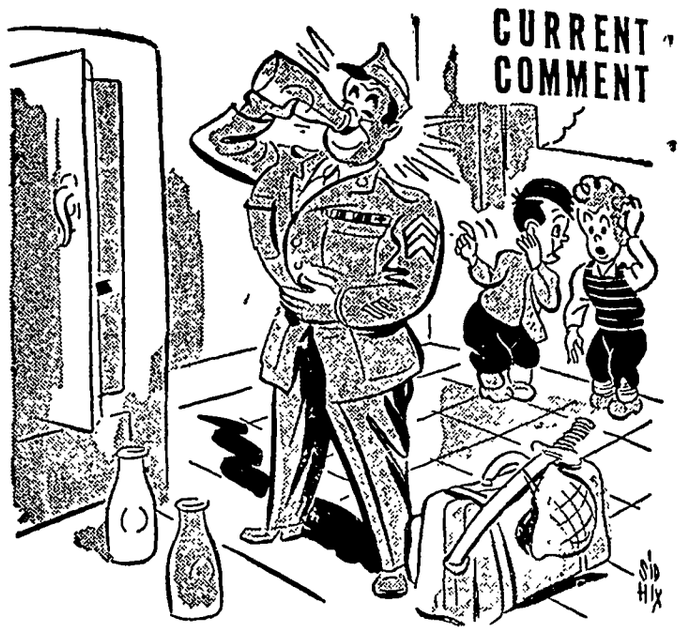
Phone 149 Garner, Iowa



Mom had the kitchen loaded with everything from soup to nuts, but all he says is, "Oh boy—Milk!"

When he hears anyone mention milk, the overseas veteran says, "That's for me!" Months without fresh milk have made him realize how lucky we are, here in America, to have all the milk we want. Lucky, too, that milk lends itself to so many flavors—like chocolate, strawberry, raspberry, or vanilla. With all its natural vitamins, proteins and minerals, milk is highly nutritious. Children need at least a quart every day—grownups a pint. For health and vitality, see that your family gets its full share of Milk, Nature's best in food.

IOWA DAIRY INDUSTRY COMMISSION Spokesman for 200,000 Dairy Farmers of Iowa

WE GIVE THEE THANKS

In the name of the living, and of the dead,
And of those unborn —Lord, bless the bread
Of brotherhood that now we break
In gratitude for Thy sweet sake.

In the name of the living — we thank Thee, Lord,
For deliverance from flame and sword;
For loved ones spared; for the task well done;
For the battle fought — and the victory won.

In the name of the dead — locked deep in sleep
Under alien earth — give us strength to keep
Untarnished their dear-bought legacy,
The brave, bright armor of liberty.

And for those unborn — Lord, we lift a prayer
For a wiser world where we all may share
A lasting amity with men.
We thank Thee, Lord, for peace.

Amen.

Neuberger-Gibbs

MISS FAY NEUBERGER IS BRIDE OF ASA GIBBS

Rev. Herschel E. Harvey Officiated A Double Ring Ceremony

M. s Fay Neuberger daughter of Mr. and Mrs. John Neuberger of Klemme, and Asa Gibbs, son of Mr and Mrs Harry E Gibbs, also of Klemme, were united in marriage at 7 30 o'clock Wednesday evening, November 14th, 1945, at the Klemme Methodist Church Rev Herschel E Harvey performed the double-ring ceremony

The couple was attended by Mr and Mrs Virgil Bridgeford, of Mason City, brother-in-law and sister of the groom, as best man and matron of honor

The bride wore a pearl grey dress and black accessories. Her jewelry was a string of pearls, a gift from the groom. Her corsage was of red roses and white pom poms

Mrs Virgil Bridgeford, the matron of honor, wore a medium-green dress with black accessories. Her corsage was of yellow and bronze chrysanthemums.

The bride and groom are both graduates of the Klemme high school Mr Gibbs was recently given an honorable discharge from the service

The couple left after the ceremony on a wedding trip through eastern and southern Iowa.

4-H ENROLLMENTS DUE AT COUNTY OFFICE

Any boys between the ages of 10 and 21 years, January 1st 1946, or girls 12 to 21, January 1st, 1946, desiring to belong to the 4-H Club should fill out and hand in an enrollment card, as soon as possible These cards can be obtained from a local 4-H leader or at the County Extension Office.

You are urged to join with the 4-H Club by active members of the Clubs in your community They know they are getting a great deal of real good practical training by being 4-H members. Try it yourself, is the advice of Paul Henderson, County Extension Director

Evangelical & Reformed Guild Will Meet Wednesday, Nov. 28

The Women's Guild of the Klemme Evangelical & Reformed church will meet Wednesday afternoon, November 28th, at the Church

Mrs. Harold Mueller of Manly, the Synodical Guild President, will be a guest, and Mrs Calvin Grosshuesch and Mrs. Lena Schroeder are hostesses.

Bonds Over America

EVANGELINE

American boys fight, suffer and die today to perpetuate freedom. And other Americans on the home front buy and hold War Bonds to safeguard freedom. If Henry W. Longfellow had not enjoyed liberty he could not have written "Evangeline," the story of Emmaline Laliche, St. Martinville, La., pioneer girl who waited on the banks of the Teche for years, hoping to greet her lost lover. The Longfellow-Evangeline Memorial Park, oldest of Louisiana's state parks, is a monument to liberty and freedom.

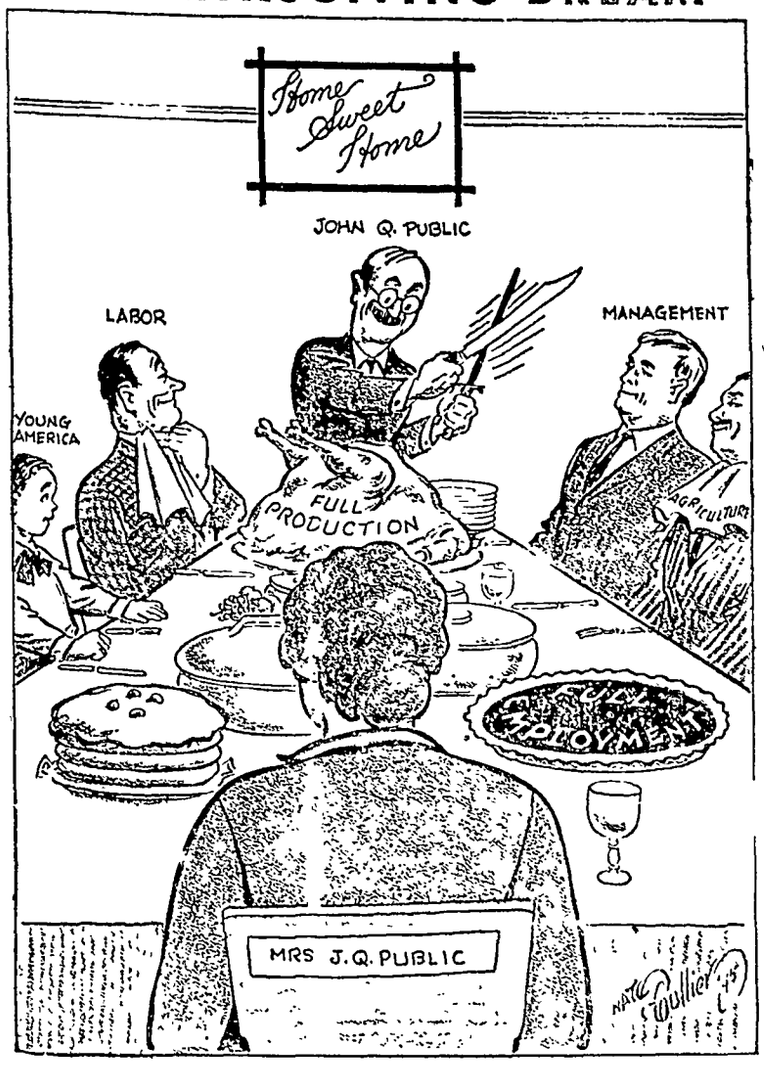
A THANKSGIVING DREAM



Mavis Nuehring And Norman Eckes Exchange Vows

CEREMONY TOOK PLACE AT EVANGELICAL & REFORMED CHURCH, TUESDAY, NOV. 13

Bride Is A Graduate Of Klemme High School, Was Employed At Cedar Rapids, Iowa

Miss Mavis Nuehring, daughter of Mr and Mrs. Owen Nuehring of near Klemme, became the bride of Norman J Eckes, son of Mr and Mrs Edward Eckes of Portland, Oregon, at a double ring ceremony performed November 13, 1945, at the Klemme Evangelical and Reformed Church The Rev. Calvin Grosshuesch officiated.

The couple was attended at the altar by Miss Wava Schoenwetter as bridesmaid, and Morris Neuhring as bestman.

The bride wore a floor-length dress of blue with black velvet trim Her corsage was of pink and white carnations. The bride's maid wore a floor length dress of pink with a corsage of red and white carnations.

Mrs Eckes is a graduate of the Klemme High School and since has been employed by the Government at Cedar Rapids.

Mr. Eckes is a graduate of the Wahapa, North Dakota high school and had 2 years of work at the University of North Dakota, until he was called into the Service.

Of his 57 months in the service, he spent 34 months in the Pacific. He was given an honorable discharge in July and is now attending the University of Minnesota.

Mrs Eckes will return to her work in Cedar Rapids.

A reception was held in their honor at the Klemme Community Hall on Friday evening, Nov. 16.

ELMER ABELE TO HEAD RURAL YOUTH GROUP IN 1946

Elmer Abele was elected President of the Hancock County Rural Young People on Monday evening. Norbert Darrow is the new Vice President; Marjorie Ann Fitzpatrick, Secretary; Ralph Anderson, Treasurer, and Ruth Upmeyer, Reporter.

Plans were made to send a delegation to the Iowa Farm Bureau Federation annual meeting to take part in the Rural Youth portion of the meeting. Talk meet speakers from the county will be Norbert Darrow and Lois Schulz. They will compete with contestants from other counties. Others attending the meeting are Adala Wille, Elmer Abele, Iris Abele and Nina Formanek.

NOVEMBER IS VICTORY BOND MONTH

This is Victory Bond month! It's importance will be stretched over the months and years ahead It's the month that helps tell whether threat of inflation takes a beating

Victory Bond Month to farmers is the ideal time to plan ahead, to figure out what kind of investments are going to be safe and sound when the bonds mature. It is the month to think about education needs for the children when they finish high school.

Victory Bond Month is the time to think twice before buying that farm. It's the time to decide whether the land will pay for itself when prices get back to normal.

Victory Bond Month is the time for farmers to remember the stories of "wildcat" investments that followed World War I Cases were not hard to find during the period after 1918. The smart farmers do not plan to be caught that way now.

Victory Bond Month certainly is the time to buy bonds. As Director R. K. Bliss of the Iowa Agricultural Extension Service states, "Bonds are the best investment for the future."

The U. S. Army is using more radio equipment than was manufactured for the entire nation in peacetime.

Behind Your Bonds
Lies the Might of America

APPLES AND WHEAT

A third of the Nation's apple crop is produced in the State of Washington The eastern section annually produces 40 million bushels of wheat. Dairy and poultry products have increased tremendously in recent years to add resources to the Nation's wealth that guarantees Victory Bonds.

American Legion Auxiliary To Conduct Christmas Drive

To Direct State March of Dimes

E. Lee Keyser

E. Lee Keyser of Des Moines has been named Iowa State Chairman of the 1946 March of Dimes to be conducted January 14-31 by the National Foundation for Infantile Paralysis, Basil O'Connor, president of the Foundation, announced.

Prior to being named State Chairman, Mr Keyser was Chairman of the National Foundation's Polk County Chapter. He is nationally known as the originator of night baseball, which he inaugurated while president of the Des Moines baseball club. He is also a former president of the Kansas City baseball club, American Association

For 27 years a resident of Des Moines, Mr. Keyser has been active in civic affairs, serving as Des Moines Area Director for the War Manpower Commission and as superintendent of parks and public improvements in Des Moines.

In accepting the March of Dimes chairmanship Mr. Keyser said

"In our state alone during the first nine months of this year, 195 cases of infantile paralysis were reported. Fortunately, through the generous contributions of the American people to the March of Dimes, it is possible for the fight against this disease to be continually strengthened and intensified."

"GIFTS FOR YANKS WHO GAVE"

Last year, the Iowa Department of the American Legion and the American Legion Auxiliary participated in the "Gifts To Yanks Who Gave" program for hospitalized veterans at Christmas time. Eddie Cantor originated the idea that every veteran in a government hospital in the United States should be remembered with a special personal gift on Christmas Day.

The program was so much enjoyed by our veterans, both men and women, that it has been decided most worth-while to continue the activity another year.

Again this year, Eddie Cantor is plugging this program. Last year the American Legion and its Auxiliary, were asked by him to promote the collection and distribution of gifts which were given "By The Public," and by the American Legion and the American Legion Auxiliary as well. Again, this year, we are promoting this program.

Any individual in any community who so desires, is invited to participate in this program by the purchase of a new gift suitable for a man or woman patient.

This is a nation-wide program. Many of our young men and women from Iowa are hospitalized in other states, and because of climatic and other conditions, great number of patients are located in certain areas out of proportion to the population of those communities For this reason, Iowa is urged to give generously, so that no one will be forgotten There are approximately 5,000 hospitalized men and women veterans in Iowa in government hospitals.

Some suggested gifts are books, stationery, games, toiletries, things to wear, and things for the smoker.

The gifts from this community are to be sent to Knoxville. Therefore, it is requested that the gifts do not consist of anything in glass or metal containers.

A box has been placed in the window of The Klemme Food Market in which your gifts may be left.

On December 8th, the gifts will be collected by the local Unit and sent to the designated place.

—American Legion Auxiliary.

Ministerial Meeting Held Monday At Garner

The Hancock County Ministerial Association met Monday at the U. P. parsonage in Garner for the regular meeting.

Rev H. E. Harvey of Klemme, gave a paper on "The Findings of the Religious Census of the County."

Eleven members were present and most of the day was spent in tabulation of reports on the census A more detailed report will be made in the near future of the findings of the Census.

Pastors of the county who have not yet received their census cards will find them in the County Agent's Office in Garner after the complete tabulations have been made.

Pvt. Robert J. Schulz Now In Pacific Area

Pvt. Robert J. Schulz son of Mr. and Mrs. Frank Schulz of Klemme is now in the Pacific area. So that Bob's friends here can write to him, here's his newest address:

ry Making Cough Syrup at Home. Quick Relief

res Big Dollars. No Cooking.

No matter what you usually use for ghs due to colds, you'll be more n surprised when you make up s simple home mixture and give a trial. You'll wonder why you er used it before. It certainly es the work in a hurry.

Make a syrup by stirring 2 cups of anulated sugar and one cup of ter a few moments, until dis-ved. No cooking is needed—it's no uble at all. Or you can use corn rup or liquid honey, if desired.

Get from your druggist 2½ ounces Pinex. Pour this into a pint bottle d fill up with your syrup. This kes a full pint—a family supply—d gives you about four times as ch for your money. It tastes fine. d never spoils. Children love it.

And for quick action, you've never n its superior. It loosens the gm, soothes the irritated mem-es, eases the soreness, makes thing easier, and lets you sleep. Pinex is a special compound of en ingredients, in concentrated m, a famous reliable soothing t for throat and bronchial irri-ions. Money refunded if it doesn't ase you in every way.—Adv.

ON'T BE A SLAVE TO CONSTIPATION

Do As Millions Do—Eat KELLOGG'S *ALL-BRAN*. For Lasting Relief

Constipated? Using harsh laxa-ve drugs? Millions have solved e problem of constipation due to ck of bulk in the diet. They eat daily dish of KELLOGG'S *LL-BRAN*, and drink plenty of ater for regular elimination! If ou have this trouble and will fol-w this simple precaution, you ay never have to take a laxative r the rest of your life!

ALL-BRAN'S not a purgative. rovides gentle bulk to aid normal, tural elimination. It's a great, turally regulating *food*.

Even Richer in Nutrition Than Whole Wheat

Because it's made from the *vital ter layers* of wheat, in which hole-wheat protective food ele-ents are *concentrated*. One ounce KELLOGG'S *ALL-BRAN* pro-es more than 1/3 your daily on need—to help make good, red od. Calcium and phosphorus—help build bones and teeth. hole-grain vitamins — to help ard against deficiencies. Protein to help build body tissue essen-l for growth.

Get *ALL-BRAN* at your gro-'s. Made by Kellogg's of Battle eek and Omaha.

PAZO for Simple PILES

Relieves pain and soreness

PAZO IN TUBES! Millions of people suffering from simple Piles, have found prompt relief with PAZO ointment. Here's why: First, PAZO ointment soothes inflamed areas—relieves pain and itching. Second, PAZO ointment lubricates hardened, dried parts—helps prevent cracking and soreness. Third, PAZO ointment tends to reduce swelling and check minor bleeding. Fourth, it's easy to use. PAZO ointment's perforated Pile Pipe makes application simple, thorough. Your doctor can tell you about PAZO ointment.

SUPPOSITORIES TOO! Some persons, and many doctors, prefer to use suppositories, so PAZO comes in handy suppositories also. The same soothing relief that PAZO always gives.

Get PAZO Today At Drugstores!

Cow Takes in More Air Daily Than Food

Dairy cows, like people, need to sleep with the windows of the dairy barn left open. However, important as fresh air is to the dairy cow, the elimination of moisture from the atmosphere inside the stable is about as importatnt, declares W. W. Yapp of the University of Illinois college of agriculture.

A cow expels from 12 to 18 pounds of moisture each day in the air she breathes out. This large amount of moisture has to go somewhere. It is usually deposited on the litter, walls and ceiling of the stable. With quantities of moisture and relatively warm temperatures, the health of animals may be endangered. When barn temperatures are below 50 degrees, the moisture condenses on walls and ceiling. Such conditions are not desirable.

The dairy specialist pointed to the large quantity of air a cow breathes. A 1,000-pound cow inhales from 115 to 224 pounds of air every 24 hours, and this is almost twice as much as the water or food she consumes. These figures indicate that a cow must breathe in and breathe out about 3,542 cubic feet of air per hour. On the basis of these figures, it would require an air duct slightly more than 2 feet square through which air was passing at a velocity of 290 to 300 feet per minute to supply fresh air for 20 cows.

Cotton Proves Value In Laminated Plastics

A recent study of the postwar competitive situation for cotton in domestic markets made by the department of agriculture shows the possible extent of the use of cotton in the manufacture of a typical laminated sheet. Sheets of one-inch thickness may consist of as many as 70 layers of eight-ounce duck or about 150 layers of four-ounce print cloth impregnated with resins.

During the war period, according to this study, cotton fabrics have been used extensively as filler or reinforcement in the manufacture of plastics requiring relatively high tensile strength, light weight, toughness, flexibility and moldability. About 80 per cent of the filler used for laminated plastics is cotton fabric. Laminated plastics were estimated to constitute approximately one-fourth of the total plastic production in 1943.

Cotton fabrics, liters as a source of cellulose, and even rags are already being used in considerable quantities for a number of plastic compounds. In 1943 approximately 50,000,000 pounds of cotton textiles, representing approximately 110,000 bales of raw cotton, were used in the production of plastic laminates alone.

Thrip Resistant

It has also been found that certain varieties of gladiolus are more susceptible to thrips than others. The glads least affected by thrip are included in the group whose bloom time runs from 75 to 85 days, while the average bloom time for the group most susceptible to thrip is from 95 to 100 days. Giant Nymph has been found to be entirely resistant by some gladiolus growers. Other varieties which do not seem to become infested seriously are: Bit of Heaven, Joyful, Maid of Orleans, Picardy, Polar Ice, Rima. Keep your gladiolus well fed with a complete, balanced plant food, when planting in rows, dig the trench two inches deeper than needed and replace about 1½ inches of loose soil. Then apply plant food at the rate of one pound (equivalent to one pint) per twenty feet of trench. Mix the plant food thoroughly with the loose soil, cover with about one-half inch of soil and set the bulbs in. Feed again at budding time with half the amount, and once more after blooming.

Kabul Is Least Known Of the World Capitals

Kabul is the remote, mountain-girt, mile-high capital of Afghanistan. It lies on the Kabul river, about 100 miles west of Khyber pass, chief traffic channel from India into Afghanistan, and scene of many border brushes between hill tribes and British Tommies, says the National Geographic society.

Fear has operated to make Kabul one of the least known of the world's capital cities. Its people have held themselves aloof for safety, have never forgot that they took to the hills to escape enemies roaming over the plains. No main commercial or tourist routes passed through Kabul. Visitors found no welcome. The ban was temporarily lifted in 1931 when the Citroen-Haardt Trans-Asia expedition, in which the National Geographic society cooperated, cut through Afghanistan on its way from Syria to China by motor cars.

Isolation was contradicted in recent years by the increasing evidence of modern ways of living. Kabul has electric lights from a water-power plant, telephones, automobiles, machine shops, munitions works. Factories turn out soap, shoes and cloth. Tanneries are a local pride. Industrial growth has been supervised by British experts. Prewar population wa sestimated at about 120,000, with a sprinkling of foreigners, including a few Americans.

Evergreens Require Plant Food for Good Health

Many gardeners seem to feel that evergreens require entirely different feeding methods than do other types of plants. This is a mistaken idea. Evergreens, like all other plants, require a complete, balanced plant food for maximum health and beauty. It is true, however, that they do not require as large an amount of plant food as deciduous plants.

Feeding improves the color of ornamental evergreen trees. It results in denser needle growth. All varieties show a more intense color and the coloring is more uniform. Feeding is especially beneficial in giving Blue Spruce an excellent blue color.

If your plants are small, use two pounds of complete plant food for every hundred square feet of bed area, raking or hoeing the plant food into the soil, and water thoroughly. If plants are medium size, from four to five feet tall, apply complete plant food at the rate of four pounds per hundred square feet of bed area. For single specimen trees, use one and one-half to two pounds of plant food per inch of diameter of the trunk (measurement taken about two feet from the surface of the ground). Mix plant food with an equal volume of loam soil and apply in holes eighteen inches deep, bored or punched in the soil at intervals around the tree, being sure not to come closer than twelve inches to the base of the tree.

Japan Mountainous

Japan is mountainous and not more than one-sixth is available for cultivation, but it is very productive. Rice, tea, tobacco, potatoes, barley and wheat are the principal crops, and in the southern part of Japan two crops are often reaped annually. The flora is rich, and fruits are abundant, but for the most part of inferior quality. Oranges are grown in the sheltered valleys of Kiushu, also the sugar cane. Silkworms are cultivated to a large extent. Among the vegetable productions are the camphor tree, paper mulberry, vegetable, wax tree and a lacquer tree which furnishes the celebrated lacquer of Japan. The tobacco plant, tea shrub, potato, rice, wheat and other cereals are all cultivated. Agriculture, upon which the Japanese bestow great care, is their chief occupation.

Household Hints

If you keep an extra dust mop and dust-cloth upstairs you can save yourself many trips carrying them from one floor to the other.

—•—

Place a piece of gum camphor inside the piano case when going away from home. It will keep the moths from getting inside the felt.

—•—

To make thickening for gravy, put the flour and water into a wide-mouthed jar, with a screw top, and shake well.

—•—

Never have any exposed wiring anywhere. Replace at once any broken or cracked switch-plates or outlet plates. Never use frayed or broken extension cords.

—•—

When storing empty fruit jars, replace lids to keep tops of jars smooth and free from nicks.

—•—

If you try to keep tin shiny you won't have a shine or the tin. The thin coating comes off and leaves the metal open to rust.

—•—

Pour a little paraffin over the sliding groove in the drawer to make it slide easier.

Mighty Good Eating!

Kellogg's CORN FLAKES

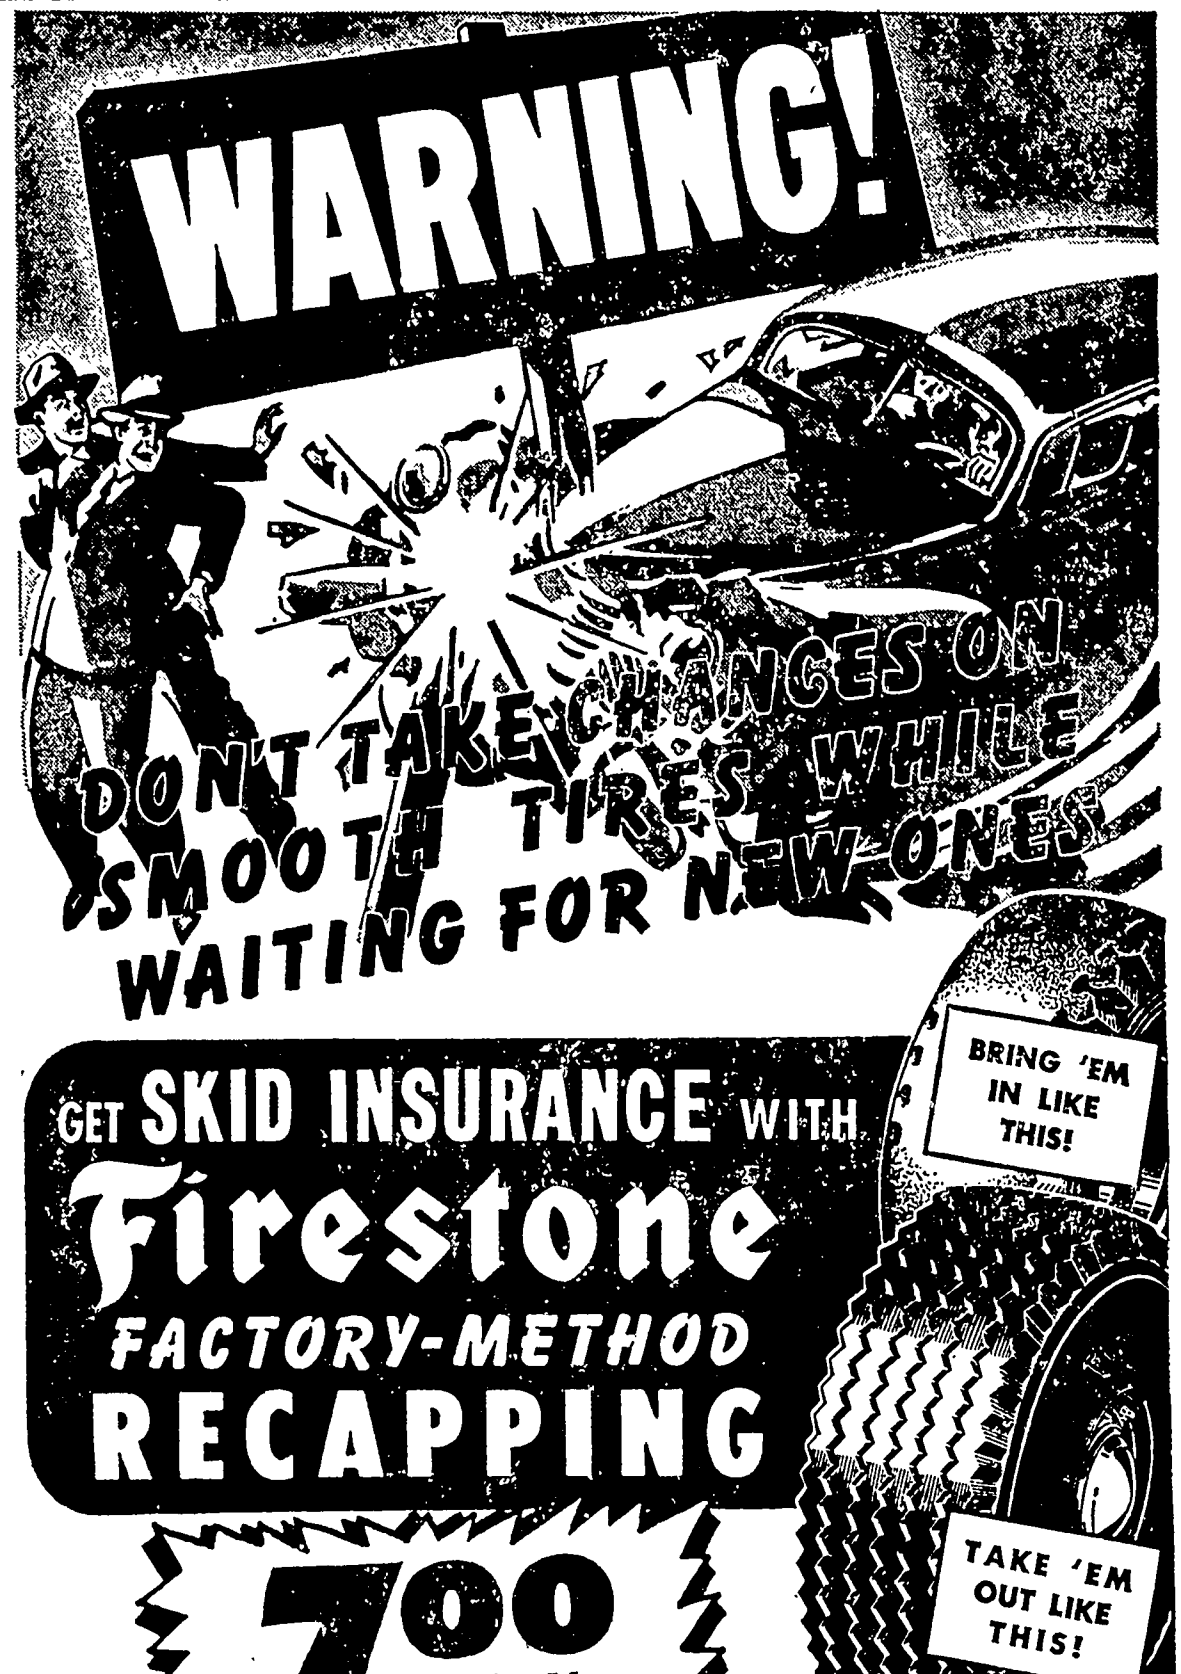
"The Grains Are Great Foods" W. K. Kellogg

Kellogg's Corn Flakes bring you nearly all the protective food elements of the whole grain declared essential to human nutrition.

easy way to UNCORK STUFFY NOSTRILS

When nostrils are clogged, and your nose feels raw, membranes swollen, *reach for cooling, soothing Mentholatum.* Spread it inside nostrils . . . and snuff well back. Instantly it starts to 1) Help thin out thick mucus; 2) Soothe irritated membranes; 3) Help reduce swelling; 4) Stimulate local blood supply to "sick" area. Every breath brings quick, welcome relief. To open stuffy nostrils, get effective Mentholatum today, the Medicated Nasal-Unguent. Jars, tubes 30¢

TESTED AND FOUND EFFECTIVE BY A GROUP OF NOSE AND THROAT SPECIALISTS



Only Firestone Recapping gives your tires the famous DeLuxe Champion Gear-Grip Tread, the tread with extra depth for extra safety, extra traction and longer mileage. Only the best quality tread rubber available is used in Firestone recaps, the same grade rubber as that used in new tires. The workmanship is the finest . . . factory-trained experts do the job. Materials and workmanship guaranteed.

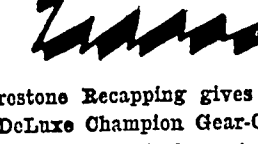
More Cars Roll on Firestone Recaps Than Any Other Kind

Firestone Quality Is the Reason!

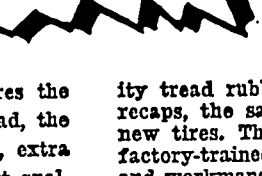
1. ORIGINAL INSPECTION
Actual experience has dictated our inspection standards. They are designed to select only those tires that justify additional labor and material.

2. BUFFING
Firestone's Dyna-Balance buffing equipment assures finished treaded tires which conform to the highest balance requirements.

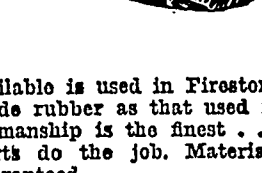
3. REPAIRING
Rayon repair patches, together with special repair methods, combine to produce the highest quality of repair work.



4. TREAD RUBBER
Highest grade rubber available used exclusively in our process, the same rubber as that used in new tires. You get longer mileage.



5. CURING
Firestone's treading cures are governed by strict specifications and controlled with precision equipment.



6. FINAL INSPECTION
Only those tires which conform to Firestone's high standards of quality are permitted to pass the strict final inspection.

BOARD PROCEEDINGS

5TH ADJOURNED SEPTEMBER MEETING

Garner, Iowa, Nov. 2, 1945

The Hancock County, Iowa, Board of Supervisors met in session on above date with F. J. Schoun, Penn Eckels and John Chambers, present.

The minutes of the last meeting were read and approved as read.

Supervisor Schoun is appointed a committee to investigate and cause repairs to be made in D D No. 80.

On motion and second the contract of Joe Needles for the construction of the main open ditch and tile mains and laterals in D D. No. 142 is approved.

On motion and second the contract of Concrete Products Corporation of Humboldt to furnish material on D. D. No. 142 is approved.

On motion and second a notice of letting on 10 ton of atlacide is hereby ordered published, said letting to be held at the courthouse in Garner, Iowa, at 1:30 P. M. on November 26, A. D., 1945.

WHEREAS, Wm. Henschen, Engineer, has to report that Needles and Cummins of Greenfield, Iowa, have completed their contract for open ditch work on D D. No. 138, Hancock County, Iowa, to his entire satisfaction and whereas there is due on said contract a final estimate in the sum of $1,620 - 40 as a final payment on said contract.

BE IT THEREFORE RESOLVED by the Board of Supervisors of Hancock County, Iowa that the report of the Engineer be and the same is hereby tentatively approved and further hearing on said report will be had at the Courthouse in Garner, Iowa, at 3 P M on the 3rd day of December, A. D., 1945

The County Auditor be and he is hereby ordered to give notice thereof by publication in the Garner Leader and Signal, a newspaper published at Garner, Iowa, as required by Section 7532, Code of Iowa, 1939, and laws amendatory thereto.

WHEREAS, Hancock County, Iowa, has acquired title to lots 1, 3 and 8, in block 30, Anderson's Second Addition and to lots 3 and 4, in block 2, Brown & Treganza's Addition to the Town of Britt, Iowa, under provisions of Chapter 347, Code of Iowa, 1939, and laws amendatory thereto and

WHEREAS, it is deemd for the best interests of the taxpayers of Hancock County, Iowa, that said lots be sold at Public Auction on the premises at 2 P. M., on Saturday, November 17, A. D., 1945.

The County Auditor be and he is hereby authorized to publish notice of such sale in the Britt News Tribune, a newspaper published at Britt, Iowa, which notice shall state the time and place of sale, that said lots will be sold for cash to the highest bidder.

BE IT RESOLVED that the claims hereinafter set out be allowed in amounts designated thereon and the County Auditor be and he is hereby directed to draw warrants on the several funds of Hancock County, Iowa, in payment of such claims in amounts set opposite each claim.

PENN ECKELS, Chairman

ATTEST: FRED C. MISSAL, County Auditor.

Capt. Ray Jorgenson, Jr. Honored At A Birthday Dinner

Capt Ray A. Jorgenson, Jr. who is home on a terminal leave from the air corps, was honored at a birthday dinner at the home of his parents, M. and Mrs. R. A. Jorgenson, Sunday evening.

Guests present were Mrs. Ray Jorgeson, Jr. and daughter, Judy; Mr and Mrs. John Day; Mr. and Mrs. Dorance Day, and Gary; Dr. and Mrs. A. H. Dulmes and Dick.

Many flowering plants suffer from lack of moisture when they go into the winter, according to Larry Grove, Iowa State College extension specialist. He says water the plants in the fall shortly before the ground freezes up to protect them from this danger.

Mrs. Clarence Lemke Entertained At Bridge Party Friday

Mrs. Clarence Lemke entertained a group of ladies at two tables of bridge at her home west of town Friday afternoon.

Mrs. Martin Barz won the high score and Mrs. Harold Wicks held second highest score.

Mrs. Lemke served a nice lunch after the games.

A $50,000 Library Gift

Sale of the Russell farms in Newton township, Winnebago county, benefited the Forest City Library to the amount of $58,700. Mrs. Russell, last owner of the farm bequeathed residue from her estate to the library after several personal bequests had been provided for. The Library share is a trust fund for the purchase of books. Several farms were included in the estate sale.

Thanksgiving Is Here Aga

The going may have been rather rough since Thanksgiving, but the most of us have many things thankful for, and it is our hope that you have had share of the good things the past year.

One of he great things that we have to be thankful for is our old friends as well as the new friends we made since last Thanksgiving Day.

May you and yours enjoy a happy Thanksgiving Day in this year of peace.

FOOTNOTES on FARM HOUSING

by LLOYD SHERWOOD
NORTHERN LUMBER CO

Indoor condensation in animal shelters can be controlled with good insulation and ventilation. The two go hand in hand One will not function properly without the other. That is why well-known manufacturers of ventilating systems will not install their equipment in an uninsulated building Adequate ventilation requires a movement of air rapid enough to avoid condensation, and yet gentle enough to avoid drafts Proper insulation is the most important factor in making farm buildings easy to ventilate Good construction helps too, of course. Now, what are the mechanics of ventilation How does it "do it's stuff?" We all know that warm air can hold more moisture than cold air, and that as air is warmed, it picks up moisture from any surface with which it comes in contact.

Suppose the outside temperature is zero, and the inside temperature of an uninsulated building is 25 degrees The cutside air, being heavier than the air inside, will fall to the floor as it enters the building Eventually, it mixes with the inside air, gets lighter, and rises, absorbing moisture as it expands At 25 degrees, air can hold twice as much moisture as it can at zero, so some of the dampness is removed as the air goes out through the exhaust But at 25 degrees there is not enough difference in the rate of movement and the amount of moisture carried off to make an appreciable difference The circulation is slow, sluggish and lazy. The building remains damp.

In contrast, the well-insulated building conserves the heat given off by the animals, and as a result is much warmer. Instead of 25 degrees, the inside temperature may well be 50 degrees A friend of mine was telling me about a well insulated Iowa poultry house which he visited last winter, which was 55 degrees inside when the outside temperature was 18 degrees below zero and a strong wind was blowing This shows what insulation can do. Air warmed to 50 degrees has twice as much power of movement about the building as air at 25 degrees; therefore twice as much will move out through the exhaust More important than the brisker circulation, however, is the fact that air at 50 degrees can hold SIX TIMES as much moisture as air at 25 degrees, which means that six times more moisture is being carried outside That's how you get a dry interior. Regardless of the ventilating system used, these principles are fundamental and extremely important. Next time: Selecting Insulation 1tc

AROUND IOWA

"Necessity, The Mother Of Invention"

The housing shortage is so acute in some Iowa towns that newcomers in some have to buy a lot and put up their own house before obtaining suitable places in which to live This happened in Indianola where Mr. and Mrs Oscar Raub came to buy a bookstore and Mr Raub to teach agriculture in the high school. They bought a lot, are completing a temporary house on the rear of it and are reserving the front of the premises for a more substantial house when materials become more plentiful.

Party Of Her Own

Silver, Edward Bleakly's little dog, didn't want to miss out on any of the refreshments at a birthday party given for Edward's grandfather, H L. Meier, so tock things into her own 'paws." During Mrs. Bleakly's absence, Silver feasted on cake to her heart's content. Mrs. Bleakly soon had another cake baked for the party so both Silver and Mr. Meier enjoyed cake.

Still Aromatic!

The editor of the Reinbeck Courier tells this one. Over 25 years ago, the editor gave a box of cigars to his brother-in-law, John W. Adler of Albia, as a Christmas gift. Mr. Adler for some reason, had not opened the box until a recent visit to Reinbeck Both Mr. Adler and the Reinbeck Courier editor enjoyed a few smokes from the box of gift cigars.

Cob Fight

George Wilkens, 11 year old Waverly boy, narrowly escaped permanent injury to his right eye while playing war with a group of children. The children were using corn cobs for ammunition when one hit George's right eye, breaking a blood vessel, but causing no other eye injury.

To The Third Generation

The melon business for West Union has been mostly in the hands of the Stepp family for more than 50 years. James Stepp started peddling melons there more than a half century ago. Since his death, his son, A R, continued the business and now his grandson, Wayne Stepp, drives the melon wagon into town. The same wagon originally driven by James Stepp, is still in use, and the same old bell announcing the presence of the wagon, is being used by Wayne. The wagon now has rubber wheels, the only modernization it has had in the time it has been driven over West Union streets.

Free Hauling

Mrs. Charles McGinn, of Waverly, hestitated about leaving her 8-month-old baby, Jerry, in the car as she visited for a few minutes at the Joe Harrington home but was glad later that she decided to take him with her into the house. When Mrs. McGinn returned for her car, it was nowhere to be found After some frantic phoning, the car was found after having been towed in by a wrecker. The wrecker called to tow a stalled car, jacked up Mrs. McGinn's, thinking it was the car he was after, and hauled it in. The car he really was after was a little further on down the road.

King-Size Can Opener!

Use of a king-size can opener which he invented enabled Lt (j. g) David Schwitters of Steamboat Rock, civil engineering corps, U. S. N. E., to show the Sea-Bees how they could make emergency culverts for drainage in battle areas The culverts are made from empty oil and gasoline drums by removing the drum-heads and welding the drums together. Hammer and chisel method on the drum-heads proved too slow a process in removing the heads, so Lt. Schwitters came forward with the king-sized can opener.

Thank You!

•

We just want to take this opportunity of saying "Thank You, Folks" for your patronage and good will given us the past year We appreciate all you have done for us.

May your Thanksgiving be one of great joy.

We were smart to buy plenty of bonds in every loan, and....
You bet we're going to buy more and bigger bonds in the great VICTORY LOAN!

"HERE'S WHY..."

1. They pay for the care and cure of our wounded . . . supply the finest of medical aid. They help to bring our boys back home . . . to pay for all the colossal cost of Victory.

2. Held by millions of Americans, Victory Bonds will provide a solid reserve of buying power to assure steady jobs for veterans.

3. Buying Bonds rather than scarce goods helps keep the lid on prices . . . prevents inflation and its follow-up of depression.

4. Bonds form a reserve for future repairs and replacements . . . for modern buildings, improved stock, better homes.

5. They hold dollars in store to pay for our children's education . . . right on through college.

6. E Bonds return $4 at maturity for every $3 you invest.

7. They give security to enjoy later years with peace of mind.

VICTORY LOAN

MAKE VICTORY SECURE!

Hancock County War Finance Committee

Veterans' SERVICE BUREAU

EDITOR'S NOTE: This newspaper, through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.

Reconverting Insurance

The Veterans administration has just recently ruled that veterans of World War II who have permitted their National Service Life insurance to lapse and desire to reinstate it, may do so by paying two premiums and submitting evidence that he is in good health if the insurance lapses within six months after he is discharged.

If the veteran has been out of service more than six months he may reinstate the insurance at any time within three months by showing his health is as good as when the insurance lapsed and paying premiums for two months.

If the veteran is unable to keep the full amount of insurance he carried while in service, he may reinstate and continue any part of it in amounts from $1,000 to $10,000 in multiples of $500 upon payment of two monthly premiums. Congress has recently extended the five-year level premium policies issued on or before December 31, 1945, and not converted to permanent policies before that date, for an additional three years. Such policies issued after that date have five years to run. In either case, the policies, at their expiration date, must be converted to one of the permanent plans offered by the Veterans administration: ordinary life, 20-payment life or 30-payment life If national service life insurance is allowed to lapse after being converted into permanent form, the veteran must pay all monthly premiums in arrears with interest at 5 per cent, and prove his good health. Converted national service life insurance has a cash value and may also be used for security. The five-year term policy as extended does not have a cash value.

Questions and Answers

Q. My son was due home in August and he has not arrived and we would like to get some information about where he is or why he has been delayed. He is with the 1376-E.P.D. Co. —Mother, Ava, Missouri.

A. The war department does not recognize "1376-E.P.D.Co" and says you must be in error as to the description of his outfit. You might write direct to Bureau enlisted personnel, Adjutant General's office, War department, Washington, D. C.

Q. Will a soldier with a wife and child, in service 2 years and overseas 14 months, with 55 points, be discharged in the near future?—V.P., Crossville, Ala.

A. Men with 60 points are eligible for discharge November 1 and the point total may be lowered after December 1. Our guess is that your husband may be eligible for discharge soon.

Q. Before induction into the army, my husband was employed by the U. S. Department of Justice. He served in that position for six months in 1942 and 43. Since he did not serve his full probationary period is he still eligible under the G.I. Bill of Rights to return to the same position?—Mrs. H.K., Los Angeles, Calif.

A. Under the Selective Service act, he is entitled to his old job back.

Q. My husband was killed in action. Am I eligible for medical care? Is our daughter? If so, what is the proper procedure?—Widow, Gloucester, Va.

A. The Veterans administration says neither the widow nor members of the family are eligible for medical care, unless the widow is pregnant at the time of the veteran's death. The widow, however, is entitled to a pension of $50 per month, and the daughter $15 per month, if under 18 years old, for life or until the widow remarries. She is also entitled to gratuity pay of six months of the soldier's pay, and insurance, if she is the beneficiary in the soldier's policy.

Q. My husband and I would very much like to know how to get a jeep. He is on his way home and a jeep that will run on sand would be invaluable in our business.—Mrs. W.I. S., Peary, Va.

A. Suggest that you write to the Department of Commerce, Region 3, 1126 21st street N. W., Washington, D. C., or to the RFC Disposal agency, Richmond Trust Bldg., 7th and Main streets, Richmond, Va.

Q. My husband is to receive his discharge in November and we are expecting a baby in April. Are we entitled to the infant maternity care? If so where can we find out?—M.V., Lixville, Mo.

A. The army says that where pregnancy is in advanced stages, wives of servicemen are entitled to maternity care even after soldiers receive their discharge. Suggest you apply to your nearest local Red Cross Chapter. There is an army medical depot in St. Louis and O'Reilly General hospital at Springfield. There may be closer medical service.

What the World Needs More Than Atomic Bomb Defenses

1. Fewer diplomats, greaseballs, smarty-pants and politicians and more straight - shooters, educators and evangelists.

2. Less dependence on Big Threes and the Big Fives and more dependence on the Big Ten (Commandments).

3. A general realization that nothing can happen at London, Moscow or San Francisco that can be as important as what happened at Bethlehem.

4. Less concern about the atomic bomb and more concern over an atomic faith.

5. A consecration of church, college, school and fireside to the tremendous job of arousing a deep and sincere regard for religious values.

6. An "atomic" bombing of indifference, slipshod, routine churchgoing and of "quicky" devotions in which a man presumes to give less time to a contact with his God than he would be willing to give to any contact in the business or social world.

7. An aroused, zealous, forceful clergy, impatient with forms and aflame with a determination to build, strengthen and perpetuate faith.

8. A return to the era when men of God were vital leaders of their flocks, pounding home the eternal verities, never kowtowing to thin-skins, never pulling a punch and talking turkey every Sunday 52 Sundays in the year.

9. The return of the Sunday sermon as a powerful influence for guidance, instruction and spiritual inspiration and no yielding to those restless churchgoers who think a half hour in church is a strain on their patience.

10. A consolidation of churches in the realization that none of the agencies of the devil would dream of scattering their efforts that way.

11. An end to churchgoing in the gimme-gimme mode and an approach to the altars in a spirit of love, sacrifice and gratitude.

12. A general realization that religion is no mere Sunday routine, and that its mood must be carried into the shop, office, market place, and home 365 days a year or else!

13. A return to prayer in the devout, clear-toned fervor of our forefathers in the woods of Massachusetts.

14. Acceptance by every man and woman of the plain fact, now clearly visible, that from this point on he either joins the brotherhood of man or the Society for Self-Destruction.

15. A realization that of all the freedoms, the most helpful in the world of tomorrow must be freedom from hypocrisy.

* * *

WHAT'S WRONG WITH THIS PICTURE?

The most flabbergasting spectacle of the day is Japan playing Little Eva.

—*—

Yesterday the Jap was a teeth-baring, wild-eyed, snarling gorilla-man, treating slaughter as a picnic pastime; today he presents the picture of a marcher in a daisy chain, not even resentful that his emperor has had to become a Hiromilquetoast.

—*—

Yesterday the Jap was diving to death in a one-man suicide bomb; today he isn't even showing the will to talk back to movie-house ushers.

—*—

The nation is taking total defeat more calmly than thousands of democratic communities take the loss of a local election.

—*—

The Japs shucked their uniforms with the eagerness of boys eager to take a hot bath. They turned in their weapons with less argument than you would get from an army of Hollywood "extras," and they have adopted "Yes" as a national slogan without batting an eyelash.

—*—

Are the Nips the most philosophical people of all time? Are they merely the best actors of 1945? Are they still in a coma? Or when licked are they a race that takes a rain check and calmly awaits the next contest?

—*—

Never in history has a warlike nation taken such a shellacking and then put its neck on the block with such gushing resignation and ultra politeness.

—*—

Of course, there is one possible exception: Maybe the Japanese are willing to accept anything rather than another close-up of Nimitz, Halsey, Mitscher and the United States marines.

* * *

THE DELICATESSEN DEALERS HAD A NAME FOR IT

The former police chief of a great city, giving up a job to appear in crime scripts for the kiddies on the radio, is now making crime movies for the little dears. He will start with the Dillinger case. We don't blame anybody for changing jobs for big money And we like to see a policemen get ahead. But it's time somebody stripped such cases of all the bunk about its being done to halt juvenile delinquency, and keep the kiddies straight.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

Lesson for November 25

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

CHRISTIANS WORKING TOGETHER IN THE COMMUNITY

LESSON TEXT: John 17:20-23; Acts 15:22-29.

GOLDEN TEXT: We are laborers together with God.—I Corinthians 3:9.

Unity within the Church is God's plan and purpose, but that does not mean that some man-made plans for unity are either scriptural or desirable. There is much pressure being exerted now to unite the Church on the basis of a vast ecclesiastical organization, quite apart from any doctrinal or spiritual unity.

Such unity was not in our Lord's mind. He wants spiritual unity, and in such fellowship the Church will find its only real bond of united life and action.

I. Unity in Spirit (John 17:20-23).

Here we enter the veritable holy of holies of Scripture. Facing the time of His departure and death, the Lord prayed for those who believed, or would believe (v. 20) on Him.

What was His prayer? That they should be one with the Father, with Him, and with one another. This had to be accomplished while they remained in this wicked world (see John 17:13-16). How? By the cleansing and sanctifying work of the truth.

The Word of God—the Bible—is the instrument used by the Holy Spirit in this work of sanctification. Small wonder that there is little holiness and spiritual unity when the Word has so little opportunity to touch and to cleanse. Reader, do you study God's Word?

Such separation to God will result in real spiritual unity between those of all denominations and creeds. It is not some artificial thing to be put on from the outside. It comes from the heart of man and reaches out into his life and into the lives of others.

II. Unity in Action (Acts 15:22-27).

Satan tried to thwart the missionary efforts of the Church at the very outset by starting a doctrinal controversy.

Although the first council at Jerusalem (Acts 11) had decided that "to the Gentiles also hath God granted repentance unto life," the question did not stay settled, for there were persistent Judaizing teachers who now contended that even though the Gentiles could be saved, they had to come into the church by way of Judaism and first fulfill the Jewish rite of circumcision

The story of how this vital and fundamental question came up is found in the early verses of Acts 15. The entire future of the gospel ministry was in a sense dependent on the solution of this problem. Christianity is the only religious faith in the world that presents justification by grace as the way of redemption; all others follow (more or less) the path of salvation by works.

The question now was: Shall works of the law be mingled with grace? Can Jesus Christ alone save men, or is salvation through Jesus Christ plus something else?

How was such a serious question to be settled? Should argument and strife be permitted to go on until the stronger party prevailed? Better judgment indicated the desirability of a Christian method of settlement.

The final decision of the council is sent not only by Paul and Barnabas, but also by a committee from Jerusalem, a gracious gesture of fellowship.

As a matter of record (a wise procedure in such a case), a letter was sent which, after addressing the Gentiles as "brethren," reviewed the history of the matter and then, without mentioning circumcision at all, put upon the Gentiles "no greater burden than the necessary things." And what were those? Those things which relate to purity of life as those who were enjoying Christian liberty. The law of Moses need not be kept as a ground of salvation. They were saved by grace. But grace can never be the cloak of careless living, nor can liberty in Christ be interpreted as license to live in sin. We are set free in Christ, not that we may sin, but that we may "go and sin no more."

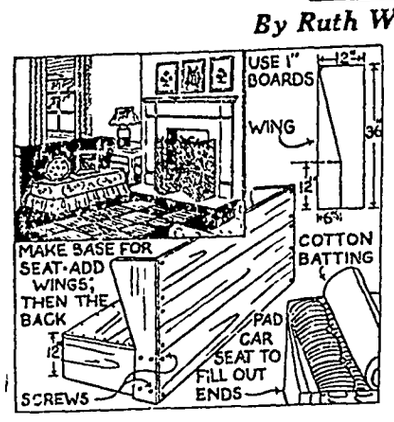
III. Unity in Doctrine (Acts 15: 28, 29).

In non-essentials we should exercise toward other believers the greatest love and consideration. Men have a right to differences of opinion, and must follow the dictates of their own consciences. Let us not be betrayed into controversy on such matters.

There are certain foundation doctrines which must be held if a church is to be Christian; concerning these we stand together. There is a faith for which we are to earnestly "contend" (Jude 3). We are never, even on the grounds of supposed courtesy, to give aid and comfort to false teachers (II John 9-11). Kindly, tactfully, but definitely the Christian Church must stand true to its doctrinal convictions, standing united against an unbelieving world, and if need be, an unbelieving religious world.

Making a Love Seat Out of Something That's New and Something That's Old

By Ruth Wyeth Spears



IF YOU are wisely furnishing your dream home a little at a time while you hold on to your war bonds, here is a word of cheer. The things that you improvise to use while you are acquiring permanent furnishings may have lines as good, colors as fresh, and details as smart as your most expensive new pieces. A few deft touches will make them inconspicuous and harmonious.

The love seat, from BOOK 5 of the series of homemaking booklets offered with these articles, proves this point. The sketch shows how a simple frame was built to fit an old car seat which had been filled out with extra padding Covering was chosen to match an upholstered chair on the other side of the fireplace The back and wings of the seat were then painted to match a bright blue tone in this material. There are more than 30 of these homemaking ideas illustrated in this booklet.

* * *

NOTE—A copy of BOOK 5 may be obtained by sending 15 cents with name and address direct to:

NOW IRONING IS A JOY, NOT A JOB

IUKA, MISSISSIPPI. — Mrs. Florence Solomon has discovered a wonderful relief for "ironing day blues." Here is what she said about it to Faultless Starch recently:

"I used to dread ironing day so much, but after I began using Faultless Starch, ironing is a pleasure instead of a dread."

Do you dread ironing day, too? If you have to iron with a "sticky" iron, no wonder! Your arms get tired, your back aches, your neck aches, your legs ache. It's mighty hard work to iron when the iron sticks at the end of each stroke.

But you don't HAVE to iron with a "sticky" iron. Just change to Faultless Starch and iron with a smooth, slick iron that just flies along!

AMAZING EASY IRONING

There's a simple reason why Faultless Starch makes ironing easy. You see, it is made a special way. One of the special things about Faultless Starch is that it contains ironing-aids, already mixed in, that make it easy to do smooth, beautiful ironing. No more "sticky" iron!

EASY TO MAKE THIS STARCH

But that isn't all. You know how busy you are on washday. Then you have to stop and take out ten or fifteen minutes to make hot starch. But not when you use Faultless Starch! You make Faultless Starch in barely a minute—NO COOKING! Just cream it with a little cool water, add boiling water while stirring and presto! you're through! Start to starch!

You deserve the wonderful advantages of Faultless Starch. NO COOKING! NO "STICKY" IRON! So ask your grocer for Faultless Starch. Give all your wash that absolutely faultless look!—Adv.

STOP GRAY HAIR

TRY "TRUE-COLOR" FREE

Use True-Color and watch the return of beautiful, natural appearing color to your hair. True-Color helps bring back that youthful appearance everyone desires. The change is so gradual even your friends won't guess. True-Color is not a dye; it is harmless to the skin. Our customers say it relieves dandruff and falling hair. Inexpensive and easy to apply, requires but a few minutes each week in the privacy of your home . . . We have set aside a quantity of sample bottles for new customers. While they last, you may have one for the asking. Sample bottle is sufficient to bring back that color to your hair. Write for your sample bottle now.

Back from war!— FAST ACTING FLEISCHMANN'S DRY YEAST

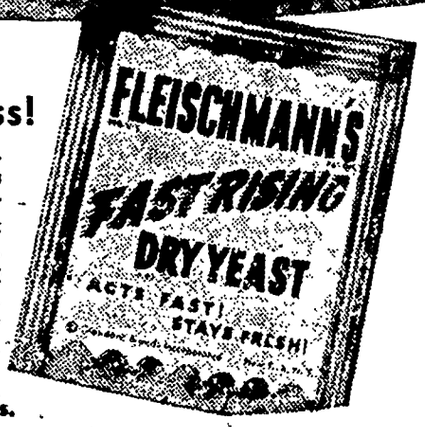
Granule Form Saves Time!

Stays Fresh! Scores New Baking Success!

● No more being "caught short" on baking day with no yeast in the house . . . no "spoiled batch" because yeast weakened before you could use it. IF YOU BAKE AT HOME—Fast Rising Fleischmann's Dry Yeast lets you make delicious bread quickly . . . *any time you want to.*

Easy-to-use . . . fast-acting . . . Fleischmann's Fast Rising stays full-strength for weeks on your pantry shelf — ready for quick action whenever you need it. Use Fleischmann's Fast Rising Dry Yeast next time you bake. It will be as potent as the day you bought it. At your grocer's.

Just dissolve Fast Rising Dry Yeast according to directions on the package. It's ready for action in a few minutes.



Johnny Found Soda Pop To Be Highly Potent Stuff

A story is being told about a couple of moonshiners who came out of the mountains of Kentucky to ride on a train for the first time. To them it was a great experience.

Before they got on the train they saw some folks drinking soda pop. Being thirsty, they decided to buy a couple of bottles of the beverage. When the train started, one of them pried the cap off the bottle and started to drink the contents just as the train entered a tunnel.

"How is it, Johnny, how is it?" inquired the other.

To which Johnny replied:

"Don't touch it! Don't touch it! It's made me blind already!"

SNAPPY FACTS about RUBBER

The 24 million American passenger automobiles that survived the war need 50 million new tires, according to Government estimates.

New passenger tires will continue to be all-synthetic for some time to come.

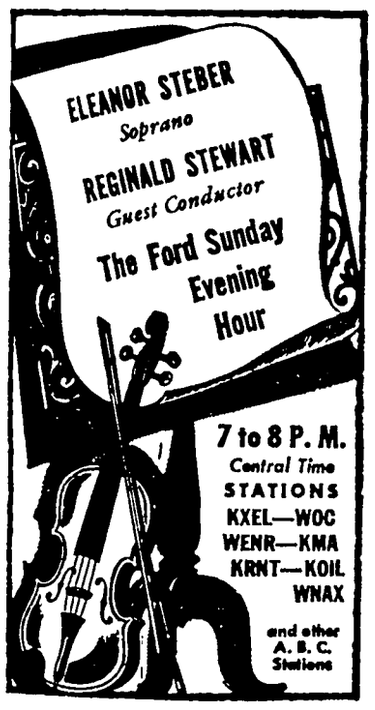
It takes 450 rubber trees and two men a year, working full time, to produce a ton of natural rubber.

The work of inscribing names on headstones has been made easier by development of a rubber sandblast stencil sheet.

The first commercial application of B. F. Goodrich Company's "Toralistic" rubber spring is in 1,000 twin-coach buses to be produced this year.

More miles ride on B.F.Goodrich

FIRST IN RUBBER



Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION
for Coughs, Chest Colds, Bronchitis

WOMEN '38 to 52'
are you embarrassed by
HOT FLASHES?

If you suffer from hot flashes, feel weak, nervous, highstrung, a bit blue at times—due to the functional "middle-age" period peculiar to women—try this great medicine—Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound HELPS NATURE. It's one of the best known medicines for this purpose. Follow label directions.

Bureau of Standards

A BUSINESS organization which wants to get the most for the money sets up standards by which to judge what is offered to it, just as in Washington the government maintains a Bureau of Standards.

● You can have your own Bureau of Standards, too. Just consult the advertising columns of your newspaper. They safeguard your purchasing power every day of every year.

Sea Tragedies Recalled as Autumn Storms Uncover Rotting Wreckage of Ships on North Carolina Coast

British and Spanish Men of War, Clippers Among Grim Relics.

By BILL SHARP

Once more Caribbean storms have lifted the curtain on hundreds of tragedies which were played out on the lonely beaches of the Outer Banks of North Carolina in the past three centuries—but as usual, it is a fleeting show. Sand swept away by tides of the September hurricane already is drifting back with mild southwest winds, and before long most of the exposed wrecks will be hidden again.

Silent tribute to the craftsmanship of the old-time shipwrights and the sturdiness of their materials is the preservation of the timbers and planking of these orphans of the storm against generations of grinding sand and pounding wave. When iron men went down to the sea in ships with hearts of oak, it was not the ships that failed in the face of the elements.

Some of the derelicts now on view all the way from Nag's Head to Ocracoke Inlet are familiar and recall many an anecdote. But some are beyond the ken of the oldest coastguardsmen or their records.

The Carroll Deering.

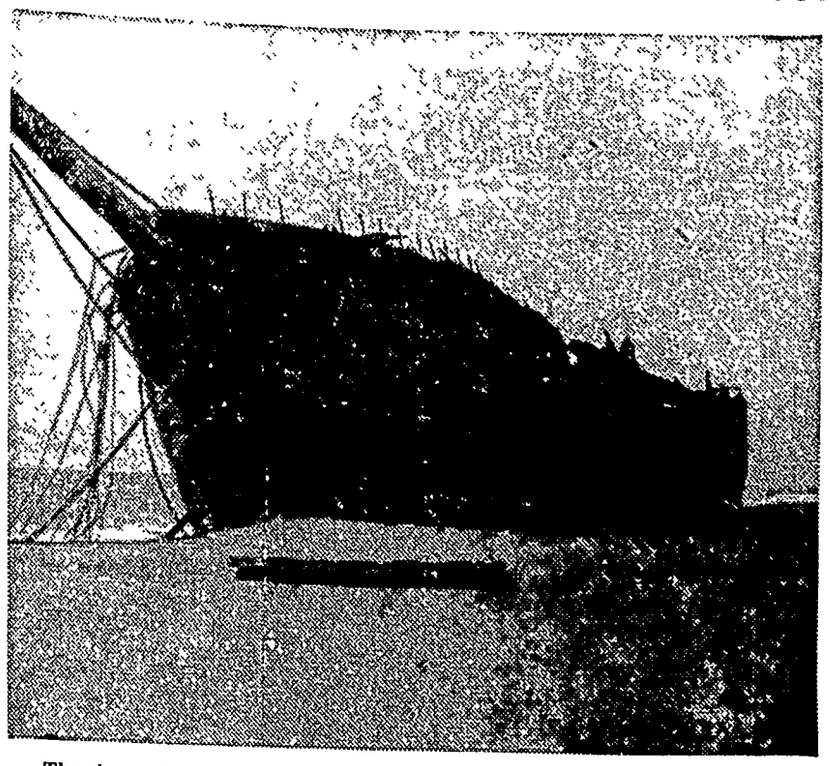
One of the most interesting is the ghost ship, Carroll Deering, out of Bath, Maine. She was found on Diamond Shoals in 1921, undamaged, with sails set, with uneaten food on the table and on the stove, but with only a cat to greet the coast guard crew which boarded her.

The Deering passed Diamond lightship the day before, but that was the last seen of any of her crew, and the cat kept her own counsel. Later she drifted onto Ocracoke Island, sanded up and was lost to sight and almost to memory until the hurricane scoured out her hull.

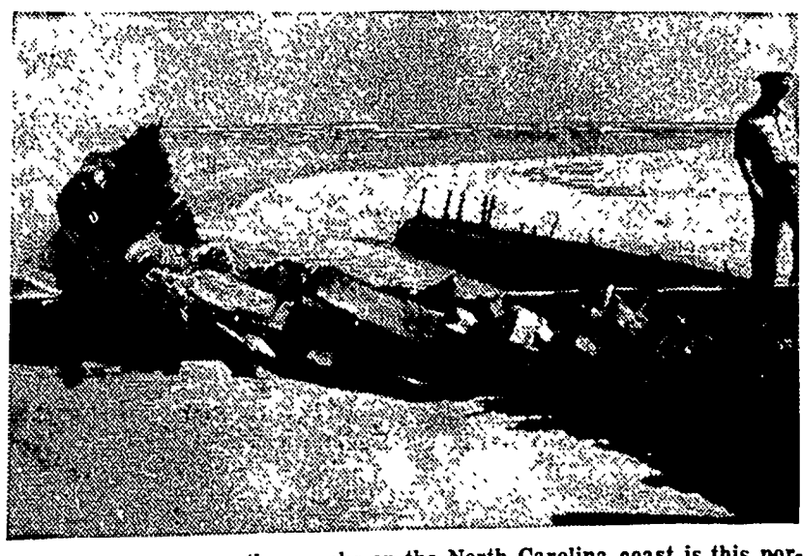
The George W Wells, first six-masted schooner ever built, and then the largest wood vessel afloat, is also exposed. She came ashore in a 1913 gale at Ocracoke.

Up at Nag's Head were uncovered again the tired ribs of the quaint warship believed by many to be a Crumpster of Elizabethan days. She was first revealed by a storm in 1939 and her primitive construction and fittings aroused much speculation. There is some justification for the romantic identification, for shipwrecks antedated colonization of these shores. The chroniclers of Sir Walter Raleigh's Roanoke Island colony (1587) found the aborigines using crude iron tools which were believed fashioned from spikes taken from a shipwreck. There is record of a Spanish shipwreck at Hatteras in 1558 and some of its crew were rescued by the Indians.

Also on exhibition again is the remnant of the Ariosto, British tramp, a victim of an 1899 storm.



The burned out hull of an old schooner, the Kohler of Baltimore, stands bleakly on a sand bar near Hatteras, N. C. It was uncovered by the fury of a hurricane. Drifting sands are piling over it again, and it will soon disappear from sight.



A mystery among the wrecks on the North Carolina coast is this portion of some wooden vessel. Oldest records fail to name her, and it is possible she foundered many generations ago.

The first clue to her plight came one cold, foggy December night when coastguardsman Mathew Guthrie on beach patrol stumbled over the body of a dying sailor, who gasped out the news that a vessel was breaking up a few hundred yards offshore. A Lyle gun shot could not reach her, and surfboats could not be launched. Twenty-one men lost their lives and lie buried atop a lonely Ocracoke dune. Six more swam and floated ashore alive.

Ironic was the sequel to the death of the four-masted schooner Anna R. Heindritter of New York, loaded with dyewood, which came ashore March 2, 1942, and is visible offshore. She ran into a gale and put out anchors, but dragged onto the shoals. Capt. Bennett D. Coleman of Springfield, Mass., and his crew of eight survived, saved by the Lyle gun and breeches buoy, and after the captain had arranged for the "vendue" (auction sale of salvage) he started for home. While changing trains in New York he was run down by a taxicab and killed.

Worst Navy Wreck.

Off the beach at Nag's Head is visible in a calm sea the bell, tank, and boiler of the USS Huron, a warship wrecked November 24, 1877, with a loss of 108 lives—the worst disaster in U. S. naval history up to that time. The crew members were buried on the beach and relatives came, for many years after to search in the shifting sands for them Cap'n Jeff Hayman of Roanoke Island is believed to be the only person still alive who saw the ghastly affair—and ghastly it was, for subsequent investigation disclosed that some of those aboard were drunk that fateful night when sobriety might have saved both ship and crew Cap'n Jeff today has the silver sugar bowl from the Huron captain's table.

Such maritime violence has produced a lot of maritime heroism. From Oregon Inlet to Ocracoke Inlet are some 27 holders of Congressional Medals of Honor, possibly the largest group of heroes per capita in these United States. Six of them came as a sequel to the events of August 16, 1918, when the SS Mirlo, a British tanker, was torpedoed, and Capt. John Allen Midgett and five members of the Chicamicomoco coast guard station braved a sea of blazing oil to rescue 42 members of the crew. Strangely enough, the SS City of Atlanta in 1942 was destroyed in the same way and about the same spot, but the Chicamicomoco boys were unable to get through the fire. On the same day and within an hour, helpless watchers on the Banks saw a German submarine sink two other vessels and damage still another The Atlanta's bones now rest by those of the Mirlo.

One of the most dramatic events of sub warfare was on August 8, 1918, when Diamond Lightship, guarding the easternmost tip of Diamond Shoals, was sunk by submarine gunfire. Capt. W. L. Barnett and his crew roared over the boiling shoals 12 miles to the beach. Barnett, now retired, lives at Buxton. The lightship added her skeleton to that fabulous Graveyard of the Atlantic, Diamond Shoals, where lie so many metal hulks that compasses of passing ships are pulled off north by as much as 8 degrees.

Modern "Flying Dutchman."

The peculiar configuration of the North Carolina coast, with the sandy capes jutting out, causes mariners' anxious preoccupation with this area. Most dangerous are Diamond Shoals, an extension of Cape Hatteras, 12 miles into the Atlantic, an area of constantly shifting quick sands. It is a maxim of sailors that once on the Diamond Shoals, no vessel ever comes off.

The Maurice R. Thurlow proved an exception, however, when she ran aground in a 1927 storm. The coast guard removed her crew, but when a cutter came down to try to pull her off, no trace of the vessel could be found. Thirteen days later the schooner was sighted by the Dutch tanker, Sleidrect, in the North Atlantic. A general order was released to run down the modern Flying Dutchman, but though she was reported from time to time, the sea wanderer was never overtaken and no one knows what became of her.

In the shoals lies another famous ship—the pioneering Federal ironclad, Monitor. Following her engagement with the Confederate Merrimac in Hampton Roads, March 9, 1862, the damaged Monitor was sent south in tow of the sidewheeler Rhode Island. A gale sprang up, and the little "cheesebox" sank on the shoals with a loss of 16; 49 others were rescued by the Rhode Island.

Hatteras is a control point in setting courses for coastwise and West Indian shipping, because the shortest route lies near the Cape. Northbound shipping finds a favorable current by staying in the Gulf Stream, which brushes the tip of the Shoals, while southbound traffic goes between the Stream and the coast, where there is a southerly current sweeping down from the arctic. Thus, ships pass as close to the Cape as they can, and sudden storms there are a hazard

Alexander Hamilton recommended a lighthouse at Hatteras in 1794, and it was completed in 1798, but was too low to provide an adequate signal. In 1870 a new light, 190 feet high, was built (highest brick light in the world) and served until 1936 when the encroaching sea led the government to erect still another light further inland at Buxton.

Diamond Lightship also was anchored at the tip of the Shoals, and a navy radio direction station was set up at the Cape Inasmuch as the new steelgirder lighthouse is not visible to ocean ships by day, the cape now has four navigation aids for the mariner—the old spiral-striped brick tower as a day warning; Diamond Lightship, the new Buxton Light; and the modern radio finding station.

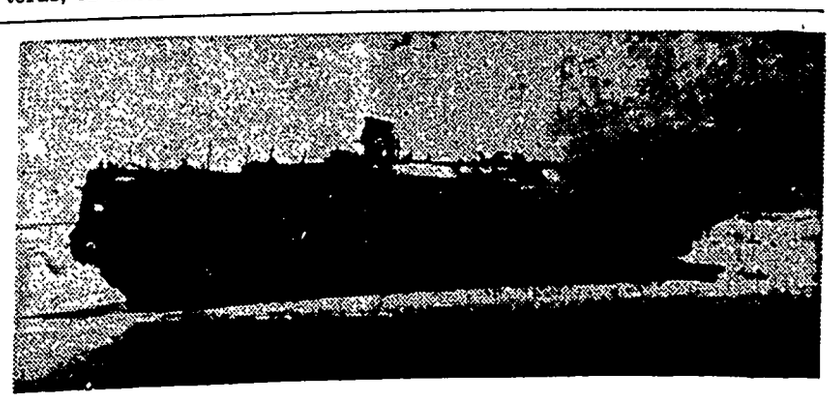
No 'Shipwreckers.'

While it is probably true that for many years shipwrecks were the "principal importation' of the Banks, there appears no evidence to support the charge that long ago the Bankers practiced shipwrecking and looting. However, some homes are partly fashioned from the timber of old ships, and many a house contains articles salvaged from doomed ships or bought at the 'vendue."

In this connection is recalled the most popular legend of the village of Straits, in Carteret county concerning a preacher for whom Starr Methodist church there is named. During the severe winter of 1813—so the story goes—the citizens of Straits were starving after a crop-killing drouth the previous summer. Frozen sounds prevented fishing, and the Napoleonic wars and a British blockade made commerce impossible. Parson Starr thus resorted to prayer: 'If it is predestined there be a wreck on the Atlantic coast," he pleaded, 'please let it be Thy will that it happen here!" In a few days a flour-laden ship wrecked on Core Banks, and famine was prevented.

GHOST SHIP

This is all that is left of the Carroll A. Deering, out of Bath, Maine. A storm drove her upon Diamond Shoals January 29, 1921. When coastguardsmen boarded her they found her undamaged. The sails were set, food was on the table and on the stove, but no one was aboard. Only a disconsolate cat roamed the decks. No trace was ever found of any of her crew, although every effort was made. Since she could not be floated again, the coast guard blew her up.



ASK ME ANOTHER?

A General Quiz

The Questions

1. Has the definition "light" or "heavy" cruiser anything to do with its size or tonnage?
2. A person at the North pole is how many miles nearer the center of the earth than if he were at the equator.
3. How many men were involved in the six years of war in Europe?
4. What island is called the Pearl of the Antilles?
5. Is it cole slaw or cold slaw?

The Answers

1. No. It refers to the size of its main guns.
2. Thirteen miles nearer.
3. Twenty-seven million of which 16 million were Allies.
4. Cuba.
5. Cole slaw.

How FRAM Oil Filters Save Motors and Money

. . . on cars, trucks, tractors and stationary engines

NATURALLY, you want top operating economy and longer life for your car, truck, tractor or stationary engines. And that's just what you get when you use Fram oil filters! Scientifically - designed Fram Oil & Motor Cleaners filter out dirt, grit, carbon, sludge, abrasives and other harmful contaminants — keep motor oil *visually clean*. Thus Fram saves motors and money —helps keep equipment young.

MOTOR EXPERTS USE FRAM

Millions of Fram filters and cartridges are used by our armed forces . . . while Fram is standard equipment on more than 75 famous makes of car, truck, tractor, bus, marine, Diesel and stationary engines. The experts agree on Fram!

MONEY-BACK GUARANTEE

Read the guarantee below and you'll see why Fram oil filters *must* give complete satisfaction. You don't risk a penny with Fram! So to save motor trouble, breakdowns and time-consuming tie ups, have your dealer put Fram filters on all your equipment. If it is already filter-equipped, get Fram replacement cartridges to step up performance. Fram oil filters are easy to install, cartridges may be changed in a jiffy. See your dealer today and find out, "How's Your Oil Filter?" The Dipstick tells the story.

FRAM CORPORATION
PROVIDENCE 16, R. I.

Guarantee

Install a Fram on your tractor, truck, or car. If you feel, within 90 days that you can afford to drive without it, return to the dealer from whom you bought it and he will refund your money.

BUY MORE BONDS
KEEP THE BONDS YOU HAVE!

FRAM *Oil and Motor Cleaner*

That's because it contains up to 2½ times more methyl salicylate and menthol—famous pain-relieving agents that every doctor knows—than five other widely offered rub-ins. For soothing relief, make sure you get *genuine*, quick-acting Ben-Gay!
BEN-GAY - THE ORIGINAL ANALGESIQUE BAUME
Also For PAIN DUE TO RHEUMATISM NEURALGIA AND COLDS
THERE'S ALSO MILD BEN GAY FOR CHILDREN

POISON BAIT MOST EFFICIENT FOR CONTROL OF RATS

Poison baiting is the most efficient and most economical means of destroying rats. But successful baiting calls for selection of an effective poison.

County Extension Director Paul Henedrson says barium carbonate and red squill are the two poisons most commonly recommended.

Barium carbonate is poisonous, tasteless, ordorless, slow in action and inexpensive. But is is atal to domestic animals if eaten in sufficient quantity.

On the other hand, red squill is relatively harmless to human beings and domestic animals.

Other poisons which can be used, if properly prepared, to destroy rats include phosphorous, arsenic, strychnine and thallium. They're extremely poisonous, however, and not usually recommended because of the danger to humans and livestock.

Electirc lights which step up the length of the hen's day to about 13 or 14 hours will increase egg production during the fall and winter months.

A Peace Time Thanksgiving

So Let's Be Thankful

This is our first Peace-Time Thanksgiving since 1941, so let's be doubly thankful this year for the progress our Armed Forces and our Allies made in the past year to bring us Peace. Let's re-dedicate ourselves to striving toward a complete and lasting Peace which will endow the entire world with the Freedom and Democracy that we, as a Nation, have enjoyed since our Pilgrim Fathers celebrated the first Thanksgiving Day at Plymouth in 1621.

Let's further show our thanks by buying Victory Bonds to insure a lasting Peace.

The Management, Directors and Employees take this opportunity of saying . . "Thank You" for your cooperation and patronage during the past year.

Klemme Coop. Creamery Company

Kenneth Medin, Manager Klemme, Iowa

We can still deliver plenty of SHELLANE, the modern bottled gas. What's more, we can also keep your Shellane appliances in perfect working order, whether it be a gas range, automatic water heater or gas refrigerator.

To those who do *not* own labor-saving Shellane appliances we suggest that you plan now to modernize your kitchen ...free yourself from the slavery of working with old-fashioned appliances. Drop in any time and let us show you the many advantages of Shellane, the modern bottled gas.

Mrs. Fred Musfelt returned to her home at Clarion Sunday morning after visiting for a week with Mrs. Mary Waterman and other Klemme relatives and friends.

Rev. and Mrs. H. E. Harvey and children and Rev. Arrasmith were entertained to dinner Sunday evening at the George Schoenwetter home.

Walter Klotzbach came home Sunday morning from Chicago where he had been visiting with his brother, Rev. Floyd Klotzbach and wife for a few weeks.

Clair West, the "bus king," of Nora Springs was in Klemme Friday Clair and his partner, Mr Morstad are planning to expand their bus system with more new routes.

Mrs. Frank Rosendahl is able to get around again and able to walk up town. She slipped and fell in her kitchen about 8 weeks ago and suffered severe sprains and bruises.

Dr. and Mrs. A. H. Dulmes and son Dick, drove to Grundy Center Wednesday afternoon to be present at a birthday dinner in honor of Mrs. Mary Mutch, mother of Mrs. Dulmes.

A reception and dance was held Friday evening at the Community Hall honoring Mr. and Mrs. Edward Eckes, newlyweds. A large crowd was present and all enjoyed a good time.

Sgt. Roy Arnold arrived in Klemme Sunday morning from the the Pacific war theatre. Roy has been honorably discharged from the service and will assist his father, E. J. Arnold, operate the farm.

Mr. and Mrs. Emil Patet entertained to dinner Thursday evening their son Milo, who was recently discharged from the army; Mr. and Mrs. W. C. A. Gast of Garner; Rev. and Mrs. Fred Griewe of Garner, and Rev. Arrasmith of Cherokee.

Mr. and Mrs. Lyle Liebendorfer and Mr. and Mrs. Robert Liebendorfer and son, Jon of Forest City spent Friday evening visiting at the R. A. Jorgenson home. Robert had recently received his honorable discharge from the army.

Pvt. John Schwichtenberg, of Truax Field, Wisconsin, spent the week end here visiting with his parents, Mr. and Mrs. Dave Schwichtenberg and other relatives and friends.

Mrs. C. A. Larsen and granddaughter, La Vohn Caroline Isvik, left Wednesday noon for Chicago to spend Thanksgiving Day with the Isvik family. LaVohn Caroline has been with her grandparents since last June.

Pvt. Thomas Roths, Jr., came home last week from an army camp in Kentucky to enjoy a thirty-day furlough visiting with his parents, Mr. and Mrs. Tom Roths. Junior has re-enlisted for another year of service in the army.

Verle Keraus of Garner was honored at a pre-Thanksgiving birthday dinner Sunday at the home of his parents, Mr. and Mrs. Wm. C Keraus. Guests were Mr and Mrs Verle Keraus and children, Mickey and Kay of Garner, and Otho Keraus of Osage. It was Otho's first Thanksgiving dinner at home in 5 years.

Milo Patet came Wednesday evening from California for a visit with his parents, Mr. and Mrs. E. H. Patet. Milo was recently given an honorable discharge from the army after serving in the Pacific. His wife, the former Agnes Galbreth, is teaching in California. Milo expects to return to California soon where he will be employed.

"Bud" Neiman is carrying his arm in a sling as a result of a rather queer accident. "Bud" was riding on top of a load of bales when one of the wagon wheels suddenly dipped down into a hole, causing the load to lurch and upset and in the fall "Bud" suffered a fractured arm above the wrist as well as a bad sprain on the other arm.

Sgt. Bob Schneider returned to the States from the Pacific theatre of war and arrived at the home of his parents, Mr and Mrs. Elmer Schneider, Saturday. Bob received his honorable discharge at Fort Leavenworth, Kansas after being in the army for three years in the States and 1 year overseas. Bob will assist his parents with farming.

Canned fruits and foods may be left safely in the container, after they are opened. However, they should be well covered and stored in the refrigerator.

bbers Looted Six Klemme Business Places Friday Night

THERN IMPLEMENT SHOP HAD GREATEST LOSS

Other Places Broken Into Early Saturday Morning

iff L. M. "Dutch" Brower alled to Klemme Saturday ng to investigate a series of ins which took place here night or early Saturday ng when yeggs broke into Klemme business places, the al North Iowa Grain Com- 's office, the Northern Lumber office, the Northern Lumber ment shop, the Klemme Co- tive Grain Company office, Hancock County Cooperative Association filling station, and Kluckhohn & Sons general

st Loss At Implement Shop

heaviest loss was the North- umber CO.'s implement shop the robbers took four new res, and two batteries, and other smaller items not as ounted for.

the Northern Lumber Com- office the thieves ransacked drawers and the safe, which not locked, scattering papers on the floor but did not y cash. However, they stole Stokesbary's small radio pair of binoculars.

ss the street the robbers their way into the Klemme rative Grain Company office they seemed to devote their on ony to the office safe they pushed out of doors and tly tried to load onto a truck n Fred Bell, an employee, to work Saturday morning, e was laying upside down the door and truck tire showed where the truck n backed up to the safe, for some reason or other the failed to load, and were frightened away.

Federal North Iowa Grain ffice safe, which was not was rifled, but the only aken there was a package g the records of the Klem- ic club, an organization of siness men.

he Kuckhohn store the rob- ok a variety of merchandise g some ammunition, cigars, wear, gloves and mittens, meats, and a German rifle, a ir of World War II. Other were probably taken, but as other loss was found.

g Loss At Oil Station

the Hancock County Cooper- Oil Association station the took nearly all of the sta- ols which included a brand- 2-ton hydraulic jack which r Herman Paul had just Friday, also a set of new wrenches and other tools. ieves took the cash register contained a small amount ge.

cash register, which the had smashed, was found the rning by "Stub" Lewis on side east of the Mrs. Esth- farm, about a half mile Klemme. Finding the cash would indicate the thieves emme and went east.

cash register was smashed repair.

er Towns Also Robbed

ers visited Woden the same where they broke into the ice, blew the safe and stole of post office funds, and the personal funds of the ster, Mr. Ed. Meyer.

safe at the Farmers Elevator den was also blown and in cash was stolen. Roland an is manager.

iff Brower investigated the es and a postal inspector o called.

Lone Rock Monday

lars paid a visit to Lone Kossuth county Monday and robbed the post off- J. M. Blanchard lumber yard.

The loss at Lone Rock had not been determined late Tuesday.

In Klemme the robbers used the same method in entering the several places, by prying doors open with a pinch bar and gaining entrance.

Sheriff Brower and Deputy Elmer Katter found a number of valuable clews and made several trips to Klemme to continue their work of investigation. So far, no arrests have been made.

It is thought that the robberies were the work of an organized gang of yeggs.

To the People of this Community

Extra Victory Bonds are on sale. Bankers will say that they are the best investment ever offered you. The GIs in conquered Tokyo and Berlin will say that today is a new moment for you to show that you are keeping faith. The economist will say the Victory Loan is the opening of the home front's greatest anti-inflation offensive. Ted R. Gamble, National Director of the War Finance Division, declares that millions of volunteers are in action with inexhaustible supplies of an incomparable product to sell fellow Americans.

The Victory Loan is all of these things. It represents your will to help the government pay off war costs, care for the wounded, maintain our troops abroad, finance the return to civilian life of millions of fighting men.

From every angle, you will be serving your own best interest by seeking out the nearest Victory Bond salesman. You can't buy too many or too often for your own good.

THE EDITOR

RED CROSS LADIES WILL MEET SATURDAY, DEC. 8

The Red Cross ladies will meet again at the school Saturday, Dec. 8th at 1 30 p m to begin sewing.

The ladies have not done any sewing for about 3 months and the women of Klemme are asked to plan their work so that they can be present for the first day.

The war is over, but there is a great need for Red Cross work.

AVERY SUNBEAMS 4-H CLUB HELD MEETING NOV. 24

The Avery 4-H Sunbeams 4-H Club met at the home of Harriet Ostendorf on November 24th.

For Roll Call we each named our favorite book. We drew names for the Christmas party which will be held at Erdene Nelson's on December 15th.

Miss Grimes discussed the club and individual goals for the year.

Miss Marshall gave a talk on Centerpieces, which was very interesting Betty Kramer gave a talk on "The Dinner Bell."

The installation of officers was held We learned to sing the new song "Iowa."

A nice lunch was served after the meeting by the hostess. Miss Hazel Grimes was our guest.

—Betty Kramer, Reporter.

YOUNG MARRIED GROUP TO MEET ON DECEMBER 4

The Hancock County Rural Young Married group will hold its first meeting of the year Tuesday night, December 4th, at 7:00 p. m. at the I. O O F Hall in Garner.

The program consists of a potluck supper and a discussion of Farmstead Planning with John Fitzsimmos, Iowa State College Landscape specialist. This topic will include arrangement of farm buildings as well as the planting of trees and shrubs to beautify the farmstead.

All young married couples in the county are invited to attend.

ONE NEEDS THE OTHER

KLEMME GRADE SCHOOL TO STAGE OPERETTA DEC. 6

"Lazy Town," an operetta in 2 acts, will be presented by students of the Klemme Grade School on Thursday evening, December 6th at 8:00 o'clock. Eighteen children chosen from the various grades, will make up the cast of characters and will be assisted by 92 children in the singing and dancing choruses.

The scene of the operetta is in Mamma Roozee's cottage in a Holland settlement of a small western town. The story is centered around a celebration of Meena Roozee's tenth birthday and the return of Papa Roozee, who has been to Alaska looking for gold for the past years.

The 5th and 6th grades will compete with the 7th and 8th grades for prizes in an advanced ticket sale which will begin Wednesday, November 28th and end Wednesday noon, December 5th. The admission is 20 cents and 30 cents.

4-H FUN NIGHT IS PLANNED NOW FOR DECEMBER 8

The annual 4-H Fun Night is in the planning stage and will probably be held December 8 or 15. Watch for the final announcement of the date. It cannot be held on December 1 as was announced according to Paul Henderson, county extension director All possible enrollments should be in the county office by December 1 so all of the new members will receive an invitation to the Fun Night.

Behind Your Bonds
Lies the Might of America

FUTURE IN LUMBER

Always one of its main sources of revenue, lumbering in the state of Washington holds unlimited possibilities. Of its original stand of 580 billion board feet, 280 billion remain. Demands for soft wood, pulp, plywood in industry will expand with peace and add profits will expand with peace and add profits to contribute to national wealth behind Victory Bonds.

U. S. Treasury Department

JOHN SUCKOW HOSPITALIZED AFTER FALL MONDAY

John Suckow, foreman of the crew of carpenters at the Northern Lumber Company, fell from an 18 foot scaffold Monday and broke a number of bones in his foot. He was taken to a Mason City hospital for X-rays and to have the fractures reduced.

Mr Suckow and his men were constructing a new barn at the Frank Guth place near Meservey when he slipped off a scaffold. A heavy plank also fell, striking his foot and causing the fractures.

SEVERAL BABIES BAPTIZED SUNDAY AT METHODIST

The following babies were baptized during the morning service by Rev. H. E .Harvey at the Methodist Church, Sunday, Nov. 25th, 1945:

Herschel Reuben, son of Mr. and Mrs. Reuben Lemke.

Dennis Donovan, son of Mr. and Mrs. Donovan Speer.

Bruce Gene, son of Mr. and Mrs. John Waddingham.

Earl Walter, son of Mr. and Mrs. Walter Lemke.

Gerald Lee, son of Mr. and Mrs. Ardell Waddingham.

Carol Ann Montgomery Had Birthday Party Wednesday

Carol Ann, daughter of Mr. and Mrs. Clifford Montgomery, was 8 years old Wednesday, November 21, and in honor of the event her mother had a birthday party for her after school.

The children of the neighborhood came and all enjoyed playing games, after which Mrs. Montgomery served a nice lunch.

Carol Ann received a variety of nice gifts from her little friends.

Everett Weiland Purchased Mrs. Frank Roths House Last Week

Everett Weiland, farmer northwest of Klemme purchased the Mrs. Frank Roths house in Klemme Saturday at private sale. The house was put up for sale at auction without being sold, but was later sold to Mr. Weiland.

The Weilands will move to Klemme as Mr. Weiland will operate an oil truck out of here for the Hancock County Oil Association.

HELLO FOLKS!

Mr. and Mrs. Burton Hanson of Wesley are the parents of an 8 lb. 14 oz. daughter born to them on Monday, November 26 at the Mercy Hospital at Mason City. The new arrival has been named Linda Ruth. Grandpa and Grandma Art Wellemeyer went to Mason City Monday afternoon to see their new grandchild.

Drive To Be Made To Gather Old Clothing, Shoes, Etc.

JOHN CLEMENTS MANAGER OF IMPLEMENT STORE HERE

The Northern Lumber Company has hired John Clements, a veteran of World War II as their manager of their Implement Store and repair shop.

Before entering the army and going overseas, Mr. Clements was employed as chief mechanic at the implement shop.

Since the resignation of Mr. Ira Overholt some months ago, Benn Coobs has managed the implement store for the Northern. He will now return to his old position at the lumber yard.

Mr. Clements has secured the services of Paul Haefner and Elmer Langlitz to help him in the repair shop. Both young men are veterans of World War II and experienced mechanics.

AUTO PRICES ANNOUNCED

Although figures for all makes of acrs are not yet available, the ceiling prices announced by OPA reveal that new 1946 cars will sell at about the same prices as they did in 1942. Ford cars are expected to sell at about a 2% increase; Chrystlers will be up about 1% and Studebakers about 9%. Retail prices for General Motors cars will actually be 2:5 % lower than January, 1942.

Entertained In Honor Of Soldier Home From Japan

Mr. and Mrs. Art Knoke entertained relatives and friends at a dinner Sunday in honor of Mrs. Ella Knoke and son Harold, of Elkader. Harold recently returned home from Japan where he had been with the armed forces. He received an honorable discharge in October after having been overseas for 3 years.

Those present at the gathering besides Mr. and Mrs. Art Knoke, Lillian and Arthur, were Mrs. Ella Knoke and Harold; Mr. and Mrs. John Kaduce Jr.; Mr. and Mrs. Clarence Bachman and family; Mr. and Mrs. Clifford Montgomery and family; and Mr. and Mrs. Carl Nettifee of Mason City.

Legion And Auxiliary Will Meet Tuesday Evening, December 4

The Klemme American Legion and the Auxiliary Unit will meet at the Community Hall on Tuesday evening, December 4th at 8:00 o' clock.

Mr. and Mrs. Benn Coobs and Dr. and Mrs. D. P. Anderson will serve.

Behind Your Bonds
Lies the Might of America

INDUSTRIAL STATE

In Rhode Island, most highly industrialized state in the Union, more than half the population is employed in manufacturing, 134 per thousand compared to 49 for the Nation. The state leads in per capita wealth in this business, $243 per person. Converted to civilian needs, it will continue to produce resources to add to National wealth guaranteeing Victory Bonds.

U. S. Treasury Department

TRUCK WILL PICK UP CAST-OFF CLOTHING DECEMBER 5

Have Your Old Clothing Ready To Help Goodwill Industries

The war is over, for which we are all thankful, but the needs of the Goodwill Industries still continues. They always have those who need a place of employment such as they supply and for that reason they are asking you to do your best to save your old clothing and shoes and have it ready when the truck calls in Klemme Wednesday, December 5th. Mrs. Martha Bredbenner and Rev. H. E. Harvey are in charge in Klemme and those who have articles to donate can notify them.

Materials That Can Be Used

Bedding of all kinds, feather beds, pillows, blankets, mattresses, (except straw or excelsior.) Anything "as is."

Clothing of all kinds, and any pieces of cloth.

Story books for children. (But not school books.)

Chairs and other furniture.

Dishes of all kinds and kitchen utensils.

Good phonographs and radios.

Organs and pianos, good.

Shoes that can be repaired. Tie pairs together.

Old rugs, any condition.

NORBERT DORROW STATE RURAL TALK MEET WINNER

Norbert Dorrow, member of the Hancock County Rural Young People's organization, won the State Rural Youth Talk Meet at Des Moines November 19th. Mr. Dorrow and Lois Schulz represented the county group and competed with 20 other speakers at the banquet held in connection with the Iowa Farm Bureau Federation annual meeting in Des Moines. Mr. Dorrow will represent Iowa at the National Rural Youth talk meet in Chicago during the American Federation Convention December 17, 18 and 19. Mr. Darrow's trip is awarded by the Iowa Farm Bureau Federation.

WATCH OUT FOR THE USED TIRE RACKET SAYS OPA

Farmers and other motorists are urged again by Charles Casford, State OPA Tire Chief to examine closely any used tires they buy to make sure they are not falling victim to the junk tire racket which has appeared in isolated spots in the Country. The shortage of all tires has created such a terrific demand that some unscrupulous recappers and wholesalers have been selling junk tires to dealers as repairable tires When these scrap tires are polished with fresh recap and a coat of paint, they are sold for sound used automobile tires for unsuspecting buyers. Actually, the highest possible retail selling price on such a tire is 15c. Casford emphasized that most Iowa dealers have never engaged in this practice and it is to protect them, as well as the buying public, that he is sounding this note of caution.

Former Klemme Girl Displays Unusual Talent In Art Work

Gracka Maria Gerardi, daughter of Mr. and Mrs. Ernest Gerardi of Wichita, Kansas, has shown unusual talent in drawing and painting.

Recently an Art teacher from the University visited Gracka's school and from all the various sketches and drawings in the school she selected the two which showed the greatest talent. Both of the sketches selected were made by Gracka Maria, who is a pupil in one of the lower grades.

She is a grand daughter of Mr. and Mrs. Conrad Quandt.

When Your Back Hurts - And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won country-wide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

Veterans' SERVICE BUREAU

EDITOR'S NOTE: This newspaper, through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.

Few Continue Insurance

Concerned with the large percentage of veterans who are not converting their national service life insurance into permanent insurance, or with maintaining their policies in present form, Gen. Omar N. Bradley, Veterans' administration director, recently held a meeting with a joint committee of the American Life convention and the Life Insurance Association of America to lay plans for a nation-wide educational campaign on the subject.

"Recent figures indicate that only one out of five veterans discharged is continuing his term policy or is converting it into one of the three types of permanent insurance offered," General Bradley said.

This figure, the committee was told, is approximately three times the ratio experienced after the last war.

A committee of insurance men headed by Alexander Patterson, executive vice president of the Mutual Life Insurance company, of New York, assured General Bradley that the committee "is prepared to go all-out to co-operate with you in your program to present to the veteran the many advantages of maintaining his national service life insurance policy."

Questions and Answers

Q My husband, a veteran of World War I is sick and disabled and about four months ago put in a disability claim and has not heard from it. Will they write and tell him whether he is eligible for pay or not? —Mrs. W. J. G., Lebanon, Va.

A. Yes, he will no doubt hear from the Veterans administration. If he does not soon, write again to the nearest regional office of the Veterans administration.

Q. My 18-year-old brother is now entering the army. How much time will he have to spend in the service or has there been a definite length of time decided upon. If a soldier re-enlists in the army, then decides within 20 days that he wants a discharge, can he get it?—Mrs. L. J., Pontotoc, Miss.

A. The answer to your first question is that there has been no definite time decided for 18-year-olds in the army. To the second question, the answer is No.

Q. My husband has been in service since February, 1945 He is 31 years old and he has never had any training. Will there be any chance of him getting out soon? He was classified in F-4 and put in A-1.—A reader, Remlap, Ala.

A. Indications are that your husband was inducted as a replacement and that he may be in limited service, but the chances of his early discharge are not good.

Q. How can I get medical care, other than maternity care, for a soldier's family? I have three children who must have medical care and I am under a doctor's care myself. —Mrs. W. R., Wilmington, Ill.

A. Write to the nearest army medical center, or apply to your local Red Cross and they may advise you.

Q. What does the navy get discharge points for? Do they get any points for battle stars or citations? —Mrs. A. A., Dennison, Ohio.

A. Under present regulations navy discharge points are awarded only as follows: One-half point for each year of age; one-half point for each month of active service; one-quarter point for each month of sea duty; ten points for dependency. Forty-one points are necessary for discharge. Any navy man with three children is eligible for discharge.

Q. My husband was told when entering the service that he would be discharged six months after the war. Will he get out by then or will he have to stay in the army until he has enough points?—L. L., Gloster, Miss.

A. The chances are he will have to stay until he is eligible for discharge under the point system. The war is not officially ended until declared so by proclamation of the President or by congress.

Q. If a man is sent to the Pacific for occupation, how long will he have to stay? — Mrs. K. C., Dennison, Ohio.

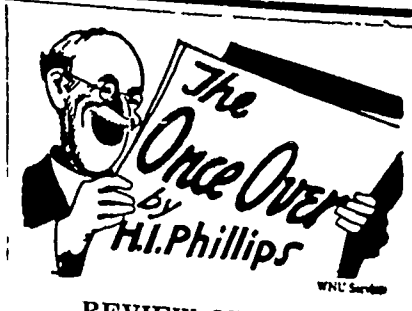
A. His service would depend entirely upon the number of points he has earned and the nature of his service.

Q. My husband, a veteran of World War I, did not receive his transportation home after being honorably discharged. Can he still collect his transportation? — Mrs. L. D., St. Maries, Idaho.

A. It is 25 years late, but you might write to the office of the Adjutant General, War department.

Q. How long is it permissible for a discharged soldier to wear a full uniform after arriving home? — M. E. T., Onekama, Mich.

A. The regulations provide a soldier may wear his uniform up to 90 days after his discharge.



REVIEW OF A NEW AUTOMOBILE

The first 1946 model—automobile has been unveiled to the public. Thousands visited the showroom, and shouts of joy went up as the American buying public saw the many new features. These included fenders on both sides, bumpers in the proper position and brakes that really worked.

—*—

Departures from the trend of the last four years were numerous, a marked leaning toward having the chassis directly in line with the body, instead of partly askew being especially noteworthy.

—*—

Further sensations included exhaust pipes that were not dangling, and a tendency to have all shackles and bolts in the proper position. Nothing like this had been seen on automobiles since Pearl Harbor, and the reception was terrific.

—*—

Outstanding innovations, too, were windshields with the glass intact, wipers that really worked by pressing a little gadget, as directed, and a dashboard clock that did not register 8:15 permanently.

—*—

The first view of the new wonder car made it plain that a score of surprises were in store for the man who has been driving what has passed as an automobile since 1941. For one thing—and this is important—doors are back! Definitely!

—* —

Much comment was caused by the discovery that after closing the door windows you can no longer stick your hand out without lowering it again. The public is expected to get used to this after a while. The idea of having one or more panes of glass missing has been completely dropped.

—*—

Salesmen explained, however, that if customers through habit wished to have a door with the glass missing, they could arrange it.

—*—

Nineteen forty-six models will have paint on all parts, much of it with a gloss. Steering gears will be quite firm, it being no longer necessary to give them four or five complete turns to control the wheels.

—*—

General approval of the new cars was expressed; but there was one sigh of disappointment. It was discovered that the companies would make no departure from the 35-year rule of never providing a jack or a kit of tools adequate for even a minor repair

RADIO TREATS FOR G.I.s

(Servicemen frequently ask for specific radio broadcasts. One man asked for Lana Turner and the sounds of a steak sizzling. —News item.)

Out in the tough routine of war—
  Out where we're cooking "on one burner."
This of the airwaves I implore—
  Gimme a steak and Lana Turner!
Out where the Japs now shed their tears,
  Out where the Krauts discern their betters,
Know what will get my loudest cheers? . . .
  Filet mignon—and certain sweaters!

What do I pine for on the air?
  Opera, forums, night club nifties?
Solos and talks on falling hair?
  Pep talks by people in their fifties?
Plugs for a physic or a beer?
  Songs by some dog-track Myrt or Mabel?
Gimme the sound of broiling steak,
  Simmering spuds . . . and Betty Grable!

Market reports and a campaign talk?
  Uplifting stuff by great musicians?
Quizzes? Away from all I walk!
  Phooey on facts and statisticians!
News from the game the Dodgers cop?
  Okay with me, but I'd rather take, kid,
Sizzling sounds from a red-hot chop
  Likewise the same from Veronica Lake, kid!

* * *

Survivors of the Big Boom

Dr. Einstein says that two-thirds of the human race may be wiped out some day by atomic bombs, but that "there will always be enough thinking men and books left to start all over again." Nice talk! And, anyhow, we will bet the professor a box of cigars against a fifty-word explanation of the theory of relativity that the "thinking men" who survive will be left with their thinking apparatus too twisted to do anything.

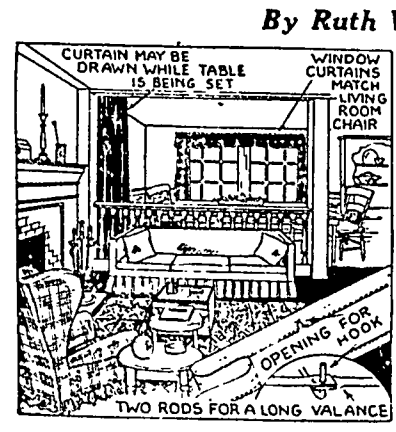
Shortage

I used to call her sugar—
  In fact I do it yet;
But since the stuff has been so scarce
  She's playing hard to get.
—Jessie S. Barrie.

Gene Tunney says that he thinks the Louis-Conn fight will be a fiasco, due to the fact the boys will meet after four years away from real competition. Mr. Tunney has the quaint idea that a fight promoter today worries over details like these.

Curtains to Match Chair Covering Will Create an Illusion of Space

By Ruth Wyeth Spears



CURTAIN MAY BE DRAWN WHILE TABLE IS BEING SET
WINDOW CURTAINS MATCH LIVING ROOM CHAIR
OPENING FOR HOOK
TWO RODS FOR A LONG VALANCE

IF YOU like the feeling of living in spacious rooms even though your home is small, the booklet Make Your Own Curtains shows you many useful tricks. How to have one big room for living and dining and still keep the confusion of table setting and the secret of the kitchen miracles away from expectant guests is one of many problems solved in this booklet.

A balustrade gives a sense of there being two rooms, but the two are drawn together and an illusion of space created by repeating the plaid of the chair for the curtains in the distance. The booklet also shows how to hang the curtain dividing the room so that it may be drawn with a swish. Diagrams are given for cutting and making all types of draperies, and fixtures required are clearly illustrated.

* * *

NOTE—The 32-page booklet Make Your Own Curtains is 15 cents postpaid. Send requests to:

MRS. RUTH WYETH SPEARS
Bedford Hills New York
Drawer 10

Enclose 15 cents for booklet "Make Your Own Curtains."

"NONE SO GOOD," SAYS MRS. CARL STOWE

SPRINGFIELD, MISSOURI. — Mrs. Carl Stowe finally got around to writing to Faultless Starch. Here is what she says:

"I've intended to write for a long time, but just kept putting it off. I just wanted to say I have used Faultless a long time. I have tried other starches but none so good as Faultless. It is more economical and does not blow out of the clothes. Then they iron so much easier. I sure am sold on Faultless and I just wanted to tell you so."

That is a wonderful letter, isn't it. Mrs. Stowe has tried other starches and she says "none so good as Faultless."

DOES NOT BLOW OUT

One thing she says in her letter may be very interesting to you. She says that Faultless Starch does not blow out. Now you probably have had the experience of getting your wash all done, starched and on the line—only to find when you go to iron that the wind has whipped all the starch out! And you have to starch all over again—put them on the line—and iron a day late!

Now, you don't HAVE to go through that . . . not if you use Faultless Starch!

You see, Faultless Starch is made a special way so that the starch penetrates into the fabric. It doesn't just stick to the outside. As a result, the wind doesn't blow it out—and a freeze won't freeze it out!

Think what a lot of time and work that one thing can save you some busy week!

But that isn't the only wonderful thing about Faultless Starch! It takes only a minute to make perfect hot starch—WITHOUT COOKING! And, it contains ironing-aids that keep the iron from sticking—NO "STICKY" IRON! It's so easy to do smooth, beautiful ironing.

So try Faultless Starch, and you'll never go back to the old, hard-work way of starching.—Adv.

Church Built of Paper Has Stood for 50 Years

One would probably think that a building made of paper would not last long, yet St. Owen's church, at Downham-in-the-Isle, England, is made of brown paper and has been standing 50 years.

Still in good condition, the building, also used as a school, was built of compressed brown paper with strands of wire interspersed. Architects come to see the church regularly, and an official said he believes the building will last another 50 years.

NO ASPIRIN FASTER or better. Demand St. Joseph Aspirin, world's largest seller at 10c. 100 tablets, 35c. You get nearly 3 tablets for only one cent. Always ask for St. Joseph Aspirin.

Look! Muffins made with Peanut Butter!

(No shortening and only ¼ cup sugar)

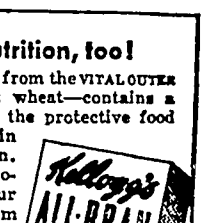
If you'd like to try something brand new in muffins that's truly delicious and saves on shortening, too — try Kellogg's new *Peanut Butter Muffins.* You'll love their flavor You'll love, too, the tender, melt-in-your-mouth texture of bran muffins made with Kellogg's ALL-BRAN. For ALL-BRAN is milled extra-fine for golden softness.

⅓ cup peanut butter
¼ cup sugar
1 egg, well beaten
1 cup milk
¾ cup Kellogg's ALL-BRAN
1 cup sifted flour
1 tablespoon baking powder
½ teaspoon salt

Blend peanut butter and sugar thoroughly; stir in egg, milk and KELLOGG'S ALL-BRAN. Let soak until most of moisture is taken up. Sift flour with baking powder and salt; add to first mixture and stir only until flour disappears. Fill greased muffin pans two-thirds full and bake in moderately hot oven (400°F.) about 20 minutes. Makes 10 tender, tasty muffins.

Good Nutrition, too!

ALL-BRAN is made from the VITAL OUTER LAYERS of finest wheat—contains a *concentration* of the protective food elements found in the whole grain. One-half cup provides over ⅓ your daily minimum need for iron. Serve Kellogg's ALL-BRAN daily!



ANGRY

Please don't be angry at us if you can't *always* get Smith Bros. Cough Drops. Our output is still restricted. Soon, we hope, there'll again be *plenty* of Smith Brothers... soothing, delicious. Black or Menthol, 5¢.

SMITH BROS. COUGH DROPS

ATTEST:
FRED C. MISSAL, County Auditor
PENN ECKELS, Chairman

A pig in a 6-pig litter will require about 17 bushels of grain, pounds of protein supplement, pounds of hay, 1-5 acre of pasture and 3 pounds of mineral to make a growth up to 225 pounds.

Self-feeding laying hens, keeping corn, oats and laying mash in separate feeders and letting the hens select what they want, has been found most practical.

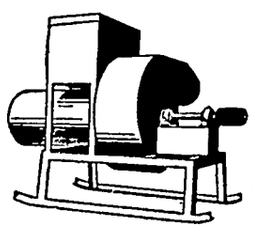
Behlen All-Steel VENTILATORS are HERE!

Now You Can Dry Soft Corn QUICKLY, EASILY!

Here's the end to heavy losses caused by "soft" corn, rot or mold in your cribbed corn. Behlen ALL-STEEL VENTILATORS greatly reduce the drying time. Used with the Behlen Dehydrator, you can dry your corn, believe it or not, in 8 to 20 hours!

You've read in your farm magazines about this new, modern way to dry corn. Well, part of our order of Behlen ALL-STEEL VENTILATORS has arrived, and is now for sale.



Behlen Forced-Draft Dehydrator

Frankly, the supply isn't as large as we need to fill the demand. So it's first come, first served. Those who are late getting in, or telephoning, will receive first chance when our next shipments are delivered.

Why not come in and see these ventilators as soon as you can?

LIBERTY BUSY BEES HELD CLUB MEETING

The Liberty Busy Bees 4-H club held a meeting at Gloria Haefner's on November 17th. All members were present and answered roll call by giving ways of making a good Thanksgiving centerpiece.

Plans were made for a Christmas party to be held December 28 at Beverly Haberkamp's home.

An illustrated talk on "Table Service" was given by Marjorie Bredlow and Beverly Haberkamp

Emily Tokheim gave a reading, "Country Girl's Creed."

Marjorie Bredlow was in charge of entertainment.

A delicious lunch was served by the hostess.

—Beverly Haberkamp,
Reporter.

NYLONS WILL BE LOWER IN PRICE SAYS OPA OFFICE

Nylon stockings are coming back to the hosiery counters of retail stores at prices a fourth or more below 1942 ceilings, the State OPA office at Des Moines announced today.

"When production of nylon hosiery hits its stride next year, the new ceilings will mean savings of millions of dollars to American women," said Walter D. Kline, State OPA Director.

Prices for first-quality, full fashioned nylons will range from 95c to $2.05, compared with the former range of $1.65 to $2.50 a pair. The prices will vary, of course, depending on the type of store. Women will have to pay no more than $1.20 to $1.40 a pair for the most popular kind of nylon hose, first quality, full fashioned, all nylon, 45 guage.

VICTORY LOAN BONDS PROVE SOUND ECONOMY

By TED R. GAMBLE
National Director, War Finance Division, U. S. Treasury

The Victory Loan, now under way, is the crucial test of our war finance program. We must not only raise the $11 billion required by the Treasury but we must do it in such a manner as to avoid the danger of inflation and to make secure the Peace for which over a quarter of a million of our men have given their lives That is why we are asking for $4 billion from individuals, $2 billion of it from the sale of Series E bonds.

Why is this money needed? Briefly, the reasons may be summarized as follows: to bring our veterans home and give them their mustering-out pay, to maintain our armies of occupation, to take care of our sick and wounded veterans, to make prompt settlement of our cancelled war contracts, and for other necessary government expenditures during the next few months.

Ted R. Gamble

The Budget Bureau recently estimated total Federal Expenditures for the 1946 fiscal year at $66.4 billion, or $33.7 billion below 1945. Receipts were estimated at $36 billion, but these may be reduced somewhat by the new tax bill. This leaves a deficit of $30.4 billion, which must be met by Treasury borrowing. It is in order to help meet this deficit that the Treasury decided on the Victory Loan, the last big public drive for funds.

As we enter this Victory Loan, I'd like to review briefly the accomplishments of our war financing program. From May 1, 1941, when the program started, to October 1, 1945, we raised the huge sum of $207 billion. Furthermore, we raised this money through a plan of voluntary savings at the lowest interest cost of any nation engaged in the war, and at the lowest selling expense ever recorded.

In the first seven war loan drives, we set total quotas of $95 billion for all investors, and sold $135,749,000,000 in war loan bonds. Every loan was oversubscribed. Billions more were sold in the interim periods between drives. We have sold these bonds to more than 85,000,000 Americans. By the time this loan is over, we will have sold one billion individual pieces of the popular Series E bonds alone.

Where did this money come from? Our figures show that individuals provided the Treasury with $49 billion net out of the $98 billion in new funds that has become available to them since May 1, 1941—and most of the remainder went into cash savings or commercial bank accounts. Insurance companies and savings banks invested all of the $22 billion in new funds that they received. State and local governments invested $5 billion of the $6 billion available. Private corporations had $39 billion of new funds from current surpluses and we obtained $28 billions of it. Most of the remainder was needed by them for expanded wartime operations. Federal agencies and trust funds invested all of their $17 billion of new funds in government securities.

In short, up to the end of the Seventh War Loan, non-bank investors provided the government with $121 billion net of the $207 billion it had to borrow since May 1, 1941, the balance of $85 billion being absorbed by commercial Federal Reserve banks, most of it in open market purchases. Except for the investment of a limited portion of their savings deposits, we have not permitted the banks to subscribe directly to war loan securities in the last five war bond drives, nor in the current Victory Loan.

One of the most significant achievements of our program is the widespread distribution of the public debt. Millions of people who never before saved a penny in their lives, now own savings bonds. It is estimated that three-quarters of the Series E bonds sold to individuals were acquired by persons earning $5000 a year or less. Today, individuals hold almost one-fourth of the total Federal debt outstanding. An even larger proportion of the interest paid out on this debt will go to individuals. Obviously, this will have a tremendous impact on postwar purchasing power.

Investing in Victory Bonds will build a second economy for the future. We cannot afford to slump back into indifference and selfishness if we are to keep faith with those who have paid most dearly so that we could live in a free and peaceful world. We can and should buy Victory Bonds to the limit of our ability if for no other reason than to express our gratitude to our fighting men. They have done their job, and have done it well. It is up to us to finish ours, so that they may come back to the kind of an America they dreamed about—a land of opportunity with full employment, full production and high income. The Victory Loan is our opportunity to express again our faith in America.

Feeding the people of the war-torn nations will help establish order.

WEEKLY NEWS ANALYSIS

Plan to Remove Food Subsidies; Atom Bomb Figures in Allies' Postwar Diplomatic Movements

Released by Western Newspaper Union.

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

No longer capable of doing heavy labor, and sick, diseased and dispirited, German prisoners of war released by Russians trek through Berlin on their return to homes in the west.

SUBSIDIES:
Time Removals

Designed to hold down living costs during wartime, government subsidies to food producers and processors will be gradually removed to lessen the impact on the civilian price structure, Stabilization Director John C. Collet revealed.

Tentative plans call for the abolition of subsidies on vegetable shortening by December 1, 1945; cheese, not later than February 28, 1946, and the $1 30 rollback per 100 pounds on pork not later than March 31, 1946, with the remaining pork payment scheduled to go not later than June 30, 1946. In addition, subsidies on canned and frozen vegetables, dry edible beans, prunes and raisins will be terminated at the close of the 1945 crop year, with dairy production, fluid milk, feeder cattle, beef, sheep and lambs and flour payments expected to be ended not later than June 30, 1946.

With the department of agriculture estimating the cost of food subsidies for the fiscal year ending next June 30 at $1,798,000,000, payments on slaughter of livestock are expected to total $535,400,000; dairy production, $534,000,000; flour, $190,000,000, and beef cattle, $40,000,000.

LABOR-INDUSTRY:
Discuss Bargaining

Backed by AFL Chieftain William Green and representatives of management, burly John L Lewis of the United Mine Workers ripped the CIO proposal to tie wages into the present labor-industry conference in Washington, D. C., and demanded that talks be confined to establishing machinery for settlement of disputes.

In spearheading the opposition to the CIO proposal based upon President Truman's wage policy, Lewis asserted that the problem of pay should be left to collective bargaining and not strait-jacketed by any formula based on cost of living. In granting employees increases and adjusting their price structure, employers will be governed by competition to assure reasonable costs, Lewis said.

Even as the 36 labor and management representatives pitched into their task, trouble brewed in the automobile and steel industries, with the CIO asking the government to intervene following collapse of negotiations with General Motors and U. S. Steel corporation over wage increases to maintain wartime take-home pay.

ARMY:
Step Up Discharges

Mostly European vets originally marked for redeployment to the Pacific, 50-point enlisted men presently home on furlough or on temporary duty in the U. S. have become eligible for discharge, the army reported.

At the same time, the army announced that no enlisted man with 21 or more months of service since September 16, 1940, will be sent overseas for permanent duty except for language specialists, regular army personnel and volunteers.

Also exempt from overseas assignment are officers who have 33 or more months of service, or medical officers with 30 months, except for those who have chosen to remain on active duty, are regular army men or are classed as scarce specialists. Nurses who are 30 years of age or have 12 points will not be sent overseas.

GRAIN SUPPLIES:

The bulk of the supplies of wheat available for export in 1945-46 is in North America, the department of agriculture reports. With exports from the United States currently estimated at 300 to 325 million bushels, shipments from Canada may be about as large.

Under favorable transportation, marketing and handling conditions, somewhat larger exports would be possible from the United States though shipments from Argentina may fall short.

FOREIGN AFFAIRS:
Atomic Talk

The red-hot question of sharing the atomic bomb featured the recent diplomatic news as the U. S., Britain and Russia continued their polite tug-of-war for favorable positions in the construction of the postwar world.

Vyacheslav Molotov

Russia's tough little Foreign Minister Vyacheslav Molotov started the ball rolling in an address on the eve of the 28th anniversary of the Red revolution, declaring that in this scientific age no such discovery as the atomic bomb could long remain a secret, and that eventually the Soviet would have it.

Telling the world that possession of the atomic bomb should not be used as a diplomatic weapon in obtaining advantages, Molotov also said that its real effectiveness for preserving peace has yet to be tested.

Indirectly answering Molotov in Britain's house of commons, the equally tough Foreign Minister Ernest Bevin declared that it was entirely proper for Britain, Canada and the U. S. to proceed slowly on the question of sharing the atomic bomb in view of its tremendous potentialities. In finally determining the bomb's disposition, he asserted, statesmen and not scientists should make the final decision because of their closer acquaintance with political conditions.

Ernest Bevin

In addressing commons, Bevin rapped Russia hard, stating that Britain had met every territorial demand of the Reds only to find them increasing their claims, particularly for control of North Africa and Eritrea on the British lifeline to the east.

Meanwhile, Secretary of State Byrnes projected the U S. into the international picture with the revelation of this country's support of an Allied commission to guarantee free access to the Black or Mediterranean seas through the vital Dardanelles and Bosporus straits. and the release of Italy's territorial views.

Sec. Byrnes

By calling for an Allied commission, Byrnes favored revision of the present Montreux agreement entrusting Turkey with control of the strategic straits, but countering the Russian demand for military bases along the vital waterways to assure free passage.

In submitting its territorial views, Italy agreed to readjustment of its French and Yugoslavian boundaries and establishment of Allied bases in its former North African colonies, but asked for retention of certain Near Eastern possessions of economic value.

All these diplomatic problems, plus consideration of the question of Jewish immigration in British controlled Palestine were reportedly part of British Prime Minister Attlee's scheduled discussions with President Truman.

AID POLIO VICTIMS

More than $1.000.000 in epidemic aid has been disbursed by the National Foundation for Infantile Paralysis so far this year, with more than three-fourths going to Illinois, No. Carolina, New York and Virginia.

Principal expenses of National Foundation chapters include hospitalization and transportation of patients, purchases of special equipment and salaries of doctors, nurses and other professional personnel.

CHINA:
Battle On

Full-scale civil war loomed in China as negotiations between communists and nationalists bogged and the Reds took to the offense in an effort to prevent Chiang Kai-shek's forces from infiltrating into their northern strongholds.

As a result of the outbreak of hostilities, the U. S. decided to withdraw American troops from the scenes of combat, the Yanks having been used to aid nationalists in taking over former Jap-held territory. Removal of U. S. units did not signify any reversal of policy in supporting Chiang, however, with reports that the administration would continue to offer him material aid.

Thus did the threat of civil war, following close upon V-J Day, dampen long-suffering China's hopes for a period of peace and tranquility in which to unify the nation politically and lay the foundation for economic development and modernization.

FINLAND:
Try Leaders

Charged with refusal to mediate differences with Russia and prosecuting war on the side of the Axis instead, eight prominent Finnish leaders were arrested by the new government and scheduled for early trial in the people's court.

In the unprecedented movement of a country to punish former leaders for their official acts, Vaino Tanner, dominant Finnish politico of 1941, was accused of failing to take advantage of a U. S.-British offer to mediate with Russia that year.

Tanner again was named for failure to accept a U. S. proposition to conciliate Finnish-Russian differences in 1943 along with former President Risto Ryti, Foreign Minister Henrik Ramsay, Prime Minister Edwin Linkomies, Gen. Rudolf Walden, and Finance Minister Tyko Reinikka.

POLITICS:
No Trend

Continued Democratic dominatior of the big cities and Republican inroads in small municipalities marked the recent election results and offered little clue to a politica trend prior to the all-important congressional elections in 1946.

Most significant feature of the balloting was the CIO's failure again to capture the mayoralty in Detroit, Mich., motor car center of the U. S. and United Automobile Workers stronghold. Calling upon the unorganized residents of the city to rally for an impartial rather than a labor dominated administration, Mayor Jeffries won re-election over CIO Candidate Frankensteen by a comfortable margin.

Maintaining their dominance over the big municipalities, the Democrats handily won the mayoralties of New York, Boston, Pittsburgh and Cleveland, while Republicans won back Buffalo, N. Y., and New Haven, Conn., after more than a dozen years.

Sets Air Speed Record

Exciting possibilities for speedy postwar air travel were opened with the record-breaking performance of Britain's jet-powered Gloster Meteor piloted by Capt. H. J. Wilson.

Smashing the former official mark of 481.84 miles per hour set by Capt. Fritz Wendel of the German air force in 1939, Wilson averaged 606 miles per hour in four runs over a 1.86-mile course at Herne Bay, England.

At Wilson's rate of speed, excited statisticians figured that a plane could travel nonstop around the world in 41 hours; from Los Angeles, Calif., to New York City in 3 hours and 59 minutes; from Chicago, Ill., to Panama in 3 hours and 49 minutes, and from Chicago to Mexico City in 2 hours and 46 minutes.

NAZI SPY:
Tipped Off FBI

Asserting that his only intention in accompanying saboteurs to the U. S. in 1942 was to get out of Germany, a Nazi spy disclosed the whole enemy plot for damaging U. S. plants and facilities and terrorizing civilians to the FBI, leading to the early roundup of the entire clique landed by submarine.

Let off with 30 years imprisonment for his disclosure and testimony at the trial resulting in the execution of six of the saboteurs and a life sentence for another, the spy, George Dasch, named the other conspirators and furnished information which enabled the G-men to cover their movements and track them down in New York and Chicago, Ill.

In detailing the saboteurs' mission, Dasch told the FBI that the TVA was marked for destruction along with important industrial plants, the Hell Gate bridge in New York City, Ohio river locks, and important railroad trackage. In addition, the saboteurs planned to terrorize civilians by planting time bombs in depot lockers and crowded stores.

FIBER SOURCE:

Never grown in the western hemisphere before Pearl Harbor except experimentally, abaca—from which Manila rope is made—is now being produced in quantity on five plantations of 27,500 acres in four Central American republics and Panama, the state department disclosed.

Western hemisphere production of abaca, which was obtained largely from the Philippines before the war, may aggregate 25 million pounds this year and from 45 to 50 million pounds in 1946.

The Washington MERRY-GO-ROUND
By DREW PEARSON

BARUCH PREDICTS INFLATION

WASHINGTON. — Elder Statesman Bernie Baruch revealed some interesting figures on inflation recently in an off-the-record session with 14 younger congressmen at his Shoreham hotel apartment. Baruch's prediction was that the nation was hell-bent for inflation—and soon.

Piecemeal increases in wages, profits and the cost of living have been uneven, Baruch said, with wages lagging behind. For that reason he no longer favored his prewar idea of a freeze on both prices and wages. Our only hope, said the elder statesman, is that we can weather the next six to nine months without running into serious inflation. If we do that, our chances of a strong recovery from the war boom are good.

"The huge pent-up demand for products which we will see during the next nine months is a very serious threat," said Baruch, stressing the importance of holding prices down.

He amazed his listeners by saying that he is completely opposed to tax reduction of any nature at this time. "Not only does the government lose needed revenue, but it is an unhealthy thing for our general economy," argued Baruch.

Rep. Andy Biemiller of Milwaukee asked what Baruch thought of the statement by General Motors' president C. E. Wilson that if wages are raised 30 per cent, prices must go up 30 per cent. Baruch talked at some length on the general question of rising prices, but gave no direct answer. Finally, Biemiller repeated his question.

"I'm afraid I can't agree with Mr. Wilson," Baruch said.

WAGE NOT PRICE INCREASE

"Isn't it true that industry can give a 30 per cent wage increase without having to raise prices more than about 7½ per cent?" Biemiller persisted.

"You are approximately right," Baruch agreed. "I believe the figure you may have heard is actually 8½ per cent."

Baruch also told his guests that he felt we were making a mistake in speeding manpower demobilization. "With the world in its present situation," he said, "it seems to me it would be wiser to proceed slowly with demobilization, in order that we not weaken ourselves at a time when power is apparently still an important thing."

He agreed also with an idea proposed by one of his guests, Estes Kefauver of Chattanooga, to have cabinet members and other high officials appear on the floor of congress where they can be questioned by congressmen. Such a practice would make for much greater cooperation between the executive and legislative departments, Baruch said.

Present in addition to Biemiller and Kefauver were Representatives Albert Gore and Percy Priest of Tennessee, John Sparkman of Alabama, Mike Mansfield of Montana, Henry Jackson of Washington, Jerry Voorhis and Chet Holifield of California, Bob Sikes of Florida, Mike Monroney of Oklahoma, Bob Ramspeck of Georgia, and Jamie Whitten and Arthur Winstead of Mississippi.

CHURCHILL IN DEFEAT

Winston Churchill recently told friends how he felt after his defeat in the British elections. The first few days after his defeat were terrible, Churchill confessed. The very next morning he arose and fretted because there were no diplomatic cables to read. Through the war, his first morning chore was to read the top-secret military and diplomatic cables from all over the empire; and he paced up and down intermittently for days, fretting because there were no cables coming in and because, though he felt things were going wrong, there was no one to whom he could send cables to straighten things out.

"Finally I went down to the south of France," Churchill confessed. "They treated me well there. I painted several pictures and they fed me some wonderful food. But still I couldn't get over this idea of no cables coming in and no cables going out. Each morning I fretted when I read the papers. But finally one morning I felt better. It suddenly dawned on me that I wasn't prime minister any more and it wasn't my worry, and I've felt better ever since."

Note — Churchill's health is touch and go. His doctor has ordered him to cut down on his food and drinking.

Controls of OPA evented Runaway rices During War.

By WALTER A. SHEAD
WNU Staff Correspondent

ring the war years, if we be- peeved with rationing and e control it was the national hab- cuss OPA. During reconver- people, from the captains of stry on down the line and into ranks of congress, blame many our ills on OPA.

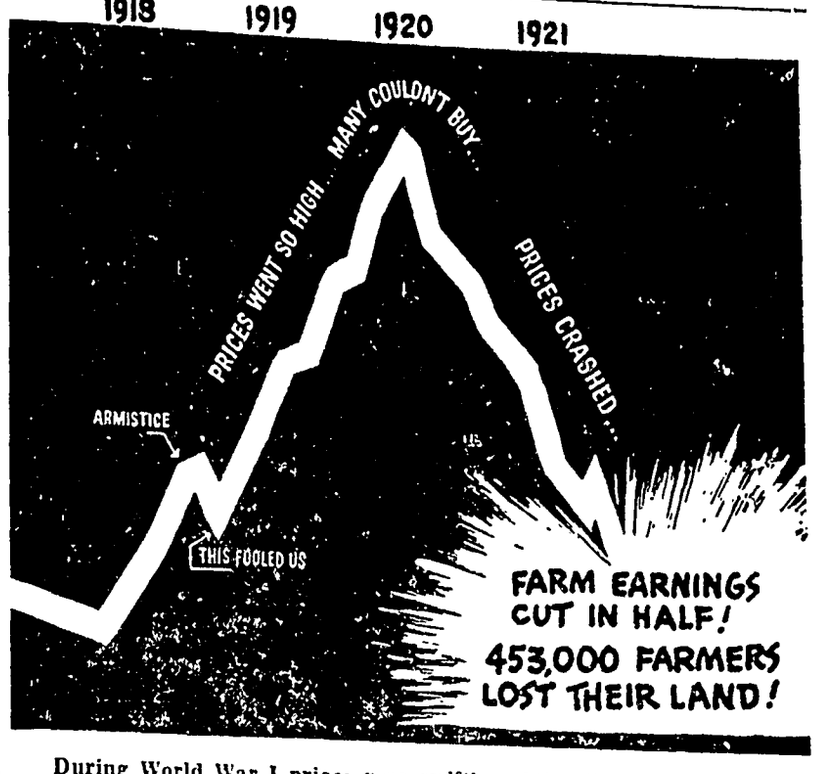
here have been ridiculous and oft- e funny jokes cracked about the A and the controls instituted for protection of the American peo- And, as is the case in any hu- institution, the OPA has made akes, errors of judgment.

Congress has been deluged with lers from constituents, business and consumers, concerning il or fancied ills and discrimina- s which were laid at the door of Office of Price Administration. congressmen, being human too, the blame rest on OPA, passing e buck along. But despite all this ticism, despite verbal beatings ich tore to shreds the actions and licies of OPA, congress dared not minate the agency, despite strong ssure, and by an overwhelming jority voted to continue OPA and price control policy until next e. And every poll taken of the erican people showed, despite ir beefings, their sound com- n sense prevailed and 75 out of ery 100 people favor continuing ice controls for at least some nths to come.

Only in recent weeks various ups in trade and industry have en increasing pressure in calling an end of price controls, particu- ly in the building and housing in- stry, preferring to let prices find ir own level.

As a matter of fact and record, d it not been for the OPA and the olicies of rationing and price con- ol, the American people would ver have been in the favorable sition they are in today to face hatever may come in these months reconversion growing pains. For ice controls have held the line gainst inflation and rationing con- ols have seen this country the best ed in its history.

Most folks don't understand infla- ion and what it means, but most people do understand and resent and ear high prices. The records show hat every major war in which the nation has been engaged has been accompanied or followed by a ma- jor inflation, followed by deflation of equal proportions.



During World War I prices rose swiftly. After the armistice on November 11, 1918, there was a sudden dip, lasting only three months. Then the upsweep was resumed, soaring until midyear of 1920. The price level more than doubled between 1917 and 1920. When prices broke in the later months of 1920, a toboggan slide began that brought ruin to millions.

Rise Held to 29 Per Cent.

And for the first time in our nation's history, thanks to OPA, the cost of living, during and immediately following this war, has been held fairly steady. From the outbreak of the war to the end of 1944, living costs, as measured by the bureau of labor statistics, rose less than 29 per cent, and most of that rise came before May, 1943, when teeth were inserted into the price stabilization program. By comparison, living costs rose more than 84 per cent in a like period after the outbreak of the First World war when there was no rationing or price control. Labor unions declare the rise in the cost of living has increased more than 29 per cent, reaching a 40 per cent figure, but even so, if that is true, it does not reach the dazzling heights to which living costs went after the last war.

Farmers, because of the nature of their business, suffer more than any other group from inflation and the crash which inevitably follows. As a matter of fact, it makes little difference what the price level may be, so long as it remains stable . . . and assuming that the incomes to the various occupational groups are fair and equitable. The more specialized and the more commercialized the business is, the more desirable it is that the general level of price fluctuation remains steady.

Farming has become one of these specialized industries, relatively, and a great many of the things used on the farm and in the farm home are purchased Too, many farm investments and obligations incident to the farm business are long term obligations, and so the behavior of the price level means much to farmers. For instance, I was talking to a Pennsylvania dairy farmer in Washington recently. He lives in the potato country of Pennsylvania and when I asked him how his potato crop was he said:

"Well, I didn't plant any. I figured my business is dairying and I let the potato farmers raise potatoes."

What is inflation? There are many long and technical answers to that question. But about the simplest answer this writer can find is that it is a situation which creates an unfair change in the purchasing power of money.

For instance, a farmer who borrowed some money in 1913 could have taken $5 of that borrowed money and bought 40 pounds of meat, 152 pounds of flour, 91 pounds of sugar or 77 yards of gingham. If he paid back that loan in 1920 during the period of inflation, the lender could have taken the same $5 and bought only 21 pounds of meat, 62 pounds of flour, 26 pounds of sugar or 23 yards of gingham. The borrower returned the same number of dollars, but he did not return the same amount of purchasing power.

1½ Million Farms Lost.

Inflation during and following the last war lost to the farmers of this country approximately a million and a half farms. Why? Because prosperous farmers during the war invested their money in land at inflated prices. They went into debt for machinery, for homes, barns and other commodities at inflated prices. Then the purchasing power of the dollar changed and the deflation which followed the inflated values brought about the inevitable crash.

Chester Bowles, the boss of the OPA, is a business man. He was the head of a large advertising agency which was in daily contact with big business. So he knows big business practices and he has become the rock upon which the pressure groups are dashing themselves in an effort to break price control.

Chester Bowles has taken his stand against price inflation and for price control, because his office is flooded with hundreds of letters every week testifying to the fear with which people view inflation or high prices . . . and these letters come from big and little people alike . . . from farmers, workers, housewives, consumers, small business men. One theme predominates . . . they want to be assured that the cost of living or the cost of operating a farm or a business will not be permitted to go up into an inflation spiral. They want price controls continued for the present.

All three of the major national farm organizations have strongly supported the price control program Labor organizations, too, have given unstinting support The farmers in the older age brackets do not easily forget what happened when what few controls existed were dropped shortly after the armistice in the last war. At first, prices slumped rather sharply in some commodities, but within a few months, after reconversion and workers returned to their jobs in peacetime plants, the downward trend was reversed and within seven months the inflation boom was in full swing. Prices rose skyward; manufacturers, wholesalers and retailers were forced into a wild scramble for inventories. Prices soared higher and higher. Farm prices skyrocketed 109 per cent between 1914 and 1920.

If farmers, merchants, manufacturers can be certain that the costs of things they buy will not skyrocket and threaten a major crash later, they can make long-term plans for large-scale operations and production and full employment. If workers can be certain of this full employment at adequate wages, then they also can feel secure of the value of their purchasing power . . . will feel free to spend for reconversion goods and this free spending will stimulate more employment.

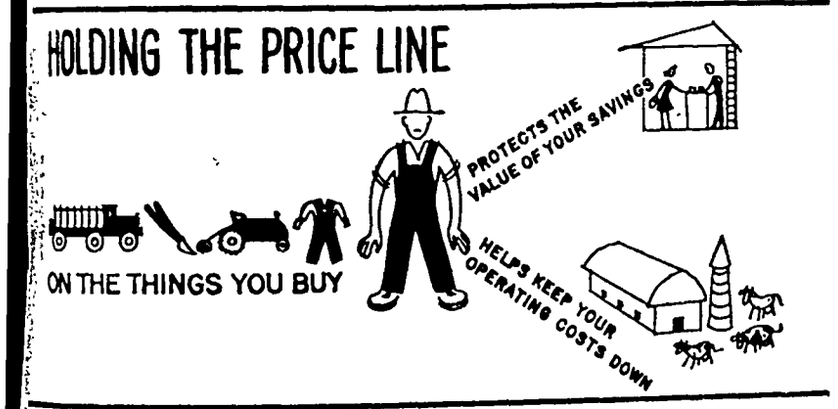
Farm and City Linked.

On the other hand, if swiftly rising prices make production costs unpredictable, business will not be able or willing to plan ahead, full production will falter and fear of unemployment would make consumers afraid to spend. We have often remarked about the analagous relation between the farmers' income and full employment in cities, for it is a fact that when income of workers is high, farm income also is high. When there is heavy unemployment, farm prices toboggan.

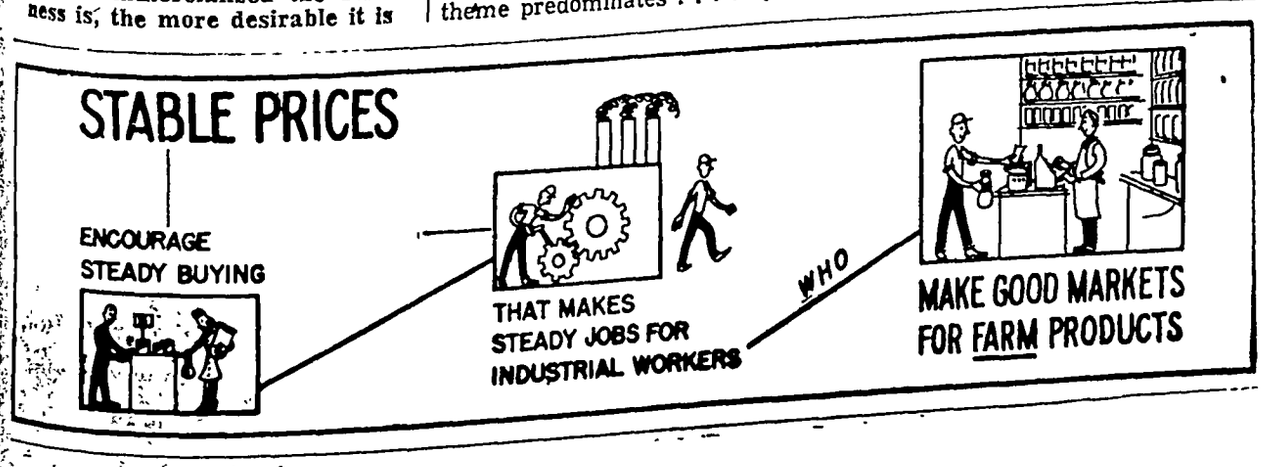
Price Administrator Bowles has given his word that OPA is going to use every resource at its command to continue an effective job with the ultimate goal of keeping a sound price structure upon which can be built sound prosperity. When danger of inflation is past, then OPA plans to step out of the picture. (The present act ends June 30, 1946.) To do this he plans (1) wherever necessary to continue price controls over goods and services which have been controlled in war time; (2) to set prices on reconversion goods; (3) to work out simple dollar-and-cents ceiling prices for building materials and as many consumer goods items as possible; (4) to require manufacturers to tag consumer goods with easy-to-read retail ceiling prices.

Continued control over tractors, other farm implements and machinery, fertilizer and seeds so long as they are in short supply is on the program. It may be necessary to increase some prices as compared to prewar, but the plan is to keep all prices as near prewar level as possible.

Bowles says that price control alone cannot guarantee prosperity, but he believes that it can help to control inflation by keeping the buying power of each dollar and will enable industry, agriculture and labor, together with government, to work together toward a sound postwar prosperity.



Stable prices for farm products are best for the farmer. Any temporary profits he might make through rising prices would be eaten up by the increasing cost of manufactured things that he has to buy.



IMPROVED UNIFORM INTERNATIONAL

SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Of The Moody Bible Institute of Chicago.
Released by Western Newspaper Union.

Lesson for December 2

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

THE CHRISTIAN AND HIS ECONOMIC RELATIONS

LESSON TEXT: Deut. 8:17, 18; Luke 12 13-21

GOLDEN TEXT: A man's life consisteth not in the abundance of the things which he possesseth.—Luke 12:15.

Peace and the postwar period find America, and in fact the entire world, plunged into tremendous economic problems far too deep for any man or group of men to solve. We honor those who are laboring day and night to meet the threat of unemployment, the question of reconversion and readjustment to civilian production, of feeding a hungry world, etc. But we say again, they cannot find the answers in the wisdom of men; they must have the wisdom of God.

We need to turn anew to the economic principles taught in God's Word. If men will only recognize them, and deal with their fellowmen in the light of their teaching, the many knotty problems will surely find solution.

There is need, first of all, of a fundamental philosophy concerning possessions which will make man deal properly with them. The first section of our lesson says to us:

I. Think Right About Wealth (Deut. 8:17, 18).

How trenchant and altogether fitting are the words of Scripture! Nothing could describe our times more succinctly and accurately than verse 17. Men are glorying in their ability to do things.

Man has even gone so far as to develop a weapon of warfare, the atomic bomb, so powerful that he fears it might be used to wipe out all civilization. Even secular leaders are now saying that we must have a spiritual rebirth if we are to use such things for good and not for evil. Man needs God now more than ever.

We honor those who by skillful hand and brilliant brain produce excellent and thrilling results. But our question is, How many are there who say, God has done this thing; He gave the strength and the skill; His is the honor? Some there are who thus recognize Him, but they are few indeed. Their name is legion who say in their heart, "My power and the might of mine hand hath gotten me this wealth" (v. 17).

Joseph Parker points out that a deep conviction of the fact stated in verse 18 "would turn human history into a sacrament." He says, "What a blow this text strikes at one of the most popular and mischievous fallacies in common life; namely, that man is the maker of his own money!"

II. Act Right About Wealth (Luke 12:13-21).

Most of us think of money as something we want to get hold of and use for ourselves, but if it belongs to God, and we are only his stewards, we must put away that impulse. "Take heed," said Jesus, "and beware of covetousness" (v. 15). It is a deadly and deadening sin, all too common even among Christian people.

The teaching of this whole passage of Scripture is so directly opposite to all ideas regarding such matters accepted by the world at large, that it may be a total surprise to some readers and attendants at Bible school.

The yardstick of success in the world for an individual, an organization, or a nation, yes, even for many a church, is the possession of wealth, or property, or other "things." Write it in large letters on the hearts and minds of our boys and girls, "A man's life consisteth not in the abundance of the things which he possesseth" (v. 15).

The one who was known to his friends (and to himself) as "a rich man" (v. 16), but whom God knew as a "fool" (v. 20), had more than he could use for himself. He had to build new and bigger barns, and could not see the "barns" that were already prepared, for, as Ambrose says, "Thou hast barns — the bosoms of the needy, the houses of widows, the mouths of orphans and infants."

He was a fool who loved money for itself and for himself. One wonders what he had to say for himself when that very night he was called into the presence of God to give an account of his stewardship (v. 20). If you are similarly situated and have the same attitude, what will you say in that day?

There is an important point which we must note. Jesus expressly repudiated the connecting of His name with the so-called "social gospel" in His reply (v. 14) to the question of the covetous fellow who regarded his inheritance as of more importance than brotherly love.

Those who are ignoring the gospel of redemption and claiming Jesus as a social reformer, or the "judge and divider" of some new economic solution for the world's ills, need to read and ponder this verse.

Every Christian is interested deeply in social problems, but knows that the first concern of Christ and His followers is the souls of men.

Save your car your truck yourself

● Farm folks know you can't trust winter weather. You have to be prepared for blizzards at any time. Highways that are clear today may be dangerous skidways tomorrow with fresh fallen snow hiding treacherous patches of ice. That's why WEED TIRE CHAINS are found on millions of farm cars and trucks.

This would be a bad winter in which to lose the use of your car or truck through a skid crash, for new vehicles are still scarce. So are new tires and good recaps. Better look after your tire chains right away. For when your wheels spin in snow or on ice, the heat quickly damages your tires.

Repair serviceable used chains and, if you need new ones, tell your WEED CHAIN dealer at once.

1946 LICENSE PLATES WENT ON SALE SATURDAY, DEC. 1

5 Per Cent Penalty Will Be Added After February 1, 1946

New license plates for Iowa motorists went on sale Saturday, December 1, at the office of county treasurer, Roy L. McMillin, for the year 1946. Passenger automobiles will receive but one plate while trucks will receive two plates. License plates may be purchased up to February 1, 1946 without penalty but after that date a penalty of 5 per cent per month will be assessed.

One license plate will be issued for passenger vehicles which will be placed on the rear of the automobile. There will be no windshield sticker this year.

Two plates, for front and rear, will be issued for trucks together with a sticker which will designate the truck classification, the latter to be placed in the upper right hand corner of the windshield.

The law remains the same in regard to transfers, storage, and junking of vehicles, and the exact procedure may be obtained from the county treasurer, Roy L. McMillin.

CEREMONY HELD AT METHODIST CHURCH NOVEMBER 21

Young Couple Are Both Graduates Of The Klemme High School

Mr. and Mrs. Lewis Mau, former residents of Klemme, now on a farm east of Klemme, announce the marriage of their daughter, Audrey, to Naval Aviation Cadet Keith Stille, son of Mr. and Mrs. Harvey Stille of Los Angeles, Cal., which took place at the Methodist Church at Liberty, Missouri, on Wednesday evening, November 21, 1945, at 7:00 o'clock with the Rev. Mr. Johnson officiating at a double ring ceremony.

Their attendants at the altar of matrimony were Mr. and Mrs. J. K Oglesby of Pecos, Texas. Both men are attending the Naval Pre-Flight School at Liberty.

The bride was attired in a powder blue gabardine suit with black accessories and her corsage was of pink roses.

Her bridesmaid wore a light tan suit with brown accessories and corasge of pink roses.

The men wore their Navy dress

The organist of the church played "I Love You Truly," and the Wedding March.

Immediately after the ceremony a reception was held at the Oglesby home for the newly-weds and was attended by close friends. Mr. and Mrs. Oglesby served lunch.

Both Mr. and Mrs. Stille are graduates of the Klemme High School. Mrs. Stille then attended a business college in Des Moines after which she was employed at the State House in the Bureau of Labor office, which position she held until the time of her marriage.

Mr. Stille enlisted in the Navy a few weeks after graduating from high school and has been in the service for about 4½ years. He saw extensive service during the early part of the war in the Pacific and took part in numerous battles. He is now training as a Naval Aviation Pilot and has completed one phase of his work and expects to be transferred to pre-flight soon.

Mrs. Mau will remain with her husband during his training.

PROMOTED

H. G. VOETBERG PROMOTED TO RANK OF MAJOR

Mrs H. G. Voetberg received word the later part of the week that her husband, who is with the U. S Army in Australia, was recently promoted from Captain to Major.

Major Voetberg was a former veterinarian here and prior to the war was employed by the government. Mrs. Voetberg is teaching the 5th and 6th grades in the Klemme school.

HANCOCK COUNTY OVER THE "HUMP" IN "E" BOND QUOTA

A bulletin dated November 27, from the Treasury Department's War Finance Committee gave Hancock County 36th place from the top in the total percent of purchase of "E" bonds. On that date the state average was 52.60 per cent, with Hancock County's percentage given as 53.95.

But that is still a long way from the top and time is running out so everyone is urged to buy bonds at once and put Hancock County over the top.

Audubon county was the only county so far to go over the top. That county boasts 133.50 percent with Van Buren next with 85.57 per cent.

Other surrounding counties are: Kossuth with 59.36 percent; Winnebago, 54.03 percent; Cerro Gordo 50.50 percent and Wright 44.91 per cent.

Monona county is at the bottom of the list with only 19.39 percent.

Build the ration of the breeding ewe around some legume hay.

UNITED SERVICE WOMEN WILL MEET DECEMBER 12

The U. S. W. of Klemme will hold their next regular meeting on Wednesday, December 12th at 2:00 p. m.

The ladies will have a Christmas Grab Bag at this meeting. The cost of the article to be 25 cents.

Mrs. C. J. Wille and Mrs. Calvin Grosshuesch are the hostesses.

Hancock County Religious Census Now Completed

SOIL & WATER MANAGEMENT COMMITTEE TO EXPLAIN SOIL DISTRICTS

The Hancock County Soil and Water Management Committee at a meeting Monday night, November 26, decided to explain the organized soil conservation districts that so many counties have organized the last 7 or 8 years. The state laws set up the machinery for these districts. They are voluntary and the participation is voluntary after they are organized. A soil conservation district cannot levy any taxes.

The organized district can obtain help from any division of the department of Agriculture such as the Extension Service, Soil Conservation Service, A. A. A., F. S. A., etc The ultimate goal of districts now organized is to have an individual farm plan on every farm in the district. Of course all of this will be voluntary on the part of the farmer.

All of these things were explained and presented by C. H. Van Vlack and Lester Clapp of the Extension Service and Soil Conservation Service. The following farmers attended the committee meeting:

Joe Mikhelson, John Haan and Rex Austin of Crystal Township.

Vic Loebig, Fern Huling, Virgil Everett and Raymond Hanson of Boone Township.

Bob Hoadley, Melvin Thompson and F. N. Knutson of Amsterdam Township.

Lyal Fox, and Edgar Clapsaddle of Orthel Township.

John Huisinga, Robert Nyman of Bingham Township.

Ted Rogness and Fred Meinecke of Elligton Township.

Ben Riemer and H. A. Greiman of Liberty Township.

Lawrence Radloff of Ell township.

C. D. Daniels and Ruby Gelner of Concord Township.

Floyd Franklin, Avery Township.

Art Ruka and Art Chelsvig of Twin Lake Township.

Jake Van Dusseldorp ad Martin Hinders of Erin Township.

Others attending were Penn Eckles, John Chambers and Wm Henschen.

POSTPONED . . .

The Grade School Operetta has been postponed because of illness among some of the children. Watch for the new date.

REV. HARVEY, CHAIRMAN, REPORTS ON RESULT

Only 574 Persons In County Have No Church Preference

A group of ministers and other leading citizens of Hancock County Iowa, have successfully completed a religious census of the county.

Rev H. E. Harvey of Klemme stated, "So far as we are able to discern, every family in the county has been interviewed and proper statistics have been recorded for each individual member of the family."

The survey was sponsored by the Iowa State College, the Iowa Rural Christian Fellowship, and the Iowa Inter-Church Council.

Total number of reports made, 3,665. Total number of individuals was 12,824 and of these 10,291 are members of some church or are potential members, as this includes baptized children where the parents are both members of the same church. This means that there are but 2,392 people in the county who are members of no church.

1,818 of the non-members show a church preference, and 574 give no church preference.

There is an average of 3.94 persons in each family. 80 percent of the total population of this county are church people.

A partial list of the "un-churched" folks will be available at the office of the County Extension Director, Paul Henderson in Garner. A complete list would mean many hours of copying of the names from the family cards.

One set of census cards has been distributed among the ministers of the various churches, and a full set was sent to the Iowa State College for tabulation purposes.

Rev. H. E. Harvey, chairman, wishes to thank all who participated in the Census Drive. Over 100 people helped with it to make it a complete success.

SELECT COWS ON BASIS OF MILK OUTPUT RECORDS

Whether or not a milk cow pays for her board and room depends upon how much milk she puts in the pail.

E. S Estel, secretary of the Iowa State Dairy Association says Iowa dairymen have found that war-created labor shortages make herd culling absolutely necessary. In straight dollars and cents, a low-producing cow simply means less profit than her higher producing sister. Her feed, labor and housing costs are only slightly lower, and she fails to come across with a profitable milk check.

Iowa's 8-point dairy program emphasizes the necessity of getting the most milk from the cows in the barn.

Build Herd Replacements

Culling out the loafers. Estel believes, is the first step in a dairy herd improvement program. The empty stalls should be filled with suitable replacements. Given a good herd foundation of cows with a proven record, these replacements can best be raised at home.

High-producing milk cows, however, are only half of the herd improvement program. Good sires are the other half. Estel's years of dairy experience have shown that good proved sires are the best means of raising the level of the herd. Sons of proved sires out of good cows are the next best.

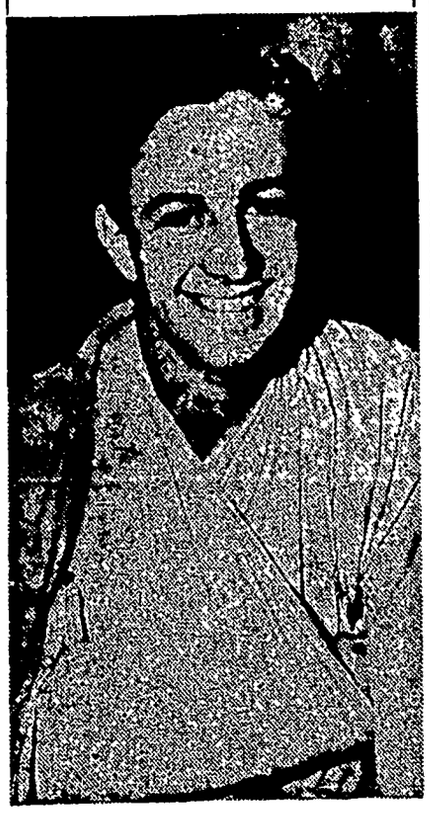
Establish Sound Program

As for the future, Estel believes that regardless of conditions after the war the man who has managed to bring his herd to a high average level of production with a sound selection and breeding program will be in a favorite position.

POSTPONED . . .

The Fifty-Fifty Class of the Methodist Sunday School have postponed their party.

Shelled Unconscious



WHILE FLYING over Germany, AAF Sergeant Alfred D. Reckley, Pittsburgh, Pa., a radio operator, was knocked unconscious by flack and didn't know what hit him until he awoke back at his air field. Now he is at Halloran General Hospital, Staten Island, N. Y., discovering how Victory Loan dollars help the wounded, and he is doing fine.

OBITUARY OF MR. HENRY HELPS

HENRY HELPS was born December 21, 1872 at East Pennard, Summerset England, the second of a family of nine children born to his parents, Steven and Jane Helps.

His childhood years were spent in England where he completed his public school education and became a member of the Methodist Church.

At the age of 21 Henry Helps came to America and commenced working as a farm hand at New Lenox, Illinois.

On February 16, 1898, Henry Helps and Lena Wernier were married at Joliet, Illinois and commenced house-keeping on a farm near Lenox. Three children were born to them, Harlow, Dwight and Dorothy. After a few years they moved to Clarion, Iowa, where the family farmed for 10 years, when they moved to the Avery township farm which they had purchased from Phillip Behringer. Here they lived for 21 years after which Mr. and Mrs. Helps retired and moved to their new home in Klemme where they have resided for ten years.

Mr. Helps was a good neighbor and always had a smile for everyone. Nine years ago he suffered a slight stroke which left him somewhat lame and from which he never fully recovered. For the past several months he was bed-fast and the end came Saturday morning, December 1, 1945. He had reached the age of 72 years, 11 months and 10 days.

He leaves of his immediate family his wife Mrs. Lena Helps; his children, Harlow Helps, Dwight Helps and Dorothy, (Mrs. Ernest Pringnitz.) Eight grandchildren; one sister, Mrs. Walter Reed of Garner; one brother, Ernest Helps of Garner; also four sisters and two brothers in England. Thus he is survived by all of his brothers and sisters, and all of his children.

WEEKLY NEWS ANALYSIS

U. S. Code Interceptions Bared Jap War Plans; Attlee Outlines Labor Party Economic Program

Released by Western Newspaper Union.

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

As joint U. S.-British commission studies Palestine problem, Jewish youth parade in Jerusalem in protest against restriction of immigration into Holy Land.

PEARL HARBOR:
Code Secrets

As the Pearl Harbor investigation got underway at Washington, D. C., before a joint 10-man congressional committee, intercepted messages placed in the records disclosed that U. S. intelligence officers had cracked the secret Japanese code a year before the start of the war.

While the early intercepted messages dealt with ship movements, chief interest centered in the diplomatic documents dating from July 2, 1941, when Tokyo told Berlin that Japan would work for its "greater East Asia co-prosperity sphere" regardless of the world situation.

On November 22, Tokyo advised Nomura and Kurusu, Jap envoys negotiating in Washington with Secretary of State Hull, that it had been decided to set November 29 as the final date for effecting an agreement, after which things would "automatically . . . happen" in case of failure. Then on November 26, Nomura told Tokyo of Hull's ultimatum and the improbability of reaching a settlement.

On November 30, Tokyo informed Berlin of the imminence of war with the U. S. and later relayed the same message to Rome. Meanwhile, Tokyo warned its consulates on December 3 to be on guard for the "winds" messages in short wave radio broadcasts indicating rupture of relations with the Allies. The "east wind, rain" message (meaning war with the U. S.) then came through on December 5.

Among the last messages decoded were Tokyo's reply to Hull's ultimatum on December 6, with final instructions for presentation to the U. S. at 1 p. m. the following day coming in on the morning of December 7. Dated December 7, a Jap message from Budapest, Hungary, to Tokyo stated that the American minister to that country had presented its government with a communique from the British that a state of war would break out on the seventh.

BIG TALK:
Reassures U. S.

In the nation's capital to discuss disposition of the horrific atom bomb and touchy international questions, British Prime Minister Attlee also found time to address congress and outline the democratic objectives of his labor party just as negotiations for a multi-billion dollar loan from the U. S. were materializing.

Aimed at helping Britain get its export - import trade functioning again and lighten the load of six billion dollars of debts to wartime creditors, the projected multi-billion dollar advance was attacked in some circles as an aid to the labor party in socializing the United Kingdom. In addressing congress, Attlee declared that British businesses were only to be nationalized when they had grown into monopolies detrimental to the economy.

No radical in speech or appearance, the short, mild-mannered, mustached British leader described the labor party as a representative cross-section of liberal English society, with professional and business men, and even aristocrats, joining with the working classes in its membership.

In determining to retain the secret of the know-how of harnessing the atom, President Truman and Attlee declared that until effective safeguards were set up against its destructive use, no advantage would come from sharing its use. To work out such safeguards permitting exchange of vital information on atomic energy for industrial purposes, the Big Two recommended the creation of a United Nations commission.

As revealed by Foreign Minister Bevin in the house of commons recently, Britain has expressed deep concern over Russian demands for trusteeship of Eritrea and Tripolitania in the Near East, and establishment of a naval base in the Dodecanese islands, inasmuch as these territories lie athwart the famed "life-line" of the empire through the Mediterranean and Suez canal.

Coincident with Attlee's visit to Washington was the U. S. and British announcement that a joint commission of the two countries would undertake a study of the ticklish Jewish immigration question with a view toward easing the plight of European refugees.

Pressing importance of the issue was emphasized by continued Arab and Jewish riots in the Near East, with scores killed and wounded in widespread demonstrations over the question of making Palestine a national homeland for the Hebrews.

Because they have been banded into a league 33 million strong spread over the entire Near East, with control over rich oil deposits cherished by U. S. and British concerns, the Arabs have greatly complicated settlement of the Palestine issue in view of their stubborn opposition to large-scale Jewish immigration.

Taking the Arab objections into consideration, the joint U. S. and British commission will look into the question of whether heavy immigration would upset the Arabs' political and economic position in Palestine. Consideration also was to be given to providing remedial action in Europe itself and allowing immigration to other countries.

JAPAN:
Seek Trade

As the question of reconstituting the Japanese economy arose, Nipponese officials drew a pattern for the nation's future trade relations with the world by recommending a barter system to facilitate immediate imports of needed foodstuffs and raw materials. Under terms of surrender, Japan will not be permitted to produce some of the items formerly exported.

Under the Japanese proposal for the resumption of trade, Nippon would receive substantial amounts of food, salt, cotton, copra, coal, iron ore and non-ferrous metals, in exchange for gold, diamonds, silk, cotton goods, chemical products, medical supplies, machinery, hardware, and tin.

The problem of recreating the Japanese economy was pointed up by revelation that the country had been the sixth biggest prewar exporter, shipping out almost a billion dollars worth of goods each year. Of the total amount, China obtained the largest part, with the U. S. and India following.

Of the total amount, China obtained 27.2 per cent; the U. S., 18.2 per cent; India, 6.2 per cent; Great Britain, 3.7 per cent; Latin America, 3 per cent; Australia, 2 per cent, and Germany 0.7 per cent. Other European and Asiatic countries took 2.1 and 3.1 per cent of the remainder of exports respectively.

Predict Another Full Larder for U. S.

Total food available for civilians in 1946 will be considerably greater than in 1945 with average food consumption per capita expected to be larger than in 1945, the department of agriculture reported. All foods, however, will not be equally plentiful, with pork, the better grades of beef and veal, fats, oils and sugar in shorter supply.

Most of the expected improvement in civilian food supplies next year stems from the sharp cutback in military food requirements, which will drop to one-third or even one-quarter of the 1945 level. Exports and shipments of food in 1946 will continue large, assuming that satisfactory financial arrangements are completed. The greater part of these exports will move in the early months of the year, mainly to the United Kingdom and the liberated areas of Europe.

FOOD:
Europe's Need

As congress wrangled over appropriation of $550,000,000 to complete the original government pledge of $1,350,000,000 to the United Nations Relief and Rehabilitation administration, and President Truman asked for another $1,350,000,000 for the agency, UNRRA officials abroad estimated that liberated European countries would need 9,000,000 tons of foodstuffs this winter to avoid starvation and serious malnutrition.

Because of interruptions in farming caused by the war and drouth, European agriculture will be able to furnish metropolitan districts with food assuring a daily intake of only 1,200 calories, UNRRA said. Though receipt of 9,000,000 tons of food would boost this figure to 2,000 calories, the diet still would fall below standard nutritional requirements.

Investigations in Czechoslovakia, Greece, Italy, Denmark, Holland, Belgium, Yugoslavia and Norway revealed that there was a pressing need for feed to help rebuild the cattle and dairy industries, seriously depleted by butchering of conquering armies and the diversion of grains to human consumption. Having already shipped 2,400 cows to southern and eastern Europe, UNRRA plans additional substantial monthly deliveries through the winter.

Meanwhile, American grain markets boomed upon the prospect of heavy demand in the coming months, with cash and December rye a sensational leader on the Chicago Board of Trade.

Cash rye held a substantial margin over cash wheat, what with distillers scrambling for the grain in view of a shortage of corn and sorghum, while the December future soared to almost $1.90 a bushel, topping December wheat for the first time since 1921.

Another bullish factor in the market was an estimated drop of 287,000,000 bushels in the 1944 rye crop in Europe where the grain is an important bread staple, and smaller supplies in both the U. S. and Canada.

Because of the slowness in delivery of grain to coastal ports, many experts feared exports in the early half of 1946 might fall below expectations. Railroads clamped on emergency demurrage charges in an effort to speed up unloading of box cars to ease the situation.

'Sonny' Sets Fast Pace

To the question of what makes Ellsworth ("Sonny") Wisecarver, 16, so irresistable to women older than him, Mrs. Eleanor Deveny, 24, who figured in his latest romantic interlude, mused. "Dream man—Ideal companion—Perfect lover."

Mother of two children and wife of an army corporal serving in Japan, Mrs. Deveny eloped with "Sonny" following a

Mrs. Deveny and 'Sonny."

meeting at the home of a mutual friend. Two years ago, Mrs. Elaine Monfredi, 22, and also the mother of two children, ran off with young Wisecarver in his first amorous episode.

In elaborating on "Sonny's" attributes, Mrs. Deveny asserted: "I'd like to take care of him the rest of my life. . . . He's good, considerate and older than his years." She would not return to her husband, she said.

CHINA:
Friendly Enemies

Once deadly enemies, Chinese nationalists and Japanese troops have become brothers in arms in northern China, where Nipponese forces have been employed by the central government for the protection of vital territory and railroads against communist attack.

While the Japanese actively aided the nationalists in their drive to secure a foothold in the north, U. S. marines kept their distance in the bloody strife between Chiang Kai-shek's troops and the Reds, being ordered only to guard American lives and property in the battle zone. Meanwhile, the nationalists pressed their advantage with lend-lease supplies originally destined for use against the Japanese.

Though fighting raged throughout the whole northern area, attention was riveted on nationalist attempts to smash into the industrial province of Manchuria, which the communists reportedly planned to convert into a military stronghold. Early fighting centered around Shanhaikwan, gateway city to Manchuria lying at the eastern end of the Great Wall.

G.I. INSURANCE:

Too much high pressure on draftees when they took out government life insurance on entering the service and not enough salesmanship now to get them to keep it after discharge, are the main reasons why three out of four veterans are lapsing their insurance, according to a study by Northwestern National Life Insurance company.

World War II service insurance is less flexible and carries fewer privileges than government insurance for veterans of World War I.

The Washington MERRY-GO-ROUND

DREW PEARSON

TIRE RATIONING

If you are an automobile owner in search of tires, here is one thing to keep your eye on. The tire industry is pulling all sorts of wires backstage to lift export restrictions.

At present they are permitted to export 400,000 truck tires and 100,000 passenger tires during the last quarter of this year. They would like to export a lot more. In the first place, they don't have to worry about OPA ceiling prices when selling abroad. Secondly, they can build up their postwar markets by getting in on the ground floor.

So they would rather sell more tires abroad. But if they do, they sell less tires at home. And today a tire certificate issued to a person desiring to buy a tire is nothing more than a hunting license. He can go out and hunt for a tire. If he's lucky enough to find one, his certificate entitles him to buy it.

DEPARTMENT OF PEACE

When the house foreign affairs committee heard testimony on the Randolph bill to create a department of peace, the star witness was a 64-year-old former mule-driver from Morgantown, W. Va.

Chairman Sol Bloom and members of his committee listened with rapt attention as Raymond M. Davis read a 16-page statement on why the United States should take the lead in establishing a new cabinet post to spread the gospel of peace throughout the world.

After he finished, white-thatched GOP Rep. Charles Eaton of New Jersey declared:

"Mr. Davis, you may be unschooled, as you tell the committee, but you certainly are not uneducated. That is one of the finest documents I have ever listened to."

World Peace is not just a hobby with the West Virginia coal man, though he describes it as such. It is a burning ideal. A self-made business man who now operates two coal mines employing more than 500 workers, Davis had made many speeches at his own expense throughout the country urging a government department of peace. He also has written a proposed constitution for the United Nations that has attracted wide attention.

The state department thought well enough of his ideas to invite him to the San Francisco conference as an observer.

Rep. Jennings Randolph of West Virginia, freely admits that Davis was the chief spark plug behind his peace resolution.

"When I was looking at the rear end of a mule all day in West Virginia coal mines," says Davis, "I never thought that one day I'd be instrumental in having such an important piece of legislation introduced in congress."

Note—The second initial of Davis' name stands for "Moses." Perhaps what we need are more plain, garden-variety Moses' of the Davis type, instead of striped-pants diplomats, to lead us out of the international wilderness.

* * *

BOWLES HOLDS INFLATION FLOOD

OPAdministrator Chester Bowles is one of the most abused men in Washington Everyone is badgering him. Congressmen demand that their constituents increase the price of this or that. Farm groups want to raise the price of milk or cattle. Business groups want to abolish all ceiling prices.

Probably the common man doesn't appreciate it, but here are some things which will happen if Chester Bowles loses his battle to stop the inflation flood:

1. Every person putting his money in life insurance does so with the idea of getting his money back—100 cents on the dollar. But if there is inflation, the insurance dollar will be worth 75 cents, 50 cents, or even 30 cents.

2. Every person on a retired pension, whether a railroad employee, a college, a school or a big corporation employee, will see his income shrink if there is inflation.

3. Every widow living on money left by her husband will see that income shrivel.

4. Every school teacher will have great difficulty having her salary move up when the value of the dollar moves down.

5. Every civil servant, whether working for city, state or federal government, will be in the same boat as the teachers.

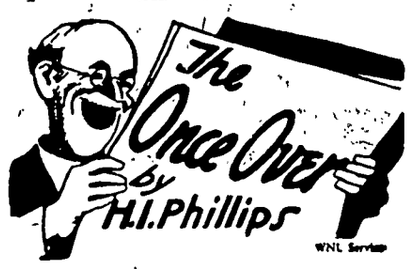
6. Every college endowment, every charity or other enterprise with fixed invested capital stands ready to have its investment evaporate with inflation.

* * *

CAPITAL CHAFF

¶ When Eugene Meyer, publisher of the Washington Post, celebrated his 70th birthday, his family gave him a party on Sunday, the Post staff gave him another one on Monday, and on Wednesday he was guest of honor at a luncheon.

¶ One high government official is certain, from studying a list of Presidential appointments, that Harry Truman does not intend to run for President in 1948. "Obviously," he says, "Truman's preparing to run for governor of Missouri."



THOUGHTS ON MONEY

Money has few friends these days. The sticking kind, the sort of people who want to cling to it tenderly. Coin has become almost a synonym for confetti.

—*—

Americans are behaving as if they thought it a reflection on their character not to be spendthrifts. The old slogans have been revised thusly:

1. Take care of the daily-doubles and the pennies will have to take care of themselves.

2. A fool and his money make a perfect parlay.

3. If money burns a hole in your pocket, remember that it saves the moths a lot of work.

4. Waste not, have not!

5. A good race tip is rather to be had than great riches.

—*—

Frugality has become a word out of an old dictionary. The man who used to wince at the idea of paying over 75 cents for an ordinary lunch now pays $2.50 and brings his own butter and sugar. Give a waiter only 10 per cent today and you automatically become Scrooge II.

—*—

Pull that old one about saving something for a rainy day today and you get a snappy, "Phooey! If it rains I can get an umbrella from the government."

—*—

Thousands of people seem to believe that money not only grows on trees, but that the trees can be counted on to make deliveries.

—*—

If Ben Franklin were around today delivering epigrams on thrift he would be denounced as a reactionary, a Tory and an enemy of the people.

—*—

The questions of the hour are: Is cash a good thing to have around the house? Should a five-dollar bill be regarded as something for the long pull or a quick turnover? Can a man be thrifty and maintain the respect of the community?

* * *

Good News for Light Sleepers

We don't know what we would have done if we hadn't had a chat today with Albert H. Chandler. We hadn't been getting much sleep and it worried us. Counting sheep hadn't been of the least help. There had been times when we had been on an eight-hour sheep-counting night. A fellow couldn't go on like that.

—*—

Then it happened. We heard a commotion in the corridors and found office associates congratulating Chandler on his 91st birthday. Ninety-one and on the job every day as office receptionist! Sixty-seven years on the paper!

—*—

"Ah!" we thought, "Chandler must sleep well. In him there is the secret of repose after hitting the haypile. He can help us."

—*—

"Sleep!" exclaimed the hardy veteran. "There's nothing in it! It's the bunk!"

We assume the celebration had upset him somewhat.

—*—

"Forget that sheep stuff," he continued. "That's bad. I used to count 'em. Probably counted more sheep in my time than any living American. I even numbered 'em front and rear. Put plates on 'em. Things came to a head back in the '70s, in 1878. I think that was one of the biggest sheep years I ever had. There were so many to be counted that I never slept a wink. So I quit. Haven't tabulated a sheep since."

—*—

"But what do you do about 'em?"

"Ignore 'em. All except one. That sheep's been with me over half a century. I call it Old Two Million Eight Thousand and Ninety-four. I had counted that high when I met it. This sheep and I get about the same amount of sleep. Why? Because we forgot the whole business years ago, and know there's nothing to it. All the other sheep keep on hopping back and forth all night waiting for me to start counting and they've gone nuts. They don't get any sleep at all!"

* * *

SUN GOD CLIPPED COUPONS

Hirohito, it develops, had a finger in all the financial pies of Japan and is a millionaire many times over. A descendant of a sun god on his banker's side.

Under tradition, nobody in Japan could ever look down on the emporer. Well, if we had all his money, we would not have permitted anybody to look down on us, either.

The emperor's horse, informed of Hirohito's wealth, exclaimed, "That ain't hay!"

* * *

New automobiles have been freed of rationing. All you will need to get one now will be:

1—About $2,000.

2—The name of a dealer who has a car.

3—A letter from the President.

4—Patience and fortitude.

* * *

Sonja Henie and Dan Topping have met in Chicago, the papers say, and decided to part after five years of married life. Artificial ice is not what it's cracked up to be, we take it.

Kidneys Must Work Well-

For You To Feel Well

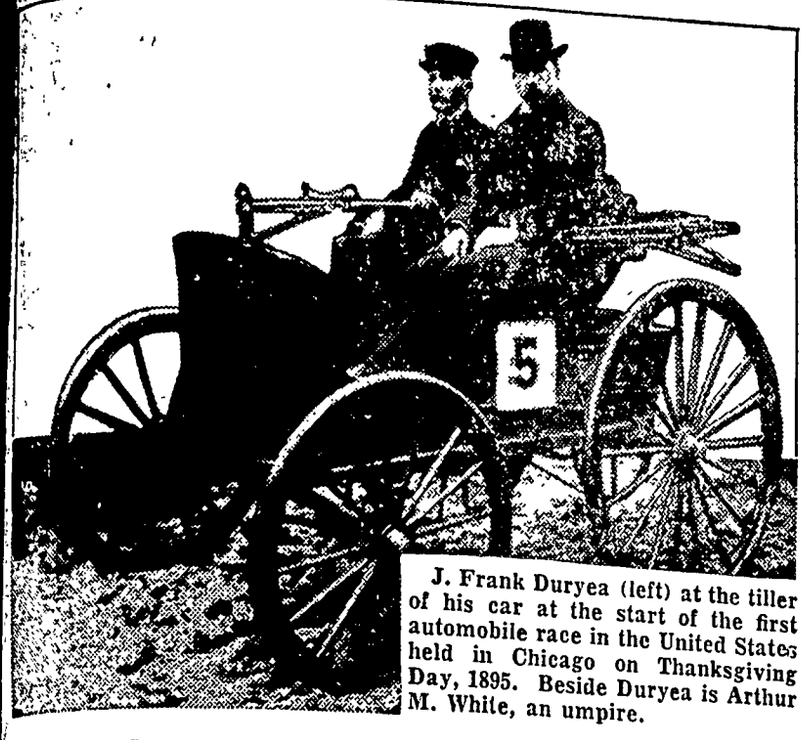
24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood.

If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.

Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at nights, swelling.

Why not try *Doan's Pills*? You will be using a medicine recommended the country over. *Doan's* stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get *Doan's* today. Use with confidence. At all drug stores.

DOAN'S PILLS



J. Frank Duryea (left) at the tiller of his car at the start of the first automobile race in the United States held in Chicago on Thanksgiving Day, 1895. Beside Duryea is Arthur M. White, an umpire.

Fifty years ago J. Frank Duryea and his brother, Charles, formed the Duryea Motor Wagon Corp. They made and sold 16 of the quaint machines in 1896. Theirs was the pioneer automobile manufacturing company of the United States.

The 1895 model was described as a vehicle running "on four wheels with pneumatic tires and ball bearings. Speed is controlled by a proper arrangement of gears, cones and levers."

The Duryea company, despite its early start and the prestige enjoyed by the car following the victory in the American automobile race at Chicago on Thanksgiving Day, 1895, faded out in the 1900s.

50 Years of Automobiles

By AL JEDLICKA

FIFTY years ago, H. H. Kohlsaat, editor and publisher of the old Chicago Times-Herald, took up his pen to make this daring prediction to a skeptical public:

"The **horse still has work to do but motors are coming in and they will, in the end, be cheaper, faster and more economical. They will of necessity command ultimate supremacy. The law of selection, the survival of the fittest, is going to play its part in carrying it out as it has played it in everything else in the world.**"

Kohlsaat was drumming up his promotion of the first American automobile race to be run at Chicago, Ill., with the twin objectives of popularizing the motor car and improving the country's roadways. His was no easy task, for, though the automobile has since become an important economic and social link in American life, it was then looked upon with curiosity and even suspicion.

Indeed, the nation's farmers then were in the forefront of opposition to the automobile, as exemplified by the affronts suffered by Louis Greenough and Harry Adams of Pierre, S. D., in the early nineties. Having constructed a homemade "horseless wagon," powered by a two-cylinder gas engine and capable of seating eight, the progressive pair were refused the right to carry passengers at county fairs, and were even refused permission to drive their vehicle inside the town limits of Mitchell.

Said the **Press and Dakotan: "It is a dead moral certainty that that infernal machine will frighten horses and endanger the lives of men, women and children."**

'Model T' Arrives.

By the time Henry Ford's old Model T started rolling in the 1900s, however, the American farmer, like his other compatriots, was rapidly accepting the new motor car. Radical improvements in construction and design have come through the years. A vast, integrated roadway system presently comprising nearly 600,000 miles in state highways alone has been constructed. Almost from the start, the gas-driven car supplanted the electric and steam jobs, proving a steadier source of power and simpler to maintain.

The extent of the development of the automobile in the 50 years, dating from the first American race, is vividly shown in the Chicago Museum of Science and Industry's exhibit in connection with the celebration of the motor car's golden anniversary.

It was at the southwest entrance of the present museum, then the Fine Arts Building of the Columbian Exposition of 1893, that the heralded race of 1895 got under way, with six vehicles lined up. Four were gas-driven of either double or single cylinder motors, and two were electric-powered.

According to accounts, a goodly throng was on hand to see the start of the 55-mile race from Chicago to Evanston and back. The roads were slushy from an early snowfall. Crowds pressed about the high-wheeled, buggy-type vehicles in wonder, only drawing back to permit the drivers to start off.

With Kohlsaat bent upon making the race a constructive event rather than a circus, strict rules were laid down for judging the winner, with a total of $5,000 in cash prizes. Awards were to be made on general utility or performance of the machines, economy of operation, and appearance or design.

Three of the contestants dropped out early in the race, one gas-driven job failing to obtain sufficient traction in the slippery going, and two electric-powered vehicles retiring because of battery limitations.

Only Two Finished.

That left three gas-powered machines in the running, with one, the Rogers, entered by the Macys of New York, falling out after first colliding with a street car and damaging the gearing and then running into a hack and bending the steering apparatus.

With four vehicles eliminated, only the two-cylinder Duryea Motor Wagon, piloted by Frank Duryea, and the single-cylinder imported Benz, driven by Oscar Mueller and Charles King, remained to fight it out. Traveling the distance in a little over 10 hours, Duryea crossed the line first, with King, who relieved Mueller after he collapsed under the tension, following close behind.

Though the winning car is not on exhibition at the museum, a surrey-type Stevens-Duryea model of the 1900s is to be seen, with its brass kerosene lamps, folding top and leather mudguards. A four-seater, the driver was situated in the back, with the engine beneath him. First to win an American automobile race, Duryea also had the distinction of being the first to sell a gas-powered motor car in the U. S. in 1896.

Next to the Duryea-Stevens, the Mobile phaeton of 1900 intrigues moderns used to the sleek streamliners of today. A surrey-like four-seater with "steering handle" in the rear, this vehicle had an open front and a square canvas top with tasseled fringes. Of wooden structure, the Mobile was smartly trimmed in red and black.

Along with the old vehicles, the Model T Ford of 1908 proves of especial interest to spectators, milestone that it is in American motor history. None can mistake the Old T with its high top supported by metal brackets, its leather seats, shining black body, brass headlights and lamps and octagon-shaped hood.

Next comes the big blue Cadillac touring car of 1911, with its high windshield, gears on the outer running board, steering wheel on right, and brass accessories. A four-cylinder car, this model possessed an electric ignition system and headlights.

No More Cranking.

It was the installation of the electric starter on the Cadillac of 1911 that marked the first great stride forward in the development of the automobile in the U. S., not only enabling an easier and safer method of operation but also permitting women to take to motoring.

In inventing the self-starter, C. F. Kettering, one of the mechanical wizards of the industry, was spurred by the mishap of a friend who fractured his arm while cranking. Like all innovators, Kettering had to run a gauntlet of scoffers, but he got out of a sick bed to demonstrate his new apparatus after a previous test had miscarried when the car caught fire.

Coming in the same decade was the closed car, which also represented a marked advance in the motor industry since it permitted year-round use of vehicles. On exhibition at the museum is a 1918 custom-built Pierce, with an open driver's seat and a closed rear, fashioned after the elaborate horse-carriages of old with oval windows and fabric upholstery of pearl gray. Also shown is a gray 1916 Overland coupe, with the low slung body and high, box-like cab.

In 1924, automobile engineering made another significant advance in the installation of four-wheel brakes on Buicks, adding to the safety features of motor vehicles and increasing their appeal to the public. The same year, C. F. Kettering made another notable contribution to the industry, developing ethyl gasoline, which increased compression in automobile engines and resulted in greater power and efficiency and higher mileage.

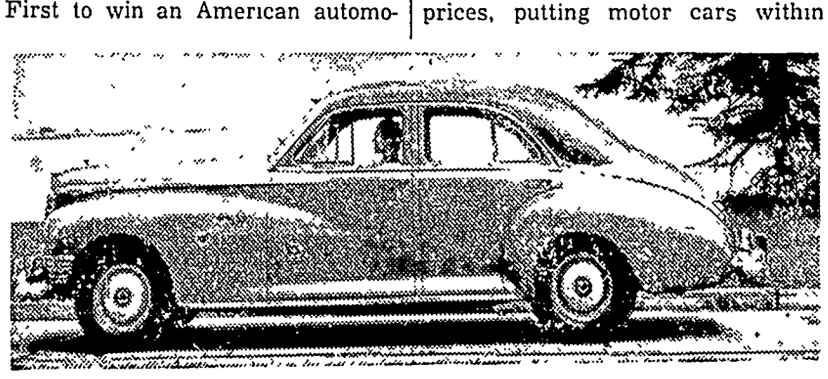
Toward the close of the 1920s, the old custom-built automobile which had dominated the industry since production got under way in the 1900s was replaced by the standardized car. As a result of the perfection of mass production, more automobiles were turned out at lower prices, putting motor cars within the reach of the average and lower income groups.

With the development of volume output, prices showed a considerable drop between 1925 and 1940, the average in the former year being $1,007 f.o.b. and in the latter $778 f.o.b. Besides, the 1940 cars were heavier and improvements included balloon tires, safety glass, all-steel bodies, finer springs, sturdier and better finishes, windshield wipers and rear view mirrors.

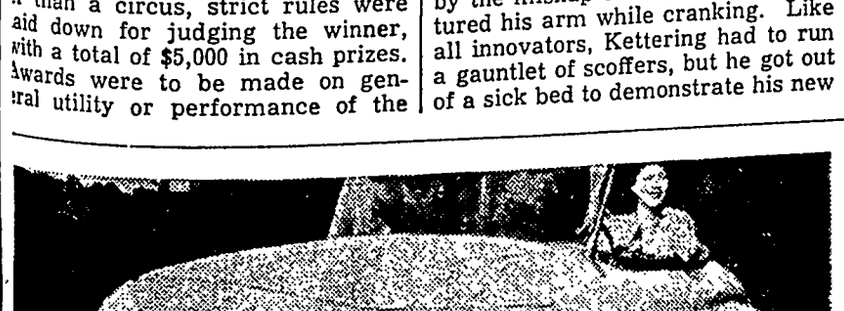
Also in production in 1940 was the automatic shift, which, like the self-starter, promises to further facilitate the use of the automobile by the elimination of the hand shift, oft so befuddling to the more nettlesome motorist. Still a luxury and not in general use, the automatic shift enables drivers to stop and start without the traditional change or disengagement of gears, and provides smooth, fast pickup.

Spectators at the museum exhibit were quick to notice the revolutionary difference between the old horseless carriages of Duryea's days and the new postwar automobiles on exhibit. Though representing no radical change over prewar models, the new cars possess an abundance of chrome grill extending across the front, sleek streamlining and many mechanical refinements.

Indeed, Kohlsaat's prophecy of 1895 that the automobile was here to stay and would prove of the greatest utility to the American people has been amply borne out as the museum exhibit shows, even if the **Press and Dakotan's** assertion that the infernal machine "would frighten horses and endanger the lives of men, women and children" has proved to be only too true.



This is one of the handsomest of the new cars, the Packard Clipper for 1946. The dashing appearance has been achieved by redesigning the radiator grille and by more massive sideguard bumpers. Colorful new interiors and clean-lined modern styling also enhance its beauty. There have been many mechanical improvements, too.



A tricycle car, with its three wheels arranged in imitation of the landing gear of some fighter planes, is being manufactured in Los Angeles. It is probably the most startling departure from conventional automobile design that has been put into actual production. Other features are a 58-horsepower aircraft type motor, that will give a speed of 100 miles per hour. At ordinary speeds it will run 40 miles on a gallon of gasoline, its makers claim. The body is plastic.

IMPROVED UNIFORM INTERNATIONAL

SUNDAY SCHOOL Lesson

THE CHRISTIAN'S PLACE IN THE LIFE OF HIS NATION
(Temperance Lesson)

LESSON TEXT: Matt. 5:13-16, 43-48; I Peter 2:13-17.

GOLDEN TEXT: Blessed is the nation whose God is the Lord.—Psalm 33:12.

Men make up nations. Human beings in a land like ours determine by their interests and attitudes the direction in which the entire social order moves. That in turn determines what kind of government we have.

If the totalitarian philosophies have colored our thinking and caused us to forget the importance of the individual in the life of our nation, let us turn at once to the right view.

Particularly important is the bearing which individual Christians can and should have on our national life. We have tended to draw back and fail to use the power and position which we have by God's grace.

Nowhere does that show more than in our failure (perhaps one should say shameful failure!) to bring Christian principles to bear upon the appalling liquor problem. This is temperance Sunday. Do not fail to stress that phase of Christian citizenship today.

How should Christians make their influence felt in the nation? By being what they ought to be and contributing to its life. Note these things in our lesson—the Christian gives:

I. Salt (Matt. 5:13).

We are the salt of the earth, and the pungent savor of Christ is to be evident in us as we touch life round about us—in the church, in the home, and in the nation.

True salt is antiseptic and purifying. It fights corruption wherever it is found. How effective the spiritually salty Christian and church should be against the corrupt political system, the liquor industry, vice and sin of all kinds. Have we lost our savor (v. 13)?

II. Light (Matt. 5:14-16).

A light is intended to give illumination to all round about it. It always does unless someone hides it under a cover, and then it becomes not only useless but dangerous.

A life lighted by faith in Christ will shine to the very ends of the earth and, as a missionary once said, "The light that shines farthest shines brightest at home."

We are the light of the world, but if we cover our light we deny the very essence of our natures. Here is no thought of proud or selfish display. Light does not shout about itself, it just shines.

Who will deny that there is need of some real spiritual light in some of the dark corners of our national life? Who is to shine in such places but you and me, fellow-believer?

Then, too, let us not forget that God has sent us out to light other lights. We can best serve our nation, and best meet the challenge of **liquor** by turning men to Christ.

That doesn't mean that we should neglect other "good works," but it is well to keep "first things first."

III. Love (Matt. 5:43-48).

"Love your enemies" (v. 44); that is the standard which Christ has established for His followers. While the love one has for the brethren is without doubt a more intimate relationship than the love one may have for an enemy, we must not seek to minimize the real love we should have even for those who curse and revile us.

It is to move us so deeply that we not only treat them kindly, but also pray for them. Humanly speaking such a thing is impossible, but in Christ it is not only possible, it has actually been demonstrated in life.

It is so easy for Christians to speak with derision that borders on hatred about "the devil's gang," and to lose all love for the crowd that hangs around the tavern and the gambling house. Let us hate their sin, but may God help us to show that we really love **them.**

Love will do more to reach the world for Christ, and more to direct our national life into right channels than any other influence we can bring to bear. Let us do all we can, but let us do it all in love.

IV. Loyalty (I Pet. 2:13-17).

The loyalty of the Christian to right authority should be glad and free, not by necessity or by coercion.

The believer will see in all men the image of God and will honor them even though he may not be able to respect or approve their way of life. The dignity and position of the individual is always recognized by Christianity.

The brotherhood of true believers should call forth a peculiar love. We need to renew that brotherly affection between believers.

Fear of God, that is, the desire to do His blessed will, shows itself in the best kind of citizenship. Government would serve itself well if it encouraged every effort to win its citizens to Christ.

Embroidered Cases

HERE is a de luxe wedding or Christmas gift idea. Crochet four of the gossamer-like 5½-inch butterflies in white thread—embroider the shaded pansies in soft blue, yellows, a touch of brown, then add a suggestion of pale pink to the bouquets.

To obtain complete crocheting instructions, transfer pattern, color chart for embroidering the Butterfly and Pansy Designs (Pattern No. 5030) actual size sketch of butterfly on chart, send 16 cents in coin, your name, address and the pattern number.

SNAPPY FACTS about RUBBER

A new rubber cement called "Plastilock" for binding metals, woods, plastics, has been developed by B. F. Goodrich.

Latex foam made of synthetic rubber can now be used in the manufacture of mattresses and other cushioning materials.

The goal of the rubber industry a few decades ago was a tire that would run 3,500 miles. Now it's not unusual for a passenger tire to run ten times that far.

Some of the first synthetic tires built in early war days lasted only fifty miles. Mileage of present synthetic tires compares favorably with natural rubber tires.

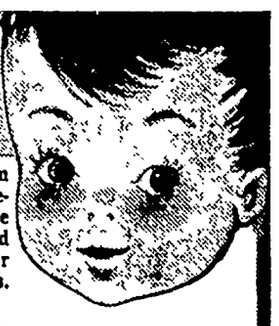
FIRST IN RUBBER

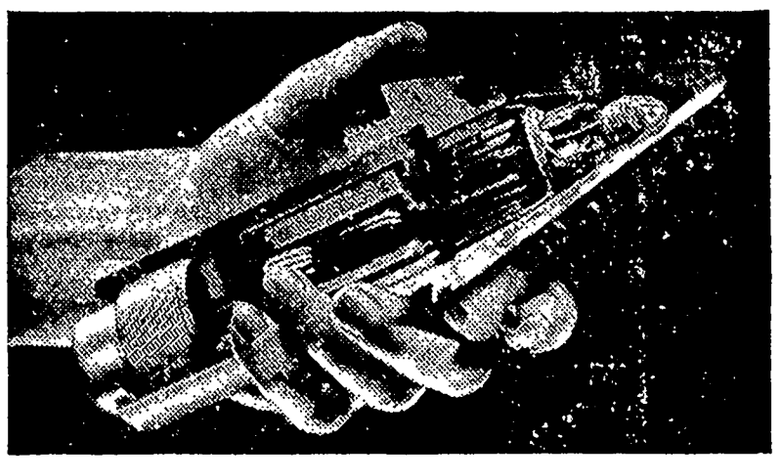
A COUGH MEDICINE of his very own



When your child has a cough due to a cold give him Dr. Drake's Glessco, a cough medicine specially prepared for him! This famous remedy helps eliminate phlegm, and soothes and promotes healing of irritated membranes. Children like its pleasant taste. Give your child the relief Dr. Drake's has brought to millions.

DR. DRAKE'S *Glessco* PRICE 50¢

THE GLESTRIN COMPANY, FINDLAY, OHIO — MONEY BACK GUARANTEE



FIVE-TUBE RADIO transmitter and receiver, in the fuse of the shell, is the brain of the secret weapon. In flight, the transmitter broadcasts a continuous radio wave. Reflected back from the target, this wave explodes the shell at exactly the right moment!

THE SHELL WITH A "RADIO BRAIN"

NOT EVEN the Atomic Bomb was more "hush-hush" than the "Variable Time Radio Proximity Fuse"—a fuse mechanism that decides for itself when to explode; requires no advance setting.

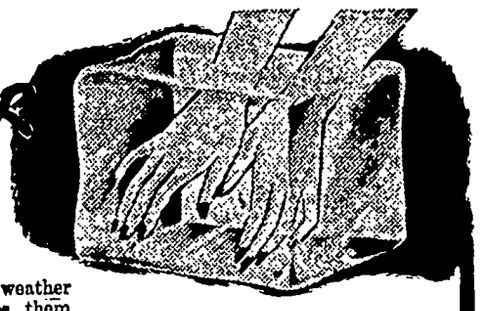
Transmitter, receiver, and detonating mechanism all draw power from a tiny "Eveready" "Mini-Max" battery: a "powerhouse" rugged enough to withstand the shock of the gun's discharge: a force *20,000* times that of gravity!

TYPICAL of "Eveready" "Mini-Max" power in peacetime are these two tiny, powerful batteries! On the extreme left is a 22½-volt battery for "cigarette case" radios small enough to *wear!* At its right is a 15-volt hearing-aid battery—for lighter, smaller, more economical hearing aids.

EVEREADY MINI-MAX TRADE-MARK

The registered trade-marks "Eveready" and "Mini-Max" distinguish products of National Carbon Company, Inc.

When ICY WINTER chaps hands



QUICK RELIEF. Freezing weather dries out skin cells, leaves them "thirsty." Skin gets red, sore—may even crack and bleed. Now soothing Mentholatum acts *medicinally.* (1) Gently stimulates local blood supply and helps *Nature* heal. (2) Helps revive "thirsty" cells so they can retain needed moisture. Quick—smooth Mentholatum, the comforting, medicated balm over sore, chapped hands, cheeks, lips. Handy jars or tubes, 30¢.

MEAT RATIONING ENDS

All rationing of meats, butters, fats and oils ended Saturday, leaving sugar and tires as the only items remaining on the ration list.

In announcing the end of meat rationing, OPA officials cautioned the public to save ration books, because they will be needed when buying sugar. All other stamps in Book 4 will be useless. Consumers are also urged to turn in all red tokens in retail stores so that the retailers can deposit them in their local bank. This will mark the end to the use of these tokens.

The program will consist of moving pictures starting at 7:40 p. m.; skits by some of the 4-H clubs: awards; music; singing and a light lunch.

Everyone interested in the 4-H Program is invited to attend new members, old members, parents leaders and friends.

Come early and enjoy the moving pictures.

GARNER DRUGGIST AWARDED CHEMICAL CONTRACT

The Blank Drug Company of Garner was the successful bidder at the letting held at the Courthouse last Monday afternoon on 10 tons of Atlacide. The firm was the low bidder of 3 participants and was awarded a contract to deliver the weed killer to the County Board of Supervisors. The bid was $7.70 per 100 pounds.

MORE SERVICES UNDER OPA CONTROL

Another service under price control is paper hanging, it was announced by the State OPA office this week, in response to numerous inquiries. Where a paper hanger contracts to do a job, charging so much per roll, he is required to charge no more for papering than he charged in March, 1942. There are similar ceilings on painting and decorating. Call your OPA board if you want help in finding out just what your OPA ceilings are.

FOOTNOTES on FARM HOUSING

by LLOYD SHERWOOD, NORTHERN LUMBER CO.

In choosing insulation for dwelling houses and animal shelters, it is well to ask the following questions:

1. Is it an efficient insulation?
2. Is it fireproof, not merely resistant?
3. Is it a material that will not deteriorate in time, necessitating extensive repairs to the building, or is it permanent?
4. Is it vermin proof, particularly rat and mouse-proof?
5. Is it economical?

All these questions are important but I believe that Questions 2 and 3 are particularly so. Hay, for instance, is insulation; but it is a serious fire hazard. Many a fine herd of hogs and dairy cows and many a fine flock of profitable hens have been lost through a fire that started in the hay. Insulation that will keep fire from spreading while live stock and valuables are removed is a worthwhile investment. I'll tell you about three instances where Zonolite fill saved the building. The first was a farm home, where fire started in the attic just about this time last year. When the fire chief came over the hill and saw the flaming house, he said, "That home is gone. We'll never be able to save it." But the Zonolite in the side-walls fell over the flames and snuffed them out. Another farm house had its roof burned off and a quarter inch off the studs. But the attic had Zonolite fill, and the fire was stopped. All the owner had to do was put another roof on the house. He said, "That insulation is real protection." The third instance was a dairy barn. The milk cooling machine was water-cooled, and one night the water supply failed. The machine caught fire, and the interior of the milk house went up in flames. The side-walls were filled with Zonolite which kept the fire from spreading to the dairy barn. The owner said, "If it had'nt been for the insulation, we would not have a dairy barn today. You don't know what that means to a man with a good herd."

Question 3 is important because such farm by-products as sawdust, shavings, and ground-up corn cobs are occasionally considered suitable and economical insulation for service buildings. But while fairly efficient when dry, they are always a fire hazard; and since they are affected by the high humidity prevailing in farm service buildings, they lose their insulation value when they become wet, and eventually decay. If the insulation does not remain unaffected by moisture, its insulating value is lost when it becomes wet. Next time; insulated floors.

Hog numbers of the future probably will need to be reduced to fit the demand, says H. H. Kildee, dean of agriculture at Iowa State College.

Dec. 20 Kanawha at Klemme.

SCHOOL CALENDAR

Dec. 21 School ends for Christmas vacation.

Jan. 2. School begins following holiday vacation.

JUNIOR CLASS NEWS
—Emily Lou Johnson

We received our report cards again this week Is everyone pleased If you aren't you know what you can do.

To start the six weeks off in Sociology we are studying about Women and Children Who Work, and Juvenile Delinquency. It is very interesting.

In Economics we are studying about banks and how they operate. It seems to be a very hard chapter We hope the next is easier.

"Self Reliance" is our topic in American Literature. It was written by Ralph Waldo Emerson and is an essay which is difficult to read. We hope to get back to poems soon

Typing is very interesting and we are learning to write different kinds of letters It will be very useful later

We hope everyone had a very nice Thanksgiving.

SOPHOMORE CLASS NEWS
—Ben Katuin.

Last Friday as we came into the Science room for Biology class, the following was written on the board:

"In order to obtain peace and quiet in our 'beloved' halls of learning, donations will be accepted at the west door of K. H S. ? ? ? ? to be used for the purchase of a fur-lined coin purse designated for the sole purpose of quieting Mr. Rector's jingling coins."

In English we have been studying the use of the Dictionary.

Soil Conservation has been our topic of discussion in Biology.

FIFTH AND SIXTH GRADE NEWS
Mrs. H. G. Voetberg, Teacher

The following people in Grade Five were neither absent nor tardy this past six weeks.

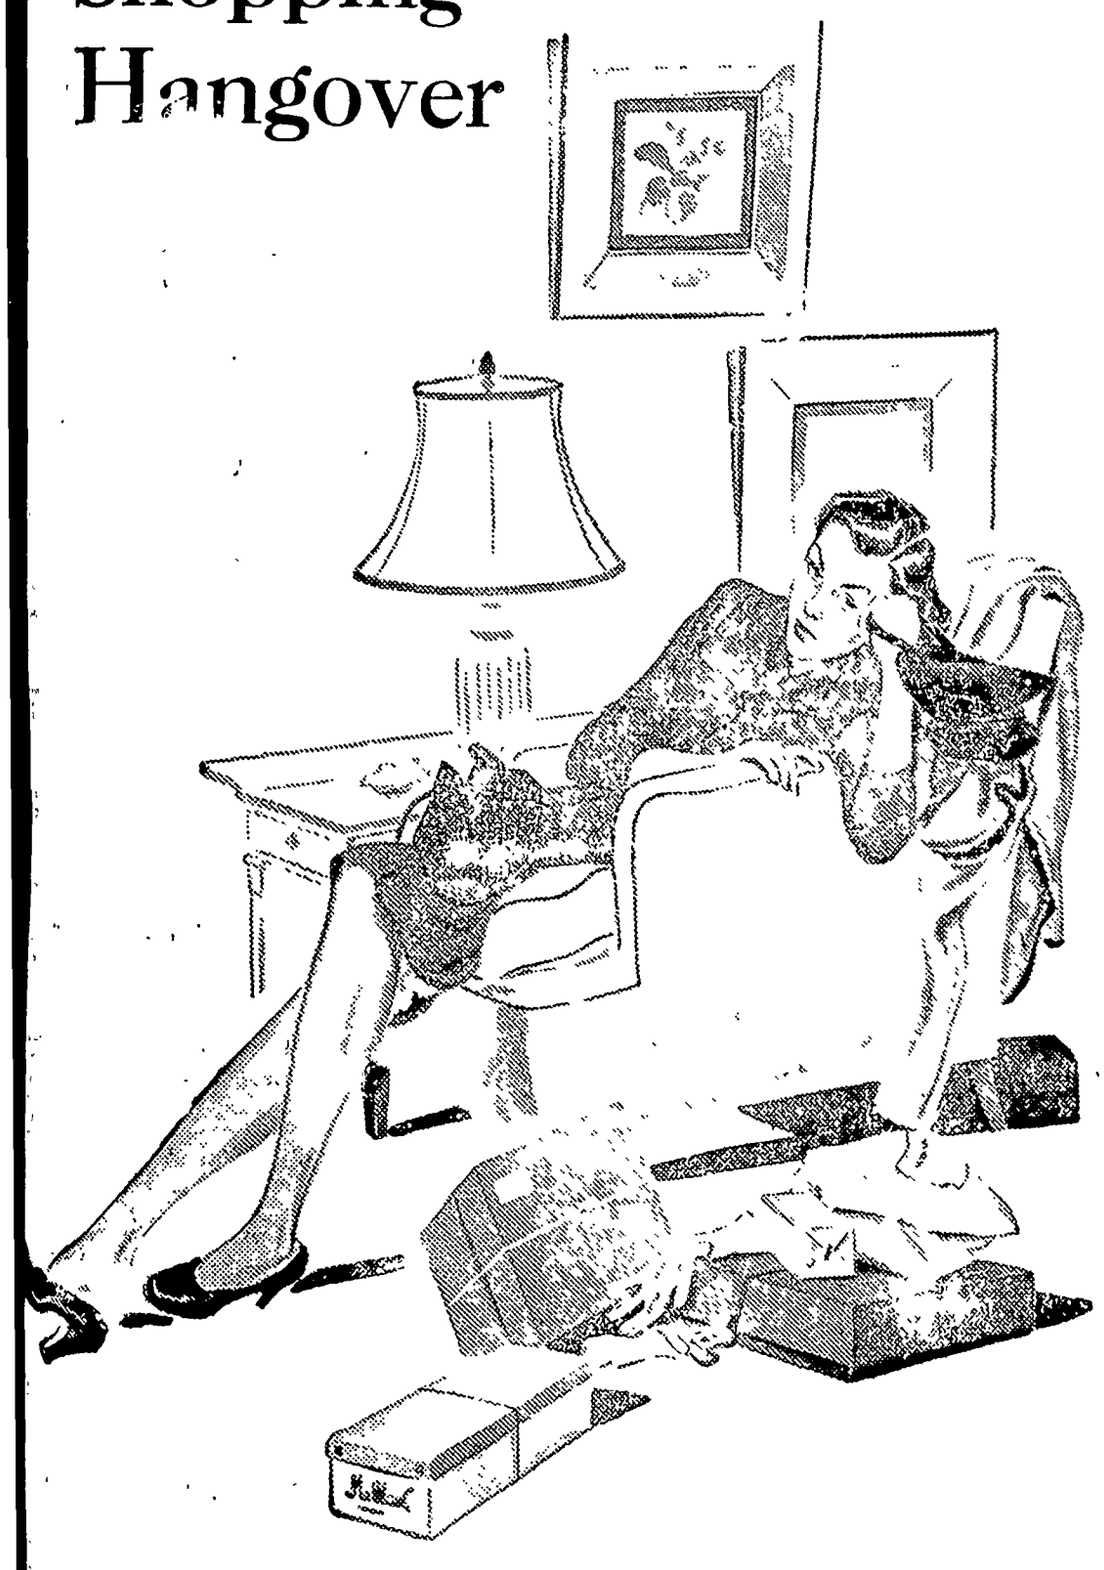
Shopping Hangover



SHOPPING is hard work at best—hard on the feet and hard on the pocketbook. Stores are crowded with holiday buyers, goods are still scarce, and bargains aren't always easy to find.

Except electricity! Lady, you don't have to stir one step outside your home to get a whopping big bargain in comfort and convenience—at low pre-war prices.

Electric service is always right at your fingertip—plentiful, dependable, ready 24 hours a day to lighten your household burdens and make your way of living more pleasant.

And it's cheap! As a matter of fact, the average family is getting just about twice as much electricity for its money as it did 15 years ago.

Yes, electric service is a rare household bargain. *But not by accident.* It's the result of the hard work and experience of the men and women in your company.

Nelson Eddy in "The Electric Hour" *with Robert Armbruster's Orchestra. Every Sunday, 4:30 P. M., EST, CBS.*

soning and sufficient milk to moisten. Cover and cook slowly, stirring only until milk is absorbed. Turn once and let other side brown slightly. Serve.

Meat pie is an excellent way of using up a cupful or two of that dried, leftover roast. Leftover carrots and potatoes go right into it for flavor and variety.

Meat Pie.
(Serves 6)

- ½ cup diced celery
- ½ cup diced onion
- ½ cup diced green pepper
- 2 cups cubed leftover roast
- 1 cup cubed leftover potatoes
- 1 cup peas (may be leftover)
- 1 cup gravy
- 4 slices dried bread, cubed

Brown celery, onions and green pepper in hot fat. Add combined meat, potatoes, carrots and peas. Add gravy and season to taste. Pour into a casserole and top with bread cubes browned in butter. Bake in a moderate (375-degree) oven for 30 minutes.

If desired, the bread slices may be omitted and the pie topped with biscuits or flaky piecrust. Cheese may be added to the biscuits for variety in flavor.

If bread crumbs become a problem, use them in a dessert with fruit as in Apple Brown Betty.

Apple Brown Betty.
(Serves 4 to 5)

- 1 cup buttered bread crumbs
- 3½ cups chopped apples or other fruit
- ½ cup honey
- 1 cup water

Mix all but ¼ cup buttered crumbs with apples and place in a deep, buttered dish. Bring the honey and water to a boil and boil 2 minutes. Pour over fruit and bread mixture. Sprinkle remaining crumbs over the top and bake 30 minutes in a moderate (370-degree) oven.

Sponge Cake Custard.
(Serves 8)

- 4 cups milk, scalded
- 3 cups dry sponge cake crumbs
- 3 slightly beaten eggs
- ¼ cup sugar
- ½ teaspoon salt
- 2 teaspoons melted butter
- 1 teaspoon lemon juice
- 1 teaspoon vanilla extract

Pour milk over crumbs and let stand until they are softened. Combine all remaining ingredients and add to crumb-milk mixture. Pour into greased custard cups or casserole and bake in a moderate (350-degree) oven for one hour. Serve with sliced bananas or jam.

If there's a bit of sour cream left, then use to advantage in the following recipe:

***Veal Chops With Sour Cream Gravy.**
(Serves 6)

- 6 veal chops
- 1 egg, beaten
- 1 tablespoon water
- Salt, pepper
- ¾ cup cornflake crumbs
- 2 tablespoons flour
- 1 cup sour cream

Wipe the chops. Dip first in beaten egg to which one teaspoon salt and one tablespoon of water has been added. Then roll in cornflake crumbs. Saute slowly in a heavy frying pan until browned. Cover and cook slowly for 20 minutes, turning occasionally. Prepare gravy by blending flour with ¼ cup drippings from bottom of pan, adding the sour cream. Season with salt and pepper to taste. Serve with veal chops and sauteed mushrooms.

Released by Western Newspaper Union.

Veterans' SERVICE BUREAU

EDITOR'S NOTE: This newspaper through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be adddressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.

New Veterans' Hospitals

Enlargement of the facilities of the Veterans' administration for more adequate care of returning disabled war veterans is getting under way with the announcement recently that locations had been approved for 19 new veterans' administration hospitals and additions to 15 existing hospitals to provide a total of 15,276 new beds for Veterans' administration patients.

These beds are a part of the 29,100 bed program approved by President Truman on August 4, and funds for the construction program are to be requested for the current (1946) fiscal year. The new hospitals are to be located at or near:

New Haven, Conn., Albany, N. Y., Buffalo, N. Y., Newark, N. J., Baltimore, Md., Washington, D. C., Gainesville, Fla., Clarksburg, W. Va., Louisville, Ky., Decatur, Ill., Duluth, Minn., Southern Minnesota, Iowa City, Iowa, Omaha, Neb., New Orleans, La., El Paso, Texas, Oklahoma City, Okla., Phoenix, Ariz., and Cincinnati, Ohio.

In the meantime, Gen. Omar N. Bradley, Veterans' administrator, has announced appointment of Dr. Paul B. Magnuson, associate professor of surgery at Northwestern university, to be head of the research and post-graduate training program in the veterans' hospitals throughout the country. Dr. Magnuson is considered one of the country's outstanding surgeons and orthopedic specialists.

Questions and Answers

Q. I was inducted in the army and served seven months when I was discharged on account of age. Four of us asked officers if they wished we would get out and they answered, yes. So we went to an employment office in Tacoma and received a slip saying we were more vital to the war industry than in the army and on those grounds they gave us a discharge. Now they tell us we are not entitled to mustering-out pay. At that time we knew nothing about mustering-out pay. Also am I entitled to a serviceman's loan.—C. H., Hammond ave., Superior, Wis.

A. Probably you are not entitled to mustering-out pay. It may be that you were discharged before mustering-out pay was adopted, and if not, you were discharged for your own convenience to take a job in war industry, and without overseas service, are not entitled to mustering-out pay. You are entitled to benefits of the G.I. bill, however.

Q. My husband joined the marine corps in June, 1942. He spent 18 months overseas, received 3 bronze stars and the presidential unit citation, but because his record book was late in arriving at the islands, he has not been credited with the bronze stars. How can this error be corrected? He has just been sent back to the Pacific with 57 points. I have been told all marines with 40 points would not be sent over again. He should be credited with 72 or 77 points. How can this be corrected?—Mrs. L. L., Carpenter st., Northville, Mich.

A. Any superior officer who knows your husband's record could correct his record insofar as the bronze stars are concerned, the marine corps says. It is true that it is the policy of the marine corps not to reship men with 40 points overseas. It is also true that your husband has more than enough points to make him eligible for discharge. The marine corps, however, says there are many reasons why he may have been shipped back for duty, one being, he may have requested overseas service. Suggest you write direct to the marine corps headquarters, Washington, D. C., and ask for details concerning your husband's record.

Q. Can a serviceman stop his allotment to his wife and child?

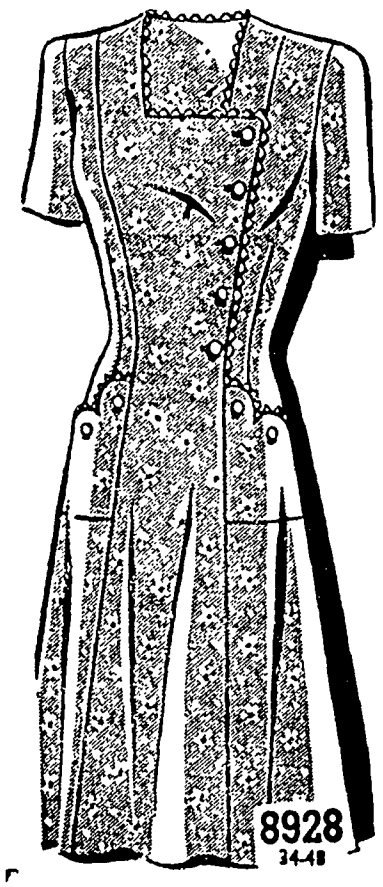
A. If you mean his family allowance, which is made up of equal contributions from the soldier's pay and the army, no, he cannot stop that. He can stop his allotment, which is a voluntary contribution of the soldier to his dependents over and above his family allowance.

Q. When they start discharging servicemen with two years of service will they include only those already serving two years or will it be effective for all when their two years are up?—Wife, Chelsea, Kan.

A. Under the present ruling, men in the army must be 35, 36 or 37 with two years service before they are eligible unless they have the necessary number of points. The war department says a new ruling may be in effect by midwinter to release all men with two years service, regardless of age.

SEWING CIRCLE PATTERNS

Slim Princess House Frock



HERE is a simple and very efficient looking house frock to start your day off right. The becoming square neck and side closing is edged with colorful ric rac, as are the scalloped pockets. Make it for afternoons too in flowered rayon or lightweight woolen.

* * *

Pattern No. 8928 is designed in sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36, short sleeves, needs 4¼ yards of 35 or 39-inch fabric or 3 yards of 54-inch; 2 yards ric rac.

Due to an unusually large demand and current conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

WELDER'S OVERALLS COME CLEAN QUICK

HUNTSVILLE, ALABAMA. — Mrs. Claude Buchanan wrote a letter to Faultless Starch that should interest every woman who has overalls in her wash. Here is what she said:

"My husband is a welder and wears overalls. He gets them so dirty and greasy. They come clean quick and iron so much better when I use Faultless Starch."

Now there is a way to save a lot of hard work scrubbing and scouring dirt and grease out of overalls. Give them a light starch with Faultless Starch! They iron up beautifully. They wash clean in a jiffy — and — they feel so smooth and comfortable to wear. Not rough and scratchy—no chafing!

SO EASY TO DO

It certainly is no hard job to give overalls that light starch-finish. Just use a very light starch solution. Dip in the overalls and run through the wringer. It's that easy! And once you try it and see how easy those dirty clothes wash clean you'll starch wash shirts, pants, children's play clothes—and everything that gets real dirty.

By giving these clothes light starch with Faultless Starch you do a lot to keep the dirt out. You see, Faultless Starch is made a special way to make it PENETRATE the fabric. It gets inside—and helps by keeping the dirt outside. When you wash, the starch dissolves instantly—and out comes the dirt!

So try it, this week. You'll be delighted with the hard scrubbing work it saves . . . and you'll like the way it saves the wear and tear on clothes, too. Be sure to ask your grocer for Faultless Starch!—Adv.

Frenchman's Procedure Really Quite Simple

Waiting for supplies to catch up with them, one of General Patton's armored units had rested a few days in a small French village. The citizens told the Americans that the most interesting thing in the town was a man one hundred years old with not an enemy in the world. An American officer thought this an unusual and beautiful thing.

"It is nothing of the sort," the interpreter contradicted him.

"But a man that old with no enemies, surely that is a feat," insisted the American.

"It is no feat," the Frenchman insisted. "He merely outlived all of them."

Mix This Cough Syrup at Home. Quick Relief

Easily Mixed. Needs No Cooking.

Here's an old home mixture your parents probably used. But, once tried, you'll always use it, because it gives such quick, pleasing relief for coughs due to colds.

And it's so easily mixed. Make a syrup by stirring 2 cups of granulated sugar and one cup of water a few moments, until dissolved. No cooking is needed. Or you can use corn syrup or liquid honey, if desired.

Now put 2½ ounces of Pinex (obtained from any druggist) into a pint bottle, and fill up with your syrup. This makes a full pint of truly splendid cough medicine, and gives you about four times as much for your money. It keeps perfectly, tastes fine, and lasts a long time.

You can feel this simple home mixture take right hold of a cough. It loosens the phlegm, soothes irritation, and helps clear the air passages. Eases the soreness, makes breathing easier, and lets you get restful sleep.

Pinex is a special compound of proven ingredients, in concentrated form, well known for its quick action on throat and bronchial irritations. Money refunded if it doesn't please you in every way.—Adv.

NEW PRINTING PRESS INSTALLED AT TIMES PLANT

The Times has installed another printing press which will be in operation in another week or two.

The new press is a Whitlock 2-revolution cylinder press adapted to printing fine book work, halftones, and will also be used for printing the Klemme Times on each week.

The publisher also expects to increase the size of The Times sometime in the future.

The new press is a necessity and will take care of the increasing amount of commercial printing that is being turned out in the plant.

KLEMME SCOUTS WILL AGAIN SALVAGE SCRAP PAPER

The Klemme Boy Scouts will again take over the job of salvaging scrap paper, after the Girl Scouts had taken care of this work during the summer months when most of the boys were working on farms.

The Scouts will make their first pick-up of scrap paper Friday afternoon of this week beginning at 3:00 o'clock.

OPA HITS FARM MACHINERY SCALPERS

Warns Farmers To Watch Machinery Racket

Black marketing in farm machinery in some sections of the state was laid at the door of scalpers and unauthorized dealers by Walter D. Kline, state OPA director in a statement issued this week. Kline stated that "The great majority of authorized farm implement dealers in Iowa are in compliance with price control regulations" and that the scalpers are the fellows who have been giving OPA and themselves trouble. Mr Kline cited some cases where new corn pickers, ranging in price from $500 to $900 have been sold by scalpers at $1,000 to $1,800. One tractor and picker combination with a ceiling price of $1,500, sold in western Iowa for $4,000. "The OPA will continue to prosecute violators of this type vigorously and if farmers will refuse to pay more than legal ceiling prices, the scalpers will soon be out of business," said Kline The OPA director emphasized that auction sales have given the OPA very little trouble so far as ceiling violations are concerned.

RESIDENT OF SAME NEIGHBORHOOD 68 YEARS

Thursday, December 6th was Bill Shlei's 73rd birthday anniversary

Mr Schlei came to Twin Lakes township when 5 years old and has lived continuously in the same neighborhood for 68 years. He can tell about pioneer life and the many hardships the early settlers faced when this part of Iowa was only a vast prairie.

KLEMME BUSINESS SECTION DECORATED

All "Dressed Up" For The Christmas Season

For the first time since before the War, Main street in Klemme's business section has been decorated for the Christmas holiday season.

Strings of colored electric lights have been suspended across the street from the post office to the Northern Lumber Company, and in the main block, evergreen festooning has been suspended across the street In all it is a very nice effect and the men who did the work are to be complimented for the good job

Christmas lighting was discontinued when the War Production Board asked all cities and towns to curtail lighting during the war years

Several of the stores have begun to do their individual decorating and lighting and Klemme is getting into the holiday spirit.

Our merchants have good stocks of items that make ideal Christmas gifts and the thrifty shopper will do well to shop in Klemme

YOUNG MARRIEDS STUDY FARMSTEAD DEVELOPEMENT

The Hancock County Young Married Group studied Farmstead Development and Landscaping with John Fitzsimmons, extension specialist, at their first meeting on December 4th

Mr. Fitzsimmons pointed out the necessity of doing some real good planning of the Farmstead in order to make the set up practically as a business unit and still have it a spot of beauty. He also pointed out the relation of the house to the other buildings and gave the group some concrete ideas on making the house and yard a more livable spot.

The next meeting will be in January at Britt. The committee in charge will be Mr. and Mrs. Wm Dewey. Mr. and Mrs. Gordon Schuber, Mr. and Mrs Bob Pritchard, and Mr and Mrs. Lewis Fisher.

AVOID MARKET GLUT ON HOGS WHEREVER POSSIBLE

Farmers again are reminded of the need for "topping off" their hog herds and getting the heavy ones on the market. Marketing specialists at Iowa State College say there is real danger of a hog market glut later in the year unless orderly marketing is followed.

Light hogs are coming to market from areas where corn supplies are getting low. These hogs may be a good buy for farmers in other sections of the state who have a lot of soft corn to feed Economists at Iowa State College feel that the light-weight hogs may make the soft corn feeders more money than high-priced steers.

GAME STORAGE PERMIT NEEDED AFTER DEC. 10

Hunters desiring to hold pheasants in cold storage after December 10 must secure a permit to do so, and ducks may not be held after December 18 without a permit Applications may be secured from any cold storage locker plant or by writing to the State Conservation Commission, Des Moines. Permits may not be issued by the locker plants however, but may be secured without cost from the Conservation Commission Under the Iowa statutes game may be held 10 days after the close of the open season without permit; however, under permit all game except migratory waterfowl may be held until June 30 ,1946. Federal statutes limit the storage period of ducks and geese to 90 days, or until March 8.

Game taken legally in other states and brought into Iowa may be lawfully held in possession for as long a period as is permitted in the state where taken The burden of proof is upon the person in possession of such game to show that it was lawfully killed and lawfully brought into the state. Such game should be properly tagged to identify it, and no permit is required for its storage.

RARE BIRDS FROM THE NORTH SEEN IN IOWA

During the past few weeks several species of rare far northern birds have been reported in the state, including goshawks, snowy owls and Richardson's pigeon hawk. Periodically such bird invasions occur, and generally cyclic declines of mice, lemmings and rabbits in northern Canada, principal foods of these birds of prey, are blamed for their wanderings.

Snowy owls, one of the largest North American owls, are white with dark barring. The goshawks are large, slate-colored birds and one of the most vicious predators on the continent. The extremely rare Richardson's pigeon hawk is a small bird that may easily be confused with the common, unprotected sharp-shinned hawk.

Patest Arrive In Tampa, Florida

A card dated Dec. 8 was received by the Times this morning:

"We arrived safe and sound in Tampa where it is nice and warm. Had snow all the way through Missouri and Mississippi. Have an apartment and do our own cooking."

Mrs. E. H. Patet,
209 Lee Street,
Tampa, Florida.

Wedding Invitations and Announcements correctly printed at The Times Office.

Lloyd Sherwood Heads Klemme Business Men For 1946

4-H LEADERS HELD TRAINING SCHOOL

There Is Real Art In Making Biscuits!

At a 4-H leaders training school, Mrs. Ruth Seaton Hicks, food specialist, demonstrated how only a few more than twenty to thirty strokes in mixing muffins resulted in a more soggy baked product.

In making twenty baking powder biscuits, Mrs. Hicks showed how cutting them in squares or diagonally required only eight motions with a knife, four vertical, and four horizontal. To cut twenty-five round biscuits with a biscuit cutter requires a minimum of one cut per biscuit or twenty-five motions. Then the scraps worked over into a few biscuits have a tendency to be less tender.

The leaders from nine clubs and three older club girls also had the opportunity of making corn bread and date nut bread under Mrs. Hicks' supervision.

The making of custards and cottage cheese were demonstrated and the value of dairy products in the diet discussd.

This information wil be passed on to 4-H club girls at their local meetings.

Yeast breads and variations will be the subject of the next training school to be held in February.

Mrs. Asa Gibbs Honored At A Post-Nuptial Shower Saturday

Mrs. Harry Gibbs entertained a group of ladies at a post-nuptial shower in honor of Mrs. Asa Gibbs on Saturday afternoon.

The afternoon was spent informally and a delicious lunch was served by Mrs. Gibbs.

Mrs. Asa Gibbs received many nice gifts from her friends

W. S. C. S. Work Circle Will Have Gift Exchange

The Work Circle of the Methodist W. S. C. S. will meet at the Church next week Thursday for an exchange of gifts and a Christma party.

Members are asked to bring a gift not to exceed 50c in value. A pot luck lunch will be served

Mrs. P. M. Wilson Is President Of Methodist W. S. C. S.

Mrs. P. M. Wilson was elected presidet of the Klemme Methodist W. S. C. S. at the meeting held on last Thursday.

Mrs. Wilson was elected to fill the vacancy caused by the resignation of Mrs. Dwight Hummel.

Methodist Study Group Will Meet Thursday Afternoon

The Study Group of the Methodist W. S. C. S. will meet with Mrs. Otto Lemke on Thursday afternoon. Mrs. Clarence Lemke is the co-hostess.

Wayne Pavey To Sing In Messiah Chorus Of Two Hundred

Wayne Payey, formerly of this place, is one of the 200 singers to take part in "Messiah" to be given at the Webster City high school gymnasium on Snday, Dec. 16.

A number of Klemme people are planning to attend the concert.

A check on the European corn borer increase in 44 counties in Iowa indicates that there were just about twice as many borers in 1945 as in 1944.

HELLO, FOLKS!

Mr. and Mrs. John Kaduce, Jr., are the parents of a baby boy, weight 8 pounds, born at the Garner Nursing Home Tuesday, December, 11, 1945. Name: Carroll Frederick. Mr. and Mrs. Art Knoke, grand parents, are quite elated!

BOARD OF DIRECTORS WILL FORMULATE PLANS

Plans Made To Meet Once Each Month To Take Care Of Business

A large and representative group of Klemme business and professional men met at the Community Hall Monday evening to re-organize the Klemme Civic Club which had not been very active during the war years.

Lloyd Sherwood was elected president of the organization for the coming year, with Dr. D. P. Anderson, vice president and Carl Finders, secretary and treasurer.

A board of five directors was chosen to assist and advise the officers in laying out plans for the coming year The men chosen on this board are Ed Jacobs, Ed. J. Thompson, W F Pavey, Glenn Bridges and C. G. Waterman.

The main object of the club is to make Klemme one of the best towns in North Iowa. The club plans closer cooperation with such other bodies as the school board, the town council, American Legion and Auxiliary, the volunteer fire department, Boy and Girl Scouts, the churches, United Service Women and any other organization, all working for the betterment of our Community A separate planning board with representatives from all of these various organizations will be set up later.

Because of the scarcity of candy this year, the Santa Claus day will not be held this year, as much as the club regrets it. But the men have promised they will make it up for the kiddies later on.

A new plan of financing will be put in force for the coming year, making a $10 assessment on each business place in town, and lowering the membership fee to $1.00 per year. Any person connected with a business, owner, or employee is eligible for membership, and all are urged to enroll.

Closing dates were also set for the coming year. Klemme business places will be closed all day on the following dates:

Dec 25, 1945, Christmas
Jan 1, 1946, New Year's Day.
May 30, 1946, Memorial Day.
July 4, 1946, Independence Day.
Sept. 2, Labor Day (optional)
Nov. 11, Armistice Day.
Nov. 28, 1946, Thanksgiving.
Dec 25, 1946, Christmas.

V-Day observation will depend on the action of our state and national governments.

MISS ZELDA CONKLIN WEDS SGT. HARRY CONN

Mr and Mrs. C .H. Conklin of Goodell, announce the marriage of their only daughter, Zelda Winnifred, to Sgt Harry Conn, son of Mr. and Mrs. R. L. Conn of Winamoc, Indiana. Capt. John Meyer, Jr., army chaplain, performed the double ring ceremony Nov. 22 in the Methodist chapel at Hays, Kansas.

They were attended by Sgt. and Mrs. Douglas Hammond of Los Angeles, Cal

The bride is a graduate of the Goodell high school, attended Iowa State College, Ames, and is a graduate of A. I. B. in Des Moines. She will continue with the World Insurance Company in Denver, Colorado, where she has been employed for 3 years, as the bridegroom is in the service and is stationed at Hays, Kansas.

Mrs. Tom Blank Observed Her Eighty-Fourth Birthday Dec. 8

Mrs. Tom Blank celebrated her 84th birthday anniversary on December 8th.

Besides her daughter Marie, who is at home with her father and mother, Mr. and Mrs. Worthy Usher of Rowan; Mrs. Quandt and Mrs. Ahrenkeil spent the evening with her.

WEEKLY NEWS ANALYSIS

Auto Industry Faces Tieup In CIO Demand for Pay Increase; Trace Nazi Moves for Conquest

Released by Western Newspaper Union.

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Lean and sober, Hermann Goering (left), Rudolph Hess (center) and Joachim Von Ribbentrop go on trial for war crimes at Nuernberg, Germany.

STRIKE:
Showdown

The CIO's demands for a 30 per cent postwar wage increase to maintain high wartime "take-home" pay came to a showdown when 175,000 members of the United Automobile Workers struck against General Motors corporation, No. 1 producer in the industry.

With labor's biggest union locked against the nation's greatest operating company, observers looked for a long-drawn battle between the two participants, with federal conciliator John W. Gibson expecting a settlement by January 15 or probably before. Against G.M.'s huge resources, the UAW reported possession of a $4,000,000 strike fund, with rumors that the union was preparing for a winter-long siege.

Though original UAW plans called for a walkout only at G.M. plants under a new strategy which would hit at one company at a time and permit free operation of their competitors, the reliance of all other manufacturers except Ford upon G.M. for parts threatened to cripple the whole industry when supplies ran out or new sources could not be found. Meantime, UAW held negotiations with Chrysler and Ford over the pay issue.

UAW's decision to strike at G.M. followed the collapse of bargaining between the two parties, during which the union turned down the company's offer for a 10 per cent raise predicated upon the possibility of price increases for new cars. Under new OPA regulations, costs of new G M vehicles will be about 2 per cent below prewar figures

Countering the UAW's demand for a 30 per cent wage increase, G.M. declared that production workers are earning from $1.12 to $1.15 per hour, with the over-all plant average at $1.18 per hour. If UAW demands were met, the union asserts, the production wage would be boosted to $1.46 per hour, with an over-all average of $1.53 per hour.

As the strike began, G.M. continued to pay its 73,500 office and administrative personnel.

WAR CRIMES:
Trace Nazi Rise

Declaring that high Nazis' own written records would furnish sufficient evidence to condemn them, U. S. Prosecutor Robert H. Jackson developed the first count in the Allied case against the 20 surviving members of Hitler's hierarchy, charging that the party's seizure of control in Germany constituted the first step in its plan of world conquest.

Addressing the four-power U. S, British, Russian and French court, Jackson declared: "We will not ask you to convict these men on the testimony of their foes. There is no count in the indictment that cannot be proved by books and records. . . . These defendants had their share of the Teutonic passion for thoroughness in putting things on paper."

In tracing the evolution of the Nazi rise in Germany, the U. S. prosecution recounted the notorious blood purge of 1934 reportedly instigated by Reich Marshal Goering to crush opposition within the party; the elimination of all political groups and confinement of opponents in concentration camps; the gradual suppression of labor unions with the industrialists' connivance, and finally the control of business itself.

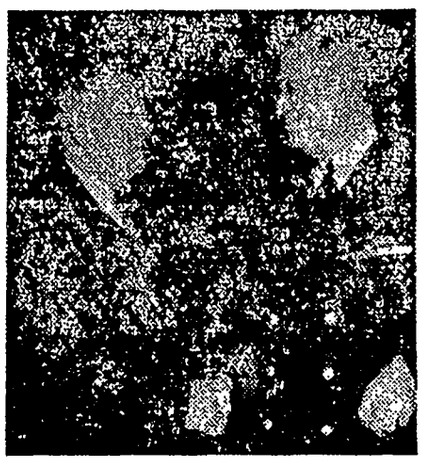
The trial got underway as the Allied court turned down the defense attorneys' protest against the validity of the proceedings. Asking that an impartial opinion concerning the legality of the court be solicited from authorities on international law, the Nazi counsel asserted that the U. S. had always insisted that in cases of international arbitration or jurisdiction, the bench be filled by neutrals or representatives of the interested countries.

Most aggressive of the defendants, Goering was gavelled down as the trial opened and he attempted to deny the authority of the court, asserting that he was responsible only to the German people.

PEARL HARBOR:
Star Witness

One of the star witnesses at the early congressional hearings in the Pearl Harbor catastrophe, big, bluff Adm. James O. Richardson, who commanded the U. S. navy up to February, 1941, revealed that the late President Roosevelt favored the anchorage of the Pacific fleet at Hawaii over his objections in the hope of restraining further Jap aggression.

"I stated that in my opinion the presence of the fleet in Hawaii might influence a civilian political government," Richardson said, "but that Japan had a military government which knew that the fleet was



Senator Barkley (left) greets Admiral Richardson at Pearl Harbor probe.

undermanned, unprepared for war, and had no . . . supply force . . . without which it could not undertake active operations . . ."

Listing his objections to stationing the fleet at Pearl Harbor, Richardson said there would be difficulty transporting supplies to the base; the site lacked security; operations were handicapped by problems of entry, berthing and departure of large ships; surface and air space was congested and restricted, and full demobilization could only be accomplished on the west coast.

Relating a conversation with Mr. Roosevelt, Richardson said that the President told him that though he doubted that the U. S. would enter the war if the Japanese attacked Thailand, the Dutch East Indies, Malaya or even the Philippines, he expected that sooner or later they would make a fatal mistake opening hostilities.

In October, 1941, Richardson said, Secretary of the Navy Knox summoned him to an important conference at which he outlined President Roosevelt's plan for a shipping blockade of the Japanese in case they reacted to the reopening of the Burma road supply line to China. According to Richardson, the operation called for posting a cordon of U. S. warships from Hawaii to the Philippines and thence from Samoa to the Dutch East Indies. Since the Japs took no belligerent action, however, the plan was dropped.

PEACE PATTERN:
Bishops' Report

Following closely upon their qualified endorsation of compulsory peacetime training, the Catholic hierarchy of the U. S. called for the realistic adjustment of fundamental differences between the democracies and Russia through recognition of fair play so that an atomic World War III might be avoided.

Demanding a realization of the ideals for which Americans fought in World War II, the bishops deplored the trend of European affairs following the Moscow conference of 1943, claiming Russia since had adopted an independent course on many matters and sought to impose its domination over helpless neighboring states.

Besides calling upon the U. S. to provide full support for overseas relief, the bishops also assailed mass vengeance upon the defeated nations, large-scale transfer of populations, systematized use of slave labor and cruel treatment of prisoners of war.

AIR ACCIDENTS:
Dangerous Trend

In offering civilian aviation interests the full co-operation of the army air forces for promoting safer operations, Col. George C. Price, chief of the office of flying safety for the AAF, predicted a heavy future accident toll unless current trends were reversed.

Declaring that civil air accidents since V-J Day to October 31 were 70 per cent greater than in the same period last year, Price said that with 300,000 planes in the air in the next five years there might be 48,000 serious crashes and 5,000 fatalities annually in the early 1950s.

Though flying mishaps in the army took 26,000 lives and destroyed 22,000 planes during the war, the accident rate was lower than it had been during peacetime, Price averred. Army safety experience would be gladly offered to civilian agencies to minimize flying hazards, he said.

Increase Production

Agriculture, manufacturing and public utilities reduced manpower by 50 per cent per unit of product during the 40-year period ending in 1939, the National Bureau of Economic Research revealed after a comprehensive study During the same time, total output of all industry was increased by 200 per cent, with only 75 per cent more workers employed. In declaring that the figures did not indicate the real decline, the bureau said that they failed to reflect the improvement in the quality of the product.

AMERICAN LEGION:
Take Stand

Ending its 27th annual convention in Chicago, Ill., with all of the characteristic hi-jinks, the American Legion took its stand on the leading controversial national questions of the day, demanding:

- One year of compulsory military training for all youths, with adequate basic training and either advanced technical or scientific instruction, when qualified, or further schooling in ROTC units.
- Retention of the secret of the atom bomb and the establishment of a civilian board for scientific research in military material.
- Financial assistance to friendly foreign countries not imposing trade restrictions and then for constructive purposes only.
- Unification of the army, navy and air forces into a single command.

Following election of former Gov. John Stelle of Illinois as national commander, the Legion honored two World War II vets as vice-commanders, Fred LaBoon of Chickasha, Okla., and Dudley Swim of Twin Falls, Idaho.

MASS TRANSFER:
Move Germans

Because of agitation within the countries governing their areas of residence, millions of Germans will be shifted to the amputated reich this winter despite a lack of fuel and rolling stock needed to transport them.

In all, some 6,000,000 Germans are to be moved from Poland, Czechoslovakia, Austria and Hungary by next summer, with the U. S. occupation zone receiving 3,200,000; the Russian, 2,750,000; the British, 1,500,000, and the French, 150,000. Disposition of another 6,000,000 Germans from East Prussia and other former sections of the reich has yet to be determined.

Allied determination to resettle millions of Germans in midwinter followed previous denunciations of forced mass migration from many quarters, Winston Churchill, for one, rising in commons to protest against such action because of the tremendous dispossession of property, privation and suffering involved.

Science Today . . .

New fabrics from chemistry, even to a cloth from grass and possibly a rayon from seaweed, strongly suggest that we are witnessing a large-scale revolution in textiles, the American Chemical society journal declared.

The host of new synthetic materials includes new satins and silk-like fabrics for evening gowns and lingerie, soft nylon threads for wool-like socks and sweaters, and Vinyon with 100 per cent recovery after stretching.

Warn Against Postwar Credit Boom

Dangers of a postwar "boom and bust" will be much increased if installment credit is opened up to excessive expansion, warns a report from the family economics bureau of Northwestern National Life Insurance company.

With an enormous backed-up demand for goods and services, and over 100 billion dollars in consumer cash savings overhanging the market, the additional stimulus of overliberal installment credits can be very dangerous, the report says, adding that excesses of consumer credit have puffed up previous booms.

Total consumer credit reached a record height of 9½ billion dollars in the fall of 1941, of which approximately 6 billions was installment credit.

The Washington MERRY-GO-ROUND
DREW PEARSON

EISENHOWER—DEMOCRAT OR REPUBLICAN

WASHINGTON. — When Admiral Dewey returned triumphant from capturing the Philippines in the Spanish-American war, newsmen asked the conquering hero whether he was a Democrat or a Republican. The admiral wasn't quite sure which. That ended the Dewey boom for President.

Today, Gen. Dwight Eisenhower may be put in the same position as Admiral Dewey. Both parties are considering new blood for 1948. GOP leaders are convinced that, given a candidate who can win labor votes yet not alienate the Hoover conservatives, they can win. Obviously, Eisenhower is important presidential timber.

Popular impression is that Eisenhower is a Republican. He was appointed to West Point from the rock-ribbed Republican state of Kansas by GOP Senator Joseph P. Bristow. And nobody in those days could get anywhere in Kansas unless he was a Republican.

However, though it may be news to GOP leaders, Dwight Eisenhower put himself on record early in life as a Democrat. Furthermore, he was an energetic William Jennings Bryan Democrat, and in November, 1909, made a speech at the annual Democratic banquet held in Abilene, Kan. The other speakers were older and seasoned Kansas Democrats; but Dwight Eisenhower, then only 19, was picked to stand up with them and harangue the crowd. He did.

IKE'S OLD FRIEND

I am indebted for this information to J. W. Howe now of Emporia, Kan. Howe not only published the Abilene News, but was a member of the school board and knew young Dwight better than anyone outside his own family.

The Abilene News office was headquarters for a group of high school boys who came there to discuss their problems, talk sports and politics, read the papers and do odd jobs for the paper. J. W. Howe says of Eisenhower:

"Dwight liked to read the exchange newspapers from out of town. He never complained about working, seeming to take that for granted. In school discussions, he was always for the under-dog and contended we needed a somewhat better distribution of wealth."

William Jennings Bryan at that time had made many speeches in Abilene and the young folks liked to hear him In fact, Bryan made some definite inroads on the republicans. The Republican party at that time was beginning to be split into two groups, led by Taft and Teddy Roosevelt. The fight in Abilene was bitter, and this was the situation when Dwight Eisenhower started out in 1909 to get the proper endorsements to enter West Point.

DWIGHT GOT TO WEST POINT

The Eisenhower family had no political pull — on the contrary. Dwight's father was listed as a Democrat, though he took little part in politics. Dwight himself was more active than his father, but whatever pull he had was with the Democrats. However, the factional Republican fight helped him. Editor Howe, the town's chief Democratic leader, advised Dwight to go get the endorsement of Phil W. Heath, editor of the Abilene Chronicle and spokesman for the "Square-Deal" Republicans; also to get the endorsement of Charles M. Harger, editor of the Abilene Reflector, spokesman for the "Stand-Pat" Republicans.

Since young Eisenhower was not allied with either faction, Heath and Harger were very friendly, and gladly gave him their support. Thus, he was able to obtain not only the endorsement of the Democrats, but of both Republican factions—a real compliment to his standing in the community.

Eisenhower's first and only venture into politics occurred while he was taking postgraduate work at the Abilene high school, preparatory to West Point. Chief speaker at the Democratic banquet was George H. Hodges, later governor of Kansas. Dwight's subject was "The Student in Politics."

Two themes ran through the speech of the 19-year-old future commander of the Allied armies in Europe—preparedness and helping the under-dog.

According to the Abilene News:

"To say that he handled himself nicely would be putting it mildly. His speech was well received."

A few months later, Ike Eisenhower was in West Point, where no one is supposed to be either a Democrat or a Republican.

EISENHOWER MERRY GO ROUND

In high school, young Dwight was called "Ugly Ike." . . . One day a gang of schoolboys trooped into J. W. Howe's editorial offices to narrate how Ike fell off a horse. "The horse turned his head to knock off a fly and Ike just fell off," they said. . . . Dwight had come in walking on one leg and guarding his arm. He just grinned. Actually, the horse had stepped in a hole and fallen, but Ike never tried to explain it to the other boys. . . . The Eisenhower gang at school had odd traits.

CLASSIFIED DEPARTMENT

HELP WANTED—MEN, WOMEN

WANTED: Registered nurses, practical nurses. Also a young to middle-aged, ambitious, temperate, and neat appearing gentleman for work in a strictly modern thirty-bed hospital. All permanent positions. Pleasant surroundings and good pay. Call or write C. C. HARKEN
Harken Hospital - Osceola, Iowa.

Good Fields Look GOOD From the Air!

Looking Down on the Land

The Fellow in the Airplane Above Quickly Surveys Your Farm!

By EDWARD EMERINE
WNU Features.

WE WERE a few minutes out of Kansas City, and the C-47 transport plane s gliding along at about 160 les an hour, some 2,500 feet ove sea level. The rolling ds of eastern Kansas lay low us.

"Notice the erosion down re, Art?" I asked the man sit- in the bucket-seat next to .

"Yes, I do," he replied quick- "Pretty bad on some of those ms, but look at the ponds, the racing and contour farming others."

he mission was a press flight, "Art" was Arthur V. Burrowes, or of the News-Press, St. Joseph, . At the time I was a public rela- s officer with the Air Transport mmand A group of radio and ss representatives was being n to Abilene for the homecom- celebration for General of the mies Dwight D. Eisenhower. A of us were looking out of the ne's windows, surveying the soil uation as we sped through the .

Like many others, Editor Bur- es is interested in conserving the h soil of northwest Missouri and rtheast Kansas. The city of St. seph, with its stockyards, pack- plants, cereal mills and rows of siness houses, depends on that il. Art Burrowes writes editorials out it, gives space for news sto- s and pictures that tell about eping that good earth from going n the Missouri river, into the ssissippi, and on down to the Gulf Mexico to build a greater delta re. He was that day seeing his ored country for the first time n the air.

Take 'Mental Photographs.'

But for the past four years or re, while bombers and fighters e circled overhead and crossed e 48 states, American youths in ose planes have been looking down n American cities and farms. With acticed eye they've taken mental otographs of hills and valleys, gul- s and mesas, plains and moun- ns, rivers and lakes. As they ained to be pilots, navigators and mbardiers, they also learned out America.

"I'm going to buy a farm when e war's over," a young pilot told . "But I want to fly over and k at it first."

I knew what he meant. He want- to see the colorations of the soil, e yellowish patches where the soil as thin, the darker shades of red d brown, and finally, the black, h bottoms. He wanted to see how uch of his farm would be good land d what percentage would be poor. a minute's flight over the farm could see every gully, locate ev- y pond, and view every effort at l conservation.

That pilot had seen soil all over erica, from the Everglades of rida to the hills of New England. had seen rocks sticking up out of lds in Virginia and had battled red st over Oklahoma. He had flown er denuded hills of Alabama and orgia and traced the missing soil the marshes down near the ocean.

Up in the air the story of the land told graphically and quickly. The art spread out below hides noth- g and reaches from coast to coast, om border to border. The vari- lored soils admit their worth. The tent of damage by a forest fire is ewed within minutes. An Ohio riv- flood, lashing out to destroy or rry away man's home and food, ll take only a few hours to cover an airplane. Houses, livestock d debris floating down the stream do not make a pretty sight, but hun- dreds of fliers have seen it.

Years ago I flew from Scottsbluff, Neb., over the North Platte valley in a small biplane. There were uncov- ered fields where potatoes and beans had been grown, and the wind was whipping up dust to be carried away. But southwest of Mitchell, I noticed something else. Where the Hall Brothers had used strip-farm- ing for their wheat growing, the dust wasn't blowing!

Abandon Ranch.

It was in 1936, after the "dust- bowl" years, that I talked to an old friend, R. T. Cline, at Brandon, Colo., inquiring about acquaintances of other years. How is the Rupp family? It was my question.

"They left their ranch," Dick Cline told me. "They moved to the Arkansas valley and have a filling station, I think. So much dust cov- ered the range they couldn't run cat- tle any more."

Recently I flew over eastern Colo- rado, and the range looks good now. Maybe the Rupps are back on their ranch.

About 10 years ago I visited my Uncle Ira, who lived on my grand- father's old farm between Carrsville and Hampton, in Livingston county, Kentucky. We walked over the hilly farm.

"It should have been terraced years ago," Uncle Ira admitted. "It could have been done. There was a big wash right here, for instance, but I kept filling it in with brush and trees and stuff. Not a trace of it left now, see?"

I've never seen that old farm from the air, but thousands of American fliers have looked down upon it. I think I know how it looks from up there.

Several aviators I've known are concerned about erosion in America. Don't expect them to join Friends of the Land, or write about conserva- tion with the skill of Louis Brom- field; but they're concerned about it just the same. One of them who had flown over the Sahara and Gobi deserts remarked that there were no Chicagos or New Yorks in those places. He might have added that there were no Ford or General Mo- tors factories there either.

I am not a farmer, no more than I am a pilot. For three years I rode around in planes while I was in the army, but I'm just a news- paper man with a rural background.

The first erosion I ever saw was on our homestead ranch near Calhan, Colo. The settlers planted trees for a windbreak, and I chased tumble- weeds for sport.

The Honorable Robert G. Sim- mons, now on the supreme court of Nebraska, used to be a representa- tive in congress. I've heard a lot of his speeches, but the most im- pressive thought he ever uttered was, to me, something like this:

"Nebraska has no mines, no oil wells," said Bob Simmons. "Ne- braska's wealth is eight inches of top soil."

Early in the New Deal, a shelter belt was suggested. It was to be a grove of trees from the Canadian border to the Rio Grande. It was laughed at until it was abandoned. But I'm not so sure it wouldn't have been a good thing.

Gigantic Windbreak.

My reason for believing in a shel- ter belt is the Halsey National for- est at Halsey, Neb. Out in the mid- dle of an arid country is a beautiful pine forest covering 30,000 acres, a gigantic windbreak which conserves the soil and builds it up year after year. I can imagine such a forest extending across the United States, and it doesn't look silly to me!

Soil erosion is everybody's busi- ness, I think. The banker, the doc- tor, the merchant—all are affected as much as the farmer. Some two billion people in the world depend for their livelihood on that thin skin of top soil spread over the earth.

Erosion Shows Its Colors.

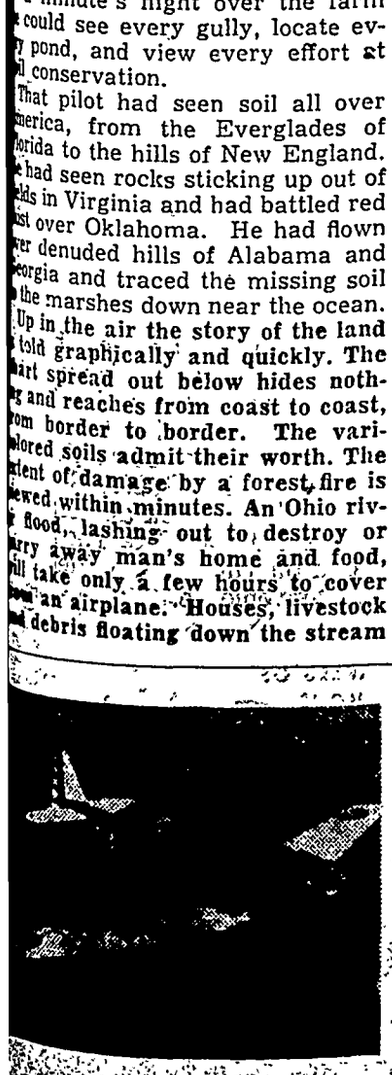
Many believe that 140 million people in the United States should be a little concerned over soil loss and destruction. In any event, it shouldn't be left entirely to the farmer to combat wind, water, fire and overcropping.

See It for Yourself

Many towns and cities are using aerial surveys in their postwar plan- ning. Traffic, smoke, zoning, park planning and other civic problems can be surveyed from an airplane, many times more advantageously than from the ground. And always it is a thrill to fly over your own house and yard, to look down on the little spot you call home! But it is the vast farms, ranches and ranges that make the greatest aerial panorama. See for yourself. Get a "sky-view" of the land you think you know so well. You'll like it.

The next time you ride in an air- plane, look out at the technicolor soil map below you, stretching miles and miles for you to study. Look particularly at the acres of poor, de- nuded soil, yellowish and impotent.

And remember that your food, even the meal the airline's hostess has just served, came from the soil below you.



Looking Down on Texas From a BT-14

Thousands of men who trained with the AAF at Randolph Field will remember the BT-14, the plane from which they first surveyed Tex- as from the air. The BT-14 allowed an unobstructed view of the land- scape below, and many of the stu- dent pilots wondered just how soft those fields really were in case they had to make a landing on one of them.

Randolph Field has long claimed to be Uncle Sam's "West Point of the Air." One of our permanent air fields, Randolph greatly increased its training as early as 1940. The service records of most pilots, young or old, will show a tour of duty at Randolph Field. Training will con- tinue at Randolph for AAF person- nel, even though the war has ended.

Many other types of planes were used, and are being used, at Ran- dolph for both basic and advanced training.

ALARMING REACTIONS TO FOOTBALL FLASHES

Elmer Twitchell, red hot football enthusiast, is near his annual grid season collapse. He can't stand the strain of those football battles. Not that he goes to many games. He sees few in the bowls. What ruins Elmer are the newsreel movies.

—*—

He can sit quietly through most movies without any impulse to join the players on the screen, but foot- ball scenes get him. Just flash on those views of two big teams tear- ing up and down the screen and Elmer goes berserk. He rips off his coat the moment a game starts. (Lately he has taken to wearing a heavy sweater and perhaps wrap- ping himself in a blanket. How he loves to throw them off and gallop down the aisle!)

—*—

Last night the big game suddenly flashed on the screen between two big features. With only 10 yards to go for a touchdown a player dropped the ball and it rolled over the side- lines and clean out of the movie. Elmer thought it went into the third aisle. He sprang from his seat and went for it.

—*—

He came up with a felt hat, a handbag and a bag of potatoes be- longing to a Long Island movie ad- dict, reversed the field and seemed about to make the most sensational run of the year when thrown by the house policemen and a violin- ist.

—*—

There is something to be said for Elmer. Those movie flashes of epic contests are hard to follow. Half the time we are not sure whether the action moves closer to the photog- rapher now and then or whether it's vice versa. And it is our conviction that the football episodes frequent- ly get mixed up with the episodes in the double feature picture.

* * *

LINES AFTER STUDYING

What's become of that old beaver
That my father used to wear?
It was tall and rather battered;
Of hard knocks it had its share;
Oh, for years it had been missing,
But it's back among us now,
And this season sees it perching
Over mom's and sister's brow.

Father wore it but to weddings
Or when greeting folks of fame;
It was not worn on the bias—
Comedy was not his aim.
But now mother has no scruples—
And her mirror seems to please,
As she puts it on her noodle
When her milliner decrees!

Mom may cut it down, extend it,
Doll it up with things galore,
But she never can deceive me—
It's the plug hat father wore;
And this is my firm conclusion:
Though she wears it with aplomb,
It looked better on my old man
Than it ever looks on mom!

* * *

PLANET JOTTINGS

H. Truman, the former hatter, saw his lawyers recently. He wants to sue the fellows who sold him the idea of taking a nomination for vice president on the ground it would be just an honor.

* * *

German war criminals posed for a group picture the other day. It should be a big help in convicting them on all counts, even if re- touched a little.

* * *

Things have taken a turn for the worst. Peace has broken out in China, Java, Palestine, Cairo and other points. Folks are trying to get the White House to issue a radio statement assuring them it will not spread to America.

* * *

Robbers broke into the General Motors plant recently but as what they wanted to steal was a new auto they left empty handed.

* * *

Stocks are soaring on the best bad news in years from all points. Nothing can stop the rise but pros- perity.

* * *

OH BOY!

Senator Salstonstall of Massachusetts comes out with praise for Indian pudding as the tastiest dish in America, and how this warms our heart! It is years since we had any, and yet the memory of this golden dish makes our mouth water. "Injun meal," we called it back home. It was made into a sort of pudding the night be- fore and put away to "set." Then in the morning Mom carved it into strips about a quarter of an inch thick—maybe closer to a half—and fried it on the kitchen stove. We can still hear it sputtering and see it in all its golden glow as we poured maple sirup on it and went to town. What's be- come of it?

* * *

Radio is 25 years old. This makes it still too young to give the right answer to its outstanding question, "Are you over 35. . . .?"

—*—

It seems only yesterday that there was no radio at all and we could think of a pill, ointment or cigarette without associating it with any crooner or comic.

* * *

A British plane has done 606 miles an hour. When doing less than 400 it is considered parked.

IMPROVED UNIFORM INTERNATIONAL

SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Of The Moody Bible Institute of Chicago.

Lesson for December 16

Lesson subjects and Scripture texts se- lected and copyrighted by International Council of Religious Education; used by permission.

EXALTING CHRIST IN THE LIFE OF THE NATION

LESSON TEXT: Isaiah 9:2, 3, 6, 7; Luke 1:26-33.

GOLDEN TEXT: For unto us a child is born, unto us a son is given: and the government shall be upon His shoulder: and His name shall be called Wonderful, Counsellor, the Mighty God, the Everlast- ing Father, the Prince of Peace.—Isaiah 9:6.

Christmas is coming! It should be a blessed and delightful time this year. But do not fail to ask your- self, What is its true meaning? Why did Christ come? So that we could feast and celebrate? Surely not. He came first of all to be a Saviour; but do not forget that the Saviour is also the King of kings.

When Jesus came, His people Is- rael were practically without a gov- ernment. They were a subject peo- ple under the rule of Rome. Their national life was in ruins; dark- ness had settled over their land, and there was both national and spiritual darkness. Christ came as their King, as well as the Light of the world. True, they rejected Him, and His kingdom is now in abeyance until He comes again to reign. One of these days He will come!

I. Darkness—but the Light Is Coming! (Isa. 9:2, 3).

When Jesus came there was deep darkness in Israel; there was no king. National honor and glory were at low ebb. Religious leaders had lost their spiritual vision and zeal. They were going through the form of godliness but denying its power. Read the book of Malachi for a picture of their desolation.

Then Jesus came, and the great- est Light of all time shone forth in the darkness. He was and is "the light of the world" (John 8:12). They that followed Him did not stumble in darkness (John 9:5; 11: 9). How sad that they received Him not (John 1:11)! The reason? They loved darkness rather than light (John 3:17-21).

There is much darkness in our world today. We need the light of Jesus in national life, as well as in individual life. When will the na- tions of the earth recognize Him as the only One who can truly lead them through the darkness?

Military leaders, educators, and scientists are saying in our day that there must be a spiritual rebirth of the peoples of the earth if we are not to have another war which will destroy everything. No mere re- vival of "religion" will do it. We must have Jesus, the Saviour and the Light!

II. Chaos—but a King Is Coming (Isa. 9:6, 7).

We have already suggested that Isaiah's prophecy came at a time of chaos in the affairs of the nation. Would they ever have the order and dignity of a nation again? Who was to be their king? What kind of lead- er would He be? Our verses give the answer.

Seven hundred years before Christ came, the prophet presented a glor- ious, detailed picture of the coming One. He was to be born as a Babe —a Son—but the "government shall be upon his shoulder."

What kind of King is He? His names reveal Him.

"Wonderful"—that word has been so misused that it means compara- tively little to us. It really fulfills its true meaning in Christ. He is unique, remarkable, yes, truly wonderful. "Counsellor"—in every detail of life, great or small, an infallible Guide. "Mighty God"—not just like God, or representing God; Christ is God. "Everlasting Father"—the tender and loving, unfailing One to whom time brings no change, for He is the "Father of eternity." "Prince of Peace"—He is not yet the Ruler of the nations of the world, hence we hear not only of wars but of rumors of wars. Mark it well that there will be no enduring peace until He comes to reign whose right it is to reign, the divine Prince of Peace.

III. Jesus Christ—the Light and the King (Luke 1:26-33).

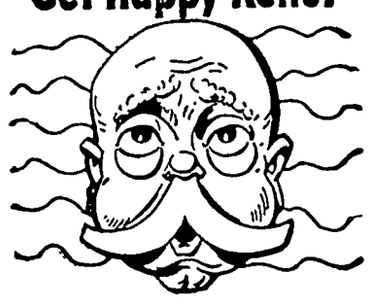
If Christ is to be honored in the life of any nation, yes, of our na- tion, He must first be recognized as the Son of God, the Lord of glory, the everlasting King of kings.

We need to emphasize that fact now when both military and politi- cal leaders are talking about the need of spiritual revival to save the world. Let us be sure that they mean more than just to pay formal recog- nition to a great man and a distin- guished moral teacher. He is the Saviour, and there is none other (Acts 4:12).

Note the marvelous fulfillment of prophecy which actually took place in the coming of Jesus. Isaiah (7: 14) said He was to be born of a virgin. He was (v. 27)! He was to be the Son of God (Ps. 2:7). He was (v. 32)! And so on through all the detailed prophecies of His birth.

We celebrate the fulfillment of these prophecies at Christmas time. Let us be reminded that there are hundreds of prophecies that He is to come again. Let us believe them, and look for Him. He is the hope of this poor world!

How Sluggish Folks Get Happy Relief



WHEN CONSTIPATION makes you feel punk as the dickens, brings on stomach upset, sour taste, gassy discomfort, take Dr. Caldwell's famous medicine to quickly pull the trigger on lazy "in- nards", and help you feel bright and chipper again.

DR. CALDWELL'S is the wonderful sen- na laxative contained in good old Syrup Pepsin to make it so easy to take.

MANY DOCTORS use pepsin prepara- tions in prescriptions to make the medi- cine more palatable and agreeable to take. So be sure your laxative is con- tained in Syrup Pepsin.

INSIST ON DR. CALDWELL'S—the fa- vorite of millions for 50 years, and feel that wholesome relief from constipa- tion. Even finicky children love it.

CAUTION: Use only as directed.

"SNAPPY FACTS about RUBBER

Special sponge rubber table- cloths, developed by B. F. Goodrich, attached to tables in factory assembly lines en- able assemblers to pick up small metal parts without fumbling.

Officials predict that tire produc- tion may jump to nearly 4,000,000 passenger car tires a month during the last quarter of 1945.

Spare tires should never re- main idle until other tires are worn out. Rubber needs to be "exercised" to keep it in best condition.

The new B. F. Goodrich all-synthetic Silvertown passenger car tire ac- tually outwears prewar natural rub- ber tires.

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infec- tion—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are some- times burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recom- mended by grateful users everywhere. *Ask your neighbor!*

Use Crushed Corn Cobs For Poultry Litter

Crushed corn cobs make one of the best litters for laying houses in cold weather. The best plan is to spread from 6 to 8 inches of the crushed cobs over the entire floor, add more over the top when the old becomes soiled or damp. With this deep litter system, the house needs cleaning only twice a year.

"Me . . . I'm staying in the Army!"

★

THERE ARE PLENTY OF REASONS . . . AND HERE THEY ARE!"

1 "First, I keep my present grade. That means a lot.

2 "By reenlisting for 3 years I can pick my own branch of service in the Air, Ground or Service Forces, and can go to any overseas theater I wish.

3 "I get my mustering-out pay, even though I'm reenlisting. Also, I get $50 a year reenlistment bonus for each year I've been in the Army. My dependents receive family allowances for the full term of my enlistment. And I'll be eligible for GI Bill of Rights benefits when I get out of the Army.

4 "My food, clothes, quarters, medical and dental care are all supplied to me. And I can learn any of 200 skills or trades in the Army schools.

5 "All of us who are reenlisting are going to have from 30 to 90 days' furlough *at home* with full pay and our travel paid both ways. And we'll have 30 days' furlough every year with pay.

6 "Any time after 20 years I can retire at half pay increasing year by year to three-quarters retirement pay after 30 years of service. And the time I've already served in active military or naval service counts toward my retirement time. *Added up—reenlistment seems pretty sound to me!*"

JANUARY 31, 1946
AN IMPORTANT DATE FOR MEN IN THE ARMY

MEN now in Army who reenlist before February 1 will be reenlisted in present grade. Men honorably discharged can reenlist within 20 days after discharge in grade held at time of discharge, provided they reenlist before February 1, 1946.

You may enlist AT ANY TIME for 1½, 2 or 3 year periods. (One-year enlistments for men now in the Army with at least 6 months of service.)

PAY PER MONTH—ENLISTED MEN
In Addition to Food, Lodging, Clothes and Medical Care

	Starting Base Pay Per Month	MONTHLY RETIREMENT INCOME AFTER: 20 Years' Service	30 Years' Service
Master Sergeant or First Sergeant	$138.00	$89.70	$155.25
Technical Sergeant	114.00	74.10	128.25
Staff Sergeant . .	96.00	62.40	108.00
Sergeant	78.00	50.70	87.75
Corporal	66.00	42.90	74.25
Private First Class .	54.00	35.10	60.75
Private	50.00	32.50	56.25

Household Hints

Worn linoleum can be brought back to life by using a special paint made by several of the larger manufacturers.

—•—

For indoor painting a high gloss paint is the best because it provides a smooth surface that sheds dirt and is easily cleaned.

—•—

Soaking clothes overnight is not desirable, as the long soaking has a tendency to let the dirt freed from clothes settle back into the fabric.

—•—

Salt may pit your cast aluminum ware. Never store salty foods in aluminum, and to prevent salt used in cooking from settling in the bottom of the utensil to do its harm, add salt only when the water boils or food has already been added.

—•—

Most woolen garments that become stained may be cleaned safely with soap and water.

—•—

Use gummed labels to show both titles of a phonograph record on each side.

HOUSEHOLD MEMOS... by Lynn Chambers

Bake Cookies Now To Have Them Ready For Holiday Time

Bake holiday cookies before Christmas and store them in wax paper lined tins to keep them fresh and moist. A raw, unpeeled apple will prevent them from drying out.

Sugar-Shy Cookies

Good cookies are always in season, but particularly so at Christmas time. This year, of course, we are still working under difficulties because sugar is not easy to obtain. But that needn't put a crimp in the Yuletide cookie jar.

Corn syrups, honey and unrationed chocolate are all on hand to help with the Christmas baking. You will find the recipes for these substitutes so good that they're here to stay even when we have plenty of sugar.

Cookies made for Christmas are usually prepared ahead of time to save work as the big celebration approaches. It's a smart idea to take precautions with them to keep them fresh and moist. First of all, use nuts and dried fruits whenever possible as these ingredients add moisture. Second, pack them in waxed paper lined tins with a raw apple. Then they won't dry out.

Incidentally, when using honey or corn syrup in cookies, grease the baking pans thoroughly to prevent sticking Melted fat brushed on the pans usually solves the problem neatly.

There are two types of cookies, neither of which requires any sugar at all. One uses corn syrup for sweetening and the other, honey:

Fudge Nut Squares.
(Makes 16 2-inch squares)

1 cup chocolate pieces
2 tablespoons shortening
2 eggs, beaten
½ cup corn syrup
½ teaspoon vanilla
1 cup cake flour, sifted
½ teaspoon baking powder
½ teaspoon salt
½ cup nuts, chopped

Melt chocolate and shortening over hot water. Beat eggs thoroughly, add corn syrup and vanilla and beat until light and fluffy. Stir in melted chocolate and shortening, which have been slightly cooled. Mix and sift flour, baking powder and salt. Add to chocolate mixture. Stir in nuts. Pour into a greased, 8-inch square pan. Bake in a moderately hot (375-degree) oven for 25 to 30 minutes.

Honey Drops.
(Makes 4 dozen cookies)

1 cup shortening
1 cup honey
2 eggs, unbeaten
1 teaspoon vanilla
4 cups sifted all-purpose flour

LYNN SAYS

Table Tips: When all the meat has been sliced off the roast, scrape off the pieces from the bone, grind them and mix them with mayonnaise or salad dressing for sandwiches.

The bone from a roast may be simmered with onion, celery, carrot, bay leaf and parsley. This broth is excellent for casseroles, soups, or as a gravy base.

To prevent the broiler from becoming dry, fit it with a wire rack, so that the fat will drip into the pan. It is easy to pour off, and the broiler pan is easily washed.

When serving veal, complement the flavor with sausage, spiced fruit or pickles.

For a firm press meat loaf or hamburg into tight loaves or patties. When loosely shaped, the meat will be more tender.

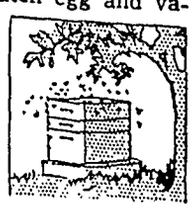
Frankfurters will have extra flavor if wrapped in biscuit dough, baked and served with cream white sauce.

LYNN CHAMBERS' MENUS

Stuffed Baked Potatoes with Creamed Ham
Asparagus Salad Glazed Carrots
Pineapple Cole Slaw
Biscuits Beverage
Sponge Cake Custard

½ teaspoon soda
½ teaspoon salt
½ cup nuts, chopped
1 cup chocolate pieces

Cream shortening and honey together. Add unbeaten egg and vanilla and beat until light and fluffy. Mix and sift flour, soda and salt. Add to the first mixture. Stir in nuts and chocolate pieces. Drop from teaspoon on a greased cookie sheet. Bake in a moderately hot (375-degree) oven 10 to 12 minutes.



Using only a small amount of sweetening, cookies in the following two recipes take on extra sweetness because of the molasses that is used in them. Both contain dried fruits to make them moist:

Prune Cookies.
(Makes 5 dozen cookies)

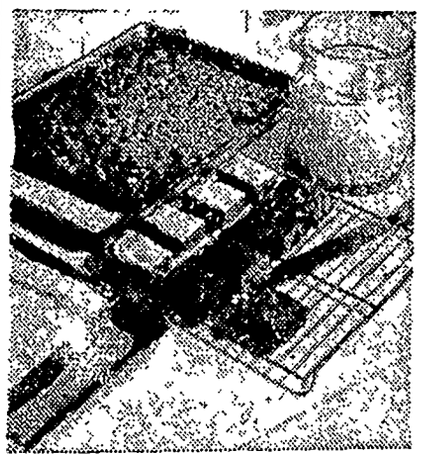
½ cup shortening
⅓ cup sugar
¼ cup molasses
2 eggs
1¼ cups sifted flour
¼ teaspoon baking soda
½ teaspoon salt
¼ teaspoon cinnamon
1 cup cooked prunes, pitted and cut in small pieces
1 teaspoon vanilla

Cream shortening and sugar, add molasses and eggs, one at a time. Sift flour with baking soda, salt and cinnamon. Add to creamed mixture. Beat thoroughly. Add prunes and vanilla. Mix well. Drop by teaspoonfuls on a greased baking sheet. Bake in a pre-heated (375-degree) oven for 12 minutes.

Molasses Raisin-Nut Bars.

¼ cup shortening
½ cup sugar
1 egg
½ cup molasses
2 cups sifted flour
¼ teaspoon salt
¼ teaspoon soda
1½ teaspoons baking powder
½ cup sweet milk
1 cup chopped nuts
1 cup chopped raisins or dates

Cream shortening, add sugar and beat until light. Add egg, beat well, then add molasses. Sift flour with dry ingredients and add alternately with milk to first mixture. Add chopped nuts and fruit. Spread thinly in a greased shallow pan. Bake 15 to 20 minutes in a moderate (350-degree) oven Cut in bars.



Everyday brownies will take on a festive touch if they are simply iced with powdered sugar frosting. The cookies should be well cooled before they are spread with icing.

Busy cooks know that bar shaped cookies save preparation time. These molasses flavored fruit bars are just the thing for holiday time.

Molasses Fruit Bars.
(Makes about 3 dozen bars)

½ cup sugar
¼ cup shortening
1 egg
½ cup molasses
1½ cups sifted flour
¼ teaspoon salt
¼ teaspoon soda
1½ teaspoons baking powder
1½ cups whole wheat flakes
½ cup milk
1 cup chopped seedless raisins

Beat together sugar and shortening. Add egg and blend well. Sift flour with salt, soda and baking powder. Crush whole wheat flakes into fine crumbs and mix with flour. Add to egg mixture alternately with milk. Fold in raisins. Spread batter ½ inch thick in a greased baking pan Bake in a moderate (350-degree) oven.

Pear Schooner Dessert.
(Serves 6)

6 pear halves
6 cupcakes
Raspberry preserves
Whipped cream

Cut each pear half in half. Split cupcakes and lay a piece of pear on each half in dessert dish. Pour a spoonful raspberry preserves in center of pears and top with a spoonful of whipped cream just before serving.

Veterans' SERVICE BUREAU

EDITOR'S NOTE: This newspaper, through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.

Local Service Centers

Gen. Omar N. Bradley, administrator of veterans' affairs, in a recent statement declared that the most pressing need, insofar as the civilian population and the veteran is concerned, is the establishment of a single service center in every community so that benefits to the veterans can "get down to the grass roots of the home community."

Many communities already have set up these centers where the returning veteran may go for information, for service, for advice, but there are thousands of home communities where no such benefit is available to the veteran.

"We have the plans," General Bradley said, "but you can't help a veteran with a plan. We need the help of business, patriotic and civic organizations, of the press and radio, in solving a problem of space and personnel which is slowing up our job."

In the meantime, the veterans administration has inaugurated a six-point program for amputee rehabilitation to include: (1) direct veteran contact to learn problems, invite criticism and provide corrective measures; (2) a survey to determine availability of prosthetic appliances; (3) to provide each veteran a booklet with essential information; (4) a program of scientific aftercare designed to meet the need of the veteran; (5) a conference with artificial limb manufacturers to establish fixed limb standards; (6) to establish a museum of prosthetic appliances.

Questions and Answers

Q. I want to know if a man who has been in the army over six months, is 30 years old and has a wife and four children, will be sent overseas or will he get a discharge soon?—Wife, Strasburg, N. D.

A. According to regulations at this time your husband is eligible for overseas service. According to the information you give, he has only approximately 42 points.

Q. I want to know if my husband can get a discharge. He has been in service 21 months and overseas 14 months and has four children and is needed at home since his mother is his dependent, too, and very feeble. He is in the army and is 29 years old.—L. B., Pisgah, Ala.

A. Without any points for battle stars or decorations, your husband has 71 points so he would be eligible for discharge.

Q. My husband served nine months in World War I, five of these overseas. While in service, one of his ear drums was affected from roar of guns and he can hear but very little. During this time his service record was lost and now he cannot get help because he doesn't have a record of his ear. Does he have to be handicapped because the army lost his record? He can do very little work.—Wife, Deatsville, Ala.

A. Your husband's service record should be in the war department in Washington. Would suggest that you immediately file a claim for pension, due to disability, with the Veterans administration at Birmingham. Write to the bureau of enlisted personnel, war department, Washington, D. C., concerning his service record, giving all details possible.

Q. I was called for the army September 4, 1918, and went to Fort Riley, Kans., and got my discharge at Fort Riley September 14, 1918. I got the $60 bonus and the whole outfit of uniforms. Did guard duty and my serial number was 3474300. I asked for the soldier tax exemption in Iowa and they turned me down. —E. J. H., Webster City, Iowa.

A. You were apparently in the army only 10 days, but the internal revenue bureau says there is no federal tax exemption for veterans except on disability payments and the $1,500 exemption on active service pay. There may be an Iowa state law providing for some form of tax exemption for veterans. Suggest you apply to your state or local tax authorities.

Q. My husband, who is in the navy, has three children and is 26 years old. Under this new system of discharging fathers of three children, will he be eligible for discharge?—Wife, Vanderbilt, Mich.

A. The navy department says "yes."

Q. How long will boys 18 or 19 years of age, who entered service in the spring of 1945 and are now on their way overseas, remain in the service?—N. G., Lancaster, Wis.

A. Under present regulations, until they have the required number of points to make them eligible for discharge.

Q. I want to know if a man who has been in the navy 21 months, is 34 years old and has a wife and three children will be discharged?—Wife, Owens Cross Roads, Ala.

A. Yes, he is eligible for application for discharge.

THIRD SMITH BRIDE GETS GOOD ADVICE

HAMILTON, KANSAS. — Mrs. W. H. Smith wrote a most interesting letter to Faultless Starch about the way the Smith family has used that starch. Here is her letter:

"Forty-seven years ago, Mrs. W. O. Smith, as a young bride, started using Faultless Starch in her home.

"Twenty-five years ago Mrs. O. T. Smith, as the very young bride of Mrs. W. O. Smith's son, started using Faultless Starch in her home. She tried many other starches, but always went back to Faultless Starch.

"Ten months ago I started using Faultless Starch as the bride of Mrs. O. T. Smith's son. I started using it at Mrs. Smith's request, and now I am a stiff backer of Faultless Starch.

"As 'three generations of brides,' we say, 'three cheers for Faultless Starch.'

"I might add that I am very fussy about my husband's shirts. And also that Mrs. W. O. Smith has never used any other starch for over half a century."

What an interesting story! Certainly here is positive proof that Faultless Starch makes wonderful friends that stay for a life-time.

YOU DESERVE FAULTLESS

There is no reason in the world why you can't enjoy Faultless Starch, too. You might just as well make your starch—WITHOUT COOKING—with Faultless Starch. You might just as well stop that "sticky" iron—with Faultless Starch. You might just as well be proud of the absolutely faultless look you get with Faultless Starch!

Your grocer has Faultless Starch. So ask him for it. Then you'll understand why three generations of brides say, "three cheers for Faultless Starch!"—Adv.

Largest Conveyance on Highway Is 85 Feet Long

Biggest conveyance ever to ride an American highway was a truck and trailer with an over-all length of 85 feet which operated between Evansville, Ind., and Bridgeport, Conn., hauling airplane parts.

The trailer itself is 73 feet long, with the box, 10 feet wide inside, requiring a 15-foot clearance.

Gas on Stomach
Relieved in 5 minutes or double money back

Try ALL-BRAN Apple Spice Muffins!

(No sugar, no shortening, but lots of praise!)

It's hard to believe such luscious muffins are sugarless and shortening-less—but they are! They owe their wonderful *flavor* to a combination of ginger, cinnamon, molasses and the tasty, nut-sweet goodness of Kellogg's ALL-BRAN. And they owe their tender *texture* to the fact that ALL-BRAN is milled extra-fine for golden softness.

2 cups Kellogg's ALL-BRAN
½ cup molasses
1½ cups milk
1 egg, beaten
1 cup sifted flour
1 teaspoon soda
½ teaspoon salt
1½ teaspoons cinnamon
¾ teaspoon ginger
1 cup raisins
1 cup raw apple or other fruit
cinnamon-and-sugar mixture

Add ALL-BRAN to molasses and milk and allow to soak for 15 minutes. Add egg. Sift flour, soda, salt and spices together and combine with ALL-BRAN mixture. Fill greased muffin pans two-thirds full. Dip apple slices in cinnamon-sugar mixture and place on top. Bake in moderately hot oven (400°F.) about 20 minutes. Makes 15 muffins.

Good Nutrition, too!
ALL-BRAN is made from the VITAL OUTER LAYERS of finest wheat—contains a *concentration* of the protective food elements found in the whole grain. One-half cup provides over ½ your daily minimum need for iron. Serve Kellogg's ALL-BRAN daily!

THE KLEMME TIMES

VOLUME 51. KLEMME, IOWA, WEDNESDAY, DECEMBER 19, 1945 NUMBER 5.

Floren Anderson And Pvt. Roy Janssen Take Vows

KLEMME SOLDIER WEDS MASON CITY GIRL

Miss Flora Karin Anderson, daughter of Mrs. Tina Anderson, 534 2nd. N. E., Mason City, became the bride of Pvt. Roy William Janssen, son of Mr. and Mrs. Wm. Janssen of south of Klemme, at a ceremony performed Tuesday afternoon in St. Paul's Lutheran church in Garner, the Rev. T. J. Kupke officiating. Mrs. Kupke played nuptial music and Mrs Paul Clark sang "Oh Perfect Love."

Miss Patricia Maynard was the maid of honor and Warren Thada, the best man. Ushers were Calvin Anderson, brother of the bride, and Merle Janssen, brother of the bridegroom.

The bride, given in marriage by her cousin, Robert Turnbull, wore an ivory slipper satin gown with a sweetheart neckline and a slight train. Her fingertip veil was held with orange blossoms. She wore a gold engraved cross, a gift of the bridegroom, and carried a shower of white roses centered with an orchid.

Miss Maynard was attired in a gold brocade gown and carried lavender chrysanthemums and heather and wore lavender chrysanthemums in her hair. The mothers of the couple were both attired in blue and had gardenia corsages.

A reception followed the ceremony and a buffet lunch was served, table decorations being in lavender and yellow and the wedding cake was topped with a miniature bride and bridegroom.

For going away, the bride wore a brown suit with white accessories. After the wedding trip, the bridegroom will return to duty with the army. He is a graduate of Glidden high school and attended Iowa State College. The bride who is employed by the Como Photo Company is a graduate of Mason City high school and attended the University of Iowa.

Attending the wedding from a distance were: Mr. and Mrs. Ray Bowes and Robert of Carroll; Mr. and Mrs. Henry Fleshner of Lidderdale; Mr. and Mrs. Dick Prill, Richard and Verlin, Mrs. Dwight Wine and Earl Theade, Otto Kleugel, Louise Prill and Mrs. Paul Clark, all of Glidden.

Pre-Nuptial Shower

Miss Dortha Carpenter was an honored guest at a pre-nuptial shower held at the U B. Church at Goodell Friday afternoon. Miss Carpenter received many beautiful gifts.

MERLE SCHAEFER ON WAY HOME, EXPECTED FRIDAY

Mr. and Mrs. Roy Schaefer have three sons in the Navy. Their son Merle is on his way home and is expected to arrive here Friday. He will be home on an extended furlough and will then re-enlist.

Calvin, who is in the Pacific, expects to receive his discharge and arrive home in February.

Donald is in Florida at a naval base and says he enjoys the warm weather.

KANAWHA BULL DOGS BIT SHAMROCKS MONDAY EVE

The Kanwha Bull Dogs high school basket ball team made mince meat out of the Shamrocks here Monday night when they bit off the long end of the game 21 to 18.

Kanawha took a 6 to 5 lead to end the first quarter. The game was tied again at the half 10 to 10 and at the end of the third quarter 18 to 18. The Shamrocks failed to score in the last frame while the Bull Dogs bit off three counters, a bucket and a charity toss to end the game 21 to 18.

The Little Shamrocks saved part of the glory by defeating the Bull Pups 20 to 11.

New Suits For Shamrocks

The Shamrocks came on the floor wearing new suits that were real nifty. Maybe the new suits were bad luck.

A RECENT BRIDE

MRS IRWIN RASMUS

Mrs Irwin Rasmus before her marriage, was Miss Arlene Schmidt, daughter of Mr. and Mrs. Fred Schmidt. She was married to Irwin Rasmus, Garner, on December 5th, at the Evangelical & Reformed Church at Klemme.

Miss Kudje Honored At A Pre-Nuptial Shower And Party

Mrs. Dwight Hummel and Mrs. Stuart Hevilin were hostesses at a pre-nuptial party and gift shower honoring Miss Jacqueline Kudje, Saturday afternoon.

The afternoon was spent informally, after which a nice lunch was served.

Miss Kudje was presented with a variety of beautiful gifts.

Miss Kudje is teaching in a Mason City grade school and will resign this week end. Her marriage to Mr. Harry Heite will take place Saturday evening and the couple will reside at Kansas City.

ROBERT McNUTT, JR. WEDS MISS HARBISON, GARNER

Miss Billie Harbison, daughter of Mr. and Mrs. William Harbison, Garner, and Robert McNutt, Jr., son of Mr. and Mrs. Robt. McNutt of Goodell, were married Thursday at the Garner Methodist church by the Rev. Carleton Spencer, pastor of the Goodell United Brethren Church.

The bride was given in marriage by her father. The bridesmaids were Helene and Claire Harbison, sisters of the bride. Ruel Harbison acted as bestman and Bernard Biers and Clair Lou Housh, as ushers. Miss Katherine Raw played the wedding march from Lohengrin.

The bride was graduated from Garner high school, and the bridegroom from the Goodell high school.

Relatives and friends attended the wedding. A reception was held afterwards in the bride's home.

The couples's plans are indefinite while he is in the service.

Court House Will Be Closed Monday & Tues.

The Hancock County Court House will be closed next week, Monday and Tuesday, December 24 and 25.

The State House at Des Moines will also be closed Monday and Tuesday.

SEND IN YOUR NEWS EARLY FOR NEXT ISSUE

The Times expects to go to press early next week because of Christmas Day coming so early in the week. The Times expects to print a Christmas Edition for the next issue.

Copy for news and advertisements must be in our office not later than Saturday.

We Are Sorry!

We are sorry that in the rush of getting out the Times last week we neglected to make mention of the meeting of the Womens Guild at the Evangelical & Reformed Church. A last minute legal notice caused us to rearrange part of the paper and we unintentionally left out some important items.

SERVICES HELD FOR MRS. LOREN WEISBROD SCARE

Mrs. Loren Weisbrod Scare was born October 1914 and was a graduate of the Fenton high school.

She was united in marriage on December 9, 1944 to Loren Scare.

Lucille was the daughter of Mr. and Mrs. Ed. Weisbrod of Fenton. She died Sunday morning, Dec. 16 and leaves to mourn her departure her husband Loren Scare; her parents Mr. and Mrs. Weisbrod, one brother Milton, and one sister Ethel, besides many other relatives and friends.

Those from this community who attended the funeral were Mr. and Mrs. Kermit Schlei; Dale and Will Schlei; Melvin Schlei; Mr. and Mrs. George Schoenwetter; Mrs. Emil Beier; Mr .and Mrs. Ben F. Greiman; L. Griffen; Mr. and Mrs. Edwin Josten; Mr. and Mrs. Otto Klinge and Miss Velda Schoenwetter.

Sgt. Clarence Kluckhohn Sends Phone Message To Parents

Perhaps the longest, long-distance telephone call every put through to Klemme was that put through by Sgt. Clarence Kluckhohn from Berne, Switzerland, to his parents, Mr. and Mrs. C. E. Kluckhohn, Saturday evening.

Mr. and Mrs. Kluckhohn had been "alerted" a couple of days previous to be ready to receive the call when connections were made.

The call came through here at 10:00 p. m. Saturday night and Mr. and Mrs. Kluckhohn talked with their son for six minutes. The conversation was clear at both ends of the line.

Sgt. Kluckhohn said he expected to be home in February. Both Mr. and Mrs. Kluckhohn said the conversation with their son in a foreign land was the best Christmas present they had ever received.

Seaman Barz Home On Discharge

Seaman Martin Barz will spend this Christmas with his family and relatives, as he is now home from service in the Pacific and received his honorable discharge at Minneapolis.

Martin had the opportunity to see a lot of the destruction in Japan and flew low over several of the bombed out cities when he was riding in a transport plane.

RURAL YOUNG PEOPLE HOLD CHRISTMAS PARTY

Forty Rural Young People met at the Central States basement at Britt Monday evening, December 10th for their annual Christmas party.

Plans were made to invite the Kossuth County Rural Young People to a roller skating party some time in January. The 1945 and '46 officers also plan to get together to outline the 1946 program.

The next regular meeting will be held January 14th. The party was in charge of Norbert Dorow, Ralph Anderson and Alice Madson.

PLAN TO BOOST FARM BUREAU MEMBERSHIP IN DRIVE

Captain Appointed In Each Township Of County

FARM BUREAU MEMBERSHIP DRIVE PLANNED

The Hancock County 1946 Farm Bureau drive for new members got off to a good start last Wednesday evening at the Jackson home when the captains met and set goals for the drive.

With the bad weather and so much sickness in the county it was gratifying to see all but four of the men there. They were very enthusiastic over the work to be done.

The captains are: Amsterdam Lloyd Raber; Avery, Harry Ostendorf; Bingham, Imko Huisinga, Britt, John McMahon; Boone, Clarence Jurgenson; Crystal, Gilbert Dueland; Erin, Neil Kahl; Ellington, Lyle Jefson; Ell, Alvin Goll; Magor, Alvin Johnson; Madison, Harold Rockow; Concord, Alfred Woiwood; Garfield, Harry Horecka; Liberty, Aaron Stromer; Orthel, Glen Rinehart; and Twin Lake, Art Chelsvig.

The membership is coming in fine by mail. Over 80 so far have paid their 1946 dues.

KLEMME MEN IN CAR MISHAP AT GARNER

GARNER—Cars driven by Elmer Knaupp of Garner and Lowell Ulrich of Klemme collided at a street intersection near the Ness Gardner residence Monday injuring 2 and badly damaging both cars.

Riding with Knaupp was his wife and both required medical attention, suffering from cuts and bruises when their car crashed into a tree after colliding with the Ulrich car.

Riding with Ulrich were Kenneth Kluckhohn of Klemme, and Charles Roach of Garner. The occupants of the Ulrich car escaped unhurt.

DUARD LEWIS INJURED WHEN TRACTOR UPSET

Duard Lewis, son of Mrs. Rose Lewis of Klemme, was injured Monday morning at the Albert Schmidt farm when the tractor he was driving upset and pinned him underneath. Duard received some severe bruises but no bones were broken.

Duard was towing a car down the lane for Mr. Schmidt to get it started. After the car was started, Duard was about to turn the tractor around in the lane, when it skidded on the frozen ground and upset, throwing him under it.

Announce Approaching Marriage Of Miss Jacqueline Kudje

Mr. and Mrs. Arthur Kudje have sent out invitations to the marriage of their daughter, Jacqueline, to Mr. Harry Heite, of Kansas City.

The ceremony will take place at the Klemme Methodist Church on Saturday evening, December 22nd at 7:00 o'clock.

A reception will be held in the church dining room immediately after the ceremony.

Funeral Services Held Sunday For Fred Klinge

MARRIED DECEMBER 16

MRS M R SORENSON

Mr. and Mrs. Harrr L. Carpenter of Goodell, announce the marriage of their daughter Dortha Jean to Melvin R. Sorenson, son of Mrs. Sorenson of Akron. The wedding took pace December 16th in the United Brethren Church at Goodell with the Rev. Carlton Spence officiating.

Evangelical & Reformed Church
Calvin Grosshuesch, Pastor

Fifty Fifty Class Will Decorate Methodist Church

The Fifty Fifty Sunday School Class will meet at the Methodist Church Sunday evening at 6:00 o'clock for a party, business meeting and to decorate the church for the Christmas program.

MRS. OTTO LEMKE WAS HOSTESS TO STUDY GROUP

The Study Group of the Methodist Woman's Society of Christian Service met at the home of Mrs. Otto Lemke on Thursday afternoon, December 13. The Devotions on "Evangelism" were in charge of Mrs. Elmer Arnold.

The women finished the book "The Indian in American Life," Mrs. Kenneth Medin giving the last chapter, "The Indian's Part in Tomorrow's World."

A fine lunch was served by the hostess, assisted by Mrs. Clarence Lemke.

Seventeen members and one visitor were present.

HAD LIVED ON SAME FARM FIFTY YEARS

Mr. Klinge Died Friday After Short Illness

Funeral services were held Sunday afternoon at 2:00 o'clock, December 16. 1945, for Mr. Frederick William Klinge, 84, who died on Friday morning at his farm home in Liberty township, where he had resided continuously for the past fifty-five years. Despite his advanced years, Mr. Klinge was very active, and until the day before his passing, he was about the farm doing his chores and other light work about the farm.

Funeral services were held at the Peace Reformed Church north of Klemme with Rev. R. D. Stuebbe, pastor, officiating. Mr. Klinge was carried to his final resting place in the church cemetery by Merle Klinge, Leonard Buckley, Maurice Buckley, Benj. Klinge, all gransons, and Walter Greiman and Leon Griffen, close relatives. Two of his grandsons, Wayne Klinge and Elmer Buckley are with the army on overseas duty.

The Wellemeyer funeral service of Klemme was in charge of th arrangments.

Mr. Klinge's obituary appears elswhere in this issue.

Mrs. George Lawhorn Entertained Bridge Club Thursday

Mrs. George Lawhorn was hostess to the U-Delt-Em bridge club at her home Thursday afternoon.

Mrs. A. H. Dulmes won the high score; Mrs. A. J. Kudje, second and Mrs. R. A. Jorgenson, third high.

Mrs. Dulmes and Mrs. A. L. Kingery were guests.

Veteran Returns Home

Pfc. Alvin Keeper, son of Mr. and Mrs. Henry Keeper, arrived in Klemme Saturday from overseas, having received an honorable discharge from the army. Alvin was employed in the office of the Northern Lumber Co. before entering the service.

ETCHEN GARAGE LOOTED EARLY WEDNESDAY MORNING

Thieves gained entrance to the Etchen garage by prying open the rear door early this morning and took tools, equipment and merchandise valued at over $500. The loss included a near new hard seat valve grinding machine, special tools, piston rings, spark plugs, etc. Sheriff Brower investigated the robbery this morning.

The tools taken are items that are almost impossible to replace at this time.

A car was stolen at Britt during the night and it is thought it was taken by the robbers who broke into the Etchen garage here.

Send your news to the Klemme Times. Phone 12. Thanks!

Obituary Of Mr. Fred Klinge

FREDERICK WILLIAM KLINGE was born February 17, 1861 in Hanover, Germany.

He attended the public schools in Germany, and became a member of the Lutheran Church by confirmation, and as a youth learned the carpenter's trade.

At the age of 17 he migrated to America and found employment on the farm of his uncle, Ed. Griffen.

On January 10, 1890, Frederick William Klinge and Dora Wacker were married by Rev. H. Treick at the home of the bride's parents in Ell Township, Hancock County, Iowa. It was at this time that he became a member of the Peace Reformed Church.

They commenced housekeeping on the farm in Liberty Township where they continued to live until his death.

Seven children were born to them; six survive, and one daughter, Lydia, preceded her father in 1918.

Mr. Klinge had one sister who remained in Germany and who has also passed away.

Mr. Klinge was an easy-going individual, a clear thinker, and a man of good judgment, and for these reasons his neighbors respected him and enjoyed his companionship.

He was active and about his chores until the day before his passing. He seemed to have suffered a slow hemorrhage of the brain which ended his career on Friday morning, December 14, 1945.

He reached the age of 84 years, 9 months and 27 days. He leaves besides his wife:

Two daughters
Ida (Mrs. Geo. Bollinger,) Fenton, Iowa
Meta (Mrs. Raymond Buckley) Liberty Township

Four sons, all of this community:
Ott, Fred, Louis and Henry.

Seventeen grand children:, including two in the Armed Forces: Wayne Klinge, now in Germany, and Elmer Buckley, now in Japan; and other more distant relatives and friends.

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength.

Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

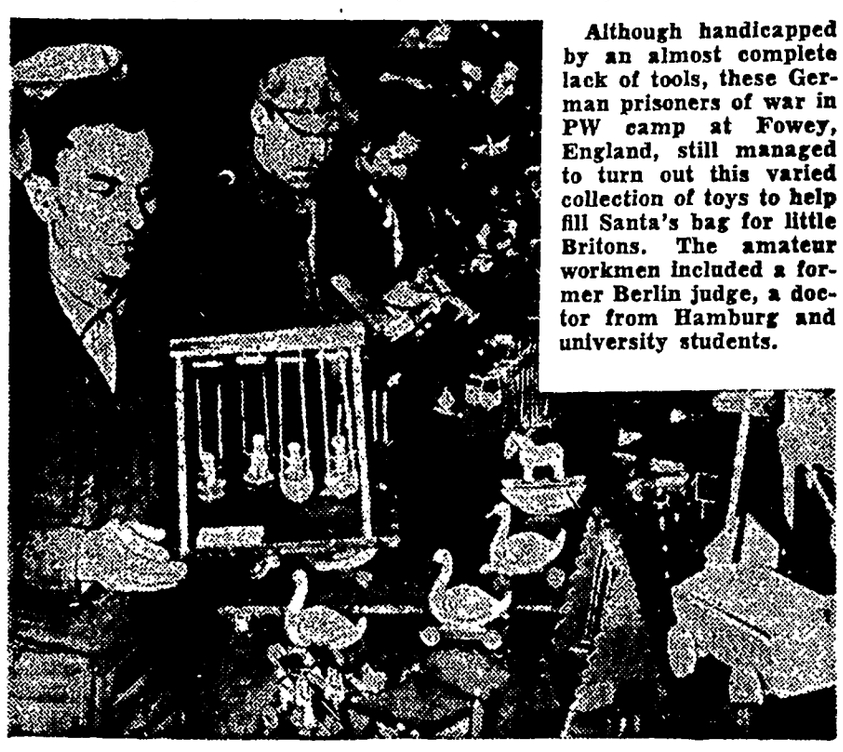
DOAN'S PILLS

WEEKLY NEWS ANALYSIS

Congress to Probe Diplomacy of State Department; Maneuver to Modify Demands of CIO Unions

Released by Western Newspaper Union.

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)



Although handicapped by an almost complete lack of tools, these German prisoners of war in PW camp at Fowey, England, still managed to turn out this varied collection of toys to help fill Santa's bag for little Britons. The amateur workmen included a former Berlin judge, a doctor from Hamburg and university students.

U. S. DIPLOMACY:
Duplicity Charged

Long under fire for its implementation of American foreign policy in the wake of U. S. victories on the battlefield, the state department was scheduled for congressional investigation following ex-Amb. Patrick Hurley's charge that some of its personnel had worked counter to his efforts to promote the unification of China.

In loosing his bombshell on Capitol Hill, Hurley declared that certain professional diplomats were inviting future conflict by siding with the Chinese communist party and the imperialistic bloc of nations in keeping China divided against itself and unable to resist encroachment.

While he worked for a democratic China which could act as stabilizing influence in the Orient, Hurley charged, some state department officials told the Chinese communists that his activities did not reflect the policy of the U. S. and they should not enter into a unified government unless retaining military control.

Agreement to investigate the state department followed the demand of Senator Wherry (Rep., Neb.) for an inquiry to determine whether there was any variance between U. S. foreign policy and the Potsdam declaration and whether the foreign service was interfering with domestic affairs in South America, influencing other countries toward communist government, or clashing with the army and navy over occupation policy.

Meanwhile, Gen. George C. Marshall, ex-chief of staff, prepared to embark upon his duties as special envoy to China in the midst of Chiang Kai-shek's redoubling of efforts to unify the country and open the way for vigorous postwar economic expansion. In announcing his program to modernize the country, Chiang declared the No. 1 goal would be the improvement of transportation to facilitate an exchange of materials between the various regions.

LABOR:
On Defensive

Heretofore on the offensive with its demands for higher wages to maintain high wartime pay, the CIO was suddenly thrown back on the defensive with the Ford Motor company's proposal that the United Automobile workers pay a $5 a day fine for workers involved in unauthorized strikes.

Ford asked for this protection against production losses as officials continued negotiations with the UAW, whose leaders have maintained that the industry can afford 30 per cent pay boosts without raising prices because of large reserves and promises of substantial profits from huge postwar output.

While UAW immediately challenged the effectiveness of a fine in curbing wildcat walkouts, Ford officials insisted that the union could exert sufficient pressure on its locals to prevent unauthorized strikes, slowdowns and controlled production.

Meanwhile, General Motors, reversing a previous stand, agreed to consult with government officials concerning resumption of negotiations with the UAW after the union gave ground in its demands for a 30 per cent wage increase. With the company holding out for a modification of terms, the UAW declared that it would seek no wage increase necessitating a rise in prices.

With the work stoppages in G. M. plants threatening to paralyze practically all of the automobile industry because of its dependence upon G. M. for parts, a further menace to reconversion was posed in the United Steel workers vote for a strike if leaders deemed one necessary to enforce demands for a $2 a day wage raise.

OPA refusal to grant steel manufacturers price increases until the conclusion of the year's operations permits closer study of their profit also has hardened company resistance to the UAW demands. To the union's assertion that the industry could well pay the increase out of alleged "hidden profits," management has replied that government findings have classified the so-called "hidden profits" as reasonable business reserves assuring future expansion.

WAR CRIMES:
Pleads Innocence

First major axis personage to be brought to trial for war crimes, Gen. Tomoyuki Yamashita, erstwhile "Tiger of Malaya" and Jap commander in the Philippines, flatly denied charges of countenancing rape, pillage and murder and then rested his case.

As the Allied military tribunal pondered the case, Yamashita considered appeal to the U. S. Supreme court in case of conviction on grounds of illegality of the proceedings. Previously the Philippine Supreme court had refused a similar protest, with the demand the defendant be freed for trial before civil authorities.

Gen. Yamashita

In taking the stand to deny charges against him, the squat, browned Jap general declared he ordered none of the atrocities related by scores of witnesses or contained in hearsay evidence admitted by the court. To the accusation that he had planned the extermination of the Filipinos, Yamashita declared that common sense indicated the impracticability of killing 18 million people.

The case against Yamashita was complicated by the apparent division of command in Japanese ground, naval and air forces in the Philippines. While as ground commander Yamashita said he had ordered the withdrawal of his troops from Manila for warfare in the mountains, Nipponese naval detachments remained within the capital for the fighting which heavily damaged the city and exposed civilians to danger.

Meanwhile, the trial of 20 top Nazis proceeded apace in Nuernberg, with the U. S. prosecutors drawing from voluminous evidence to prove charges of German conspiracy for aggressive warfare.

Citing a statement of Diplomatist Franz Von Papen that southeastern Europe was Germany's hinterland and must be brought within the political framework of the Reich, U. S. Prosecutor Sidney Alderman quoted documents to show that Hitler had delegated Von Papen to develop a program of Nazi infiltration into the Austrian government to take it over after the aborted putsch of 1934.

Find Novel Uses for Radio Surplus

Laboratory technicians who are working with the Reconstruction Finance corporation in developing methods of disposing of three to five billion dollars worth of new and used radio and electronics equipment no longer needed by the armed forces have found that antenna tube sections can be cut into small sizes and converted into toy whistles for exuberant youngsters.

whistles are only one of a number of adaptations that have been worked out by RFC and industry technicians in an effort to develop peacetime markets for the vast quantities of radio and electronics equipment and components that are deemed of no further use to the military services.

PEARL HARBOR:
Kept Top Secret

Because of a desire to keep secret the U. S. breaking of the Japanese code, the intercepted messages revealing Jap political and military moves were beknown only to nine top officials, Maj. Gen. Sherman Miles, former head of army intelligence, told the congressional committee investigating Pearl Harbor.

Along with President Roosevelt, others possessing knowledge of the decoded messages included Secretary of War Stimson, Secretary of State Hull, Lt. Gen. L. T. Gerow, head of the war plans division, Secretary of the Navy Knox, Admiral Stark, chief of naval operations, Col. R. S. Bratton of the army intelligence staff, Gen. George C. Marshall, chief of staff, and Miles.

Though Maj. Gen. Walter Short and Rear Adm. Husband Kimmel were not apprized of the breaking of the code, Miles said, they were kept informed of the course of events. However, with officials anticipating an attack in the far east, Short and Kimmel were advised to take only such action as they deemed necessary at Pearl Harbor and guard against sabotage.

When asked what significance was attached to a decoded Jap message of Sept. 24, 1941, asking espionage agents in Hawaii to advise Tokyo of the disposition of the American fleet in Pearl Harbor, Miles replied: "Taken alone, it looks exactly like what we know now it was—a plan for bombing Pearl Harbor. But unless we look on it with hindsight, it was only one of a great number of Jap messages seeking information on our warships. It was perfectly normal for them to be doing so. . . ."

Loses Half of House

When the town of Silver Lake, Minn., decided to widen Center street, the village council attempted to induce Mrs. Clara Caspryzk, 44, to move her five-room residence, extending 16 feet into the area required for the expansion.

Not only did Mrs. Caspryzk refuse a proposition for the town to move the building back and pay her $800, Mayor Frank Bandes said, but she also ignored a court order to relocate the structure, leading to the judge's permission for the village to remove that part of the property blocking the improvement.

After a crew of carpenters virtually sawed the building in half, Mrs. Caspyrzk was left with only one bedroom intact, the living room having been completely shorn and the kitchen, dining room and an upstairs bedroom bisected. Because she had no other place to live, Mrs. Caspryzk, who is crippled by arthritis, returned to make her home in the one remaining bedroom after a brief stay with her brother-in-law.

GERMANY:
Review Rule

With French obstruction to Allied plans for a central administration for Germany resulting in the economic breakup of the Reich and difficulties for a restoration of normalcy, the U. S. was asked to study the advisability of revising the Potsdam declaration pledging this country to its present course.

In urging a re-examination of U. S. occupation policies, Byron Price, former director of the office of censorship who undertook a special mission to Europe for President Truman, declared that the German people were nursing old and new hatreds with increasing bitterness as their sufferings increased and disposing themselves to whatever new leadership desperation may produce.

With German agriculture and industry seriously impaired during the closing stages of the war, Price said the U. S. must also decide whether to deliver foodstuffs to the country to prevent starvation and epidemics this winter and help remove some causes for unrest.

LABOR-INDUSTRY:
Meet Lags

Started with high hopes, the labor-industry conference called in Washington, D. C., slowly ground toward its conclusion with indications that no important new machinery would be constructed for the speedy settlement of employee-management disputes.

In seeking orderly procedure in drawing up an original contract, the conferees recommended collective bargaining first, then conciliation, and finally voluntary arbitration. In cases of grievances under existing contracts, the delegates resolved that pacts should incorporate provisions for settlements without resort to strikes, lockouts or other interruptions to production.

As the conference faltered toward its end, with neither side apparently disposed to surrender any of its bargaining advantages, labor-industry representatives approved a proposal to meet for consultation whenever they saw fit.

SCHOOL LIGHTING:
Best Pays

In a detailed report to civic leaders on lighting and seeing conditions, the Miami, Fla., Kiwanis club declared the progress of pupils in a properly lighted room in Tuscumbia, Ala., showed two-thirds less failure over a test period of two years.

At Lebanon, Pa., a 28 per cent improvement was shown, and at Cambridge, Mass., the failure ratio in the fifth grade was one to three in favor of better lighting.

SEWING CIRCLE NEEDLEWORK

Smart Face-Framing Fascinator

Pattern No. 5491

FASCINATORS are beginning to pop out—all sizes, shapes and colors, but for sheer charm and face-framing effect the triangular fascinator crocheted in soft open-work stitch still takes the cake.

You need just two ounces of yarn—try one in fuchsia, turquoise, Chinese jade green, soft beaver brown, yellow or rose-pink. Wear them unadorned for daytime, heavily sewn with sequins for dinner and theater wear.

* * *

To obtain complete crocheting instructions for the "Fascinator" (Pattern No. 5491) send 16 cents in coin, your name, address and the pattern number.

Due to an unusually large demand and current conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

Send your order to:

Photographs of Interesting Events Earn Sizable Sums

Many amateur and professional photographs have earned sizable sums through the sale of prints to publications over a period of years, says Collier's. The picture of the shocked passengers on the deck of the Vestris, taken a few minutes before they were rescued from the sinking Atlantic liner in 1928, made at least $8,000; snapshots of the Lindbergh plane, as it capsized and threw its occupants into the Yangtze river in 1931, sold outright for $9,000.

The famous photograph of "The Laughing Cat," snapped near St. Louis in 1923, earned $13,000; and the "bird's-eye view" of San Francisco, made shortly after its great fire in 1906 with a camera elevated 600 feet by kites, produced a profit of $15,000.

To Save Money, Mix Your Cough Relief at Home

So Easy! No Cooking. Quick Relief.

Even if you're not interested in saving good money, you surely want a really effective relief for coughs due to colds. So try mixing it yourself, in your kitchen, and be ready for a surprise.

It's so easy to mix, a child could do it. Make a syrup by stirring 2 cups of granulated sugar and 1 cup of water a few moments, until dissolved. No cooking is needed. Or use corn syrup or liquid honey, instead of sugar syrup.

Put 2½ ounces of Pinex (obtained from any druggist) into a pint bottle. Then fill up with your syrup. This makes a pint—about four times as much for your money. It tastes good—children really like it. It lasts a family a long time, and never spoils.

But what you'll like most is the way it takes right hold of a cough. It loosens the phlegm, soothes irritation, and helps clear the air passages. Eases soreness, and let's you sleep. You'll say you've never seen its superior.

Pinex is a special compound of proven ingredients, in concentrated form, well known for its quick action on throat and bronchial irritations. Try it, and if you're not really delighted, your money will be refunded. —Adv.

Millions of veterans, like Sgt Walter Osburn of Detroit, who was wounded in Normandy, want homes of their own. Most of them have considerable savings, and are ready to build if prices are within reason.

OPA Struggles to 'Hold that Line' As Building Costs Threaten to Zoom

By AL JEDLICKA and WALTER SHEAD

Released by Western Newspaper Union.

WITH a huge postwar building and realty boom in the offing, sentiment in the nation's capital favors both government and industry working hand in hand to combat the dangers of an inflationary spiral resulting from the tremendous pent-up demand for housing.

Already empowered to regulate costs of materials and services, the Office of Price Administration has sought the additional authority to control the sales price of finished homes and used buildings. Unless granted such permission, the agency argues, its check over the industry would be imperfect, and untrammelled speculation would undo the benefits obtained by the other regulations.

Bitterly resisting OPA recommendations, private builders asserted that further controls over the industry would result in a dimunition of prospective construction, while the problem is one of stimulating more. Rather, the industry argued, OPA and other government agencies should concentrate upon the increase of supplies and manpower to provide a basis for all-out construction.

In the midst of the controversy, Reconversion Director Snyder stepped in to announce that the administration favored a program embracing present government regulation of materials and services, with no supervision over prices of finished homes and used buildings unless proven needed.

Burden of Mortgages.

In arguing for authority over pricing of final sales, OPA pointed to World War I records, which not only showed a decrease in construction as costs rose, but also emphasized the serious mortgage problems later growing from the original over-valuation of homes.

According to OPA figures, building material prices showed a 218 per cent increase from 1914 to 1920, with more than half of the rise occurring after the armistice. At the same time, total construction costs mounted 189 per cent from 1913 to 1920, with three-quarters of the boost coming after the end of hostilities.

As a result of the inflationary spiral, OPA said, actual home construction toppled from the peak figure of 405,000 units in 1919 to 247,000 a year later. While prices automatically fell with the drop in building activity, they remained relatively high, with another recession setting in around 1926.

Against this record of World War I, OPA cited the accomplishments during the present conflict, when government control of material costs held price increases to 31 per cent from August, 1939. Of this total, a 6.7 per cent rise occurred after issuance of the famous "hold-the-line" order of May, 1943.

Meanwhile, the increase in construction costs totalled only 34 per cent since August, 1939, with only a limited amount of building done to accommodate necessary needs.

Huge Demand, Short Supplies.

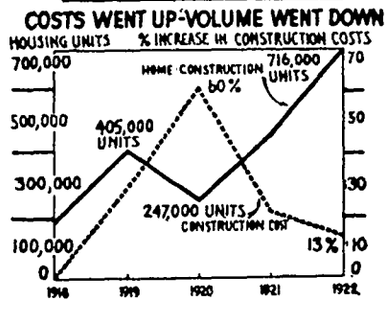
In contemplating the need for control over sales prices of finished homes and used buildings, OPA drew the picture of a huge back-log of construction and a protracted period of short supplies in the face of tremendous demand.

In all, the nation has a need for over eight million new homes, OPA figures, as a result of the increase in families since 1940, servicemen marriages, undoubling in crowded quarters, the number of housing units now rated as sub-standard.

Despite the need and the comparative prosperity of the people, however, a recent survey by the architectural forum indicated that 37 per cent of the persons interviewed would postpone building if prices of finished homes should soar above $1,000 over present prices. Another 12 per cent had not decided what course they would take.

Of the total of 51 per cent that determined to build regardless of a $1,000 increase in costs, most revealed that they would raise more money, but a sizable percentage declared their intention to purchase a cheaper structure. Most sales would be under $7,000.

In analyzing the results of the survey, OPA asserted that the indicated deferment of building plans in the



event of a $1,000 increase in costs would result in a loss of employment to more than 600,000 workers, thereby reducing demand for goods which they themselves could be counted upon to purchase.

Now that private industry will play an important part in the fight to hold sales prices of finished and used homes to reasonable levels, OPA will concentrate on the enforcement of dollars and cents ceilings for materials and services going into structures. The flat prices will cover millwork, lumber, brick and tile, plywood, screens and windows, roofing, siding, insulation, heating equipment, hardware, soil pipe, plumbing supplies, etc.

In addition, services controlled will include painting and paper hanging, renewing of roofs, plumbing installation and other work adapted to supervision.

"Increased Supply Needed."

In attacking the OPA proposal to slap controls over the prices of new structures, the National Association of Home Builders, spearheading private industry, declared that the only way to prevent a serious inflation was by increasing the supply to meet the tremendous demand.

"Although swamped with applications for new houses," Joseph E. Merriom, president of the association said, "the home builders cannot complete the large new developments which are needed to ease the housing shortage until they have assurance from the government that manufacturers of badly needed materials and equipment will be aided in getting into full production immediately.

At the same time, Frank W. Cortright, executive vice president of the association, set out the organization's six-point program for speeding construction and counteracting inflationary tendencies:

1. Continue present price controls on building materials for only so long as is necessary. As rapidly as an item is found to be in ample supply, it should be removed from price control.

2. Inaugurate an active program by the Civilian Production agency, successor to the War Production board, to control the inventory of short items in order to eliminate the possibility of hoarding.

3. Start an active co-ordinated campaign by government agencies to increase the supply of scarce building materials, and, if necessary, grant price and wage increases to break bottlenecks.

4. Builders, realtors and financing institutions will conduct a co-operative program to maintain non-inflationary prices of homes.

5. All segments of the home construction industry will formulate a co-operative program to rapidly increase the supply of homes in all classes.

6. The Veterans' administration, the United States Employment service and other governmental agencies should make immediate provision for the channeling of vets and experienced workers into the construction field.

In the matter of pricing of used homes, close supervision by FHA and private financial institutions will be relied upon to keep costs within reasonable bounds in the absence of ceiling regulations.

Few Old Buildings Sold.

Realty activity has been lively since 1939 in the face of the housing shortage, but inability of property owners to find new quarters has served to decrease the supply of old buildings. Even so, 84 per cent of the localities reporting to the National Association of Real Estate boards revealed price increases, averaging 12½ per cent.

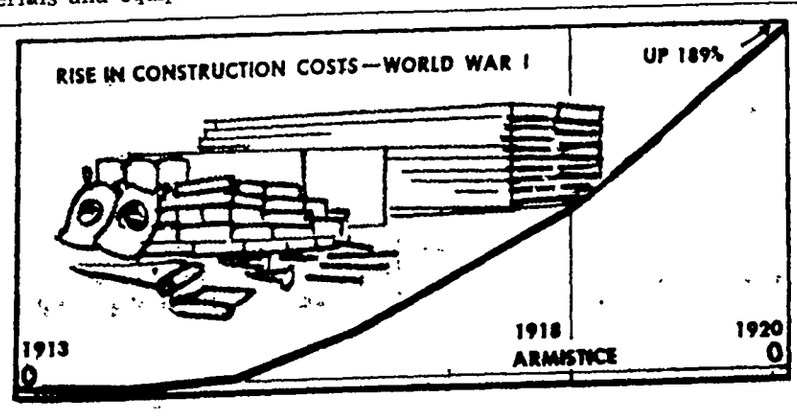
Economists have calculated that normally prices of single-family homes have approximated 100 times the monthly rental of purchasers. In July of this year, however, statistics showed that in Denver, Colo., costs of buildings were 95 per cent over this ratio; in Cleveland, Ohio, 65 per cent over; in San Francisco, Calif., 59 per cent; in Chicago, Ill., 47 per cent; in Atlanta, Ga., and New York City, 38 per cent, and in Dallas, Texas, 34 per cent.

With property owners now able to move more freely, and demand for housing exceeding new construction at the start, the turnover of used homes may become greater in the immediate future. To check an inflationary spiral then, finance institutions will have to be careful in appraising the real value of property to prevent burdensome mortgage payments or serious losses in future years.

Having indicated its preference for private regulation of the real estate market, the administration will provide ample opportunity for a real examination of its practicable processes in a period of real national emergency. The experiment will be interesting to follow.

WHAT HAPPENED LAST TIME

In the 1913 to 1920 inflationary period, labor costs did not rise as much as building material prices. The total cost of construction, however, increased substantially during and after the war. The rise between 1913 and 1918 accounted for 40 per cent of the total inflation. In the two years between the end of the war in November of 1918 and December, 1920, prices went up rapidly, accounting for 60 per cent of the inflation.



Veterans' SERVICE BUREAU

EDITOR'S NOTE: This newspaper, through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.

New Discharge Plan

The army has followed the lead of navy in ruling, as of November 10, that any G.I. with three children under 18 years of age is eligible for discharge, despite age or length of service.

At the same time the army lowered total points for discharge eligibility to 55. These two new rulings answer many questions which have come into the office of the Veterans' Service Bureau editor in Washington during the past week from throughout the nation.

In the meantime, the Veterans' administration has announced a streamline procedure in its finance office with the appointment of Frank W. Kelsey as assistant administrator in charge of the Veterans' multi-billion dollar finance service. At the present time, according to Veterans' headquarters, the treasury department is issuing checks at the rate of $28,000,000 per year upon authority of vouchers certified by the Veterans' administration finance service. This branch of the administration service is the watchdog and clearing house for the billions of dollars handled, representing disbursements for government life insurance, pensions and other benefits provided veterans and their dependents.

Questions and Answers

Q. I'm the widow of a World War I veteran and am getting a pension of only $30 per month. Why is it a widow of a World War II veteran receives $50 monthly pension? Mrs. W. K., Charlottesville, Va.

A. All widows of both World War I and II get pensions of $50 per month if their husbands were killed in action or died while in service. If the veteran died after he was discharged, the pension is $30 per month.

Q. My son is in a navy hospital in Washington, D. C., with a broken knee, suffered when he was thrown from an automobile while on a 72-hour leave. Will he be able to get a pension if he was on leave at the time of the mishap? After he is discharged he wants to enter an undertaking school. Does that require a high school education? Mrs. P., Cumberland, Md.

A. The Veterans' administration says that merely because a man is on leave at the time of an injury does not mean that he is barred from obtaining disability payments. The navy will have to determine if the injury was received in the line of duty which may or may not be while on leave. If the injury was received through no misconduct of the veteran, the chances are he will be entitled to disability pension. The undertaking profession is counted as vocational training and the veteran does not necessarily have to be a high school graduate.

Q. I will be discharged from the army soon. I would like to know the names and locations of some schools that teach refrigeration and air conditioning, practical experience along with the studies.—W. W. S., Washington, N. J.

A. The Veterans' administration advises that you consult an army counsellor at a separation center or write directly to your nearest Veterans' administration regional office.

Q.—I want to know if a man who has been court - martialed has a chance to get out if he has three little children. My allotment has stopped and has been for some time. Mrs. N. M. S., Blairsville, Ga.

A. The war department says it would depend upon the nature of your husband's offense whether he can be released or not. Suggest that you write the Judge Advocate General, War department, Washington, D. C., and give all details concerning your husband.

Q. My son made an allotment to me of $15 per month the first year, which I received. The three and a half years he has spent overseas I have not received it. It was taken out of his pay up to the month of his discharge. Where shall I write in regard to collecting the amount due? T. G. W., Milwaukee, Wis.

A. Write to the Office of Dependency Benefits, War department, Newark, N. J.

Q. How many points does a marine need to be discharged? Does a marine need the same points as the navy or the army? Mrs. J. F., Sturgeon Lake, Minn.

A. As of Nov. 10 a marine needs 50 points for discharge.

Q. My husband was killed in action in Italy, June 12, 1944, and I have never received any information as to how he was killed. Is it possible to obtain this information? Wife, M. E. H., Kosciusko, Miss.

A. Write to the Casualty branch of the Adjutant General's office, War department, Washington, D. C.

Plenty of Fun in Store With Circus And Tent That'll Hold the Lion Tamer

By Ruth Wyeth Spears

CIRCUS TENT FITS OVER A CARD TABLE OR A WOODEN FRAME
BIG TOP
PATTERN 289
FULL-SIZE CUTTING AND PAINTING GUIDE FOR ANIMALS AND CLOWN AND DIRECTIONS FOR TENT

ELEPHANTS, giraffes, lions, clowns and trained seals—as many as you want to cut out and paint. A circus tent big enough for little boys and girls to get inside. It all adds up to just about the most exciting Christmas you can imagine, and fun for months and months to come. The tent fits over a card table, and may be folded away in a jiffy. The animals and clowns may be put away flat or lined up on a shelf to add a jolly note to the children's room.

* * *

All this is made with a pattern that gives actual-size guides for cutting the clowns and animals out of plywood or heavy cardboard. Complete directions for making the tent of unbleached muslin and actual-size guide for stitching the words BIG TOP on in bright bias tape are included. There are detailed directions for painting the life-like figures in colors, and for making them stand alone. NOTE: The BIG TOP Circus Pattern No. 289 is 15 cents. Send order direct to:

ASK ME ANOTHER?

A General Quiz

The Questions

1. Is arsenic a metal, salt or plant?
2. Is the governor of Alaska appointed or elected?
3. Does a nickel or a cent contain its market value in metal?
4. The largest number of Indian tribes are found in what state?
5. How many colors are visible in the rainbow?

The Answers

1. A silvery, brittle metal.
2. Appointed.
3. No.
4. Oklahoma.
5. Seven — violet, indigo, blue, green, yellow, orange and red.

SNAPPY FACTS about RUBBER

A synthetic rubber developed entirely from petroleum gases is now being used in the manufacture of truck-tire inner tubes. Called Butyl, the new synthetic provides an extra margin of safety against puncture, holds air much longer.

Since Pearl Harbor, the United States has produced as much synthetic rubber as the entire world's supply of natural rubber for the 18 years from 1900 through 1918.

The rubber industry's pre-war capacity of 65,000,000 tires a year has been increased to more than 110,000,000 civilian tires annually.

SCHOOL NEWS

SCHOOL CALENDAR

Dec. 21. School ends for Christmas vacation.

Jan. 2. School begins following holiday vacation.

MANY ON HONOR ROLL

The completion of the second six weeks at Klemme High School found seventeen students vying for places upon the school honor roll. Three Freshmen, two Sophomores, six Juniors and six Seniors received grades, the lowest of which was B.

Alice Anderson Leads

Alice Anderson of the Sophomore Class had the honor of being the only student to receive straight A's. Phyllis Christiance and Marcille Josten, Juniors, and Jeanne Trumbell, Senior, were close behind as they received A or A minus in all scholastic work.

Of the thirteen students who received a B grade or better in all academic work the Senior Class is represented by Lois Ann Avery, Ruth Bell, Eugene Beier, Ronald Brinkman, and William Cosgriff; the Juniors by Peggy Coobs, Dorothy Ellingson, Elizabeth Goll, and Emily Johnson; the Freshmen by Phyllis Boland, Donna Fjetland, and Mildred Meinders; and the Sophomores by LaVonne Beier.

SEVENTH AND EIGHTH GRADE SCHOOL NOTES

—Reporter, Gloria Haefner

Nearly half of our room was absent this week because of illness. We hope they will be back next week.

Today in Art we were making free-hand Christmas posters.

The Eighth Grade is studying the War of 1812 in History The Seventh Grade has started to study about the United States in Geography.

100% Spellers

The following received 100 per cent in Spelling in the 7th Grade: Sondra Bridges, Nellie Greiman, and Charlotte Nuehring. In the 8th Grade: Gloria Haefner, Luella Priebe and Lillian Wille.

FIRST AND SECOND GRADE SCHOOL NEWS

Miss Halfwassen, Teacher

The following pupils in First Grade were neither absent or tardy this past six weeks:

Gary Baack
Connie Jo Bisom
Berleen Bridges
Martin Brinkman
Eva Thiemann

Light after Darkness

This is our brightest Christmas in a long, dark time.
Every light on every tree—every window that greets night with cheerful challenge—is a shining symbol of the passing of war's shadow.

There is radiant happiness in family gatherings this year.
Men are coming home from war. And those who hear
their Christmas carols under strange skies are closer,
nearer to home than they have been in a great while.

For many, this will be a wistful Christmas—but a Christmas
brave and strong in the knowledge that those who bought victory so dearly will make tomorrow's world a brighter place for us all.

The Season For It

Jep Juhl of Marcus thinks it is a good policy to keep out of the way when a nephew starts shooting pigeons. Recently Juhl's nephew, Glenn Jorgensen, was shooting pigeons on the Juhl farm. Jep was pointing skyward at some pigeons when the boy fired. Mr. Juhl's finger was in the way and received 10 beebees in one finger. It was possible to remove several of the small shot.

Under Tractor

Alfred Leyh, farmer near Sumner, luckily escaped serious injury recently while plowing when the tractor pased over him. He was plowing close to a fence and had stopped to remove something. He jumped over one of the wheels, catching his jacket on the clutch lever which held him partly off the ground. The tractor jerked forward and Leyh rolled underneath but the wheel did not run over him. Leyh received a dislocated shoulder and cuts down his back.

People Make Fun of Mrs. Beulah Hankins

INDIANAPOLIS, INDIANA.—Mrs. Beulah Hankins, who lives at 634 Fletcher, wrote an amusing letter to Faultless Starch Company recently. She said,

"I must tell you about your wonderful starch. I sure think it's swell. Several people make fun of me for not boiling my own. They say this starch is for lazy people. I have four years old and I iron from fifteen to fifteen suits of clothes each week for him. I love to iron them as Faultless Starch makes easy ironing. I also have twins, eight months old, and they have a laundry—from twenty to twenty-five dresses a week and most of these are white ones. They iron both and smell good. Thanks again for Faultless Starch. It saves me many hours of ironing."

SAVES ME AND WORK

That probably the most wonderful letter anyone could write about Faultless Starch! Mrs. Hankins is a wife and mother and she has found that Faultless Starch saves time and work for her. She makes without cooking and she has found that Faultless Starch makes ironing easy. She gets a kick out of people saying that her Faultless Starch is for lazy people. Only she isn't lazy!

MAKES A SPECIAL WAY

If you're busy, too—especially on washing and ironing day—you deserve time-saving and work-saving help. Faultless Starch can give it. Just see Faultless Starch is a special way to help you through washing and to save you from ironing. So why not try Faultless Starch? All you need do is ask your grocer for it. Then you can make perfect hot starch without cooking! And you get ironing so smooth, easy and beautiful. It's yours for the asking. Faultless Starch!—Adv.

PAZO for Simple PILES
Relieves pain and itching
PAZO IN TUBES
Millions of people suffer simple Piles; have found relief with PAZO ointment. Here's why: First, PAZO ointment is so soothing to inflamed areas—relieves pain and itching. Second, PAZO ointment lubricates hardened, dried parts, helps prevent cracking and soreness. Third, PAZO ointment tends to reduce swelling and check minor bleeding. Fourth, it's easy to use. PAZO ointment's perforated Pile Pipe makes application simple and thorough. Your doctor can tell you about PAZO ointment.
SUPPOSITORIES TOO
Some persons, and many doctors prefer to use suppositories, so PAZO comes in handy suppository form. The same soothing relief PAZO always gives.

Wool Blindness

Open-faced Rambouillet sheep of the U. S. department of agriculture's breeding laboratory at Dubois, Idaho, have proved again that wool blindness is a definite handicap. Last year the herd excelled by 25 per cent the wool production of commercial flocks under similar management. The open-faced sheep also produced an average of 12 per cent more pounds of lamb per ewe. These figures confirm early work of Prof. P. E. Neale of New Mexico A & M, who has proved conclusively that wool on the face hinders sheep in finding feed and sometimes results in their becoming separated from the flock.

IMPROVED UNIFORM INTERNATIONAL
SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D.
Of The Moody Bible Institute of Chicago.
Released by Western Newspaper Union.

Lesson for December 23

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

THE MESSAGE OF CHRISTMAS TO THE WORLD

LESSON TEXT: Luke 2:1-14.
GOLDEN TEXT: Glory to God in the highest, and on earth peace, good will toward men.—Luke 2:14.

Christmas again! Yes, and it's going to be a joyful Christmas this year, isn't it? Let's not miss a single bit of the joy and gladness of the season. Let's observe all the precious customs and traditions. Let's share in the pleasantness and the laughter. Some may have to do it with a sense of sadness hidden in their hearts, but even they will join us in really keeping Christmas this year.

But don't forget to keep Christ in your Christmas this year as never before! We who know Him should realize how much the world needs Him. We should see in the months just ahead our greatest opportunity to make Him known.

Our lesson topic is "The Message of Christmas to the World." What is that message? Here it is:

I. Make Room for Jesus! (vv. 1-7).

"It came to pass"—yes, it always does when God has given His promise. For seven centuries God had said, "He is coming," and then He came. God rules the affairs of this world even though thoughtless and unbelieving men not only grieve Him, but often defy Him.

Jesus came—but He came to a manger, "because there was no room for him in the inn." Is it not the same today? There is no room for Him now in the hearts of most men. Is He wanted in our places of business, in our governmental offices, in our social gatherings?

Remember, it was not because they hated Him that there was no room. It was just that they were "preoccupied." That is the trouble in men's hearts today. They should have made room in the inn for Jesus even though everyone and everything else must be turned out, and we should make room for Him no matter what else or who else must go. They would have made room for Jesus had they known who He was. We do know, and yet we do not make room. Why not? (Jer. 17:9; John 15:24; Rom. 8:7)." (John W. Bradbury).

That is the message of Christmas! Make room in your heart, in your life and in your home for Jesus! Then go quickly and

II. Tell Others About Jesus! (vv. 8-12).

The religious leaders slept soundly the night Jesus was born. They knew the prophecies of His coming, but they were not looking for Him. Perchance some of them slept in the very inn where He could not be received.

But the shepherds were awake. They knew that something unbelievably great had happened, for the heavens were ablaze with celestial glory.

At first they were afraid, but they were soon comforted by the words "Fear not." How characteristic that message is of the whole gospel testimony. Fear not, there is salvation; Jesus has come to seek and to save the lost.

But be sure to note that such a message is not just for one's personal joy and encouragement; it is for "all people" (v. 10). The shepherds realized that and the verses following our lesson tell us that "they made known" what they had seen (vv. 17-20).

How great that need is today! After all these centuries since Jesus came there are still multitudes of people on this earth who have never heard about our Saviour. There are children who would ordinarily have been in church and Sunday school who, because of the war, have grown up in heathen darkness.

Others there are who have heard but have not responded, and we must go to them once more this Christmas and tell them that "a Saviour, which is Christ the Lord" was born in Bethlehem.

Make room for Jesus, and then make Him known to others. That will lead you to

III. Praise God for Jesus (vv. 13-14).

The angels could hardly wait with their praise. "Suddenly" a multitude of the heavenly host appeared, praising God for the blessed message of peace and good will.

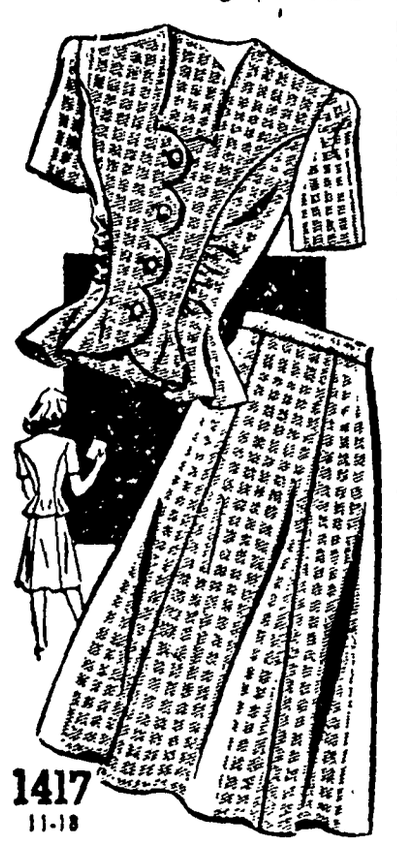
The Christian life is quite incomplete and unbalanced if it does not include much praise. The Lord is worthy of all the praise of every believing heart this Christmas Day!

The writer of these notes extends to you the heartiest of good wishes at this glad Christmas season. He pleads with you if you are not a Christian, make room for the Saviour in your heart! Then, let us all make Him known everywhere, to the praise and glory of His name.

It would please the one who prepares these notes to have a word from his friends everywhere, assuring him of their interest and prayers. Just a postcard will do. The address is at the head of the column. Don't expect a reply, but be assured that he will pray for you.

SEWING CIRCLE PATTERNS

A Smart Junior Two-Piece Dress



YOU'LL rate more than a passing glance in this smooth junior two-piecer with scalloped closing and pert flared peplum. The gored skirt is simple and flatters every figure. An ideal two-some for gay holiday festivities.

Household Hints

Cut an old rubber stair tread or doormat into strips and tack these to the steps of your step ladder. These treads prevent slipping. Then tack other pieces on the bottom of each ladder leg. These prevent the ladder's slipping.

—•—

Arrange canned foods so last year's cans are in front where they will be used first.

—•—

A paste made of baking soda and water will remove coffee stains from enameled kitchen ware.

—•—

Apply a little colorless nail polish in the area where a buttonhole is to be worked. As the polish dries, it stiffens the cloth and working the holes is thus made easier.

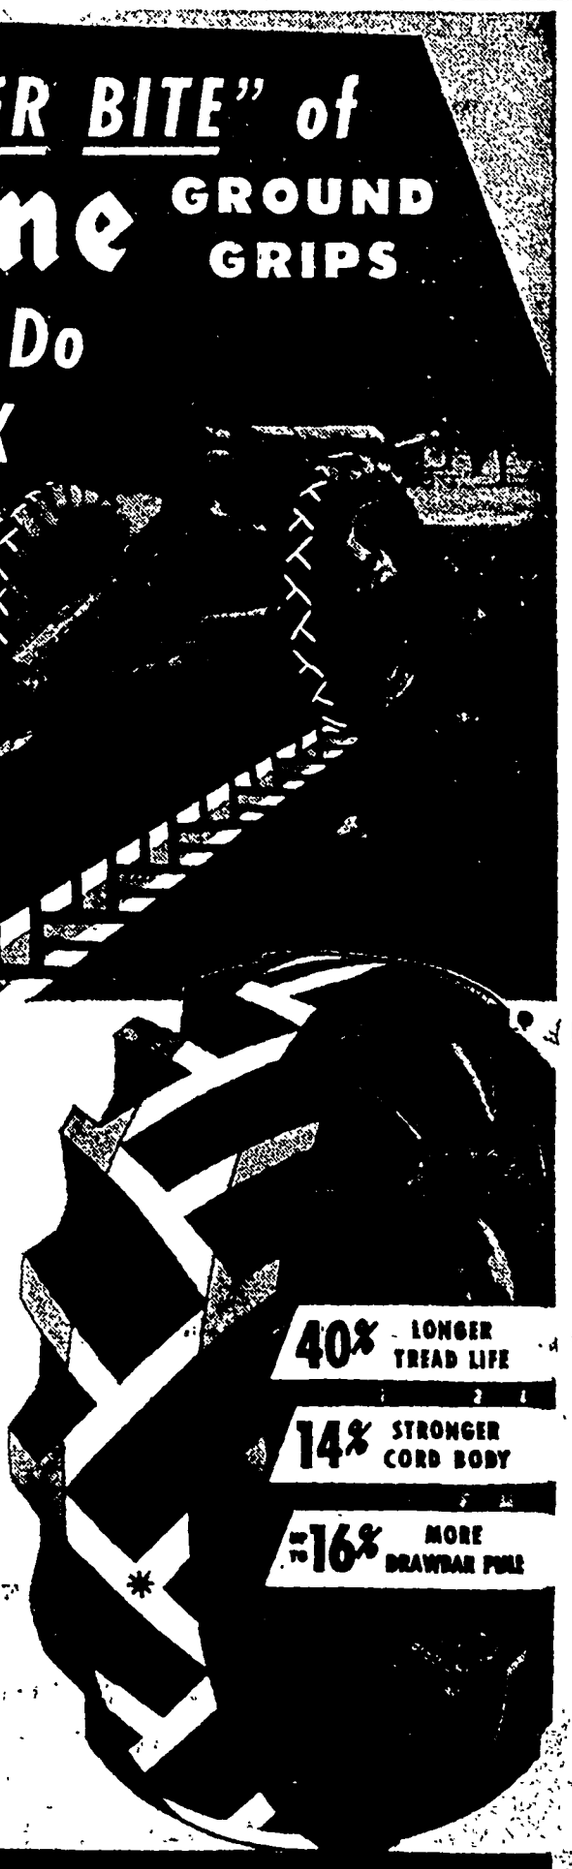
THE GLESSNER COMPANY, FINDLAY, OHIO — MONEY BACK GUARANTEE

It's the "CENTER BITE" of Firestone GROUND GRIPS that helps You Do MORE WORK



ONLY one tractor tire has the *patented* "Center Bite" tread design . . . that's the Firestone Ground Grip. This "Center Bite" will give your tractor up to 16% more pull at the drawbar. That's because the triple-braced bars cross at the very heart of the traction zone where the center of your load falls. And it doesn't catch trash and clog up like open-center treads.

But the extra pull of a "Center Bite" Ground Grip tire is not its only advantage. It has a 40% longer tread life and the cord body is 14% stronger. That is why more farmers use Firestone Ground Grips than any other make.

You will find that you can save time, money and do a better job of farming with Firestone Ground Grips . . . the only tires with the "Center Bite."

*Area in white shows the "Center Bite" traction zone, not found in other tires because of Firestone's exclusive patent rights.

Listen to the "Voice of Firestone" every Monday evening over NBC

Methodist Plan Watch Night

A "Watch Night" program for both Liberty and Klemme Methodist churches will be held at the Klemme church on New Year's Eve. Recreation, refreshments and devotional service.

Greetings

The foundation of all business is friendship, and a store must earn the respect and friendship of a community by rendering SERVICE. We are reminded of the Scripture passage which reads:

"He who would be the greatest among you must be the servant of all."

And at this Christmas time we want to tell you that we appreciate your friendship and wish for you a holiday joy, with a full measure of prosperity in the years to come.

Arthur Wellemeyer

Local Happenings

Klemme and Vicinity

Ray Jorgenson, Jr. was at Forest City Monday on business.

Mrs. Benn Coobs and daughter Peggy were Mason City visitors on Monday.

Mr. Harry Heite of Kansas City came Saturday for a visit at the A. J. Kudje home.

Mrs. Frances Ridder Mrs. Glen Bridges and Mrs. L. A. Ridder were Mason City visitors Friday.

Mrs. C. G. Waterman, Mrs. Lyle Wilcox, Mrs. A. H. Dulmes and Mrs. R. A. Jorgenson were Mason City visitors Friday.

Mrs. Elmer Arnold, Roy, Evelyn and Bruce, and Miss Leona Lau were Mason City visitors Saturday.

Dr and Mrs. Earl G. Schaeffer of Forest City were visiting with Klemme friends Saturday afternoon.

Ernest "Stub" Lewis was in the Twin Cities a couple of days the latter part of the week attending a dealers convention.

Pvt. Donald Schaefer of Brookings, South Dakota, is home on a furlough visiting with his parents, Mr and Mrs. Emory Schaefer of Liberty township.

Mr. and Mrs. Ray Jorgenson, Jr. and Judy, and Mr. and Mrs. R. A. Jorgenson, Sr. were entertained to dinner Monday evening at the Dr. A. H. Dulmes home.

Mrs. Mary Waterman entertained to a duck dinner Sunday, Mr. and Mrs. C. G. Waterman; Mr. and Mrs. Lyle Wilcox and Mrs. Lena Schroeder.

Mr. and Mrs. Ed. Becker and Mr. and Mrs. Geo. Schoenweter attended the Messiah concert given at the Lutheran church in Forest City Sunday evening.

Mr. and Mrs. Lyle Burr and children, Carolyn and Bobbie, of Mitchellville came Saturday and visited until Sunday afternoon at the parental Mrs. Naska Bock home.

Mrs. Naska Bock entertained at a pre-Christmas dinner Sunday Mr. and Mrs. Lyle Burr, Carolyn and Bobbie of Mitchellville; Mr. and Mrs. Mitchell Bock and Jimmie; and Edwin Bock and daughter Virginia of Garner.

Mrs. Aug. Baack received the sad news that her brother Roman Penkert died at New Ulm, Minn. The funeral was held Monday. Mrs. Baack was unable to attend as she had been ill with the flu since last week Wednesday.

Mr. and Mrs. Art Wellemeyer received word Saturday that their son Andrew (Jack) was ill with pneumonia in a Springfield, Mo. hospital, but that he was getting along well "Jack" is the owner of a ladies ready-to-wear store in Springfield.

Dean Jacobs and Eddie Grosshuesch left Friday noon via train from Mason City for Plymouth, Wisconsin, to spend the week end at Mission House College and the Seminary visiting with Ewald and Ruben Grosshuesch. The boys returned home Sunday evening.

Naval Aviation Cadet Keith Stille and wife of Liberty, Mo., came last week and are enjoying an extended furlough visiting at the parental Lewis Mau home and with other relatives and friends in the community. After the first of the year Keith will take further training at the Ottumwa, Iowa, Naval Air Base.

Mrs. Bertha Schlei entertained to dinner Sunday noon Mr. and Mrs. Geo. Thieman; Mr. and Mrs. Irwin Haupt and Ewalt Josten and family. In the evening the following were gests: Mr. and Mrs. Fred Nuehring, and Charlotte; Mr. and Mrs. Herman Priebe; and Mr. and Mrs. Ross Eckelbuerger and son of Clear Lake.

America's Greatest Comics! You will find Jiggs and Maggie, Blondie and Dagwood, Donald Duck, Barney Google, Skippy, the Katzenjammer Kids, Prince Valiant, Snookums, Flash Gordon, The Little King, and all of your favorites every week in the SUNDAY CHICAGO HERALD-AMERICAN.

Mr. and Mrs. E. G. Beier and Mrs. Leonard Swanson were Forest City visitors Monday.

Klemme friends have heard from Lt. "Pat" Patterson, who is still stationed in Germany. He is the supervisor of a labor area and recently enjoyed a two weks vacation in Switzerland. He expects to return home by next June. Mrs. Patterson is teaching at Missouri Valley.

Mr. and Mrs. Benn Coobs and daughter Peggy Lou, and Mr. and Mrs. Wallace Pavey drove to Webster City Sunday afternoon and were entertained to supper at the Wayne Pavey home, after which they attendd the Messiah concert in which over two hundred singers took part. Wayne Pavey sang with the choir. Every town in the county were represented in the vast choir.

Johnnie Schwichtenberg has New Address Again

In order that our friend Johnnie won't lose out on his fan mail, we are printing his latest address:

Pfc. John W. Schwichtenberg,
A. S. N. 37685260
Sqdn. B-3, Rifle Range,
3704 A. A. F. B. U.,
Keesler Field, Biloxi, Miss.

Johnnie's letter further states, "This is a rough place to be permanently assigned. We are stationed 15 miles from Keesler Field and 20 miles from the nearest town and transportation to the field is poor, and with a theatre or any kind of entertainment, time passes by rather slow. Never-the-less we do get mail, if it does get here by pony express. Johnnie."

MERRY CHRISTMAS TO YOU

The Publisher

'TWAS THE NIGHT BEFORE CHRISTMAS . . .

(World War II Version)

Twas the night before Christmas and all through the house
The only one able to stir was a mouse,
The rest of the family from papa on down
Were soundly asleep after hiking to town

The buses went flying right past them pell mell
And the street cars and taxis ignored them as well
While the family jalopy, as you might have guessed
Was waiting for rations and taking a rest

The kids snuggled close in low degree heat
And dreamed they had icicle toes on their feet
The baby in dreams bounced a synthetic ball
And saw plastic soldiers march on the wall

In his sleep Papa uttered to Santa this plea
If you've any old gifts bring them to me"
And Mamma delirious smiles in her bed
As visions of sweet foods danced in her head

The nylons that hung by the chimney were rare
Indeed, if you find some St Nick put them there.
The packages wrapped up in V shapes and seals
Said 'Hirohito and Hitler are a couple of heels'

And out in the pantry in sarcastic sham
Stood saccharin candy and jelly and jam
While an eggless and butterless sugarless cake
With its gay decorations denied it was fake

Veterans' SERVICE BUREAU

EDITOR'S NOTE: This newspaper, through special arrangement with the Washington Bureau of Western Newspaper Union at 1616 Eye Street, N. W., Washington, D. C., is able to bring readers this weekly column on problems of the veteran and serviceman and his family. Questions may be addressed to the above Bureau and they will be answered in a subsequent column. No replies can be made direct by mail, but only in the column which will appear in this newspaper regularly.

Regional Expansion

In line with the Veterans administration's objective of taking the administration out to the "grass-roots" of the country, rather than centralizing the organization in Washington, Administrator Omar N. Bradley has announced the opening of 21 new centrally-located regional offices and the contracting for approximately 300 advisement centers.

Regional downtown offices were opened in Des Moines, Wichita, Atlanta, Minneapolis, San Francisco, Portland, Indianapolis, Los Angeles, Muskogee, Okla., Phoenix, Helena, Mont., Detroit, Milwaukee, Cleveland, Chicago, Newark, Hartford, Charleston, W. Va., and Charlotte, N. C.

New advisement centers were opened at Greenville, S. C.; Benedict college, Columbia, S. C.; University of Kansas at Kansas City, Mo.; Tuskegee institute, Tuskegee, Ala.; Eastern Oregon college at La Grande, Ore., and Superior State Teachers college, Superior, Wis. Services of the advisement centers are available to all veterans planning to continue their education or take vocational or rehabilitation training either under public law 16 or the G.I. bill of rights.

Regional offices function as the operational offices of the administration. Individual case records are maintained at these offices and claims are rated and adjudicated. Almost all benefits administered by the administration can be handled at the regional office level.

Questions and Answers

Q. In July, 1944, my brother was killed on Guam. I was made his beneficiary in his insurance policy. But before he went across he made a will that has never come to light and this is causing some trouble among the heirs as he was single. Another brother in service says a duplicate will was made and kept on record somewhere. Could you tell me where this will is kept?—R. A. B., Houston, Mo.

A. Of course we would have no knowledge where the will might be. You might write to the finance officer of his outfit. If you are referring to national life insurance, the money will be paid to whoever was named beneficiary in the policy regardless of any will.

Q. Would it be possible for a soldier to get a release from the army, if he is 25 years old, has a wife and three small children, who live in the country with no modern conveniences. The wife's health is not good and a 21-month-old baby daughter must have an operation for removal of a bone growth on her foot. He is now somewhere in Japan aboard a ship?—Mrs. M. E. M., Port Allegany, Pa.

A. He is eligible to apply for release because of the three children.

Q. I have a friend who has been in the army since December, 1944, He left the states on July 2, 1945 and is now in Japan. He has no dependents and is 19 years old. Will you please tell me how many points he has and how long it will be before he is sent back to the states? — Miss D. P., Dennison, Ohio.

A. He has approximately 16 points as of December 5, 1945 and needs 55 to become eligible for discharge. He probably has many more months to serve.

Q. Will a mother who has a son killed in action, and who is physically unable to make her own support, lose her pension if she marries? Will a father's pension be discontinued if he marries? — Mr. T. S., Jackson, Tenn.

A. In the case of a parent, the question of marriage is not considered. The pension is based upon dependency and whether the parent, mother or father, has sufficient income to keep them.

Q. My son was killed in Italy October 1 a year ago. His wife is named as beneficiary in his insurance but hasn't received any yet. What is the delay? — A mother, Brownsville, Tenn.

A. Have you filed a claim for your insurance? Suggest that you write to your nearest Veterans administration office, probably at Nashville or Memphis, set out all the facts and am sure you will get some action.

Q. When a soldier has been through hell of the battlefield for two years and has been discharged with a tired and nervous condition which can be cleared up by being at home and rest, how can he get this psychoneurotic name off his discharge so he can go to college?—J. J. C., Westby, Wis.

A. You have evidently received a medical discharge and would suggest that you make application to your regional Veterans administration for a re-examination and an appeal from the medical findings.

Credit Should Be Given Where Credit Is Due!

The Chinese tell a little story about a pauper couple that used to sleep under a bridge crossing the Yangtze river. Each night as they would go to sleep they would think over the day's activities.

One day the richest man in the town—the banker—was crossing the bridge, muttering to himself about his losses that day at the marketplace.

The pauper's wife heard the muttering, and said to her husband, "Fortunate indeed are those of us without financial worries."

Her husband felt elated and, throwing out his chest, said: "Yes, and to whom do you owe your fortunate position?"

Upset Stomach

Relieved in 5 minutes or double money back

When excess stomach acid causes painful, suffocating gas, sour stomach and heartburn, doctors usually prescribe the fastest-acting medicines known for symptomatic relief—medicines like those in Bell-ans Tablets. No laxative. Bell-ans brings comfort in a jiffy or double your money back on return of bottle to us. 25c at all druggists.

HER BOSS LIKES HER WHITE UNIFORMS

HUNTSVILLE, ALABAMA.—Miss Minnie Belle Poole must have a particular boss. Here is what she wrote in a letter about Faultless Starch:

"I like Faultless Starch best of all because I work where I have to wear white uniforms. So with Faultless Starch I can keep them just like my boss wants them kept. Thanks to Faultless Starch! It is everything its maker says it is."

One of the wonderful things about Faultless Starch is the way it makes white things come out beautifully white, and colored things come out beautifully bright. There is a reason for it. You see, Faultless Starch is made a special way—with special starch and special extra ingredients. It doesn't turn brown under the iron and it doesn't put a film over the cloth. It penetrates the fabric—gives the cloth the "finish" from the inside out, instead of by coating the outside.

EASY—FOR BUSY FOLKS

Another wonderful thing about Faultless Starch is that it makes it EASY for busy people to do beautiful starching and ironing. It takes only a minute to make perfect hot starch with Faultless Starch. Just cream it with a little cool water and add boiling water while stirring — that's all — it's ready to use.

Ironing is so easy, too. Faultless Starch contains ironing-aids that stop that "sticky" iron. That makes the iron just fly along—smooth and easy. No wonder it's easy to do beautiful ironing, because Faultless Starch makes ironing a joy—not a job.

You should try Faultless Starch right away. You'll like it so much you'll never want to be without it. —Adv.

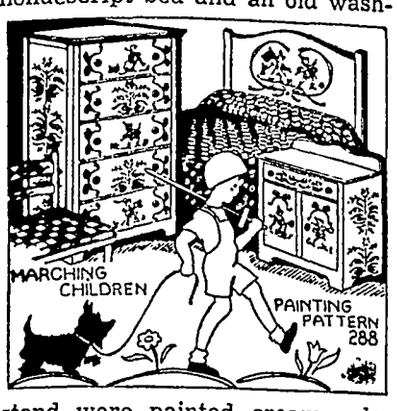
Harmonize the Odd Pieces for Nursery

THERE is no trick in matching up an ill-assorted lot of furniture for the children's room. The set shown here is typical. An old chiffonier, a cut-down chair, a nondescript bed and an old wash-



stand were painted cream color and then decorated with a gay painting design of bright red bow knots, quaint flowers and jolly figures of marching children.

This, with his Scottie and wooden sword, is one of half a dozen appealing children to be painted on drawer fronts and panels. All you have to do is to trace the figures, flowers and ribbons as indicated on the pattern; then follow the color guide, filling in flat tones without any shading. The first thing you know, the figures stand out as real as life. It is a fascinating project, so that the children's room may be a center of attraction.

* * *

NOTE—Painting Pattern 288 with large and small bow knots, flowers and figures of marching children—all different, is 15 cents. Send request direct to:

MRS. RUTH WYETH SPEARS

'Juicy Fleet'

The U. S. navy has a fleet of vessels that sail about reclaiming oil that scums the water's surface, thereby eliminating a dangerous fire hazard. This salvaged "black gold" is used for oiling roadways and in power plants at naval bases.

SNAPPY FACTS about RUBBER

A recent survey reveals that 84.5% of the nation's post-war travelers will prefer to use automobiles as their method of transportation.

It is expected that repair bills on future cars may be reduced by the use of a number of synthetic rubber parts.

Average passenger tire cost per 1000 miles of travel has been reduced from $2.35 to 65c during the last 25 years.

It's the *air* in a tire that carries the load and not the tire itself. Too little air pressure may result in fabric breaks or uneven tread wear.

In 45 years the American automotive industry has produced 88 million motor vehicles.

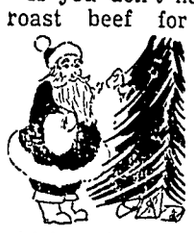
Holiday Hints

If you don't have baked ham or roast beef for Christmas, then you'll want to take full advantage of the plentiful supply of turkeys and have one of these birds.



Roast turkey or plump, stuffed chicken is excellent for a family dinner or a buffet style supper. Don't forget that you can add spice and splendor to the golden brown, roasted bird by serving it with all the trimmings—cranberry fruit relish, fluffy mashed potatoes, light feathery rolls and a bowl of fruits and nuts.

The table will be attractive if it carries a burnished bowl of bittersweet or bells laced together with holly wreaths. Or, you might like a bowl of fruit and nuts set on a shimmering white cloth. Yes, have candles, too, if you like, for they exude the welcome that really spells Merry Xmas.

If you've had turkey recently, then make it with a different stuffing to avoid monotony. There are really loads of ways to try, you know, and they are all excellent. Here is one which will certainly win over the family:

Oyster Stuffing for Turkey.
(For a 12-pound bird)

2 1½-pound loaves of bread (dried)
½ to 1 cup fat, melted
1 teaspoon salt
½ teaspoon white pepper
½ cup minced onion
4 tablespoons poultry seasoning
1 quart oysters, chopped
4 tablespoons melted butter

Remove crusts from bread and cut bread into 1-inch cubes. Toss all ingredients lightly together. All of the stuffing does not have to be baked inside the bird. It may be placed in a casserole to bake or may be made into croquettes to be put around the bird.

The jellied cranberry relish may be molded in any number of interesting shapes—individually, in a loaf, melon or other shape. You'll like this duotone effect:

***Cranberry Fruit Relish.**

First Part:

1 envelope unflavored gelatine
¼ cup cold water
½ cup hot water
1 1-pound jar cranberry sauce
¼ teaspoon salt

LYNN CHAMBERS' MENU

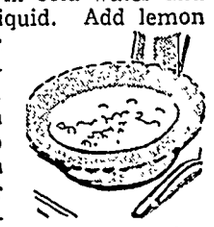
Holiday Buffet
Roast Turkey - Mashed Potatoes
Vegetable Plate of Green Peas, Cauliflower and Carrots
*Raisin or Apple Muffins
*Cranberry Fruit Relish
Lettuce, Asparagus and Tomato Salad
Relishes Fruits Nuts
*Pineapple Souffle
Beverage
*Recipe given.

Soften gelatine in cold water and dissolve over hot water. Break up cranberry sauce in a bowl and pour hot liquid over it. Beat with rotary beater until smooth. Add salt. Pour into the bottom of a mold which has been rinsed with cold water and chill.

Second Part:

1 envelope unflavored gelatine
¼ cup cold water
1 cup hot water or fruit juice
¼ cup lemon juice
¼ teaspoon salt
2 to 3 tablespoons sugar or light corn syrup
1½ cups diced mixed fruits

Soften gelatine in cold water and dissolve in hot liquid. Add lemon juice, salt, sugar or light corn syrup and stir well. Cool, and when mixture begins to stiffen, fold in diced fruits. Pour on top of cranberry layer (which has already become firm) and chill. When firm, unmold and serve.



***Honey Raisin Muffins.**
(Makes 18 2-inch muffins)

2 cups flour
2 teaspoons baking powder
1 teaspoon salt
1 tablespoon sugar
½ cup raisins
1 egg
1 cup milk
¼ cup honey
3 tablespoons shortening

Sift together flour, baking powder, salt and sugar. Add raisins. Beat egg, add milk, honey and shortening. Blend thoroughly. Add to flour mixture, stirring only until flour is moistened. Fill greased muffin pans ⅔ full. Bake in a moderately hot (425-degree) oven for 20 minutes.

***Apple Muffins.**
(Makes 12 2-inch muffins)

2 cups sifted flour
3 teaspoons baking powder
½ teaspoon salt
¼ teaspoon cinnamon
2 tablespoons sugar
1 egg
1 cup milk
¼ cup melted shortening
1 cup finely chopped apples

Sift together flour, baking powder, salt, cinnamon and sugar. Beat egg and add milk, shortening and apples. Add egg mixture to flour mixture, stirring only until flour is moistened. Fill greased muffin pans one-half full. Bake in a hot (425-degree) oven about 20 minutes.

***Pineapple Souffle.**
(Serves 8)

1 tablespoon unflavored gelatine
¼ cup cold water
3 eggs, separated
1 teaspoon grated lemon rind
2 tablespoons lemon juice
½ cup sugar
¼ teaspoon salt
⅔ cup crushed, canned pineapple
½ cup heavy cream, whipped

Soften gelatine in water for 5 minutes. Beat egg yolks slightly and add grated rind, juice, sugar and salt. Cook in double boiler, stirring constantly until mixture thickens. Add gelatine and stir until dissolved. Add pineapple and cool. When mixture begins to thicken, fold in whipped cream and stiffly beaten egg whites. Turn into mold and chill. When firm, remove from mold and garnish with cherries or other fruit.

LYNN SAYS:

Here's How to Remove Stains: Fruit and coffee stains are best removed by stretching the stained part over a bowl and then pouring boiling water from a height until the stain disappears. If the material is still stained after this treatment, hang in the sun to dry.

Milk stains: wash out in cold water while still fresh.

Glue stains: apply vinegar with a cloth.

Ink stains: soak in sweet or sour milk, or wet stains with oxalic acid and rinse.

Mildew stains: if the stain is not too old, it may be removed by applying soft soap and powdered chalk, keeping it moist and laying out in the sun.

Rust stains: soak the spot in lemon juice, then cover with salt. Let stand in sun for several hours and wash in cold water with hard soap. Repeat treatment if necessary.

Old coffee and tea stains: wet spot with cold water; cover with glycerine and let stand 2 to 3 hours. Wash thoroughly.

WORLD FELLOWSHIP OF CHRISTIANS

LESSON TEXT—Acts 10:34-43.
GOLDEN TEXT—The same Lord over all is rich unto all that call upon Him.—Romans 10 12.

Fellowship is impossible where there is prejudice and intolerance. The world is full of it even now, after we have fought a global war to stop such inhumanity of man to man.

It would be a surprise even to some Christian people to learn that "God is no respecter of persons," that with Him a man is not received because he is of a particular race, color, education or social position.

God created all men, He loves all men, Christ died for all men, and every Christian ought to be desperately concerned that all men should hear about their Saviour, and come to know the love of God.

The church of Christ has its greatest opportunity now to show that the things it professes to believe actually work in the relationship of man to man. They will work if we will only let them! Our lesson presents:

I. Principle—God Is No Respecter of Persons (vv. 34, 35).

Peter had learned about God's love for the Gentiles by the vision given him concerning Cornelius. (Read Acts 10:1-33.)

Peter was a Jew, and God now used this vision to teach him a much needed lesson about the carrying of the gospel to the Gentiles. The Jews were (and still are—let us remember it) God's chosen people. However, they were not chosen for their own comfort, convenience or glory, but that they might be channels for the outflowing of God's blessing to all nations.

Cornelius was typical of those in every nation who are ready for the preaching of the gospel. He was a God-fearing, righteous man, but nonetheless in need of redemption. God brought this man, who was ready to receive the message, together with the man Peter, who was prepared to preach it, and the result was salvation.

Whatever it may be that keeps us from carrying the gospel to all nations, we ought to recognize as unchristian, and put it aside. It may be race prejudice, for it still persists; but it may be an equally deadly indifference to the needs of others. Let us, like Peter, go to them and open our mouths (v. 34) to proclaim Christ.

II. Practice—Jesus Did Good to All (vv. 36-41).

The attributes of God are always active. He not only is good, He does good. So the principle, "no respecter of persons," is perfectly exemplified in our Lord Jesus who "went about doing good and healing all that were oppressed of the devil," and we may well place the emphasis on the word "all."

The death of Christ for their sins (v. 39), His resurrection from the dead for their justification (v. 40), the coming judgment for sin (v. 42), and the remission of sins in His name—these are the essentials of Peter's message.

Note how plain is the truth. Jesus has come and has wrought redemption for all who will believe. Now we must choose whether we want Him to be our Judge or our Redeemer. Either He is your Saviour, or He will be your judge. (John 3:17, 18.)

The proclamation of this message of redemption was never completed, even "while Peter yet spake these words, the Holy Spirit fell upon them all" (v. 44). Blessed interruption! Would that we might have more like it in our churches and Bible schools!

This leads up to our last point, namely, that we have a

III. Privilege—We Are to Preach to All People (vv. 42, 43).

Yes, it is a command (Matt. 28: 19, 20), but it is also an unestimable privilege to be called of God to tell all nations about the One in whom they have "remission of sins."

Let us preach that message. Book reviews, political addresses, discussion of civic or social problems will not bring the result. Forums, clubs, discussion groups, unless they have for their subject the Word of God, need not expect anything like this to happen.

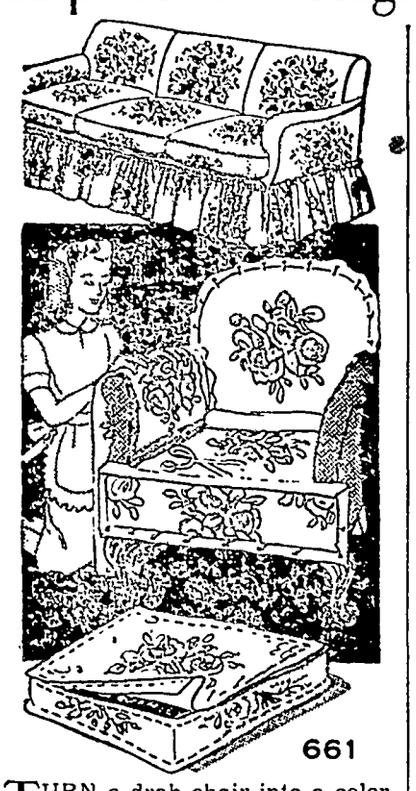
Preaching of the Word of God concerning the person and work of Christ, whether it be in a home (like that of Cornelius) or in a great cathedral (and thank God, some of them do have such preaching), will result in some soul finding Christ and receiving the Holy Spirit.

It is worthy of note that these believers gave evidence of their newfound spiritual life by magnifying God, obeying His word, and testifying to others. It is to the credit of Peter and his companions that they recognized the workings of God's grace in the lives of these Gentiles.

May we also be quick to see, appreciate and encourage every true gospel work, whether it be among our own people or with some other race, whether in our church or in some humble cottage. "God is no respecter of persons."

SEWING CIRCLE NEEDLECRAFT

Slip Covers Brighten the Home



TURN a drab chair into a colorful decoration that transforms a room just by the addition of a slip-cover you've made yourself!

You'll find covers here for chairs and sofas. Instructions 661 have step-by-step directions and information for making slip covers.

Due to an unusually large demand and current conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

A Tale of Tails

Tails of animals have 18 different functions, one of the most important being to balance the animal during locomotion, says Colliers. For example, the long tail as well as the long hind legs of the jumping mouse, zapus hudsonius of North America, enable this three-inch rodent to leap 40 times its own length.

But when the animal has lost its tail, it is no longer able to balance itself during jumps and consequently, is thrown helplessly into a series of somersaults.

Keeps for weeks ON YOUR PANTRY SHELF

NOW! Bake any time...at a moment's notice with Fleischmann's Fast Rising Dry Yeast

If you bake at home—baking day is any day you feel like it, with Fleischmann's Fast Rising Dry Yeast. TRADE MARK

"VEST POCKET" POWER

ELECTRONIC experts have lately outdone themselves in giving us "vest pocket" reception. They have made possible hearing aids easily concealed in the palm of the hand. They have designed radios the size of a cigarette case. Now they give us a postwar edition of the amazing Handie-Talkie—famed GI sending and receiving set. A key to these accomplishments is "Eveready" batteries. One of these storerooms of power, the "Mini-Max" battery, weighs only 1½ ounces. Yet, size for size, it is the most powerful "B" battery ever made.

An "Eveready" "Mini-Max" Battery, with an "Eveready" Flashlight Battery, in the palm of a hand. *Insist on "Eveready" batteries. They're dated to assure freshness. Fresh batteries last longer!*

EVEREADY

BOARD PROCEEDINGS

SECOND ADJOURNED NOVEMBER MEETING

Garner, Iowa, December 3, 1945

The Hancock county, Iowa, board of supervisors met in session on above date with F J. Schoun, Penn Eckels and John Chambers, present.

The minutes of the last meeting were read and approved as read.

WHEREAS, Hancock county, Iowa, has acquired lot 3 and 4, block 1, Grandview addition to Kanawha, Iowa, under provisions of the Public Bidder act and

WHEREAS, Oscar E. Johnson has bid the sum of $50.00 in payment of these lots and it is deemed for the best interests of the taxpayers of Hancock county, Iowa, that said lots be sold.

BE IT THEREFORE RESOLVED by the board of supervisors of Hancock county, Iowa, that a quit claim deed, county as public bidder, be issued to Oscar E. Johnson of Kanawha, Iowa, conveying lots 3 and 4, block 1, Grandview addition to Kanawha, Iowa, and Chairman Penn Eckels is hereby authorized to execute said deed in behalf of Hancock county, Iowa.

On motion and second the resignation of L. H. Halverson, assessor, in Ellington township, is approved.

On motion and second the annual report of Weed Commissioner Ray Hunsley is approved.

On motion and second the amended report of Wm. Henschen on cleanout of D. D. No. 7 petitioned for by Earl G. Peterson et al is approved as affecting lateral A of D. D. No. 7.

This being the 3rd day of December, A. D., 1945, a date heretofore set for final hearing on the final estimates and reports of Engineer Wm. Henschen recommending that labor contracts on D D. No 137 of Charles A. Anderson and on D D. No. 138 and 139 of Needles and Cummins be approved and final payments made, the time for such hearings having arrived, the proof of publications being on file and the board being fully advised, said hearings were held as scheduled in previous resolutions No objections or claims for damages being on file and no objectors being present.

BE IT THEREFORE RESOLVED by the Hancock county Iowa, board of supervisors acting for and in behalf of D D No. 137, 138 and 139, that the reports of Engineer Wm Henschen recommending that final payments be made on contracts of Needles and Cummins of Greenfield, Iowa, on D D. No 138 and 139 and Charles A Anderson on D D No. 137 be and the same are hereby approved and final payments ordered made as by law directed

WHEREAS Hancock county, Iowa, desires to purchase files of the Hancock county Rationing office and

WHEREAS such purchase requires a certified check payable to the United States of America in the sum of $58 00

BE IT THEREFORE RESOLVED by the Hancock county, Iowa, board of supervisors that the county auditor be and he is hereby instructed to execute bill of sale with the United States government for the purchase of four files and draw a warrant therefor on the county fund of Hancock county Iowa

BE IT RESOLVED that the claims hereinafter set out be allowed in amounts designated thereon and the county auditor be and he is hereby authorized and directed to draw warrants on the several funds of Hancock county, Iowa, in the payment of such claims in amounts set opposite each claim all as provided for by law.

Christmas Is All of These

Christmas is the good will shared at the family hearth; the carol sung together; the candle in the window, the glowing faces gathered around the festive board. And it is much more —ever so much more!

We cannot begin to put into words all that Christmas is, nor begin to express how ardently we wish for you the complete enjoyment of Christmas. So, all we can say to you, kind friends, is Merry Christmas To You.

* ● *

Quandt Cafe
Mr. and Mrs. Conrad Quandt

AS the light of Christmas again brightens our faces and lightens our hearts, we turn our thoughts from ourselves to help others. For this is the spirit that first saw the light of day in a stable at Bethlehem, two thousand years ago, and which has endured ever since.

May God bless and protect you and your dear ones and bring happiness to your home this Christmas season.

Christmas Cheer

What A Year 1945 Has Been!

The past twelve months will long be remembered for the many world-shaking events that happened during its fast moving 365 days.

Perhaps the most important of these events so far as the future is concerned, was the San Francisco Peace Conference which gave the world a foundation on which it can, **if it will**, build a lasting Peace. Possibly the threat of the terrible atomic bomb will persuade the nations of the world to **make** the Peace Charter really work.

If this proves to be true, we can all face the future with the assurance that the late war was not fought in vain, and we of this period in history can truthfully say that we have done something worth while to make the world a better place in which to live. May God bless America and make her clean, strong and truly great for the part she can and must play from now on.

For what you and your family did to help win the war, you have our sincere thanks.

The war years with all of the restricitions on both individuals and business were, as you know, very difficult. Your understanding of the situation and your hearty cooperation with us during those trying times is most sincerely appreciated. We hope with you that it will not be very long until conditions become more normal and we can all do many of the things that have long been delayed.

With full hearts we wish you a Happy Holiday Season and a future of Peace, Contentment and Prosperity.

On motion and second the board adjourned to December 17th, A. D., at 9 o'clock A. M.

Attest:
FRED C. MISSAL, County Auditor
PENN ECKELS, Chairman

MRS. ED. BECKER TO HEAD KLEMME RED CROSS WORK

Election Of Officers Held Tuesday For The Coming Year

At a meeting of the Klemme Red Cross workers Tuesday Mrs. Ed. Becker was elected chairman for the coming year, with Mrs. Benn Coobs as vice chairman. Mrs. C A. Larsen was named secretary and Mrs. George Lawhorn, treasurer.

Members on the board of trustees are Miss Rosa Becker, Mrs. J. A Chambers, Mrs. Fred Barz, Mrs. Elmer Schneider and Mrs. Naska Bock.

JOIN THE 4-H CLUB

The young farm boy or girl who hasn't joined a 4-H club is missing an opportunity to gain some valuable experience and training in better farming and homemaking methods. The surprising thing is that most parents who have children in 4-H feel that they gain too. See your local leader or contact the county extension office.

OUR FOREFATHERS

celebrated Christmas sometimes under the greatest of difficulties, to say nothing of danger. Today, in warm, lighted homes we welcome the arrival of Yuletide, without thought of those early hardships. It might make our Christmas a little happier, our hearts a little more thankful, to take thought of these things.

In the reverent spirit of this glorious season we now wish each and every one of you the deep joys which only Christmas can bring.

a very happy CHRISTMAS

CHRISTMAS IS THE TIME

for friendliness, for the open house and the open heart

It is the time, too, for us to greet our friends, to thank them for their consideration of us, and to wish them all a very Happy Christmas.

Ed Melvin Lee Henry

That best part of a good man's life—
His little, nameless unremembered acts
Of kindness and of love.
—WILLIAM WORDSWORTH

Christmas is the season of the open heart and the open door. Let none stand out in the cold or be unremembered.

In this community of good fellows, where each helps share the other's happiness and all do their part towards making the Christmas season enjoyable for each and everyone, it is a privilege to be in a position to serve you. We take great pleasure in wishing you a Merry Christmas.

WEEKLY NEWS ANALYSIS

Resume Wage Talks After Truman Bid for Anti-Strike Legislation; Prize Steer Brings $10 Per Lb.

Released by Western Newspaper Union.

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

U. S. DIPLOMACY:
Charges Double-Dealing

In one of the most boisterous congressional hearings of recent years, wily, silver-haired Maj. Gen. Patrick Hurley ripped into the state department career men for their alleged interference with his efforts to unify China and establish it as a base for far eastern political stability.

Alternately calm and heated, Hurley, recently resigned as ambassador to Chungking, told the senate foreign relations committee that during his discussions with Chinese communists he concluded that certain state department officials had convinced the Reds that his policy for unifying the country under Chiang Kai-shek would be scrapped. Instead, the officials were said to have declared that the U. S. would seek to stabilize Asia with a controlled Japanese empire.

In hitting at the career men, Hurley charged that they sided with imperialist Great Britain, France and the Netherlands for keeping the orient divided to permit the continued exploitation of the subject people.

In alleging underhanded state department workings, Hurley stated that war plans drawn up for the Big Three meet at Yalta and favoring the distribution of Allied arms to Chinese Reds if they were within

Maj. Gen. Patrick Hurley

the area of proposed American landings, were communicated to the communists. As a result, the Reds moved en masse toward the prospective beaches in an effort to secure the arms ahead of Chiang's nationalists.

Mentioning George Atcheson Jr., and John S. Service as two of the career men working against his unification plan in Chungking, Hurley said they returned to the U. S. to be promoted as his superiors.

LABOR:
Truman Scare

Because President Truman's proposal for the creation of fact-finding machinery to speed settlement of industrial strife was reported to have thrown a scare into both capital and labor, General Motors and the CIO's United Automobile Workers agreed to a resumption of negotiations over the union's demands for a 30 per cent wage increase.

At the same time, expert observers looked to settlement of wage disputes involving two other major CIO organizations, the United Steel Workers against U. S. Steel corporation and the Electrical Workers against Westinghouse, General Electric and other corporations in this industry.

Decision of G. M. and UAW to resume bargaining reportedly followed a secret meeting between company and union officials in Pittsburgh, Pa., in which the danger of the President's proposal to free negotiation was said to have been discussed. Under Mr. Truman's request for congressional authority to set up fact-finding machinery, government representatives would be empowered to look into both company and union books to determine validity of rival claims and strike action would be withheld during the investigations.

Advanced after failure of the labor - management conference in Washington, D. C., to establish mechanism for speedy settlement of industrial warfare, the President's proposal drew quick fire from union circles, the CIO announcing vigorous steps would be taken in an effort to divert the requested legislation.

In openly breaking with the Democratic administration on the proposed measure, CIO Chieftain Philip Murray declared the design of such legislation was to weaken and destroy labor organization while appeasing American industry which has refused to bargain sincerely over wage demands.

PEARL HARBOR:
Prepared: Marshall

Declaring that American military forces in Hawaii were more adequately equipped than at any other installation in the army, Gen. George C. Marshall, former U. S. chief of staff, told the congressional committee investigating the Pearl Harbor disaster that he felt Maj. Gen. Walter Short was prepared to meet a surprise attack on quick notice.

Reflecting general military opinion, however, Marshall testified that he did not expect a Japanese attack on the big base, even though both the army and navy were aware that enemy spies there were forwarding information on fleet movements in Pearl Harbor to Tokyo. A conservative Japanese thrust southward to Thailand and Malaya was anticipated, Marshall related.

Acknowledging receipt of Short's reply to Marshall warning of possible hostilities sent on November 27, the ex-chief of staff said special attention was not called to the fact that the Hawaiian commander had only reported alerting his forces against sabotage without mentioning other preparations.

Regarding U. S., British, Dutch and Canadian pre-Pearl Harbor discussions, Marshall said their purpose primarily concerned the defeat of Germany rather than Japan. In a message to President Roosevelt sometime in the summer of 1941, the former chief of staff opined that the Allies could not defeat the Nazis with supplies alone, but large ground forces would be required.

Jap Chief Faces Death

First major axis personage to be convicted of war crimes, Japanese General Tomoyuki Yamashita's life depended on a U. S. Supreme court disposition of his appeal that the military commission trying him lacked authority, and finally upon Gen. Douglas MacArthur if the high American tribunal denied his petition. Though Yamashita was not directly charged with committing atrocities, he was accused of having countenanced them. With typical Japanese humility in defeat, Yamashita thanked the U. S. for supplying him with "brilliant and conscientious" lawyers for his trial, and also praised the fairness of the hearings.

FAT STOCK:
Record Sale

Grand champion of the Chicago Market Fat Stock show, Tomahawk, sleek Shorthorn steer raised by Carl A. Henkel of Mason City, Iowa, and Joseph Duea of Belmond, Iowa, brought the highest price ever paid for a steer when it was auctioned off to John R. Thompson, Chicago restaurateur, for $11,100.

Sired from a Shorthorn bull bred by Chicago Packer Thomas E. Wilson, Tomahawk scaled 1,100 pounds, bringing the owners' return to $10 a pound, $1.15 less than the all-time top per pound paid to the Eastern States exposition champion of 915 pounds in 1929. Tomahawk's huge return justified the confidence of its owners, who turned down a $500 bid for the steer 17 months ago.

High prices prevailed for stock champions, Karl Hoffman, veteran Hereford breeder of Ida Grove, Iowa, receiving $30,660 for his grand prize carload of 15 steers averaging 1,022 pounds, and George E. Hoffman and his son, George Jr. of Ida Grove, Iowa, obtaining $1,742 for the top carload of 26 Berkshire hogs averaging 268 pounds.

Honor 4-H

Climax to the whirlwind 4-H congress held in Chicago, Ill., 151 delegates received approximately $32,000 in awards at the annual banquet staged in the Stevens hotel. Of the total, $17,200 was paid in scholarships mostly of $200 denominations while $14,600 was disbursed in travelling expenses and $900 in victory bonds.

Of five-day duration, the 24th annual 4-H convention proved a field day for the 1,200 delegates in attendance, 80 per cent of whom had never been outside their home states or stopped at a hotel, and 50 per cent of whom had enjoyed their first train ride in coming to the meet.

Stressing the need for individual progress and enterprise to assure survival, Secretary of Agriculture Anderson told 4-H delegates that 50 per cent of the youth living on farms will have to seek other occupations due to increasing efficiency and mechanization.

FARM PROBLEM:
CED Solutions

Broader vocational training, special types of rural employment services and an accelerated shift of manufacturing into country areas would materially assist in the increased use of surplus farm labor in industry and help solve one of the primary problems of agriculture, the Committee for Economic Development declared in a statement released by Chester Davis, CED vice chairman and president of the Federal Reserve Bank of St. Louis.

With agriculture destined to look more and more to the co-operative effort of government for assistance in resolving problems arising from heavy mechanized production and pressure on commodity prices, the CED foresaw a need for three types of federal payments within the near future: (1) to enable farmers in depressed regions like the cotton belt to shift to other crops or occupations; (2) to compensate operators for the effect of severe industrial depressions, and (3) to permit realization of the government pledge to support farm prices for two years after the war.

In reference to long-range price policy, CED asked for re-examination of the whole cost system, beginning with a redefinition of parity in relation to existing conditions.

GOP:
Map Platform

Making no bones about their conservatism, Republican members of congress drawing up a campaign platform for 1946 called for balancing the budget, economy and reduction of bureaucracy and represented themselves as the counterweight to what they styled Democratic radicalism.

In rounding out their domestic platform, the GOP solons backed collective bargaining with government provision for speeding settlement of disputes, and also stood for government support of farm prices in the readjustment period and agriculture's future fair share of the national income.

In foreign affairs, the Republicans favored the United Nations organization, the right of individual nations to self-government and extension of relief to the needy in war-torn lands abroad to prevent chaos and misery. Advocating a well-trained armed force, the GOP also asked for scientific research to assure the most modern weapons.

Cocky Hermann

Now heading the list of 20 top Nazis being tried for war crimes in Nuernberg, Hermann Goering found diversion in palmier days playing with animals from his miniature zoo at Karin Hall estate. Blandly assuming responsibility for all of his official acts and continuing to swear by national socialism, Goering has been the most aggressive of the Hitlerian big-wigs at the trial, now in its second phase with British prosecution of principals on charges they violated international treaties.

BRITISH LOAN:
Trade Help

In what the British termed "a magna carta for world trade," the Truman administration replied to their appeal for a loan to permit an orderly resumption of their foreign commerce by agreeing to an advance of 4.4 billion dollars subject to congressional approval.

Flatly turning down British proposals for an outright grant on the strength of arguments that their early stand had prevented a Nazi victory, the administration agreed to spread the loan over a 50-year period at a 2 per cent interest rate, first payable in 1951.

As a result of the loan, Britain will be able to pay off wartime debts by shipment of finished goods to creditor nations, while still importing material to maintain an adequate living standard. The two countries also pledged to work for a reduction in tariffs and the elimination of quotas and other restrictions on world trade.

TROOP TRANSPORT:

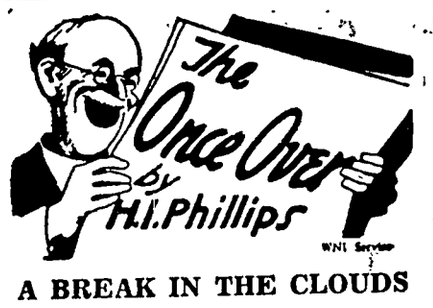
Thirty-two American troop transports with a combined capacity of 83,000 men have been ordered transferred from the Atlantic to the Pacific and will move through the Panama canal by the end of December on their way to Japan or the Philippines, the army said.

Seventeen of the vessels are fast troopships, including the West Point — formerly the America — largest U. S. passenger liner afloat. The other 15 are converted Victory ships.

Points Up Lack of Modern U. S. Roadways

Only 6 per cent of the 333,000 miles of primary rural highways in the United States have more than two traffic lanes, Charles M. Upham, engineer-director of the American Road Builders' association, revealed. "It will surprise many that in 1943 we had only 20,879 miles of roads with more than two lanes, of which 14,661 were three lanes," he said.

"America's mileage in more than two-lane highways is far more limited than most people realize and much of this is not of a high type surface," Mr. Upham went on. "Only five states—Kansas, Minnesota, Nebraska, New York and Texas—have in excess of 1,000 miles each, and the predominance of this is of the three-lane variety. In fact, deducting the three-lane mileage, Kansas has only 93 miles of four-lane or more, Minnesota 253, Nebraska 31, New York 567 and Texas 617."



A BREAK IN THE CLOUDS

The world has troubles everywhere
And turmoil seems unending;
The strikes are getting in my hair—
New conflicts are impending;
But suddenly all life seems gay,
In fact my joy seems utter. . . .
Last night I heard the waiter say,
"Perhaps you'd like more butter!"

The cost of living hits the sky
And what I seek is lacking;
(It even costs too much to die,
Without financial backing.)
The bright new world looks extra black;
I think the planet's batty. . . .
But, ah, the joy within that crack,
"Another butter patty?"

For four war years and maybe more
My life was sad and dreary;
Those sacrifices of the war
Were not too easy, dearie;
My heart seemed like a ton of lead
As peace rows did appal me
But all is well . . . a waiter said,
"YA WANT MORE BUTTER, CALL ME!"

Diary of Eva Braun

("Eva Braun left a diary in which she traced her life with Hitler, frequently chiding him as a lover lacking the romantic moods."—News item.)

March 6—This is my birthday. Adolf ignored it beyond sending me a card which said, "Never again will Germany lose the war through the disintegration of its army. I waited all day for him and was very sad. Over and over my heart kept asking me, "Does he want France, Norway, Poland and Belgium more than he wants you?"

—*—

March 26—Adolf took me to the opera tonight. He was very sentimental, continually pressing my hand and whispering, "What I'll do to those Russians!" When he left me he did not shove me headfirst out of the auto as usual, but kissed me and said, "If you're a good girl, I'll give you Denmark and a box of candy." My heart was all aflutter.

—*—

April 10—Adolf called me on the phone and was in one of his lovelier moods. He said he had a big surprise for me. I asked him what it was. He said, ever so sweetly, "The army is trying out a new long range cannon."

—*—

May 1—This is the first of May. Spring is in the air. The birds are twittering. The trees are in flower. And to cap all this Adolf came to see me and for almost five minutes did not talk about himself! He brought me another gift, a photo of himself inscribed, "To Eva from Uncle Tom. Forward to the mastery of the world!"

—*—

June 21—This is the first day of summer. Adolf called with roses and a copy of his last speech. He was very tender. After dinner we sat on the porch. He held my head in his lap and traced out a new Russian campaign on my forehead with a slate pencil.

—*—

August 1—Dinner at the Hotel Vierzihreszeiten with Adolf, the boy friend. He was his old playful self and kept kicking my ankles under the table with his boots and making coy remarks like, "I will never take off this uniform until Germany has conquered all her enemies." What a man!

* * *

'The Man Who Broke The Bank'

One of the songs of our earliest childhood (we can remember Mom and Pop humming it) was "The Man Who Broke the Bank at Monte Carlo." We supposed the author had crossed the Jordan many years ago, and were surprised to read that its author, a Charles Coborn, just died in London at the age of 93. The number was once a world-wide musical hit, and ran:

As I walk along the boulevard
With an independent air
You can hear the girls declare
"He must be a millionaire";
You can hear them sigh and wish to die—
You can see them wink the other eye
At the man who broke the bank of Monte Carlo.

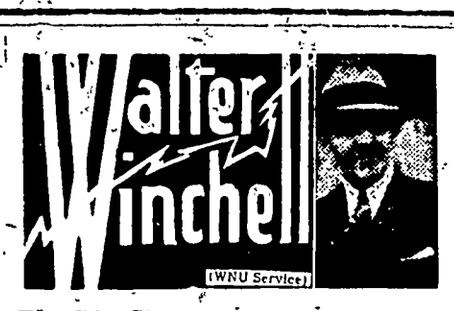
* * *

Twenty thousand quarts of champagne stowed away by Von Ribbentrop in the cellars of the German embassy in London have been impounded "for entertaining purposes." John Bull with a nod in the direction of the trial of the former wine salesman: "Here's looking at you!"

* * *

IT COULD ONLY HAPPEN HERE

Scene — Front of Paramount theater in Times Square, N. Y. Thousands of bobby-sockers, recognizing Frankie Sinatra in a flash, set up a terrific commotion. On the curb a few moments later, one of them gazes at the enormous replica of the Statue of Liberty directly opposite the theater and asks, "Say, who's that?"



The Big City:

The iron coughing of trolleys as they rumble from corner to corner. . . . New York servicemen (just back from overseas) strolling along Bright Light Lane and warming their spirits over familiar sights. . . . The sunrise festival of vivid hues celebrating the birth of a new day. . . . Broadway's visual poetry punctuated by skyscraper exclamation points. . . . Hot-dawg addicts gulping the delicacy as if it was the last h. d. on earth. . . . The numbing surgery of a comely waitress' sharp glare cutting off a Romeo's spiel. . . . Cabbies bullying their way through traffic. . . . A beanery with a caviar tag: Rendezvous de Leon. . . . Film box-offices growing tails of waiting patrons blocks long. . . . Shadows scribbling grotesque murals across the street.

The furry waves of mink-coated first-nighters drowning a theater in luxury. . . . Side-street hotels bruised with age, where misery goes to find company. . . . Vain Stem thespians basking in the spotlight of their bragging tongues. . . . Weary night-workers squatting on the masses' throne—a subway seat. Their cob-webbed orbs peer at each other as if they weren't there. . . . The well-heeled set pulling themselves up by their own booty. . . . Salesgals tucking the frayed edges of their patience under a smile and pinning it with a dimple. . . . The rainbow glint of jewelry on a Money Lisa. Her diamonds are campaign stars for boudoir battles. . . . A deep, blue-eyed noon sky twinkling with sunshine, scarcely noticed by lunch-hourites.

Morning stripping the Big Alley of its sparkling fig leaves, while the sun exposes is nude ugliness. . . . Shooting galleries recruiting customers by playing martial music. . . . Dusk prowling about the horizon as The Street puts on its mazda apron and goes to work impressing passersby. . . . Professional mendicants who are skilled window-dressers of their sympathy display. . . . Five ayem, when Broadway's raucous roar subsides into a comforting purr. . . . The Saturday evening jubilee spree, when Neon Valley is packed to the brim with humanity attempting to smuggle a little amusement into their harried lives. . . . Midtown's paralytic traffic snailing its way forward. . . . Tin Pan Alley's jittery tempo striking up an overture for songwriters' insomnia.

Midtown Vignette: George Mann reports about the kindly gentleman on a park bench, who was breaking bread crumbs for the pigeons. One pigeon fluttered down on the old man's knee to peck at crumbs that had fallen there. . . . "Do you like these crumbs better than popcorn?" asked the kindly old fellow. . . . The pigeon cocked his head up at him and then resumed eating.

"Well," continued the old man, "here it is nearly December. I suppose you birds will be leaving me soon for the Southland." . . . Again the pigeon looked up—said nothing and went on eating. . . . The old man got irritated and yelled: "Whatinell's the matter with you? Are you too good to talk to me?" . . . This time the pigeon didn't even look up but went on eating. . . . "How do you like that?" asked the old gentleman shaking his head. "A deaf and dumb pigeon!"

Sounds in the Night: In the Metropole: "Waiter, bring me a skirtch and soda." . . . At Enduro: "She stays out until the woo hours of the morning." . . . At Armando's: "They've just been divorced. She got custody of his money." . . . At the Henry Hudson Terrace: "He's a heeluva guy." . . . At Lum Fong's: "She used to be his heartache. Now she's just his earache." . . . In the Stork Club: "Mayor LaGuardia will be the first guy in show business, who knows enough about horses not to bet on them." . . . At the Chateaubriand: "Oh, well, here's mud in your mind."

Manhattan Murals: Placard in an E. 56th St. candy store window: "Welcome Home, Tony, You Phony!" . . . The 98c packages of Jap souvenir invasion money sold at newsstands in Penn depot. . . . Jimmy's Sawdust Trail where the cover charge is ten cents. . . . The "No Dogs Allowed" sign outside the Pea Circus on 42nd Street. . . . The tiny restaurant near Toots Shor's on W. 51st Street, which advertises: "Lunch 65c—Positively No Celebrities!" . . . One ad agency is so snooty it won't hire any office boy "below the rank of Lieut.-Colonel."

On Thanksgiving Eve, during that heavy rainstorm, cops recorded 41 fights on B'way. Most of them over who hailed the cab first. . . . Football betting with Broadway bookies this season totaled more than 12 million dollars in the Metropolitan area. . . . Clen Ryan, ex-secy to the mayor, is starting his own realty firm with nothing but millionaires for partners. . . . Eric Johnston's first official banning (since becoming movie boss) was Carole Landis singing a film ditty titled: "I've Got a Flame Too Hot to Handle."

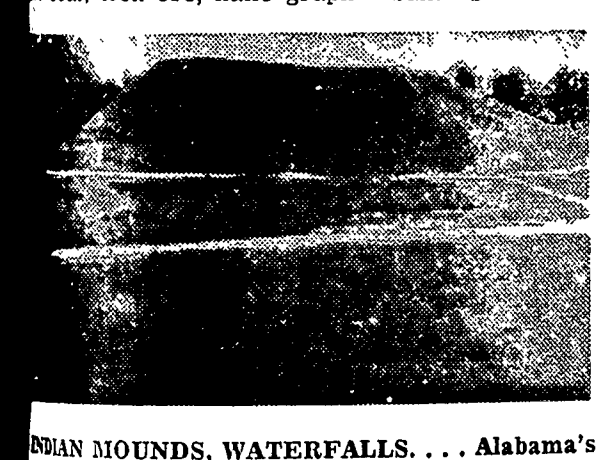
ALABAMA—Cotton State.
STATE FLOWER: Goldenrod.
MOTTO: We Dare Defend Our Rights.

Alabama's state government has been streamlined. The state treasury holds a surplus of 40 million dollars. Its industries are expanding. Agriculture is prosperous. Natural resources are being conserved and wisely utilized. Rich by nature, Alabama is made richer by man's skill and intelligence. Alabamans travel toward new horizons. But they do not forget their heritage of the past.

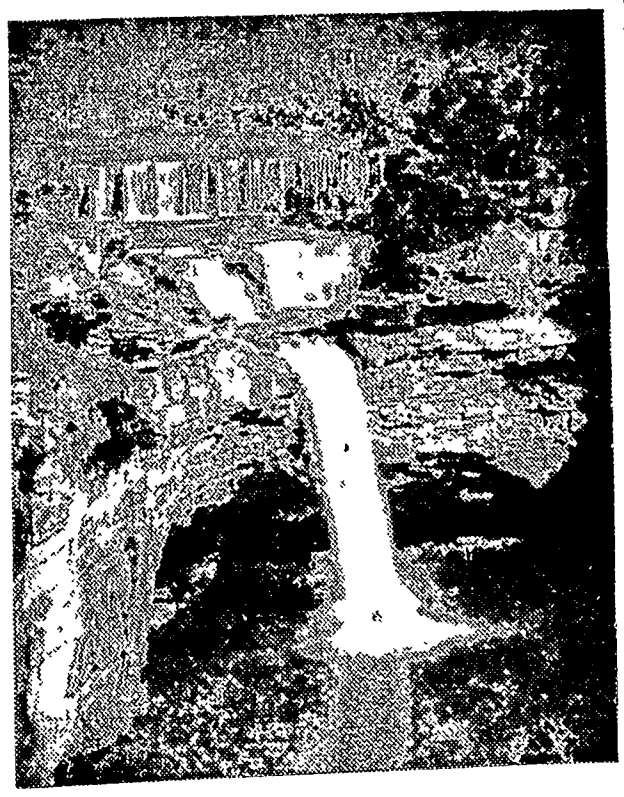
DeSoto and his Spaniards passed through the lower Gulf country in 1540. Once a part of Louisiana, it was old Fort Louis de la Mobile on Mobile river that was made the capital in 1702. Mobile at its present site dates from 1711. Later Alabama was a part of the territory of Mississippi, formed in 1798, but became a separate territory in 1817 and a state in 1819. St. Stephens was the territorial capital, and Huntsville was the temporary seat of the first state government. Cahawba was the first state capital site, but the government moved to Tuscaloosa in 1826. It was not until 1847 that Montgomery became the permanent seat.

When Alabama seceded from the Union on January 11, 1861, the delegates from the southern states met at Montgomery and selected Jefferson Davis as president of the Confederacy. He was inaugurated at the present state capital.

Alabama passed through the throes of reconstruction after the Civil war, but emerged into a new era of development which continues steadily. With a temperate climate, fertile soil and raw materials, the possibilities for advancement and progress are portrayed vividly against the mellowness of the old South down in Alabama, where people are proud to say: "This is our homeland."

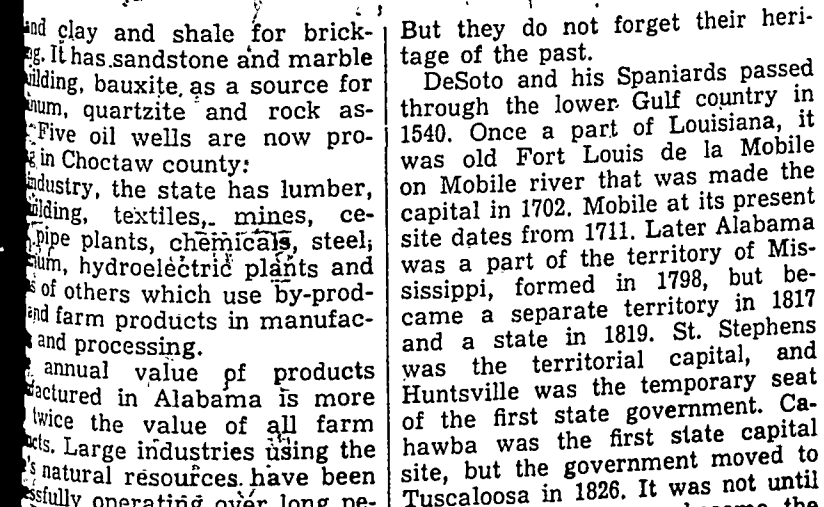


INDIAN MOUNDS, WATERFALLS. . . . Alabama's highways and all-year-'round climate bring points close to those who live in the cities. Above re shows the highest of the many Indian mounds in the state. On the right is one of the state's s waterfalls. With a rich historical background, ma has hundreds of old mansions and other spots urists to visit. The Alabama Memorial building easure-house of documents, pictures and relics of irring days of '61 and other periods of the state's y. Every town retains its historical interest. In contrast to virgin forests and waterfalls are the estacks of Alabama's industrial plants, the busy its cities and its many airports.



GOVERNOR CHAUNCEY SPARKS

Elected governor in 1942, Chauncey Sparks, a bachelor, was a lawyer, judge and legislator before entering his high office. He was born at Eufaula, Ala., October 8, 1884. He is a graduate of Mercer university, Macon, and a member of the Baptist church.



Alabama's Forests

The forests of Alabama constitute one of its greatest assets, supporting 2,500 sawmills, 5 paper and pulp mills and 133 other wood-using industries, and giving employment to 100,000 people.

The state has approximately 19 million acres of forest growth. As some lands are cleared other lands are being planted to trees. Pines, cypress, red cedar and hemlock are principal soft woods, while hard woods include oak, red gum, etc.

The Washington MERRY-GO-ROUND

By DREW PEARSON

FRIEND OF ENLISTED MAN

WASHINGTON. — If there were more men in the army like General Eisenhower, this newsman would not be so swamped with soldier mail.

The other day Sgt. Samuel Cohen of Philadelphia, stationed in Berlin, received a cable telling of a serious emergency at home. Physicians advised his return immediately. Two weeks passed and all Cohen got was the usual army run-around. He couldn't get a furlough. Finally, a friend suggested that Cohen call General "Ike" directly.

"What can I lose?" Cohen asked, going to a telephone.

When he asked the G.I. operator for General Eisenhower, the operator asked with no surprise in his voice whether he should ring the general at his home or his office. Since it was then about 10 o'clock in the evening, Cohen said to try the general's home.

An aide to Eisenhower answered and listened to Cohen's story, excused himself for a few minutes, came back to the telephone and said, "Sergeant, if you will call the office of General Clay, perhaps something can be arranged for you.

"You had better wait about 10 minutes before calling General Clay," he added, "to give General Eisenhower a chance to talk with him first."

Ten minutes later, Cohen called General Clay, where an aide said, "Oh, yes, sergeant, we've been expecting your call. Now can you come in at eight o'clock tomorrow morning? We'll see about transportation then."

Cohen took off by air the next day before noon.

TRUMAN TURNS REPORTER

Congressional leaders who met with President Truman recently to discuss serious legislative problems got a chuckle over Truman's story about his surprise flight to see his mother on her 93rd birthday.

Newspapers have already told how Truman called the Kansas City Star to announce his arrival in Grandview, Mo. But in addition, here is what Truman told his congressional leaders really happened:

It was Sunday afternoon and the usually bustling city room of the Star was in a lull. Only a skeleton editorial force was on the job, and a young reporter answered the phone.

"This is the President," said Truman.

"Who?" said the reporter.

"This is President Truman."

"The hell it is," exclaimed the newsman, convinced that somebody was pulling a practical joke. "Mister, who are you trying to kid?"

Finally the call was tranferred to another writer on the paper, who knew Truman personally and could identify his voice. Highly amused, the President told him the news of his visit.

* * *

FOGGY FOREIGN POLICY

Harry Hopkins, now hospitalized in New York, is not improving. Always a living skeleton, Harry kept himself alive because of his love of FDR. Now that FDR is gone, Harry has no more zest for work. . . . Sen. Claude Pepper of Florida is returning from a three-month tour of Europe to blister the administration's handling of foreign policy. Coming on top of Senator Fulbright's two-fisted attack, perhaps somebody around the state department will wake up to the fact that the seeds of World War III can be planted right now. . . . The strategic services unit of the war department (it was formerly the "Oh-so-secret" office of Gen. "Wild Bill" Donovan) has just set up a very interesting project which will not keep the peace. It is working on a "plan for an order of battle for a war with Russia." The job is under direct supervision of Maj. Raymond Cromwell, former Tokyo correspondent for the Wall Street Journal.

* * *

CAPITAL CHAFF

Former Coast Guard Comdr. Joel Fischer was in Germany trying to root out hidden Nazi funds. Cross-examining war criminals, he found them anxious to get American lawyers to act in their defense. When asked his views on the best American lawyers, Fischer, with straight face, replied: "You ought to try to get Clarence Darrow or Perry Mason." Fischer's victims took careful notes, not realizing that Darrow has been dead for more than five years and that Mason is a fictional character in Earle Stanley Gardner's mystery stories.

Government press officials recently beat down a second attempt by War Mobilizer John Snyder to maintain a peacetime censorship over the statements of their bosses. They rejected all censorship schemes flatly during a secret session at the White House, promising to check among themselves to be sure major policy statements of cabinet members and other key officials are not too far apart. . . . Randolph Paul, one of the ablest tax men the U. S. treasury has ever had, is completing a book on taxation, written for popular reading.

SEWING CIRCLE PATTERNS

Broad Shouldered Junior Jumper All-Occasion Frock for Matrons

Attractive Jumper

YOU'LL catch many an admiring glance in this wide-girdled, broad-shouldered jumper especially designed for the junior crowd. Make it in a soft lightweight woolen and add the bow-tied blouse in bright contrasting checks.

* * *

Pattern No. 8930 is designed for sizes 11, 12, 13, 14, 15, 16 and 18. Size 12, jumper, takes 1⅞ yards of 54-inch material; blouse, 1⅛ yards of 35 or 39-inch fabric.

Frock for Mature Figure

A SIMPLE, well-mannered, all-occasion frock for the more mature figure. Shoulder gathering and waistline darts give fullness to the waist—the beautifully gored skirt is so graceful.

* * *

Pattern No. 8923 comes in sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36 requires 4¾ yards of 35 or 39-inch material or 3 yards of 54-inch.

Sunday School Classes Had Party At The Harvey House

Mrs. H. E. Harvey's and Dwight Hummell's Sunday School Classes enjoyed a party at the home of Rev. and Mrs. H. E. Harvey, Friday evening.

Games and stunts were played and an exchange of Christmas gifts was enjoyed. Lunch was served.

Local Happenings

Klemme and Vicinity

Merry Christmas everybody!

Mr. and Mrs. R. W. Elder were visiting in Belmond Thursday.

Mrs. Harry Carpenter of Goodell was in Klemme on business Thursday afternoon.

Orville Maben and son of Garner were in Klemme on business Friday morning.

Ray Jorgenson, Jr., was in Forest City on business Thursday afternoon.

Mrs. A. L. Kingery was confined to her bed with illness several days this week. She is improved at this writing.

A new electric refrigerator has been installed at the school house as part of the Hot Lunch equipment.

The Methodist Choir enjoyed an oyster stew at the Emil Beier home after choir practice Friday evening.

The American Legion's Feather Party drew a big crowd Wednesday evening. Mr. Matson of Goodell was awarded the pig the Legion gave away.

Miss Thelma Chambers, teacher in the Britt high school, came Friday to spend the holidays with her parents, Mr. and Mrs. J. A. Chambers.

Miss Novella Bredbenner, who teaches in Des Moines this year, came home Friday to spend the holiday vacation at the home of her mother, Mrs. Martha Bredbenner.

The Times received a telephone call from Lt. Lyndon "Pete" Kilgore this morning saying that he was now out of the army and expected to be up this way in a few days.

Major and Mrs. Dominic of Clear Lake were in Klemme on business Thursday. Mrs. Dominic is the former Doris Ludeke daughter of Mr. and Mrs. Ralph Ludeke formerly of this community now living south of Clear Lake. Mr. and Mrs. Dominic have purchased a cafe at Ames near the campus which they will operate.

The Misses Eunice Larsen and Patricia Kudje arrived home Friday from Iowa City where they are students at the University of Iowa. They will spend the holiday vacation with their respective parents, Mr. and Mrs. C. A. Larsen and Mr. and Mrs. A. J. Kudje. Miss Larsen is a sophomore in the University, while Patricia is a freshman.

Emil Beier took his bus load of school children to see Tom Blank's beautiful Christmas tree Friday after school. Mr. Blank's mechanical tree is a sight worth going to see. Hot air from burning candles provides the motive power for the turning of the tree. We might add that Mr. Blank's Christmas tree is one of the wonders of Klemme. Mr. Blank made the many ornaments and parts that are a part of the tree.

"I Was An American Spy!! From the moment he parachuted into France, life was anything but boresome for the artist who became a U. S. secret agent. Read his own story in The American Weekly, the magazine distributed with next week's SUNDAY CHICAGO HERALD-AMERICAN. 1tc

Fire Department Answers False Alarm At Etchen Home

The Klemme fire department made a quick run to the John Etchen residence Thursday evening when an alarm was turned in when the roof was thought to be on fire.

The "smoke" coming off of the roof was only steam from an overflow in the hot water heating system. "Jack" had an extra good fire going in the furnace and the water boiled in the furnace, the excess steam going out through a vent pipe in the roof, causing the steam to appear like smoke in the sub-zero temperature.

School Faculty Had Christmas Party At Home Of Mrs. Lewis

The faculty of the Klemme high and grade schools and the gentleman friends of the teachers all enjoyed a Christmas party at Mrs. Rose Lewis' home Friday evening.

The evening was spent informally and a gift exchange was held. Refreshments were served later in the evening.

Programs Held At School Friday Afternoon

Friday afternoon was a holiday for the pupils in the Klemme schools as each of the several rooms had a Christmas program. Games were played, gifts were exchanged and treats were in order for everybody.

RED CROSS LADIES WILL MEET AGAIN JANUARY 8

The Klemme Red Cross ladies will hold their next meeting at the school house on Tuesday, January 8th, beginning at 2:00 p. m.

The ladies have a lot of sewing to do and need help to make over 300 garments to be delivered Mar. 1st.

All ladies in the community are asked to help.
